The Issue Price (will be determined and justified by our Company in consultation with the Lead Manager as stated under the paragraph “Basis for Issue Price” on page 71 of this Prospectus) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active and/or sustained trading in the Equity Shares of our Company or regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISKS

Investments in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the “Risk Factors” carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of this Prospectus. **Specific attention of the investors is invited to the section titled “Risk Factors” beginning on page 14 of this Prospectus.**

COMPANY’S ABSOLUTE RESPONSIBILITY

Our Company have made all reasonable inquiries, accepts responsibility for and confirms that this Prospectus contains all information with regard to our Company and this Issue, which is material in the context of this Issue, that the information contained in this Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect.

LISTING

The Equity Shares offered through this Prospectus are proposed to be listed on the SME Platform of National Stock Exchange of India Limited (“NSE” i.e. “NSE EMERGE”). Our Company has received an approval letter dated January 08, 2018 from NSE for using its name in this offer document for listing of our shares on the SME Platform of NSE (“NSE EMERGE”). For the purpose of this Issue, the Designated Stock Exchange will be the National Stock Exchange of India Limited.

The words and expressions used but not defined in this Prospectus will have the same meaning as assigned to such terms under the Companies Act, the Securities and Exchange Board of India Act, 1992 (the “SEBI Act”), the SCRA, the Depositories Act and the rules and regulations made thereunder.

Notwithstanding the foregoing, terms in “Main Provisions of the Articles of Association”, “Statement of Tax Benefits”, “Industry Overview”, “Regulations and Policies”, “Financial Information of the Company”, “Outstanding Litigation and Material Developments” and “Part B” of “Issue Procedure”, will have the meaning ascribed to such terms in these respective sections.

CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF FINANCIAL PRESENTATION

Certain Conventions

All references in the Prospectus to “India” are to the Republic of India. All references in the Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

In this Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company”, “Solex Energy Limited” and “SEL”, unless the context otherwise indicates or implies, refers to Solex Energy Limited. In this Prospectus, unless the context otherwise requires, all references to one gender also refers to another gender and the word “Lac / Lakh” means “one hundred thousand”, the word “million (mn)” means “Ten Lac / Lakh”, the word “Crore” means “ten million” and the word “billion (bn)” means “one hundred crore”. In this Prospectus, any discrepancies in any table between total and the sum of the amounts listed are due to rounding-off.

Use of Financial Data

Unless stated otherwise, throughout this Prospectus, all figures have been expressed in Rupees and Lakh. Unless stated otherwise, the financial data in the Prospectus is derived from our financial statements prepared and restated for the Period ended July 31, 2017 and financial year ended 31 March 2017, 2016, and 2015 in accordance with Indian GAAP, the Companies Act and SEBI (ICDR) Regulations, 2009 included under Section titled “Financial Information of the Company” beginning on page 129 of this Prospectus. Our Company does not have a subsidiary. Accordingly, financial information relating to us is presented on a Standalone basis. Our fiscal year commences on April 1 of every year and ends on March 31st of every next year. Since the Company was incorporated on October 13, 2014, hence the reporting period begin from October 13, 2014 to March 31, 2015 for the Financial year 2014-15.

There are significant differences between Indian GAAP, the International Financial Reporting Standards (“IFRS”) and the Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practice and Indian GAAP. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited. We have not attempted to explain those differences or quantify their impact on the financial data included herein, and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Any percentage amounts, as set forth in “Risk Factors”, “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in the Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Review Auditor, set out in section titled “Financial Information of the Company” beginning on page 129 of this Prospectus.

For additional definitions used in this Prospectus, see the section Definitions and Abbreviations on page 1 of this Prospectus. In the section titled “Main Provisions of Articles of Association”, on page 240 of the Prospectus defined terms have the meaning given to such terms in the Articles of Association of our Company.

Use of Industry & Market Data

Unless stated otherwise, industry and market data and forecast used throughout the Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although, we believe industry and market data used in the Prospectus is reliable, it has not been independently verified by us or the LM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI (ICDR) Regulations, the section titled “Basis for Issue Price” on page 71 of the Prospectus includes information relating to our peer group company. Such information has been derived from publicly available sources, and neither we, nor the LM, have independently verified such information.

Currency of Financial Presentation and Exchange Rates

All references to "Rupees" or "INR" or "₹" are to Indian Rupees, the official currency of the Republic of India. Except where specified, including in the section titled "Industry Overview" throughout the Prospectus all figures have been expressed in thousands, Lakhs/Lacs, Million and Crores.

Any percentage amounts, as set forth in "Risk Factors", "Our Business", "Management's Discussion and Analysis of Financial Conditions and Results of Operation" on page 14, 84 & 159 in the Prospectus, unless otherwise indicated, have been calculated based on our restated respectively financial statement prepared in accordance with Indian GAAP.

The Prospectus may contain conversions of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

This Prospectus includes certain “forward-looking statements”. We have included statements in the Prospectus which contain words or phrases such as “will”, “aim”, “is likely to result”, “believe”, “expect”, “will continue”, “anticipate”, “estimate”, “intend”, “plan”, “contemplate”, “seek to”, “future”, “objective”, “goal”, “project”, “should”, “will pursue” and similar expressions or variations of such expressions, that are “forward-looking statements”. Also, statements which describe our strategies, objectives, plans or goals are also forward looking statements.

All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. Forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

1. General economic and business conditions in India;
2. Disruption in our manufacturing facilities.
3. Company’s ability to successfully implement its growth strategy and expansion plans, and to successfully launch
4. Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
5. Inability to successfully obtain registrations in a timely manner or at all;
6. General economic and business conditions in the markets in which we operate and in the local, regional and national economies;
7. Our ability to effectively manage a variety of business, legal, regulatory, economic, social and political risks associated with our operations;
8. Changes in laws and regulations relating to the industries in which we operate;
9. Effect of lack of infrastructure facilities on our business;
10. Occurrence of Environmental Problems & Uninsured Losses;
11. Intensified competition in industries/sector in which we operate;
12. Our ability to successfully implement our growth strategy and expansion plans;
13. Our ability to attract, retain and manage qualified personnel;
14. Changes in political and social conditions in India or in countries that we may enter, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
15. Conflicts of interest with affiliated companies, the promoter group and other related parties;
16. Any adverse outcome in the legal proceedings in which we are involved;
17. Our ability to expand our geographical area of operation;
18. Concentration of ownership among our Promoter.

For further discussion of factors that could cause our actual results to differ, see the Section titled “Risk Factors”; “Our Business” & and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 14, 84 & 159 respectively of the Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company, our Directors, our Officers, Lead Manager and Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Lead Manager will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Issue.

SECTION II: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a better understanding, you should read this section together with "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 84 and 159, respectively, as well as the other financial and statistical information contained in this Prospectus. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. Before making an investment decision, investors must rely on their own examination of the Issue.

This Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

In this Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in "Risk Factors" on page 14 and "Management Discussion and Analysis of Financial Condition and Results of Operations" on page 159 respectively of this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in the "Financial Information of the Company" prepared in accordance with the Indian Accounting Standards.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS

- 1. Continued operations of our manufacturing facilities are critical to our solar products manufacturing business and any disruption in the operation of our facilities may have a material adverse effect on our business, results of operations and financial condition.***

We operate manufacturing facility in Anand, Gujarat and our manufacturing facilities are subject to operating risks, such as unavailability of machinery, break-down, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters, industrial accidents and statutory and regulatory restrictions. Our machines have limited lives and require daily cleaning as well as annual over hauling maintenance. Further, we have primarily imported our machinery from outside India. The service and repair centers for such imported machinery may not be available in India. In the event of a breakdown or failure of such machinery, replacement parts may not be available in India and such machinery may have to be sent for repairs or servicing to the country from where it was procured. This may lead to delay and disruption in our production process that could have an impact on our sales, results of operations, business growth and prospects.

In addition, our customer in India rely significantly on the timely delivery of our products and our ability to provide an uninterrupted supply of our products is critical to our business. Any disruption of operations of our manufacturing facilities could result in delayed delivery of our products or defects in the products delivered to our customers, which in turn may lead to disputes and legal proceedings with them on account of any losses suffered by them or any interruption of their business operations due to such delay or defect. Our business and financial results may be affected by any disruption of operations of our manufacturing facilities, on account of factors including any or all of the factors mentioned above.

For further details on the machines installed in our factory, please refer to the chapter titled “Our Business” on page 84 of this Prospectus.

2. *Our business depends on the tenders which we have received from Various Government Authorities and Parties, if we have not received tenders which may have adverse impact on company sale.*

Our company is engaged in manufacturing of solar products and many other renewable solar energy products. Our company’s total sale depends on received total tenders from other government authorities as well as from other outside parties. The total sales for the Period ended July 31, 2017 includes Rs. 6.09 Lacs from Government tenders and Rs. 626.24 Lacs from other outside parties compared to Rs. 2280.83 Lacs from Government tenders and Rs. 1126.24 Lacs from other outside parties for the period ended March 31, 2017. In our case if we have not received any tenders in future, it will impact our company’s sale as well as company’s total revenue because our company manufactured products according to received tenders of products. Since our business is depend upon the tender received from government authorities and outside parties, the sales in past year is fluctuating due of uncertainty in receipt of tenders. The uncertainty in receipt of tenders and other factor if occurs in future may affect our company’s total growth and revenue.

For further details on the company’s total growth and revenue, please refer to the chapter titled “Financial Information of the Company” on page 129 of this Prospectus.

3. *We are yet to receive certain regulatory approvals in respect of our operations. Failure to obtain or maintain licenses, registrations, permits and approvals may affect our business and results of operations.*

We are governed by various laws and regulations for our business and operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. The approvals, licenses, registrations and permits obtained by us may contain conditions, some of which could be onerous. Additionally, we will need to apply for renewal of certain approvals, licenses, registrations and permits, which expire or need to update pursuant to conversion of company from private to public Company.

While we have obtained a significant number of approvals, licenses, registrations and permits from the relevant authorities, we are yet to receive or apply for some approvals, licenses, registrations and permits such as Registration under Shop and Establishment Act. Also our company has taken registration under Goods and Services Act for Branches which was situated at Jaipur, Raipur and Pune but the said branches are closed as on date but surrender of such registration is not yet completed. Also the License under Pollution Board is not applicable to our company but if our company require to comply with condition specified by Pollution Board in future it will impact the business of our Company. We cannot assure you that we will apply for and receive or surrender these approvals and clearances in time or at all. There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could result in cost and time overrun or which could affect our related operations. Furthermore, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, please see “Government and Other Approvals” on page 176 of this Prospectus.

Furthermore, we cannot assure you that the approvals, licenses, registrations and permits issued to us will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any suspension or revocation of any of the approvals, licenses, registrations and permits that has been or may be issued to us may affect our business and results of operations.

