The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose of the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, as well as the other risks and uncertainties discussed in this Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment. In addition, the risks set out in this Prospectus are not exhaustive. Additional risks and uncertainties, whether known or unknown, may in the future have material adverse effect on our business, financial condition and results of operations, or which we currently deem immaterial, may arise or become material in the future. To obtain a complete understanding of our Company, prospective investors should read this section in conjunction with the sections entitled “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page nos. 78 and 158 respectively of this Prospectus, as well as other financial and statistical information contained in this Prospectus. Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other risks mentioned herein.

Materiality

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively;
3. Some events may not be material individually but may be found material collectively;
4. Some events may not be material at present but may be having material impact in future.

Internal Risk Factors

1. ***We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.***

As on March 31, 2017, we have ₹ 5,280.41 lakhs (excluding non-fund based) of outstanding debt on our balance sheet. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability, since almost all of our debt bears interest at floating rates.

If any of these risks were to materialise, our business and results of operations may be adversely affected.

2. ***Inventories and trade receivables form a substantial part of our current assets and net worth. Failure to manage our inventory and trade receivables could have an adverse effect on our net sales, profitability, cash flow and liquidity.***

Also, we have high working capital requirements. Our inability to meet our working capital requirements may have a material adverse effect on our business, financial condition and results of operations.

Also, we are engaged in the business of manufacturing of niche quality Galvanized Steel Wires which find applications in Power Transmission, Cable & Conductor, General Engineering, Construction, etc. Our Company's business is working capital intensive and hence, inventories and trade receivables form a substantial part of our current assets and net worth. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables.

To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase raw materials accordingly. However, if our management misjudges expected customer demand, it could cause either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, all of which could have an adverse impact on our income and cash flows.

To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and distributors and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if our management fails to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations. A liquidity crunch may also result in increased working capital borrowings and, consequently, higher finance cost which will adversely impact our profitability.

Also, our business requires a significant amount of working capital for smooth functioning. We meet our requirement for working capital majorly through banking facilities. In future, our inability, if any to meet our working capital requirements or inability to renew our existing working capital requirements through banking arrangements can adversely impact our business operations and financial position.

In FY 2016-17, our installed capacity in our Unit I was 18,000 MTS p.a. We have recently completed an expansion project at our Unit I as well as we have set up a 'nails' manufacturing unit ("Unit II") and hence our current aggregate installed capacity is 30,000 MTS p.a. (24,000 MTS p.a. for Unit I and 6,000 MTS p.a. for Unit II). Further, our expansion project has been completed keeping in mind our future need for expansion and hence we plan to phase wise increase the capacity of Unit I to 36,000 MTS p.a. and of Unit II to 15,000 MTS p.a. by the end of 2019-20.

Hence, in order to effectively operate the aforementioned additional facilities along with the existing facilities we need to have access to a larger amount of liquid funds and sufficient working capital.

3. *We are involved in high volume-low margin business. Any disruption in our turnover or failure to regularly grow the same may have a material adverse effect on our business, results of operations and financial condition.*

Our inability to regularly grow our turnover and effectively execute our key business processes could lead to lower profitability and hence adversely affect our operating results, debt service capabilities and financial conditions. Due to the nature of the products we sell, we may not be able to charge higher margins on our products. Hence, our business model is heavily reliant on our ability to effectively grow our turnover and manage our key processes including but not limited to raw material procurement, timely sales / order execution and continuous cost control of non-core activities. The table below gives details of our operating margins and net profit margin based on restated financials.

(₹ in lakhs)

Particulars	For the Fiscal		
	2017	2016	2015
Total Income	6,715.64	8,105.60	6,112.07
PBT as a % of Total Income	1.44%	1.19%	0.46%
PAT as a % of Total Income	0.97%	0.80%	0.37%

Our growth strategy is subject to and involves risks and difficulties, many of which are beyond our control and, accordingly, there can be no assurance that we will be able to implement our strategy or growth plans, or complete

them within the timelines. Further, we operate in a dynamic industry, and on account of changes in market conditions, industry dynamics, technological improvements or changes and any other relevant factors, our growth strategy and plans may undergo changes or modifications, and such changes or modifications may be substantial, and may even include limiting or foregoing growth opportunities if the situation so demands. For further details regarding the discussions and explanations for our past results, please see “*Management’s Discussions and Analysis of Financial Condition and Results of Operations*” beginning on page no. 158 of this Prospectus.

4. *Our Company has certain contingent liabilities, which have not been provided for. Crystallization of any of these contingent liabilities may adversely affect our financial condition.*

The contingent liabilities of our Company not provided for, as certified by our Statutory Auditors are as under:

(₹ in lakhs)

Particulars	As at March 31,		
	2017	2016	2015
Bank Guarantee	1,505.28	1,097.00	350.20
Total	1,505.28	1,097.00	350.20

In the event the above contingent liability gets crystallized, our financial condition may be adversely affected. For further information, please see “*Annexure XXIV - Contingent Liability*” beginning on page no. 134 under Chapter titled “*Financial Statements*” beginning on page no. 134 of this Prospectus.

5. *As majority of our business comes from government/semi government organisations, we are unable to enter into formal long term arrangements with our primary customer group. Part of our business comes from tenders and failure to procure such tenders on a continuous basis could adversely impact our revenues and profitability.*

While in a few instances, we operate on a rate contract basis, we do not have long term arrangements with all of our customers for sale of our products in the future, at fixed prices. Our Company also bids in the prospective tenders where bidders are scrutinized for technical and financial qualifications. The bids of qualified parties are then negotiated on the price offered for the respective works and the work is allotted to the party with lowest bid. We have been receiving regular business from Southern Power Distribution Company of Telangana Limited, The Southern Power Distribution Company of Andhra Pradesh Limited, Northern Power Distribution Company of Telangana Limited, UP Power Transmission Corporation Limited etc. But due to the nature of our customers being government, there is no assurance that we will be able to obtain continuous business or that we will be able to replace our customer base in a timely manner or at all. The loss of, or interruption of work by, a significant customer or a number of significant customers or our inability to procure tender contracts on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations, including an interruption or partial or total work stoppage at our manufacturing facilities.

6. *We derive a significant portion of our revenues from our top 10 (ten) customers. The loss of, or a significant reduction in the revenues we receive from, one or more of these customers, may adversely affect our business.*

We derive a significant portion of our revenues from our Company’s top 10 (ten) customers. In the Financial Year 2015-16 and 2016-17, our top 10 (ten) customers accounted for 47.62%, and 36.75% respectively, of our total revenue generated. While our top 10 (ten) customers are not necessarily the same every year, the top (10) ten customers contribute a significant portion of our revenues. In the financial year 2017, our largest customer accounted for 7.33% of our total revenue. The loss of business derived from these customers or a significant reduction in, the revenues we receive from, one or more of these customers may adversely affect our business.

7. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet

our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please see “*Objects of the Issue*” beginning on page no. 58 of this Prospectus.

- 8. *The capacity of the current plants is not fully utilized, consecutively, if there is also any under-utilization of our proposed expanded capacities, this in turn could affect our ability to fully absorb fixed costs and thus may adversely impact our financial performance.***

For Wire Division, we have increased our installed capacity from 15,000 MTS in FY 2014-15 to 18,000 MTS in FY 2016-17, however our utilized capacity has increased from 9,661 MTS to 12,712 MTS respectively. We currently utilized only 70.62% of our installed capacity. The installed capacities have not been fully utilized over the last three financial years. For details regarding the existing installed and utilised capacity, please see “*Our Business*” beginning on page no. 78 of this Prospectus.

Further by FY 2019-20, we propose to increase our installed capacities for Wire Division as well as for our Nail Division, in phase wise manner, based on our estimates of market demand and profitability. In the event of non-materialization of our estimates and expected order flow for our products and/or failure of optimum utilization of our capacities, due to factors including adverse economic scenario, change in demand or for any other reason, our capacities may not be fully utilized thereby impairing our ability to fully absorb our fixed cost and may adversely impact our financial performance.

- 9. *Our Company has reported certain negative operating cash flows in the past, details of which are given below. Sustained negative operating cash flow could impact our growth and business in the future.***

Our Company had reported certain negative operating cash flows in the past as per the restated financial statements and the same are summarised as under:

(₹ in lakhs)

Particulars	For the year ended March 31,				
	2017	2016	2015	2014	2013
Cash flow from Operating Activities	(1,193.15)	86.25	533.71	138.90	(557.71)

Operating Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient operating cash flows, it may adversely affect our business and financial operations.

- 10. *Our Company has entered into certain related party transactions in the past.***

Our Company has entered into related party transactions with our Promoters, Directors and the Promoter Group aggregating ₹ 483.08 lakhs for the last financial year ended March 31, 2017. While our Company believes that all such transactions have been conducted on the arms length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please see “*Annexure XXII - Related Party Transactions*” under section titled “*Financial Statements*” beginning on page no. 134 of this Prospectus.

- 11. *Some of our corporate records including certain secretarial records for transfer of Equity Shares are not traceable.***

Our Company does not have access to some filings pertaining to historical, legal and secretarial information in relation to certain disclosures in this Prospectus. These include mainly changes in Authorised Capital, Paid-up Capital, Transfer details & other important records from the year 1989 i.e. since incorporation till the year 2005. The information in relation to the transfers of shares taken place from the year 1989 till 2005 have not been disclosed in the chapter titled

“Capital Structure” beginning on page no. 47 of this Prospectus as we may not be able to furnish any documents evidencing such transfers. We cannot further assure you that we will not be penalized by the relevant supervisory and regulatory authorities in India for not maintaining the records.

12. Our funding requirements and deployment of the issue proceeds are based on management estimates and have not been independently appraised by any bank or financial institution.

