PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 198 this Red Herring Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 198 of this Red Herring Prospectus.

CURRENCY OF PRESENTATION

In this Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY AND MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Red Herring Prospectus have been obtained from publically available information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “*Risk Factors*” beginning on page 21 of this Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Red Herring Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in the Industry which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 21 and 232 respectively of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Red Herring Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Offer including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

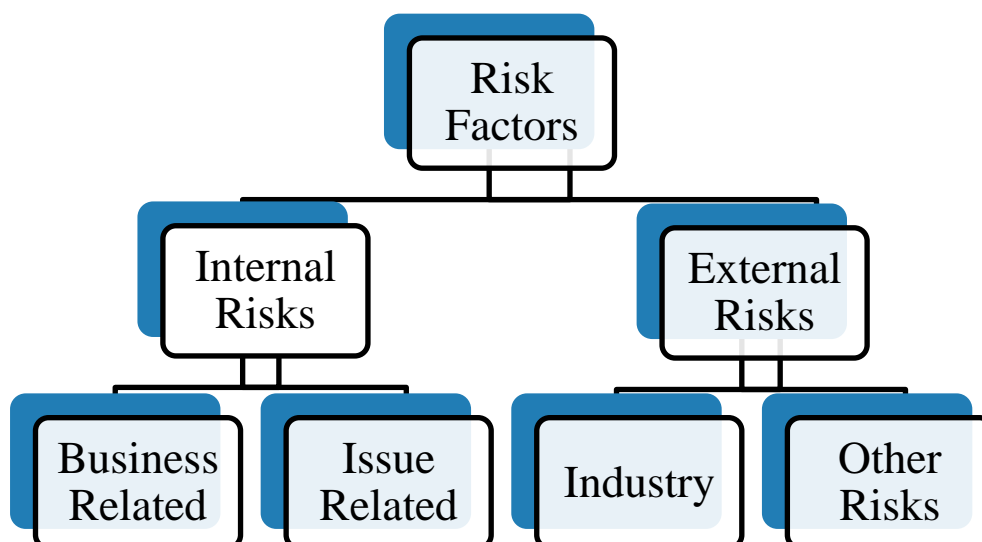

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 143, “Our Industry” beginning on page 108 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 232 respectively, of this Red Herring Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively;*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 3 of this Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS

A. Business Related Risks

1. *Our Company, its Promoters, Directors and Group Companies are currently involved in certain legal and tax related proceedings which are currently pending at various stages with relevant authorities at various jurisdictions. Our Company is involved in civil proceedings which are pending at Permanent Lokadalat level and certain other direct and indirect tax related proceedings pending with relevant tax authorities. Any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.*

Our Company, its Promoters, Directors and Group Companies are currently involved in certain legal and tax related proceedings. Notices have been issued to our Company, Promoters, Directors and Group Companies under Income Tax Act, 1961 and are pending with authorities at various jurisdictions; any adverse decisions in such proceedings may adversely affect our business. Notices have been issued to the Company to present before Permanent Lokadalat, Mumbai for amicable settlement of pre litigation disputes involving non payment of bills for the services availed. Certain Customs and Central Sales Tax related proceedings are pending against the Company involving a considerable amount. Certain documents related to tax related proceedings involving directors, promoters and group companies are not traceable.

Also, we cannot assure that we, our promoters, our directors, our group companies or our subsidiary companies may not face legal proceedings in future; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group Companies and Subsidiaries please refer the chapter titled “Outstanding Litigations and Material Developments” on page 243 of this Red Herring Prospectus.

2. Our failure to identify and understand evolving industry trends and preferences and to develop new products to meet our customers' demands may materially adversely affect our business.

Changes in consumer preferences, regulatory or industry requirements or in competitive technologies may render certain of our products obsolete or less attractive. Our ability to anticipate changes in technology and regulatory standards and to successfully develop and introduce new and enhanced products on a timely basis is a significant factor in our ability to remain competitive. However, there can be no assurance that we will be able to secure the necessary technological knowledge, which will allow us to develop our product portfolio in this manner. If we are unable to obtain such knowledge in a timely manner, or at all, we may be unable to effectively implement our strategies and our business and results of operations may be adversely affected. Moreover, we cannot assure you that we will be able to achieve the technological advances that may be necessary for us to remain competitive or that certain of our products will not become obsolete. We are also subject to the risks generally associated with new product introductions and applications, including lack of market acceptance, delays in product development and failure of products to operate properly. To compete effectively in the information technology industry, we must be able to develop and produce new products to meet our customers' demand in a timely manner. Our failure to successfully develop and produce new products, could materially adversely affect our results of operations.

3. We do not have firm commitment agreements with our customers. If our customers choose not to source their requirements from us, our business and results of operations may be adversely affected.

Our business model is primarily a B2B model, wherein we make sales to customers who in turn sell it to the ultimate consumer. Our customers usually are awarded such contracts through tenders. We therefore do not have long-term supply agreements with our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. Also, such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place, it may adversely impact our production schedules. Consequently, there is no commitment on the part of the customer to continue to place new work orders with us and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers' vendor preferences. Also since our customers themselves do not have firm commitment agreements with the ultimate customers as their business is tender driven, we cannot expect firm orders regularly from our loyal customers.

Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss. Additionally, our customers have high and stringent standards for product quantity and quality as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also a number of factors, other than our performance that could cause the loss of a customer. Customers may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, change their outsourcing strategy by moving more work in-house, or replace their existing products with alternative products, any of which may have an adverse effect on our business, results of operations and financial condition.

- 4. We may not be successful in implementing our strategies, particularly diversifying our product base by introducing new products such as GPS tracking devices and televisions, which could adversely affect our business, results of operations and future prospects.***

The success of our business depends greatly on our ability to effectively implement our business and strategies. See "Our Business" beginning on page 143 of this Red Herring Prospectus. Even if we have successfully executed our business strategies in the past, there can be no assurance that we will be able to execute our strategies on time and within the estimated budget, or that we will meet the expectations of targeted customers. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions. We expect our strategies to place significant demands on our management and other resources and require us to continue developing and improving our operational, financial and other internal controls. Our inability to effectively manage our business and strategies could have an adverse effect on our business, financial condition and profitability. One of our key strategies is expanding our product base. At present, we focus on the sales of IT hardware products and we intend to diversify our product base by introducing new products such as GPS tracking devices and televisions because of the growth potential of this segment. Our strategy of expanding our business into other segments involves understanding different market dynamics, product specifications, technology and other factors, which we may currently be unfamiliar with. In addition as we enter new markets, we are likely to compete with not only national players, but also local players who might have an established local presence. Particularly, with respect to television, we may have to face strong competition with the established brands and compete only on basis of pricing. Also diversification of product base may result in huge fixed costs and research and development costs at inception against a slow inflow of revenue from operations. There can be no assurance that we shall able to successfully diversify our product base or receive an acceptable response from the market, more particularly in view of lack of experience in such sector. If we are unable to execute our strategies effectively, our business and financial results will be adversely affected. Our inability to manage the expansion of our business could have an adverse effect on our business, results of operations and financial condition.

- 5. Minimal entry barriers into manufacturing and assembling of Information technology hardware products may attract many players from both organized and unorganized sectors which will escalate competition and resultant price pressure on the products.***

There are minimum entry barriers for manufacturing and assembling of Information technology hardware products. Raw materials and technical knowledge required could be easily made available. Further, the initial investment required to provide such products is not huge in terms of amount and resources. Also the manpower who plays a key role in assembling of a product does not require expertise technical knowledge and can execute the work with basic technical knowledge and training. With such minimal entry barriers, this industry may attract many players from both organised and unorganised sectors. The entry of these players may result in competition and resultant price pressure on the products. The management, however, believes that setting up of a sustainable business model is dependent on several factors which are the cornerstones of the Company's business model including critical factors as promoter hands-on experience, long term association with customers, goodwill in the industry, qualitative products, ability to execute large orders within specified timelines etc.

6. *Our top five customers contribute more than 75% and top ten customers contributed more than 80% of our revenues from operations for the year ended March 31, 2016. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top five customers contributed to a substantial portion of our revenues for the year ended March 31, 2016. Our business model is primarily a B2B model, wherein we make sales to customers who in turn sell it to the ultimate consumer. Our customers usually are awarded such contracts through tenders. Thus the composition and revenue generated from these clients might change as we continue to add new customers in normal course of business. Since our business is concentrated among relatively few significant customers, and certain of our products are provided on a non-recurring, project by project basis, we could experience a reduction in our results of operations, cash flows and liquidity if we lose one or more of these customers or the amount of business we obtain from them is reduced for any reason, including as a result of a dispute or disqualification. Any decline in our quality standards, growing competition and any change in the demand for our products by these customers may adversely affect our ability to retain them. We believe we have maintained good and long term relationships with our customers. However, there can be no assurance that we will continue to have such long term relationship with them. Also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

7. *Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.*

Our business is working capital intensive primarily on account of high debtor days and inventory levels. A significant portion of our working capital is utilized towards trade receivables and inventories. Summary of our working capital position is given below:-

Particulars	For the period ended December 31, 2016	For the year ended March 31,				
		2016	2015	2014	2013	2012
A. Current Assets						
A. Inventories	790.98	1,271.54	576.66	421.09	751.83	613.97
B. Trade Receivables	2,398.52	1,427.15	1,359.75	701.85	596.45	278.44
C. Cash and Bank Balances	47.75	217.37	133.54	58.02	92.77	52.71
D. Short Term Loans & Advances & Other Current Assets	168.98	174.62	41.73	70.22	74.53	37.36
B. Current Liabilities						
A. Trade Payables	1,305.40	1,025.40	732.13	419.60	551.61	276.89
B. Other Current Liabilities	172.62	265.71	147.55	104.90	95.86	107.86
C. Short Term Provision	168.81	100.59	69.02	20.04	30.25	4.28
Working Capital (A-B)	1,759.42	1,698.98	1,162.98	706.64	837.86	593.45
Inventories as % of total current assets	23.22%	41.14%	27.31%	33.66%	49.61%	62.49%
Trade receivables as % of total current assets	70.42%	46.18%	64.39%	56.09%	39.35%	28.34%

Our business is working capital intensive and involves a lot of investment in inventory as well as debtors. Our Company intend to continue growing by reaching out to newer customers and also increasing the sales in the existing customers. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled "Objects of the Issue" beginning on page 96 of this Red Herring Prospectus.

8. ***Over dependence on imported raw materials may adversely affect our business and result of operations. Further such imports also subject us to exchange rate fluctuations which could have a material and adverse affect on our result of operations and financial condition.***

Major raw materials used for production of our IT hardware products include microprocessors, motherboards, cabinets, storage devices and operating software, etc. majority of which are imported by us from countries like Taiwan, China and Singapore. Of these raw materials, prices of some raw materials such as microprocessor and storage devices are also volatile. Over dependence on imports and unavailability of such products from domestic producers may adversely affect our profitability in case the trade relations of India with any of countries from where raw materials are imported get strained in future or the suppliers face any sort of problems due to internal issues of producing countries. Decrease in the availability of raw materials which we require, or volatility in the price of these raw materials may significantly and adversely affect our business, financial condition and results of our operations if we are unable to estimate and accordingly adjust the prices of our product.

Further the exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. Significant exchange rate fluctuations may affect our Company's business as it may alter the costs of the imports significantly or depreciate our exports revenue. Further at present, our Company does not hedge its foreign exchange exposure. Any adverse or unforeseen fluctuations with respect to the unhedged exchange rate of any foreign currency for Indian Rupees may affect our Company's results of operations.

9. ***We have experienced growth in the past few years and if we are unable to sustain or manage our growth, our business, results of operations and financial condition may be materially adversely affected.***

We have experienced growth in the past five years. For FY 2016, we had Rs. 4973.35 lakhs of total revenue, as compared to Rs. 2311.83 Lakhs for the FY2012. Our operations have also grown considerably over the last five years. We may not be able to sustain our rates of growth, due to a variety of reasons including a decline in the demand for our products, increased price competition, non-availability of raw materials, lack of management availability or a general slowdown in the economy. A failure to sustain our growth may have an adverse effect on our business, results of operations and financial condition. We are embarking on a growth strategy which involves deepening, diversifying and expanding our customer base by expanding our product portfolio, focusing on advanced technology and higher profit products and focusing on operational efficiencies to improve returns. Such a growth strategy will place significant demands on our management as well as our financial, accounting and operating systems. Further, as we scale-up and diversify our products, we may not be able to execute our operations efficiently, which may result in delays, increased costs and lower quality products. We cannot assure you that our future performance or growth strategy will be successful. Our failure to manage our growth effectively may have an adverse effect on our business, results of operations and financial condition.

10. ***Our peer reviewed auditor has emphasised on certain matters in its report on restated financial statements.***

Our peer reviewed auditor has emphasised on certain matters in its report on restated financial statements with respect to Foreign Currency Transactions occurred during certain period being translated by the Company into rupees at the exchange rate prevailing on the date of respective payments or receipts. This practise is not consistent with AS 11 "The effects of changes in foreign Exchange Rates (Revised 2003)". However, impact of the same is not material and hence no adjustment is made in restated financial information. Further it has also drawn attention to the fact that due to practical difficulties, average rate of excise duty on closing stock is excluded from the value of inventories for respective years. For further details, please refer "*Financial Statements as Restated*" on page 234 of this Red Herring Prospectus. Investors should consider the same in evaluating our financial position, cash flows and results of operations.

11. ***During past years of operations, we have experienced major portion of sales during the last quarter of the respective financial year.***

Historically, we typically experience higher sales of our products in the last quarter of the fiscal year in light of the fact that we cater to B2B segment which is driven by budgets and expansion plans which invariably crystallise in the last two quarters of the financial year and the executions are completed in the last quarter. The second quarter of each year is typically the slowest season during a fiscal year. Due to these factors, comparisons of sales and operating results between the same periods within a single year, or between different periods in different financial years, are not necessarily meaningful and should not be relied on as indicators of our performance. We routinely attempt to forecast the demand for our products to ensure we purchase the proper amount of raw materials and employ the right amount of labour to execute our projects. If our estimates materially differ from actual demand, we may experience either excess quantities of raw materials and unsold stock, which we may not be able to utilize or sell in a timely manner or at all or inadequate quantities of raw materials and consequently lower stock of finished goods to meet market demand.

12. *Our success depends in large part upon the strength of our personnel. If we fail to attract, retain and manage transition of these personnel, our business may be unable to grow and our revenue could decline*

We believe that the industry in which we operate faces competitive pressures in recruiting and retaining skilled and unskilled labour. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. The attrition rate of employees in our industry is generally high. If we cannot hire and retain additional qualified personnel, our ability to obtain new projects and to continue to expand our business will be impaired and our revenue could decline. We believe that there is significant competition within our industry for professionals with the necessary skills. We may not be able to hire and retain enough skilled and experienced employees to replace those who leave. Increasing competition for technology professionals may also impact our ability to retain personnel. Changes in government policies may also affect our ability to attract, hire and retain personnel. Additionally, we may not be able to reassign or train our employees to keep pace with continuing changes in technology, evolving standards and changing client preferences. Furthermore, our ability to attract and retain highly skilled professionals is dependent on the compensation we offer them. If we are unable to offer them higher compensation, we may be unable to attract or retain them. Our business, financial condition and results of operations could be adversely affected if we are unable to manage employee hiring and attrition to achieve a stable and efficient workforce structure. We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past; there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

13. *Our failure to compete effectively could have an adverse effect on our business, results of operations, financial condition and future prospects.*

We operate in a highly competitive market with competitors who have been in business longer than we have, with financial and other resources that are far greater than ours. Some of our competitors may have certain other advantages over us, including established track record, superior product offerings, wide distribution tie-ups, larger product portfolio, technology, research and development capability and greater market penetration, which may allow our competitors to better respond to market trends. They may also have the ability to spend more aggressively on marketing and distribution initiatives and may have more flexibility to respond to changing business and economic conditions than we do. Further, some of our competitors are large domestic and international information technology companies. We may not be able to compete with them to engage some of the large distributors, who may prefer to distribute products for such companies with a large portfolio of information technology and other products.

14. *Our Company does not own the land on which our manufacturing facility is located. Also we have taken our registered office on lease from third parties.*

Our Company does not own the land on which our manufacturing facility is located. The land has been taken on lease for a period of three years commencing from March 1, 2017. Further we have also taken our registered office on lease from third party. If we are unable to renew the lease or if the lease is not renewed on favourable conditions, it may affect our operations adversely. Also if we do not comply with certain conditions of the lease agreement, it may lead to termination of the lease. In the event of non-renewal or termination of the lease, we may have to vacate our current premises and shift to new premises. There can be no assurance that we shall be able to find a suitable location, or one at present terms and conditions. Any additional burden due to shifting of premises, or increased rental expenses, may adversely affect our business operations and financial conditions.

For details on properties taken on lease/rent by us please refer to the heading titled “Land & Property” in chapter titled “Our Business” beginning on page 143 of this Red Herring Prospectus.

15. *Our Company has made non compliances and lapsed/made delay in certain filings under various Statutory Acts applicable to it in the past years.*

Our Company has made delay in certain filings under various Statutory Acts applicable to it in the past years. Due to these delays in filings, our Company had on several occasions paid the requisite late fees. Further our Company has not complied with certain statutory provisions such as the following:

- In past, our Company has accepted money from few persons who were not members/directors or their relatives at the time of receipt of such money and hence violated the provisions of section 58A of the Companies Act, 1956.

Although we have not been furnished with any notices by the RoC/any other statutory authority with respect to these non-compliances, such non-compliances may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company has appointed a whole time Company Secretary and is in the process of setting up a system to ensure that requisite filings and compliances are done within the applicable timelines.

16. *Increase in costs or a shortfall in availability of our raw materials could have a material adverse effect on our Company’s sales, profitability and results of operations.*

Our Company is dependent on third party suppliers for procuring our raw materials. We are exposed to fluctuations in the prices of these raw materials as well as its unavailability, particularly as we typically do not enter into any long term supply agreements with our suppliers and our major requirement is met in the spot market. The cost and availability of our raw materials are subject to a variety of factors and any increase in their cost and their availability at a reasonable price or at all, could adversely affect our margins, sales and results of operations. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials. If we were to experience a significant or prolonged shortage of raw materials from any of our suppliers, and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules for some of our key products and to deliver such products to our customers in timely fashion, which would adversely affect our sales, margins and customer relations. We cannot assure you that a particular supplier will continue to supply the required components or raw materials to us in the future. Any change in the supplying pattern of our raw materials can adversely affect our business and profits. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production cycles and delivery schedules, which may result in the loss of our customers and revenues.

17. *We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. All the government and other statutory approvals are required to be transferred in the name of Panache Digilife Limited from Vardhaman Technology Private Limited pursuant to conversion and name change of our company and any failure or delay in obtaining such approvals or renewal of the same in a timely manner may adversely affect our operations.*

We require a number of approvals, licenses, registrations and permits in ordinary course of our business. Additionally, we may need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. We were a private limited company in the name of “Vardhaman Technology Private Limited”. After complying with the relevant provisions and procedures of Companies Act, 2013, the Company was converted into a public limited company followed by a change of name of the Company to “Vardhaman Technology Limited”. The Company further changed its name from “Vardhaman Technology Limited” to “Panache Digilife Limited” pursuant to Rule 29 of the Companies (Incorporation) Rules, 2014. We shall be taking necessary steps for transferring the approvals in new name of our company. In case we fail to transfer/obtain the same in name of the company same may adversely affect our business or we may not be able to carry our business operations.

Further, the Company has applied for following approvals which are pending with the relevant authorities at various jurisdictions:

- Application no. 5864 dated December 25, 2016 to the Pollution Control Office Committee – Union Territories of Daman & Diu and Dadra and Nagar Haveli for Consent to establish under Water (Prevention and Control of Pollution) Act 1974, Consent for emission under Section 21 of Air (Prevention and Control of Pollution) Act, 1981 and Renewal of Authorisation under Rule 5 of the Hazardous Wastes (Management, handling & Trans boundary movement) Rules 2008,
- Application for Single Window System (SWIFT) clearance for renewal of consent for operation of unit.

Further, the Company has not applied for Change of address for Professional Tax Enrolment Certificate and Professional Tax Registration Certificate. Any failure or delay in obtaining the abovementioned approvals in a timely manner may adversely affect our operations.

Any failure to apply for and obtain the required approvals, licences, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in the our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company. We cannot assure you that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

For further details, please refer the Chapter “Government and other Statutory Approvals” on page 256 of this Red Herring Prospectus.

18. *Our Company is dependent on third party transportation for the delivery of raw materials/ finished product and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.*

Our Company uses third party transportation for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition raw materials/ finished products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials or finished goods may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials or deliver finished goods on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

19. Our business is dependent on certain brand names, our corporate name and logo that we may not be able to protect and/or maintain in long run; affecting the business of our Company.

Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. We have entered into brand usage agreement for the period of three years commencing from April 01, 2016 with Rambhia IPR Services LLP (“Assignee” or “Licensor”) for logo “Panache” which is used for our business purpose. Further the said logo is owned by ICT Infratech Services Private Limited (“Assignor”), one of our Group Companies. An Assignment Agreement is executed between the registered owner of “Panache”, ICT Infratech Services Private Limited and Rambhia IPR Services LLP. The Assignee is not the registered user of trademark “Panache” and has not registered himself with the Registrar. In case the Assignee/Licensor is not specifically allowed to licence the Trademark through the Assignment Agreement entered with Licensor then it may adversely affect our business with respect to use of such trademark.

Our company has earlier made an application for registration of company logo “Vardhaman” under Trade Marks Act, 1999 which is currently objected. For further details, please refer the Chapter “Government and other Statutory Approvals” on page 256 of this Red Herring Prospectus.

20. Conflicts of interest may arise out of common business undertaken by our Company and our Group Companies.

Our Group Company, Panache Innovations Limited (Formerly know as Ruby Traders & Exporters Limited), ICT Infratech Services Private Limited and M/s. Eddy and Andy International Limited are also authorized to deal in same products such as computers, computer peripherals etc. in which our Company deals. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and our Group Companies in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour other companies in which our Promoters have interests. There can be no assurance that our Group Companies or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition.

21. Our Group Company have incurred losses in the previous financial years.

Sustained financial losses by our Group Companies may not be perceived positively by external parties such as customers, bankers, suppliers etc, which may affect our credibility and business operations. Our Group Company, ICT Infratech Services Private Limited have incurred losses in previous years:

Financial Performance of ICT Infratech Services Private Limited

(Rs. In Lakhs)

Particulars	2015-16	2014-15	2013-14
Paid Up Capital	3.00	3.00	3.00
Reserves & Surplus	1.89	3.52	3.15
Sales and other income	55.48	60.64	68.66
Profit/(loss) after tax	(1.63)	0.37	(0.99)
NAV (in Rs.)	16.28	21.73	20.51

There can be no assurance that our Group Company(ies), or any other ventures promoted by our Promoters, will not incur losses in any future periods, or that there will not be an adverse effect on our reputation or business as a result of such losses.

22. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into certain transactions with our related parties including our Promoters, the Promoter Group, our Directors and their relatives. While we believe that all such transactions have been conducted on an arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that

such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations. For details on the transactions entered by us, please refer to Annexure XXXIII “Related Party Transactions” in Section “Financial Statements” beginning on page 196 of this Red Herring Prospectus.

23. Our Company has negative cash flows from its operating activities, investing activities and Financing activities in the past years, details of which are given below. Sustained negative cash flows could impact our growth and business.

Our Company had negative cash flows from our operating activities, investing activities and Financing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

Amount (Rs. in Lakhs)

Particulars	For The Period Ended December 31, 2016	For The Year Ended March 31,				
		2016	2015	2014	2013	2012
Cash Flow from / (used in) Operating Activities	36.70	(116.55)	(79.13)	246.19	(61.29)	(85.46)
Cash Flow from / (used in) Investing Activities	6.63	(27.65)	(5.04)	(223.41)	(7.62)	(44.55)
Cash Flow from / (used in) Financing Activities	(212.95)	228.04	160.00	(57.55)	108.97	125.40

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

24. Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture, we may be required to write-down our inventory or pay our suppliers without new purchases or create additional vendor financing, which could have an adverse impact on our income and cash flows.

25. Our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.

Our Company has obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, standard fire and special perils, earthquake, marine cargo, etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

26. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our sales network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

27. *Negative publicity could adversely affect our revenue model and profitability.*

Our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations. Further our brand may also be affected if there is any negative publicity associated with our products.

28. *Our Promoters and members of Promoter Group have given guarantees in relation to certain debt facilities provided to us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.*

Our Promoters and members of Promoter Group have given personal guarantee and collateral security in respect of the loan availed by us. In the event that any of these guarantees/collaterals are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could significantly affect our financial condition and cash flows.

29. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

Our Company have taken secured loan from banks by creating a charge over our movable and immovable properties in respect of loans/facilities availed by us. The total amounts outstanding and payable by us for secured loans were Rs. 661.87 lakhs as on December 31, 2016. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on our business, financial condition and results of operations. For further details please refer to “Annexure XI- Details of Long Term Borrowings as Restated” and “Annexure XII - Details of Short Term Borrowings as Restated” of chapter titled “Financial Statements as Restated” beginning on page 198 and chapter titled “Financial Indebtedness” on page 241 of this Red Herring Prospectus.

30. *Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.*

As on December 31, 2016, our Company has unsecured loans amounting to Rs. 902.10 lakhs from related and other parties that are repayable on demand to the relevant lender. Such loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer Annexure XII - Details of Short Term Borrowings as Restated of chapter titled “Financial Statements” beginning on page 198 of this Red Herring Prospectus.

31. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements.*

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. Further certain agreements also impose financial and other restrictive covenants such as maintenance of financial ratios, submission of results, etc. There can be no assurance that we will be able to comply with the financial or other covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

For further information, see the chapter titled “*Financial Indebtedness*” on page 241 of the Red Herring Prospectus.

32. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

33. *We have issued Equity Shares in the last twelve months, the price of which is lower than the Issue Price.*

Our Company has issued 39,00,000 Bonus Equity Shares at a price lower than the Issue price during the last twelve months. The Company has utilised the balance available in surplus in statement of profit and loss for making such bonus issuance. For further details of Equity Shares issued, please refer to chapter titled, “Capital Structure” beginning on page 77 of this Red Herring Prospectus.

34. *We have not made any alternate arrangements for meeting our capital requirements for the ‘Objects of the Issue’. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Issue. We meet our capital requirements through our owned funds, bank borrowings and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 96 of this Red Herring Prospectus.