4. *Conflicts of interest may arise out of common business objects between our Company and Group Company.*

Conflicts may arise in the ordinary course of decision-making by the Promoter or Board of Directors. Our Promoter have interests in other company such as Sun Solar Techno Limited that undertake the same business as our Company. Our Group Company are authorized to carry out, or engage in business similar to that of our Company. Conflicts of interests may arise in the Promoter allocating or addressing business opportunities and strategies among our Company, Group Company in circumstances where our respective interests diverge. In cases of conflict, there can be no assurance that our Promoter will not favour their own interests over

those of our Company. Our Promoter have not signed any non-compete agreement with our Company as of date. Any such present and future conflicts could have an effect on our business, reputation, financial condition and results of operations.

For further details, please refer section titled “Our Promoter and Promoter Group” and Our Group Company” beginning on Page 121 & 125 of this Prospectus.

5. *Our limited operating experience, limited recognition in new markets and in the solar industry may limit our expansion strategy and cause our business and growth to suffer.*

Our company was incorporated on October 13, 2014, with Registrar of Companies, Gujarat. We have commenced our operations in solar and other renewable manufacturing Business as a company. With our limited operating history, potential investors may not be able to analyse our past performances or future prospects. For further details of our financial position and information please refer to section titled "Financial Information of the Company" on page 129 of this Prospectus.

Additionally, we are presently operating in various parts of India such as Gujarat, Maharashtra, Chhattisgarh and Rajasthan. The total sales for the Period ended July 31, 2017 includes Rs. 473.86 Lacs from Gujarat, Rs. 109.63 Lacs from Maharashtra and Rs. 48.84 Lacs from Rajasthan. Further, we have a limited number of customers and limited experience in operating our products in these markets and we may face risks in relation to delayed acceptance of our products due to limited recognition. We may also face risks in expanding our operations in geographic areas in which we do not possess the same level of familiarity with the economy, consumer preference, commercial operations and distribution network and with product offerings that we have limited operating experience of.

In addition, our competitors in such geographic areas may already have established operations in such geographic areas and particularly in the solar and solar related market, and we may find it difficult to attract customers in such geographic areas. Our expansion plans could be delayed or abandoned, could cost more than anticipated and could divert resources from other areas of our business or divert management's attention from other aspects of our business and place a strain on our management, operational and financial resources, as well as our information systems, any of which could impact our competitive position and reduce our revenue and profitability.

For further details of our business, please refer to the chapter titled “Our Business” beginning on page 84 of this Prospectus.

6. *Our Company has made applications for registration of our trademark under the provisions of Trademark Act, 1999, status being objected. We are unable to assure that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.*

We have made an application for trademark registrations of our trademark under class 09 & 11 under the Trade Marks Act, 1999 (“Trade Marks Act”).

With respect to applications made for registration of trademarks, some of our trademark applications are objected by other parties. For further details in relation to the status of our trademark applications, see “Government and Other Approvals” on page 176 of this Prospectus. We cannot assure you that our applications will be accepted and that the trademarks will be registered. Pending the registration of these trademarks we may have a lesser recourse to initiate legal proceedings to protect our trademark. Further, our applications for the registration of certain trademarks in future may be opposed by third parties and we may have to incur expenses in relation to these oppositions. In the event we are not able to obtain registrations due to opposition by third parties or if any injunctive or other adverse order is issued against us in respect of any of our trademarks for which we have applied for registration, we may not be able to avail the legal protection or prevent unauthorised use of such trademarks by third parties, which may affect our business.

For further details on the trademarks, please refer to the chapter titled “Government and Other Approvals” on page 176 of this Prospectus.

7. *Increase in costs or price of our materials could have an adverse effect on our Company’s sales and profitability.*

Our Raw material such as Battery, Copper, Electrical Wires, Micro Chips, PCB, Photovoltaic Cells, Sheet Metal, Transformer, etc., form the major materials consumed for our business, and represent a significant portion of our expenses. The total restated cost of material purchase amounted to Rs. 468.77 Lakhs, Rs. 3183.22 Lakhs, Rs. 4308.31 Lakhs and Rs. 664.26 Lakhs for stub period ended July 31, 2017 and for the financial year ended 2016-17, 2015-16, and 2014-15 respectively. Although we have established relationships with various suppliers of materials, any significant increase in the prices of these materials or decrease in the

availability of the materials for whatever reason, including climatic change, could adversely affect our results of operations and consequently, our sales and profitability.

For further details of raw material cost, please refer to the chapter titled “Financial Information of the Company” on page 129 of this Prospectus.

8. *We have had certain inaccuracy in relation to regulatory filings to be made with the RoC and our company has made non-compliances of certain provision under applicable law.*

In the past, our company has made non-compliance in respect of filing of RoC forms for instance, the forms which was filed in registrar of Companies have some factual discrepancy and errors. Further our company has not filed forms for creation of charge related to secured facility provided by the bank to company. Additionally our company has made right issues in the past but the complete details of such right issues are not disclosed in forms filed with registrar of Companies. Our Company has given loan to relative of Director in the past. Further there are some instances where forms are belatedly filed in RoC with requisite additional fees.

Although no show cause notice have been issued against our Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities in respect of above, actions may be taken against our Company and its directors, in which event the financials of our Company and our directors may be affected. Also with the expansion of our operations there can be no assurance that deficiencies in our internal controls and compliances will not arise, or that we will be able to implement, and continue to maintain, adequate measures to rectify or mitigate any such deficiencies in our internal controls, in a timely manner or at all.

9. *We may not be able to manage the growth of our business effectively or continue to grow our business at a rate similar to what we have experienced in the past.*

We have witnessed significant growth in our business and operations since incorporation. A principal component of our strategy is to continue our pace of growth by expanding the size and scope of our businesses. We cannot assure you that our growth will continue at a rate similar to what we have experienced in the past. If we fail to expand at a sufficiently rapid pace, we may lose market share and potential clients to our competitors.

Our growth has placed, and continues to place, significant demands on our internal administrative infrastructure, our managerial, technical and operational capabilities as well as our financial, management and other internal risk control systems. In addition, continuous expansion increases the challenges involved with our ability to:

- Maintain high levels of client satisfaction and quality standards;
- Improve our operations and technology systems and maintain risk management standards;
- Preserve a uniform culture, values and work ethic in our operations.

We cannot assure you that our current policies and systems will adequately address these challenges, or that new risks will not arise as a result of our growth which we have not anticipated. If one or a combination of the above-mentioned factors were to arise, we may not be able to continue to grow our business which could affect our business, financial condition and results of operations.

10. *Our business depends on the performance of its information technology systems and any interruption or abnormality in the same may have an impact on our business operations and profitability.*

We have an ERP system which integrates and collates data of purchase, sales, reporting, accounting, stocks, etc. We utilise our information technology systems to monitor all aspects of our business and rely to a significant extent on such systems for the efficient operation of our business, including, monitoring of inventory levels, allocation of products and budget planning. Our information technology systems may not always operate without interruption and may encounter abnormality or become obsolete, which may affect our ability to maintain connectivity with our factory and office. We cannot assure you that we will be successful in developing, installing, running and migrating to new software system or systems as required for our overall operations. Even if we are successful in this regard, significant capital expenditures may be required, and we may not be able to benefit from the investment immediately. All of these may have a material impact on our operations and profitability. The ERP system use by us has been purchased. The regular maintenance and upgrade of the ERP system is carried out by the vendor, at costs to be incurred by the Company. Any failure in this ERP system may necessitate the Company to switch to a different system, implementation of which may result in significant costs to the Company.

Also, our Company cannot guarantee that the level of security it presently maintains is adequate or that its systems can withstand intrusions from or prevent improper usage by third parties. Our Company's failure to continue its operations without interruption due to any of these reasons may affect our Company's results of operations.

11. Our contingent liabilities and other liabilities as stated in our Restated Financial Statements could affect our financial condition.

Our Contingent liability as on July 31, 2017 was ₹ 334.33 Lacs. If this contingent liability materializes, fully or partly, the financial condition of our Company could be affected. The details of Contingent Liability as on July 31, 2017 as follows:-

S. No.	Particulars	Amount (₹ in Lacs)
1.	Contingent Liabilities in respect of Guarantee given by Company	334.33

For more information, regarding our contingent liabilities, please refer "Annexure S" in chapter titled "Financial Information of the Company" beginning on page 129 of this Prospectus.

Additionally, the other liabilities of the Company such as Statutory Payable and outstanding debt if materialized in future will affect the financial position of the Company.

12. Based on certain points noted by our auditors, our Auditors have reported in respect to matters specified in Companies (Auditor's report) order.

In connection with the audits of our financial statements, our Auditors have reported in respect to matters specified in the Companies (Auditors Report) Order, as amended, in the annexure to their audit reports for fiscal 2015 that Our Company has not maintained records showing full particulars of its fixed assets situated at which place. Although our Company has maintained the proper record of fixed assets as on date. The existence of any non-compliance under statutory regulations in future could require significant costs and resources to remedy such deficiencies. The existence of such deficiencies could cause the investors to lose confidence in our reported financial information, our business and financial condition could be affected.

13. The loss, shutdown or slowdown of operations at any of our facility or the under-utilization of any such facility may have a material effect on our results of operations and financial condition.

Our business and results of operations are dependent on our ability to effectively plan our manufacturing processes and on our ability to optimally utilize our manufacturing capacities for the various products we manufacture. Any disruption to our manufacturing process or the operation of our production facilities may result from various factors beyond our control, including, among others, the following:

- Utility supply disturbances, particularly power supply;
- Forced close down or suspension of our manufacturing facilities due to factors such as breakdown or failure of equipment, performance below expected levels of output or efficiency, facility obsolescence or disrepair, labour disputes such as strikes and work stoppages, natural disasters and industrial accidents;
- Severe weather condition;
- Interruption of our information technology systems that facilitate the management of our manufacturing facilities; and
- Other production or distribution problems, including limitations to production capacity due to regulatory requirements.

Although our production facilities have not experienced any material disruption in the past, there can be no assurance that there will not be any material disruption to our operations in the future. If we fail to take adequate steps to mitigate the likelihood or potential impact of these events, or to effectively respond to these events if they occur, our business, results of operations and financial condition could be materially affected. Further, we depend upon our suppliers and vendors to provide the necessary equipment and services that we need for our continuing operations and maintenance of our facilities, plant and machinery. We cannot assure you that we will be able to continue to obtain equipment on commercially acceptable terms, or at all, or that our vendors will continue to enter into or honor the contracts for their services. Our inability to continue to obtain equipment and enter into contracts with our vendors in a timely manner, or at all, could affect our business and results of operations.

14. Loss of major clients or the deterioration of their financial condition or prospects could have an effect on our business.

The business contribution of our top ten clients for the years ended July 31, 2017 is 49.36% of our Revenue from Operations. For further details of our top ten Customer, please refer chapter titled "Management's Discussion & Analysis of Financial Conditions &

Results of operations” on page 159 of this Prospectus. While our strategy is intended to enable us to increase our revenues and earnings from our major customer. The deterioration of the financial condition or business prospects of these customers could reduce their need for our Product, and result in a significant decrease in the revenues and earnings we derive from these customer.

