Accordingly, our performance is heavily dependent upon the services of our Promoters. 9. *Our funding requirements and proposed deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution and actual cost may vary compared with the estimated amount.*

Our funding requirements and the proposed deployment of the proceeds of the Issue are based on management estimates, quotations from suppliers and on our current business plan and have not been appraised by bank or financial institution. In view of the competitive and dynamic nature of our business, we may have to revise our expenditure and fund requirements as a result of variations including in the cost structure, changes in estimates and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the planned expenditure and fund requirement and increasing or decreasing the expenditure for a particular purpose from its planned expenditure at the discretion of our board. In addition, schedule of implementation as described herein are based on management's current expectations and are subject to change due to various factors some of which may not be in our control. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

10. *Delay in raising funds from the IPO could adversely impact the implementation schedule.*

The proposed objects, as detailed in the section titled "*Objects of the Issue*" are to be largely funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

11. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analysis of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

12. *Our insurance coverage may not adequately protect us against certain operational hazards and this may have a material adverse effect on our business.*

Our Company has, in the ordinary course of business, availed insurance cover for certain risks. While we believe that the insurance coverage we maintain would reasonably be adequate to cover all normal risks associated with the operation of our business, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, or the insurance policy covering such risk is not honoured, our results of operations may be adversely affected. 14. We have entered into certain related party transactions and may continue to do so.

We have entered into related party transactions with our Promoters, its promoter group members/ entities and Directors. While we believe that all such transactions have been conducted on the arms length basis, however it is difficult to ascertain whether more favorable terms would have been achieved had such transactions been entered with unrelated parties. Furthermore, it is likely that we may enter into related party transactions in the future. For details of these transactions, please refer to section titled "Related Party Transactions" at page 94 of this Draft Prospectus.

15. We have reported negative cash flows.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

Particulars	(Rs. In Lakhs)				
	As at 31 st March				
	2017	2016	2015	2014	2013
Net Cash Flow from/(used in) Operating Activities	67.20	26.94	80.86	(193.24)	(98.78)
Net Cash Flow from/(used in) Investing Activities	(76.87)	80.08	(3.94)	(101.73)	NIL
Net Cash Flow from/(used in) Financing Activities	267.04	(87.79)	(71.85)	293.78	106.00

If the negative cash flow trend persists in future, our Company may not be able to generate sufficient amounts of cash flow to finance our Company's working capital, make new capital expenditure, pay dividends, repay loans, make new investments or fund other liquidity needs which could have a material adverse effect on our business and results of operations.

16. Our operations are subject to high working capital requirements. Our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet our requirement of working capital or pay our debts, could adversely affect our operations

Our business requires significant amount of working capital. In many cases, significant amount of our working capital is required for purchasing and maintaining of stock of goods. Though, presently we meet our working capital requirements through internal accruals, we may need to incur additional indebtedness in the future to satisfy our working capital needs. All these factors may result in increase in the quantum of our current assets and short-term borrowings. Our inability to obtain and/or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, or at all, to meet our requirement of working capital or pay our debts, could adversely affect our financial condition and results of operations.

17. We have not made any alternate arrangements for meeting our working capital requirements mentioned in the "Objects of the Issue" further we have not identified any alternate source of financing the "Objects of the Issue". Any shortfall in raising/meeting the same could adversely affect our growth plans. Operations and financial performance.

As on date we have not made any alternate arrangements for meeting our working capital requirement mentioned in the Objects of the Issue We meet our working capital requirement through internal accruals. Any shortfall in our internal accruals and our inability to raise debt in future would result in non availability to meet the working capital

requirement, which in turn will affect our financial condition and result of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this IPO or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “*Objects of the Issue*” beginning on page 47 of this Draft Prospectus.

18. *The Promoter and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.*

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters could conflict with the interests of our other equity shareholders, and the Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

19. *The Promoters and Directors hold Equity Shares in our Company and are therefore interested in the Company's performance in addition to their remuneration and reimbursement of expenses.*

Certain of our Directors and our Promoters are interested in our Company, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding in our Company. We cannot assure you that our Promoters will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Promoters may take or block actions with respect to our business which may conflict with the best interests of the Company or that of minority shareholders. For details on the interest of our Promoters and Directors of our Company please refer chapter titled “*Our Management*” at page 76 of this Draft Prospectus.