35. *Within the parameters as mentioned in the chapter titled “Objects of the Issue” beginning on page 96 of this Red Herring Prospectus, our Company’s management will have flexibility in applying proceeds of the Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use fresh Issue Proceeds towards working capital requirements, general corporate purposes and to meet the Issue expenses. We intend to deploy the Net Issue Proceeds in Financial

Year 2017-2018 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “Objects of the Issue” beginning on page 96 of this Red Herring Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “Objects of the Issue” beginning on page 96 of this Red Herring Prospectus, the management will have flexibility in applying the proceeds received by our Company from the Issue. However, the company shall comply with Section 27 of the Companies Act, 2013 before varying the Objects of the Issue. The Audit Committee will monitor the utilisation of the proceeds of this Issue.

36. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 197 of this Red Herring Prospectus.

37. Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

38. Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

39. Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Offer, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the Issue, our Promoters and Promoter Group will collectively own 70.00% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

40. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company and as creditors of the Company.*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding and dividend entitlement in our Company, for the loan given by them to the Company. For further information, see “*Capital Structure*” and “*Our Management*” and “*Related Party Transactions*” beginning on pages 77, 172 and 196, respectively, of this Red Herring Prospectus.

41. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

Issue Specific Risks

42. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by book built price method. This price is based on numerous factors (For further information, please refer chapter titled “*Basis for Issue Price*” beginning on page 102 of this Red Herring Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

43. *The Equity shares of our Company may trade in Trade to Trade basis.*

The equity shares of our Company may trade in Trade to Trade basis as equity shares of certain shareholders belonging to category Promoter and Promoter group are in the process of

dematerialisation. In case the same does not happen, the circuit filter will be different for the shares traded under Trade to Trade basis.

44. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISK FACTORS

Industry Risks:

45. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

Other Risks

46. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in Red Herring Prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. To ensure compliance with the requirements of the Companies Act, 2013, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

47. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Further, any gain realised on the sale of

listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realised on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

48. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Red Herring Prospectus.*

As stated in the reports of the Auditor included in this Red Herring Prospectus under chapter “Financial Statements as restated” beginning on page 198, the financial statements included in this Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Red Herring Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Red Herring Prospectus. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

49. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;
- central and state sales tax, value added tax and other levies; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

50. *The nationalized goods and services tax (GST) regimes proposed by the Government of India may have material impact on our operations.*

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/ measure the impact this tax regime may have on our operations.

51. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be

affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

52. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy, Information Technology industry, Electronic Products Industry contained in the Red Herring Prospectus.*

While facts and other statistics in this Red Herring Prospectus relating to India, the Indian economy, information technology industry and Electronic Products Industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled 'Our Industry' beginning on page 108 of the Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

53. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

54. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

55. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the

transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

56. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

57. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

58. Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

SECTION III – INTRODUCTION

SUMMARY OF INDUSTRY

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information. You should read the entire Red Herring Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statements” and related notes beginning on page 21 and 198 respectively of this Red Herring Prospectus before deciding to invest in our Equity Shares.

INTRODUCTION TO ELECTRONIC PRODUCTS INDUSTRY

The electronics market of India is one of the largest in the world and is anticipated to reach US\$ 400 billion in 2022 from US\$ 69.6 billion in 2012. The market is projected to grow at a compound annual growth rate (CAGR) of 24.4 per cent during 2012-2020. Total production of electronics hardware goods in India is estimated to reach US\$ 104 billion by 2020. The communication and broadcasting equipment segment constituted 31 per cent, which is the highest share of total production of electronic goods in India in FY13, followed by consumer electronics at 23 per cent.

Electronic exports from India were expected to reach US\$ 8.3 billion in FY13, a CAGR of 27.9 per cent during FY07–12. Technological improvements and competitively cost effectiveness are main drivers for demand of Indian electronics products abroad. The Government of India has set up Electronic Hardware Technology Parks (EHTPs), Special Economic Zones (SEZs) and a brought about a favourable climate for foreign direct investment (FDI). It has also increased liberalisation and relaxed tariffs to promote growth in the sector. In addition, the government gave its green signal to the Modified Special Incentive Package Scheme (MSIPS) under which the central government will be offering up to US\$ 1.7 billion in benefits to the electronics sector in next five years.

The growing customer base and the increased penetration in consumer durables segment have provided enough scope for the growth of the Indian electronics sector. Also, digitisation of cable could lead to increased broadband penetration in the country and open up new avenues for companies in the electronics industry.

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

INTRODUCTION TO INFORMATION TECHNOLOGY INDUSTRY

India is the world's largest sourcing destination, accounting for approximately 55 per cent of the US\$ 146 billion market. The country's cost competitiveness in providing Information Technology (IT) services, which is approximately 3-4 times cheaper than the US, continues to be its Unique Selling Proposition (USP) in the global sourcing market.

India's highly qualified talent pool of technical graduates is one of the largest in the world and is available at a cost saving of 60-70 per cent to source countries. This large pool of qualified skilled workforce has enabled Indian IT companies to help clients to save US\$ 200 billion in the last five years.

India's IT industry amounts to 12.3 per cent of the global market, largely due to exports. Export of IT services accounted for 56.12 per cent of total IT exports (including hardware) from India. The Business Process Management (BPM) segment accounted for 23.46 per cent of total IT exports during FY15. The IT-BPM sector is estimated to expand at a CAGR of 9.5 per cent to US\$ 300 billion by 2020. The Government of India has extended tax holidays to the IT sector for software technology parks of India (STPI) and Special Economic Zones (SEZs). Further, the country is providing procedural ease and single window clearance for setting up facilities.

GLOBAL ECONOMIC ENVIRONMENT

GLOBAL ECONOMIC OVERVIEW

The global macroeconomic landscape is currently chartering a rough and uncertain terrain characterized by weak growth of world output. The situation has been exacerbated by; (i) declining prices of a number of commodities, with reduction in crude oil prices being the most visible of them, (ii) turbulent financial markets (more so equity markets), and (iii) volatile exchange rates. These conditions reflect extreme risk-aversion behaviour of global investors, thus putting many, and in particular, commodities exporting economies under considerable stress.

One important positive outcome in 2015 is the modest pickup in the growth of some of the advanced economies. However, growth in emerging market and developing economies declined for the fifth consecutive year. As a result, overall global economic activity remained subdued in 2015. In its latest Update of the World Economic Outlook (WEO), published on 19 January 2016, the IMF projected growth in the global economy to improve from 3.1 per cent in 2015, to 3.4 per cent in 2016 and further to 3.6 per cent in 2017. Growth in advanced economies is projected at 2.1 per cent in 2016 and to continue through 2017 at the same rate.

The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large Emerging Market and Developing economies (EMDE) are likely to continue to weigh on their growth prospects in 2016–17. Assessments indicate that mixed inflation developments in the EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year. The WEO update also indicated that India and the rest of emerging Asia are bright spots, with some other countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. World trade volume growth projections have been placed at 2.6 per cent and 3.4 per cent respectively for 2015 and 2016, which is much lower than what was estimated earlier in WEO in October 2015.

GLOBAL OUTLOOK FOR GROWTH

One important positive outcome in 2015 was the modest pick-up in growth in some of the advanced economies. It might be recalled that after falling in 2009 due to the 2008 global financial crisis, growth in emerging and developing economies rebounded in 2010 and 2011. While advanced economies also exhibited a recovery in 2010 thanks to the large stimuli, global growth continued to be tepid relative to the average of the decade ending 2006, largely on account of the slowdown in advanced economies. Spill over effects of the crisis may have been large, prolonged and bi-directional, given that the global integration is far greater than in the prior decade. This has made the

task of projecting global economic outlook arduous. This uncertainty has led to the International Monetary Fund (IMF) revising the global growth outlook in its World Economic Outlook (WEO) four times a year since 2009.

In its latest WEO Update, published on 19 January 2016, the IMF has projected growth in the global economy to go up from 3.1 per cent in 2015 to 3.4 per cent in 2016 and further to 3.6 per cent in 2017, slightly lower than the projection published in October 2015. Growth in advanced economies is revised by 0.2 percentage points in 2016 to 2.1 per cent, to continue through 2017. Growth in the US is expected to remain resilient owing to strengthening of the housing and labour markets. Growth in the euro area is expected to increase due to stronger private consumption supported by lower oil prices and easy financial conditions is expected to outweigh the weakening in net exports. Growth in Japan is also expected to consolidate in 2016, on the back of fiscal support, lower oil prices, accommodative financial conditions, and rising incomes.

Overall global economic activity remained subdued in 2015, as growth in emerging market and developing economies (EMDE) declined for the fifth consecutive year and recovery in advanced economies was modest. This is also attributable to the changing composition of the global economy and relative point contributions to global growth. The fall in the contribution of the EMDEs is not being made good by the advanced economies. A recent feature is that the Chinese economy is gradually slowing down and is transitioning from investment demand to consumption demand and from manufacturing to services. The concern over the spill overs of subdued global growth to other economies through trade channels and weaker commodity prices is manifest in diminishing confidence and increasing volatility in financial markets. In addition, a dual monetary policy—a gradual tightening in monetary policy in the US in the backdrop of its resilient recovery and easy monetary policy in several other major advanced economies has led to continued uncertainties and poses challenges for the year ahead. In the case of EMDEs, growth remained subdued at 4 per cent in 2015, but is projected to increase to 4.3 per cent in 2016 and 4.7 per cent in 2017. The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large emerging market economies will continue to weigh on growth prospects in 2016–17. Assessments indicate that mixed inflation developments in EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year.

The 19 January WEO Update also indicated that India and the rest of emerging Asia are bright spots, albeit with some countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. The IMF's growth forecast for India is 7.5 per cent in 2016 and 2017 and this surpasses the projection of 6.3 per cent and 6.0 per cent respectively for China. The level of global economic activity has a significant and direct bearing on the growth prospects of the emerging economies through trade channels. As per the Update, world trade volume growth projections have been placed at 3.4 per cent and 4.1 per cent respectively for 2016 and 2017 lower by 0.7 percentage points to 0.5 percentage point respectively from WEO, October 2015. The World Bank's Report on Global Economic Prospects (January 2016) also estimated that India will grow by a robust 7.8 per cent in 2016 and 7.9 per cent in the following two years. Compared to other major developing countries, the report maintained that India is well positioned to withstand near-term headwinds and volatility in global financial markets due to reduced external vulnerabilities, a strengthening domestic business cycle, and a supportive policy environment.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

In the Advance Estimates of GDP that the Central Statistics Office (CSO) released recently, the growth rate of GDP at constant market prices is projected to increase to 7.6 per cent in 2015-16 from 7.2 per cent in 2014-15, mainly because private final consumption expenditure has accelerated. Similarly, the growth rate of GVA for 2015-16 is estimated at 7.3 per cent vis-à-vis 7.1 per cent in 2014-15. Although agriculture is likely to register low growth for the second year in a row on account of weak monsoons, it has performed better than last year. Industry has shown significant improvement primarily on account of the surprising acceleration in manufacturing (9.5 per cent vis-à-vis 5.5 per cent in 2014-15). Meanwhile, services continue to expand rapidly.

- Even as real growth has been accelerating, nominal growth has been falling, to historically low levels, an unusual trend highlighted in the Mid-Year Economic Analysis (MYEA), 2015-16.
- According to the Advance Estimates, nominal GDP (GVA) is likely to increase by just 8.6 (6.8) percent in 2015-16.
- In nominal terms, construction is expected to stagnate, while even the dynamic sectors of trade and finance are projected to grow by only 7 to 7 3/4 percent.
- Inflation remains under control The CPI-New Series inflation has fluctuated around 5 1/2 percent, while measures of underlying trends—core inflation, rural wage growth and minimum support price increases—have similarly remained muted. Meanwhile, the WPI has been in negative territory since November 2014, the result of the large falls in international commodity prices, especially oil. As low inflation has taken hold and confidence in price stability has improved, gold imports have largely stabilized, notwithstanding the end of a period of import controls
- Similarly, the external position appears robust. The current account deficit has declined and is at comfortable levels; foreign exchange reserves have risen to US\$351.5 billion in early February 2016, and are well above standard norms for reserve adequacy; net FDI inflows have grown from US\$21.9 billion in April-December 2014-15 to US\$27.7 billion in the same period of 2015-16; and the nominal value of the rupee, measured against a basket of currencies, has been steady. India was consequently well-positioned to absorb the volatility from the U.S. Federal Reserve actions to normalize monetary policy that occurred in December 2015. Although the rupee has declined against the dollar, it has strengthened against the currencies of its other trading partners.
- The fiscal sector registered three striking successes: on-going fiscal consolidation, improved indirect tax collection efficiency; and an improvement in the quality of spending at all levels of government.
- Government tax revenues are expected to be higher than budgeted levels. Direct taxes grew by 10.7 per cent in the first 9 months (9M) of 2015-16. Indirect taxes were also buoyant. In part, this reflected excise taxes on diesel and petrol and an increase in the Swachh Bharat cess. The central excise duty collection from petroleum products during April to December 2015-16 recorded a growth of 90.5 per cent and stood at Rs.1.3 lakh crore as against Rs. 0.7 lakh crore in the same period last year. Tax performance also reflected an improvement in tax administration because revenues increased even after stripping out the additional revenue measures (ARMs). Indirect tax revenues grew by 10.7 per cent (without ARMs) and 34.2 per cent (with ARMs).
- The main findings are that a welcome shift in the quality of spending has occurred from revenue to investment, and towards social sectors. Aggregate public investment has increased by about 0.6 per cent of GDP in the first 8 months of this fiscal year, with contributions from both the Centre (54 per cent) and states (46 per cent).

OUTLOOK FOR GROWTH

Real GDP growth for 2015-16 is expected to be in the 7 to 7^{3/4} range, reflecting various and largely offsetting developments on the demand and supply sides of the Indian economy. Before analysing these factors, however, it is important to step back and note one important point. India's long-run potential GDP growth is substantial, about 8-10 percent. But its actual growth in the short run will also depend upon global growth and demand. After all, India's exports of manufactured goods and services now constitute about 18 percent of GDP, up from about 11 percent a decade ago.

Reflecting India's growing globalization, the correlation between India's growth rate and that of the world has risen sharply to reasonably high levels. For the period 1991-2002 this correlation was 0.2. Since then, the correlation has doubled to 0.42. In other words, a 1 percentage point decrease in the world growth rate is now associated with a 0.42 percentage point decrease in Indian growth rates.

Accordingly, if the world economy remains weak, India's growth will face considerable headwinds. For example, if the world continues to grow at close to 3 percent over the next few years rather than returning to the buoyant 4-4½ per cent recorded during 2003-2011, India's medium-term growth trajectory could well remain closer to 7-7½ per cent, notwithstanding the government's reform initiatives, rather than rise to the 8-10 per cent that its long-run potential suggests. In other words, in the current global environment, there needs to be a recalibration of growth expectations and consequently of the standards of assessment.

Turning to the outlook for 2016-17, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

- To measure the demand for India's exports, we calculate a proxy-weighted average GDP growth rate of India's export partners. The weights are the shares of partner countries in India's exports of goods and services. We find that this proxy for export demand growth declined from 3.0 percent in 2014 to 2.7 per cent in 2015, which helps explain the deceleration in India's non-oil exports, although the severity of the slowdown—in fact, a decline in export volume—went beyond adverse external developments. Current projections by the IMF indicate that trading partner growth this demand will improve marginally this year to about 2.8 percent. But the considerable downside risks suggest that it would be prudent not to count on a big contribution to GDP growth from improving export performance.
- On the domestic side, two factors could boost consumption. If and to the extent that the Seventh Pay Commission (7th PC) is implemented, increased spending from higher wages and allowances of government workers will start flowing through the economy. If, in addition, the monsoon returns to normal, agricultural incomes will improve, with attendant gains for rural consumption, which over the past two years of weak rains has remained depressed.
- Against this, the disappearance of much of last year's oil windfall would work to reduce consumption growth. Current prospects suggest that oil prices (Indian crude basket) might average US\$ 35 per barrel next fiscal year compared with US\$ 45 per barrel in 2015-16. The resulting income gain would amount roughly equivalent to 1 percentage point of GDP – an 18 per cent price decline times a share of net oil imports in GDP of 6 percent. But this would be half the size of last year's gain, so consumption growth would slow on this account next year.
- According to analysis done by Credit Suisse, (non-financial) corporate sector profitability has remained weak, falling by 1 percent in the year to December 2015. This decline reflected a sharp deterioration in the financial health of the metals—primarily steel—companies, which have now joined the ranks of companies under severe financial stress. As a result, the proportion of corporate debt owed by stressed companies, defined as those whose earnings are insufficient to cover their interest obligations, has increased to 41 percent in December 2015, compared to 35 percent in December 2014.³ In response to this stress, companies have once again been compelled to curb their capital expenditures substantially.

- Finally, the path for fiscal consolidation will determine the demand for domestic output from government. The magnitude of the drag on demand and output will be largely equal to the size of consolidation, assuming a multiplier of about 1.
- There are three significant downside risks. Turmoil in the global economy could worsen the outlook for exports and tighter financial conditions significantly. Second, if contrary to expectations oil prices rise more than anticipated, this would increase the drag from consumption, both directly, and owing to reduced prospects for monetary easing. Finally, the most serious risk is a combination of the above two factors. This could arise if oil markets are dominated by supply-related factors such as agreements to restrict output by the major producers.
- The one significant upside possibility is a good monsoon. This would increase rural consumption and, to the extent that it dampens price pressures, open up further space for monetary easing.
- Putting these factors together, we expect real GDP growth to be in the 7 to 7^{3/4} per cent range, with downside risks because of on-going developments in the world economy. The wider range in the forecast this time reflects the range of possibilities for exogenous developments, from a rebound in agriculture to a full-fledged international crisis; it also reflects uncertainty arising from the divergence between growth in nominal and real aggregates of economic activity.

INDIA'S INCREASING IMPORTANCE TO GLOBAL GROWTH

Despite global headwinds and a truant monsoon, India registered robust growth of 7.2 per cent in 2014-15 and 7.6 per cent in 2015-16, thus becoming the fastest growing major economy in the world. As per the estimates of the International Monetary Fund (IMF), global growth averaged 3.1 per cent in 2015, declining from 3.4 per cent registered in 2014. While growth in advanced economies has improved modestly since 2013, the emerging economies have witnessed a consistently declining trend in growth rate since 2010. It is against this background that the recent Indian growth story appears particularly bright.

India has made striking progress in its contribution to the global growth of Gross Domestic Product (GDP) in Purchasing Power Parity (PPP) terms. PPP represents the number of units of a country's currency required to purchase the same amount of goods and services in the domestic market as the US dollar would purchase in the United States, thus adjusting for purchasing power differentials between currencies in relevant markets. India's contribution to global growth in PPP terms increased from an average of 8.3 per cent during the period 2001 to 2007 to 14.4 per cent in 2014. During the 1990s, the US's contribution to the global GDP growth in PPP terms was, on an average, around 16 percentage points higher than India's. The picture changed dramatically in 2013 and 2014 when India's contribution was higher than that of the US by 2.2 and 2.7 percentage points respectively. During 1991-2014, low growth in Japan (0.9 per cent annually) resulted in its low contribution (1.5 per cent) to global growth. India and China constitute 42.5 per cent and 53.2 per cent respectively of the total PPP measure of the lower-middle income countries and upper-middle income countries; and hence those country groups largely reflect India's and China's patterns.

The global economy—in particular the global growth powerhouse, China—is rebalancing, leading to an increasing role for India. After the onset of the multiple crises in different parts of the world, India's contribution has become much more valuable to the global economy.

India's share in world GDP has increased from an average of 4.8 per cent during 2001-07 to 6.1 per cent during 2008-13 and further to an average of 7.0 per cent during 2014 to 2015 in current PPP terms (IMF). India's resilience and current levels of reasonably strong growth should, thus, be appreciated in the light of its increasing contribution to global growth.

GLOBAL MANUFACTURING SECTOR

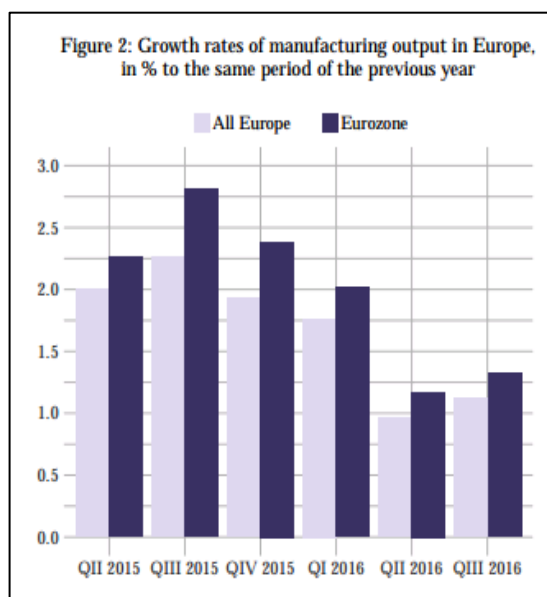

World manufacturing growth

World manufacturing output growth remained low during the third quarter of 2016, reflecting a prolonged yet fragile recovery process in industrialized economies and weakened growth prospects in developing and emerging industrial economies. Although the world manufacturing growth trend has been relatively stable with a lower degree of volatility, there is no clear indication yet that the current period of low growth will end any time soon. On the contrary, the uncertainty accompanying the political developments in trans-Atlantic relations with a potential impact on global trade arrangements may create new risks.

World manufacturing output rose by 2.4 per cent in the third quarter of 2016 compared to the same period of the previous year. The positive trends with some improvement in growth figures since the last quarter were observed across all country groups (Figure 1), including industrialized countries and the world average.

In response to the persistently low growth in manufacturing, enterprises and policymakers have introduced some structural reforms. However, the results of these reforms are yet to be seen. Major industrialized economies with significant contributions to global manufacturing output, namely the United States, Japan and Germany, continue to record low growth rates. In China, the world’s largest manufacturer, comparably lower growth rates have now become more prevalent, thus pushing the average industrial growth of emerging industrial economies downward.

The manufacturing output of industrialized economies increased slightly to 0.6 per cent in the third quarter of 2016 from 0.3 per cent in the previous quarter. This rise is primarily attributable to the performance of East Asia, which registered a low, 4 but positive growth rate at 0.8 per cent in the third quarter of 2016 following several consecutive slumps that have lasted for nearly two years. The main force driving this upturn is Japan, East Asia’s major manufacturer – its manufacturing sector seems to have withstood sluggish external demand fairly well amid a soaring yen in the third quarter of this year. Production increase in Europe had a positive impact on the manufacturing growth of industrialized countries as a whole. By contrast, the growth of North America’s manufacturing output slowed in the third quarter of 2016 to a negligible gain of 0.1 per cent.

The manufacturing growth rate in developing and emerging industrial economies has remained below 5.0 per cent since the beginning of 2015. Manufacturing output in these countries rose by 4.7 per cent in the third quarter of 2016. The region’s growth performance varied considerably: Asian economies maintained a relatively higher growth rate, while Latin America’s manufacturing output decreased.

Brazil's manufacturing output fell, affecting the growth performance of the entire region. Some improvement was seen in Africa, primarily due to the strengthening of South Africa's manufacturing output. Rising growth rates were also recorded in other African countries, though data for sub-Saharan African countries is generally limited. Despite some improvements, the threat of another slowdown looms over developing economies as long as economic and political instability persists in industrialized countries.

As depicted in Figure 1, the level of growth in developing economies has been consistently higher than in industrialized countries. The pace of growth exhibits similar trends in both country groups, with a slightly more positive picture for industrialized countries as their growth performance moves upward

(Source: World Manufacturing Production- Statistics for Quarter III, 2016; United Nations Industrial Development Organisation - www.unido.org)

Key Findings of the analysis

Global manufacturing production maintained a positive growth in nearly all industries in the third quarter of 2016. High and medium-high manufacturing industries held top positions – the manufacture of motor vehicles rose by 6.4 per cent, the production of computers, electronics and optical products grew by 4.6 per cent and the production of pharmaceutical products by 3.4 per cent. Among other fast growing industries, the production of textiles increased by 3.1 per cent. By contrast, the largest loss was recorded by the tobacco industry, with its global production declining by 8.0 per cent.

As regards durable and capital goods, the manufacture of non-metallic mineral products, which essentially supply construction materials, registered a growth figure of 2.5 per cent worldwide. The manufacture of furniture, the production of machinery and equipment and of fabricated metal products rose at a moderate pace by 1.6 per cent, 1.4 per cent and 1.0 per cent, respectively. The pace of the growth of the global manufacturing of basic metals slowed to below 1.0 per cent, mostly due to a significant slowdown reported by China and a visibly decreased production of basic metals in the Russian Federation in the third quarter of 2016.

Global manufacturing output maintained relatively high growth rates in the production of basic consumer goods. The manufacture of food products rose by 3.3 per cent, beverages by 2.9 per cent and wearing apparel by 0.8 per cent. As regards other low-technology manufacturing sectors, the global production of wood products rose by 2.9 per cent, while the manufacturing of paper products only increased by 1.0 per cent.

As illustrated in Figure 4, the growth performance of developing and emerging industrial economies outperformed industrialized economies in all manufacturing industries, including a number of high-technology industries. Disaggregated data by industrialized economies indicate that the performance of industrialized countries was evenly split among all manufacturing industries according to technological intensity. The fastest growing industry in both country groups was the automotive industry, reflecting strong growth of automobile production in China as well as in European countries.

MANUFACTURING SECTOR IN INDIA

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy.

India's ranking among the world's 10 largest manufacturing countries has improved by three places to sixth position in 2015#.

The Government of India has set an ambitious target of increasing the contribution of manufacturing output to 25 per cent of Gross Domestic Product (GDP) by 2025, from 16 per cent currently.

Market Size

India's manufacturing sector has the potential to touch US\$ 1 trillion by 2025. There is potential for the sector to account for 25-30 per cent of the country's GDP and create up to 90 million domestic jobs by 2025. Business conditions in the Indian manufacturing sector continue to remain positive.