Additionally, we are also exposed to payment delays and/or defaults by our customers and our financial position and financial performance are dependent on the creditworthiness of our customers. There is no guarantee that all or any of our customers will honor their outstanding amounts in time and whether they will be able to fulfill their obligations, due to any financial difficulties, cash flow difficulties, deterioration in their business performance, or a downturn in the global economy. If such events or circumstances occur from all or any of our major customer, our financial performance and our operating cash flows may be affected.

15. We do not have any long-term agreement or contract for supply of raw material & consequently are exposed to price and supply fluctuations for our raw materials.

We are, to a major extent, dependent on external suppliers for our raw materials requirements and we do not have any long-term supply agreements or commitments in relation to the same or for any other raw materials used in our manufacturing process. Consequently, we are exposed to price and supply fluctuations for our raw materials, and these fluctuations may affect our ability to obtain orders and/or to execute them in a timely manner, which would have a material effect on our business, results of operations and financial condition.

In case of non-availability of raw materials on favourable terms we may have to procure the same at the terms and conditions prevalent at that point. This will result in reducing our revenues by a considerable amount due to shortage of raw material. Further, unfavorable terms of raw materials may also force us to reduce the scale of our operations resulting in a down-sizing of our overall business. We may have to put on hold any expansion plans and our business will be affected.

For further details of our top ten Suppliers, please refer chapter titled “Management’s Discussion & Analysis of Financial Conditions & Results of operations” on page 159 of this Prospectus.

16. We are dependent on our senior management and other key personnel, and the loss of, or our inability to attract or retain, such persons could affect our business, results of operations, financial condition and cash flows.

Our performance depends largely on the efforts and abilities of our senior management and other key personnel, including our Promoter and Directors. We believe that the inputs and experience of our senior management, in particular, and other key personnel are valuable for the development of our business and operations and the strategic directions taken by our Company. For details in relation to the experience of our key management personnel, see “Our Management” on page 108 of this Prospectus. We cannot assure you that these individuals or any other member of our senior management team will not leave us or join a competitor or that we will be able to retain such personnel or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires. The loss of the services of such persons may have an effect on our business, results of operations, financial condition and cash flows.

For further details of our Key Managerial Person please refer chapter titled “Our Management” on page 108 of this Prospectus.

17. Our Company was formed in the year 2014 and after incorporation we take over the running business of proprietorship concern of one of our promoter Mr. Kalpeshkumar Ramanbhai Patel. Any future takeover may not be beneficial as the said takeover.

Our Company was incorporated by Certificate of Incorporation dated October 13, 2014 received from registrar of Companies, Gujarat with one of main object to take over the running business of proprietary concern i.e. “M/s Sun Energy Systems” in which our Promoter, Mr. Kalpeshkumar Ramanbhai Patel was the owner of the firm. The business was takeover by our Company vide business transfer agreement dated November 12, 2014 and all of the assets and liabilities along with all rights was transfer on the name of the company. Any uncertainty arises in future with regards to our business operations pursuant to such takeover and in future our company will not entered into such beneficial takeover which will cause disruption in operation of our Company and affect the financial position of our Company.

For further details of our takeover, please refer to the chapter titled “History and Certain Corporate Matters” on page 104 of this Prospectus.

18. We face foreign exchange risks that could affect our results of operations.

We face foreign exchange rate risk to the extent that certain of our purchases are denominated in a currency other than the Indian Rupee. Because of our foreign currency exposures, exchange rate fluctuations between the Indian Rupee and foreign currencies, especially the U.S. dollar, can have a material impact on our results of operations, cash flows and financial condition. The exchange rate between the Indian Rupee and U.S. dollar has been volatile in recent periods and may continue to fluctuate in the future.

Fluctuations in the exchange rates may affect us to the extent of such orders being placed overseas by us. Our Company may enter into certain contracts to hedge exchange rate fluctuations which may or may not adequately cover the potential loss that may arise as a result of such foreign exchange transactions. Moreover, these hedges do not cover all such exposures and are in any event subject to their own risks, including counterparty credit risk. Adverse moves in exchange rates that we have not adequately hedged may impact our profitability and financial condition.

For further details of our financial statements, please refer to the chapter titled “Financial Information of the Company” on page 129 of this Prospectus.

19. We face competition in our business from domestic competitors. Such competition would have an adverse impact on our business and financial performance.

The industry, in which we are operating, is highly and increasingly competitive and our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material effect on our business, financial condition and results of operations.

20. We do not have certain supporting documents for the information comprising the biographies of one Director included in the sections “Our Management” of this Prospectus.

We do not have certain documents supporting the information included in the biographies, primarily pertaining to their educational qualifications and previous work experience, for Mr. Kamlesh Narendrabhai Patel, one of our Director, disclosed in the sections “Our Management” on pages 108, respectively of this Prospectus. The information included in the Prospectus in relation to the biographies of such Director are provided by the respective Director by way of affidavit, certifying such information. Therefore, we cannot assure you that all information relating to the educational and professional background & Work experience of certain of our Director included in the sections “Our Management”, as may be applicable, is complete, true and accurate.

21. Any failure to comply with financial and other restrictive covenants imposed on us under our financing agreements may affect our operational flexibility, business, results of operations and prospects.

As on July 31, 2017, our total secured borrowings amounted to Rs. 284.60 Lakhs. Our leverage has several important consequences, including the following:

- A portion of our cash flow will be used towards repayment of debt, which will reduce the availability of cash to fund working capital requirements, capital expenditures and other general corporate purposes;
- Our borrowing cost and the existence of encumbrances on a significant portion of our immovable properties may constrain. In the event of enforcement of an event of default in connection with such secured borrowings (which is not waived or cured), our ability to continue to operate our business at such locations may be restricted;
- Fluctuations in interest rates may affect our cost of borrowing, as all or a substantial part of our borrowings is at floating rates of interest; and
- Our financing agreements require us to obtain the consent of, or to intimate, our lenders for certain actions including change in shareholding or directorship of our Company, drawdown of further loans, or taking up a new scheme of expansion or line of business, issuance of guarantees, including alterations to our Memorandum and Articles of Association. Our failure to comply with financial or restrictive covenants or periodic reporting requirements or to obtain our lenders’ consent to take certain actions in a timely manner or at all may result in declaration of an event of default by

any current or future lenders, which may accelerate repayment or increase applicable interest rates or trigger cross-default or cross-acceleration under other financing agreements.

The termination of, or declaration or enforcement of default under, any current or future financing agreement (if not waived or cured) may affect our ability to raise additional funds or renew maturing borrowings to finance our existing operations and pursue our growth initiatives and, therefore, have an effect on our business, results of operations and prospects.

For further details of our loans, please refer to the chapter titled “Statement of Financial Indebtedness” on page 157 of this Prospectus.

22. *Certain of our working capital facilities are under renewal. In case any of such banks do not renew such working capital facilities, it may affect our cash flows which may, in turn, affect our business, financial condition, results of operations and prospects.*

Our working capital facilities are renewed at periodic intervals and, as on date of this Prospectus, certain of our working capital facilities are under renewal. As of July 31, 2017 our total outstanding indebtedness was ₹ 205.06 Lacs of the aforesaid working capital facilities, we are in the process of obtaining a formal renewal from Bank of Baroda, for loans availed of by our Company. Although we have initiated the process for renewal of such facilities, we cannot assure you that the renewed working capital facilities will be available to us, on commercially viable terms, or at all. In case any of such banks do not renew such working capital facilities, it may affect our cash flows which may, in turn, affect our business, financial condition, results of operations and prospects.

For further details of our loans, please refer to the chapter titled “Statement of Financial Indebtedness” on page 157 of this Prospectus.

23. *We have experienced negative cash flows in previous years. Any operating losses or negative cash flows in the future could affect our results of operations and financial conditions*

The details of Cash flows of our Company are as follows:

Particulars	For the Period ended (in Lacs)	For the year ended (in Lacs)		
	31.07.2017	31.03.2017	31.03.2016	31.03.2015
Net Cash used in Operating Activities	(169.74)	355.22	138.53	(200.48)
Net Cash used in Investing Activities	(69.15)	(32.07)	(86.56)	(233.78)
Net Cash from Financing Activities	162.40	(242.08)	13.72	441.01

Cash flow of a Company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and to make new investments without raising finance from external resources. Any operating losses or negative cash flows could affect our results of operations and financial conditions. If we are not able to generate sufficient cash flows, it may affect our business and financial operations. For more information, regarding Cash flows please refer “Annexure III” in chapter titled “Financial Information of the Company” beginning on page 129 of this Prospectus.

24. *Our immovable property used by us is leased. If we are unable to renew existing leases or relocate operations on commercially reasonable terms, there may be an effect on our business, results of operations and prospects.*

We do not own the premises from where we operate. We typically enter into short-term leases, which is renewable in every three years approx. Periodic renewals of short-term leases may increase our costs, since they are subject to rent escalation. Further, if we are required to relocate any of our factory and office as a result of any termination or non-renewal of our leases, we may incur additional cost as a result of such relocation. Further the Live and Lease agreement entered for our registered office and Factory with our Promoter Mr. Kalpeshkumar Ramanbhai Patel for the Period of 35 Months is not registered. If we are unable to renew the agreements pursuant to which we occupy the premises on terms and conditions acceptable to us, or at all, we may have to relocate our Registered and Factory.

Any failure or difficulty faced by us in renewing leases, or disputes or other problems that we or our business partners may face in the future with lessees may affect our business and prospects. For further details of our Properties, please refer to section titled “Our Business” beginning on Page 84 of this Prospectus.

25. *Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.*

We have put in place strict quality control procedures but we cannot assure that our products will always be able to satisfy our customer's quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation and our operations. Introduction of new products or for any other reason, any failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition.

For further details of our business, please refer to the chapter titled "Our Business" on page 84 of this Prospectus.

26. *Our inability to maintain an optimal level of inventory in our factory may impact our operations and Business.*

We estimate our sales based on the forecast, demand and requirements of our Products. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively and to maintain a full range of products. We typically maintain inventory levels of raw material and finished goods that are sufficient for a few days of operation.

Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts, or natural conditions may impact the supply of raw material. Should our supply of raw material be disrupted, we may not be able to procure an alternate source of supply of raw material in time to meet the demands of our customers, or we may not be able to procure products of equal quality or on equally competitive terms, or at all. Such disruption to supply would materially affect our business, profitability and reputation. In addition, disruptions to the delivery of products may occur for reasons such as poor handling, transportation bottlenecks, or labour strikes, which could lead to delayed or lost deliveries or disrupt supply of these products. Further, if there will be situation of under-stock inventory, our ability to meet customer demand and our operating results may be affected. Any mismatch between our planning and actual Production and demand could lead to potential excess inventory or out-of-stock situations, either of which could have an effect on our business, financial condition and results of operation.

For further details of our raw material and finished goods, please refer to the chapter titled "Our Business" on page 84 of this Prospectus.

