2. Our Company operates under several statutory and regulatory permits, licenses and approvals. Failure to obtain and/or renew any approvals or licenses in future may have an adverse impact on our business operations.

Our Company requires several statutory and regulatory permits, licenses and approvals to operate the business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Further, these permits, licenses and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant permits/ licenses/ approvals. 3. We, being a pharmaceutical company, operate in a highly regulated and controlled industry. Any change in regulatory environment may have an impact on the business of the Company.

We being a pharmaceutical company operate in an industry which is highly regulated and controlled. The industry has extensive regulations pertaining to research, testing, manufacturing, quality standards, selling and marketing of pharmaceutical products etc. The Company keeps itself abreast of the various developments relating to the regulatory environment and gears itself in order to comply with such regulatory changes, application and the renewal of regulatory approvals. However, in case the Company is unable to adapt itself to such regulatory changes, obtain the necessary approvals / renewals for all our products the business of the Company may be impacted adversely.

4. We are yet to receive certain registrations in connection with the protection of our intellectual property rights, especially trademarks relating to our products. Any failure to protect our intellectual property rights could adversely affect our competitive position, business, financial condition and profitability.

We have applied for certain registrations in connection with the protection of intellectual property rights, including trademarks, which are currently pending. The registration of any intellectual property right is a time-consuming process, and there can be no assurance that any such registration will be granted. In the absence of such registration, competitors or other companies may challenge the validity or scope of our intellectual property. Unless our trademarks are registered, we may only get passing off relief for our Trademarks, if used by others, which could materially and adversely affect our brand image, goodwill and business. Similarly, in case these registrations are rejected, our competitors may start marketing the
products resulting in us losing out on market share and first mover protection, which could adversely affect our competitive position, business, financial condition and profitability. For more details please refer to the chapter “Government and Other Approvals” on page 155 of this Draft Prospectus.

5. **Logo of our Company is not registered under Trademark authorities. We are unable to assure that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.**

Our Company has made application for registration of our logo under trademark authorities, which is under process of registration. The registration for the said trademark in our name is important to retain our brand equity. If our application for registration is not accepted or if the oppositions filed against our trademark application if any, are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our pending application would be granted registration or if granted registration, will not be invalidated or circumvented. We are unable to assure that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate. For further details please refer to chapter titled ‘Government and Other Approvals’ on page 155 of this Draft Prospectus.

6. **Our Company does not own the premises of our Registered Office.**

Our Registered Office is situated at Darbara Complex, SCO 113, First Floor, District Shopping Centre B Block, Ranjit Avenue, Amritsar – 143 001, Punjab, is on leased premises and is not owned by us. As per the lease agreements, any breach of the terms / non renewal of the license agreement may require us to vacate the said premises which may cause disruption in our corporate affairs and business and impede our effective operations and thus adversely affect our profitability. For more information, please refer to chapter titled “Our Business—Properties” on page 74 of this draft Prospectus.

7. **Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters remain associated with us.**

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Our Promoters have been actively involved in the day to day operations and management since the incorporation of the Company. Accordingly, our performance is heavily dependent upon the services of our Promoters. If our Promoters are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all.

The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

8. **We are dependent on our management team for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.**

Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the management team and staff could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

9. **Our success is dependent on the quality control processes and any failure to maintain the quality of our products may affect our reputation and business.**

We believe that our success is dependent on our quality control processes. Our quality assurance department ensures quality control at every stage of production, packaging and dispatch. We believe that
we have built strong relationships with our customers due to the quality of our products which has translated into operational growth. In the event we are unable to maintain our quality control processes, for any reason whatsoever, our business, reputation and results of operations would be adversely affected.

10. Any delay in production at, or shutdown of, any of our manufacturing facilities, could adversely affect our business, results of operations and financial condition.

The success of our manufacturing activities depends on, among others, the productivity of our workforce, compliance with regulatory requirements and the continued functioning of our manufacturing processes and machinery. Disruptions in our manufacturing activities could delay production or require us to shut down the affected manufacturing facility, which could adversely affect our finance and operations.

11. Any fluctuations in prices of raw materials or shortage in supply of raw material for manufacturing our products, could adversely impact our business.

Our Company is dependent mainly on the various raw materials and packaging materials for the manufacture of its products. Our Company is exposed to upward fluctuations in the prices of various raw materials and packing materials, as well as its availability, as we do not enter into any supply agreements with our suppliers and all raw materials are bought by our Company from various suppliers on order to order basis. Any upward fluctuation in the prices of the major raw materials or shortage in supply of any major raw material or any increase would result in increase of cost of production which may adversely impact the business of the Company. Further, with a view to reduce the cost of production and insulate itself from future rise in prices or mitigate the risk of shortage of raw material, the Company has always been innovative in sourcing of raw materials and packaging materials, and will continue to maintain this approach. In case the Company is not able to pass on any such increase to the consumers because of competition or otherwise, it may affect the profitability of the Company.

12. Failure to effectively manage labour or failure to ensure availability of sufficient labour could affect the business operations of the Company.

Our business activities are dependent on availability of skilled and unskilled labour. Non-availability of labour at any time or any disputes with them may affect our production schedule and timely delivery of our products to customers which may adversely affect our business and result of operations. Though we have not faced any labour problem in the past we cannot assure that we will not experience disruptions to our operations due to disputes or other problems with our work force, which may lead to strikes, lock- outs or increased wage demands. Such issues could have adverse effect on our business, and results of operations.

13. Our funding requirements and proposed deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution and actual cost may vary compared with the estimated amount.