20. *We do not have a track record for payment of dividend on Equity Shares.*

We have not declared any dividend on our Equity Shares since inception as we had been deliberately pursuing the policy of covering back our profits to fund our expansion plans. The future payment of dividends, if any, would be based on the then available distributable profits and the recommendations of our Board of Directors.

21. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted customers. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

22. *We have not independently verified certain data in this Draft Prospectus.*

We have not independently verified data from industry publications contained herein and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable. These facts and statistics are included in “*Summary of Industry*” and “*Industry Overview*” on pages 22 and 56 respectively of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

23. *The requirements of being a listed company may strain our resources.*

As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SME Listing Agreement with the BSE Limited, which require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required.

RISKS RELATING TO THE EQUITY SHARES

24. *Any future issue of Equity Shares may dilute the shareholding of investors and sales of Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.*

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

25. *Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.*

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

26. *The price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.*

Prior to the offer, there has been no public market for our Equity Shares, and an active trading market on the SME Platform of BSE. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the Education Sector, developments relating to India and volatility in the Exchange and securities markets elsewhere in the world. However, the LM will arrange for compulsory market making for a period of 3 years from the date of listing as per the regulations applicable to the SME Platforms under SEBI (ICDR) Regulations, 2009.

27. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.*

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

28. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.*

Prior to this Issue, there has been no public market for our Equity Shares. Guinness Securities Limited is acting as Designated Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our

performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the section titled “General Information – Details of the Market Making Arrangement for this Issue” on page 33 of this Draft Prospectus.

29. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder’s ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Following the Issue, we will be subject to a daily “circuit breaker” imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

EXTERNAL RISK FACTORS

30. *Political, economic and social changes in India could adversely affect our business.*

Our business, and the market price and liquidity of our Company’s shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

31. *Our business may be adversely affected by competition laws in India and any adverse application or interpretation of the Competition Act could adversely affect our business.*

The Competition Act, 2002, as amended (the “Competition Act”), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

32. *The nationalised goods and services tax (GST) regimes proposed by the Government of India may have material impact on our operations.*

The Government of India has proposed a comprehensive national goods and service tax (GST) regime that will combine taxes and levies by the central and state governments into a unified rate structure. Given the limited liability of information in the public domain covering the GST we are unable to provide/ measure the impact of this tax regime may have on our operations.

33. *Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.*

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

34. *Natural calamities and force majeure events may have an adverse impact on our business.*

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

35. *Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (“IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

36. *Restrictions on foreign investment limit our ability to raise debt or capital outside India.*

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

37. *Any downgrading of India's debt rating by a domestic or international rating agency could negatively impact our business.*

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

38. *Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

39. *Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.*

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. The Retail Industry in India

Introduction

The Indian retail industry has emerged as one of the most dynamic and fast-paced industries due to the entry of several new players. It accounts for over 10 per cent of the country’s Gross Domestic Product (GDP) and around 8 per cent of the employment. India is the world’s fifth-largest global destination in the retail space.

Market Size

India’s retail market is expected to nearly double to US\$ 1 trillion by 2020 from US\$ 600 billion in 2015, driven by income growth, urbanisation and attitudinal shifts. While the overall retail market is expected to grow at 12 per cent per annum, modern trade would expand twice as fast at 20 per cent per annum and traditional trade at 10 per cent.

India’s Business to Business (B2B) e-commerce market is expected to reach US\$ 700 billion by 2020. Online retail is expected to be at par with the physical stores in the next five years.