27. *Increases in interest rates may materially impact our results of operations.*

Substantially all of our secured debt carries interest at floating interest rates or at rates that are subject to adjustments at specified intervals. We are exposed to interest rate risk in respect of contracts for which we have not entered into any swap or interest rate hedging transactions, although we may decide to engage in such transactions in the future. We may further be unable to pass any increase in interest expense to our existing customers. Any such increase in interest expense may have a material effect on our business, financial condition, results of operations and cash flows. Furthermore, if we decide to enter into agreements to hedge our interest rate risk, there can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us fully against our interest rate risk.

28. *If there is a change in policies related to tax, duties or other such levies applicable to us, it may affect our results of operations.*

We benefit from certain tax regulations and incentives that accord favourable treatment to certain of our manufacturing facilities as well as for our research and development activities. These tax benefits include income tax deductions and other incentives. For details regarding income tax deductions, please refer to the chapter "Statement of Tax Benefits" beginning on page 74 of this Prospectus.

On March 31, 2015, the Ministry of Finance, Government of India has issued ten Income Computation and Disclosure Standards ("ICDS"), a new framework for computation of taxable income by all assesseees. All assesseees would be required to adopt these standards for the purposes of computation of taxable income under the heads "Profit and Gains of Business or Profession" and "Income from Other Sources". These standards are applicable for the previous fiscal commencing April 1, 2015, i.e., assessment year 2016 – 17 onwards.

New or revised accounting policies or policies related to tax, duties or other such levies promulgated from time to time by the relevant authorities may significantly affect our results of operations. We cannot assure you that we would continue to be eligible for such lower tax rates or any other benefits. The reduction or termination of our tax incentives, or non-compliance with the

conditions under which such tax incentives are made available, will increase our tax liability and affect our business, prospects, results of operations and financial condition.

29. Our business is manpower intensive and our business may be affected if we are unable to obtain or retain employees on contract or at commercially attractive costs.

Our success depends on our ability to attract, hire and retain skilled and unskilled labour. Our business is manpower intensive and our continued growth depends in part on our ability to recruit and retain suitable staff. We have faced increasing competition for management and skilled personnel with significant knowledge and experience in the solar sector in India. There can be no assurance that attrition rates for our employees, particularly our sales personnel, will not increase. A significant increase in our employee attrition rate could also result in decreased operational efficiencies and productivity, loss of market knowledge and customer relationships, and an increase in recruitment and training costs, thereby materially affecting our business, results of operations and financial condition. We cannot assure you that we will be able to find or hire personnel with the necessary experience or expertise to operate our business. In the event that we are unable to hire people with the necessary knowledge or the necessary expertise, our business may be severely disrupted, financial condition and results of operations may be affected.

Additionally, we have seen an increasing trend in manpower costs in India, which has had a direct impact on our employee costs and consequently, on our margins. Further, the minimum wage laws in India may be amended leading to upward revisions in the minimum wages payable in one or more states. We may need to increase compensation and other benefits in order to attract and retain key personnel in the future and that may materially affect our costs and profitability. We cannot assure you that as we continue to grow our business in the future, our employee costs coupled with operating expenses will not significantly increase.

30. Our Group Company have incurred losses in past and any operating losses in the future could affect the results of operations and financial conditions of our group company.

The details of profit and loss of our Group Company in past years are as follows:-

Name of the Group Company	Profit/ (Loss) for the year ended (Amount in Lacs)		
	31 st March 2017	31 st March 2016	31 st March 2015
Sun Solar Techno Limited	3.51	(4.16)	27.87

Any operating losses could affect the overall operations and financial conditions of the Group. For more information, regarding the Company, please refer chapter titled “Our Group Company” beginning on page 125 of this Prospectus.

31. We have significant power requirements for continuous running of our factory. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.

Our factory and registered office have significant electricity requirements and any interruption in power supply to our factory and office may disrupt our operations. Our business and financial results may be affected by any disruption of operations. We depend on third parties for all of our power requirements. Further, we have limited options in relation to maintenance of power back-ups such as diesel generator sets and any increase in diesel prices will increase our operating expenses which may impact our business margins.

Since we have significant power consumption, any unexpected or significant increase in its tariff can increase the operating cost of our factory and office. There are limited number of electricity providers in area from where we operate due to which in case of a price hike we may not be able to find a cost-effective substitute, which may negatively affect our business, financial condition and results of operations.

For further details of our infrastructure, please refer to the chapter titled “Our Business” on page 84 of this Prospectus.

32. We depend on third parties for a major portion of our transportation needs. Any disruptions may affect our operations, business and financial condition.

We do not have an in-house transportation facility and we rely on third party transportation and other logistic facilities at every stage of our business activity including for procurement of raw material from our suppliers and for transportation from our finish products to our customers. For this purpose, we hire services of transportation companies. However, we have not entered into any definitive agreements with any third party transport service providers and engage them on a needs basis. Additionally, availability of

transportation solutions in the markets we operate in is typically fragmented. We rarely enter into written documentation in relation to the transportation services we hire which poses various additional risks including our inability to claim insurance. Further, the cost of our goods carried by such third party transporters is typically much higher than the consideration paid for transportation, due to which it may be difficult for us to recover compensation for damaged, delayed or lost goods.

Our operations and profitability are dependent upon the availability of transportation and other logistic facilities in a time and cost efficient manner. Accordingly, our business is vulnerable to increased transportation costs including as a result of increase in fuel costs, transportation strikes, delays, damage or losses of goods in transit and disruption of transportation services because of weather related problems, strikes, lock-outs, accidents, inadequacies in road infrastructure or other events.

Although we have not experienced any disruptions in the past, any prolonged disruption or unavailability of such facilities in a timely manner could result in delays or non-supply or may require us to look for alternative sources which may be cost inefficient, thereby affecting our operations, profitability, reputation and market position.

33. *Our Company has in the past entered into related party transactions and may continue to do so in the future.*

We have entered into and may in the course of our business continue to enter into transactions specified in the Restated Financial Information contained in this Prospectus with related parties that include our Promoter and Directors and Group Company and entities. For further details in relation to our related party transactions, see “Related Party Transactions” on page 152 of this Prospectus. While we believe that all such transactions have been conducted on an arm’s length basis and in the ordinary course of business, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, including specific compliance requirements such as obtaining prior approval from audit committee, the board of directors and shareholders for certain related party transactions. There can be no assurance that such transactions, individually or in the aggregate, will not have a material effect on our financial condition and results of operations.

34. *Accidents could result in the slowdown or stoppage of our operations and could also cause damage to life and property.*

We endeavour to meet necessary safety standards in relation to our operations at our factory. However, certain accidents or mishaps may be unavoidable or may occur on account of negligence or human error in complying with the prescribed safety standards or for other reasons. Such accidents or mishaps may result in, amongst others, an action of tort being initiated against us.

Therefore, although we take steps to ensure safety, accidents, including human fatalities, may occur and there can be no assurance that our safety measures and the precautions undertaken will be completely effective or sufficient. Further, if we fail to maintain adequate insurance cover in relation to the foregoing, a claim filed by us with our insurer is rejected, a loss occurs, which does not fall under the insurance cover maintained by us, or our claim is subject to any deductible or delay in settlement, amongst other things, our exposure will increase. Any accident at our area of operations could also harm our reputation. Such accidents may have an impact on our business and reputation.

35. *In addition to normal remuneration, other benefits and reimbursement of expenses some of our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby affecting our business and results of operations and prospects.

36. *Any Penalty or demand raise by statutory authorities in future will affect our financial position of the Company.*

Our Company is mainly engaged in business of manufacturing of Solar Products which attracts tax liability such as Excise Duty, Sales Tax, Service Tax, Goods and Service Tax and other applicable provision of the Acts. However the Company has been depositing the return under above applicable acts but any demand or penalty raise by concerned authority in future for any previous

year and current year will affect the financial position of the Company. Please refer “Outstanding Litigation and Material Development” beginning on page 172 of Prospectus. Any such penalty arising in future may lead to financial loss to our Company.

37. *Our Promoter/Director have provided personal guarantees for loan facilities obtained by our Company, and any failure or default by our Company to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations on them, which may impact their ability to effectively service their obligations as our Promoter/Director and thereby, impact our business and operations.*

Mr. Kalpeshkumar Ramanbhai Patel, Our Promoter along with his relative has extended personal guarantee for loan from Bank of Baroda sanctioned amounting Rs. 1368.45 Lacs. Also Our Promoter has extended his personal property for said loan.

Any default or failure by us to repay its loans in a timely manner, or at all could trigger repayment obligations on the part of Mr. Kalpeshkumar Ramanbhai Patel in respect of such loans, which in turn, could have an impact on their ability to effectively service their obligations as Promoter/Director of our Company, thereby having an effect on our business, results of operation and financial condition. Furthermore, in the event that these individual withdraw or terminate their guarantees and collateral security, our lenders for such facilities may ask for alternate guarantees and collateral security, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows.

For further details, please refer to chapter titled “Statement of Financial Indebtedness” beginning on page 157 of the Prospectus.

38. *Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on factual data and proposed capacity is based on certain assumptions and has been subjected to rounding off, and future production and capacity utilization may vary.*

Information relating to our production capacities and the historical capacity utilization of our production facilities included in this Prospectus is based on factual data of past years and proposed capacity utilization is based on various assumptions and estimates of our management, including proposed operations, assumptions relating to availability and quality of raw materials, assumptions relating to operational efficiencies, as well as assumptions in relation to the average density of Solar products manufactured by us. Actual production levels and utilization rates may differ significantly from the estimated production capacities or capacity utilization information of our facilities. Undue reliance should therefore not be placed on our production capacity or estimated capacity utilization information for our existing facilities included in this Prospectus. For further information, see the section titled “Our Business” on page 84 of this Prospectus.

39. *Our business operations may be materially affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.*

We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may affect our business and results of operations and may also divert the management’s attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management’s attention due to union intervention, which may have a material impact on our business, results of operations and financial condition. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Shortage of skilled personnel or work stoppages caused by disagreements with employees could have an effect on our business and results of operations.

For further details of our Employees, please refer to chapter titled “Our Business” beginning on page 84 of the Prospectus.

40. *Delays or defaults in client payments could affect our operations.*

We may be subject to working capital risks due to delays or defaults in payment by clients from India, which may restrict our ability to procure raw materials and make payments when due. In addition, any delay or failure on our part to supply the required quantity

or quality of products, within the time stipulated by our agreements, to our customers may in turn cause delay in payment or refusal of payment by the customer. We typically extend credit terms to our large institutional and other customers. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations.