Road Ahead

The Government of India has an ambitious plan to locally manufacture as many as 181 products. The move could help infrastructure sectors such as power, oil and gas, and automobile manufacturing that require large capital expenditure and revive the Rs 1,85,000 crore (US\$ 27.42 billion) Indian capital goods business. India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

INDIAN ELECTRONICS SECTOR SEGMENTATION

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

GROWTH DRIVERS OF ELECTRONICS INDUSTRY

- Increase in discretionary income and credit availability has boosted demand for consumer durables
- The government is one of the biggest consumers of the sector and leads the corporate spend on electronics; this is not surprising given that electronics facilitates e-governance, developmental schemes and initiatives launched by the government
- Strong demand and favourable investment climate in the sector are attracting investments in R&D as well as manufacturing.
- Increasing demand for defence equipment's has boosted the production of electronics goods up to a considerable level
- Electronic Manufacturing Services and R&D based exports also drives the market. The increased value – addition would further increase the demand for sales, production, after – sales support and services. This would trigger the demand for skilled human resources in the country
- Rapid urbanisation have unravelled new markets for consumer goods; easy financing options have made consumer goods affordable

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

MULTIPLE FACTORS FAVOUR INVESTMENT IN ELECTRONICS

Growing customer base

Market for electronics is expected to expand at a CAGR of 66.1 per cent during 2015–20. The demand for electronics hardware in India is projected to increase to USD139 billion by 2018

Incentives and concessions under schemes

Export Oriented Unit (EOU) Scheme, Electronics Hardware Technology Park (EHTP) Scheme, Software Technology Park (STP) Scheme and EOU/EHTP/STP Schemes

Targeted reduction in import bill

Domestic electronic production accounts for around 45.0 per cent of the total market demand. Therefore, in order to reduce the import bill, the government plans to boost the domestic manufacturing capabilities and is considering a proposal to give preference to Indian electronic products in its purchases

Increasing penetration in the consumer durables segment

Consumer durables market in India is characterised by low penetration in various product segments, viz. 1.0 per cent in microwaves, 3.0 per cent in ACs, 16.0 per cent in washing machines, 18.0 per cent in refrigerators, etc. Higher disposable incomes are leading to realisation of penetration potential in various product segments, especially in rural areas

Policy and investment support

To compliment the targeted reduction in import bill, the government has proposed a minimum investment of USD555.0 million for semiconductor manufacturing plants and USD222.0 million for ecosystem units. This is considered a major step toward attracting foreign companies to set up manufacturing facilities in India. In Union Budget 2016 – 17, inputs, parts, components & subparts for manufacturing of charger/adapter, battery & wired handsets/speakers of mobile phones are fully exempted from Basic Customs Duty (BCD), Counter Veiling Duty (CVD) and Special Additional Duty (SAD)

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

ADVANTAGE INDIA

Growing demand

Demand from households is set to accelerate given rising disposable incomes, changing lifestyles, and easier access to credit. Government and corporate spending will also contribute to growth in demand

Attractive opportunities

The electronics market is expected to expand at a CAGR of 41.4 per cent during 2016–20. Intended reduction in government's import bill is likely to boost domestic electronics manufacturers.

Higher Investments

Sector has attracted strong investments in the form of M&As and other FDI inflows. Companies are set to augment investments in production, distribution and R&D in the next few years. Government has received investment proposals for USD17.5 million for which they intend to provide incentives under M-SIPS scheme. Applications received before July, 2020 will be considered.

Policy support

100 per cent FDI allowed in the electronics hardware manufacturing sector under the automatic route. Initiatives like Modified Special Incentive Package Scheme (M-SIPS) will provide a capex subsidy of 20 – 25 per cent. As per Make in India Initiative, Electronic Development Fund Policy has been approved which would rationalise an inverted duty structure.

INDIAN SERVICE SECTOR

Introduction

The services sector is not only the dominant sector in India's GDP, but has also attracted significant foreign investment flows, contributed significantly to exports as well as provided large-scale employment. India's services sector covers a wide variety of activities such as trade, hotel and restaurants, transport, storage and communication, financing, insurance, real estate, business services, community, social and personal services, and services associated with construction.

Market Size

The services sector is the key driver of India's economic growth. The sector contributed around 66.1 per cent of its Gross Value Added growth in 2015-16, thereby becoming an important net foreign exchange earner and the most attractive sector for FDI (Foreign Direct Investment) inflows.!

According to a report by leading research firm Market Research Store, the Indian telecommunication services market is expected to grow by 10.3 per cent year-on-year to reach US\$ 103.9 billion by 2020. The Indian digital classifieds industry is expected to grow three-fold to reach US\$ 1.2 billion by 2020, driven by growth in horizontal classifieds like online services, real estate and automobiles. #

Out of overall services sector, the sub-sector comprising financial services, real estate and professional services contributed US\$ 305.8 billion or 20.5 per cent to the GDP. The sub-sector of community, social and personal services contributed US\$ 188.2 billion or 12.6 per cent to the GDP.

Road Ahead

Services sector growth is governed by both domestic and global factors. The sector is expected to perform well in FY16. The Indian facilities management market is expected to grow at 17 per cent CAGR between 2015 and 2020 and surpass the \$19 billion mark supported by booming real estate,

retail, and hospitality sectors. The performance of trade, hotels and restaurants, and transport, storage and communication sectors are expected to improve in FY17. Loss of growth momentum in commodity-producing sectors had adversely impacted transport and storage sectors over the past two years. The financing, insurance, real estate, and business services sectors are also expected to continue their good run in FY17. The growth performance of the community, social and personal services sector is directly linked with government expenditure and we believe that the government will remain committed to fiscal consolidation in FY16.

SEGMENTS OF INDIA'S IT SECTOR

(Source: IT and ITeS Report November 2016 - India Brand Equity Foundation www.ibef.org)

INDIAN INFORMATION TECHNOLOGY INDUSTRY

Introduction

India is the world's largest sourcing destination for the information technology (IT) industry, accounting for approximately 67 per cent of the US\$ 124-130 billion market. The industry employs about 10 million workforces. More importantly, the industry has led the economic transformation of the country and altered the perception of India in the global economy. India's cost competitiveness in providing IT services, which is approximately 3-4 times cheaper than the US, continues to be the mainstay of its Unique Selling Proposition (USP) in the global sourcing market. However, India is also gaining prominence in terms of intellectual capital with several global IT firms setting up their innovation centres in India.

The IT industry has also created significant demand in the Indian education sector, especially for engineering and computer science. The Indian IT and ITeS industry is divided into four major segments – IT services, Business Process Management (BPM), software products and engineering services, and hardware.

The IT-BPM sector which is currently valued at US\$ 143 billion is expected to grow at a Compound Annual Growth Rate (CAGR) of 8.3 per cent year-on-year to US\$ 143 billion for 2015-16. The sector is expected to contribute 9.5 per cent of India's Gross Domestic Product (GDP) and more than 45 per cent in total services export in 2015-16.

Market Size

The Indian IT sector is expected to grow at a rate of 12-14 per cent for FY2016-17 in constant currency terms. The sector is also expected triple its current annual revenue to reach US\$ 350 billion by FY 2025#.

India ranks third among global start-up ecosystems with more than 4,200 start-ups##.

India's internet economy is expected to touch Rs 10 trillion (US\$ 146.72 billion) by 2018, accounting for 5 per cent of the country's GDP####. India's internet user base reached over 400 million by May 2016, the third largest in the world, while the number of social media users grew to 143 million by April 2015 and smartphones grew to 160 million.

Public cloud services revenue in India is expected to reach US\$ 1.26 billion in 2016, growing by 30.4 per cent year-on-year (y-o-y)^. The public cloud market alone in the country was estimated to treble to US\$ 1.9 billion by 2018 from US\$ 638 million in 2014^. Increased penetration of internet (including in rural areas) and rapid emergence of e-commerce are the main drivers for continued growth of data centre co-location and hosting market in India. The Indian Healthcare Information Technology (IT) market is valued at US\$ 1 billion currently and is expected to grow 1.5 times by 2020^^. India's business to business (B2B) e-commerce market is expected to reach US\$ 700 billion by 2020 whereas the business to consumer (B2C) e-commerce market is expected to reach US\$ 102 billion by 2020^^^.

Road Ahead

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. Social, Mobility, Analytics and Cloud (SMAC) are collectively expected to offer a US\$ 1 trillion opportunity. Cloud represents the largest opportunity under SMAC, increasing at a CAGR of approximately 30 per cent to around US\$ 650-700 billion by 2020. The social media is the second most lucrative segment for IT firms, offering a US\$ 250 billion market opportunity by 2020. The Indian e-commerce segment is US\$ 12 billion in size and is witnessing strong growth and thereby offers another attractive avenue for IT companies to develop products and services to cater to the high growth consumer segment.

BOOK BUILDING PROCESS

Book building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the BRLM in accordance with the Book Building Process, and advertised in all editions of a widely circulated English Newspaper “Business Standard”, all editions of a widely circulated Hindi Newspaper “Business Standard”, and widely circulated Marathi Newspaper “Mumbai Lakshadeep”, (Marathi being the regional language of Maharashtra), where our registered office is situated at least five working days prior to the Bid/ Issue Opening date. The Issue Price shall be determined by our Company, in consultation with the BRLM in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are:-

- Our Company;
- The Book Running Lead Manager in this case being Pantomath Capital Advisors Private Limited, the Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with National Stock Exchange of India Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the BRLM;
- The Registrar to the Issue and;
- The Designated Intermediaries

This Issue is being made through the 100 per cent Book Building Process wherein 50 per cent of the Issue shall be available for allocation to Retail Individual Bidders and the balance shall be offered to QIBs and Non-Institutional Investors. Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Retail Portion where allotment to each Retail Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLMs and the Stock Exchange.

All Bidders (excluding Anchor Investors) can participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate through the ASBA process. In accordance with the SEBI Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise or withdraw their Bids prior to the Bid/Issue Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Issue Period. The allocation in the net Issue to the public category shall be made as follows:

- a) Minimum fifty percent to retail individual investors; and
- b) Remaining to
 - i. Individual applicants other than retail individual investors; and
 - ii. Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;
- c) The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

If the retail individual investor category is entitled to more than fifty per cent on proportionate basis, accordingly the retail individual investors shall be allocated that higher percentage

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “Issue Procedure” on page 285 of this Red Herring Prospectus

Illustration of Book Building and Price Discovery Process (Investors should note that this example is solely for illustrative purposes and is not specific to the Issue) Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20 to Rs. 24 per equity share, Issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centers during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to Issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22 in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the Issue price at or below such cut-off price, i.e., at or below Rs. 22/-. All bids at or above this Issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

1. Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 285. of this Red Herring Prospectus);
2. Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
3. Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
4. Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims
5. Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form;

BID / OFFER PROGRAMME

DETAILS OF THE MARKET MAKING ARRANGEMENT

Our Company and the Book Running Lead Manager have entered into an agreement dated February 23, 2017, with the following Market Maker, duly registered with NSE EMERGE to fulfill the obligations of Market Making:-

Pantomath Stock Brokers Private Limited

406-408, Keshava Premises, Behind Family Court,
Bandra Kurla Complex, Bandra (East), Mumbai 400 051,
Maharashtra, India

Tel: +91 22 6194 6774

Fax: +91 22 2659 8690

Email: broking@pantomathgroup.com

Contact Person: Mahavir Toshniwal

SEBI Registration Number: INZ000068338

Pantomath Stock Brokers Private Limited registered with EMERGE segment of NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of [●]/- the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be Rs. [●]/- until the same, would be revised by NSE.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 92,800 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Offer over and above 92,800 Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, Pantomath Stock Brokers Private Limited is acting as the sole Market Maker.
7. The shares of the company will be traded in continuous trading session from the time and day the company gets listed on Emerge Platform of NSE and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.

8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

9. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

10. NSE Emerge will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.

11. NSE Emerge will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

12. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crore to Rs. 50 crore	20%	19%
Rs. 50 to Rs. 80 crore	15%	14%
Above Rs. 80 crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / NSE from time to time.

The minimum Promoters’ contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as ‘promoter’ under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters’ contribution in terms of Regulation 33 of the SEBI ICDR Regulations. In connection, we confirm the following:

- The Equity Shares offered for minimum 20% Promoters’ contribution have not been acquired in the three years preceding the date of this Red Herring Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters’ contribution;
- The minimum Promoters’ contribution does not include Equity Shares acquired during the one year preceding the date of this Red Herring Prospectus at a price lower than the Issue Price;
- No equity shares have been issued to our promoter upon conversion of a partnership firm during the preceding one year at a price less than the issue price.
- The Equity Shares held by the Promoter and offered for minimum Promoters’ contribution are not subject to any pledge;
- All the Equity Shares of our Company held by the Promoter are in the process of being dematerialized; and
- The Equity Shares offered for Promoter’s contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoter for inclusion of its subscription in the Promoter’s contribution subject to lock-in.

iii. Details of Share Capital locked in for one year

Other than the above Equity Shares that are locked in for three years, the entire pre-Issue Equity Share capital of our Company shall be locked-in for a period of one year from the date of allotment in the Public Issue.

iv. Other requirements in respect of lock-in:

Pursuant to Regulation 39 of the SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters, as specified above, can be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such scheduled commercial banks or public financial institution, provided that the pledge of the Equity Shares is one of the terms of the sanction of the loan.

Provided that securities locked in as Promoters' Contribution for 3 years under Regulation 36(a) of the SEBI ICDR Regulations may be pledged only if, in addition to fulfilling the above requirement, the loan has been granted by such scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, the Equity Shares held by persons other than the Promoters prior to the Issue may be transferred to any other person holding the Equity Shares which are locked-in as per Regulation 37 of the SEBI (ICDR) Regulations, along with the Equity Shares proposed to be transferred, provided that lock-in on such Equity Shares will continue for the remaining period with the transferee and such transferee shall not be eligible to transfer such Equity Shares till the lock-in period stipulated under the SEBI (ICDR) Regulations has ended, subject to compliance with the Takeover Code, as applicable.

We further confirm that our Promoters' Contribution of 20.50% of the post Issue Equity Share capital does not include any contribution from Alternative Investment Fund.

14. Our Company does not have any Employee Stock Option Scheme / Employee Stock Purchase Plan for our employees and we do not intend to allot any shares to our employees under Employee Stock Option Scheme / Employee Stock Purchase Plan from the proposed issue. As and when, options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014.
15. Neither the Book Running Lead Manager viz. Pantomath Capital Advisors Private Limited, nor their associates hold any Equity Shares of our Company as on the date of this Red Herring Prospectus.
16. Under-subscription in the net issue, if any, in any category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the EMERGE Platform of National Stock Exchange of India Limited.
17. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.
18. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the net offer to the public portion.

19. There are no Equity Shares against which depository receipts have been issued.
20. Other than the Equity Shares, there is no other class of securities issued by our Company.
21. There will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, right issue or in any other manner during the period commencing from the date of the Red Herring Prospectus until the Equity Shares have been listed. Further, our Company does not intend to alter its capital structure within six months from the date of opening of the Issue, by way of split / consolidation of the denomination of Equity Shares. However our Company may further issue Equity Shares (including issue of securities convertible into Equity Shares) whether preferential or otherwise after the date of the listing of equity shares to finance an acquisition, merger or joint venture or for regulatory compliance or such other scheme of arrangement or any other purpose as the Board may deem fit, if an opportunity of such nature is determined by its Board of Directors to be in the interest of our Company.
22. None of the persons/entities comprising our Promoter Group, or our Directors or their relatives have financed the purchase by any other person of securities of our Company other than in the normal course of the business of any such entity/individual or otherwise during the period of six months immediately preceding the date of filing of this Red Herring Prospectus.
23. Our Company, our Promoters, our Directors and the Book Running Lead Manager have not entered into any buy back or standby or similar arrangements for the purchase of Equity Shares being offered through the Issue from any person.
24. There are no safety net arrangements for this public issue.
25. An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock- in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
26. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 43 (4) of SEBI (ICDR) Regulations, as amended from time to time.
27. As on date of this Red Herring Prospectus there are no outstanding warrants, options or rights to convert debentures loans or other financial instruments into our Equity Shares.
28. All the Equity Shares of our Company are fully paid up as on the date of the Red Herring Prospectus. Further, since the entire issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares and thus all shares offered through this issue shall be fully paid-up.
29. As per RBI regulations, OCBs are not allowed to participate in this Issue.
30. Our Company has not raised any bridge loans against the proceeds of the Issue.
31. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
32. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.
33. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
34. No payment, direct or indirect in the nature of discount, commission, and allowance or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Issue.

35. Our Company has 7 shareholders as on the date of filing of this Red Herring Prospectus.
36. Our Promoters and the members of our Promoter Group will not participate in this Issue.
37. Our Company has not made any public issue since its incorporation.
38. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing the Red Herring Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.
39. For the details of transactions by our Company with our Promoter Group, Group Companies during the period ended December 31, 2016 and financial years ended March 31, 2016, 2015, 2014, 2013 and 2012, please refer to paragraph titled “Details of Related Parties Transactions as Restated” in the chapter titled “*Financial Statements as restated*” on page 198 of this Red Herring Prospectus.
40. None of our Directors or Key Managerial Personnel holds Equity Shares in our Company, except as stated in the chapter titled “Our Management” beginning on page 172 of this Red Herring Prospectus.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the net proceeds from the Issue towards funding the following objects and achieve the benefits of listing on the Emerge Platform of NSE.

The objects of the Issue are:

1. Working Capital Requirements;
2. General Corporate Purposes.

We believe that listing of Equity Shares will enhance our Company's corporate image, brand name and create a public market for our Equity Shares in India.

The main objects clause of our Memorandum of Association and the objects incidental and ancillary to the main objects enables us to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum of Association.

FUND REQUIREMENTS

The fund requirement and deployment is based on internal management estimates and our Company's current business plan and is subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy. These estimates have not been appraised by any bank or financial institution.

In view of the dynamic nature of the sector and specifically that of our business, we may have to revise our expenditure and fund requirements as a result of variations in cost estimates, exchange rate fluctuations and external factors which may not be within the control of our management. This may entail rescheduling and revising the planned expenditures and fund requirements and increasing or decreasing expenditures for a particular purpose at the discretion of our management, within the objects.

Means of Finance

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Issue, bank borrowings and internal accruals. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

Utilisation of Net Proceeds

The details of the Issue Proceeds are summarised below:

Particulars	Amount (Rs in Lakhs)
Issue Proceeds*	[●]
Less: Issue related expenses	[●]
Net Proceeds	[●]

* To be finalised upon determination of Issue Price.

We intend to utilise the Net Proceeds from the Issue, in the manner set below:

Sr. No.	Particulars	Amount (Rs in Lakhs)	Percentage of net Issue
1.	Working Capital Requirements	1,200.00	[●]%
2.	General Corporate Purpose	[●]	[●]%

While we intend to utilise the Issue Proceeds in the manner provided above, in the event of a surplus, we will use such surplus towards general corporate purposes including meeting future growth requirements. In case of variations in the actual utilisation of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. In the

event of any shortfall in the Net Proceeds, we may explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders.

Schedule of Implementation/Utilization of Net Proceeds

Our Company proposes to deploy the Net Proceeds in the aforesaid objects in the financial year 2016-17 and 2017-18.

Details of Utilization of Issue Proceeds

Our Company proposes to utilise Rs. 1,200.00 lakhs of Net Proceeds towards working capital requirements for meeting our business requirements.

The incremental working capital requirements are based on historical Company data and estimation of the future requirements in Financial Year 2017-18 considering the growth in activities of our Company and in line with norms accepted by our banker(s).

Justification for "Holding Period" levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories	In FY 2016-17 and FY 2017-18, we have assumed raw material inventory of around 3.02 months and 3.00 months which is slightly lower than for F.Y. 2015-16 as we aim to achieve higher production. Further we have assumed finished goods inventory of around 0.92 months in FY 2016-17 and FY 2017-18 as compared to 0.66 months in FY 2015-16 as we aim to expand our manufacturing operations.

Assets- Current Assets	
Trade receivables	In FY 2016-17 and FY 2017-18, the trade receivable holding period is estimated to slightly decrease from 3.49 months in F.Y. 2015-16 to 3.00 months and 3.20 months respectively. The decrease is expected as we intend to have a stringent debtor management policy.
Liabilities - Current Liabilities	
Trade Payables	In FY 2016-17 and FY 2017-18, the credit period is expected to be 2.26 months and 2.25 months respectively as compared to 2.64 months in FY 2015-16, as the Company will strive to adhere to stricter credit policy to achieve better and favourable pricing terms and to ensure continued relation with the existing suppliers.

GENERAL CORPORATE PURPOSES

Our management, in accordance with the policies of our Board, will have flexibility in utilizing the proceeds earmarked for general corporate purposes. We intend to deploy the balance Issue proceeds net off issue expenses aggregating Rs. [●] lakhs being [●]% of the net issue proceeds towards general corporate purposes to drive our business growth. In accordance with the policies set up by our Board, we have flexibility in applying the remaining Proceeds after meeting issue expenses, for general corporate purpose including but not restricted to, marketing expenses, meeting operating expenses, strengthening of our business development and marketing capabilities, meeting exigencies which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act.

Our Management, in accordance with the policies setup by the Board, will have flexibility in deploying the Net Proceeds of the Issue.

BRIDGE FINANCING

We have not entered into any bridge finance arrangements that will be repaid from the Net Issue Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit facility with our lenders, to finance additional working capital needs until the completion of the Issue. Any amount that is drawn down from the overdraft arrangement / cash credit facility during this period to finance additional working capital needs will be repaid from the Net Proceeds of the Issue.

APPRAISAL BY APPRAISING AGENCY

The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution.

INTERIM USE OF FUNDS

Pending utilization of the Issue Proceeds for the Objects of Issue described above, Our Company shall deposit the funds only in the scheduled commercial banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilization of the Issue Proceeds for the Objects of Issue described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

MONITORING UTILIZATION OF FUNDS

As the size of the Issue does not exceed Rs. 50,000 lakhs, in terms of Regulation 16 of the SEBI Regulations, our Company is not required to appoint a monitoring agency for the purposes of this Issue. Our Board and Audit Committee shall monitor the utilization of the Net Proceeds.

Pursuant to Regulation 32 of the Listing Regulations, our Company shall on a half yearly basis disclose to the Audit Committee the uses and application of the Issue Proceeds. Until such time as any part of the Issue Proceeds remains unutilized, our Company will disclose the utilization of the Issue Proceeds under separate heads in our Company's balance sheet(s) clearly specifying the amount of and purpose for which Issue Proceeds have been utilized so far, and details of amounts out of the Issue Proceeds that have not been utilized so far, also indicating interim investments, if any, of such unutilized Issue Proceeds. In the event that our Company is unable to utilize the entire amount that we have currently estimated for use out of the Issue Proceeds in a Fiscal Year, we will utilize such unutilized amount in the next financial year. Further, in accordance with Regulation 32(1) (a) of the Listing Regulations our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Issue Proceeds for the objects stated in this Red Herring Prospectus

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of a special resolution through postal ballot. In addition, the notice issued to our shareholders in relation to the passing of such special resolution (the “Postal Ballot Notice”) shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoter or controlling shareholders will be required to provide an exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS

No part of the proceeds of the Issue will be paid by us as consideration to the Promoter and Promoter Group, the Directors, Key Management Personnel or the Group Companies, except in the ordinary course of business and in compliance with the applicable law.

BASIS FOR ISSUE PRICE

The Issue Price of Rs. INTRODUCTION TO ELECTRONIC PRODUCTS INDUSTRY

The electronics market of India is one of the largest in the world and is anticipated to reach US\$ 400 billion in 2022 from US\$ 69.6 billion in 2012. The market is projected to grow at a compound annual growth rate (CAGR) of 24.4 per cent during 2012-2020. Total production of electronics hardware goods in India is estimated to reach US\$ 104 billion by 2020. The communication and broadcasting equipment segment constituted 31 per cent, which is the highest share of total production of electronic goods in India in FY13, followed by consumer electronics at 23 per cent.

Electronic exports from India were expected to reach US\$ 8.3 billion in FY13, a CAGR of 27.9 per cent during FY 07–12. Technological improvements and competitively cost effectiveness are main drivers for demand of Indian electronics products abroad. The Government of India has set up Electronic Hardware Technology Parks (EHTPs), Special Economic Zones (SEZs) and a brought about a favourable climate for foreign direct investment (FDI). It has also increased liberalisation and relaxed tariffs to promote growth in the sector. In addition, the government gave its green signal to the Modified Special Incentive Package Scheme (MSIPS) under which the central government will be offering up to US\$ 1.7 billion in benefits to the electronics sector in next five years.

The growing customer base and the increased penetration in consumer durables segment have provided enough scope for the growth of the Indian electronics sector. Also, digitisation of cable could lead to increased broadband penetration in the country and open up new avenues for companies in the electronics industry.

APPROACH TO INDUSTRY ANALYSIS

Analysis of Electronics Industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Electronics Products Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Electronics Products Industry.

Manufacturing sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing sector is Electronics Industry, which in turn encompasses various components one of them being Electronics Products Segment including Consumer Electronics, Industrial Electronics, Computers, Communication and Broadcasting Equipment's, Strategic Electronics, Electronic Components.

Thus, Electronics Product Segment should be analysed in the light of Electronics Industry at large. An appropriate view on Electronics Product Segment, then, calls for the overall economic outlook, performance and expectations of Manufacturing Sector, position of Electronics Industry and micro analysis.

INTRODUCTION TO INFORMATION TECHNOLOGY INDUSTRY

India is the world's largest sourcing destination, accounting for approximately 55 per cent of the US\$ 146 billion market. The country's cost competitiveness in providing Information Technology (IT) services, which is approximately 3-4 times cheaper than the US, continues to be its Unique Selling Proposition (USP) in the global sourcing market.

India's highly qualified talent pool of technical graduates is one of the largest in the world and is available at a cost saving of 60-70 per cent to source countries. This large pool of qualified skilled workforce has enabled Indian IT companies to help clients to save US\$ 200 billion in the last five years.

India's IT industry amounts to 12.3 per cent of the global market, largely due to exports. Export of IT services accounted for 56.12 per cent of total IT exports (including hardware) from India. The Business Process Management (BPM) segment accounted for 23.46 per cent of total IT exports during FY15. The IT-BPM sector is estimated to expand at a CAGR of 9.5 per cent to US\$ 300 billion by 2020. The Government of India has extended tax holidays to the IT sector for software technology parks of India (STPI) and Special Economic Zones (SEZs). Further, the country is providing procedural ease and single window clearance for setting up facilities.

(Source: Indian IT and ITeS Industry Analysis, India Brand Equity Foundation, www.ibef.org)

Strong growth Opportunities - The IT-BPM sector in India expanded at a CAGR of 13.7 per cent over 2010–16, which is 3–4 times higher than the global IT-BPM growth, and is estimated to expand at a CAGR of 9.1 per cent to USD350 billion by 2025.

Leading sourcing destination - As of 2015, India is a prominent sourcing destination across the world, accounting for approximately 56 per cent market share in the global services sourcing business. India acquired a share of around 38 per cent in the overall Business Process Management (BPM) sourcing market.

Largest pool of ready to hire talent - India’s highly qualified talent pool of technical graduates is one of the largest in the world, facilitating its emergence as a preferred destination for outsourcing, computer science/information technology accounts for the biggest chunk of India’s fresh engineering talent pool, with more than 98 per cent of the colleges offering this stream.