Our funding requirements and the proposed deployment of the proceeds of the Issue are based on management estimates, quotations from suppliers and on our current business plan and have not been appraised by bank or financial institution. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management’s current expectations and are subject to change due to various factors some of which may not be in our control. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.
14. **The capacity of our current plant at Himachal Pradesh unit is not fully utilized. Consecutively, if there is also any under-utilization of our capacities in next three years, it could affect our ability to fully absorb fixed costs and thus may adversely impact our financial performance.**

The capacity of our current plant at Village Kishanpura, Baddi, Himachal Pradesh is not fully utilized. Even though the capacity utilization of our plants has been increasing on a year on year basis in the last three years, the capacities of our product ‘Dry Injectable Powder’ at our current Plant has not been fully utilized over the last three financial years. Further, we propose to fully utilize our production capacities in next three year based on our estimates of market demand and profitability. In the event of non-materialization of our estimates and expected order flow for our product and/or failure of optimum utilization of our capacities, due to factors including adverse economic scenario, change in demand or for any other reason, our capacities may not be fully utilized thereby impairing our ability to fully absorb our fixed cost and may adversely impact our financial performance. For details regarding the existing installed and utilised capacity, kindly refer to “Our Business – Capacity and Capacity Utilization” on page 70 of this Draft Prospectus.

15. **If we are unable to source business opportunities effectively, we may not achieve our financial objectives.**

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analysis of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

16. **Our insurance coverage may not adequately protect us against certain operational hazards and this may have a material adverse effect on our business.**

Our Company has, in the ordinary course of business, availed insurance cover for certain risks. While we believe that the insurance coverage we maintain would reasonably be adequate to cover all normal risks associated with the operation of our business, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, or the insurance policy covering such risk is not honoured, our results of operations may be adversely affected. For details of our insurance policies please refer to the section titled “Our Business” on page 68 of this Draft Prospectus.

17. **We have had experienced growth in the recent past years and if we are unable to sustain or manage our growth, our business, result of operations and financial condition may be adversely affected.**

We have experienced significant growth in the recent past years. For FY 2015-16 our revenue from operations is Rs. 5492.30 Lakhs as compared to Rs. 3684.16 Lakh for FY 2014-15. Our operations have also grown considerably over the past two years. We may not be able to sustain our rate of growth due to various reasons such as decreased demand, increased competition, non availability of raw material or labour, general slowdown in the economy. A failure to sustain our growth may have an adverse effect on our business and result of operations. Though we are embarking on a growth strategy and focusing on increasing operational efficiencies, such strategy may place pressure on our overall operational efficiencies, and financial, accounting and operating system. We can not assure that our future performance or growth strategy will be successful. Our failure to manage growth effectively may have an adverse effect on our business, result of operations and financial condition.
18. We have entered into certain related party transactions and may continue to do so.

We have entered into related party transactions with our Promoters, its promoter group members/entities and Directors. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled "Related Party Transactions" at page 105 of this Draft Prospectus.

19. Our Group entity has posted negative profits in the past.

As a result conflict of interest may arise in allocating business opportunities between our Company and our Group Company in circumstances where our interests diverge. Although ANG Healthcare India Private Limited has not commenced its commercial operations yet there is no assurance that our Company and our group Company will not compete with each other for any existing or future business opportunities. Any such present or future conflicts could have material adverse effect on our reputation, business, result of operations and financial condition.

21. Our Statutory Auditors have qualified audit report as of and for the year ended March 31, 2013 and March 31, 2014.

Our Statutory Auditors Bhupinder Singh & Associates, Chartered Accountants, have qualified the audit report on our financial statements as of and for the year ended March 31, 2013 and March 31, 2014 as mentioned below:

“The balances of the trade receivables, trade payables and loans and advances are subject to confirmation/reconciliation and subsequent adjustments, if any. As such we are unable to express any opinion as to the effect thereof on the financial statements for the year.

The consequential effect of the above on assets and liabilities as at March 31, 2013 & March 31, 2014 and on loss for the year ended 31st March, 2013 & 31st March, 2014 is not ascertainable.”

The financial impact of the said qualifications is not quantifiable.

22. We have reported negative cash flows.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

<table>
<thead>
<tr>
<th>Particulars</th>
<th>As at September 30, 2016</th>

If the negative cash flow trend persists in future, our Company may not be able to generate sufficient amounts of cash flow to finance our Company’s working capital, make new capital expenditure, pay dividends, repay loans, make new investments or fund other liquidity needs which could have a material adverse effect on our business and results of operations.

23. **Our Company has availed the 15% Central Capital Subsidy Scheme 2003 and failure to comply with the terms of the same may inter-alia lead to the amount of subsidy being repayable and it would adversely affect our financial conditions.**

As per the terms of the Subsidy Scheme, the Government has sanctioned the subsidy of Rs. 30.00 Lac to our Company subject to certain conditions such as shifting the whole or part location of the unit, submission of Annual Progress Report to the Ministry of Commerce etc. In the event of the non compliance of the conditions laid down in the sanction order of subsidy by our Company, we will require to repay the subsidy to the Government. The same shall adversely affect the financial condition and business prospects of the Company.

24. **We are subject to the restrictive covenants of banks in respect of the Loans/ Credit Limits and other banking facilities availed from them.**

In the event we breach any financial or other covenants contained in any of our financing arrangements, we may be required under the terms of such financing arrangements to immediately repay our borrowings either in whole or in part, together with any related costs. This may adversely impact our results of operations and cash flows. For further details on the Cash Credit Limits and other banking facilities, please refer chapter titled “Statement of Financial Indebtedness” on page 133 of this Draft Prospectus.