41. Obsolescence, destruction, theft, breakdowns of our major plants or machineries or failures to repair or maintain the same may affect our business, cash flows, financial condition and results of operations

Obsolescence, destruction, theft or breakdowns of our major plants or machineries may significantly increase our machineries purchase cost and the depreciation of our plants and machineries, as well as change the way our management estimates the useful life of our plants and machineries. In such cases, we may not be able to acquire new plants or machineries or repair the damaged plants or machineries in time or at all, particularly where our plants or machineries are not readily available from the market or require services from original machinery manufacturers. Some of our major machineries or parts may be costly to replace or repair. We may experience significant price increases due to supply shortages, inflation, transportation difficulties or unavailability. Such obsolescence, destruction, theft, breakdowns, repair or maintenance failures or price increases may not be adequately covered by the insurance policies availed by our Company and may have an effect our business, cash flows, financial condition and results of operations

For further details of our Plant and Machineries, please refer to chapter titled “Our Business” beginning on page 84 of the Prospectus.

42. Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material effect on our business and financial condition.

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including (i) insurance policies regarding movable properties like car insurance, (ii) plants & machinery and electrical equipment insurance policies and (iii) fire insurance policy for factory from we have operate our business, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our reputation. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, reputation, results of operations, financial condition and cash flows.

For further details of our Insurance Policies, please refer section titled “Our Business” beginning on Page 84 of this Prospectus.

43. Our Company’s management will have flexibility in utilizing the Net Proceeds from the Issue. The deployment of the Net Proceeds from the Issue is not subject to any monitoring by any independent agency.

Our Company intends to primarily use the Net Proceeds towards working capital requirement and for general corporate purposes as described in “Objects of the Issue” on page no. 66 of this Prospectus. In terms of Regulation 16 of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of ₹ 100 crores. The management of our Company will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company’s management regarding the application of the Net Proceeds from the Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this section “Risk Factors”, may limit or delay our Company’s efforts to use the Net Proceeds from the Issue to achieve profitable growth in its business.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoter or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.

Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue and our business and financial results may suffer.

44. We have not identified any alternate source of raising the working capital mentioned as our 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not identified any alternate source of funding for our working capital requirement and for general corporate purposes and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of working capital or may require our Company to borrow funds on unfavorable terms, both of which scenarios may affect the business operation and financial performance of the Company.

For further details of our Object, please refer section titled "Object for the Issue" beginning on Page 66 of this Prospectus.

45. We have not independently verified certain data in this Prospectus.

We have not independently verified data from the Industry and related data contained in this Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

46. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "Dividend Policy" on page 128 of this Prospectus.

47. We have in the last 12 months issued Equity Shares at a price that may be at lower than the Issue Price.

In the last 12 months we may have issued fresh Equity Shares to the promoter and other shareholders of our Company which are as follows:-

- Bonus issue in the ratio of 3:5 dated September 22, 2017 issuing 13,35,000 Equity shares face value ₹ 10/- per Equity Share.

The Equity Shares allotted to investors pursuant to this Issue is being priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time.

For Further details of equity shares issued, please refer to the chapter titled "Capital Structure" beginning on page 54 of the Prospectus.

48. *The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined on the basis of the Fixed Price Process. This price is based on numerous factors. For further information, see “Basis for Issue Price” beginning on page 71 of this Prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

49. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.*

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company’s Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company’s Equity Shares. Additionally the disposal, pledge or encumbrance of Equity Shares by any of our Company’s major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

50. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Capital gains arising from the sale of our Equity Shares are generally taxable in India. Any gain realised on the sale of our Equity Shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax has been paid on the transaction. The securities transaction tax will be levied on and collected by an Indian stock exchange on which our Equity Shares are sold. Any gain realised on the sale of our Equity Shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no securities transaction tax has been paid, will be subject to capital gains tax in India. Further, any gain realised on the sale of our Equity Shares held for a period of 12 months or less will be subject to capital gains tax in India.

Capital gains arising from the sale of equity shares will be exempt from taxation in India in cases where an exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of equity shares.

51. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of us. Under the takeover regulations in India, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the Indian takeover regulations.

52. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions*

The articles of association, resolutions of the board of directors, and Indian law govern the corporate affairs of companies operating in India. Legal principles relating to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company incorporated in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as our Company's shareholders than as shareholders of corporations in another jurisdiction.

53. *The average cost of acquisition of Equity Shares by our Promoter could be lower than the Issue Price.*

Our Promoter average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price as may be decided by the Company, in consultation with the Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoter in our Company and build-up of Equity Shares by our Promoter in our Company, please refer to the chapters "Risk Factors- Prominent Notes" and "Capital Structure" beginning on pages 14 and 54 respectively of this Prospectus.

EXTERNAL RISK FACTORS

54. *Changing laws, rules and regulations and legal uncertainties, including application of tax laws and regulations, may affect our business and financial performance.*

Our business and financial performance could be affected by changes in law or regulatory environment, or interpretations of existing laws, rules and regulations, or the promulgation of new laws, rules and regulations in India, applicable to us and our business. Any significant changes in relevant regulations, laws or regulatory environment might materially impact the Company's operations and financials.

Additionally, the regulatory environment in which we operate is subject to change both in the form of gradual evolution over time and also in form of significant reforms from time to time. For instance, a recent notification issued by the Government of India withdrawing the legal tender status of currency notes of ₹500 and ₹1,000, may have had and may continue to have an adverse effect on certain sectors of the Indian economy. Further, the General Anti Avoidance Rules ("GAAR") are effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefits among other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us. Any such change in the future may require us to commit significant management resources and may require significant changes to our business practices and could have a material adverse effect on our business, financial condition, results of operations and prospects.

The governmental and regulatory bodies in India may notify new regulations and/or policies, which may require us to obtain approvals and licenses from the government and other regulatory bodies, or impose onerous requirements and conditions on our operations, in addition to those which we are undertaking currently. Any such changes and the related uncertainties with respect to the implementation of new regulations may have a material adverse effect on our business, financial condition and results of operations.

In addition, there have been various changes and proposed changes recently in the laws and regulations relating to information technology in India. Any such changes could require us to redesign our information technology systems or redesign our digital

processes to comply with such laws and regulations. We cannot assure you that we will be able to redesign such systems or processes in a cost-effective manner, or at all. Since our business depends heavily on the ability of our information technology systems and digital processes, any change in the laws or regulations relating to information technology in India could have a material adverse effect on our business, financial condition, results of operations and prospects.

55. *We may be affected by competition law in India and any application or interpretation of the Competition Act could in turn affect our business.*

The Competition Act was enacted for the purpose of preventing practices that have or are likely to have an effect on competition in India and has mandated the CCI to separate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable effect on competition is void and attracts substantial penalties.

Further, any agreement among competitors which, directly or indirectly, involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of subscribers in the relevant market is presumed to have an appreciable effect in the relevant market in India and shall be void. The Competition Act also prohibits abuse of a dominant position by any enterprise. On March 4, 2011, the Central Government notified and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the CCI. Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India.

The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable effect in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We are not currently party to any outstanding proceedings, nor have we received notice in relation to non-compliance with the Competition Act or the agreements entered into by us. However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would affect our business, financial condition, results of operations and prospects.

56. *Significant differences exist between Indian GAAP and other accounting principles, such as US GAAP and IFRS, which may be material to investors' assessments of our Company's financial condition. Our failure to successfully adopt IFRS may have an effect on the price of our Equity Shares. The proposed adoption of IFRS could result in our financial condition and results of operations appearing materially different than under Indian GAAP.*

Our financial statements, including the financial statements provided in this Prospectus, are prepared in accordance with Indian GAAP. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or IFRS. U.S. GAAP and IFRS differ in significant respects from Indian GAAP. For details, see "Certain Convention, use of financial information & Market Data & Currency of Financial Presentation" on page no. 11 of this Prospectus. Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Prospectus should accordingly be limited.

India has decided to adopt the "Convergence of its existing standards with IFRS" and not the "International Financial Reporting Standards" ("IFRS"), which was announced by the MCA, through the press note dated January 22, 2010. These "IFRS based / synchronized Accounting Standards" are referred to in India as IND (AS).

Public companies in India, including our Company, may be required to prepare annual and interim financial statements under IND (AS). The MCA, through a press release dated February 25, 2011, announced that it will implement the converged accounting standards in a phased manner after various issues, including tax related issues, are resolved. Further, the Finance Minister, during the Budget speech, 2014, proposed the adoption of IND (AS) by Indian companies from fiscal 2016 on a voluntary basis, and from fiscal 2017 on a mandatory basis. Accordingly, it is not possible to quantify whether our financial results will vary significantly due to the convergence to IND (AS), given that the accounting principles laid down in the IND (AS) are to be applied to transactions

and balances carried in books of accounts as on the date of the applicability of the converged standards (i.e., IND (AS)) and for future periods.

Further, we have made no attempt to quantify or identify the impact of the differences between Indian GAAP and IFRS or to quantify the impact of the difference between Indian GAAP and IFRS as applied to its financial statements. There can be no assurance that the adoption of IND-AS will not affect our reported results of operations or financial condition. Any failure to successfully adopt IND-AS may have an effect on the trading price of our Equity Shares.

Moreover, our transition to IFRS reporting may be hampered by increasing competition and increased costs for the relatively small number of IFRS-experienced accounting personnel available as more Indian companies begin to prepare IFRS financial statements. Any of these factors relating to the use of IFRS-converged Indian Accounting Standards may affect our financial condition.

57. The currency demonetization measures imposed by the Government of India may affect the India Economy and our business.

Through notifications dated November 8, 2016 issued by the Ministry of Finance, GoI and the RBI ₹ 500 and ₹ 1,000 denominations of bank notes of then existing series issued by the RBI have ceased to be legal tender. Pursuant to this currency demonetisation, these high denomination notes have no value and cannot be used for transactions or exchange purposes with effect from November 9, 2016. These notes are currently being replaced with a new series of bank notes. In an effort to monitor replacement of demonetised notes, the GoI has specified restrictive limits for exchange and withdrawal of currency all over India. The process of demonetisation and replacement of these high denomination notes is likely to reduce the liquidity in the Indian economy which has significant reliance on cash. These factors may result in reduction of purchasing power, and alteration in consumption patterns of the economy in general. While the comprehensive and long-term impact of this currency demonetisation measure cannot be ascertained at the moment, it is possible that there will be a slowdown in the economic activities in India as expressed by various experts, at least in the short term, given the demonetization impacts a majority quantity of the cash currency in circulation. Such a slowdown can affect the Indian economy, impacting the consumer sector, in turn affecting the operations of our company, which can affect their financials and profitability.

58. Our business is dependent on the Indian economy.

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise.

There have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

59. Financial instability in Indian financial markets could adversely affect our results of operations and financial condition.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in Asian emerging market countries. Financial turmoil in global economy in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy

in general. Any worldwide financial instability could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

60. Our performance is linked to the stability of policies and the political situation in India.

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian governments have pursued policies of economic liberalization and financial sector reforms. The current Government has announced its general intention to continue India's current economic and financial sector liberalization and deregulation policies. However there can be no assurance that such policies will be continued and a significant change in the government's policies in the future could affect business and economic conditions in India and could also adversely affect our business, prospects, financial condition and results of operations.

Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the industrial equipment manufacturing sectors, foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

61. Civil disturbances, regional conflicts and other acts of violence in India and abroad may disrupt or otherwise adversely affect the Indian economy.