Most lucrative sector for investments - The sector ranks fourth in India’s total FDI share and accounts for approximately 37 per cent of total Private Equity and Venture investments in the country.

Cash Cow - In FY16, revenues of Indian IT-BPM market is estimated to touch USD160 billion. In 2015, Indian IT companies have helped clients to save USD200 billion in the last five years. India’s IT-BPM sector includes 670 offshore development centres around 78 countries.

GLOBAL ECONOMIC ENVIRONMENT

INTRODUCTION

Since the Economic Survey and Budget were presented a year ago, the Indian economy has continued to consolidate the gains achieved in restoring macro-economic stability. Inflation, the fiscal deficit, and the current account deficit have all declined, rendering India a relative haven of macro stability in these turbulent times. Economic growth appears to be recovering, albeit at varying speeds across sectors.

At the same time, the upcoming Budget and 2016-17 (FY-2017) economic policy more broadly, will have to contend with an unusually challenging and weak external environment. Although the major international institutions are yet again predicting that global growth will increase from its current subdued level, they assess that risks remain tilted to the downside. This uncertain and fragile outlook will complicate the task of economic management for India.

The risks merit serious attention not least because major financial crises seem to be occurring more frequently. The Latin American debt crisis of 1982, the Asian Financial crisis of the late 1990s, and the Eastern European crisis of 2008 suggested that crises might be occurring once a decade. But then the rapid succession of crises, starting with Global Financial Crisis of 2008 and proceeding to the prolonged European crisis, the mini-crises of 2013, and the China provoked turbulence in 2015 all hinted that the intervals between events are becoming shorter.

This hypothesis could be validated in the immediate future, since identifiable vulnerabilities exist in at least three large emerging economies—China, Brazil, Saudi Arabia—at a time when underlying growth and productivity developments in the advanced economies are soft. More flexible exchange rates, however, could moderate full-blown eruptions into less disruptive but more prolonged volatility.

One tail risk scenario that India must plan for is a major currency re-adjustment in Asia in the wake of a similar adjustment in China; as such an event would spread deflation around the world. Another tail risk scenario could unfold as a consequence of policy actions—say, capital controls taken to respond to curb outflows from large emerging market countries, which would further moderate the growth impulses emanating from them.

In either case, foreign demand is likely to be weak, forcing India—in the short run—to find and activate domestic sources of demand to prevent the growth momentum from weakening. At the very least, a tail risk event would require Indian monetary and fiscal policy not to add to the deflationary impulses from abroad. The consolation would be that weaker oil and commodity prices would help keep inflation and the twin deficits in check.

GLOBAL ECONOMIC OVERVIEW

The global macroeconomic landscape is currently chartering a rough and uncertain terrain characterized by weak growth of world output. The situation has been exacerbated by; (i) declining prices of a number of commodities, with reduction in crude oil prices being the most visible of them, (ii) turbulent financial markets (more so equity markets), and (iii) volatile exchange rates. These conditions reflect extreme risk-aversion behaviour of global investors, thus putting many, and in particular, commodities exporting economies under considerable stress.

One important positive outcome in 2015 is the modest pickup in the growth of some of the advanced economies. However, growth in emerging market and developing economies declined for the fifth consecutive year. As a result, overall global economic activity remained subdued in 2015. In its latest Update of the World Economic Outlook (WEO), published on 19 January 2016, the IMF projected growth in the global economy to improve from 3.1 per cent in 2015, to 3.4 per cent in 2016 and further to 3.6 per cent in 2017. Growth in advanced economies is projected at 2.1 per cent in 2016 and to continue through 2017 at the same rate.

The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large Emerging Market and Developing economies (EMDE) are likely to continue to weigh on their growth prospects in 2016–17. Assessments indicate that mixed inflation developments in the EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year. The WEO update also indicated that India and the rest of emerging Asia are bright spots, with some other countries facing strong headwinds from China's economic rebalancing and global manufacturing weakness. World trade volume growth projections have been placed at 2.6 per cent and 3.4 per cent respectively for 2015 and 2016, which is much lower than what was estimated earlier in WEO in October 2015.

(Source-Economic Survey 2015-16-Volume II; www.indiabudget.nic.in)

GLOBAL OUTLOOK FOR GROWTH

One important positive outcome in 2015 was the modest pick-up in growth in some of the advanced economies. It might be recalled that after falling in 2009 due to the 2008 global financial crisis, growth in emerging and developing economies rebounded in 2010 and 2011. While advanced

economies also exhibited a recovery in 2010 thanks to the large stimuli, global growth continued to be tepid relative to the average of the decade ending 2006, largely on account of the slowdown in advanced economies. Spill over effects of the crisis may have been large, prolonged and bi-directional, given that the global integration is far greater than in the prior decade. This has made the task of projecting global economic outlook arduous. This uncertainty has led to the International Monetary Fund (IMF) revising the global growth outlook in its World Economic Outlook (WEO) four times a year since 2009.

In its latest WEO Update, published on 19 January 2016, the IMF has projected growth in the global economy to go up from 3.1 per cent in 2015 to 3.4 per cent in 2016 and further to 3.6 per cent in 2017, slightly lower than the projection published in October 2015. Growth in advanced economies is revised by 0.2 percentage points in 2016 to 2.1 per cent, to continue through 2017. Growth in the US is expected to remain resilient owing to strengthening of the housing and labour markets. Growth in the euro area is expected to increase due to stronger private consumption supported by lower oil prices and easy financial conditions is expected to outweigh the weakening in net exports. Growth in Japan is also expected to consolidate in 2016, on the back of fiscal support, lower oil prices, accommodative financial conditions, and rising incomes.

Overall global economic activity remained subdued in 2015, as growth in emerging market and developing economies (EMDE) declined for the fifth consecutive year and recovery in advanced economies was modest. This is also attributable to the changing composition of the global economy and relative point contributions to global growth. The fall in the contribution of the EMDEs is not being made good by the advanced economies. A recent feature is that the Chinese economy is gradually slowing down and is transitioning from investment demand to consumption demand and from manufacturing to services. The concern over the spill overs of subdued global growth to other economies through trade channels and weaker commodity prices is manifest in diminishing confidence and increasing volatility in financial markets. In addition, a dual monetary policy—a gradual tightening in monetary policy in the US in the backdrop of its resilient recovery and easy monetary policy in several other major advanced economies has led to continued uncertainties and poses challenges for the year ahead. In the case of EMDEs, growth remained subdued at 4 per cent in 2015, but is projected to increase to 4.3 per cent in 2016 and 4.7 per cent in 2017. The slowdown and rebalancing of the Chinese economy, lower commodity prices, and strains in some large emerging market economies will continue to weigh on growth prospects in 2016–17. Assessments indicate that mixed inflation developments in EMDEs reflect the conflicting implications of weak domestic demand and lower commodity prices versus marked currency depreciations over the past year.

The 19 January WEO Update also indicated that India and the rest of emerging Asia are bright spots, albeit with some countries facing strong headwinds from China’s economic rebalancing and global manufacturing weakness. The IMF’s growth forecast for India is 7.5 per cent in 2016 and 2017 and this surpasses the projection of 6.3 per cent and 6.0 per cent respectively for China. The level of global economic activity has a significant and direct bearing on the growth prospects of the emerging economies through trade channels. As per the Update, world trade volume growth projections have been placed at 3.4 per cent and 4.1 per cent respectively for 2016 and 2017 lower by 0.7 percentage points to 0.5 percentage point respectively from WEO, October 2015. The World Bank’s Report on Global Economic Prospects (January 2016) also estimated that India will grow by a robust 7.8 per cent in 2016 and 7.9 per cent in the following two years. Compared to other major developing countries, the report maintained that India is well positioned to withstand near-term headwinds and volatility in global financial markets due to reduced external vulnerabilities, a strengthening domestic business cycle, and a supportive policy environment.

(Source-Economic Survey 2015-16-Volume II; www.indiabudget.nic.in)

THE INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. A sense of this turnaround is illustrated by a cross-country comparison. In last year’s Survey, we had constructed an overall index of macroeconomic vulnerability, which adds a country’s fiscal deficit, current account deficit, and inflation. This index showed that in 2012 India was the most

vulnerable of the major emerging market countries. Subsequently, India has made the most dramatic strides in reducing its macro-vulnerability. Since 2013, its index has improved by 5.3 percentage points compared with 0.7 percentage points for China, 0.4 percentage points for all countries in India’s investment grade (BBB), and a deterioration of 1.9 percentage points in the case of Brazil (Figure 2).

If macro-economic stability is one key element of assessing a country’s attractiveness to investors, its growth rate is another. In last year’s Survey we had constructed a simple Rational Investor Ratings Index (RIRI) which combined two elements, growth serving as a gauge for rewards and the macro-economic vulnerability index proxying for risks. The RIRI is depicted in Figure 3; higher levels indicate better performance. As can be seen, India performs well not only in terms of the change of the index but also in terms of the level, which compares favourably to its peers in the BBB investment grade and even its “betters” in the A grade¹. As an investment proposition, India stands out internationally.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

In the Advance Estimates of GDP that the Central Statistics Office (CSO) released recently, the growth rate of GDP at constant market prices is projected to increase to 7.6 per cent in 2015-16 from 7.2 per cent in 2014-15, mainly because private final consumption expenditure has accelerated. Similarly, the growth rate of GVA for 2015-16 is estimated at 7.3 per cent vis-à-vis 7.1 per cent in 2014-15. Although agriculture is likely to register low growth for the second year in a row on account of weak monsoons, it has performed better than last year. Industry has shown significant improvement primarily on account of the surprising acceleration in manufacturing (9.5 per cent vis-à-vis 5.5 per cent in 2014-15). Meanwhile, services continue to expand rapidly.

- Even as real growth has been accelerating, nominal growth has been falling, to historically low levels, an unusual trend highlighted in the Mid-Year Economic Analysis (MYEA), 2015-16.
- According to the Advance Estimates, nominal GDP (GVA) is likely to increase by just 8.6 (6.8) percent in 2015-16.
- In nominal terms, construction is expected to stagnate, while even the dynamic sectors of trade and finance are projected to grow by only 7 to 7 3/4 percent.
- Inflation remains under control The CPI-New Series inflation has fluctuated around 51/2 percent, while measures of underlying trends—core inflation, rural wage growth and minimum support price increases—have similarly remained muted. Meanwhile, the WPI has been in negative territory since November 2014, the result of the large falls in international commodity prices, especially oil. As low inflation has taken hold and confidence in price stability has improved, gold imports have largely stabilized, notwithstanding the end of a period of import controls
- Similarly, the external position appears robust. The current account deficit has declined and is at comfortable levels; foreign exchange reserves have risen to US\$351.5 billion in early February 2016, and are well above standard norms for reserve adequacy; net FDI inflows have grown from US\$21.9 billion in April-December 2014-15 to US\$27.7 billion in the same period of 2015-16; and the nominal value of the rupee, measured against a basket of currencies, has been steady. India was

consequently well-positioned to absorb the volatility from the U.S. Federal Reserve actions to normalize monetary policy that occurred in December 2015. Although the rupee has declined against the dollar, it has strengthened against the currencies of its other trading partners.

- The fiscal sector registered three striking successes: on-going fiscal consolidation, improved indirect tax collection efficiency; and an improvement in the quality of spending at all levels of government.
- Government tax revenues are expected to be higher than budgeted levels. Direct taxes grew by 10.7 per cent in the first 9 months (9M) of 2015-16. Indirect taxes were also buoyant. In part, this reflected excise taxes on diesel and petrol and an increase in the Swachh Bharat cess. The central excise duty collection from petroleum products during April to December 2015-16 recorded a growth of 90.5 per cent and stood at Rs.1.3 lakh crore as against Rs. 0.7 lakh crore in the same period last year. Tax performance also reflected an improvement in tax administration because revenues increased even after stripping out the additional revenue measures (ARMs). Indirect tax revenues grew by 10.7 per cent (without ARMs) and 34.2 per cent (with ARMs).
- The main findings are that a welcome shift in the quality of spending has occurred from revenue to investment, and towards social sectors. Aggregate public investment has increased by about 0.6 per cent of GDP in the first 8 months of this fiscal year, with contributions from both the Centre (54 per cent) and states (46 per cent).

DEVELOPMENTS IN THE CAPITAL MARKET

PRIMARY MARKET

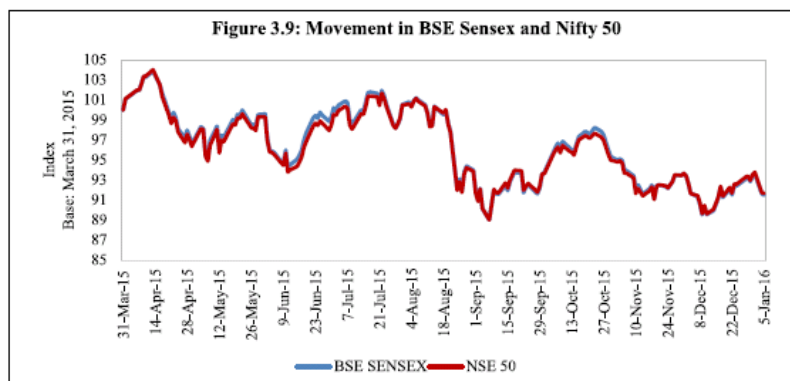

In 2015-16 (April-December), resource mobilization through the public and right issues has surged rapidly as compared to the last financial year. During 2015-16 (April- December), 71 companies have accessed the capital market and raised Rs.51,311 crore, compared to Rs.11,581 crore raised through 61 issues during the corresponding period of 2014-15.

The small and medium enterprises (SME) platform of the stock exchange is intended for small and medium sized companies with high growth potential, whose post issue paid-up capital is less than or equal to Rs. 25 crore. During 2015-16 (April- December), 32 companies were listed on the SME platform, raising a total amount of Rs.278 crore as compared to Rs.229 crore raised through 28 issues in the corresponding period of 2014-15.

Resources mobilized by mutual funds during April-December 2015 also increased substantially to Rs.1,61,696 crore from Rs.87,942crore mobilized during the same period of the previous year.

SECONDARY MARKET

During 2015-16 so far, the Indian securities market has remained subdued (Figure 3.9). The Bombay Stock Exchange (BSE) Sensex declined by 8.5 per cent (up to 5 January 2016) over end-March 2015, mainly on account of turmoil in global equity markets in August 2015 following slowdown in China and its currency devaluation and slump in stocks. On 4 January 2016, weak Chinese manufacturing data again led to a global sell-off which caused the BSE Sensex also to decline by 538 points (2.1 per cent).The downward trend in the Indian stock market was also guided by mixed corporate earnings for Q1 and Q2 of 2015- 16, FPIs' concern over minimum alternative tax (MAT), weakening of the rupee against the US dollar, investor concern over delay in passage of the Goods and Services Tax (GST) Bill, uncertainty over interest rate hike by US Fed and selling by FPIs. However, the Indian equity market has been relatively resilient during this period compared to the other major EMEs. The Indian stock market withstood the US Fed increase in interest rates in December 2015.

INDUSTRIAL PERFORMANCE

The Index of Industrial Production (IIP) which provides quick estimates of the performance of key industrial sectors has started showing upward momentum (Figure 6.1). As per IIP, the industrial sector broadly comprising mining, manufacturing and electricity attained 3.1 per cent growth during April-December 2015-16 as compared to 2.6 per cent during the same period of 2014-15 due to the higher growth in mining and manufacturing sectors (Table 6.1). The mining, manufacturing and electricity sectors grew by 2.3 per cent, 3.1 per cent, and 4.5 per cent respectively during April-December 2015-16. The mining sector growth was mainly on account of higher coal production. The manufacturing sector was propelled by the higher production by the industry groups like furniture; wearing apparel, dressing and dyeing of fur; motor vehicles, trailers & semitrailers; chemicals and chemical products; refined petroleum products & nuclear fuel; and wood & products of wood. The growth in electricity is mainly contributed by higher growth in generation of thermal and nuclear sector.

In terms of use based classification, consumer durable goods have witnessed a remarkable growth at 12.4 per cent during April-December 2015-16. Basic goods and capital goods have registered 3.4 per cent and 1.7 per cent growth with intermediate goods by 1.9 per cent (Table 6.1).

The eight core infrastructure supportive industries, coal, crude oil, natural gas, refinery products, fertilizers, steel, cement and electricity that have a total weight of nearly 38 per cent in the IIP, registered a cumulative growth of 1.9 per cent during April-December 2015-16 as compared to 5.7 per cent during April-December 2014-15. Month-wise performance of the eight core sectors shows that the production of coal and fertilizers have increased substantially, while that of crude oil, natural gas and steel have mostly been negative. Refinery products, cement and electricity have attained moderate growth. Clearances for coal projects have facilitated production of coal. Crude oil and natural gas production declined because of a fall in production by Oil and Natural Gas Corporation (ONGC), Oil India Limited (OIL) and also private/joint venture (JV) companies in different months. In electricity generation, while the thermal and nuclear sectors have registered higher growth, the hydro sector has not performed well.

Figure 6.1 depicts three months moving average month-on-month (M-o-M) growth of the IIP, manufacturing and eight core industries. The growth in industrial production, manufacturing sector and the eight core sectors started picking up again in December 2015. It is expected that the uptick in growth rate will be maintained due to revival in manufacturing production.

While the overall IIP has shown recovery, there is variation in the performance of some of the major industries during April-December 2015. While some sectors like electricity, coal, fertilizers, cement and passenger cars have shown positive growth, sectors like steel and aluminium have shown negative growth during April-December 2015.

MICRO SMALL AND MEDIUM ENTERPRISES SECTOR

With 3.6 crore units spread across the country, that employ 8.05 crore people, Micro, Small and Medium Enterprises (MSME) have a contribution of 37.5 per cent to the country's GDP. The sector has huge potential for helping address structural problems like unemployment, regional imbalances, unequal distribution of national income and wealth across the country. Due to comparatively low capital costs and their forward-backward linkages with other sectors, MSMEs will play a crucial role in the success of the Make in India initiative.

Realizing the importance of the MSME sector, the government has undertaken a number of schemes/programmes like the Prime Minister's Employment Generation Programme (PMEGP), Credit Guarantee Trust Fund for Micro and Small Enterprises (CGTMSE), Credit Linked Capital Subsidy Scheme (CLCSS) for Technology Up gradation, Scheme of Fund for Regeneration of Traditional Industries (SFURTI), and Micro and Small Enterprises- Cluster Development Programme (MSECDP) for the establishment of new enterprises and development of existing ones. Some of the new initiatives undertaken by the government for the promotion and development of MSMEs, are as follows:

- **Udyog Aadhar Memorandum (UAM):** The UAM scheme, which was notified in September 2015 under section 8 of the MSME Development Act 2006, is a path-breaking step to promote ease of doing business for MSMEs. Under the scheme, MSME entrepreneurs just need to file an online entrepreneurs' memorandum to instantly get a unique Udyog Aadhaar Number (UAN). The information sought is on self-certification basis and no supporting documents are required. This marks a significant improvement over the earlier complex and cumbersome procedure.
- **Employment Exchange for Industries:** To facilitate match making between prospective job seekers and employers an employment exchange for industries was launched on June 15, 2015 in line with Digital India. More than 3.42 lakh job seekers have been registered on the portal as on December 30, 2015.
- **Framework for Revival and Rehabilitation of MSMEs:** Under this framework, which was notified in May 2015, banks have to constitute a Committee for Distressed MSME enterprises at zonal or district level to prepare a Corrective Action Plan (CAP) for these units.
- **A scheme for Promoting Innovation and Rural Entrepreneurs (ASPIRE):** ASPIRE was launched on March 16, 2015 with the objective of setting up a network of technology centres and incubation centres to accelerate entrepreneurship and promote start-ups for innovation and entrepreneurship in rural and agriculture based industry.

In addition, the government intends to provide more credit to MSME sectors, especially in the rural areas, focusing on skill development, encouraging entrepreneurial activities with optimistic mind set among rural youth and creating job opportunities among rural women, for high, inclusive and sustained industrial growth.

OUTLOOK FOR GROWTH

Real GDP growth for 2015-16 is expected to be in the 7 to 7^{3/4} range, reflecting various and largely offsetting developments on the demand and supply sides of the Indian economy. Before analysing these factors, however, it is important to step back and note one important point. India's long-run potential GDP growth is substantial, about 8-10 percent. But its actual growth in the short run will also depend upon global growth and demand. After all, India's exports of manufactured goods and services now constitute about 18 percent of GDP, up from about 11 percent a decade ago.

Reflecting India's growing globalization, the correlation between India's growth rate and that of the world has risen sharply to reasonably high levels. For the period 1991-2002 this correlation was 0.2. Since then, the correlation has doubled to 0.42. In other words, a 1 percentage point decrease in the world growth rate is now associated with a 0.42 percentage point decrease in Indian growth rates.

Accordingly, if the world economy remains weak, India's growth will face considerable headwinds. For example, if the world continues to grow at close to 3 percent over the next few years rather than returning to the buoyant 4-4½ per cent recorded during 2003-2011, India's medium-term growth trajectory could well remain closer to 7-7½ per cent, notwithstanding the government's reform initiatives, rather than rise to the 8-10 per cent that its long-run potential suggests. In other words, in the current global environment, there needs to be a recalibration of growth expectations and consequently of the standards of assessment.

Turning to the outlook for 2016-17, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

- To measure the demand for India's exports, we calculate a proxy-weighted average GDP growth rate of India's export partners. The weights are the shares of partner countries in India's exports of goods and services. We find that this proxy for export demand growth declined from 3.0 percent in 2014 to 2.7 per cent in 2015, which helps explain the deceleration in India's non-oil exports, although the severity of the slowdown—in fact, a decline in export volume—went beyond adverse external developments. Current projections by the IMF indicate that trading partner growth this demand will improve marginally this year to about 2.8 percent. But the considerable downside risks suggest that it would be prudent not to count on a big contribution to GDP growth from improving export performance.
- On the domestic side, two factors could boost consumption. If and to the extent that the Seventh Pay Commission (7th PC) is implemented, increased spending from higher wages and allowances of government workers will start flowing through the economy. If, in addition, the monsoon returns to normal, agricultural incomes will improve, with attendant gains for rural consumption, which over the past two years of weak rains has remained depressed.
- Against this, the disappearance of much of last year's oil windfall would work to reduce consumption growth. Current prospects suggest that oil prices (Indian crude basket) might average US\$ 35 per barrel next fiscal year compared with US\$ 45 per barrel in 2015-16. The resulting income gain would amount roughly equivalent to 1 percentage point of GDP – an 18 per cent price decline times a share of net oil imports in GDP of 6 percent. But this would be half the size of last year's gain, so consumption growth would slow on this account next year.
- According to analysis done by Credit Suisse, (non-financial) corporate sector profitability has remained weak, falling by 1 percent in the year to December 2015. This decline reflected a sharp deterioration in the financial health of the metals—primarily steel—companies, which have now joined the ranks of companies under severe financial stress. As a result, the proportion of corporate debt owed by stressed companies, defined as those whose earnings are insufficient to cover their interest obligations, has increased to 41 percent in December 2015, compared to 35 percent in December 2014.³ In response to this stress, companies have once again been compelled to curb their capital expenditures substantially.

- Finally, the path for fiscal consolidation will determine the demand for domestic output from government. The magnitude of the drag on demand and output will be largely equal to the size of consolidation, assuming a multiplier of about 1.
- There are three significant downside risks. Turmoil in the global economy could worsen the outlook for exports and tighter financial conditions significantly. Second, if contrary to expectations oil prices rise more than anticipated, this would increase the drag from consumption, both directly, and owing to reduced prospects for monetary easing. Finally, the most serious risk is a combination of the above two factors. This could arise if oil markets are dominated by supply-related factors such as agreements to restrict output by the major producers.
- The one significant upside possibility is a good monsoon. This would increase rural consumption and, to the extent that it dampens price pressures, open up further space for monetary easing.
- Putting these factors together, we expect real GDP growth to be in the 7 to 7^{3/4} per cent range, with downside risks because of on-going developments in the world economy. The wider range in the forecast this time reflects the range of possibilities for exogenous developments, from a rebound in agriculture to a full-fledged international crisis; it also reflects uncertainty arising from the divergence between growth in nominal and real aggregates of economic activity.

INDIA'S INCREASING IMPORTANCE TO GLOBAL GROWTH

Despite global headwinds and a truant monsoon, India registered robust growth of 7.2 per cent in 2014-15 and 7.6 per cent in 2015-16, thus becoming the fastest growing major economy in the world. As per the estimates of the International Monetary Fund (IMF), global growth averaged 3.1 per cent in 2015, declining from 3.4 per cent registered in 2014. While growth in advanced economies has improved modestly since 2013, the emerging economies have witnessed a consistently declining trend in growth rate since 2010. It is against this background that the recent Indian growth story appears particularly bright.

India has made striking progress in its contribution to the global growth of Gross Domestic Product (GDP) in Purchasing Power Parity (PPP) terms. PPP represents the number of units of a country's currency required to purchase the same amount of goods and services in the domestic market as the US dollar would purchase in the United States, thus adjusting for purchasing power differentials between currencies in relevant markets. India's contribution to global growth in PPP terms increased from an average of 8.3 per cent during the period 2001 to 2007 to 14.4 per cent in 2014. During the 1990s, the US's contribution to the global GDP growth in PPP terms was, on an average, around 16 percentage points higher than India's. The picture changed dramatically in 2013 and 2014 when India's contribution was higher than that of the US by 2.2 and 2.7 percentage points respectively. During 1991-2014, low growth in Japan (0.9 per cent annually) resulted in its low contribution (1.5 per cent) to global growth. India and China constitute 42.5 per cent and 53.2 per cent respectively of the total PPP measure of the lower-middle income countries and upper-middle income countries; and hence those country groups largely reflect India's and China's patterns.

The global economy—in particular the global growth powerhouse, China—is rebalancing, leading to an increasing role for India. After the onset of the multiple crises in different parts of the world, India's contribution has become much more valuable to the global economy.

India's share in world GDP has increased from an average of 4.8 per cent during 2001-07 to 6.1 per cent during 2008-13 and further to an average of 7.0 per cent during 2014 to 2015 in current PPP terms (IMF). India's resilience and current levels of reasonably strong growth should, thus, be appreciated in the light of its increasing contribution to global growth.

GLOBAL MANUFACTURING SECTOR

World manufacturing growth

World manufacturing output growth remained low during the third quarter of 2016, reflecting a prolonged yet fragile recovery process in industrialized economies and weakened growth prospects in developing and emerging industrial economies. Although the world manufacturing growth trend has been relatively stable with a lower degree of volatility, there is no clear indication yet that the current period of low growth will end any time soon. On the contrary, the uncertainty accompanying the political developments in trans-Atlantic relations with a potential impact on global trade arrangements may create new risks.