25. **We have not obtained ‘Consent’ /’No objection Certificate’ from our bankers for this IPO pursuant to the terms of agreements entered with them while obtaining financing facilities.**

Pursuant to the Financing Agreements entered into by us with the Punjab National Bank, we require to obtain ‘Consent’/’No Objection Certificate’ from Punjab National Bank to undertake certain corporate actions, including this IPO. Though, we have informed our bankers about our intention to undertake this IPO, we have not yet obtained written ‘Consent’/ ‘No Objection Certificate’ from our bankers for undertaking this IPO, and the same is awaited. While our Company intends to obtain all the necessary consents in relation to this IPO from our bankers prior to this IPO, undertaking this IPO without obtaining the Banker’s consents, may constitute a breach of the Financing Agreements. Any breach of such Financing Agreements may enable our bankers to revise terms of our Financial Arrangements. If our obligations under the Financing Agreements are accelerated, our financial condition and operations could adversely be affected.

26. **Our Company has obtained unsecured loans, which are repayable on demand. Any demand from lenders for repayment of such unsecured loans, may adversely affect our business operations and financial condition of our Company.**
As on September 30, 2016 our Company has unsecured loans aggregating to Rs.231.65 Lacs which are repayable on demand. For further details of these unsecured loans, please refer to chapter titled “Financial Information” beginning on page 107 of this Draft Prospectus. In case of any demand from lenders for repayment of such unsecured loans, the resultant cash outgo, may adversely affect our business operations and financial position of our Company.

Company’s borrowings from Punjab National Bank have been rescheduled alongwith payment terms pursuant to request for rescheduling being made by our Company. During the relevant period, our Company’s business was adversely affected by restructuring of the board and overall industrial slowdown. Consequently our Company made an applications to Punjab National Bank for the reschedulement of the said loans and our lender, Punjab National Bank, has rescheduled the existing term loans availed by us, aggregating to Rs. 836.26 Lacs including sanction of Funded Interest Term Loan of Rs. 249.42 Lacs vide letter dated January 05, 2013. For further details in this regard, please see the chapters titled “History and Certain Corporate Matters” and “Statement of Financial Indebtedness” on pages 83 and 133 of this Draft Prospectus.

28. Our operations are subject to high working capital requirements. Our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet our requirement of working capital or pay our debts, could adversely affect our operations.

Our business requires significant amount of working capital. In many cases, significant amount of our working capital is required for purchasing and maintaining of stock of primary raw materials. These raw materials are purchased locally. Though, presently we have availed working capital limits to the extent of Rs. 500.00 Lacs from our lenders, we may need to incur additional indebtedness in the future to satisfy our working capital needs. All these factors may result in increase in the quantum of our current assets and short-term borrowings. Our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet our requirement of working capital or pay our debts, could adversely affect our financial condition and results of operations.

29. We have not made any alternate arrangements for meeting our working capital requirements mentioned in the “Objects of the Issue” further we have not identified any alternate source of financing the “Objects of the Issue”. Any shortfall in raising/meeting the same could adversely affect our growth plans. Operations and financial performance.

As on date we have not made any alternate arrangements for meeting our working capital requirement mentioned in the Objects of the Issue. We meet our working capital requirement through bank finance and internal accruals. Any shortfall in our internal accruals and our inability to raise debt in future would result in non availability to meet the working capital requirement, which in turn will affect our financial condition and result of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this IPO or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 50 of this draft prospectus.

30. The Promoter and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our
Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

31. **The Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.**

Certain of our Directors and our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company please refer chapter titled “Our Management” at page 87 of this Draft Prospectus.

32. **Our company has not complied certain provisions of The Companies Act, 2013 such non compliances may attract penalties.**

Our Company has not complied with certain provisions of Section 185 of the Companies Act, 2013 while giving loan to a Sole proprietary firm owned by our Promoter Mr. Rajesh Gupta. Though we have not received any notice for such non compliance, we cannot assure that no penalties will be imposed by relevant authorities in this respect which may affect our financial condition.

33. **We do not have a track record for payment of dividend on Equity Shares.**

We have not declared any dividend on our Equity Shares since inception as we had been deliberately pursuing the policy of covering back our profits to fund our expansion plans. The future payment of dividends, if any, would be based on the then available distributable profits and the recommendations of our Board of Directors.

34. **We may not be successful in implementing our business strategies.**

The success of our business depends substantially on our ability to implement our business strategies effectively or at all. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

35. **Some of the transfer deeds in relation to the Company are misplaced and currently not traceable.**

The transfer deed in relation to transfer of shares of our Company dated September 02, 2011 for 10,000 Equity Shares from Mr. Rajesh Gupta to Ms. Saruchi Gupta and dated October 15, 2012 for 2000 Equity Shares from Mr. Rajesh Gupta to various public shareholders, were misplaced while transporting them for certain purposes. Further, while details of such transfers have been included in the register of transfer and register of members maintained by the Company in accordance with the provisions of Companies Act, we cannot assure you that these deeds will be available in the future or that we will not be subject to any penalty imposed by the competent regulatory authority in this respect.

36. **The requirements of being a listed company may strain our resources.**

As a listed company, we will incur significant legal, accounting, corporate governance and other expenses
that we did not incur as an unlisted company. We will be subject to the SME Listing Agreement with the BSE Limited, which require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required.

RISKS RELATING TO THE EQUITY SHARES

37. Any future issue of Equity Shares may dilute the shareholding of investors and sales of Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors’ shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

38. Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

The amount of our future dividend payments, if any, will depend upon our Company’s future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

39. The price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.

Prior to the offer, there has been no public market for our Equity Shares, and an active trading market on the SME Platform of BSE. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the Education Sector, developments relating to India and volatility in the Exchange and securities markets elsewhere in the world. However, the LM will arrange for compulsory market making for a period of 3 years from the date of listing as per the regulations applicable to the SME Platforms under SEBI (ICDR) Regulations, 2009.

40. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

41. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Guiness Securities Limited is acting as Designated Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of
operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India’s fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the section titled “General Information – Details of the Market Making Arrangement for this Issue” on page 37 of this Draft Prospectus.

42. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder’s ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Issue, we will be subject to a daily “circuit breaker” imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

EXTERNAL RISK FACTORS

43. Political, economic and social changes in India could adversely affect our business.

Our business, and the market price and liquidity of our Company’s shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

44. Our business may be adversely affected by competition laws in India and any adverse application or interpretation of the Competition Act could adversely affect our business.

The Competition Act, 2002, as amended (the “Competition Act”), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.
The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

45. **The nationalised goods and services tax (GST) regimes proposed by the Government of India may have material impact on our operations.**

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the central and state governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/measure the impact of this tax regime may have on our operations.

46. **Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.**

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

47. **Natural calamities and force majeure events may have an adverse impact on our business.**

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

48. **Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.**

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (“IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders’ equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

49. **Restrictions on foreign investment limit our ability to raise debt or capital outside India.**

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

50. **Any downgrading of India’s debt rating by a domestic or international rating agency could**
negatively impact our business.

Any adverse revisions to India’s credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

51. **Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.**

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

52. **Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.**

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. Discussions of matters relating to India, its economies or the industries in which we operate in this Draft Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

53. **The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to greater compliance requirements and increase our compliance costs.**

A majority of the provisions and rules under the Companies Act, 2013 have been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, specific compliance requirements such as obtaining prior approval from audit committee, board of directors and shareholders for certain related party transactions and the requirements for independent directors, director’s liability, class action suits, and the inclusion of women directors on the boards of companies. The Companies Act, 2013 is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the Companies Act, 2013. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the Companies Act, 2013 on the issue, and on the business, prospects and results of operations of the Company.

The Indian Pharmaceutical Industry

Introduction

The Indian pharmaceuticals market is the third largest in terms of volume and thirteenth largest in terms of value. Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. India is the largest provider of generic drugs globally with the Indian generics accounting for 20 per cent of global exports in terms of volume. Of late, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. Presently over 80 per cent of the antiretroviral drugs used globally to combat AIDS (Acquired Immuno Deficiency Syndrome) are supplied by Indian pharmaceutical firms.

The UN-backed Medicines Patent Pool has signed six sub-licences with Aurobindo, Cipla, Desano, Emcure, Hetero Labs and Laurus Labs, allowing them to make generic anti-AIDS medicine Tenofovir Alafenamide (TAF) for 112 developing countries.

All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
8. The Market Maker(s) shall have the right to terminate said arrangement by giving a three months notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations, 2009. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

**Justification of ‘Holding Period’ levels**

- **Inventories**: In FY 2016-17 and FY 2017-18, we have assumed Raw Material Inventory around 30 days and 23 days which is slightly higher than FY 2015-16 level of 15 days, as we aim to achieve higher production. We have assumed Stock in Process Inventory around 11 days in FY 2016-17 and 6 Days in FY 2017-18 in line with our expansion process. Further we have assumed finished goods inventory of around 19 days and 12 days in FY 2016-17 and FY 2017-18 as compared to 15 days in FY 2015-16 as we aim to expand our manufacturing operations.

- **Trade Receivables**: In FY 2016-17 and FY 2017-18, the trade receivable holding period is estimated to slightly decrease from 109 days in FY 2015-16 to 72 and 79 days respectively. The decrease is expected as we intend to have a stringent debtors management policy.

- **Trade Payables**: In FY 2016-17 and FY 2017-18, the credit period is expected to be 63 days and 47 days respectively as compared to 138 days in FY 2015-16 as the company will strive to adhere to
stricter credit policy to achieve better and favourable pricing terms and ensure continued relationship with existing suppliers

Raw Material

We use the highest quality API’s in our formulations as a principal raw material. We procure the APIs from local importers and packing material from domestic market. We generally maintain adequate stock of raw material to cover the existing order book position, which mitigates any adverse effect of non availability of Raw Material. Each raw material is inspected for purity, potency and uniformity assuring only the highest quality products in every formula in order to meet current Good Manufacturing Practices (cGMP).
Water-supply

We require purified and distilled water for our manufacturing process. Water is procured from borewell situated at our factory premises. We store raw water in water tanks having capacity of around 5,000 Ltrs. Water from this tank is distributed to purification and distillation plants. Distilled water used for the manufacturing process is monitored continuously for its conductivity, pH and for the compliance of the tests. The distilled water for injection is distributed to the manufacturing areas through pipelines in a closed loop system with a pressure 1.2kg/sq.mtr.

Power

We have availed of a power connection from Himachal Pradesh State Electricity Board with connected and sanctioned load of 498 KVA which is sufficient to meet our plant requirement at 490 KVA. In addition to the said sanctioned power we have also installed a 380 KVA DG Set with the sanction from Himachal Pradesh State Electricity Board for installing the same.

Human Resources

We require an appropriate mix of skilled, and un-skilled manpower, which is readily available in Himachal Pradesh and at Amritsar where our registered office is located. As on 30.9.2016, our Company had 134 employees. The details of the same are mentioned below:

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant sector specific laws, policies and regulations, as prescribed by the Government or State Governments which are applicable for our Company. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive and are only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional legal advice.

Our Company is engaged in the business of manufacturing, selling pharmaceutical products. Our Company is governed by a number of central and state legislations that regulate its business. The following discussion summarizes certain significant Indian laws and regulations that govern our Company’s business.