The fund requirements, the deployment of funds and the intended use of the Net Proceeds as described herein are based on our current business plan, management estimates and have not been appraised by any bank, financial institution or any other external agency. Given the dynamic nature of our business, we may have to revise our business plan from time to time and consequently our funding requirements and deployment on account of variety of factors such as our financial condition, business and strategy, including external factors such as market conditions, competitive environment, costs of commodities and interest/ exchange rate fluctuations which may not be within the control of our management. The deployment of the funds towards the objects of the Issue is entirely at the discretion of the Board and our Board will monitor the utilisation of Net Proceeds through its Audit Committee. Our Company will disclose the utilisation of the Net Proceeds under a separate head along with details in its balance sheet until the Net Proceeds remain unutilised, clearly specifying the purpose for which the Net Proceeds have been utilised. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our operational and financial performance.

13. Our Company’s management will have flexibility in utilizing the Net Proceeds from the Issue. The deployment of the Net Proceeds from the Issue is not subject to any monitoring by any independent agency.

Our Company intends to primarily use the Net Proceeds towards purchase of machinery and for general corporate purposes, as described in chapter titled “Objects of the Issue” beginning on page no. 58 of this Prospectus. In terms of Regulation 16 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of ₹ 100 crores. The management of our Company will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company’s management regarding the application of the Net Proceeds from the Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section titled “Risk Factors”, may limit or delay our Company’s efforts to use the Net Proceeds from the Issue to achieve profitable growth in its business.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoters or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.

Accordingly, prospective investors in the Issue will need to rely upon our management’s judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

14. Our Promoters play a key role in our functioning and we heavily rely on his knowledge and experience in operating our business and therefore, it is critical for our business that our Promoters remain associated with us. Our success also depends upon the services of our key managerial personnel and our ability to attract and retain key managerial personnel and our inability to attract them may affect our operations.

We benefit from our relationship with our Promoters and our success depends upon the continuing service of our Promoters who have been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. Our Promoters have been actively involved in the day to day operations and management since 2012. Accordingly, our performance is heavily dependent upon the service of our Promoters. If our Promoters are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. Further, we rely on the continued services and performance of our key executives and senior management for continued success and smooth functioning of the operations of the Company. If we lose the services of any of our Key Managerial Personnel, we may be unable to locate suitable or qualified replacements, and may incur additional

expenses to recruit and train new personnel, which could adversely affect our business operations and affect our ability to continue to manage and expand our business. Moreover, we do not maintain key person insurance to insure against the loss of Key Managerial Personnel.

Our Promoters, along with the Key Managerial Personnel, have over the years built relations with suppliers, formulators, customers and other persons who are connected with us. The loss of their services could impair our ability to implement our strategy, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

15. *The interests of our Promoters or certain directors may conflict with our interests or with the best interests of our other shareholders. Any inappropriate resolution of such conflicts may adversely affect our business, results of operations and/ or the interests of our other shareholders.*

We are heavily dependent on our executive directors and their expertise for our strategic as well as day to day operations. The Chairman and Managing Director of our Company, Mr. Ghanshyam Dass is involved in the management of our Corporate Promoter,– Kandoi Industries India Private Limited. Mr. Ghanshyam Dass is a common director between our Company and our Corporate Promoter, Kandoi Industries India Private Limited. In case of a conflict between us and or any other entity in which our Directors or our Promoter Group members are interested, our Promoters/Directors may favor such other companies over us. Further, there may be situations in which they are unable to allocate sufficient time to our Company or effectively participate in the management of our Company, which could have a material adverse effect on our business. If any such actual or perceived conflicts of interests are not resolved suitably, our business, results of operations and/or the interest of our other shareholders may be adversely affected. For further details, please see “*Our Management*” and “*Our Promoters and Promoter Group*” and “*Annexure XXII- Related Party Transactions*” under the chapter titled “*Financial Statements*” beginning on page nos. 112, 125 and 134, respectively of this Prospectus.

16. *There are various negative covenants in the agreements entered into by us and our lender, which could put us at a competitive disadvantage and could have an adverse effect on our business, results of operations and financial condition.*

Our financing agreements include various restrictive covenants in relation to certain actions to be undertaken by our Company and for which prior written approval of the bank is required. The major restrictive covenants (which require prior approval) are mentioned below: (some of these may be common across all banks, while some may be specific to a particular bank)

- Our Company will furnish on or before 15th day of the month, details of stock and book debts in the prescribed format. The book debt statement needs to be certified by the borrower’s auditor at quarterly rests.
- In case of preclosure of credit facilities, our Company will pay 2% of outstanding balance in respect of loans and 2% of sanctioned limits in respect of ODCC/BP limits. (as prescribed by bank from time to time)
- Our Company shall not borrow from any other source and change the place and/or nature of business without the knowledge of the bank, during the currency of the advance.
- The bank shall have a right of lien over any of our properties, moneys or other assets, which are in custody or control of the bank during the pendency of any debit balance in our account(s).
- Our Company will not without the bank’s knowledge and prior consent in writing create any further charge, lien or encumbrance over the assets and properties of the firm to be charged to the bank in favour of any other bank, financial institutions, company, firm or person.
- If any change in the constitution is contemplated, prior approval of the bank for such a change should be obtained in writing. If no, such approval has been obtained in advance, the bank shall have the right to suspend further operations on the account consequent upon such reconstitution/change.

- Our Company should not be dissolved / reconstituted without obtaining bank's prior approval in writing. Post-facto approval of reconstitution/dissolution will not be accorded nor the existing guarantors shall be released if the dissolution/reconstitution is effected without prior approval in writing.

We must obtain the approval of the lender under our financing agreements before undertaking these significant corporate actions. We cannot assure you that the lender will grant the required approvals in a timely manner, or at all. The time required to secure such consents may hinder us from taking advantage of a dynamic market environment. In addition to the restrictions listed above, we are required to maintain certain financial ratios under our financing agreements. These financial ratios and the restrictive provisions could limit our flexibility to engage in certain business transactions or activities.

Additionally, our financing agreements are secured by our movable, immovable or intangible assets (whether existing or future), goods and work-in-progress (whether existing or future) and by a personal guarantees of our Promoters. Such financing agreements enable the lenders to cancel any outstanding commitments, accelerate the repayment, exercise cross default provisions and enforce their security interests on the occurrence of events of default such as a breach of financial covenants, failure to obtain the proper consents, failure to perfect security as specified and such other covenants that are not cured. It is possible that we may not have sufficient funds upon such an acceleration of our financial obligations to pay the principal amount and interest in full. Further, if we are forced to issue additional equity to the lenders, your ownership interest in our Company will be diluted. It is also possible that future financing agreements may contain similar or more onerous covenants and may also result in higher interest cost.

If any of these events were to occur, our business, results of operations and financial condition may be adversely affected.

17. Our Individual Promoters are actively involved in our Corporate Promoter. Further, there may be potential conflict of interests between our Company and our Corporate Promoter which is also promoted by our Individual Promoters.

Our Company is part of a business group named Kandoi Group and our Individual Promoters are also actively involved in our Corporate Promoter i.e. Kandoi Industries India Private Limited. Our Promoters devote substantial time and resources to develop and grow the business of our Corporate Promoter, which could result in lack of leadership in our Company and lead to negligence of business operations, quality and safety standards, customer and supplier relations and certain regulatory affairs. We cannot guarantee that our Individual Promoters will divide their time and energy between our Corporate Promoter and us. Though our Key Managerial Personnel are well experienced to carry out the business activities, lack of involvement of our Individual Promoters could have an adverse effect on our goodwill and financial performance.

Further, the Main Object Clause of our Corporate Promoter permits them to undertake similar business to that of our business, which may create a potential conflict of interest and which in turn, may have an implication on our operations and profits. Though our Corporate Promoter has its independent business, we cannot be assured that we shall be able to adopt necessary measures for mitigating these conflicts and hence the same if not managed well, could adversely affect our results of operations and financial condition.

Also, our Company does not have any non-compete or such other agreement / arrangement with our Corporate Promoter. For further details, please see 'Our Business', 'Our Promoter and Promoter Group' and "Annexure XXII - Related Party Transactions" under chapter titled 'Financial Statements' beginning on pages 78, 125 and 134 respectively of this Prospectus.

18. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licences or comply with such rules and regulations, and the failure to obtain or retain them in a timely manner or at all may adversely affect our business operations.

We require several statutory and regulatory permits, licenses and approvals to operate our business, some of which our Company has either received, applied for or is in the process of application. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Our Company requires the following statutory and regulatory registrations, licenses, permits and approvals for our business but the same have not been obtained by us, as on date of this Prospectus: (i) NOC/Approval from Fire Department under the provisions of the Andhra Pradesh Fire & Emergency Operations and Levy of Rules, 2006; (ii) Occupancy Certificate from Fire Service Department under the provisions of the Andhra Pradesh Fire & Emergency Operations and Levy of Rules, 2006; and (iii) Certificate of Establishment under the provisions of the Andhra Pradesh (Shops and Establishments) Act, 1988 for our Registered Office located at 11-70/5, G P Complex, Balanagar, Hyderabad -500018, Telangana. We believe that because our factory and set up was built prior to the commencement of relevant rules and acts; the fire department shall not have technical objection to any of our layouts etc. and we have till date not received any notice for irregularity if any for this matter. However; if we receive any such communication from the said department; we may be penalized for non-compliance with the aforementioned laws for which we have not obtained the requisite Licenses.

Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of the relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on our business. If we fail to comply with all the regulations applicable to us or if the regulations governing our business or their manner of implementation change, we may incur increased costs, or be subject to penalties or may suffer a disruption in our business activities, any of which, could adversely affect our business or results of operations. For further details, please see "*Key Industry Regulations and Policies*" and "*Government and Other Statutory Approvals*" beginning on page nos. 95 and 176 respectively of this Prospectus.