World manufacturing output rose by 2.4 per cent in the third quarter of 2016 compared to the same period of the previous year. The positive trends with some improvement in growth figures since the last quarter were observed across all country groups (Figure 1), including industrialized countries and the world average.

In response to the persistently low growth in manufacturing, enterprises and policymakers have introduced some structural reforms. However, the results of these reforms are yet to be seen. Major industrialized economies with significant contributions to global manufacturing output, namely the United States, Japan and Germany, continue to record low growth rates. In China, the world’s largest manufacturer, comparably lower growth rates have now become more prevalent, thus pushing the average industrial growth of emerging industrial economies downward.

The manufacturing output of industrialized economies increased slightly to 0.6 per cent in the third quarter of 2016 from 0.3 per cent in the previous quarter. This rise is primarily attributable to the performance of East Asia, which registered a low, 4 but positive growth rate at 0.8 per cent in the third quarter of 2016 following several consecutive slumps that have lasted for nearly two years. The main force driving this upturn is Japan, East Asia’s major manufacturer – its manufacturing sector seems to have withstood sluggish external demand fairly well amid a soaring yen in the third quarter of this year. Production increase in Europe had a positive impact on the manufacturing growth of industrialized countries as a whole. By contrast, the growth of North America’s manufacturing output slowed in the third quarter of 2016 to a negligible gain of 0.1 per cent.

The manufacturing growth rate in developing and emerging industrial economies has remained below 5.0 per cent since the beginning of 2015. Manufacturing output in these countries rose by 4.7 per cent in the third quarter of 2016. The region’s growth performance varied considerably: Asian economies maintained a relatively higher growth rate, while Latin America’s manufacturing output decreased.

Brazil's manufacturing output fell, affecting the growth performance of the entire region. Some improvement was seen in Africa, primarily due to the strengthening of South Africa's manufacturing output. Rising growth rates were also recorded in other African countries, though data for sub-Saharan African countries is generally limited. Despite some improvements, the threat of another slowdown looms over developing economies as long as economic and political instability persists in industrialized countries.

As depicted in Figure 1, the level of growth in developing economies has been consistently higher than in industrialized countries. The pace of growth exhibits similar trends in both country groups, with a slightly more positive picture for industrialized countries as their growth performance moves upward

(Source: World Manufacturing Production- Statistics for Quarter III, 2016; United Nations Industrial Development Organisation - www.unido.org)

Industrialized economies

The manufacturing output of industrialized countries maintained a positive growth rate in the third quarter of 2016. However, as mentioned above, the pace of growth over the observed period has been too slow. The quarterly growth rate increased slightly to 0.6 per cent from 0.3 per cent in the previous quarter, when comparing the year-to-year development. When looking at the quarter-to-quarter development, a growth rate of 0.4 per cent was observed, following several quarters in which nearly no change was recorded. Growth in industrialized economies in the third quarter of 2016 was characterized by an overall moderate, albeit noticeable slowdown in Europe and North America, and an upward trend in East Asia, following a period of several consecutive slumps.

Among the industrialized country group, Europe's manufacturing output grew by merely 1.1 per cent in the third quarter of 2016. The eurozone registered a growth rate of 1.3 per cent. At the peak of the financial crisis, UNIDO's Quarterly Reports presented disaggregated data for the eurozone economies to differentiate their growth rates from those of the rest of Europe. This difference seems to have narrowed in recent quarters. In more general terms, manufacturing growth in European countries continues to be affected by the uncertainty generated by Brexit and the political developments in the United States, which may influence the established global and regional trade arrangements.

When comparing year-to-year developments among the leading eurozone economies, Italy registered a 2.8 per cent growth followed by Germany with a growth rate of nearly a 1.0 per cent. No growth was observed in France. The growth figures for the majority of eurozone countries were positive, with strong growth performances observed in Slovenia, Cyprus and Greece. Manufacturing output rose by more than 2.2 per cent in the Netherlands, Spain, Lithuania and Belgium, but Ireland and Portugal witnessed a lower growth rate at 1.2 per cent and 1.5 per cent, respectively. The decrease in Ireland's manufacturing output reflected post-Brexit volatility, but was also attributable to a high comparison threshold based on the country's remarkable manufacturing expansion in 2015.

Beyond the eurozone, manufacturing output growth in the third quarter in the United Kingdom dropped to a marginal rate of 0.5 per cent in the aftermath of Brexit. The pace of growth also slowed in some industrialized Central European countries such as the Czech Republic and Hungary. Industrial production in Switzerland grew 2.4 per cent, reversing the decline registered in previous periods.

The manufacturing output of East European countries achieved relatively higher growth. Manufacturing output rose by 4.6 per cent in Poland and Romania, 4.1 per cent in Bulgaria and 4.9 per cent in Serbia. Among the Nordic economies, Norway's manufacturing sector has taken a long-term hit due to falling oil prices and continued its downward trajectory in the third quarter of 2016. Manufacturing output in the Russian Federation grew by a moderate rate of 0.7 per cent, continuing its shaky recovery after the country's economy was severely hit by the drop in oil prices.

Overall manufacturing production in North America grew by 0.1 per cent compared to the third quarter of the previous year. Despite some signs of improvement in the United States, the manufacturing sector recorded only weak export growth due to a still strong dollar and subdued global

demand. When comparing year-to-year development, total manufacturing output of the United States remained flat in the third quarter of 2016. A number of manufacturing industries in the United States reported a decline compared to the same quarter in the previous year. At the same time, positive growth was reported in the production of motor vehicles, computers, electronic and optical products and textiles. In Canada, manufacturing growth in the third quarter of 2016 varied considerably by industry. While the production of pharmaceuticals, petroleum products and basic metals coke remained strong, production dropped in textiles, wearing apparel and fabricated metal products. Aggregated growth of manufacturing output in Canada was below 1.0 per cent in the third quarter of 2016.

The industrialized economies of East Asia managed to break a long period of consecutive contraction with a 0.8 per cent growth in the third quarter compared to the same period of the previous year. A major contributor to this change was Japan, which recorded a positive growth rate of 0.5 per cent following a nearly two-year period of consecutive slumps. This upswing is primarily attributable to the boost in the automotive industry. Despite this improvement, the uncertain global outlook and a strong yen remain a concern for Japan’s manufacturing sector. Manufacturing output in Malaysia, the Republic of Korea and Singapore witnessed a gain of 3.9 per cent, 0.9 per cent and 1.2 per cent, respectively; in Malaysia and Singapore, this increase was attributable to the significant growth in the production of computers, electronics and optical products.

Developing and emerging industrial economies

A slowdown in China and a downturn in Latin America have affected the overall growth of manufacturing output in developing and emerging industrial economies. In the third quarter of 2016, manufacturing production in China rose by 6.9 per cent over the same period of the previous year, but reflected a slowdown from the 7.2 per cent growth rate recorded in the previous quarter. Following an uninterrupted downward trajectory since late 2013, the trend in China now seems to be towards stabilization at a relatively lower pace. The deceleration in the third quarter of 2016 was mainly driven by weak external demand and a weakened growth of the production of basic metals, China’s strongest industry. The closure of a number of factories ahead of the G-20 Summit held at the beginning of September also negatively impacted the manufacturing sector. However, due to strong domestic demand, China’s manufacturing sector has proven resilient to external shocks.

Latin American economies, on the other hand, were not as resilient as China’s. Nonetheless, data for the third quarter of 2016 indicate some signs of improvement. Manufacturing output in Latin America, which has recently faced severe decline due to subdued global demand, low commodity prices and domestic political turbulence, has reduced the declining rate to 2.0 per cent. This development could be a break with the downward trend. This shift is attributable to Brazil, where the drop in manufacturing output was below 5.0 per cent in a year-to-year comparison. Some other larger Latin American manufacturers, namely Mexico, Colombia and Peru, recorded a positive growth of 1.2

per cent, 2.7 per cent and 2.0 per cent, respectively, while Argentina and Chile experienced contraction.

Growth performance was much higher in Asian economies, where manufacturing output rose by 6.3 per cent in the third quarter of 2016. Viet Nam maintained its position of one of the fastest growing Asian economies with a double-digit growth in eight consecutive quarters. At present, its manufacturing sector is benefitting from export-oriented industries such as computers, electronics and optical products. Indonesia’s expansion of manufacturing output by 5.5 per cent continued in the third quarter, confirming its recent entry to the top 10 largest global manufacturers. However, India’s manufacturing output, which achieved impressive growth rates in the last quarters, contracted with a much lower growth rate of 0.9 per cent in the third quarter. Positive developments were observed in other Asian economies. Manufacturing output in Saudi Arabia rose by 4.0 per cent and by 1.9 per cent in Mongolia.

Estimates based on the limited available data indicate that manufacturing output in Africa increased by 0.5 per cent, the same pace of manufacturing growth measured in South Africa, the region’s most industrialized economy. South Africa’s manufacturing production was mainly driven by increasing output in refined petroleum products, the automotive industry and chemical products. Manufacturing production in Cote d’Ivoire registered a 4.9 per cent gain while Tunisia’s manufacturing output grew by 1.3 per cent. Egypt’s manufacturing output fell by 2.1 per cent according to UNIDO estimates.

Key Findings of the analysis

Global manufacturing production maintained a positive growth in nearly all industries in the third quarter of 2016. High and medium-high manufacturing industries held top positions – the manufacture of motor vehicles rose by 6.4 per cent, the production of computers, electronics and optical products grew by 4.6 per cent and the production of pharmaceutical products by 3.4 per cent. Among other fast growing industries, the production of textiles increased by 3.1 per cent. By contrast, the largest loss was recorded by the tobacco industry, with its global production declining by 8.0 per cent.

As regards durable and capital goods, the manufacture of non-metallic mineral products, which essentially supply construction materials, registered a growth figure of 2.5 per cent worldwide. The manufacture of furniture, the production of machinery and equipment and of fabricated metal products rose at a moderate pace by 1.6 per cent, 1.4 per cent and 1.0 per cent, respectively. The pace of the growth of the global manufacturing of basic metals slowed to below 1.0 per cent, mostly due to a significant slowdown reported by China and a visibly decreased production of basic metals in the Russian Federation in the third quarter of 2016.

Global manufacturing output maintained relatively high growth rates in the production of basic consumer goods. The manufacture of food products rose by 3.3 per cent, beverages by 2.9 per cent and wearing apparel by 0.8 per cent. As regards other low-technology manufacturing sectors, the global production of wood products rose by 2.9 per cent, while the manufacturing of paper products only increased by 1.0 per cent.

As illustrated in Figure 4, the growth performance of developing and emerging industrial economies outperformed industrialized economies in all manufacturing industries, including a number of high-technology industries. Disaggregated data by industrialized economies indicate that the performance of industrialized countries was evenly split among all manufacturing industries according to technological intensity. The fastest growing industry in both country groups was the automotive industry, reflecting strong growth of automobile production in China as well as in European countries.

The growth rates for selected industries are presented below.

MANUFACTURING SECTOR IN INDIA

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Mr Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy.

India's ranking among the world's 10 largest manufacturing countries has improved by three places to sixth position in 2015#.

The Government of India has set an ambitious target of increasing the contribution of manufacturing output to 25 per cent of Gross Domestic Product (GDP) by 2025, from 16 per cent currently.

Market Size

India's manufacturing sector has the potential to touch US\$ 1 trillion by 2025. There is potential for the sector to account for 25-30 per cent of the country's GDP and create up to 90 million domestic jobs by 2025. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

In a major boost to the 'Make in India' initiative, the Make in India week which was held in Mumbai between February 13 and 18, 2016, received an overwhelming response from investors. The fair had closed with INR 15.2 trillion (US\$ 225.32 billion) in investment commitments.

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

In September 2016, Foreign Direct Investment (FDI) in electronic manufacturing has reached an all-time high of Rs 123,000 crore (US\$ 18.36 billion) in 2016, from Rs 11,000 crore (US\$ 1.65 billion) in 2014; on the back of enabling policies of the government and its Make in India initiative.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- Huawei, the China-based smartphone manufacturer, has entered into an agreement with solutions provider Flextronics Technologies (India) Private Limited, to manufacture its smartphones in India. Flextronics would start by making 3 million smart phones at its facility in Chennai and is expected to generate additional 1,500 jobs.
- Tristone Flowtech Group, the Germany-based flow technology systems specialist, has set up a new facility in Pune, which will manufacture surge tank as well as engine cooling and aircharge hose for the Indian market. The company plans to start the production at the plant in the fourth quarter of 2017.
- Tata Power has partnered with US-based Javelin Joint Venture, which is a partnership between Raytheon Company and Lockheed Martin, for its Strategic Engineering Division (SED), in order to create a strategy to co-develop and produce the Javelin missile system and integrate platform mounts to meet Indian requirements.
- LeEco, a Chinese technology company, has entered into a partnership with Compal Technologies and invested US\$ 7 million to set up manufacturing facility at Greater Noida in order to start manufacturing Le2 smartphones in India.
- Zopo Mobile, a China-based smartphone manufacturer, plans to invest Rs 100 crore (US\$ 15 million) to set up a manufacturing plant in Noida by the end of 2016, which will have a monthly production capacity of 100,000 units.
- Honda Motorcycle & Scooter India plans to invest around Rs 600 crore (US\$ 88.94 million) to add a new line at its Narsapura facility at Karnataka, and launch at least 10-15 products during FY 2016-17 in the country.
- Force Motors, a utility and commercial vehicles manufacturer, inaugurated its Rs 100 crore (US\$ 14.82 million) manufacturing facility in Pune, which will supply engines and axles to the Germany-based automobile manufacturer Mercedes-Benz.
- Boeing Company, an American plane maker, and Tata Advanced Systems Ltd (TASL), a fully owned subsidiary of Tata Sons, have entered into a joint venture to set up a new facility in Hyderabad to manufacture Boeing AH-64 Apache helicopter fuselages.
- Panasonic Corporation plans to set up a new manufacturing plant for refrigerators in India with an investment of Rs 250 crore (US\$ 37 million), and also invest around Rs 20 crore (US\$ 3 million) on an assembly unit for lithium ion batteries at its existing facility in Jhajjar in the next 8-10 months.
- Vital Paper Products, one of the major supply chain players in the paper and paper products industry, plans to set up a packaging product unit in the Special Economic Zone (SEZ) of Sri City, Andhra Pradesh, at an investment of Rs 60 crore (US\$ 8.89 million), which will be operational from April 2017.
- Isuzu Motors, the Japan-based utility vehicle manufacturer, has inaugurated its greenfield manufacturing unit in Sri City, Andhra Pradesh, which was set up for Rs 3,000 crore (US\$ 444.72 million), with an annual production capacity of 50,000 units and is estimated to generate around 2,000-3,000 jobs.
- Airbus has procured more than US\$ 500 million worth of supplies from India in 2015, registering a growth of 15 per cent annually and has targeted a cumulative procurement of more than US\$ 2 billion over a period of five years up to 2020.
- Havells India Limited, one of the top Indian consumer electrical equipment producer, plans to set up a new manufacturing unit near Bengaluru by making an investment of Rs 1,059 crore (US\$ 156.99 million), which would be its twelfth plant in India and its first outside north India.
- Global beverage company Pepsi plans to invest Rs 500 crore (US\$ 74 million) to set up another unit in Maharashtra to make mango, pomegranate and orange-based citrus juices, while biotechnology giant Monsanto plans to set up a seed plant in Buldhana district of Maharashtra.

- Hindustan Coca-Cola Beverages plans to set up a bottling plant with an investment of Rs 750 crore (US\$ 111.2 million) in phases at the first industrial area being developed by Government of Madhya Pradesh under the public private partnership in Babai village of Hoshangabad, Bhopal.
- Canada's Magna International Incorporated has started production at two facilities in Gujarat's Sanand, which will supply auto parts to Ford Motor Co in India and will employ around 600 people at both units.

Government Initiatives

In a bid to push the 'Make in India' initiative to the global level, Mr Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover in 2015. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The National Institution for Transforming India (NITI Aayog), after its recent push for Rs 6,000 crore (US\$ 889 million) textile sector package, aims to persuade the Government for similar support in the manufacturing sectors with large-scale employment generation opportunities, such as electrical and electronics engineering, footwear and light manufacturing segments, which also have export potential.
- The Ministry of Labour and Employment plans to relax compliance measures for MSMEs by exempting them from inspections related to key labour laws in order to encourage entrepreneurs to help promote manufacturing in India.
- The Government of India plans to give a big boost to local manufacturing by introducing the new 'Make in India green channel', which will reduce the time taken for cargo clearance at ports from about a week to a few hours without any upfront payment of duties.
- Gujarat government is planning to set up an electronics products manufacturing hub in the state, through its newly announced Electronics Policy 2016, which will generate about 500,000 jobs in the electronics sector in the next five years.
- The Ministry of Heavy industries and Public Enterprises, in partnership with industry associations, has announced creation of a start-up centre and a technology fund for the capital goods sector to provide technical, business and financial resources and services to start-ups in the field of manufacturing and services.
- The Government of India plans to implement a new Defence Procurement Policy (DPP) by April, 2016 under which priority will be given to the indigenously made defence products and 25 per cent share of defence production will be open to private firms.
- The Government plans to organise a 'Make in India week' in Mumbai between February 13-18, 2016 to boost the 'Make in India' initiative and expects 1,000 companies from 10 key sectors to participate in the exhibition of innovative products and processes, a hackathon and sessions on urban planning, among other events.
- NITI Aayog plans to release a blueprint for various technological interventions which need to be incorporated by the Indian manufacturing economy, with a view to have a sustainable edge over competing neighbours like Bangladesh and Vietnam over the long term.
- Ms Nirmala Sitharaman, Minister of State (Independent Charge) for Commerce and Industry, has launched the Technology Acquisition and Development Fund (TADF) under the National Manufacturing Policy (NMP) to facilitate acquisition of Clean, Green and Energy Efficient Technologies, by Micro, Small & Medium Enterprises (MSMEs).
- The Government of India has asked New Delhi's envoys in over 160 countries to focus on economic diplomacy to help government attract investment and transform the 'Make in India' campaign a success to boost growth during the annual heads of mission's conference. Prime

Minister, Mr Modi has also utilised the opportunity to brief New Delhi's envoys about the Government's Foreign Policy priority and immediate focus on restoring confidence of foreign investors and augmenting foreign capital inflow to increase growth in manufacturing sector.

- The Government of Uttar Pradesh has secured investment deals valued at Rs 5,000 crore (US\$ 741.2 million) for setting up mobile manufacturing units in the state.
- Government of India has planned to invest US\$ 10 billion in two semiconductor plants in order to facilitate electronics manufacturing in the country.
- Entrepreneurs of small-scale businesses in India will soon be able to avail loans under Pradhan Mantri MUDRA Yojana (PMMY). The three products available under the PMMY include: Shishu - covering loans up to Rs 50,000 (US\$ 735), Kishor - covering loans between Rs 50,000 (US\$ 735) to Rs 0.5 million (US\$ 7,340), and Tarun - covering loans between Rs 0.5 million (US\$ 7,340) and Rs 1 million (US\$ 14,700).

Road Ahead

The Government of India has an ambitious plan to locally manufacture as many as 181 products. The move could help infrastructure sectors such as power, oil and gas, and automobile manufacturing that require large capital expenditure and revive the Rs 1,85,000 crore (US\$ 27.42 billion) Indian capital goods business. India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country. With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

EVOLUTION OF THE INDIAN ELECTRONICS SECTOR

INDIAN ELECTRONICS SECTOR SEGMENTATION

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

NOTABLE TRENDS IN THE ELECTRONICS SECTOR

Consumer electronics

Increased presence of organised retail and affordability due to technological advancement. Expansion into new segments such as HDTVs, tablets and smart phones. Under Union Budget FY17, government exempted parts & components, subparts for manufacturing of routers, broadband modems, set-top boxes for internet & TV, CCTV camera/IP camera, lithium-ion battery except mobile handsets from the purview of BCD, CVD, SAD duties.

Industrial electronics

Application of state-of-the-art systems such as Decision Analysis, 3-D coordinate systems, smart image processing, Nanotechnology, Nano scale assemblies, DCS, etc., across various sections of the industry. Introduction of robotics to manage process and equipment's for sensitive industries like Chemical Industry, Nuclear Power Generation etc. Integration of production and business operations Artificial Intelligence has been made available which would help the sector to improve its quality control thereby making it more efficient

Computers

One of the fastest-growing IT systems and hardware market in Asia Pacific. Notebooks segment have recorded a growth rate of 17 per cent in FY15; tablet ownership registered a growth of 27 per cent in 2014 – 15 from the previous year. The industry of computer hardware in India grew from USD2.9 billion in FY14 to USD3.06 billion in FY15. Expansion of server market into smaller cities, and small and medium businesses.

Electronic components

Semiconductors lead segmental growth. High growth in key determinants for electronic components, namely consumer electronics, telecom, defence and IT verticals. Total Semiconductor market in India is estimated to reach USD9.66 billion by the end of 2015

Strategic electronics

The production in strategic electronic segment in India increased from USD2.29 billion in FY14 to USD2.57 billion in FY15. Economic growth and low costs are likely to provide impetus to aerospace market. Nuclear power to play a large role in India’s energy security needs. Companies such as Bharat Electronics Limited, Hindustan Aeronautics Limited, Electronics Corporation of India Limited, Bharat Dynamics Limited dominated this segment

C&B equipment's

Growing broadband subscriber base. As on 30th June, 2016, the total number of telephone subscribers in the country was 1,059.86 million, covering wireless subscriber base of 1,035.12 million and wire line subscriber base of 24.74 million, respectively

E – Waste Management

Increasing Adoption of Electronic Waste Management Scheme supported by the regulatory framework has improved the electronics sector to a large extent

Major Contributors to Employment

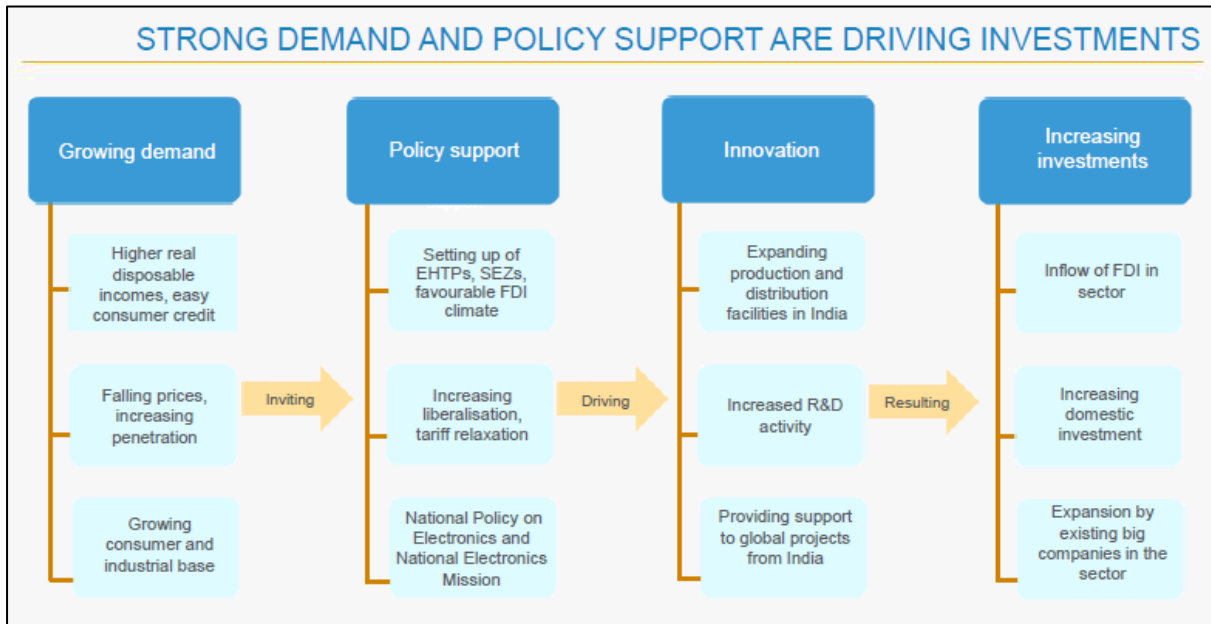

Major segments such as Consumer Electronics, Telecom Equipment, and IT Hardware can be major contributors to employment

Increasing Consumption and potential for production

Increasing PFCE on Recreational and Educational services and Home appliances are expected to contribute to the rise in consumption and production of Electronics and IT Hardware. Growth of 17 per cent is expected with major contributors being Consumer Electronics, Telecom and computers

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

STRONG DEMAND AND POLICY SUPPORT ARE DRIVING INVESTMENTS

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

Encouragement to FDI, SEZs

100 per cent FDI is allowed under the automatic route in the Electronics Systems Design & Manufacturing sector and is subject to all applicable regulations and laws. In case of electronics items for defence, FDI up to 49 per cent is allowed under the government approval route, whereas anything above 49 per cent is allowed through the approval of the cabinet committee on security.

Customs duty relaxation

No customs duty on 217 tariff lines covered under the Information Technology Agreement (ITA-1) of the WTO. Peak rate for basic customs duty is 10 per cent

Reduced central excise

Mean rate of excise duty (CENVAT) is 12.5 per cent. Microprocessors, hard disc drives, CD ROM drives, DVD drives/DVD writers, flash memory sticks, and combo-drives are exempt from excise duty payment and SAD. Components and accessories of mobile handsets are exempt from excise duty and SAD

Electronic Development Fund Policy

Approved by Cabinet in December 2014. Supports R&D by participating in venture funds, Innovation and IP Generation in Electronics, Information Technology and Nano Electronics

Inverted Duty

Inverted Duty has been rationalised for various electronics products including tablets, mobile phones, LED lights, LCD/LED TVs, telecom equipment etc.

EPCG, EHTP schemes

EPCG allows import of electronic capital goods without paying any customs duty. EHTP provides benefits, such as duty waivers and tax incentives, to companies which replace certain imports with local manufacturing. Cabinet approved the Modified Special Incentive Package Scheme (M-SIPS) to boost electronics manufacturing in India, under which the firms achieving a turnover of US\$1.48 billion within a timeframe of 5 years from the approval date would be incentivised.

Intellectual Property Rights

Intellectual Property Rights (IPR) is a key determinant of progress in R&D and innovation in the electronics sector. GOI has amended relevant IPR-related acts (like the Copyright Act, Trademark Act, New Designs Act) from time to time to help spruce up innovation and new technologies in the sector.