A. LAWS APPLICABLE TO THE PHARMACEUTICAL INDUSTRY

The Drugs and Cosmetics Act, 1940 (“DCA”)

The DCA regulates the import, manufacture, distribution and sale of drugs and cosmetics. In view of the provisions of the DCA, no person can import, manufacture, distribute, stock and sell any drugs and cosmetics, except under the licence granted for respective operations by the authority notified under the DCA. The DCA prescribes the standards for purity, identity and strength of drugs and cosmetics while also prohibiting the import of certain categories of drugs and cosmetics. The DCA mandates that every person holding a license must keep and maintain such records, registers and other documents as may be prescribed which may be subject to inspection by the relevant authority. The Drugs and Cosmetics Rules, 1945 (“DC Rules”) have been enacted to give effect to the provisions of the DCA to regulate the manufacture, distribution and sale of drugs and cosmetics in India. The DC Rules prescribe the procedure for submission of report to the Central Drugs Laboratory, of samples of drugs for analysis or test, the forms of Central Drugs Laboratory’s reports thereon and the fees payable in respect of such reports. The DC Rules also prescribe the drugs or classes of drugs or cosmetics or classes of cosmetics for the import of which a licence is required, and prescribe the form and conditions of such licences, the authority empowered to issue the same and the fees payable therefor. The DC Rules provide for the cancellation or suspension of such licence in any case where any provisions or rule applicable to the import of drugs and cosmetic is contravened or any of the conditions subject to which the licence is issued is not complied with. The DC Rules further prescribe the manner of labelling and packaging of drugs.

The Essential Commodities Act, 1955 (“ECA”)

The ECA gives powers to the Central Government, to control production, supply and distribution of, trade and commerce in certain essential commodities for maintaining or increasing supplies and for securing their equitable distribution and availability at fair prices or for securing any essential commodity for the defence of India or the efficient conduct of military operations. Using the powers under it, various ministries/departments of the Central Government have issued control orders for regulating production, distribution, quality aspects, movement and prices pertaining to the commodities which are essential and administered by them. The State Governments have also issued various control orders to regulate various aspects of trading in essential commodities such as food grains, edible oils, sugar and drugs. Penalties in terms of fine and imprisonment are prescribed under the ECA for contravention of its provisions.

National Pharmaceuticals Pricing Policy, 2012 (“2012 Policy”)

The 2012 Policy replaced the drug policy of 1994 and laid down the principles for pricing of essential drugs as specified in the National List of Essential Medicines - 2011 (“NLEM”) declared by the Ministry of Health and Family Welfare, Government of India and modified from time to time, so as to ensure the availability of such medicines at reasonable price, while providing sufficient opportunity for innovation and competition to support the growth of the Industry. The prices are regulated based on the essential nature of the drugs rather than the economic criteria/market share principle adopted in the drug policy of 1994. Further, the 2012 Policy regulates the price of formulations only, through market based pricing which is different from the earlier principle of cost based pricing.
Accordingly, the formulations are priced by fixing a ceiling price and the manufacturers of such drugs will be free to fix any price equal to or below the ceiling price.

**The Drugs (Price Control) Order, 2013 (“DPCO 2013”)**

The DPCO was issued by the Central Government under section 3 of the ECA and in supersession of the Drugs (Prices Control) Order, 1995, thereby giving effect to the 2012 Policy. The DPCO 2013, *inter alia*, provides that the Central Government may issue directions to the manufacturers of active pharmaceutical ingredients or bulk drugs and formulations to increase production or sell such active pharmaceutical ingredient or bulk drug to such manufacturer of formulations and direct the formulators to sell the formulations to institutions, hospitals or any agency, procedures for fixing the ceiling price of scheduled formulations of specified strengths or dosages, retail price of new drug for existing manufacturers of scheduled formulations, method of implementation of prices fixed by Government and penalties for contravention of its provisions. The Government has the power under the DPCO 2013 to recover amounts charged in excess of the notified price from the manufacturer, importer or distributor and the said amounts are to be deposited in the Drugs Prices Equalization Account. The DPCO 2013 prescribes certain instances in which case the provision of the DPCO 2013 will not be applicable. These provisions are applicable to all scheduled formulations irrespective of whether they are imported or patented, unless they are exempted. However, the prices of other drugs can be regulated, if warranted in public interest.

**Clinical Establishments (Registration and Regulation) Act, 2010 (“CERR Act”)**

The CERR Act has been enacted by the Central Government to provide for registration and regulation of all clinical establishments in the country with a view to prescribing the minimum standards of facilities and services provided by them. The CERR Act also seeks to prescribe minimum standards of facilities and services which may be provided by such clinical establishments.

**The Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954 (“DMRA”)**

The DMRA seeks to control advertisements of drugs in certain cases and prohibits advertisement of remedies that claim to possess magic qualities. In terms of the DMRA, advertisements include any notice, circular, label, wrapper or other document or announcement. It also specifies the ailments for which no advertisement is allowed and prohibits advertisements that misrepresent, make false claims or mislead. Further, the Drugs and Magic Remedies (Objectionable Advertisements) Rules, 1955 have been framed for effective implementation of the provisions of the DMRA.

**The Sales Promotion Employees (Conditions of Service) Act, 1976 (“Sales Promotion Act”)**

**The Indian Boilers Act, 1923 (“Boiler Act”)**

Under the provisions of the Boilers Act, an owner of a boiler is required to get the boiler registered and certified for its use. The Boilers Act also provide for penalties for illegal use of boilers.

**The Legal Metrology Act, 2009 (“Legal Metrology Act”)**

The Legal Metrology Act, replaces the Standard Weights and Measures Act, 1976. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matters connected therewith or incidental thereto. The key features of the Legal Metrology Act are (a) appointment of Government approved test
centres for verification of weights and measures; (b) allowing the companies to nominate a person who will be held responsible for breach of provisions of the Legal Metrology Act; and (c) more stringent punishment for violation of provisions.