Certain events that are beyond the control of our Company, such as violence or war, including those involving India, the United Kingdom, the United States or other countries, may adversely affect worldwide financial markets and could potentially lead to a severe economic recession, which could adversely affect our business, results of operations, financial condition and cash flows, and more generally, any of these events could lower confidence in India's economy. Southern Asia has, from time to time, experienced instances of civil unrest and political tensions and hostilities among neighbouring countries. Political tensions could create a perception that there is a risk of disruption of services provided by India-based companies, which could have an adverse effect on our business, future financial performance and price of the Equity Shares. Furthermore, if India were to become engaged in armed hostilities, particularly hostilities that are protracted or involve the threat or use of nuclear weapons, the Indian economy and consequently Company's operations might be significantly affected. India has from time to time experienced social and civil unrest and hostilities, including riots, regional conflicts and other acts of violence. Events of this nature in the future could have an adverse effect on our ability to develop our business. As a result, our business, results of operations and financial condition may be adversely affected.

Prominent Notes:

1. Public Issue of 13,80,000 Equity Shares of Face Value of ₹ 10/- each of Solex Energy Limited ("SEL" or "The Issuer", "Our Company") for Cash at a Price of ₹ 52 Per Equity Share (Including a Share Premium of ₹ 42 per Equity Share) ("Issue Price") aggregating to ₹ 717.60 Lakhs, of which 72,000 Equity Shares of Face Value of ₹ 10/- each at a price of ₹ 52 aggregating to ₹ 37.44 Lacs will be reserved for subscription by Market Maker ("Market Maker Reservation Portion") and Net Issue to Public of 13,08,000 Equity Shares of Face Value of Rs. 10/- each at a price of ₹ 52 aggregating to ₹ 680.16 Lakhs (hereinafter referred to as the "Net Issue") The Issue and the Net Issue will constitute 27.94% and 26.48% respectively of the Post Issue paid up Equity Share Capital of Our Company.
2. SECTION III – INTRODUCTION

SUMMARY OF OUR INDUSTRY

GLOBAL ECONOMIC OUTLOOK

Global growth is firming, contributing to an improvement in confidence. A recovery in industrial activity has coincided with a pickup in global trade, after two years of marked weakness. In emerging market and developing economies (EMDEs), obstacles to growth among commodity exporters are gradually diminishing, while activity in commodity importers remains generally robust. As a result, and despite substantial policy uncertainty, global growth is projected to accelerate to 2.7 percent in 2017, up from a post-crisis low of 2.4 percent in 2016, before strengthening further to 2.9 percent in 2018-19, broadly in line with January projections.

Activity in advanced economies is expected to gain momentum in 2017, supported by an upturn in the United States, as previously anticipated. In the Euro Area and Japan, growth forecasts have been upgraded, reflecting strengthening domestic demand and exports. Investment across advanced economies has firmed, while private consumption growth has moderated. As actual growth continues to exceed potential growth, increasing inflation and narrowing output gaps have raised the prospects of less accommodative monetary policy. Advanced economy growth is expected to accelerate to 1.9 percent in 2017, before moderating gradually in 2018-19. As usual, the outlook is predicated only on legislated fiscal and trade policies.

The recovery in global trade coincides with strengthening investment, which is more import intensive than other components of aggregate demand. Nevertheless, structural headwinds, including slower trade liberalization and value chain integration, as well as elevated policy uncertainty, continue to weigh on the outlook for trade. Global financing conditions have been benign and benefited from improving market expectations about growth prospects. Financial market volatility has been low despite elevated policy uncertainty, reflecting investor risk appetite and, perhaps, some level of market complacency.

Renewed risk appetite has supported EMDE financial markets and led to a narrowing of corporate bond spreads globally. Capital inflows to EMDEs were robust in the first half of 2017, partly in a rebound from late-2016 weakness. Over time, however, a gradual tightening of international financing conditions may weigh on capital flows to EMDEs. Commodity prices have continued to rise moderately, although prospects for increased U.S. shale oil production are weighing on the outlook for oil prices. Against an improving international backdrop, growth in EMDEs has strengthened from a post crisis low of 3.5 percent in 2016. It is projected to reach 4.1 percent in 2017 and 4.5 percent in 2018. In commodity exporters, firming commodity prices, recovering industrial activity, stabilizing investment, and improving confidence are supporting a gradual recovery, following near stagnation in the past couple of years. This recovery will be broad-based, impacting nearly 70 percent of commodity exporters in 2017. However, lingering fiscal and external adjustment needs dampen growth prospects in a number of countries. As a result, growth in commodity exporters is projected to rise from 0.4 percent in 2016 to 1.8 percent in 2017 and 2.7 percent in 2018—somewhat below January forecasts, reflecting longer-than-expected adjustment to low commodity prices in some countries and, to a lesser degree, slightly lower oil price projections.

Major economies: Recent developments and outlook

Growth in major advanced economies has strengthened, and their short-term outlook has improved, despite elevated policy uncertainty. A modest recovery should continue, with output gaps narrowing and inflation gradually converging toward central bank targets. U.S. monetary policy normalization is expected to proceed at a measured pace. China's policy guided gradual transition to slower but more sustainable growth continues as expected.

Advanced economies started the year on a solid note, with investment and exports regaining momentum after subdued growth in 2016. Private consumption decelerated somewhat in early 2017, but has been supported by labor market improvements. Import demand has strengthened, further contributing to a recovery in global trade. In 2017, growth is expected to pick up in the United States and Japan, and to remain broadly stable in the Euro Area. Forecasts for several major economies have been upgraded. Economic slack continues to diminish, and inflation expectations are rising, albeit at different rates.

INDIAN ECONOMY OVERVIEW

Economic growth is projected to remain strong and India will remain the fastest growing G20 economy. The increase in public wages and pensions will support consumption. Private investment will recover gradually as excess capacity diminishes, and the landmark Goods and Services Tax and other measures to improve the ease of doing business are being implemented. However,

large non-performing loans and high leverage of some companies are holding back investment. Monetary policy is projected to remain tight as inflation expectations have still not fully adjusted down. The need to reduce the relatively high public-debt-to-GDP ratio leaves little room for fiscal stimulus. However, investing more in physical and social infrastructure is critical to raising living standards for all. This should be financed by a comprehensive reform of income and property taxes. Restoring credit discipline and cleaning up banks' balance sheets will be instrumental to support the credit growth needed to finance more business investment. Trade openness has increased, partly driven by a competitive service sector. Manufacturing has lagged behind, with limited contribution to exports and job creation, leaving many workers in low-paid jobs. Promoting quality job creation in manufacturing would require reducing further restrictions on FDI and trade, modernising labour regulations and providing better education and skills. Better infrastructure, transport and logistic services would facilitate manufacturing firms' access to global markets, particularly from remote and poorer regions.

Robust consumption and a rebound in exports are boosting growth. Growth remains strong. Private consumption has been buoyant, boosted by the increase in public wages and pensions and by higher agricultural and rural incomes. The costs of the withdrawal of high denomination notes – demonetisation – in November 2016 are wearing off, and sales of cars and two-wheelers have bounced back. Investment has so far failed to rebound, despite government efforts to develop rail, road and energy infrastructure and to improve the ease of doing business. Excess capacity (e.g. in the steel sector) and the weak financial position of some corporations, combined with large non-performing loans for most public sector banks, have restrained business investment. Exports have picked up, driven by strong demand from Asia and the euro area. Higher oil prices and gold imports, coupled with a decline in remittances inflows, are reflected in some deterioration in the current account deficit. However, the deficit remains well below its longer-term average. FDI net inflows have been rising steadily since 2014 and are fully financing the current account deficit.

Growth increases will rest on the revival of investment

Growth is projected to increase further. Private consumption will remain steady as increases in wages and pensions for central government employees are followed by similar adjustments in the states. The recent increase in capacity utilisation, coupled with the rebound in industrial production for capital goods and manufacturing indices, bodes well for a gradual revival of private investment. The implementation of the GST, by lowering the price of capital goods, and the cut in the corporate income tax rate should also support investment. Inflation will likely increase from the low levels in early 2017, but will remain within the authorities' target band. The revival of (import-intensive) corporate investment, higher oil prices and lower remittance flows will be reflected in a larger current account deficit.

The prospect of further structural reform is a clear positive risk for growth. The deterioration in the quality of banks' portfolios, as shown by the increase in nonperforming loans and stressed assets, risks damping investment and growth. India, as a net commodity importer, would suffer from higher commodity prices. Protectionist measures could restrict exports of goods and services and thus harm the economy's potential to create quality jobs.

POWER SECTOR INDUSTRY

Power is one of the most critical components of infrastructure crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy.

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

India ranks third among 40 countries in EY's Renewable Energy Country Attractiveness Index, on back of strong focus by the government on promoting renewable energy and implementation of projects in a time bound manner.

India has moved up 73 spots to rank 26th in the World Bank's list of electricity accessibility in 2017, according to Mr Piyush Goyal, Minister of State (Independent Charge) for Power, Coal, Renewable Energy and Mines, Government of India.

In September 2017, the Government of India launched the Saubhagya scheme to provide electricity connections to over 40 million families in rural and urban areas by December 2018 at a cost of US\$ 2.5 billion.

THE ROAD AHEAD

- The 2026 forecast for India's non-hydro renewable energy capacity has been increased to 155 GW from 130 GW on the back of more than expected solar installation rates and successful wind energy auctions#.
- India could become the world's first country to use LEDs for all lighting needs by 2019, thereby saving Rs 40,000 crore (US\$ 6.23 billion) on an annual basis.
- India's solar power capacity addition is forecasted at 9.4 gigawatts (GW) in 2017 which is even higher than the previous estimates of 8.8GW of capacity addition&.
- The Indian power sector has an investment potential of Rs 15 trillion (US\$ 225 billion) in the next 4–5 years, thereby providing immense opportunities in power generation, distribution, transmission, and equipment, according to Union Minister Mr. Piyush Goyal.
- The government's immediate goal is to generate two trillion units (kilowatt hours) of energy by 2019. This means doubling the current production capacity to provide 24x7electricity for residential, industrial, commercial and agriculture use.
- The government has electrified 13,000 villages so far out of the total 18,452 villages and is targeting electrification of all villages by 2019, within the targeted 1,000 days.
- The Government of India is taking a number of steps and initiatives like 10-year tax exemption for solar energy projects, etc., in order to achieve India's ambitious renewable energy targets of adding 175 GW of renewable energy, including addition of 100 GW of solar power, by the year 2022. The government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.

SUMMARY OF OUR BUSINESS

The following information should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in “Risk Factors”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Financial Information of the Company” on page 14, 159 & 129 respectively

OVERVIEW

Incorporated in 2014, Our Company is engaged providing renewable energy solutions, specialized in the manufacturing of Solar photovoltaic module, solar home light, solar street light, solar lantern, solar power plant, solar invertors, solar water heating systems and wood fired water heater etc. We precisely manufacture the offered products using optimum grade components and advanced technology in compliance with the set norms of the industry. We also provide the offered appliances in numerous specifications and customization in accordance with the demands of our customers. Our manufacturing facilities is situated in Anand, Gujarat.