MSIPS

The scheme was notified on July 27, 2015 to attract investments in electronics manufacturing. Incentives would be provided under MSIPS on the investment proposals being received. Till September 2015, investments of USD17.5 billion have been received. In December 2016, the IT and Electronics Ministry is planning to take forward a reworked flagship incentive scheme MSIPS (Modified Special Incentive Package Scheme) for electronics manufacturing, to be presented to the Cabinet, with an objective to fast-forward investments

Electronic Manufacturing Cluster (EMC) Scheme

The Scheme attracts investments for the Electronics Systems Design and Manufacturing (ESDM) Sector by supporting the creation of world – class infrastructure. The scheme provides support for setting up Greenfield and Brownfield EMCs in the form of grant – in – aid only. As of July 2015, investments of USD13.96 million for 2 EMCs have been approved. Total number of EMCs approved in the last 1 year have become 21; 16 for Greenfield EMCs, 3 for Brownfield EMCs in 7 states. As of December 2015, investments of USD18.67 billion have been allocated in the electronics manufacturing sector.

NATIONAL ELECTRONICS POLICY 2012 – KEY OBJECTIVES

Favourable business conditions

To create an ecosystem for a globally competitive electronic system design & manufacturing sector and to achieve a turnover of about USD400 billion by 2020, including investments of about USD100 billion, as well as to provide employment to around 28 million people at various levels

Focus on new technologies

To build on the emerging chip design and embedded software industry for achieving global leadership in Very Large Scale Integration (VLSI), chip design, and other frontier technical areas, and to achieve a turnover of USD55 billion by 2020, also focus on handling e-waste in an environment friendly policies.

Promote exports

To increase export in the electronic system design & manufacturing sector from USD5.5 billion to USD80 billion by 2020

Improving supply chain

To build a strong supply chain of raw materials, parts, and electronic components for raising the indigenous availability of these inputs from the current 20–25 per cent to over 60 per cent by 2020

Building competencies

To develop core competencies in strategic and core infrastructure sectors such as telecommunications, automotive, avionics, industrial, medical, solar, information and broadcasting, and railways

Electronic Manufacturing Clusters (EMCs)

Provide incentives for setting up of 200 Electronic Manufacturing Clusters (EMCs) – setting up of Greenfield EMCs and up gradation of brownfield EMCs

Magnetic Heads

BCD of 7.50/10.00 per cent would be imposed on ceramic/magnetic cartridges and stylus, level meters/level indicators/ tuning indicators/ peak level meters/ battery meter/VC meters/ tape counters, antennas, EHT cables, tone arms, electron guns

Road Construction Machinery

CVD of 12.50 per cent would be charged on specified machinery required for construction of roads

Mobile Phones

BCD of 10 per cent, CVD of 12.50 per cent and SAD of 4 per cent will be imposed on charger/ adapter, battery & wired headsets/speakers for manufacture of mobile phones. Whereas, no duty will be charged on inputs, parts & components, subparts for manufacturing of charger/adapter, battery and wired headsets/speakers of mobile phones. SAD of 2 per cent on populated PCB for manufacturing of mobile phones

Telecommunication Equipment

BCD of 10 per cent on specified telecommunication equipment (Soft switches and VoIP) equipment namely VoIP phones, media gateways, etc. BCD of 10 per cent on preform silica to manufacture telecom grade optical fibre/cables

Tablet & Desktop Computers/Laptops

SAD of 4 per cent on populated PCBs for manufacture of personal computers (laptop or desktop). SAD of 2 per cent on populated PCB for manufacture of tablet computers

Electrical Equipment's

Exemption of BCD & SAD from machinery, electrical equipment & instrument and parts, thereof (except PCBs) for semiconductor wafer fabrication/LCD fabrication units. Machinery, electrical equipment and instrument and parts thereof (except populated PCBs) imported for Assembly, Test, Marking and Packaging of semiconductor chips (ATMP) would be exempted from BCD & SAD

Capital Goods

Exemption of BCD on specified capital goods and inputs used in manufacturing of Micro fuses, sub-miniature fuses, resettable fuses and thermal fuses. CVD would be exempted from capital goods/spare: raw materials, parts, material handling equipment and consumable for repairs of ocean-going vessels by a ship repair unit

Medical Equipment's

All type of duties will be exempted from disposable sterilized dialyzer and micro barrier of artificial kidney. Exemption of BCD from Medical Use Fission Molybdenum-99 imported by Board of Radiation and Isotope Technology (BRIT) for manufacture of radio pharmaceuticals

Digital Electronics

All duties exempted from parts and components, subparts for manufacture of routers, broadband Modems, Set-top boxes for gaining access to internet, set top boxes for TV, digital video recorder (DVR) / network video recorder (NVR), CCTV camera / IP camera, lithium ion battery, other than those for mobile handsets.

GROWTH DRIVERS OF ELECTRONICS INDUSTRY

- Increase in discretionary income and credit availability has boosted demand for consumer durables
- The government is one of the biggest consumers of the sector and leads the corporate spend on electronics; this is not surprising given that electronics facilitates e-governance, developmental schemes and initiatives launched by the government
- Strong demand and favourable investment climate in the sector are attracting investments in R&D as well as manufacturing.
- Increasing demand for defence equipment's has boosted the production of electronics goods up to a considerable level
- Electronic Manufacturing Services and R&D based exports also drives the market. The increased value – addition would further increase the demand for sales, production, after – sales support and services. This would trigger the demand for skilled human resources in the country
- Rapid urbanisation have unravelled new markets for consumer goods; easy financing options have made consumer goods affordable

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

MULTIPLE FACTORS FAVOUR INVESTMENT IN ELECTRONICS

Growing customer base

Market for electronics is expected to expand at a CAGR of 66.1per cent during 2015–20. The demand for electronics hardware in India is projected to increase to USD139 billion by 2018

Incentives and concessions under schemes

Export Oriented Unit (EOU) Scheme, Electronics Hardware Technology Park (EHTP) Scheme, Software Technology Park (STP) Scheme and EOU/EHTP/STP Schemes

Targeted reduction in import bill

Domestic electronic production accounts for around 45.0 per cent of the total market demand. Therefore, in order to reduce the import bill, the government plans to boost the domestic manufacturing capabilities and is considering a proposal to give preference to Indian electronic products in its purchases

Increasing penetration in the consumer durables segment

Consumer durables market in India is characterised by low penetration in various product segments, viz. 1.0 per cent in microwaves, 3.0 per cent in ACs, 16.0 per cent in washing machines, 18.0 per cent in refrigerators, etc. Higher disposable incomes are leading to realisation of penetration potential in various product segments, especially in rural areas

Policy and investment support

To compliment the targeted reduction in import bill, the government has proposed a minimum investment of USD555.0 million for semiconductor manufacturing plants and USD222.0 million for ecosystem units. This is considered a major step toward attracting foreign companies to set up manufacturing facilities in India. In Union Budget 2016 – 17, inputs, parts, components & subparts for manufacturing of charger/adaptor, battery & wired handsets/speakers of mobile phones are fully exempted from Basic Customs Duty (BCD), Counter Veiling Duty (CVD) and Special Additional Duty (SAD)

(Source: Indian Electronics Industry January 2017 India Brand Equity Foundation, www.ibef.org)

ADVANTAGE INDIA

Growing demand

Demand from households is set to accelerate given rising disposable incomes, changing lifestyles, and easier access to credit. Government and corporate spending will also contribute to growth in demand

Attractive opportunities

The electronics market is expected to expand at a CAGR of 41.4 per cent during 2016–20. Intended reduction in government’s import bill is likely to boost domestic electronics manufacturers.

Higher Investments

Sector has attracted strong investments in the form of M&As and other FDI inflows. Companies are set to augment investments in production, distribution and R&D in the next few years. Government has received investment proposals for USD17.5 million for which they intend to provide incentives under M-SIPS scheme. Applications received before July, 2020 will be considered.

Policy support

100 per cent FDI allowed in the electronics hardware manufacturing sector under the automatic route. Initiatives like Modified Special Incentive Package Scheme (M-SIPS) will provide a capex subsidy of 20 – 25 per cent. As per Make in India Initiative, Electronic Development Fund Policy has been approved which would rationalise an inverted duty structure.

INDIAN SERVICE SECTOR

Introduction

The services sector is not only the dominant sector in India’s GDP, but has also attracted significant foreign investment flows, contributed significantly to exports as well as provided large-scale employment. India’s services sector covers a wide variety of activities such as trade, hotel and restaurants, transport, storage and communication, financing, insurance, real

estate, business services, community, social and personal services, and services associated with construction.

Market Size

The services sector is the key driver of India's economic growth. The sector contributed around 66.1 per cent of its Gross Value Added growth in 2015-16, thereby becoming an important net foreign exchange earner and the most attractive sector for FDI (Foreign Direct Investment) inflows.!

According to a report by leading research firm Market Research Store, the Indian telecommunication services market is expected to grow by 10.3 per cent year-on-year to reach US\$ 103.9 billion by 2020. The Indian digital classifieds industry is expected to grow three-fold to reach US\$ 1.2 billion by 2020, driven by growth in horizontal classifieds like online services, real estate and automobiles.#

Out of overall services sector, the sub-sector comprising financial services, real estate and professional services contributed US\$ 305.8 billion or 20.5 per cent to the GDP. The sub-sector of community, social and personal services contributed US\$ 188.2 billion or 12.6 per cent to the GDP.

Investments

The Indian services sector has attracted the highest amount of FDI equity inflows in the period April 2000-March 2016, amounting to about US\$ 50.79 billion which is about 17.6 per cent of the total foreign inflows, according to the Department of Industrial Policy and Promotion (DIPP).

Some of the developments and major investments by companies in the services sector in the recent past are as follows:

- Gadgetwood, an on-demand repair services & refurbishment company, has raised US\$ 6 million from private equity fund Carpediem Capital, which will be used for expanding its presence to other geographies, starting with the metros and moving to set up a presence across 10 cities by 2017, and broaden the scope of its repairs capabilities to include, laptops, wearable tech and LEDTVs.
- Online food ordering and delivery service firm Swiggy, owned by Bundl Technologies Private Limited, has raised US\$ 15 million in a fresh funding round led by Bessemer Venture Partners along with existing investors SAIF Partners, Norwest Venture Partners, Accel Partners, and Apoletto Asia.
- Factset, a US-based financial data and analytics firm, plans set up its largest global office at Divyasree Orion Special Economic Zone (SEZ) in Gachibowli, Hyderabad.
- LogixHealth Private Limited, a wholly-owned subsidiary of LogixHealthInc, USA, plans to invest around US\$ 15 million and hire 1,000 people for its upcoming facility in Coimbatore.
- Meru Cab Company Pvt Ltd, the Mumbai-based radio cab service, has raised Rs 150 crore (US\$ 22.37 million) from Brand Capital, the investment arm of Bennett Coleman and Co, which will be used to fund advertising and provide user incentives including discounts and loyalty schemes.
- SSG Capital Management Group, a Hong Kong based Private Equity (PE) investor, has acquired a 40 per cent stake in the logistics company Future Supply Chain Solutions (FSC), for Rs 580 crore (US\$ 86.5 million) from existing shareholders including Future Retail (FRL) and Fung Group, promoted by billionaire Victor Fung.
- Vistra Group Ltd, a Hong Kong-based professional services provider, has acquired IL&FS Trust Company Ltd, India's largest independent corporate trust services provider, which will enable Vistra to expand the platform to provide a broader suite of corporate and fiduciary services and thereby gain a foothold in the Indian corporate services market.
- Pink Blue Supply Solutions Pvt. Ltd, a clinical supplies provider, has raised Rs 1.5 crore (US\$ 0.22 million) in a seed round of funding from TermSheet.io, a transaction-focused service provider for start-ups and investors, which will be used to ramp up technology, improve customer experience and operational capabilities, put in place smart supply chain management across hospitals and clinics, and hire larger teams.

- IcertisInc, a contract management software maker for enterprises based out of Pune and Mumbai in India, has raised US\$ 15 million in series B round of funding from Ignition Partners and Eight Roads Ventures, which will be used to invest in marketing and expand its global operations.
- Of Business, an online marketplace for business-to-business (B2B) commerce, has raised US\$ 5 million in series A funding round led by Matrix Partners India, which will be used to expand the team and build a technology platform for small and medium enterprises (SMEs).
- Credit Analysis and Research (CARE Ratings) has signed Memorandum of Understanding (MoU) with Japan Credit Rating Agency, Ltd (JCR) to collaborate with each other as strategic business partners.
- Shuttl, an Indian bus aggregator platform headquartered in Gurgaon, has raised US\$ 20 million in Series A funding from Lightspeed, Sequoia India and Times Internet Ltd.
- Indian logistics platform Rivigo has raised US\$ 30 million in debt and equity in Series B financing round, led by SAIF Partners. The firm aims to use the raised funds to achieve its target of scaling 10 times in the next 12 months.
- Taxi service aggregator Ola plans to double operations to 200 cities in current fiscal year. The company, which is looking at small towns for growth, also plans to invest in driver eco-system, such as training centers and technology upgrade, besides adding 1,500 to 2,000 women drivers as part of its pink cab service by women for women.

Government Initiatives

The Government of India recognises the importance of promoting growth in services sectors and provides several incentives in wide variety of sectors such as health care, tourism, education, engineering, communications, transportation, information technology, banking, finance, management, among others.

Prime Minister Narendra Modi has stated that India's priority will be to work towards trade facilitation agreement (TFA) for services, which is expected to help in the smooth movement of professionals. The Government of India has adopted a few initiatives in the recent past. Some of these are as follows:

- The Government of India plans to significantly liberalise its visa regime, including allowing multiple-entry tourist and business visas, which is expected to boost India's services exports.
- Mr Ravi Shakar Prasad, Minister of Communication and Information Technology, announced plan to increase the number of common service centres or e-Seva centres to 250,000 from 150,000 currently to enable village level entrepreneurs to interact with national experts for guidance, besides serving as a e-services distribution point.
- The Central Government is considering a two-rate structure for the goods and service tax(GST), under which key services will be taxed at a lower rate compared to the standard rate, which will help to minimize the impact on consumers due to increase in service tax.
- By December 2016, the Government of India plans to take mobile network to nearly 10 per cent of Indian villages that are still unconnected.
- The Government of India has proposed provide tax benefits for transactions made electronically through credit/debit cards, mobile wallets, net banking and other means, as part of broader strategy to reduce use of cash and thereby constrain the parallel economy operating outside legitimate financial system.
- The Reserve Bank of India (RBI) has allowed third-party white label automated teller machines (ATM) to accept international cards, including international prepaid cards, and has also allowed white label ATMs to tie up with any commercial bank for cash supply.

Road Ahead

Services sector growth is governed by both domestic and global factors. The sector is expected to perform well in FY16. The Indian facilities management market is expected to grow at 17 per cent CAGR between 2015 and 2020 and surpass the \$19 billion mark supported by booming real estate, retail, and hospitality sectors. The performance of trade, hotels and restaurants, and transport, storage and communication sectors are expected to improve in FY17. Loss of growth momentum in commodity-producing sectors had adversely impacted transport and storage sectors over the past two years. The financing, insurance, real estate, and business services sectors are also expected to continue their good run in FY17. The growth performance of the community, social and personal services sector is directly linked with government expenditure and we believe that the government will remain committed to fiscal consolidation in FY16.

INDIAN INFORMATION TECHNOLOGY INDUSTRY

Introduction

India is the world's largest sourcing destination for the information technology (IT) industry, accounting for approximately 67 per cent of the US\$ 124-130 billion market. The industry employs about 10 million workforces. More importantly, the industry has led the economic transformation of the country and altered the perception of India in the global economy. India's cost competitiveness in providing IT services, which is approximately 3-4 times cheaper than the US, continues to be the mainstay of its Unique Selling Proposition (USP) in the global sourcing market. However, India is also gaining prominence in terms of intellectual capital with several global IT firms setting up their innovation centres in India.

The IT industry has also created significant demand in the Indian education sector, especially for engineering and computer science. The Indian IT and ITeS industry is divided into four major segments – IT services, Business Process Management (BPM), software products and engineering services, and hardware.

The IT-BPM sector which is currently valued at US\$ 143 billion is expected to grow at a Compound Annual Growth Rate (CAGR) of 8.3 per cent year-on-year to US\$ 143 billion for 2015-16. The sector is expected to contribute 9.5 per cent of India's Gross Domestic Product (GDP) and more than 45 per cent in total services export in 2015-16.

Market Size

The Indian IT sector is expected to grow at a rate of 12-14 per cent for FY2016-17 in constant currency terms. The sector is also expected triple its current annual revenue to reach US\$ 350 billion by FY 2025#.

India ranks third among global start-up ecosystems with more than 4,200 start-ups##.

India's internet economy is expected to touch Rs 10 trillion (US\$ 146.72 billion) by 2018, accounting for 5 per cent of the country's GDP###. India's internet user base reached over 400 million by May 2016, the third largest in the world, while the number of social media users grew to 143 million by April 2015 and smartphones grew to 160 million.

Public cloud services revenue in India is expected to reach US\$ 1.26 billion in 2016, growing by 30.4 per cent year-on-year (y-o-y)[^]. The public cloud market alone in the country was estimated to treble to US\$ 1.9 billion by 2018 from US\$ 638 million in 2014[^]. Increased penetration of internet (including in rural areas) and rapid emergence of e-commerce are the main drivers for continued growth of data centre co-location and hosting market in India. The Indian Healthcare Information Technology (IT) market is valued at US\$ 1 billion currently and is expected to grow 1.5 times by 2020^{^^}. India's business to business (B2B) e-commerce market is expected to reach US\$ 700 billion by 2020 whereas the business to consumer (B2C) e-commerce market is expected to reach US\$ 102 billion by 2020^{^^^}.

Investment

Indian IT's core competencies and strengths have attracted significant investments from major countries. The computer software and hardware sector in India attracted cumulative Foreign Direct Investment (FDI) inflows worth US\$ 21.02 billion between April 2000 and March 2016, according to data released by the Department of Industrial Policy and Promotion (DIPP).

Indian start-ups are estimated to have raised US\$ 1.4 billion across 307 deals in quarter ending March 2016. Most large technology companies looking to expand have so far focused primarily on bigger enterprises, but a report from market research firm Zinnov highlighted that the small and medium businesses will present a lucrative opportunity worth US\$ 11.6 billion in 2015, which is expected to grow to US\$ 25.8 billion in 2020. Moreover, India has nearly 51 million such businesses of which 12 million have a high degree of technology influence and are looking to adopt newer IT products, as per the report.

Some of the major developments in the Indian IT and ITeS sector are as follows:

- Druva Incorporation, a data protection firm, has received US\$ 51 million in a funding round led by its existing investor Sequoia Capital India along with new investor EDBI which is the investment arm of the Singapore Economic Development Board (EDB).
- Google, the American technology giant, has launched a new Wi-Fi platform called Google station, under which the company will install Wi-Fi hot spots in places frequented by a large number of people like malls, cafes, universities.
- Reliance Industries Ltd (RIL) plans to set up entrepreneurship hubs in key cities and towns, and an Rs 5,000 crore (US\$ 748 million) fund, under the name of Jio Digital India Startup Fund, to invest in technology based startups.
- Gurgaon-based digital wallet start-up MobiKwik, which is owned and operated by One MobiKwik Systems Private Limited, has raised US\$ 40 million from Nasdaq-listed firm Net1, a South African payments technology company.
- Orange Business Services, the business services arm of Orange Group, has launched a state data centre for Himachal Pradesh government, which will be the first data centre in India to be designed using 'green' data centre concepts that minimise power requirements and increase power utilisation efficiency.
- PurpleTalk Inc, a US based mobile solutions company, has invested US\$ 1 million in Nukkad Shops, a Hyderabad based uber-local commerce platform that helps neighbourhood retail stores take their businesses online through a mobile app.
- Kart Rocket, a Delhi based e-commerce enabler has completed its US\$ 8 million funding round by raising US\$ 2 million from a Japanese investor, which will be used to enhance Kraftly, a mobile-first online-to-offline marketplace targeting small sellers, individuals and home-based entrepreneurs in India in product categories such as apparel and accessories.

Government Initiatives

Some of the major initiatives taken by the government to promote IT and ITeS sector in India are as follows:

- Mr Ravi Shakar Prasad, Minister of Communication and Information Technology, announced plan to increase the number of common service centres or e-Seva centres to 250,000 from 150,000

currently to enable village level entrepreneurs to interact with national experts for guidance, besides serving as a e-services distribution point.

- The Government of Telangana has signed an agreement with network solutions giant Cisco Systems Incorporation, to cooperate on a host of technology initiatives, including Smart Cities, Internet of Things, cyber security, education digitisation of monuments.
- The Railway Ministry plans to give a digital push to the India Railways by introducing bar-coded tickets, Global Positioning System (GPS) based information systems inside coaches, integration of all facilities dealing with ticketing issues, Wi-Fi facilities at the stations, super-fast long-route train service for unreserved passengers among other developments, which will help to increase the passenger traffic.
- The Pune Smart City Development Corporation (PSCDCL) has signed a memorandum of understanding (MOU) with the European Business and Technology Centre (EBTC), which will allow it to gain access to real-time knowledge of technologies, solutions and best practices from Europe.
- The e-Tourist Visa (e-TV) scheme has been extended to 37 more countries thereby taking the total count of countries under the scheme to 150 countries.
- Department of Electronics & Information Technology and M/s Canbank Venture Capital Fund Ltd plan to launch an Electronics Development Fund (EDF), which will be a 'Fund of Funds' to invest in 'Daughter Funds' which would provide risk capital to companies developing new technologies in the area of electronics, nano-electronics and Information Technology (IT).
- The Human Resource Development (HRD) Ministry has entered into a partnership with private companies, including Tata Motors Ltd, Tata Consultancy Services Ltd and real-estate firm Hubtown Ltd, to open three Indian Institutes of Information Technology (IIITs), through public-private partnership (PPP), at Nagpur, Ranchi and Pune.
- Government of India is planning to develop five incubation centres for 'Internet of Things' (IoT) start-ups, as a part of Prime Minister Mr Narendra Modi's Digital India and Startup India campaign, with at least two centres to be set up in rural areas to develop solutions for smart agriculture.

Road Ahead

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. Social, Mobility, Analytics and Cloud (SMAC) are collectively expected to offer a US\$ 1 trillion opportunity. Cloud represents the largest opportunity under SMAC, increasing at a CAGR of approximately 30 per cent to around US\$ 650-700 billion by 2020. The social media is the second most lucrative segment for IT firms, offering a US\$ 250 billion market opportunity by 2020. The Indian e-commerce segment is US\$ 12 billion in size and is witnessing strong growth and thereby offers another attractive avenue for IT companies to develop products and services to cater to the high growth consumer segment.

NOTABLE TRENDS IN INDIA'S IT & ITES SECTOR

- **Global delivery model**

Indian software product industry is expected to reach the mark of USD100 billion by 2025. In India, the number of global delivery centres in the IT-BPM sector reached 670, spreading out across 78 countries, as of 2015. New business models, technologies and addition of new markets is pushing growth; Infosys has opened a shop in Shanghai; TCS already has a big set-up in Uruguay

- **Global sourcing hub**

India continues to maintain a leading position in the global sourcing market. Its market share increased to 55 per cent in 2015. India's IT industry amounts to 7 per cent of the global market

- **Engineering offshoring**

In 2015, India continued to be the most preferred location for global R&D outsourcing, with a share of 56 per cent

The sector includes 670 Offshore Development Centres (ODCs) around 78 countries

- **Most lucrative sector for investments**

Increased focus on R&D by IT firms in India resulted in rising number of patents filed by them. In 2016, Indian IT-BPM sector is expected to grow 9.2 per cent since last year and reach USD160 billion

- **Changing business dynamics**

India's IT market is experiencing a significant shift from a few large-size deals to multiple small-size ones. The number of start-ups in technology is expected to reach 50,000, adding to around 2 per cent of GDP. Delivery models are being altered, as the business is moving to capital expenditure (capex) based models from operational expenditure (opex), from a vendor's frame of reference

- **New technologies**

Disruptive technologies, such as cloud computing, social media and data analytics, are offering new avenues of growth across verticals for IT companies. The SMAC (social, mobility, analytics, cloud) market is expected to grow to USD225 billion by 2020

- **Growth in non-linear models**

India's IT sector is gradually moving from linear models (rising headcount to increase revenue) to non-linear ones. In line with this, IT companies in India are focusing on new models such as platform-based BPM services and creation of intellectual property

- **Consumerisation of IT**

Global outsourcing is being used to drive fundamental re-engineering of end-to-end processes. There is increased emphasis on beyond cost benefits. IT firms in the current phase have moved up the value chain, providing innovation-led growth to clients from SLA satisfaction and ROI calculations

- **Emergence of Tier II cities**

Tier II and III cities are increasingly gaining traction among IT companies, aiming to establish business in India. Cheap labour, affordable real estate, favourable government regulations, tax breaks and SEZ schemes facilitating their emergence as a new IT destination. Giving rise to the domestic hub and spoke model, with Tier I cities acting as hubs and Tier. II, III and IV as network of spokes

- **SMAC technologies, an inflection point for Indian IT**

Social, Mobility, Analytics and Cloud (SMAC), a paradigm shift in IT-BPM approaches experienced until now, is leading to digitisation of the entire business model

- **Rural Development**

The National Optical Fibre Network (NOFN) is being laid down in phases to connect all the 250,000 gram Panchayat in the country

GROWTH DRIVERS

Talent Pool

6 million graduates are estimated to have been added to India's talent pool in FY16, wherein, ITBPM employees are estimated to reach 3.7 million. There is strong mix of young and experienced professionals.

Global Demand

Global BPM spending estimated to rise by 4.4% and reach USD2.7 billion in 2015. Global IT services spending witnessed decline by almost 5.5 per cent, reaching USD3.5 trillion in 2015.

Policy Support

Tax holidays for STPI and SEZs. More liberal system for raising capital, seed money and ease of doing business. As a part of Union Budget 2016-17, the government has made changes in custom & excise duty of IT hardware products.

Infrastructure

Robust IT infrastructure across various cities in India such as Bengaluru. Technology mission for services in villages and schools, training in IT skills and E-Kranti for government service delivery and governance scheme.

Domestic growth

Computer penetration expected to increase. Increasing adoption of technology and telecom by consumers and focused government initiatives leading to increased ICT adoption.

TECHNOLOGY – A KEY INFLUENCER FOR DOMESTIC IT INDUSTRY

Indian IT companies like TCS, Tech Mahindra Limited, IT Sector Segmental Breakup - By Companies (FY15) Mphasis, HCL Technologies Limited, Larsen & Turbo Infotech Limited, Wipro Technologies Limited, Oracle Financial, Infosys Technologies Limited are expanding their footprint in order to meet client's requirements globally Indian Firms have started adopting the global delivery model to cater to the local market and for taking advantage of low cost.