B. ENVIRONMENTAL LAWS

Pharmaceutical manufacturers must also ensure compliance with environmental legislation. Some of the important environmental legislations that are applicable to us are the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Water (Prevention and Control of Pollution) Cess Act, 1977 and the Environment Protection Act, 1986. Prior to the undertaking of a project for construction, development or modification of a plant, system or structure, our Company will be required to file an Environment Impact Assessment (“EIA”) with the State Pollution Control Board and the Ministry of Environment and Forests (“MOEF”). The relevant authority will assess the impact of the project on the environment before granting clearance. The clearance may be granted subject to certain conditions/alterations required to be made in the project.

The EP Act was enacted as a general legislation to safeguard the environment from all sources of pollution by enabling coordination of the activities of the various regulatory agencies concerned, to enable creation of an authority with powers for environmental protection, regulation of discharge of environmental pollutants etc. The purpose of the EP Act is to act as an “umbrella” legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws, such as Water Act and Air Act. It includes water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures, plants, micro-organisms and property.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act has been enacted to provide for the prevention, control and abatement of air pollution. The statute was enacted with a view to protect the environment and surroundings from any adverse effects of the pollutants that may emanate from any factory or manufacturing operation or activity. It lays down the limits with regard to emissions and pollutants that are a direct result of any operation or activity. Periodic checks on the factories are mandated in the form of yearly approvals and consents from the corresponding pollution control boards in the state.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act was enacted in 1974 in order to provide for the prevention and control of water pollution by factories and manufacturing industries and for maintaining or restoring the wholesomeness of water. The Water Act prohibits the use of any stream or well for the disposal of polluting water, in violation of standards set down by the State Pollution Control Board. The Water Act requires that approvals be obtained from the corresponding pollution control boards in the state.

Water (Prevention and Control of Pollution) Cess Act, 1977 (“Water Cess Act”)

The Water Cess Act has been enacted to provide for the levy and collection of a cess on water consumed by persons carrying on certain industries and by local authorities with a view to augment the resources of Central and State Pollution Control Board for the prevention and control of water pollution, constituted under the Water Act.

The Bio Medical Waste (Management and Handling) Rules, 1998 (“BMW Rules”)

The BMW Rules apply to all persons who generate, transport, treat, dispose or handle bio-medical waste in any form. The BMW Rules mandate every occupier of an institution generating bio-medical waste to take steps to ensure that such waste is handled without any adverse effect to human health and environment and to set up biomedical waste treatment facilities as prescribed under the BMW Rules. The BMW Rules further require such persons to apply to the prescribed authority for grant of authorization and submit an annual report to the prescribed authority.
and also to maintain records related to the generation, collection, storage, transportation, treatment, disposal, and/or any form of handling of bio-medical waste in accordance with the BMW Rules and the guidelines issued thereunder.

**The Manufacturing, Storage & Import of Hazardous Chemicals Rules, 1989 (“MSIHC Rules”)**

The MSIHC Rules, as amended in the year 2000, stipulate that an occupier in control of an industrial activity has to provide evidence for having identified the major accident hazards and taking adequate steps to prevent such major accidents and to limit their consequences to persons and the environment. Further, the occupier has an obligation to show that he has provided necessary information, training and equipment including antidotes to the persons working on the site to ensure their safety. Also, the occupier is under an obligation to notify the concerned authority on the occurrence of a major accident on the site or pipeline within 48 hours.

The Hazardous Waste Rules define the term ‘hazardous waste’ and any person who has control over the affairs of a factory or premises or any person in possession of the hazardous waste is classified as an ‘occupier’. In terms of the Hazardous Waste Rules, occupiers have been, *inter alia*, made responsible for safe and environmentally sound handling of hazardous wastes generated in their establishments and are required to obtain license/authorisation from the respective state pollution control board for generation, processing, treatment, package, storage, transportation, use, collection, destruction, conversion, offering for sale, transfer or the like of the hazardous waste.

**Noise Pollution (Regulation and Control) Rules, 2000**

The Noise Pollution (Regulation and Control) Rules, 2000 seek to regulate and control the noise producing and generating sources including from industrial activity. In terms of the Environment Protection Rules, 1986, as amended from time to time, the maximum permissible sound pressure level for new diesel generator sets with rated capacity up to 1000 Kilovolt Ampere, manufactured on or after January 1, 2005 shall be 75 dB(A) at one meter from the enclosure surface. Integral acoustic enclosure should be provided at the manufacturing stage itself. Every manufacturer / importer of diesel generator sets is further required to have valid certificates of Type Approval and Conformity of Production for each year, for all the product models being manufactured / imported from January 1, 2005. The Central Pollution Control Board is the nodal agency.

**Public Liability Insurance Act, 1991 (“Public Liability Act”)**

The Public Liability Act as amended, imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of ‘hazardous substances’ covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. **The Explosives Act, 1884 (“The Explosives Act”)**

**C. LABOUR LAWS**

We are required to comply with certain labour and industrial laws, which includes the Factories Act, 1948, Industries (Development and Regulation) Act, 1951, Industrial Disputes Act, 1947, the Employees’ Provident Funds and Miscellaneous Provisions Act 1952, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965,
Workmen Compensation Act, 1923, the Payment of Gratuity Act, 1972, Contract Labour (Regulation and Abolition) Act, 1970, the Payment of Wages Act, 1948 and the amongst others.

D. INTELLECTUAL PROPERTY LAWS

Intellectual property in India enjoys protection under both common law and statute. The following laws relating to intellectual property also applies to our Company:

The Trade Marks Act, 1999 (“Trademark Act”)

The Trade Marks Act which came into force on December 30, 1999 governs the law pertaining to trade marks in India. A trade mark is essentially any mark capable of being represented graphically and distinguishing goods or services of one person from those of others and includes a device, brand, heading, label, ticket, name, signature, word, letter, numeral, shape of goods, packaging or combination of colours or combination thereof. In India, trademarks enjoy protection under both statutory and common law. Indian trademarks law permits the registration of trademarks for goods and services. Certification trademarks and collective marks can also be registered under the Trademark Act. The Registrar of Trademarks is the authority responsible for registration of the trademarks, settling opposition proceedings and rectification of the register of trademarks. The Trademark (Amendment) Act 2010 has been enacted to cover Indian nationals as well as foreign nationals to secure simultaneous protection of trademarks in other countries. Registration of a trademark grants the owner a right to exclusively use the trademark as a mark of goods and services and prevents the fraudulent use of deceptively similar marks by any third party.