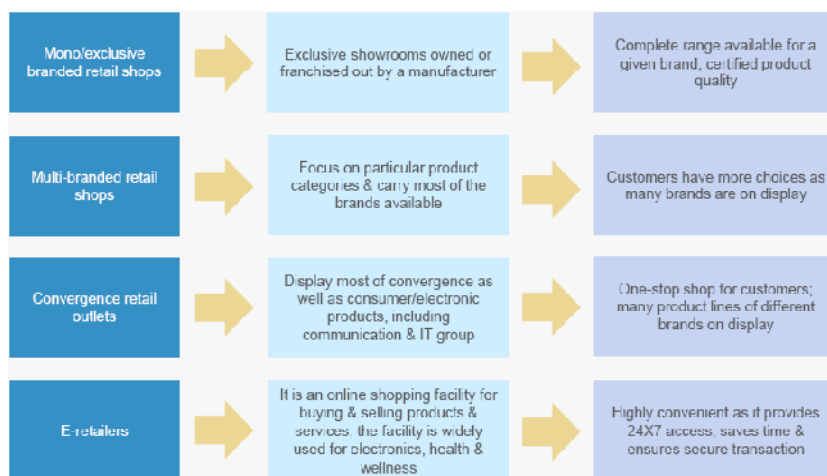

India is expected to become the world’s fastest growing e-commerce market, driven by robust investment in the sector and rapid increase in the number of internet users. Various agencies have high expectations about growth of Indian e-commerce markets. Indian e-commerce sales are expected to reach US\$ 120 billion! by 2020 from US\$ 30 billion in FY2016. Further, India’s e-commerce market is expected to reach US\$ 220 billion in terms of gross merchandise value (GMV) and 530 million shoppers by 2025, led by faster speeds on reliable telecom networks, faster adoption of online services and better variety as well as convenience.

India’s direct selling industry is expected to reach a size of Rs 23,654 crore (US\$ 3.54 billion) by FY2019-20, as per a joint report by India Direct Selling Association (IDSA).

Indian exports of locally made retail and lifestyle products grew at a compound annual growth rate (CAGR) of 10 per cent from 2013 to 2016.

The size of modern retail in India is expected to double to Rs 171,800 crore (US\$ 25.7 billion) from Rs 87,100 crore (US\$ 13 billion) in three years driven by omni-channel retail.

Retail Formats in India

Income Growth to Drive Demand For Organised Retail

- Multiple drivers are leading to strong growth in Indian retail through a consumption boom
- Significant growth in discretionary income & changing lifestyles are among the major growth drivers of Indian Retail
- Easy availability of credit & use of “plastic money” have contributed to a strong & growing consumer culture in India
- Acceptance and usage of e-retailers by consumers are increasing due to convenience & secured financial transactions.
- Expansion in the size of the upper middle class & advertisement has led to greater spending on luxury products & high brand consciousness.

Opportunities in Indian Retail Industry

Large number of retail outlets

India is the 5th largest preferred retail destination globally. The sector is experiencing exponential growth, with retail development taking place not just in major cities and metros, but also in Tier-II and Tier-III cities.

Rural markets offer significant growth potential

FMCG players are focusing on rural markets as it accounted for over 40 percent of FMCG consumer base in India in 2016. With increasing investment in infrastructure, retailers, would be able to increase their access to high-growth potential rural markets.

Private label opportunities

The organized Indian retail industry has begun experiencing an increased level of activity in the private label space. Private label strategy is likely to play a dominant role as its share in the US & the UK markets is 19 percent & 39 percent, respectively, while its share in India is just 6 percent. Growth of online retail is also augmenting the growth of private label brand in India.

Sourcing Base

India's price competitiveness attracts large retail players to use it as a sourcing base. Global retailers such as Walmart, GAP, Tesco & JC Penney are increasing their sourcing from India and are moving from 3rd party buying offices to establishing their own wholly- owned/ wholly managed sourcing & buying offices.

Luxury retailing

Luxury retailing is gaining importance in India. This includes fragrances, gourmet retailing, accessories & jewellery among many others. The Indian consumer is ready to splurge on luxury items and is increasingly doing so. The Indian luxury market stood at around USD 14.7 billion in 2015 & is estimated to reach 18.3 billion by the end of 2016. This will make India the 12th largest luxury retail market in the world by 2020.

Road Ahead

E-commerce is expanding steadily in the country. Customers have the ever increasing choice of products at the lowest rates. E-commerce is probably creating the biggest revolution in the retail industry, and this trend would continue in the years to come. Retailers should leverage the digital retail channels (e-commerce), which would enable them to spend less money on real estate while reaching out to more customers in tier-2 and tier-3 cities.

Both organised and unorganised retail companies have to work together to ensure better prospects for the overall retail industry, while generating new benefits for their customers. Nevertheless, the long-term outlook for the industry is positive, supported by rising incomes, favourable demographics, entry of foreign players, and increasing urbanisation.