Introduction of large e-Governance projects to provide better services through IT and focus on the formation of the cyber policy led to higher demand for IT and hardware from the government. The Central Government and State/UT Government allocated 0.9–1.2 per cent and 2.8–3 per cent, respectively, of total budget for IT spend under the 12th Five Year Plan.

Strong consumer demand for IT service and products:

- Advent of smartphones, tablets and iPads
- Industry leaders are stressing the need for promoting support start-ups
- Rising computer literate population
- Enhanced internet and mobile penetration
- Growing disposable income strengthening consumer purchasing power
- Emerging verticals (retail, healthcare, utilities) are driving growth above 14 per cent

EXPORTS TO REMAIN ROBUST AS GLOBAL IT INDUSTRY MAINTAINS GROWTH

In FY16 the estimated revenue from exports of IT and BPM sector was USD108 billion. Global IT-BPM spending (excluding hardware) has grown 0.4 per cent over 2015 to nearly USD1.2 trillion. India's IT industry amounts to 4.26 per cent of the global market, largely due to exports as of 2015. In the year 2015 India comprised of around 500 BPM players generating revenue of USD23 billion, which is expected to rise and reach 50 billion in 2020.

During FY17 the country's revenue growth in IT exports is expected at 10 per cent. Emergence of SMAC would provide USD1 trillion market by 2020. Emerging economies are likely to be a major contributor to IT spend growth including IT spend in emerging economies to grow 3-4 times faster than advanced economies and the BRIC IT market is estimated at USD380 – 420 billion by 2020. Stable tax regime, reducing litigation related to tax and providing conducive environment for start-ups will improve the business environment.

(Source: IT and ITes Report November 2016 - India Brand Equity Foundation www.ibef.org)

New geographies

BRIC nations, continental Europe, Canada and Japan have IT spending of approximately USD380–420 billion. Adoption of technology and outsourcing is expected to make Asia the second largest IT market.

New customer segments

SMBs have IT spend of approximately USD230–250 billion, but contribute just 25 per cent to India's IT revenue. The emergence of new service offerings and business models would aid in tapping market profitably and efficiently.

New verticals

Government, healthcare, media and utilities together have IT spend of approximately USD190 billion, but account just 8 per cent of India's IT revenue. There is non-linear growth due to platforms, products and automation. Emerging verticals (retail, healthcare, utilities) are driving growth.

ADVANTAGE INDIA

Growing demand

There is a strong growth in demand for exports from new verticals. Rapidly growing urban infrastructure has fostered several IT centres in the country. There is expanding economy to propel growth in local demand.

Global footprints

IT firms in India have delivery centres across the world; as of 2015, IT firms had a total of 670 centres in 78 countries. India's IT industry amounts to 12.3 per cent of the global market, largely due to exports. IT & ITeS industry is well diversified across verticals such as BFSI, telecom and retail.

Competitive advantage

Cost savings of 60–70 per cent over source countries. A preferred destination for IT & ITeS in the world; continues to be a leader in the global sourcing industry with 55 per cent market share. The Indian IT industry has saved clients USD200 Billion in the past five years.

Policy support

Tax holidays extended to the IT sector. More liberal system for raising global capital, funding for seed capital & growth, and ease of doing business, etc. have been addressed. USD0.17 billion have been allocated for raising global capital, start ups. Income Tax cut on royalty fee on tech services to 10 per cent. Cumulative FDI inflow in computer software & hardware is USD21,018 million from April 2000 to March 2016

FY16E Industry value: USD160 billion

FY25F Industry value: USD350 billion

OUR BUSINESS

Incorporated in March, 2007, our Company “Panache Digilife Limited” is engaged in Information and Communication Technology manufacturing, distribution and services. Our Company came into existence, with a goal to become a market leader in ‘white box’ segment (unbranded – assembled/customized based computer systems) by maintaining low cost of production. Our Company started by acquiring the business of M/s. Vardhaman Computers, a proprietary concern of Mr. Nikit Rambhia, as a going concern through a Business Assignment Agreement dated April 5, 2007. Over the years we have ventured into distribution of components and at present we are able to provide a varied range of IT infrastructure products and embedded solutions. The registered office of our Company is situated at Mumbai and our manufacturing facility is situated at Daman.

Our Company is promoted by Amit Rambhia and Nikit Rambhia, who have more than a decade of experience in information technology sector. With experience, backed by educational qualifications, it is the vision and dedication of our Promoters which has paved the growth path of our Company. Our Promoters believes in the ideology of continuous improvement and developing innovation and it is their vision to make our Company a world class, competitive IT hardware manufacturing, distributing and service provider with a global recognition.

We are a turnkey manufacturer with the ability to bring customer’s original concept and ideas into series production. We work with individual and Companies at all stages of design and manufacture, from the stage of conceptualisation to the point of completion, with such efforts so as to bring industry and commercial level products and services to consumers. We are a customer oriented solution provider Company with our offerings ranging across diverse hardware and embedded solutions.

We are also an ISO 9001:2008 certified Company and have a diverse product basket comprising of thin clients, point of sales, digital signage, education solutions, healthcare embedded – PC, ATM Kiosk, etc. Recently we have also added GPS Tracking Solutions and televisions to our product portfolio. The revenue from operations of the company for the financial year 2015-2016 was Rs. 4914.07 lakhs as compared to Rs. 2,303.06 lakhs for the financial year 2011-12 showing an increase of 113.37%. Our product wise revenue for FY 15 -16 is as follows OEM products: Rs. 2011.25 lakhs, Air PC : Rs. 317.35 lakhs, Computer Systems : Rs. 2055.24 lakhs, IT Peripherals :Rs. 505.19 lakhs, GPS Units : Rs.25.04 lakhs. Our business model is primarily a B2B model wherein we sell goods to parties who sells them to end users. Since we have such a diverse product offering, our end users also belong to different industrial sectors. In our operating history of around a decade, we have had clientele from banks to educational institutions to retail supermarkets to hotels to well known corporate houses. Our manufacturing facility is situated at Daman and spread over more than 6,000 sq. ft. We have quality management processes and semi automated assembly line in place to ensure speedy and consistent delivery of products to the B2B Market. According to customer requirements, operating systems and software packages are loaded using automated software loading facilities. We generally provide one year warranty for our standard range of products. We also provide additional warranty packs at additional costs.

Our Company at present caters to both domestic and international markets. We have customers based out of Dubai, Iran, Riyadh, Sri Lanka, etc. To expand our operations, we have recently incorporated a subsidiary in Dubai which shall aid us in B2B e-commerce market place. We are also Local Device Partner (L-OEM or Named Partner) for Microsoft and also have a Microsoft License Agreement. We are authorized to procure Windows, Server & Office Licenses directly from Microsoft. We can sell our devices under the brand Name “Panache” with Windows OS, Windows Server & Office Licenses preloaded. We have been promoting brand Panache products since 2008 and are eligible to use “Panache” for our product range under the brand usage agreement dated October 4, 2016 with Rambhia IPR Services LLP for a period of three years.

Our Company aims to provide cost effective electronics manufacturing solutions available while adhering to the high standards of the service, delivery and quality. The company strives to establish strong relationships with clients and collaborate with them to drill down on the best manufacturing solution.

Our select credentials:

- ISO 9001:2008 Company
- Microsoft OEM Named Account
- Permanent SSI Registered & MSME Registered

Our few awards and recognitions:

- “Best System Builder” award in 2010, 2011, 2012 & 2013 by CRN
- “Intel Embedded Hero” award in 2012
- “SME National Award for Excellence” in IT 2012 by Bangalore Institute of Technology at Astra 2012
- “Edge Innovation award” in 2014 by Information Week, UBM

OUR MANUFACTURING PROCESS

1. Raw material Inward:

We procure raw material from both domestic and international markets. The pre qualified products are received from approved suppliers. Such materials are physically inspected for tampering, box weight, etc. The invoices of such materials are then verified for type of product, quantity of product and rate of product. If the materials received are in proper condition, a good receipt note is prepared and the materials are sent to incoming QC department for further process. In case any shortcomings or deficiency is noted, the Purchase Head is informed about the same.

2. Incoming QC

It is the job of the IQC process to conduct inspections and handle quality issues before the assembly process starts. Our IQC process governs our quality systems during the assembly process in order to detect and handle any problems that may arise during assembly. Incoming QC conducts sample testing based on classification of products. On verification, if there are issues with the quality, the material is rejected and if found in proper condition, it is handed over to Stores.

3. Stores (Inward)

A process and a space within, to receive the incoming materials, keep them for as long as they are not required for use and then to move them out of stores for use. After receipt of materials from Incoming QC department, the goods are classified based on batches. These goods are then either stored in pre defined sections or issued to shop floor against work order for production purposes.

4. Issue To Production

A material issue request form is issued by production incharge to the Stores department for issuing the necessary material in the required quantities for production purpose. These raw materials are already barcoded by the stores incharge and all the barcodes are recorded.

5. Integration and In-Process QC

As per the clients requirement and specifications, all the raw materials are integrated to make the final products. These products are serially numbered and such serial numbers are captured for record purpose.

In-Process quality control allows the producer to follow all changes that occur during applied technological procedures. It gives the producer security that the finished products fulfils all quality requirements, most of all that the products should be safe. Depending upon the type of the product, In process QC is done by checking various parameters such as display, verifying memory count, hard disk capacity, etc. In case any shortcomings are noticed, the products are reworked. The serially numbered products with the manufacturing labels are sent for Final QC.

6. Final QC

Quality control (QC) is a procedure or set of procedures intended to ensure that a manufactured product or performed service adheres to a defined set of quality criteria or meets the requirements of the client or customer. Through the quality control process, the product quality will be maintained, and the manufacturing defects will be examined and refined.

Again depending upon the type of the product, different quality control procedures are undertaken. For eg. for PCs, visual inspection is done for fitment and scratches, burn test is conducted for 2 hours including operating system loading via network, along with drivers and softwares. Once the products passes through all quality tests, they are sent to the packaging department.

7. Packaging

Packing is the final step of manufacturing processing; the finished products are passed to packing section by conveyer belt. In general, Physical inspection is done for fitment and scratches, machine is cleaned. Branding is done, compliance and warranty seals are pasted. Accessory Box (if any) is packed, serial no. and MRP sticker is pasted on the box. The boxes are then covered with shrink wrap and strapping is done on the box. The machine is ready for dispatch.

8. Holding and Dispatch

Value Added Tax (“VAT”)

VAT is a system of multi-point Levy on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT Liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each state that has introduced VAT has its own VAT Act, under which, persons liable to pay VAT must register and obtain a registration number from Sales Tax Officer of the respective State.

The Maharashtra Value Added Tax, 2002

As per the provisions of MVAT, a dealer is liable to pay tax on the basis of turnover of sales within the State. The term dealer has been defined u/s. 2(8) of the Act. It includes all person or persons who buys or sells goods in the State whether for commission, remuneration or otherwise in the course of their business or in connection with or incidental to or consequential to engagement in such business. The term includes a Broker, Commission Agent, Auctioneer, Public Charitable Trusts, Clubs, Association of Persons, Departments of Union Government and State Government, Customs, Port Trusts, Railways, Insurance & Financial Corporations, Transport Corporations, Local authorities, Shipping and Construction Companies, Airlines, Advertising Agencies and also any corporation, company, body or authority, which is owned, constituted or subject to administrative control of the Central Government, any State Government or any local authority.

However an agriculturist, educational institution and transporters shall not be deemed to be a dealer (subject to fulfilment of conditions).

Daman and Diu Value Added Tax Act, 2005

As per the provisions of this Act, a dealer is liable to pay tax on every sale of goods effected by a dealer – (a) on and from the day on which the dealer was required to be registered under this Regulation; or (b) during the period he is registered as a dealer under this Regulation. Every dealer, who becomes liable to pay tax under this Regulation on the sale of goods, shall continue to be so liable unless his taxable turnover during any preceding consecutive twelve months or such further period as may be prescribed, has remained below the taxable quantum and on the expiry of such twelve months or further period his liability to pay tax shall cease:

Provided that any dealer, whose liability to pay tax under this Regulation ceases for any other reason, may apply for the cancellation of his certificate of registration on or after the date on which his liability to pay tax ceases, and on such cancellation, his liability to pay tax shall cease. Provided further that a dealer shall remain liable to pay tax until the date on which his certificate of registration is cancelled. Every dealer who is liable to pay tax under this Act, will have to apply for Certificate of Registration under this Act.

Maharashtra State Tax on Profession, Trades, Callings and Employments Act, 1975

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain

the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

Service Tax

Chapter V of the Finance Act, 1994 as amended, provides for the levy of a service tax in respect of 'taxable services', as specified in entry 39 defined therein. The service provider of taxable services is required to collect service tax from the recipient of such services and pay such tax to the Government. Every person who is liable to pay this service tax must register himself with the appropriate authorities. According to Rule 6 of the Service Tax Rules, every assessee is required to pay service tax in TR 6 challan by the 5th / 6th of the month immediately following the month to which it relates. Further, under Rule 7 (1) of Service Tax Rules, the Company is required to file a half yearly return in Form ST 3 by the 25th of the month immediately following the half year to which the return relates.

Central Sales Tax Act, 1956 ("CST")

The main object of this act is to formulate principles for determining (a) when a sale or purchase takes place in the course of trade or commerce (b) When a sale or purchase takes place outside a State (c) When a sale or purchase takes place in the course of imports into or export from India, to provide for Levy, collection and distribution of taxes on sales of goods in the course of trade or commerce, to declare certain goods to be of special importance trade or commerce and specify the restrictions and conditions to which State Laws imposing taxes on sale or purchase of such goods of special importance (called as declared goods) shall be subject. CST Act imposes the tax on interstate sales and states the principles and restrictions as per the powers conferred by Constitution.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taken out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administrated by Central Board of Excise and Customs under the Ministry of Finance.

The Central Excise Act, 1944

The Central Excise Act, 1944 ("Central Excise Act") consolidates and amends the law relating to Central Duties of Excise on goods manufactured or produced in India. Excisable goods under the Act means goods specified in the Schedule to the Central Excise Tariff Act, 1985 as being subject to duty of excise. Factory means any premises, including the precincts thereof, wherein or in any part of which excisable goods are manufactured, or wherein or in any part of which any manufacturing process connected with the production of these goods being carried on or is ordinarily carried out. Under the Act a duty of excise is levied on all excisable goods, which are produced or manufactured in India as and at the rates, set forth in the First Schedule to the Central Excise Tariff Act, 1985.

OTHER LAWS

The Factories Act, 1948

The Factories Act, 1948 ("Factories Act") aims at regulating labour employed in factories. A "factory" is defined as "any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...". The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare

of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 (“Environment Protection Act”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981

Air (Prevention and Control of Pollution) Act 1981 (“the Act”) was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974

The Water (Prevention and Control of Pollution) Act 1974 (“the Act”) was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Act

prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

Hazardous Waste (Management and Handling) Rules, 1989

The Hazardous Waste (Management and Handling) Rules, 1989, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process

producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999

The Trade Marks Act, 1999 (the “**Trade Marks Act**”) provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The Trade Marks Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (DGFT) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals in a case the order made by the appellate authority shall be considered to be final. The powers of all the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. Director General of Foreign Trade (herein after referred to as DGFT) is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (“FEMA”) and the rules and regulations promulgated there under. The act aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other

authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India

THE FOREIGN DIRECT INVESTMENT

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("**FDI**") through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India ("**DIPP**"), has issued consolidated FDI Policy Circular of 2016 ("**FDI Policy 2016**"), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. Further, DIPP has issued Press note 5, dated June 24, 2016 which introduces few changes in FDI Policy 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2016 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India ("**RBI**") also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2016, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

Provision for tax comprises of current and deferred tax Provision is made on the basis of reliefs and deductions available under relevant tax laws. Deferred tax resulting from "timing differences" between taxable and accounting income is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognised and carried forward for timing differences of items other than unabsorbed depreciation and accumulated losses only to the extent that there is a reasonable certainty that the assets can be realised in future.

However, if there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is virtual certainty that there will be sufficient future taxable income available to realise the assets. Deferred tax assets are reviewed as at each balance sheet date for their reliability.

13) Impairment of Assets:

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

14) Provision, Contingent Liabilities and Contingent Assets:

- a) Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates reviewed at each reporting date and adjusted to reflect the current best estimate
- b) Contingent liabilities are disclosed unless the possibility of outflow of resources is remote. Contingent assets are not recognised in the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion of our financial condition and results of operations should be read in conjunction with our restated financial statements for the period ended December 31, 2016 and for the financial years ended March 31, 2016, 2015 and 2014 prepared in accordance with the Companies Act and Indian GAAP and restated in accordance with the SEBI ICDR Regulations, including the schedules, annexure and notes thereto and the reports thereon, included in the section titled "*Financial Statements*" on page 198 of this Red Herring Prospectus.

Indian GAAP differs in certain material aspects from U.S. GAAP and IFRS. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Red Herring Prospectus, nor do we provide reconciliation of our financial statements to those under U.S. GAAP or IFRS. Accordingly, the degree to which the Indian GAAP financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with the Companies Act, Indian GAAP and SEBI ICDR Regulations.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those set forth in "*Risk Factors*" and "*Forward-Looking Statements*" beginning on pages 21 and 198, of this Red Herring Prospectus beginning respectively.

Our Company was incorporated on March 30, 2007 and has completed around ten years since incorporation. The Management's Discussion and Analysis of Financial Condition and Results of Operations, reflects the analysis and discussion of our financial condition and results of operations for the period ended December 31, 2016 and for the financial years ended March 31, 2016, 2015 and 2014.

OVERVIEW

Incorporated in March, 2007, our Company "Panache Digilife Limited" is engaged in Information and Communication Technology manufacturing, distribution and services. Our Company came into existence, with a goal to become a market leader in 'white box' segment (unbranded – assembled/customized based computer systems) by maintaining low cost of production. Our Company started by acquiring the business of M/s. Vardhaman Computers, a proprietary concern of Mr. Nikit Rambhia, as a going concern through a Business Assignment Agreement dated April 5, 2007. Over the years we have ventured into distribution of components and at present we are able to provide a varied range of IT infrastructure products and embedded solutions. The registered office of our Company is situated at Mumbai and our manufacturing facility is situated at Daman.

Our Company is promoted by Amit Rambhia and Nikit Rambhia, who have more than a decade of experience in information technology sector. With experience, backed by educational qualifications, it is the vision and dedication of our Promoters which has paved the growth path of our Company. Our Promoters believes in the ideology of continuous improvement and developing innovation and it is their vision to make our Company a world class, competitive IT hardware manufacturing, distributing and service provider with a global recognition.

We are a turnkey manufacturer with the ability to bring customer's original concept and ideas into series production. We work with individual and Companies at all stages of design and manufacture, from the stage of conceptualisation to the point of completion, with such efforts so as to bring industry and commercial level products and services to consumers. We are a customer oriented solution provider Company with our offerings ranging across diverse hardware and embedded solutions.

We are also an ISO 9001:2008 certified Company and have a diverse product basket comprising of thin clients, point of sales, digital signage, education solutions, healthcare embedded – PC, ATM Kiosk, etc. Recently we have also added GPS Tracking Solutions and televisions to our product portfolio. The revenue from operations of the company for the financial year 2015-2016 was Rs. 4914.07 lakhs as compared to Rs. 2,303.06 lakhs for the financial year 2011-12 showing an increase of 113.37%. Our product wise revenue for FY 15 -16 is as follows OEM products : Rs. 2011.25 lakhs, Air PC : Rs.

317.35 lakhs, Computer Systems : Rs. 2055.24 lakhs, IT Peripherals :Rs. 505.19 lakhs, GPS Units : Rs.25.04 lakhs. Our business model is primarily a B2B model wherein we sell goods to parties who sells them to end users. Since we have such a diverse product offering, our end users also belong to different industrial sectors. In our operating history of around a decade, we have had clientele from banks to educational institutions to retail supermarkets to hotels to well known corporate houses. Our manufacturing facility is situated at Daman and spread over more than 6,000 sq. ft. We have quality management processes and semi automated assembly line in place to ensure speedy and consistent delivery of products to the B2B Market. According to customer requirements, operating systems and software packages are loaded using automated software loading facilities. We generally provide one year warranty for our standard range of products. We also provide additional warranty packs at additional costs.

Our Company at present caters to both domestic and international markets. We have customers based out of Dubai, Iran, Riyadh, Sri Lanka, etc. To expand our operations, we have recently incorporated a subsidiary in Dubai which shall aid us in B2B e-commerce market place. We are also Local Device Partner (L-OEM or Named Partner) for Microsoft and also have a Microsoft License Agreement. We are authorized to procure Windows, Server & Office Licenses directly from Microsoft. We can sell our devices under the brand Name “Panache” with Windows OS, Windows Server & Office Licenses preloaded. We have been promoting brand Panache products since 2008 and are eligible to use “Panache” for our product range under the brand usage agreement dated October 4, 2016 with Rambhia IPR Services LLP for a period of three years.

Our Company aims to provide cost effective electronics manufacturing solutions available while adhering to the high standards of the service, delivery and quality. The company strives to establish strong relationships with clients and collaborate with them to drill down on the best manufacturing solution.

SECTION VI – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except, as stated in this section and mentioned elsewhere in this Red Herring Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Subsidiaries, Group Companies or against any other company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters, Subsidiaries or Group Companies.

Except as disclosed below there are no i) litigation or legal actions, pending or taken, by any Ministry or department of the Government or a statutory authority against our Promoters during the last five years; (ii) direction issued by such Ministry or Department or statutory authority upon conclusion of such litigation or legal action; (iii) pending proceedings initiated against our Company for economic offences; (iv) default and non-payment of statutory dues by our Company; (v) inquiries, inspections or investigations initiated or conducted under the Companies Act, 2013 or any previous companies law in the last five years against our Company and Subsidiaries including fines imposed or compounding of offences done in those five years; or (vi) material frauds committed against our Company in the last five years.

Except as stated below there are no Outstanding Material Dues (as defined below) to creditors; or (ii) outstanding dues to small scale undertakings and other creditors.

Our Board, in its meeting held on February 17, 2017 determined that outstanding dues to creditors in excess of Rs. 5.00 lakhs as per last audited financial statements shall be considered as material dues (“Material Dues”).

Pursuant to SEBI ICDR Regulations, all other pending litigations except criminal proceedings, statutory or regulatory actions and taxation matters involving our Company, Promoters, Directors and Group Companies, would be considered ‘material’ for the purposes of disclosure if the monetary amount of claim by or against the entity or person in any such pending matter exceeds Rs. 5.00 lakhs as determined by our Board, in its meeting held on February 17, 2017.

Accordingly, we have disclosed all outstanding litigations involving our Company, Promoters, Directors and Group Companies which are considered to be material. In case of pending civil litigation proceedings wherein the monetary amount involved is not quantifiable, such litigation has been considered ‘material’ only in the event that the outcome of such litigation has an adverse effect on the operations or performance of our Company.

Unless otherwise stated to contrary, the information provided is as of date of this Red Herring Prospectus.

- Right to vote on a poll either in person or by proxy;
- Right to receive issue for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation subject to any statutory and preferential claim being satisfied;
- Right of free transferability subject to applicable law, including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public limited company under the Companies Act, 2013 Act, the terms of the SEBI Listing Regulations and the Memorandum and Articles of Association of our Company.

For a detailed description of the main provisions of the Articles of Association relating to voting rights, dividend, forfeiture and lien and / or consolidation / splitting, please refer to the section titled “*Main Provisions of Articles of Association*” beginning on page number 335 of this Red herring Prospectus.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialised form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Agreement dated March 08, 2017 amongst NSDL, our Company and the Registrar to the Issue; and
- Agreement dated March 02, 2017 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialised form, the tradable lot is [●] Equity Share. Allotment in this Issue will be only in electronic form in multiples of one Equity Share subject to a minimum Allotment of [●] Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Allocation and allotment of Equity Shares through this Offer will be done in multiples of [●] Equity Share subject to a minimum allotment of [●] Equity Shares to the successful applicants.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72 of the Companies Act, 2013 the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a

public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company withdraws the Issue after the Bid/ Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Red Herring Prospectus with Stock Exchange.

BID/ ISSUE OPENING DATE

Event	Indicative Date
Bid / Issue Opening Date	Tuesday, April 11, 2017
Bid / Issue Closing Date	Monday, April 17, 2017
Finalisation of Basis of Allotment with the Designated Stock Exchange	Thursday, April 20, 2017

All times mentioned in this Red Herring Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Red Herring Prospectus is Indian Standard Time.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price

Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bid/Issue Period will be extended for at least three additional working days after revision of Price Band subject to the Bid/ Issue Period not exceeding 10 working days. Any revision in the Price Band and the revised Bid/ Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a press release and also by indicating the changes on the websites of the Book Running Lead Manager and at the terminals of the Syndicate Member.

In case of any discrepancy in the data entered in the electronic book vis-à-vis the data contained in the Bid cum Application Form, for a particular Bidder, the Registrar to the Issue shall ask for rectified data

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level and is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Red Herring Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the issue through the Issue Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

In accordance with Regulation 106 P (1) of the SEBI (ICDR) Regulations, our Issue shall be hundred percent underwritten. Thus, the underwriting obligations shall be for the entire hundred percent of the issue through the Red Herring Prospectus and shall not be restricted to the minimum subscription level.

Further, in accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be allotted will not be less than 50 (Fifty)

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.1,00,000/- (Rupees One Lakh) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main board of National Stock Exchange of India Limited from SME Exchange on a later date subject to the following:

- *If the Paid up Capital of our Company is likely to increase above Rs. 2,500 lakhs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to National Stock Exchange of India Limited for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.*

OR

- *If the Paid up Capital of our company is more than Rs. 1,000 lakhs but below Rs. 2,500 lakhs, our Company may still apply for migration to the Main Board and if the Company fulfils the eligible criteria for listing laid by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.*

BIDS BY FPI INCLUDING FIIs

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Issue, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Issue, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10.00% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10.00% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and

aggregate investment limits an FII or sub account in our Company is 10.00% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client' norms. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority.

FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents (blue in colour).

BIDS BY SEBI REGISTERED VCFs, AIFs and FVCIs

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI. Further, the SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

BIDS BY MUTUAL FUNDS

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in index funds or sector or industry specific funds. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid cum Application in whole or in part, in either case, without assigning any reason thereof.

In case of a mutual fund, a separate Bid cum Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple applications provided that the Bids clearly indicate the scheme concerned for which the Bids has been made.