19. *Non-compliance with and changes in, safety, health and environmental laws and other applicable regulations, may adversely affect our Company's results of operations and its financial condition.*

We are subject to Indian laws and government regulations, including laws in relation to safety, health and environmental protection. These safety, health and environmental protection laws and regulations *inter alia* impose controls on air and water discharge, noise levels, storage handling, employee exposure to hazardous substances and other aspects of our Company's operations and products. In addition, our products, including the process of manufacture, storage and distribution of such products, are subject to numerous laws and regulations in relation to quality, safety and health. For further details, see the section titled "*Key Industry Regulation and Policies*" at page no. 86 of this Prospectus. Failure to comply with any existing or future regulations applicable to us may result in levy of fines, commencement of judicial proceedings and/or third party claims, and may adversely affect our results of operations and financial condition.

Further, there can be no assurance that our Company will not be involved in future litigation or other proceedings or be held responsible in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which could be material. Any accidents involving hazardous substances can cause personal injury and loss of life, substantial damage to or destruction of property and equipment and could result in a suspension of operations. The loss or shutdown of operations over an extended period at any of our Company's facilities would have a material adverse effect on our Company's business and operations.

20. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our manufactured products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions, may result in the postponement of the delivery of products or cause its cancellation. Accordingly, it is difficult to predict with certainty

if, when, and to what extent we may be able to deliver the orders placed. Failure to deliver products on time could lead to customers delaying or refusing to pay the amount, in part or full, which may adversely affect our business.

In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, delay or default in payment with regard to the orders placed with us, or any material disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income. Any delay, modification, cancellation of order by our large customers may have material adverse effect on our financial condition and results of operations.

21. *Our Company has availed ₹ 658.28 lakhs as unsecured loans which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition.*

Our Company as per the restated audited financial statement as on March 31, 2017 has availed total sum of ₹ 658.28 lakhs as unsecured loans which may be recalled at any time. Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section “*Details of total secured and unsecured borrowings*” under the chapter titled “*Financial Statements*” beginning on page no. 134 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

22. *Our operations could be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees.*

Our business activities are dependent on availability of skilled and unskilled labour. Non-availability of labour at any time or any disputes with them may affect our production schedule and timely delivery of our products to customers which may adversely affect our business and result of operations. We are unable to assure you that we will not experience disruptions to our operations due to disputes or other problems with our work force, which may lead to strikes, work stoppages, lock-outs or increased wage demands. Such issues could have adverse effect on our business, and results of operations.

23. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including termination of our contracts, regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents, if any, may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

24. *Intellectual property rights are important to our business. Since our business is based on evolving innovative and unique methods and using the same for developing products and solutions, it is very important for us to ensure confidentiality of our intellectual property rights. We may be unable to protect them from being infringed by others, including our current and / or future competitors/employees.*

As on the date of this Prospectus, we have not obtained registration for our corporate logo “” and hence we do not enjoy the statutory protection accorded to a registered trademark. If we are unable to obtain a registration, we may still continue to use the corporate logo but remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our corporate logo which may adversely affect our reputation and business and could require us to incur additional costs for replacing the logo associated with our Company and business. Although, we believe that that our present systems are adequate to protect our confidential information and intellectual property, there can be no assurance that our intellectual property data, trade secrets or proprietary technology will not be copied, infringed or obtained by third parties. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may lead to litigations and any such litigations could be time consuming and costly and their

outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations.

25. *We do not own one of our properties which are used by us currently.*

Our factory is situated on land and building which are fully owned by our Company. However, our Registered Office premise used by our Company situated at 11-70/5, G P Complex, Balanagar, Hyderabad -500018, Telangana , is taken on leasehold basis. Upon the termination of the lease agreement, we are required to return the said premise to the lessor .

Further, the term of the lease agreement may or may not be renewed. In the event the lessor terminate or does not renew the lease on commercially acceptable terms, or at all, we shall be required to vacate the premises. We may be required to identify alternate premises and enter into fresh lease agreement. Such a situation could result in loss of business and may adversely affect our operations and profitability. For further details, please see paragraph titled “*Properties*” under the chapter titled “*Our Business*” beginning on page no. 78 of this Prospectus.

26. *In addition to normal remuneration, other benefits and reimbursement of expenses some of our Directors (including our Promoters) and Key Managerial Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoters) and Key Managerial Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Managerial Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects. For further details, please see “*Our Management*” , “*Our Promoters and Promoter Group*” and “*Annexure XXII- Related Party Transactions*” under the chapter titled “*Financial Statements*” beginning on page nos. 112, 125 and 134, respectively of this Prospectus.

27. *Our success largely depends on our ability to attract and retain our Key Managerial Personnel. Any loss of our Key Managerial Personnel could adversely affect our business, operations and financial condition.*

Our Company is depending significantly on the expertise, experience and continued efforts of our Key Managerial Personnel. If one or more members of our Key Managerial Personnel are unable or unwilling to continue in his/her present position, it may be difficult to find a replacement, and business might thereby be adversely affected. Our industry requires personnel with specific technical knowledge and experience for our trading and more particularly our subsidiary’s manufacturing business.

Competition for Key Managerial Personnel in our industry is intense and it is possible that our Company may not be able to retain our existing Key Managerial Personnel or may fail to attract/ retain new employees at equivalent positions in the future. As such, loss of our Key Managerial Personnel could adversely affect our business, results of operations and financial condition. For further details on the Key Managerial Personnel of our Company, please see “*Our Management*” beginning on page no. 112 of this Prospectus.

28. *Our inability to manage growth could disrupt our business and reduce profitability.*

A principal component of our strategy is to continuously grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality

human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations.

- 29. *We are required to incur substantial expenditure for our business operations and if we are not able to manage our financial requirements in the future, we may be required to obtain additional financing which may not be on terms commercially acceptable to us.***

We are required to incur substantial expenditure for conducting our business operations primarily in relation to making payments to our suppliers for the bulk quantities of raw materials and other supplies purchased by us for our business. Also, substantial expenditure is incurred for obtaining registrations for manufacturing, trading, storing, transportation, etc. The actual amount and timing of our future capital requirements may differ from estimated requirements as a result of, amongst other things, unforeseen delays in estimating demands and fashion trends, seeking or grant of registrations, or cost overruns while seeking registrations, changes in business plans due to prevailing economic conditions, unanticipated expenses and regulatory changes. If we are not able to manage our financial requirements from our internal accruals in the future, we may be required to seek additional debt or equity financing. Additional debt financing could increase our interest costs and require us to comply with restrictive covenants in our financing agreements. Additional equity financing could dilute our earnings per Equity Share and your interest in the Company, and could adversely impact the price of our Equity Share.

Our ability to obtain additional financing on favourable terms, if at all, will depend on a number of factors. We cannot assure you that we will be able to raise additional financing on acceptable terms in a timely manner or at all which could adversely impact our planned capital expenditure and our business.

- 30. *If we suffer a large uninsured loss or if we suffer an insured loss that significantly exceeds our insurance coverage, our financial condition and results of operations may be adversely affected.***

Our business, assets and stocks could suffer damage from fire, natural calamities, misappropriation or other causes, resulting in losses, which may not be fully compensated by insurance. While we believe that we maintain insurance coverage in amounts consistent with industry norms, our insurance policies do not cover all risks and are subject to exclusions and deductibles. There can be no assurance that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim.

Further, we are required to renew these insurance policies from time to time and in the event, we fail to renew the insurance policies within the time period prescribed in the respective insurance policies or not obtain at all, we may face significant uninsured losses. If we suffer a large uninsured loss or if any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be adversely affected. For further details, please see paragraph titled “*Insurance*” under the chapter titled “*Our Business*” beginning on page no. 78 of this Prospectus.

RISK FACTORS RELATED TO EQUITY SHARES

- 31. *Any further issuance of Equity Shares by Our Company or sales of Equity Shares by any significant shareholders may adversely affect the trading price of the Equity Shares.***

Any future issuance of Equity Shares by our Company could dilute the investors’ shareholding. Any such future issuance of Equity Shares or sales of Equity Shares by any of our significant shareholders may also adversely affect the trading price of the Equity Shares, and could impact our ability to raise capital through an offering of securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares.

32. *There is no existing market for our Equity Shares, and we do not know if one will develop. Our stock price may be highly volatile after the Issue and, as a result, you could lose a significant portion or all of your investment.*

There is no guarantee that our Equity Shares will be listed on the Stock Exchange in a timely manner or at all and any trading closures at the Stock Exchange may adversely affect the trading price of our Equity Shares. Prior to the Issue, there has not been a public market for the Equity Shares. Further, we cannot predict the extent to which investor interest will lead to the development of an active trading market on the Stock Exchanges or how liquid that market will become. If an active market does not develop, you may experience difficulty selling the Equity Shares that you purchased. The Issue Price is not indicative of prices that will prevail in the open market following the Issue. Consequently, you may not be able to sell your Equity Shares at prices equal to or greater than the Issue Price. The market price of the Equity Shares on the Stock Exchange may fluctuate after listing as a result of several factors, including the following:

- Volatility in the Indian and other Global Securities Markets;
- The performance of the Indian and Global Economy;
- Risks relating to our business and industry, including those discussed in this Prospectus;
- Strategic actions by us or our competitors;
- Investor perception of the investment opportunity associated with the Equity Shares and our future performance;
- Adverse media reports about us, or our shareholders;
- Future sales of the Equity Shares;
- Variations in our quarterly results of operations;
- Differences between our actual financial and operating results and those expected by investors and analysts;
- Our future expansion plans;
- Perceptions about our future performance or the performance of Indian galvanized steel wire manufacturing companies generally;
- Performance of our competitors in the Indian galvanized steel wire manufacturing industry and the perception in the market about investments in the Steel sector;
- Significant developments in the regulation of the galvanized steel wire manufacturing industry in our key locations;
- Changes in the estimates of our performance or recommendations by financial analysts;
- Significant developments in India's economic liberalisation and deregulation policies; and
- Significant developments in India's fiscal and environmental regulations. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share

Price could fluctuate significantly as a result of market volatility. A decrease in the market price of the Equity Shares could cause you to lose some or all of your investment.

33. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations.