- The Government of Andhra Pradesh signed pacts worth Rs 1,500 crore (US\$ 222.36 million) in a wide range of sectors including retail and steel and gas with Walmart India, Future Group, Arvind Lifestyle Brands Ltd and Spencer’s Retail, during the Partnership Summit in Visakhapatnam, while also unveiling a retail policy aimed to attract retail businesses to invest in the state.

As a result, foreign investments are expected to increase, especially in the attractive retail sector.

Benefits of FDI Indian Retail

Opportunities in Indian Retail Industry

Large number of retail outlets

India is the 5th largest preferred retail destination globally. The sector is experiencing exponential growth, with retail development taking place not just in major cities and metros, but also in Tier-II and Tier-III cities.

Rural markets offer significant growth potential

FMCG players are focusing on rural markets as it accounted for over 40 percent of FMCG consumer base in India in 2016. With increasing investment in infrastructure, retailers, would be able to increase their access to high-growth potential rural markets.

Private label opportunities

The organized Indian retail industry has begun experiencing an increased level of activity in the private label space. Private label strategy is likely to play a dominant role as its share in the US & the UK markets is 19 percent & 39 percent, respectively, while its share in India is just 6 percent. Growth of online retail is also augmenting the growth of private label brand in India.

Sourcing Base

India's price competitiveness attracts large retail players to use it as a sourcing base. Global retailers such as Walmart, GAP, Tesco & JC Penney are increasing their sourcing from India and are moving from 3rd party buying offices to establishing their own wholly- owned/ wholly managed sourcing & buying offices.

Luxury retailing

Luxury retailing is gaining importance in India. This includes fragrances, gourmet retailing, accessories & jewellery among many others. The Indian consumer is ready to splurge on luxury items and is increasingly doing so. The Indian luxury market stood at around USD 14.7 billion in 2015 & is estimated to reach 18.3 billion by the end of 2016. This will make India the 12th largest luxury retail market in the world by 2020.

Road Ahead

E-commerce is expanding steadily in the country. Customers have the ever increasing choice of products at the lowest rates. E-commerce is probably creating the biggest revolution in the retail industry, and this trend would continue in the years to come. Retailers should leverage the digital retail channels (e-commerce), which would enable them to spend less money on real estate while reaching out to more customers in tier-2 and tier-3 cities.

Both organised and unorganised retail companies have to work together to ensure better prospects for the overall retail industry, while generating new benefits for their customers. Nevertheless, the long-term outlook for the industry is positive, supported by rising incomes, favourable demographics, entry of foreign players, and increasing urbanisation.

Intellectual property***The Trade Marks Act, 1999***

The Trade Marks Act, 1999 governs the statutory protection of trademarks in India. Indian trademarks law permits registration of trademarks for goods and services. Certification trademarks and collective marks are also registrable under the Trade Marks Act. An application for trademark registration may be made by any person claiming to be the proprietor of a trademark and can be made on the basis of either current use or intention to use a trademark in the

future. The registrations of certain types of trademarks are absolutely prohibited, including trademarks that are not distinctive and which indicate the kind or quality of the goods. Applications for a trademark registration may be made for in one or more classes. Once granted, trademark registration is valid for ten years, unless cancelled. The registration can be renewed for further period of ten years. If not renewed after ten years, the mark lapses and the registration for such mark have to be obtained afresh. While both registered and unregistered trademarks are protected under Indian law, the registration of trademarks offers significant advantages to the registered owner, particularly with respect to proving infringement. Registered trademarks may be protected by means of an action for infringement, whereas unregistered trademarks may only be protected by means of the common law remedy of passing off. In case of the latter, the plaintiff must, prior to proving passing off, first prove that he is the owner of the trademark concerned. In contrast, the owner of a registered trademark is prima facie regarded as the owner of the mark by virtue of the registration obtained.

While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favoring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for 60 years.

The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner.

RBI on March 13, 2014 amended the FEMA Regulations and laid down conditions and requirements with respect to investment by FPIs in Indian companies.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), issued the Consolidated FDI Policy by way of circular no. D/o IPP F. No. 5(1)/2016-FC-1 dated June 7, 2016 (“**FDI Policy**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 6, 2016. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act, or any state securities laws in the United States, and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws in the United States.

Accordingly, the Equity Shares are being offered and sold outside the United States in offshore transactions in compliance with Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares Applied for do not exceed the applicable limits under laws or regulations.