Indian Copyright Act, 1957 (“Copyright Act”)

The Copyright Act provides for registration of copyrights, transfer of ownership and licensing of copyrights, and infringement of copyrights and remedies available in that respect. The Copyright Act affords copyright protection to original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Once registered, copyright protection lasts for 60 years from the death of the author, subsequent to which the work falls in the public domain and any act of reproduction of the work by any person other than the author would not amount to infringement. The remedies available in the event of infringement of copyright include civil proceedings for damages, account of profits, injunction and the delivery of infringing copies to the copyright owner, as well as criminal remedies, including imprisonment of the accused and imposition of fines and seizure of infringing copies. While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favouring ownership of the copyright by the registered owner.

The Patents Act, 1970 (“Patents Act”)

The Patents Act governs the patent regime in India. India is a signatory to the Trade Related Agreement on Intellectual Property Rights (“TRIPS”); India recognizes both product as well as process patents. The new regime provides for:

- Patent protection period of 20 years;
- Recognition of product patents in respect of food, medicine and drugs;
- Patent protections allowed on imported products; and
- Under certain circumstances, the burden of proof in case of infringement of process patents may be transferred to the alleged infringer. An application for a patent can be filed in any of the 4 patent offices in India.

The Design Act, 2000 (“Design Act”)

The Design Act came into force in May 2001 to consolidate and amend the law relating to protection of designs. A design refers to the features of shape, configuration, pattern, ornamentation or composition of lines or colours applied to any article, in two or three dimensional or both forms. In order to register a design, it must be new and original and must not be disclosed to the public anywhere in India or any other country by publication in tangible form or in any other way prior to the filing date. A design should be significantly distinguishable from known designs or combination of known designs in order for it to be registered. A registered design is valid for a period of
ten years after which can be renewed for a second period of five years, before the expiration of the original period of ten years. After such period the design is made available to the public by placing it in the public domain.

In addition to the domestic laws, India is a party to several international intellectual property related instruments including the Patent Co-operation Treaty, 1970, the Paris Convention for the Protection of Industrial Property, 1883, and as a member of the World Trade Organisation, India is a signatory to the Agreement on Trade Related aspects of Intellectual Property Rights, 1995. Our Company’s intellectual property rights primarily include patents and trademarks for its various products and process. Our Company spends considerable time and effort on developing new products and rely upon various forms of intellectual property legislation to protect the process as well as the products.

E. TAXATION LAWS

The Central Sales Tax Act, 1956 (“Central Sales Tax Act”)

Central Sales Tax Act, as amended, formulates principles for determining (a) when a sale or purchase takes place in the course of inter-state trade or commerce; (b) when a sale or purchase takes place outside a State and (c) when a sale or purchase takes place in the course of imports into or export from India. The Central Sales Tax Act provides for levy, collection and distribution of taxes on sales of goods in the course of inter-state trade or commerce and also declares certain goods to be of special importance in inter-state trade or commerce and specifies the restrictions and conditions to which state laws imposing taxes on sale or purchase of such goods of special importance (called as declared goods) shall be subject. Central sales tax is levied on interstate sale of goods. Sale is considered to be inter-state when (a) sale occasions movement of goods from one state to another or (b) is effected by transfer of documents during their movement from one state to another. Central sales tax is payable in the state from which movement of goods commences (that is, from which goods are sold). The tax collected is retained by the state in which it is collected. The Central Sales Tax Act is administered by sales tax authorities of each State. The liability to pay tax is on the dealer, who may or may not collect it from the buyer.

Law on Service Tax

There is no specific legislation on the regulation of service tax as on date and the provisions contained in chapters V and VA (Section 64 to 96-I) of the Finance Act 1994 govern the levy of service tax. Service tax is a tax payable on services provided by the service provider to the Government of India. The Ministry of Finance on June 1, 2015 vide Notification no. 14/2015, amended the current rate of service tax and increased it to 14% from the erstwhile effective rate of 12.36%. The tax gets attracted on the provision of the services, whereas the charge crystallizes only on receipt of the consideration. Service tax is payable both on receipt and actual basis. As the levy of service tax is on the provision of service, the services provided before the date of the levy coming into being would not be liable.

Law on Value Added Tax (“VAT”)

VAT is a tax on the final consumption of goods or services and is ultimately borne by the consumer. The term ‘value addition’ implies the increase in value of goods and services at each stage of production or transfer of goods and services. It is a multi-stage tax with the provision to allow input tax credit on tax at an earlier stage, which can be appropriated against the VAT liability on subsequent sale. This input tax credit in relation to any period means setting off the amount of input tax by a registered dealer against the amount of his output tax. The VAT liability of the dealer/manufacturer is calculated by deducting input tax credit from tax collected on sales during the payment period. If the tax credit exceeds the tax payable on sales in a month, the excess credit will be carried over to the end of next fiscal year. If there is any excess unadjusted input tax credit at the end of second year, then the same will be eligible for refund. VAT is basically a state subject, derived from Entry 54 of the State List, for which the states are sovereign in taking decisions. The state governments, through taxation departments, carry out the responsibility of levying and collecting VAT in the respective states. The Central Government facilitates the successful implementation of VAT. The Ministry of Finance is the main agency for levying and implementing VAT, both at the Centre and the State level.