Solex Energy Limited is an ISO 9001:2015 Certification, ISO 14001:2015 Certification, OHSAS 18001:2007 and CE MARK CERTIFIED offering systems of high quality and reliability. Solex modules are TUV certified & tested by the UL India Pvt. Ltd and comply in accordance with the standards.

Our Company was originally incorporated on October 13, 2014 as “Solex Energy Private Limited” under the provisions of the Companies Act, 2013 with the Registrar of Companies, Gujarat. After incorporation, Our Company has acquired the running business of “M/s Sun Energy Systems” a proprietorship concern of our Promoter engaged in manufacturing of Solar Panels and other renewable Energy Devices since 2002 vide business transfer agreement dated November 12, 2014. Further our Company was converted into Public Limited Company and consequently name of company was changed from “Solex Energy Private Limited” to “Solex Energy Limited” vide resolution passed by the Shareholders at the Annual General Meeting held on September 09, 2017 and a fresh certificate of incorporation dated September 22, 2017 issued by the Registrar of Companies, Ahmedabad.

Solex was originally incorporated by Mr. Kalpeshkumar Ramanbhai Patel and Ms. Arpitaben Upendrabhai Shelat in the year 2014. Presently the promoter of the Company is Mr. Kalpeshkumar Ramanbhai Patel, who have rich experience of about more than 24 years in the field of solar manufacturing business. The vast experience of the Promoter has been instrumental in determining the vision and growth strategies for our Company. We further believe that our market position has been achieved by adherence to the vision of our Promoter and senior management team and their experience of over a decades in the industry in which our Company operates.

Mr. Kalpeshkumar Ramanbhai Patel, Chairman cum Managing Director of the Company has a vision & mission that to provide the world class renewable energy solutions, services, technology and contribute to the sustainability. We are widely recognized for our high-quality products, services and contribution to a sustainable life. Our focus is to continuously improve our efficiency, quality, and technology.

Our product ranges from Solar PV Module (3WP - 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC). We also provide solution for solar roof top system, solar home and rural lighting system, solar power pack and solar power plant. Our Products are eligible for Subsidy from Government which is reduced from sales value during the sale of Product and thereafter release to our Company directly from Government.

Our development process includes design, development, testing, manufacturing and delivery. Our progressive management and cutting edge production technology contribute to our ability to provide our customers with exceptional value in a highly competitive industry. The main object of the company is to provide the best quality with cheaper cost, so in line with our mission of offering high quality, cost effective photovoltaic solutions without compromising on quality, performance & safety, we have invested in state-of-the-art automatic production line that offers premium quality of production with consistency and economies of scale. Further, for manufacturing good quality products without any hurdles, we have implemented strict quality checks and control in order to offer our clients with only the top most quality products.

For the period year ended July 31, 2017 our company’s Total Revenue and Restated Profit after Tax were Rs. 635.49 Lacs and Rs. 30.87 Lacs respectively. For the year ended March 31, 2017, our Company’s Total Revenue and Restated Profit after Tax were Rs. 3449.60 Lacs and Rs. 91.64 Lacs, respectively. For the year ended March 31, 2016, our Company’s Total Revenue and Restated Profit after Tax was Rs. 4662.14 Lacs and Rs. 38.64 Lakhs respectively, compared to our Company’s Total Income and Restated Profit after Tax of Rs. 637.46 Lacs and Rs. 9.53 Lacs respectively, over previous year ended i.e. March 31, 2015.

Certifications and Recognition:-

- Certificate of Compliance as ISO 9001:2015 for its Quality Management Systems.
- Certificate of Compliance as ISO 14001:2015 certified for its Environmental Management Systems.
- Certificate as OHSAS: 18001: 2007 certified for its Health & Safety Management Systems.
- Certified for Photovoltaic Module (PV) by UL India Private Limited for comply with IEC 61701 Standard for Salt Mist Corrosion testing.
- Certified by SGS-TUV SAAR GMBH (Germany) for Solar Products.

COMPETITIVE STRENGTHS

Cost efficient sourcing and locational advantage

We have established a technologically advanced infrastructural facility, which spreads across a huge land area. This facility includes different units like production unit, admin, marketing, quality control etc. These units are equipped with up-to-date machinery and modern technology and ensures hassle free operations. With the backing of the quality of our products and reasonable rates at which we offer these, we have managed to establish a strong footing in the industry. Our specialists work in close synchronization with each another to satisfy the ever evolving necessities of our prestigious customers in the most efficient manner. Being a quality oriented organization, we make enormous effort to present our clientele with excellent quality products as per their requirements. We believe that our cost efficient manufacturing and supply chain management results in a significant reduction in our operational costs. With our experience, we are able to time our procurement of raw materials and being a large player in the industry we are also able to source these materials at a competitive price.

Proven and experienced management team

Our Promoter has around 24 years of experience in the industry. We believe that our senior management team has extensive experience in the commissioning of and operating manufacturing capacities, finance, sales, business development and strategic planning in the industry. The vision and foresight of our management enables us to explore and seize new opportunities and accordingly position ourselves to introduce new products to capitalize on the growth opportunities in the interior infrastructure sector. We believe that the demonstrated ability and expertise of our management team for committed asset investment and use of cutting-edge technology results in growing capacities and rising production levels with better cost management and enhanced process efficiency has translated into our quality product, increasing profitability and improved margins which gives us a competitive edge. Under the able guidance of our mentor, we have touched highest position in this highly competitive industry. His innovative thinking and creative ideas have helped us to claim the remarkable position in the industry.

Our sales and marketing network

Currently, we are doing market only in India. We are enhancing our presence in India by offering customer better product varieties and quality at economical prices. The Company has added several high value products such as Solar PV Module (3WP – 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC).

Extensive distribution network

Our distribution network ensures our product availability to our customers translating into efficient supply chain, focused customer service and short turnaround times for product delivery. Our dealer base is supported by an efficient sub dealer and distribution network and sales team, leading the products to retail outlets and making our products available on the shelf across most places at all times thereby reducing dealer stock levels and increased annual sales per dealer.

OUR BUSINESS STRATEGY

Cost effective production and timely fulfilment of orders

Our Company has taken various steps to ensure adherence to timely fulfillment of orders and also to achieve greater cost efficiency. Our Company also has enjoyed good relations with our suppliers and as a consequence have the benefit of timely supplies of the materials which has been one of the major reasons to achieve timely fulfillment of orders of our customers. Our Company

constantly endeavors to implement an efficient procurement policy for inputs required for production so as to ensure cost efficiency in procurement which in turn results in cost effective production.

Optimal Utilization of Resources

Our Company constantly endeavors to improve our manufacturing process to optimize the utilization of resources. We have invested significant resources, and intend to further invest in our activities to develop customized systems and processes to ensure effective management control. We regularly analyze our existing policies to be carried out for operations of our Company which enable us to identify the areas of bottlenecks and correct the same. This helps us in improving efficiency and putting resources to optimal use.

To build-up a professional organization

As an organization we believe in transparency and commitment in our work among our work force and with our suppliers, customers, government authorities, banks, financial institutions etc. We have employed experienced persons for taking care of our day to day activities. We also consult with outside agencies on a case to case basis on technical and financial aspects of our business. Hence, the philosophy of professionalism is foundation stone of our business strategy and we wish to make it more sound and strong in times to come. We will consistently put efforts among its group of experienced employees to transform them into an outstanding team of empowered professionals which helps in further accelerating the wheels of development of the Organization.

Diversification and Expansion

Our Company engaged in the manufacturing of solar products and further our company wish to expand its business, which helps to our company to achieve its vision and mission. We are focusing on further integrating our operations and improving capacity utilization at our production facilities and optimize product planning across product categories. Higher capacity utilization results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over higher sales, thereby increasing profit margins. We also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS ISSUE

Our Company and the Lead Manager has entered into Market Making Agreement dated November 13, 2017 with the following Market Maker, to fulfill the obligations of Market Making for this Issue:

Name	BEELINE BROKING LIMITED
Correspondence Address:	B-307, Ganesh Plaza, Near Navrangpura Bus Stop, Navrangpura, Ahmedabad – 380 009, Gujarat, India.
Tel No.:	+91 – 079 – 6666 4011
E-mail:	compliance@beelinebroking.com
Website:	www.beelinebroking.com
Contact Person:	Ms. Trusha Thakkar
SEBI Registration No.:	INZ000000638

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- 1) The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being issued by the Market Maker(s).
- 2) The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of SME Platform of NSE (NSE EMERGE) and SEBI from time to time.
- 3) The minimum depth of the quote shall be ₹1,00,000/-. However, the investors with holdings of value less than ₹1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that script provided that he sells his entire holding in that script in one lot along with a declaration to the effect to the selling broker.
- 4) The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME Platform (in this case currently the minimum trading lot size is 2000 equity shares; however the same may be changed by the SME Platform of NSE from time to time).
- 5) After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size. Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.
- 6) There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
- 7) Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- 8) There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- 9) On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- 10) The Marker maker may also be present in the opening call auction, but there is no obligation on him to do so.
- 11) There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final
- 12) The Market Maker(s) shall have the right to terminate said arrangement by giving a six months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement.

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106 V of the SEBI (ICDR) Regulations, 2009, as amended. Further our Company and the Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our office from 11.00 a.m. to 5.00 p.m. on working days.

- 13) **Risk containment measures and monitoring for Market Makers:** NSE SME Exchange will have all margins, which are applicable on the NSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.

- 14) **Punitive Action in case of default by Market Makers:** NSE SME Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

- 15) **Price Band and Spreads:** The price band shall be 20% and the market maker spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time
- 16) Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Issue size and as follows:

STATEMENT OF TAX BENEFITS

To,

**The Board of Directors,
Solex Energy Limited,**
Plot No. 131/A, Phase 1, Nr. Krimy Industries,
GIDC, Vithal, Udyog Nagar, Anand-388121, Gujarat, India.

Dear Sir,

Subject: Statement of possible tax benefits ('the Statement') available to Solex Energy Limited ("the Company") and its shareholders prepared in accordance with the requirement in SCHEDULE VIII – CLAUSE (VII) (L) of Securities and Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2009, as amended ('the Regulation')

We hereby report that the enclosed annexure prepared by the Company, states the possible special Tax benefits available to the Company and the shareholders of the Company under the Income - Tax Act, 1961 ('Act'), presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions which, based on business imperatives, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company. Further, the preparation of enclosed statement and the contents stated therein is the responsibility of the Company's management. We are informed that, this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares ("the Issue") by the Company.