EXTERNAL RISK FACTORS

34. *The GoI has implemented a new national tax regime by imposing GST.*

The GoI has implemented a comprehensive national GST regime from July 01, 2017 that will combine taxes and levies by the Central and State Governments into a unified rate structure. GST is a dual levy with state GST and central GST. Central GST will replace the current central taxes and duties such as excise duty, service tax, counter vailing duty, special additional duty of customs, central charges and cesses. The state GST will replace local state taxes like VAT, CST, octroi and others including state cesses and charges.

Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

Our business being manufacturing centric, most of the current central taxes and duties and local state taxes and duties are applicable to our business. We are in the process to understand the quantification of the impact of this development at this stage due to limited information available in the public domain. If we are taxed at a higher rate than the current tax rates, our financial condition and results of operations may be adversely affected.

Further, we may also be required to make changes in our internal process to adapt to the requirements of GST. We cannot assure you if we will be able to effectively carry out such changes. To ensure compliance with the requirements of the GST laws, we may also need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

35. Any change in the government policies vis-à-vis expenditure, subsidies and incentives etc. in steel wire sector could affect their ability to spend on agrochemical products, thereby affecting our business and profitability.

Any changes in government policies relating to our industry such as reduction of government expenditure, withdrawal or changes in incentives and subsidy systems, or adverse changes in fabric prices and/or minimum support prices could have an adverse effect on the ability of our customers to spend on our products.

Our ability to freely set prices for products may be restricted by the government and our profits may reduce. End users of our products may seek to find ways to reduce or contain related costs. We cannot predict the nature of the measures that may be adopted by governments or private organisations or their impact on our revenues. In the event such measures result in increased costs for our suppliers, their concentration in this area may reduce which could affect our supply chain. Also, if steel related legislation or third party payer influence results in lower prices for our products, our overall revenues may decrease and our cash flows and profits could be adversely affected even in cases where the demand for our products increases.

36. The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.

A majority of the provisions and rules under the Companies Act, 2013 have been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. Further, companies meeting certain financial thresholds are also required to constitute a committee of the board of directors for corporate social responsibility activities and ensure that at least 2% of the average net profits of the company during three immediately preceding financial years are utilized for corporate social responsibility activities. Penalties for instances of non-compliance have been prescribed under the Companies Act, 2013, which may result in *inter alia*, our Company, Directors and Key Managerial Employees being subject to such penalties and formal actions as prescribed under the Companies Act, 2013, should we not be able to comply with the provisions of the New Companies Act within the prescribed timelines, and this could also affect our reputation.

To ensure compliance with the requirements of the Companies Act, 2013 within the prescribed timelines, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention. While we shall endeavour to comply with the prescribed framework and procedures, we may not be in a position to do so in a timely manner.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such

provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. Additionally, some of the provisions of the Companies Act, 2013 overlap with other existing laws and regulations (such as the corporate governance norms and insider trading regulations). We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013, which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

37. Any changes in the regulatory framework could adversely affect our operations and growth prospects.

Our Company is subject to various regulations and policies. For details please see “Key Industry Regulations and Policies” beginning on page no. 95 of this Prospectus. Our business and prospects could be materially adversely affected by changes in any of these regulations and policies, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

38. Civil disturbances, extremities of weather, regional conflicts and other political instability may have adverse effects on our operations and financial performance.

Certain events that are beyond our control such as earthquake, fire, floods and similar natural calamities may cause interruption in the business undertaken by us. Our operations and financial results and the market price and liquidity of our equity shares may be affected by changes in Indian Government policy or taxation or social, ethnic, political, economic or other adverse developments in or affecting India.

39. Terrorist attacks, civil unrest and other acts of violence or war involving India and other countries could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may negatively affect the Indian markets on which our Equity Shares will trade and also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence, impede travel and other services and ultimately adversely affect our business. In addition, any deterioration in relations between India and Pakistan might result in investor concern about stability in the region, which could adversely affect the price of our Equity Shares.

India has also witnessed civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events in India could have a negative impact on the value of share prices generally as well as the price of our Equity Shares. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the price of our Equity Shares.

40. Instability in financial markets could materially and adversely affect our results of operations and financial condition.

The Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States of America or Europe, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors’ reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets.

The global financial turmoil, an outcome of the sub-prime mortgage crisis which originated in the United States of America, led to a loss of investor confidence in worldwide financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil, evident from the sharp decline in SENSEX, BSE’s benchmark index. Any prolonged financial crisis may have an adverse impact on the Indian economy and us, thereby

resulting in a material and adverse effect on our business, operations, financial condition, profitability and price of our Equity Shares.

41. *Conditions in the Indian securities market and stock exchanges may affect the price and liquidity of our Equity Shares.*

Indian stock exchanges, which are smaller and more volatile than stock markets in developed economies, have in the past, experienced problems which have affected the prices and liquidity of listed securities of Indian companies. These problems include temporary exchange closures to manage extreme market volatility, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, disputes have occurred on occasion between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected. Further, a closure of, or trading stoppage on, either of the Stock Exchanges could adversely affect the trading price of our Equity Shares.

42. *We will prepare our financial statements from April 01, 2018 onwards under the Indian Accounting Standards (“Ind AS”). As Ind AS is different in many respects from Indian GAAP, our financial statements from April 01, 2018 may not be comparable to our historical financial statements and our financial statements for the year ending March 31, 2017 prepared under Indian GAAP may not be comparable to our financial statements for the year ending March 31, 2017 prepared under Ind AS for comparison purposes. In addition, our transition to Ind AS reporting could have an adverse effect on our business and results of operations.*

We currently prepare our financial statements under Indian GAAP. The Companies (Indian Accounting Standards) Rules, 2015 (“IAS Rules”), as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, enacted changes to Indian GAAP that are intended to align Indian GAAP further with IFRS. The IAS Rules provide that the financial statements of the companies to which they apply shall be prepared and audited in accordance with Ind AS. Ind AS is different in many respects from Indian GAAP. All NBFCs and HFCs having a net worth of more than ₹ 5,000.00 million are required to mandatorily adopt Ind AS for the accounting period beginning from April 01, 2018, with comparatives for the period ending on March 31, 2017. Although any company may voluntarily implement Ind AS for the accounting period beginning from April 01, 2015, we intend to implement Ind AS for the accounting period beginning from April 01, 2018. As there is not yet a significant body of established practice, such as interpretations of Ind AS, on which to draw in forming judgments regarding the Ind AS implementation and application, we have not determined with any degree of certainty the impact the adoption of Ind AS will have on our financial statements. However, we know that the Ind AS will change our methodology for estimating allowances for doubtful debt losses. Ind AS will require us to value our NPAs by reference to their market value (if a ready market for such loans exists) or to calculate the present value of the expected future cash flows realisable from our loans, including the possible liquidation of collateral (discounted at the loan’s effective interest rate) in estimating allowances for doubtful debt losses. This may result in us recognising higher allowances for doubtful debt losses in the future, which will adversely affect our results of our operations. Accordingly, our financial statements for the period commencing from April 01, 2018 may not be comparable to our historical financial statements and our financial statements for the year ending March 31, 2017 prepared under Indian GAAP may not be comparable to our financial statements for the year ending March 31, 2017 prepared under Ind AS for comparison purposes.

In our transition to Ind AS reporting, we may encounter difficulties in the on-going process of implementing and enhancing our management information systems. Our management may also have to divert significant time and additional resources in order to implement Ind AS on a timely and successful basis. Moreover, there is increasing competition for the small number of Ind AS experienced accounting personnel available as more Indian companies begin to prepare Ind AS financial statements. Therefore, our transition to Ind AS reporting could have an adverse effect on our business and results of operations.

SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

Indian Scenario

Introduction

Steel is crucial to the development of any modern economy and is considered to be the backbone of human civilization. The level of per capita consumption of steel is treated as an important index of the level of socio-economic development and living standards of the people in any country.

From only three steel plants – the Tata Iron & Steel Company, the Indian Iron and Steel Company and Visveswaraya Iron & Steel Ltd and a few electric arc furnace-based plants and merely one million tone capacity status at the time of independence, India has now risen to be the 3rd largest crude steel producer in the world and largest producer of sponge iron.

The main players in the Indian Steel industry today include the public and private sector organizations, besides scores of MSM (Medium, Small, Micro) enterprises in secondary steel sector. The public sector iron, steel, ore, scrap and mineral development organizations under the Ministry of Steel are:

Steel Authority of India Ltd. (SAIL), Rashtriya Ispat Nigam Ltd. (RINL), National Mineral Development Corporation Ltd. (NMDC), Kudremukh Iron Ore Company Ltd. (KIOCL), MECON Ltd., Manganese Ore (India) Ltd. (MOIL), MSTC Ltd., Hindustan Steel Works Construction Ltd. (HSCL) & Ferro Scrap-Niam Ltd. (FSNL).

The major private sector players in the iron & steel industry are inter-alia:

Tata Steel Ltd., JSW Steel Ltd., Jindal Steel & Power Ltd., Bhushan Steel Ltd. & Bhushan Power & Steel Ltd.

Trends and Developments in Steel Sector

During April-December 2016-17 (provisional), the following is the industry scenario as compared to same period of last year:

1. Production of crude steel was at 72.349 million tonnes (mt), a growth of 8.8% compared to same period of last year. SAIL, RINL, TSL, ESSAR, JSWL & JSPL produced 40.376 mt during this period, which was a growth of 15.7% compared to last year. The rest i.e. 31.973 mt was the contribution of the Other Producers, which was a growth of 1.1% compared to last year.
2. Pig iron production for sale was 7.072 mt (a decline of 0.5% compared to last year), after accounting for own consumption/IPT. The Private Sector accounted for 94% of the same, the rest (6%) being the share of the Public Sector.
3. In case of total finished steel (non-alloy + alloy/stainless):
 - Production for sale stood at 73.96 million tonnes, a growth of 10.8% compared to last year.
 - Exports stood at 4.976 million tonnes, a growth of 58% compared to last year.