Industry Overview

The Global Pharmaceutical Industry

According to the Economic Intelligence Unit (EIU), pharmaceutical sales are projected to increase an average of 6.9 percent annually over 2014-2018, outpacing the estimated global health care spending rate of 5.2 percent during that same period. Total pharma revenues are expected to increase from $1.23 trillion in 2014 to $1.61 trillion in 2018. In addition to oncology drugs, the cardiovascular therapeutic class will likely prosper, with four of the 10 projected blockbusters drugs belonging to the category. Spending on midmarket prescription drugs used for treating common chronic diseases is likely to stagnate as prices fall. Demand for generic drugs will continue to rise as payors take advantage of patent expiries to reduce costs.

The Indian Pharmaceutical Industry

Introduction

The Indian pharmaceuticals market is the third largest in terms of volume and thirteenth largest in terms of value#. Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. India is the largest provider of generic drugs globally with the Indian generics accounting for 20 per cent of global exports in terms of volume. Of late, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level. Presently over 80 per cent of the antiretroviral drugs used globally to combat AIDS (Acquired Immuno Deficiency Syndrome) are supplied by Indian pharmaceutical firms.

The UN-backed Medicines Patent Pool has signed six sub-licences with Aurobindo, Cipla, Desano, Emcure, Hetero Labs and Laurus Labs, allowing them to make generic anti-AIDS medicine Tenofovir Alafenamide (TAF) for 112 developing countries.

FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Our results of operations could potentially be affected by the following factors amongst others:

Our Relationships with Customers

We believe in client retention and derive a significant proportion of our revenues from repeat business. We have long-term relationships with our key customers and our sales to these customers are conducted on the basis of purchase orders that they place with us from time to time. Most of our customers provide us with forecasts of order volumes that help us estimate our production volumes and our revenue for that particular product or business line. We believe that our ability to establish and strengthen client relationships will be an important factor in our future growth and our ability to continue increasing our profitability.

Sales volume of our Products, Launches of New Products and Pricing of our Products

The key growth driver for increase in our results of operations has been the volume growth of our existing products. Actual volumes and specifications of customer orders are fixed only if and when customers place purchase orders with us. Our actual production volumes may differ significantly from our estimates due to variations in customer demand for our products.

Further, since the number of purchase orders that our customers place with us may differ from year to year, which may adversely affect our revenues margins and, as a result, our results of operations.

Production Costs and Quality of our Manufacturing Facilities

Our ability to maintain our position as a low-cost producer and increase our cost competitiveness is dependent on the efficient management of our production costs. The availability of key raw materials at competitive prices is critical and price fluctuations may adversely affect our margins and, as a result, our results of operations.

Additionally, any significant changes in excise duties levied on raw materials and finished products and changes in salary costs of our employee could have an adverse effect on our financial condition and results of operations. In addition, in order to maximize our profits, we must maintain an appropriate standard of quality in our manufacturing facilities’ equipment and processes. Attaining and maintaining this level of quality requires considerable expense and planning. If we are unable to achieve and preserve the necessary level of quality in our manufacturing processes and facilities in the future, our financial condition and results of operations may be adversely affected.

Competition from other industry players

Our products face intense competition from products commercialized or under development by competitors in all our therapeutic areas. Our business, prospects, results of operations and financial condition could be adversely affected if our competitors gain significant market share at our expense in areas in which we are focused. Many of our competitors may have greater financial, manufacturing, research and development, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader product ranges and stronger sales forces. Accordingly, our results of operations depend significantly on various factors such as the demand for our products in the markets we operate in, our ability to manage our growth strategy and expansion plans, including our ability to grow our exports and our ability to grow and manage our distribution network in India.

Macroeconomic Factors

Macroeconomic factors, both in the Indian and international contexts, such as economic instability, political uncertainty, social upheavals or acts of God could influence our business. In addition, fluctuations in interest rates, exchange rates and inflation would have an effect on certain key aspects of our operations, including on the costs of our raw materials, the prices at which we can sell our pharmaceutical products, our finance costs required to fund our operations and profit margins.

**Applications by FPIIS, FIIS AND QFIS**

On January 7, 2014, SEBI notified the SEBI FPI Regulations pursuant to which the existing classes of portfolio investors namely ‘foreign institutional investors’ and ‘qualified foreign investors’ will be subsumed under a new category namely ‘foreign portfolio investors’ or ‘FPIs’. RBI on March 13, 2014 amended the FEMA Regulations and laid down conditions and requirements with respect to investment by FPIs in Indian companies.

In terms of the SEBI FPI Regulations, an FII who holds a valid certificate of registration from SEBI shall be deemed to be a registered FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. Accordingly, such FIIs can participate in this Issue in accordance with Schedule 2 of the FEMA Regulations. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations. Further, a QFI can continue to buy, sell or otherwise deal in securities until January 6, 2015 or until the QFI obtains a certificate of registration as FPI, whichever is earlier. Such QFIs shall be eligible to participate in this Issue in accordance with Schedule 8 of the FEMA Regulations and are required to apply under the Non-Institutional Applicants category.
In terms of the SEBI FPI Regulations, the Issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) is not permitted to exceed 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectoral cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. As of now, in accordance with the foreign investment limits applicable to us the total foreign investment including FIIs investment cannot exceed the sectoral cap applicable to us (being 100% of our total post-Issue paid-up capital). Further, the existing individual and aggregate investment limits for QFIIs in an Indian company are 5% and 10% of the paid up capital of an Indian company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may Issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it that are listed or proposed to be listed on any recognised stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued the Consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2016-FC-1 dated June 7, 2016 (“FDI Policy”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 6, 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act, or any state securities laws in the United States, and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States.

Accordingly, the Equity Shares are being offered and sold outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares Applied for do not exceed the applicable limits under laws or regulations.