The Bids made by the asset management companies or custodians of Mutual Funds shall specifically state the names of the concerned schemes for which the Applications are made.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any bid without assigning any reason thereof. Limited liability partnerships can participate in the Issue only through the ASBA process.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Bid cum Application Form. Failing this, our Company reserves the right to reject any Bid by Insurance Companies without assigning any reason thereof. The exposure norms for insurers, prescribed under the Insurance Regulatory and Development Authority (Investment) Regulations, 2000, as amended, (the “IRDA Investment Regulations”) are broadly set forth below:

- 1) equity shares of a company: the least of 10% of the investee company’s subscribed capital (face value) or 10.00% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- 2) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- 3) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be. Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, FIIs, Mutual Funds, insurance companies and provident funds with a minimum corpus of Rs. 2500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of Rs. 2500 Lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reasons thereof. In addition to the above, certain additional documents are required to be submitted by the following entities:

- a) With respect to Bids by FIIs and Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form.
- b) With respect to Bids by insurance companies registered with the Insurance Regulatory and Development Authority, in addition to the above, a certified copy of the certificate of registration issued by the Insurance Regulatory and Development Authority must be lodged along with the Bid cum Application Form.

Our Company will issue a statutory advertisement after the filing of the Prospectus with the RoC. This advertisement, in addition to the information that has to be set out in the statutory advertisement, shall indicate the final derived Issue Price. Any material updates between the date of the Red Herring Prospectus and the date of Prospectus will be included in such statutory advertisement.

GENERAL INSTRUCTIONS

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and under applicable law, rules, regulations, guidelines and approvals;
2. Ensure that you have Bid within the Price Band;
3. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
4. Ensure that the details about the PAN, DP ID and Client ID are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in the dematerialised form only;
5. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the Bidding Centre;
6. If the first applicant is not the account holder, ensure that the Bid cum Application Form is signed by the account holder. Ensure that you have mentioned the correct bank account number in the Bid cum Application Form;
7. Ensure that the signature of the First Bidder in case of joint Bids, is included in the Bid cum Application Forms;
8. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names;
9. Ensure that you request for and receive a stamped acknowledgement of the Bid cum Application Form for all your Bid options;
10. 4.1.1 : NAME AND CONTACT DETAILS OF THE SOLE/ FIRST BIDDER

Bidders should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Bidders should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Bidders should note that the contact details mentioned in the Bid cum Application Form/ Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Bid cum Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Bids:** In the case of Joint Bids, the Bids should be made in the name of the Bidder whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Bidder would be required in the Bid cum Application Form/ Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Bidder whose name appears in the Bid cum Application Form/ Application Form or the Revision Form and all communications may be addressed to such Bidder and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Bidders is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:
Any person who:
 - *makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or*
 - *makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
 - *otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,*

Shall be liable for action under section 447 of the said Act.
- (d) **Nomination Facility to Bidder:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Bidders should inform their respective DP.

4.1.2 PAN NUMBER OF SOLE /FIRST BIDDER

- a) PAN (of the sole/first Bidder) provided in the Bid cum Application Form/Application Form should be exactly the same as the PAN of the person in whose sole or first name the relevant beneficiary account is held as per the Depositories' records.
- b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Bids on behalf of the Central or State Government, Bids by officials appointed by the courts and Bids by Bidders residing in Sikkim ("PAN Exempted Bidders"). Consequently, all Bidders, other than the PAN Exempted Bidders, are required to disclose their PAN in the Bid cum Application Form, irrespective of the Bid Amount. Bids by the Bidders whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- c) The exemption for the PAN Exempted Bidders is subject to (a) the Demographic Details

received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.

- d) Bid cum Application Forms which provide the GIR Number instead of PAN may be rejected.
- e) Bids by Bidders whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and Demographic Details are not provided by depositories.

4.1.3 BIDDERS DEPOSITORY ACCOUNT DETAILS

- a) Bidder should ensure that DP ID and the Client ID are correctly filled in the Bid cum Application Form. The DP ID and Client ID provided in the Bid cum Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the **Bid cum Application Form is liable to be rejected.**
- b) Bidder should ensure that the beneficiary account provided in the Bid cum Application Form is active.
- c) Bidder should note that on the basis of DP ID and Client ID as provided in the Bid cum Application Form, the Bidder may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to the offer.
- d) Bidders are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Bidders’ sole risk.

4.1.4 : BID OPTIONS

- a) Price or Floor Price or Price Band, minimum Bid Lot and Discount (if applicable) may be disclosed in the RHP by the Issuer. The Issuer is required to announce the Floor Price or Price Band, minimum Bid Lot and Discount (if applicable) by way of an advertisement in at least one English, one Hindi and one regional newspaper, with wide circulation, at least five Working Days before Bid/Issue Opening Date in case of an IPO, and at least one Working Day before Bid/Issue Opening Date in case of an FPO.
- b) The Bidders may Bid at or above Floor Price or within the Price Band for IPOs undertaken through the Book Building Process. Cut-Off Price: Retail Individual Investors or Employees or Retail Individual Shareholders can Bid at the Cut off Price indicating their agreement to Bid for and purchase the Equity Shares at the Offer Price as determined at the end of the Book Building Process. Bidding at the Cut-off Price is prohibited for QIBs and NIIs and such Bids from QIBs and NIIs may be rejected.
- c) **Cut-Off Price:** Retail Individual Investors or Employees or Retail Individual Shareholders can Bid at the Cut-off Price indicating their agreement to Bid for and purchase the Equity Shares at the Offer Price as determined at the end of the Book Building Process. Bidding at the Cut-off Price is prohibited for QIBs and NIIs and such Bids from QIBs and NIIs may be rejected.
- d) **Minimum Bid Value and Bid Lot:** The Issuer in consultation with the BRLM may decide the minimum number of Equity Shares for each Bid to ensure that the minimum Bid value is within the range of above Rs.1,00,000. The minimum Bid Lot is accordingly determined by an Issuer on basis of such minimum Bid value.
- e) **Allotment:** The Allotment of specified securities to each RII shall not be less than the minimum Bid Lot, subject to availability of shares in the RII category, and the remaining

available shares, if any, shall be Allotted on a proportionate basis. For details of the Bid Lot, Bidders may refer to the RHP or the advertisement regarding the Price Band published by the Issuer.

4.1.4.1 Maximum and Minimum Bid Size

- a) The Bidder may Bid for the desired number of Equity Shares at a specific price. Bids by Retail Individual Investors, Employees and Retail Individual Shareholders must be for such number of shares so as to ensure that the Bid Amount less Discount (as applicable), payable by the Bidder does not exceed Rs. 200,000.
- b) In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or any other reason, the Bid may be considered for allocation under the Non-Institutional Category (with it not being eligible for Discount), then such Bid may be rejected if it is at the Cut-off Price.
- c) For NRIs, a Bid Amount of up to Rs. 200,000 may be considered under the Retail Category for the purposes of allocation and a Bid Amount exceeding Rs. 200,000 may be considered under the Non-Institutional Category for the purposes of allocation.
- d) Bids by QIBs and NIIs must be for such minimum number of shares such that the Bid Amount exceeds Rs. 200,000 and in multiples of such number of Equity Shares thereafter, as may be disclosed in the Bid cum Application Form and the RHP/Prospectus, or as advertised by the Issuer, as the case may be. Non-Institutional Investors and QIBs are not allowed to Bid at Cut off Price.
- e) RII may revise or withdraw their bids until Bid/Offer Closing Date. QIBs and NII's cannot withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after Bidding and are required to pay the Bid Amount upon submission of the Bid.
- f) In case the Bid Amount reduces to Rs. 200,000 or less due to a revision of the Price Band, Bids by the Non-Institutional Investors who are eligible for allocation in the Retail Category would be considered for allocation under the Retail Category.
- g) For Anchor Investors, if applicable, the Bid Amount shall be least Rs 10 crores. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors. Bids by various schemes of a Mutual Fund shall be aggregated to determine the Bid Amount. A Bid cannot be submitted for more than 60% of the QIB Category under the Anchor Investor Portion. Anchor Investors cannot withdraw their Bids or lower the size of their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the Anchor Investor Bid/Offer Period and are required to pay the Bid Amount at the time of submission of the Bid. In case the Anchor Investor Issue Price is lower than the Issue Price, the balance amount shall be payable as per the pay-in-date mentioned in the revised CAN. In case the Issue Price is lower than the Anchor Investor Offer Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- h) A Bid cannot be submitted for more than the issue size.
- i) The maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under the applicable laws.
- j) The price and quantity options submitted by the Bidder in the Bid cum Application Form may be treated as optional bids from the Bidder and may not be cumulated. After determination of the issue Price, the number of Equity Shares Bid for by a Bidder at or above the issue Price may be considered for Allotment and the rest of the Bid(s), irrespective of the Bid Amount may automatically become invalid. This is not applicable in case of FPOs undertaken through Alternate Book Building Process.

4.1.4.2 Multiple Bids

- (a) Bidder should submit only one Bid cum Application Form. Bidder shall have the option to make a maximum of Bids at three different price levels in the Bid cum Application Form and such options are not considered as multiple Bids. Submission of a second Bid cum Application Form to either the same or to another member of the Syndicate, SCSB or Registered Broker and duplicate copies of Bid cum Application Forms bearing the same application number shall be treated as multiple Bids and are liable to be rejected.
- (b) Bidders are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple Bids:
 - i. All Bids may be checked for common PAN as per the records of the Depository. For Bidders other than Mutual Funds and FII sub-accounts, Bids bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected.
 - ii. For Bids from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Bids on behalf of the PAN Exempted Bidders, the Bid cum Application Forms may be checked for common DP ID and Client ID. Such Bids which have the same DP ID and Client ID may be treated as multiple Bids and are liable to be rejected.
- (c) The following Bids may not be treated as multiple Bids:
 - i. Bids by Reserved Categories Bidding in their respective Reservation Portion as well as bids made by them in the Offer portion in public category.
 - ii. Separate Bids by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Bids clearly indicate the scheme for which the Bid has been made.
 - iii. Bids by Mutual Funds, and sub-accounts of FIIs (or FIIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.
 - iv. Bids by Anchor Investors under the Anchor Investor Portion and the QIB Portion.

4.1.5 CATEGORY OF BIDDERS

- (a) The categories of Bidders identified as per the SEBI ICDR Regulations, 2009 for the purpose of Bidding, allocation and allotment in the Issue are RIIs, NIIs and QIBs.
- (b) An Issuer can make reservation for certain categories of Bidders as permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, Bidders may refer to the RHP.
- (c) The SEBI ICDR Regulations, 2009, specify the allocation or allotment that may be made to various categories of Bidders in an Issue depending upon compliance with the eligibility conditions. Details pertaining to allocation are disclosed on reverse side of the Revision Form. For Issue specific details in relation to allocation Bidder may refer to the RHP.

4.1.6 INVESTOR STATUS

- (a) Each Bidder should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Bidder, such as NRIs, FPIs and FVCIs may not be allowed to Bid/apply in the Issue or hold Equity Shares exceeding certain limits specified under

applicable law. Bidders are requested to refer to the Red Herring Prospectus for more details.

- (c) Bidders should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Bid cum Application Form and Non-Resident Bid cum Application Form.
- (d) Bidders should ensure that their investor status is updated in the Depository records.

4.1.7 PAYMENT DETAILS

- i. The full Bid Amount (net of any Discount, as applicable) shall be blocked in the ASBA Account based on the authorisation provided in the Bid cum Application Form. If discount is applicable in the Issue, the RIIs should indicate the full Bid Amount in the Bid cum Application Form and the funds shall be blocked for the Bid Amount net of Discount. Only in cases where the RHP indicates that part payment may be made, such an option can be exercised by the Bidder. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less Discount offered, if any.
- ii. Bid Amount cannot be paid in cash, through money order or through postal order or through stock invest.
- iii. Bidders who Bid at Cut-off Price shall DEPOSIT the Bid Amount based on the Cap Price.
- iv. All Bidders can participate in the Offer only through the ASBA mechanism.
- v. Please note that, providing bank account details in the space provided in the Bid cum Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1. Payment instructions for Bidders

- a) Bidders may submit the Bid cum Application Form either
 - i. in electronic mode through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the ASBA account specified in the Bid cum Application Form, or
 - ii. in physical mode to any Designated Intermediary.
- b) Bidders must specify the Bank Account number in the Bid cum Application Form. The Bid cum Application Form submitted by Bidder and which is accompanied by cash, demand draft, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account maintained with an SCSB, will not be accepted.
- c) Bidders should ensure that the Bid cum Application Form is also signed by the ASBA Account holder(s) if the Bidder is not the ASBA Account holder.
- d) Bidders shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- e) From one ASBA Account, a maximum of five Bid cum Application Forms can be submitted.
- f) Bidders should submit the Bid cum Application Form only at the Bidding Centre i.e. to the respective member of the Syndicate at the Specified Locations, the SCSBs, the Registered Broker at the Broker Centres, the RTA at the Designated RTA Locations or CDP at the Designated CDP Locations
- g) Bidders bidding through a Designated Intermediary, other than a SCSB, should note that Bid cum Application Forms submitted to such Designated Intermediary may not be

accepted, if the SCSB where the ASBA Account, as specified in the Bid cum Application Form, is maintained has not named at least one branch at that location for such Designated Intermediary, to deposit Bid cum Application Forms.

- h) Bidders bidding directly through the SCSBs should ensure that the Bid cum Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained.
- i) Upon receipt of the Bid cum Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form.
- j) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and for application directly submitted to SCSB by investor, may enter each Bid option into the electronic bidding system as a separate Bid.
- k) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not accept such Bids and such bids are liable to be rejected.
- l) Upon submission of a completed Bid cum Application Form each Bidder may be deemed to have agreed to block the entire Bid Amount and authorized the Designated Branch of the SCSB to block the Bid Amount specified in the Bid cum Application Form in the ASBA Account maintained with the SCSBs
- m) The Bid Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Bid, as the case may be.
- n) SCSBs bidding in the Issue must apply through an Account maintained with any other SCSB; else their Bids are liable to be rejected.

4.1.8. Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful Bids transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Bid, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Bid, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected Bids, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful Bidder to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bids, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within six Working Days of the Bid/Issue Closing Date.
- (d) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bidders, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within 6 Working Days of the Bid/Issue Closing Date.

4.1.8.1. Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) Bidders applying under RII category, Retail Individual Shareholder and employees are only eligible for discount. For Discounts offered in the Issue, Bidders may refer to the RHP/Prospectus.
- (c) The Bidders entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Bid Amount less Discount (if applicable).

Bidder may note that in case the net payment (post Discount) is more than two lakh Rupees, the bidding system automatically considers such Bids for allocation under Non-Institutional Category. These Bids are neither eligible for Discount nor fall under RII category.

4.1.8.2. Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds through Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of Bids by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

4.1.9. SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Bidder is required to sign the Bid cum Application Form. Bidders should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Bidder, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Bids, signature has to be correctly affixed in the authorization/undertaking box in the Bid cum Application Form, or an authorisation has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid/ amount mentioned in the Bid cum Application Form.
- (d) Bidders must note that Bid cum Application Form without signature of Bidder and /or ASBA Account holder is liable to be rejected.

4.1.10. ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

- (a) Bidders should ensure that they receive the acknowledgment duly signed and stamped by Bid Collecting Intermediary or SCSB, as applicable, for submission of the Bid cum Application Form.
- (b) All communications in connection with Bid made in the Offer should be addressed as under:
 - i. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, the Bidders should contact the Registrar to the Issue.
 - ii. In case of ASBA Bids submitted to the Designated Branches of the SCSBs, the Bidders should contact the relevant Designated Branch of the SCSB.

4.2.1. NAME AND CONTACT DETAILS OF SOLE/FIRST BIDDER, PAN OF SOLE/FIRST BIDDER & DEPOSITORY ACCOUNT DETAILS OF THE BIDDER

Bidders should refer to instructions contained in paragraphs 4.1.1, 4.1.2 and 4.1.3.

4.2.2. BID OPTIONS REVISION 'FROM' AND 'TO'

- (a) Apart from mentioning the revised number of shares in the Revision Form, the Bidder must also mention the details of shares applied/bid for given in his or her Bid cum Application Form or earlier Revision Form. For example, if a Bidder has Bid for three options in the Bid cum Application Form and such Bidder is changing only one of the options in the Revision Form, the Bidder must still fill the details of the other two options that are not being revised, in the Revision Form. The members of the Syndicate, the Registered Brokers and the Designated Branches of the SCSBs may not accept incomplete or inaccurate Revision Form.
- (b) In case of revision, Bid options should be provided by Bidders in the same order as provided in the Bid cum Application Form.
- (c) In case of revision of Bids by RIIs, Employees and Retail Individual Shareholders, such Bidders should ensure that the Bid Amount, subsequent to revision, does not exceed Rs. 200,000. In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. The Cut-off Price option is given only to the RIIs, Employees and Retail Individual Shareholders indicating their agreement to Bid for and purchase the Equity Shares at the Issue Price as determined at the end of the Book Building Process.
- (d) In case the total amount (i.e., original Bid Amount plus additional payment) exceeds Rs. 200,000, the Bid will be considered for allocation under the Non-Institutional Category in terms of the RHP. If, however, the RII does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the RII and the RII is deemed to have approved such revised Bid at Cut-off Price.
- (e) In case of a downward revision in the Price Band, RIIs and Bids by Employees under the Reservation Portion, who have bid at the Cut-off Price could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked in case of Bidders.

4.2.3. PAYMENT DETAILS

- a) All Bidders are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- b) Bidder may Issue instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Bidder had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.
- c) In case the total amount (i.e., original Bid Amount less discount (if applicable) plus additional payment) exceeds Rs. 200,000, the Bid may be considered for allocation under the Non-Institutional Category in terms of the RHP. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted

downwards for the purpose of Allotment, such that additional amount is required blocked and the Bidder is deemed to have approved such revised Bid at the Cut-off Price.

- d) In case of a downward revision in the Price Band, RIIs, Employees and Retail Individual Shareholders, who have bid at the Cut-off Price, could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked.

4.2.4. SIGNATURES AND ACKNOWLEDGEMENTS

Bidders may refer to instructions contained at paragraphs 4.1.8 and 4.1.9 for this purpose.

4.3. SUBMISSION OF REVISION FORM/ BID CUM APPLICATION FORM /APPLICATION FORM

4.3.1. Bidders may submit completed Bid cum Application form / Revision Form in the following manner:-

Mode of Bid	Submission of Bid cum Application Form
All investors Bids	To the Bid cum Application Collecting Intermediaries as mentioned in the Red herring Prospectus/ Bid cum Application Form

Bidders should submit the Revision Form to the same Designated Intermediary through which such Bidders had placed the original Bid.

SECTION 5: INSTRUCTIONS FOR FILING APPLICATION FORM IN ISSUES MADE OTHER THAN THROUGH THE BOOK BUILDING PROCESS (FIXED PRICE ISSUE)

This being book built issue procedure for fixed price issue is not applicable.

SECTION 6- ISSUE PROCEDURE IN BOOK BUILT ISSUE

Book Building, in the context of the Issue, refers to the process of collection of Bids within the Price Band or above the Floor Price and determining the Issue Price based on the Bids received as detailed in Schedule XI of SEBI ICDR Regulations, 2009. The Issue Price is finalised after the Bid/Issue Closing Date. Valid Bids received at or above the Issue Price are considered for allocation in the Issue, subject to applicable regulations and other terms and conditions.

6.1 SUBMISSION OF BIDS

- During the Bid/Issue Period, Bidders may approach any of the Designated Intermediaries to register their Bids. Anchor Investors who are interested in subscribing for the Equity Shares should approach the Book Running Lead Manager, to register their Bid.
- In case of Bidders (excluding NIIs and QIBs) Bidding at Cut-off Price, the Bidders may instruct the SCSBs to block Bid Amount based on the Cap Price less Discount (if applicable).
- For Details of the timing on acceptance and upload of Bids in the Stock Exchanges Platform Bidders are requested to refer to the RHP.

6.2 ELECTRONIC REGISTRATION OF BIDS

- The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the issue.
- On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges.
- Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 1:00 pm on the day

following the Bid/Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

6.3 BUILD UP OF THE BOOK

- a. Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchanges' on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/Issue Period.
- b. Based on the aggregate demand and price for Bids registered on the Stock Exchanges Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchanges may be made available at the Bidding centres during the Bid/Issue Period.

6.4 WITHDRAWAL OF BIDS

- a) RIIs can withdraw their Bids until Bid/Issue Closing Date. In case a RII wishes to withdraw the Bid during the Bid/Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB in the ASBA Account.
- b) The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

6.5 REJECTION & RESPONSIBILITY FOR UPLOAD OF BIDS

- a) **The Designated Intermediaries are individually responsible for the acts, mistakes or errors or omission in relation to:**
 - 1) the Bids accepted by the Designated Intermediaries,
 - 2) the Bids uploaded by the Designated Intermediaries, and
 - 3) the Bid cum Application Forms accepted but not uploaded by the Designated Intermediaries.
- b) The BRLM and their affiliate Syndicate Members, as the case may be, may reject Bids if all the information required is not provided and the Bid cum Application Form is incomplete in any respect.
- c) The SCSBs shall have no right to reject Bids, except in case of unavailability of adequate funds in the ASBA account or on technical grounds.
- d) In case of QIB Bidders, only the (i) SCSBs (for Bids other than the Bids by Anchor Investors); and (ii) BRLM and their affiliate Syndicate Members (only in the Specified Locations) have the right to reject bids. However, such rejection shall be made at the time of receiving the Bid and only after assigning a reason for such rejection in writing.
- e) All bids by QIBs, NIIs & RIIs Bids can be rejected on technical grounds listed herein.

GROUND OF REJECTIONS

Bidders are advised to note that Bids are liable to be rejected inter alia on the following technical grounds:

For details of instructions in relation to the Bid cum Application Form, Bidders may refer to the relevant section the GID.

BIDDERS SHOULD NOTE THAT IN CASE THE PAN, THE DP ID AND CLIENT ID MENTIONED IN THE BID CUM APPLICATION FORM AND ENTERED INTO THE ELECTRONIC APPLICATION SYSTEM OF THE STOCK EXCHANGES BY THE BIDS COLLECTING INTERMEDIARIES DO NOT MATCH WITH PAN, THE DP ID AND CLIENT ID AVAILABLE IN THE DEPOSITORY DATABASE, THE BID CUM APPLICATION FORM IS LIABLE TO BE REJECTED.

BASIS OF ALLOCATION

- The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.
- Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs.20 to Rs 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price

at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

This being Book Built Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer (excluding any Offer for Sale of specified securities). However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the EMERGE Platform of National Stock Exchange of India Limited (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category x number of Shares applied for).
- (b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- (c) For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- (d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this RHP.
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Bidders as described below:

- i. As per regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
- ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual bidders other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to bidders in the other category, if so required.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are Foreign Investment Promotion Board (“**FIPB**”) and the Reserve Bank of India (“**RBI**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2016 (“**FDI Policy 2016**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. Further, DIPP has issued Press note 5, dated June 24, 2016 which introduces few changes in FDI Policy 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2016 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2016, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2016, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types

of foreign investments, direct and indirect, regardless of whether it has been made for FDI, FII, FPI, NRI, FVCI, LLPs, DRs and Investment Vehicles under Schedule 1, 2, 2A, 3, 6, 9, 10 and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49 % or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FIIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of share/s convertible debentures by a registered FII under PIS the total holding by each FII/SEBI approved sub-account of FII shall not exceed 10 % of the total paid-up equity capital or 10% of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all FIIs/sub-accounts of FIIs put together shall not exceed 24 % of paid-up equity capital or paid-up value of each series of convertible debentures. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body. For arriving at the ceiling on holdings of FIIs, shares/ convertible debentures acquired both through primary as well as secondary market will be included. However, the ceiling will not include investment made by FII through off-shore Funds, Global Depository receipts and Euro-Convertible Bonds. With regard to convertible debentures, these investments permitted to be made shall not exceed 5 % of the total paid-up equity capital or 5% of the paid-up value of each series of convertible debentures issued by an Indian Company, and shall also not exceed the over-all ceiling limit of 24 % of paid-up equity capital or paid up value of each series of convertible debentures.

ii. Investment by Registered Foreign Portfolio Investor (RFPI) under Foreign Portfolio Investment (FPI) Scheme

With respect to purchase/sale of shares or convertible debentures or warrants, a RFPI registered in accordance with SEBI (FPI) Regulations, 2014 as amended in regular intervals may purchase shares or convertible debentures or warrants of an Indian company under FPI scheme. The total holding by each RFPI shall be below 10 % of the total paid-up equity capital or 10 % of the paid-up value of each series of convertible debentures issued by an Indian company and the total holdings of all RFPI put together shall not exceed 24 % of paid-up equity capital or paid up value of each series of convertible debentures. The said limit of 24 % will be called aggregate limit. However, the aggregate limit of 24 % may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its General Body. For arriving at the ceiling on holdings of RFPI, shares or convertible debentures or warrants acquired both through primary as well as secondary market will be included. However, the ceiling will exclude investment made by RFPI through off-shore Funds, Global Depository Receipts and Euro-Convertible Bonds but include holding of RFPI and deemed RFPI in the investee company for computation of 24 % or enhanced limit.

iii. Investment by NRI on repatriation and non-repatriation basis under PIS:

With respect to purchase/sale of shares and/or convertible debentures by a NRI on a stock exchange in India on repatriation and/or non-repatriation basis under PIS is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2000. Further, with regard to limits:

- the paid-up value of shares of an Indian company, purchased by each NRI both on repatriation and on non-repatriation basis, does not exceed 5 % of the paid-up value of shares issued by the company concerned;
- the paid-up value of each series of convertible debentures purchased by each NRI both on repatriation and non-repatriation basis does not exceed 5 % of the paid-up value of each series of convertible debentures issued by the company concerned;
- the aggregate paid-up value of shares of any company purchased by all NRIs does not exceed 10 % of the paid up capital of the company and in the case of purchase of convertible debentures
- the aggregate paid-up value of each series of debentures purchased by all NRIs does not exceed 10 % of the paid-up value of each series of convertible debentures;

However, the aggregate ceiling of 10 % may be raised to 24 % if a special resolution to that effect is passed by the General Body of the Indian company concerned.

iv. Investment by NRI on Non-repatriation basis

As per current FDI Policy 2016, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase and sale of shares and convertible debentures or warrants by a NRI on Non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

37.	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.	Notice of Calls
38.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.	Calls to date from resolution.
39.	Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.	Calls on uniform basis.
40.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.	Directors may extend time.
41.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding 21% per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.	Calls to carry interest.
42.	If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by installments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.