Road ahead

India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2025. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

STEEL WIRE SECTOR

The Steel Wire Industry in India is quite competitive in its production costs compared to other developed and developing countries. This cost competitiveness needs to be maintained by adoption of new and clean technologies, which lower specific energy consumption and which generate much lesser pollutants. We need to automate processes and focus on product quality and packaging to produce wires internationally acceptable.

In today's environmentally conscious world adoption of such technologies would make the products much more acceptable and also lower costs by reducing wastages. This will throw open many new markets accelerating the pace of growth of the industry.

Raw materials mainly wire rods account for a major part of the cost of wires. In the past there were very few suppliers but with the growth in the steel industry a number of mid-sized companies have started producing Mild Steel Wire Rods. This has increased the availability and resulted in better commercial terms for the wire industry. Most value added wires use high carbon wire rods as an input.

The steel wire industry in India is at a juncture where very soon raw materials will be available at internationally competitive rates, consumption is poised to jump, new export markets are waiting to be tapped, and skilled manpower is readily available. Hence; from sourcing point of view industry is in surplus.

(Source: https://www.swmai.org/content.php?cms_id=11)

As with any other industry, the fortunes of the steel wire industry depend on growth and investment in the infrastructure segment. Any slowdown in infrastructure projects and activities negatively impacts the steel wire industry. Implementation delays can inflate costs, and following changes in government regulations the viability and sustainability of the whole project can be jeopardized.

Growth in infrastructure is characterized by hectic activity in the construction, engineering and capital goods sectors – these constitute almost 60% of end-use consumption pattern of the steel wire industry. Growth in the manufacturing sector on the back of government initiatives such as “Make in India” campaign, which, in turn, will drive up demand for steel wire.

NAILS AND FASTENERS SECTOR

Steel Wire nail is very well known item, as it is very common product, which is normally used in daily life. It is used for fastening purpose. Its use is so wide spread that it has become part and parcel of the life.

Steel Wire nails are pin-shaped, sharp objects of hard metal or alloy used as fasteners. They are typically made of steel, often dipped or coated to prevent corrosion in harsh conditions or improve adhesion. Ordinary nails for wood are usually of soft, low carbon or mild steel while those for concrete are harder. Nails are used for various purposes and industries ranging from building and construction to carpentry. There is a tremendous variety of nails, since they are used for so many different purposes.

There had been an erratic growth of the indigenous industry from past years. Since the manufacture of wire nails could be undertaken on a small scale or even on a cottage scale, there is a mushroom growth of nail making units in operation. Future of wire nails will directly depend upon building activity in country. As we know that at present country is facing acute housing problem. So, now government is much emphasizing on housing development, which naturally will lead to greater demand of steel wire nail.

- ***Augment our working capital base in order to scale up business operations***

Our business of manufacturing of steel wires & wire products is working capital intensive. We need to maintain sufficient inventory for the production process and also maintain a balance between debtors & creditors cycle. Since, we are not fully utilising our installed capacities, our growth depends on our ability to increase our utilization over the next few years.

In FY 2016-17, our installed capacity in our Unit I was 18,000 MTS p.a. We have recently completed an expansion project at our Unit I as well as we have set up a 'nails' manufacturing unit ("**Unit II**") and hence our current aggregate installed capacity is 30,000 MTS p.a. (24,000 MTS p.a. for Unit I and 6,000 MTS p.a. for Unit II). Further, our expansion project has been completed keeping in mind our future need for expansion and hence we plan to phase wise increase the capacity of Unit I to 36,000 MTS p.a. and of Unit II to 15,000 MTS p.a. by the end of 2019-20.

Hence, in order to effectively operate the aforementioned additional facilities along with the existing facilities we need to have access to a larger amount of liquid funds and sufficient working capital. The same are proposed to be funded from the IPO proceeds and from Banking Facilities. For further details of the proposed working capital requirements of our Company, please see "*Objects of the Issue*" beginning on page no. 58 of this Prospectus.

DETAILS OF THE FUND REQUIREMENTS

Hence, in order to effectively operate the aforementioned additional facilities along with the existing facilities we need to have access to a larger amount of liquid funds and sufficient working capital.

Accordingly, we expect a further increase in the working capital requirements in view of current and potential business operations that we may undertake. Accordingly, we have proposed to use ₹ 966.38 lakhs out of the issue proceeds to meet the increase in long term working capital requirements.

OVERVIEW OF THE GLOBAL AND INDIAN ECONOMY

Global Scenario

The US economy bounced back strongly in Q3:2016, underpinned by robust consumer spending and continuing improvement in the labour market. GDP growth decelerated sharply in Q4:2016 due to a large slippage in net exports, even though retail sales, consumer confidence and the purchasing manufacturers' index (PMI) suggested sustained momentum. Domestic demand grew (q-o-q) at the fastest pace in almost two years. Consumer confidence reached a 16-year high in March, though retail sales had slowed down in February. The Institute for Supply Management's (ISM) index suggested manufacturing expanded at its fastest pace in three years in February.

In the Euro area, GDP growth accelerated in H2:2016. Relatively low oil prices and sustained employment gains have provided support to household incomes. Improving consumer confidence and the PMI, which rose to a six-year high in March, indicate that activity continued to expand in Q1:2017. Nonetheless, the region remains vulnerable to a number of headwinds such as the formal beginning of the Brexit process, upcoming elections in several constituent countries and tightening of financial conditions.

The Japanese economy continued to recover at a modest pace even as the momentum weakened in H2:2016. Increases in private consumption and fixed investment were moderate, although there was some uptick in exports and industrial production towards end-2016. The manufacturing PMI improved during January and February but moderated again in March 2017.

In the UK, economic growth gained momentum in H2: 2016, notwithstanding the uncertainties surrounding the negotiations relating to Brexit, as exports rose substantially following the weakening of the pound. However, manufacturing growth weakened for two consecutive months in February, indicating the possibility of a slowdown in 2017

Global activity is firming broadly as expected. Manufacturing and trade are picking up, confidence is improving, and international financing conditions remain benign. Global growth is projected to strengthen to 2.7 percent in 2017 and 2.9 percent in 2018-19, in line with January forecasts. In emerging market and developing economies (EMDEs), growth is predicted to recover to 4.1 percent in 2017 and reach an average of 4.6 percent in 2018-19, as obstacles to growth in commodity exporters diminish, while activity in commodity importers continues to be robust. Risks to the global outlook remain tilted to the downside. These include increased trade protectionism, elevated economic policy uncertainty, the possibility of financial market disruptions, and, over the longer term, weaker potential growth. A policy priority for EMDEs is to rebuild monetary and fiscal space that could be drawn on were such risks to materialize. Over the longer term, structural policies that support investment and trade are critical to boost productivity and potential growth.

Indian Scenario

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organisation (CSO) and International Monetary Fund (IMF). The Government of India has forecasted that the Indian economy will grow by 7.1 per cent in FY 2016-17. As per the Economic Survey 2016-17, the Indian economy should grow between 6.75 and 7.5 per cent in FY 2017-18. The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, Reserve Bank of India's (RBI) inflation focus supported by benign global commodity prices.

India's consumer confidence index stood at 136 in the fourth quarter of 2016, topping the global list of countries on the same parameter, as a result of strong consumer sentiment, according to market research agency, Nielsen.

(Source: <https://www.ibef.org/economy/indian-economy-overview>)

India's gross domestic product (GDP) grew by 7 per cent year-on-year in October-December 2016 quarter, which is the strongest among G-20 countries, as per Organisation for Economic Co-operation and Development (OECD) Economic Survey of India, 2017. According to IMF World Economic Outlook Update (January 2017), Indian economy is expected to grow at 7.2 per cent during FY 2016-17 and further accelerate to 7.7 per cent during FY 2017-18.

The Union Budget, 2017-18 deferred the target for the gross fiscal deficit (GFD) to GDP ratio of 3.0 per cent to 2018-19 from 2017-18. Nevertheless, the government remained committed to the spirit of fiscal consolidation as the Centre's GFD is budgeted to decline by 0.3 percentage point to 3.2 per cent in 2017-18 through an increase in non-debt receipts, particularly tax revenues and disinvestment proceeds. This makes room for enhanced budgetary allocation for the farm and rural sectors, social and physical infrastructure, and employment generation. Future fiscal consolidation is contingent upon efficient revenue mobilisation - broadening the tax base; and incentivising digital payments.

STEEL INDUSTRY

Global Scenario

In 2016, steel demand recovery was stronger than expected with the upside mostly coming from China. We believe in 2017 and 2018 we will see a cyclical upturn in steel demand with a continuing recovery in the developed economies and an accelerating growth momentum in the emerging and developing economies. We expect that Russia and Brazil will finally move out of their recessions. However, China, which accounts for 45% of global steel demand, is expected to return to a more subdued growth rate after its recent short uplift. For this reason, overall growth momentum will remain modest.

(Source: *World steel Short Range Outlook 2017-2018*)

Global economy is gaining strength, but uncertainty escalates

With the risk of global recession receding and economic performance improving across most regions, a number of geopolitical changes still create some concern. US policy uncertainties, Brexit, the rising populist wave in current European elections and the potential retreat from globalisation and free trade under the pressure of rising nationalism adds a new dimension of uncertainty in investment environments. To balance this, risks from ongoing conflicts in the Middle East and in Eastern Ukraine appear to be reducing.

In the capital markets, the probable US FED interest rate increase and any appreciation of the US dollar is likely to have global impact. In particular, it may provoke capital outflows from the emerging economies and place a risk on corporate debt in the developing countries, which has climbed significantly over the last few years.

Oil and other commodities

The pickup in oil prices in 2016 helped the fiscal position of oil producing countries. In 2017-18 oil prices are expected to show a moderate gain but any spike in oil prices to the levels seen in 2010-12 seems unlikely despite the recent agreement on oil production cuts. Other commodity prices also rebounded due to stronger activities in China, but no further hikes are envisaged. The mildly rising oil prices may stimulate investment in economies worldwide.

Automotive sector will decelerate, but construction sector could pick up

The automotive sector has been the top performer among key steel using sectors thanks to the consumption driven recovery in the developed economies, low oil prices and the government stimuli programmes supporting automobile purchases in several countries. However, this may now be approaching a peak.

The construction, building and infrastructure sector, which accounts for 50% of global steel use, has been showing a divided picture between the developing and developed economies. This sector has been a major driver for steel demand in the developing countries driven by urbanisation, but activity in the developed economies since the 2008 financial crisis has been more subdued. This appears to be about to change with a recovery in construction activities apparent in the EU through the improving economic conditions and the potential renewal initiatives for infrastructure in the US.

The machinery sector could also benefit from rising investment activities if the uncertainties surrounding the global economy can be contained. On the other hand, depression in shipbuilding activities is expected to continue for some time given the global glut in shipping capacity.

China slowdown

The economic rebalancing and reform agenda of the Chinese economy continued for the first half of 2016, only to be interrupted by the government's mini stimulus measures designed to reduce the speed of the decline. This produced a short term boom in infrastructure investment and the housing market, which stimulated demand for steel and other commodities. As a result, China's steel demand showed growth of 1.3% in 2016. While the Chinese economic outlook appears stable and steel demand continues to remain strong in the early part of 2017, this is expected to gradually decelerate as the government tries to retighten its real estate policies.

China's steel demand is expected to remain flat in 2017 and then decline by -2% in 2018.

Developed world

Benefiting from strong fundamentals, newly announced measures related to fiscal stimuli and rising infrastructure spending, the United States is expected to continue to lead growth in the developed world in 2017-18. However, despite a recovery in oil prices, a rebound of investments in the oil and gas sector may be limited given the increased efficiency of shale producers.

The EU recovery is solidifying with many positive developments. Eurozone monetary policy is expected to remain on its current path, at least in 2017, while fiscal tightening is not expected to strengthen further and risk of disinflation has

significantly receded. If political stability can be maintained, investment is expected to pick up to provide a further boost to the recovery. Benefiting from the improving global economy and weak yen, Japan's steel demand is expected to show a stable recovery.

Steel demand in the developed economies will increase by 0.7 % in 2017 and 1.2 % in 2018.

Developing world

Having dealt with the structural problems and fall in commodity prices, the Russian and Brazilian economies are stabilising and expected to show modest growth in 2017. Russian growth will continue to pick up in 2018 as structural reforms take more effect. After the demonetisation shock, the Indian economy is expected to resume growth, although on a slightly weakened basis. The ASEAN countries are expected to demonstrate solid growth in 2017-18. However, the region remains vulnerable to currency volatilities associated with US interest rate hikes and dollar appreciation.

Steel demand in the emerging and developing economies excluding China, which accounts for 30% of world total, is expected to grow by 4.0% in 2017 and then 4.9% in 2018.

Indian Scenario

Introduction

Steel is crucial to the development of any modern economy and is considered to be the backbone of human civilization. The level of per capita consumption of steel is treated as an important index of the level of socio-economic development and living standards of the people in any country.

From only three steel plants – the Tata Iron & Steel Company, the Indian Iron and Steel Company and Visveswaraya Iron & Steel Ltd and a few electric arc furnace-based plants and merely one million tone capacity status at the time of independence, India has now risen to be the 3rd largest crude steel producer in the world and largest producer of sponge iron.

The main players in the Indian Steel industry today include the public and private sector organizations, besides scores of MSM (Medium, Small, Micro) enterprises in secondary steel sector. The public sector iron, steel, ore, scrap and mineral development organizations under the Ministry of Steel are:

Steel Authority of India Ltd. (SAIL), Rashtriya Ispat Nigam Ltd. (RINL), National Mineral Development Corporation Ltd, (NMDC), Kudremukh Iron Ore Company Ltd. (KIOCL), MECON Ltd., Manganese Ore (India) Ltd. (MOIL), MSTC Ltd., Hindustan Steel Works Construction Ltd. (HSCL) & Ferro Scrap-Niam Ltd. (FSNL).

The major private sector players in the iron & steel industry are inter-alia:

Tata Steel Ltd., JSW Steel Ltd., Jindal Steel & Power Ltd., Bhushan Steel Ltd. & Bhushan Power & Steel Ltd.

The rest i.e. 31.973 mt was the contribution of the Other Producers, which was a growth of 1.1% compared to last year.

2. Pig iron production for sale was 7.072 mt (a decline of 0.5% compared to last year), after accounting for own consumption/IPT. The Private Sector accounted for 94% of the same, the rest (6%) being the share of the Public Sector.
3. In case of total finished steel (non-alloy + alloy/stainless):
 - Production for sale stood at 73.96 million tonnes, a growth of 10.8% compared to last year.
 - Exports stood at 4.976 million tonnes, a growth of 58% compared to last year.
 - Imports stood at 5.495 million tonnes, a decline of 37.4% compared to last year.
 - India was a net importer of total finished steel.
 - Consumption stood at 61.54 million tonnes, a growth of 3.4% compared to last year.

Data on production for sale, consumption, import and export of total finished steel (alloy + nonalloy) and production of crude steel for the last five years and April-December 2016-17 (provisional) are shown in the table below:

Market Size

India's crude steel production grew by 7.4 per cent year-on-year to 95.6 Million Tonnes (MT) in 2016. Total production of crude steel during February 2017 grew by 8.5 per cent year-on-year to 8.08 MT.

Investments

Steel industry and its associated mining and metallurgy sectors have seen a number of major investments and developments in the recent past.

According to the data released by Department of Industrial Policy and Promotion (DIPP), the Indian metallurgical industries attracted Foreign Direct Investments (FDI) to the tune of US\$ 10.15 billion, respectively, in the period April 2000– December 2016.

Recent Government Initiatives

Some of the other recent government initiatives in this sector are as follows:

- The Government of India has approved a joint venture (JV) between MSTC Ltd and Mahindra Intertrade Ltd, for setting up India's first greenfield auto shredding and recycling facility, which will aid in saving of foreign currency, as a result of import substitution of scrap.
- Ministry of Steel, Mines, Labour and Employment, has launched the National Mineral Exploration Policy (NMEP), which will help to adopt comprehensive exploration of non-fuel and non-coal mineral resources that would give a major boost to the economy.

- Metal Scrap Trade Corporation (MSTC) Limited and the Ministry of Steel have jointly launched an e-platform called 'MSTC Metal Mandi' under the 'Digital India' initiative, which will facilitate sale of finished and semi-finished steel products.
- The Parliament of India has cleared amendments to the Mines and Minerals Development and Regulation (MMDR) Act, which will enable companies to transfer captive mines leases similar to mines won through an auction, and which is expected to lead to increased Mergers and Acquisitions (M&A) of steel and cement companies.
- The Ministry of Steel has announced to invest in modernisation and expansion of steel plants of Steel Authority of India Limited (SAIL) and Rashtriya Ispat Nigam Limited (RINL) in various states to enhance the crude steel production capacity in the current phase from 12.8 MTPA to 21.4 MTPA and from 3.0 MTPA to 6.3 MTPA respectively.
- The Ministry of Steel & Mines has reiterated commitment of Central Government to support the steel industry to reach a production target of 300 Million Tonne Per Annum (MTPA) in 2025.
- The Ministry of Steel is facilitating setting up of an industry driven Steel Research and Technology Mission of India (SRTMI) in association with the public and private sector steel companies to spearhead research and development activities in the iron and steel industry at an initial corpus of Rs 200 crore (US\$ 30 million).
- The Central Board of Excise and Customs (CBEC) has issued a notification announcing zero export duty on iron ore pellets, which will help the domestic industry to become more competitive in the international market.
- Government has planned Special Purpose Vehicles (SPVs) with four iron ore rich states i.e., Karnataka, Jharkhand, Orissa, and Chhattisgarh to set up plants having capacity between 3 to 6 MTPA.
- SAIL plans to invest US\$ 23.8 billion for increasing its production to 50 MTPA by 2025. SAIL is currently expanding its capacity from 13 MTPA to 23 MTPA, at an investment of US\$ 9.6 billion.

Road ahead

India is expected to become the world's second largest producer of crude steel in the next 10 years, moving up from the third position, as its capacity is projected to increase to about 300 MT by 2025. Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile and railways sectors.

STEEL WIRE SECTOR

The Steel Wire Industry in India is quite competitive in its production costs compared to other developed and developing countries. This cost competitiveness needs to be maintained by adoption of new and clean technologies, which lower specific energy consumption and which generate much lesser pollutants. We need to automate processes and focus on product quality and packaging to produce wires internationally acceptable.

In today's environmentally conscious world adoption of such technologies would make the products much more acceptable and also lower costs by reducing wastages. This will throw open many new markets accelerating the pace of growth of the industry.

Raw materials mainly wire rods account for a major part of the cost of wires. In the past there were very few suppliers but with the growth in the steel industry a number of mid-sized companies have started producing Mild Steel Wire Rods. This has increased the availability and resulted in better commercial terms for the wire industry. Most value added wires use high carbon wire rods as an input.

The steel wire industry in India is at a juncture where very soon raw materials will be available at internationally competitive rates, consumption is poised to jump, new export markets are waiting to be tapped, and skilled manpower is readily available. Hence; from sourcing point of view industry is in surplus.

(Source: https://www.swmai.org/content.php?cms_id=11)

As with any other industry, the fortunes of the steel wire industry depend on growth and investment in the infrastructure segment. Any slowdown in infrastructure projects and activities negatively impacts the steel wire industry. Implementation delays can inflate costs, and following changes in government regulations the viability and sustainability of the whole project can be jeopardized.

Growth in infrastructure is characterized by hectic activity in the construction, engineering and capital goods sectors – these constitute almost 60% of end-use consumption pattern of the steel wire industry. Growth in the manufacturing sector on the back of government initiatives such as “Make in India” campaign, which, in turn, will drive up demand for steel wire.

NAILS AND FASTENERS SECTOR

Steel Wire nail is very well known item, as it is very common product, which is normally used in daily life. It is used for fastening purpose. Its use is so wide spread that it has become part and parcel of the life.

Steel Wire nails are pin-shaped, sharp objects of hard metal or alloy used as fasteners. They are typically made of steel, often dipped or coated to prevent corrosion in harsh conditions or improve adhesion. Ordinary nails for wood are usually of soft, low carbon or mild steel while those for concrete are harder. Nails are used for various purposes and industries ranging from building and construction to carpentry. There is a tremendous variety of nails, since they are used for so many different purposes.

There had been an erratic growth of the indigenous industry from past years. Since the manufacture of wire nails could be undertaken on a small scale or even on a cottage scale, there is a mushroom growth of nail making units in operation. Future of wire nails will directly depend upon building activity in country. As we know that at present country is facing acute housing problem. So, now government is much emphasizing on housing development, which naturally will lead to greater demand of steel wire nail.

DETAILS OF EXISTING PRODUCTS:

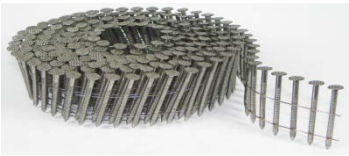

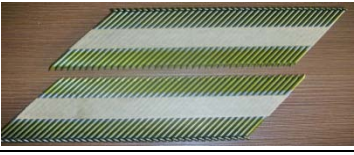

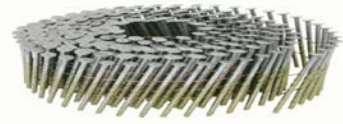

Our Company manufactures various kinds of steel wires. Some of the major products manufactured by us and the description of the same areas under:

Sr. No	Product	Description
1.		<p>HTGS Earth Wire:</p> <p>An earth wire, or ground wire, contains the charging reservoir on a circuit and provides a connection with the earth. The earth wire protects people from electrical shock by providing the current with a fast route to the earth, which allows the current to bypass an electrical short or other problem.</p>
2.		<p>Stay Wire:</p> <p>Stay Wires are galvanized steel wire strands that are used for sustaining mechanical load. Generally they are made up of 6 wires stranded around 1 wire, twisting 7 wires together. A common use for stay wires is in the electricity industry, using the wire to stay power poles and tower structures. Stay wire is made in compliance with BS 183 or other customer specified specifications. It can be supplied in coils/ drums as per requirement.</p>
3.		<p>GI Wire (Galvanized Iron Wire):</p> <p>GI wire is zinc coated steel wire used for applications with high life requirement. We manufacture GI wire using Hot Dip technology and supplies customized quality GI wire for wide range of applications like Fencing, Farming, Poultry and Redraw.</p>
		<p>Binding Wire:</p> <p>Binding Wire is used for the purpose of tying applications in the field of construction. It is used extensively in the construction sector for tying the rebar at the joints so as to keep the structure intact. Binding wire is also called annealed wire and is made of mild steel.</p>
5.		<p>Cable Armour Wire:</p> <p>Armoured cables are generally used for underground wiring. However, even buildings are now installed with permanent armoured wires which are buried in the ground or exposed. Available in single and multi-conductor cables, armoured cable are power cables which comprise of two or more electric conductors which are enveloped in a protective sheath. The cable derives its name from its protective nature and allows better electric transmission with lesser risks involved.</p>
6.		<p>Spring Steel Wire:</p> <p>Spring Steel wires are cold drawn wires made from unalloyed high carbon steel. These wires find application in automobile, cycle and other industrial equipments. These wires are generally supplied in phosphate and oiled condition. We can supply wires to specific customer requirement within the specifications.</p>

MANUFACTURING PROCESS

Since we are engaged in manufacturing of various kinds of wires and nails, the steps involved in the manufacture of our products can be summarized as under:

Process Flowchart for the production of Wire

- **Raw Material inspection and testing**

The principal raw material used by us for manufacturing steel wire is the wire rod. The wire rods used in the manufacturing process are typically high carbon steel. Zinc is used for galvanizing the steel wire either before or after the drawing process.

The wire rods then subjected to in-house testing carried out at well-equipped laboratories to verify their chemical composition, size, breaking load etc.

- **Acid Pickling**

The pickling process removes surface scales comprising of iron oxides and other impurities. Depending upon the process, the pickling is done either in line or in the fully automatic batch pickling plant. In the fully automatic pickling unit, the coils of wire rods are automatically transported from one bath to another and held for pre-determined time in each bath. After the acid baths, the coils are rinsed in water in order to remove the acid from the rod. Subsequently, the coil is coated with phosphate by dipping in a phosphate bath and finally neutralized by dipping in borax solution.

- **Wire Drawing**

The process of wire drawing consists of pulling a metal wire through a small circular opening called a die. This process results in plastic deformation with a reduction in its cross sectional area. The pulling force is dependent on the strength of the material and degree of reduction. Benefits of wire drawing are improving the finished surface and removing scale from the rod, improving tensile strength in the finished material, providing more consistent round shape of the material.

- **Galvanizing**

Galvanising is the process of coating zinc on the surface of steel for preventing corrosion. The zinc coating renders zinc iron alloy on the surface which is stable and protects the parent metal from corrosion. The hot dip galvanizing process is the oldest and most used in the wire industry. The steel is first dipped in the flux solution to prepare the surface for zinc adherence and good bonding between the steel and zinc. The steel is dipped into molten zinc and reaction is initiated between steel and zinc. The quantum of free zinc on the alloy layer depends on the wire speed, wiping methodology and zinc temperature.

- **Stranding**

Stranding is the process wherein the bunch of wires is laid helically in a rotating machine to produce the strand. The wires that are loaded in the cradles inside the rotating tube are pulled through a die by the capstan. The speed of the capstan is so adjusted that the strand is formed as per the designed lay or pitch.

- **Final Testing, Inspection and Dispatch**

Finally, the wire rope is tested physically for straightness, formation, gaps, and tightness. Few in-house testing is carried out at this stage like torsion, Dip, Wrapping, Adhesion, Length verification of wire etc.

Process Flowchart for the production of Nails

MANUFACTURING PROCESS:-

1. Raw Material :-

Drawn Steel Wire Rod is raw material for manufacturing various kinds of nails.

2. Nail Making Machine :-

Nail making machine is used to produce nails (Iron and steel, SS, Aluminium and made of different kind of metals). It pulls the wire rod and gives desirous shape like sharp point, Flat Head, round head, D-Head etc. These are produced as per customer's requirement.

3. Nail Polishing Unit :-

It is used to remove the extra lubricant and extra metal from the nails. It also gives the finishing to the nails.

4. Plastic Collated Nails Machine :-

This machine produce the collated plastic nails which makes the final product in the plastic strip format as per number of nails like 25, 28 or 30 nails per strip.

5. Wire Collated Nails Machine

It makes a magazine of nails (200 to 3000 nails as per requirement) which is tied up through welding from a fine steel copper coated wire.

6. Thread Rolling Machine :-

In thread rolling extra grip is given to polished nails by converting into screw threads, spiral threads or ring threads as per customer's requirement. After thread rolling nails are either sold as bulk nails or transferred to Plastic Collated Nails Machine or Wire Collated Nails Machine as per requirement.

All the processes mentioned above are semi automated.

CST is payable by a dealer (i.e. a person who carries on the business of buying, selling, supplying or distributing goods) on his sales turnover at the rate prescribed in the VAT statute of the State from where the movement of the goods originate. However, a dealer is entitled to a concessional rate of 2% CST on goods which are sold to another registered dealer who intends to further re-sell them or use them in the manufacture or processing for further sale or for certain other specified purposes, subject to the condition that purchasing dealer issues a statutory Form C to the selling dealer.

Value Added Tax

Value Added tax (“VAT”) is a system of multi-point levies on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each State that has introduced VAT has its own VAT Act under which persons liable to pay VAT must register and obtain a registration number from the Sales Tax Officer of the respective State.

The Andhra Pradesh Value Added Tax Act, 2005, and rules and regulations thereunder, are applicable to our establishment.

Transfer of Property Act, 1882

The transfer of property, including immovable property, between living persons, as opposed to the transfer of property by operation of law, is governed by the Transfer of Property Act, 1882 (“**T.P. Act.**”). The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- **Sale:** The transfer of ownership in property for a price, paid or promised to be paid.
- **Mortgage:** The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- **Charges:** Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g. decree of the court attaching to specified immovable property, or by an act of the parties.
- **Leases:** The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
- **Leave and License:** The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

The Registration Act, 1908

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Specific Relief Act, 1963

The Specific Relief Act is complimentary to the provisions of the Contract Act and the T.P. Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. ‘Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

The right to use the mark can be exercised either by the registered proprietor or a registered user. The MSMED Act also stipulates that in case the buyer fails to make payment to the supplier within the agreed period, then the buyer will be liable to pay compound interest at three times of the bank rate notified by the Reserve Bank of India from the date immediately following the date agreed upon. SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation of Financial Statements:

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the Act"). The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2. Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

3. Inventories:

- (i) Raw Materials have been valued at cost or market value whichever is less.
- (ii) Work in progress has been valued at lower of cost or realizable value.
- (iii) Finished goods have been valued at lower of cost or realizable value..

4. Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

5. Current / Non-current classification:

The Schedule III to the Act requires assets and liabilities to be classified as either Current or Non-current. An asset is classified as current when it satisfies any of the following criteria:

- (i) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;
- (iii) it is expected to be realised within twelve months after the reporting date; or
- (iv) it is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- (i) it is expected to be settled in, the Company's normal operating cycle;
- (ii) it is held primarily for the purpose of being traded;
- (iii) it is due to be settled within twelve months after the reporting date; or
- (iv) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the opinion of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

6. Revenue Recognition:

- (i) Sale is inclusive of Excise, Sales Tax and other charges.
- (ii) The company follows mercantile system of accounting and recognises significant items of income and expenditure. Revenue is recognised only when it is reasonably certain that ultimate collection will be made.
- (iii) Interest income is booked on time proportion basis.

7. Fixed assets and depreciation :

- (i) Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use. Capital work-in-progress comprises the cost of fixed assets that are not yet ready for their intended use at the reporting date.
- (ii) Depreciation:
Depreciation on Tangible Fixed Assets is provided on straight line method on useful lives of the assets as prescribed in Schedule II to the Companies Act, 2013.

8. Employee Benefits:

The management is of opinion that since number of employees of the company is less than as provided under the act and accordingly making provision of the gratuity does not arise. However, if payment on account of gratuity arises due to happening of any incidents as provided under the applicable provisions of the law, the same will be accounted for on cash basis.

9. Borrowing Costs:

Borrowing costs are charged to revenue except where such cost are attributable to the acquisition or construction of qualifying assets in which case it is capitalized as a part of the cost. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended uses.

10. Segment Reporting:

Provisions of Accounting Standard (AS) – 17 issued by the ICAI on ‘Segment Reporting’ are not been applicable to the Company.

11. Leases:

Lease Payments are recognised as an expense in the Statement of Profit and Loss of the year to which they relate.

12. Earnings per share (EPS):

The Basic EPS is computed by dividing the net / profit (loss) attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding during the reporting period. Diluted EPS is computed by dividing the net profit / (loss) as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares by the weighted average number of equity and dilutive equity equivalent shares outstanding during the year, except where the results would be anti-dilutive.

13. Taxes on income:

- (i) Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.
- (ii) Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items

other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets.

14. Provisions and contingent liabilities:

- (i) The Company creates a provision where there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation.
- (ii) A disclosure for a contingent liability is made where there is a possible obligation that may, but probably will not require an outflow of resources.
- (iii) When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

15. Impairment of Assets:

Fixed assets are realizable at least to the extent of the values stated against them. Consequently, no impairment of their values as per AS-28 in the opinion of management.

16. Intangible Assets:

Intangible Assets are stated at their cost of acquisition, less accumulated amortization and impairment losses thereon. An Intangible Asset is recognised, where it is probable that the future economic benefits attributable to the Asset will flow to the enterprise and where its cost can be reliably measured.

FIELD 4 & 5: BID OPTIONS REVISION 'FROM' AND 'TO'

- a) Apart from mentioning the revised options in the Revision Form, the Applicant must also mention the details of all the bid options given in his or her Bid cum Application Form or earlier Revision Form. For example, if a Applicant has Bid for three options in the Bid cum Application Form and such Applicant is changing only one of the options in the Revision Form, the Applicant must still fill the details of the other two options that are not being revised, in the Revision Form. The members of the Syndicate, the Registered Brokers and the Designated Branches of the SCSBs may not accept incomplete or inaccurate Revision Forms.
- b) In case of revision, Bid options should be provided by Applicants in the same order as provided in the Bid cum Application Form.
- c) In case of revision of Bids by RIIs, Employees and Retail Individual Shareholders, such Applicants should ensure that the Bid Amount, subsequent to revision, does not exceed ₹ 200,000. In case the Bid Amount exceeds ₹ 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. The Cut-off Price option is given only to the RIIs, Employees and Retail Individual Shareholders indicating their agreement to Bid for and purchase the Equity Shares at the Issue Price as determined at the end of the Book Building Process.
- d) In case the total amount (i.e., original Bid Amount plus additional payment) exceeds ₹ 200,000, the Bid will be considered for allocation under the Non-Institutional Category in terms of the Prospectus. If, however, the RII does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the RII and the RII is deemed to have approved such revised Bid at Cut-off Price.
- e) In case of a downward revision in the Price Band, RIIs and Bids by Employees under the Reservation Portion, who have bid at the Cut-off Price could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked in case of Bidders.

4.2.3 FIELD 6: PAYMENT DETAILS

- a) All Applicants are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Applicants specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- b) Applicant may Offer instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Applicant had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.
- c) In case the total amount (i.e., original Bid Amount less discount (if applicable) plus additional payment) exceeds ₹ 200,000, the Bid may be considered for allocation under the Non-Institutional Category in terms of the Prospectus. If, however, the Applicant does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted downwards for the purpose of Allotment, such that additional amount is required blocked and the Applicant is deemed to have approved such revised Bid at the Cut-off Price.

5.6 BASIS OF ALLOCATION

- a) The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Applicants in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the Prospectus. For details in relation to allocation, the Applicant may refer to the Prospectus.
- b) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Applicants may refer to the Prospectus.
- d) Illustration of the Book Building and Price Discovery Process Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹ 20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

e) **Alternate Method of Book Building**

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of Bidding (“**Alternate Book Building Process**”).

The Issuer may specify the Floor Price in the Prospectus or advertise the Floor Price at least one Working Day prior to the Issue Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIIs, NIIs and Employees are Allotted Equity Shares at the Floor Price and Allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the Allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be Allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/or quantity and also decide whether a Bidder be allowed single or multiple bids.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue. As the Issue Price is mentioned in the Fixed Price Issue therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the Application Form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

Applicants may submit an Application Form either in physical form to the any of the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the bank account specified in the Application Form only (“ASBA Account”). The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/Issue Opening Date.

In a fixed price Issue, allocation in the net issue to the public category is made as follows: minimum fifty per cent to Retail Individual Investors; and remaining to (i) individual investors other than Retail Individual Investors; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

For details of instructions in relation to the Application Form, Applicants may refer to the relevant section of the GID.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Applicants other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Applicants may refer to Prospectus. No Retail Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue (excluding any Offer for Sale of specified securities). However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 ALLOTMENT TO RIIs

Bids received from the RIIs at or above the Issue Price may be grouped together to determine the total demand under this category. If the aggregate demand in this category is less than or equal to the Retail Category at or above the Issue Price, full Allotment may be made to the RIIs to the extent of the valid Bids. If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Issue Price, then the maximum number of RIIs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIIs by the minimum Bid Lot (“**Maximum RII Allottees**”). The Allotment to the RIIs will then be made in the following manner:

- a) In the event the number of RIIs who have submitted valid Bids in the Issue is equal to or less than Maximum RII Allottees, (i) all such RIIs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIIs who have received Allotment as per (i) above for the balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).
- b) In the event the number of RIIs who have submitted valid Bids in the Issue is more than Maximum RII Allottees, the RIIs (in that category) who will then be Allotted minimum Bid Lot shall be determined on the basis of draw of lots.

7.2 ALLOTMENT TO NIIs

Bids received from NIIs at or above the Issue Price may be grouped together to determine the total demand under this category. The Allotment to all successful NIIs may be made at or above the Issue Price. If the aggregate demand in this category is less than or equal to the Non-Institutional Category at or above the Issue Price, full Allotment may be made to NIIs to the extent of their demand. In case the aggregate demand in this category is greater than the Non-Institutional

Category at or above the Issue Price, Allotment may be made on a proportionate basis up to a minimum of the Non-Institutional Category.

7.3 ALLOTMENT TO QIBs

For the Basis of Allotment to Anchor Investors, Applicants may refer to the SEBI ICDR Regulations, 2009 or Prospectus. Bids received from QIBs Bidding in the QIB Category (net of Anchor Portion) at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- a) In the first instance allocation to Mutual Funds for up to 5% of the QIB Category may be determined as follows: (i) In the event that Bids by Mutual Fund exceeds 5% of the QIB Category, allocation to Mutual Funds may be done on a proportionate basis for up to 5% of the QIB Category; (ii) In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Category then all Mutual Funds may get full Allotment to the extent of valid Bids received above the Issue Price; and (iii) Equity Shares remaining unsubscribed, if any and not allocated to Mutual Funds may be available for Allotment to all QIBs as set out at paragraph 7.4(b) below;
- b) In the second instance, Allotment to all QIBs may be determined as follows: (i) In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Issue Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category; (ii) Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and (iii) Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

7.4 ALLOTMENT TO ANCHOR INVESTOR (IF APPLICABLE)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Issue Price will be at the discretion of the issuer in consultation with the BRLMs, subject to compliance with the following requirements:
 - 1) not more than 60% of the QIB Category will be allocated to Anchor Investors;
 - 2) one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and

In the event of the Issue being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations, 2009.

The allocation may be made in marketable lots, on a proportionate basis as explained below:

- a) Bidders may be categorized according to the number of Equity Shares applied for;
- b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;
- c) The number of Equity Shares to be Allotted to the successful Bidders may be arrived at on a proportionate basis, which is total number of Equity Shares applied for by each Bidder in that category multiplied by the inverse of the over-subscription ratio;
- d) In all Bids where the proportionate Allotment is less than the minimum Bid Lot decided per Bidder, the Allotment may be made as follows: the successful Bidders out of the total Bidders for a category may be determined by a draw of lots in a manner such that the total number of Equity Shares Allotted in that category is equal to the number of Equity Shares calculated in accordance with (b) above; and each successful Bidder may be Allotted a minimum of such Equity Shares equal to the minimum Bid Lot finalised by the Issuer;
- e) If the proportionate Allotment to a Bidder is a number that is more than the minimum Bid lot but is not a multiple of one (which is the marketable lot), the decimal may be rounded off to the higher whole number if that decimal is 0.5 or higher. If that number is lower than 0.5 it may be rounded off to the lower whole number. Allotment to all Bidders in such categories may be arrived at after such rounding off; and
- f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares Allotted to the Bidders in that category, the remaining Equity Shares available for Allotment may be first adjusted against any other category, where the Allotted Equity Shares are not sufficient for proportionate Allotment to the successful Bidders in that category. The balance Equity Shares, if any, remaining after such adjustment may be added to the category comprising Bidders applying for minimum number of Equity Shares.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the FIPB. Accordingly, the process for Foreign Direct Investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), Ministry of Finance, Department of Economic Affairs, FIPB section, through a memorandum dated June 5, 2017 has notified the specific ministries handling relevant sectors..

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion (“**DIPP**”), Ministry of Commerce and Industry, Government of India issued consolidated FDI Policy Circular of 2016 (“**FDI Circular 2016**”), which with effect from June 7, 2016 consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 7, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment (“**FDI**”) Policy and transfer does not attract the provisions of the Takeovers Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.