We do not express any opinion or provide any assurance as to whether: a) The Company or its Equity Shareholders will continue to obtain these benefits in future; or b) The conditions prescribed for availing the benefits have been / would be met with. The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company. Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in the Draft Prospectus/ Prospectus or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

Global economic outlook

Global growth is firming, contributing to an improvement in confidence. A recovery in industrial activity has coincided with a pickup in global trade, after two years of marked weakness. In emerging market and developing economies (EMDEs), obstacles to growth among commodity exporters are gradually diminishing, while activity in commodity importers remains generally robust. As a result, and despite substantial policy uncertainty, global growth is projected to accelerate to 2.7 percent in 2017, up from a post-crisis low of 2.4 percent in 2016, before strengthening further to 2.9 percent in 2018-19, broadly in line with January projections.

Activity in advanced economies is expected to gain momentum in 2017, supported by an upturn in the United States, as previously anticipated. In the Euro Area and Japan, growth forecasts have been upgraded, reflecting strengthening domestic demand and exports. Investment across advanced economies has firmed, while private consumption growth has moderated. As actual growth continues to exceed potential growth, increasing inflation and narrowing output gaps have raised the prospects of less accommodative monetary policy. Advanced economy growth is expected to accelerate to 1.9 percent in 2017, before moderating gradually in 2018-19. As usual, the outlook is predicated only on legislated fiscal and trade policies.

The recovery in global trade coincides with strengthening investment, which is more import intensive than other components of aggregate demand. Nevertheless, structural headwinds, including slower trade liberalization and value chain integration, as well as elevated policy uncertainty, continue to weigh on the outlook for trade. Global financing conditions have been benign and benefited from improving market expectations about growth prospects. Financial market volatility has been low despite elevated policy uncertainty, reflecting investor risk appetite and, perhaps, some level of market complacency.

Renewed risk appetite has supported EMDE financial markets and led to a narrowing of corporate bond spreads globally. Capital inflows to EMDEs were robust in the first half of 2017, partly in a rebound from late-2016 weakness. Over time, however, a gradual tightening of international financing conditions may weigh on capital flows to EMDEs. Commodity prices have continued to rise moderately, although prospects for increased U.S. shale oil production are weighing on the outlook for oil prices. Against an improving international backdrop, growth in EMDEs has strengthened from a post crisis low of 3.5 percent in 2016. It is projected to reach 4.1 percent in 2017 and 4.5 percent in 2018. In commodity exporters, firming commodity prices, recovering industrial activity, stabilizing investment, and improving confidence are supporting a gradual recovery, following near stagnation in the past couple of years. This recovery will be broad-based, impacting nearly 70 percent of commodity exporters in 2017. However, lingering fiscal and external adjustment needs dampen growth prospects in a number of countries. As a result, growth in commodity exporters is projected to rise from 0.4 percent in 2016 to 1.8 percent in 2017 and 2.7 percent in 2018—somewhat below January forecasts, reflecting longer-than-expected adjustment to low commodity prices in some countries and, to a lesser degree, slightly lower oil price projections.

Growth continues to be robust among commodity importers. Windfalls from the recent decline in commodity prices is waning, but accommodative policies are supporting domestic demand and export growth is being bolstered by a recovery in global trade. The forecast for growth in commodity importers remains stable, at an average of 5.7 percent in 2017-19.

In low-income countries, growth is rebounding, as rising metals prices lift production in metals exporters and infrastructure investment continues in non-resource-intensive economies. However, some low-income countries are still struggling with declining oil production, conflict, drought, and security and political challenges. Growth in low-income countries is expected to strengthen during 2017-19, as activity firms in commodity exporters.

A number of factors weigh on longer-term EMDE growth prospects, including structural headwinds to global trade, worsening demographics, slowing productivity growth, and governance and institutional challenges. Even if the expected modest rebound in investment across EMDEs materializes, slowing capital accumulation in recent years may already have reduced potential growth.

Substantial risks cloud this outlook, despite the possibility of fiscal stimulus in some major advanced economies, particularly the United States. Escalating trade restrictions could derail a fragile recovery in trade and undo gains from past liberalization efforts. A further increase in policy uncertainty from already high levels could dampen confidence and investment and trigger financial market stress, after a period of capital flows, potentially amplified by vulnerabilities in some countries. Over the longer term, persistent weakness in productivity and investment growth would erode potential growth.

Policymakers face the challenge in nurturing the recovery, confronting downside risks, and fostering longer-term growth. Central banks in advanced economies will gradually normalize monetary policy as inflation increases and economic slack diminishes. While the U.S. tightening cycle is well ahead of other major advanced economies, it is proceeding at a substantially slower pace than in the past. Expansionary fiscal policy could help support the recovery, as long as it is consistent with medium term fiscal sustainability. Policy priorities include measures to support workers most affected by sectoral shifts in employment through better training and job search programs, and to share the dividends of growth and gains from globalization more widely. Inflation rates in EMDE commodity exporters and importers are converging. Easing in inflation among commodity exporters since mid-2016 has allowed a more accommodative monetary policy stance in some countries. Although the impact of the earlier drop in commodity prices on the government budgets of commodity exporters is dissipating, Fiscal space remains constrained in many EMDEs, suggesting the need for continued Fiscal adjustment. EMDEs will need to continue to pursue structural reforms to improve their longer term growth prospects, diversify their economies, and develop domestic as well as foreign markets. Key priorities include policies to improve the business climate, support investment in human and physical capital, and enhance regional and global trade integration of EMDEs.

Major economies: Recent developments and outlook

Growth in major advanced economies has strengthened, and their short-term outlook has improved, despite elevated policy uncertainty. A modest recovery should continue, with output gaps narrowing and inflation gradually converging toward central bank targets. U.S. monetary policy normalization is expected to proceed at a measured pace. China's policy guided gradual transition to slower but more sustainable growth continues as expected.

Advanced economies started the year on a solid note, with investment and exports regaining momentum after subdued growth in 2016. Private consumption decelerated somewhat in early 2017, but has been supported by labor market improvements. Import demand has strengthened, further contributing to a recovery in global trade. In 2017, growth is expected to pick up in the United States and Japan, and to remain broadly stable in the Euro Area. Forecasts for several major economies have been upgraded. Economic slack continues to diminish, and inflation expectations are rising, albeit at different rates.

Indian Economy Overview

Economic growth is projected to remain strong and India will remain the fastest growing G20 economy. The increase in public wages and pensions will support consumption. Private investment will recover gradually as excess capacity diminishes, and the landmark Goods and Services Tax and other measures to improve the ease of doing business are being implemented. However, large non-performing loans and high leverage of some companies are holding back investment. Monetary policy is projected to remain tight as inflation expectations have still not fully adjusted down. The need to reduce the relatively high public-debt-to-GDP ratio leaves little room for fiscal stimulus. However, investing more in physical and social infrastructure is critical to raising living standards for all. This should be financed by a comprehensive reform of income and property taxes. Restoring credit discipline and cleaning up banks' balance sheets will be instrumental to support the credit growth needed to finance more business investment. Trade openness has increased, partly driven by a competitive service sector. Manufacturing has lagged behind, with limited contribution to exports and job creation, leaving many workers in low-paid jobs. Promoting quality job creation in manufacturing would require reducing further restrictions on FDI and trade, modernising labour regulations and providing better education and skills. Better infrastructure, transport and logistic services would facilitate manufacturing firms' access to global markets, particularly from remote and poorer regions.

Robust consumption and a rebound in exports are boosting growth. Growth remains strong. Private consumption has been buoyant, boosted by the increase in public wages and pensions and by higher agricultural and rural incomes. The costs of the withdrawal of high denomination notes – demonetisation – in November 2016 are wearing off, and sales of cars and two-wheelers have bounced

back. Investment has so far failed to rebound, despite government efforts to develop rail, road and energy infrastructure and to improve the ease of doing business. Excess capacity (e.g. in the steel sector) and the weak financial position of some corporations, combined with large non-performing loans for most public sector banks, have restrained business investment. Exports have picked up, driven by strong demand from Asia and the euro area. Higher oil prices and gold imports, coupled with a decline in remittances inflows, are reflected in some deterioration in the current account deficit. However, the deficit remains well below its longer-term average. FDI net inflows have been rising steadily since 2014 and are fully financing the current account deficit.

Structural reforms are key to promoting inclusive growth

The acceleration of structural reforms is bringing a new growth impetus. The Goods and Services Tax (GST), to be implemented from July 2017, should help make India more of a single market and thus spur productivity, investment, competitiveness, job creation and incomes. The abolition of the Foreign Investment Promotion Board, which reviewed foreign investment programmes, should promote FDI inflows. The central government's initiative to rank individual states on the ease of doing business is opening a new era of structural reforms. Many states have already modernised regulations and administrative procedures and some are experimenting with reforms of land acquisition and labour regulations.

There is little room for further cuts in interest rates. Consumer price inflation hovered below 4% at the end of 2016 and in early 2017, reflecting partly demonetisation, but also the success of the flexible inflation targeting framework. Ongoing structural reforms,

including efforts to reduce the fragmentation of agricultural markets and land plots, and to develop the irrigation network, should help avoid inflation spikes in the future. In the short term, however, keeping inflation around 4% – the mid-point official inflation target – will be challenging given the roll-out of the GST and the upward adjustment in house rent allowance and in wages for state government employees.

The combined deficit and debt of the central government and states are relatively high. The central government has committed to reduce its deficit further in FY 2017/18 by better targeting fertiliser, petroleum and food subsidies. At the state level, current spending has tended to rise while investment targets have not always been met. The recent write-off of bank loans to farmers in the largest state will push up public debt, especially if other states follow suit. It could also undermine credit discipline and exacerbate income inequality since it will not benefit the poorest farmers, who rely predominantly on informal money lenders rather than banks.

Making growth more inclusive would require raising more revenue from property and personal income taxes to finance better social and physical infrastructure. Recent initiatives to benchmark states' social policies and outcomes, including health, sanitation and education, will strengthen incentives to improve the quality of public services. However, providing quality services to all would require raising public spending. Doubling public spending on health to 2.5% of GDP by 2025, as envisaged in the latest National Health Policy, and developing affordable housing for the poor would be welcome. It could be financed by removing the tax expenditures that benefit the rich most, freezing the personal income thresholds from which rates apply, reducing tax evasion and implementing fairer property taxation.

Growth increases will rest on the revival of investment

Growth is projected to increase further. Private consumption will remain steady as increases in wages and pensions for central government employees are followed by similar adjustments in the states. The recent increase in capacity utilisation, coupled with the rebound in industrial production for capital goods and manufacturing indices, bodes well for a gradual revival of private investment. The implementation of the GST, by lowering the price of capital goods, and the cut in the corporate income tax rate should also support investment. Inflation will likely increase from the low levels in early 2017, but will remain within the authorities' target band. The revival of (import-intensive) corporate investment, higher oil prices and lower remittance flows will be reflected in a larger current account deficit.

The prospect of further structural reform is a clear positive risk for growth. The deterioration in the quality of banks' portfolios, as shown by the increase in nonperforming loans and stressed assets, risks damping investment and growth. India, as a net commodity importer, would suffer from higher commodity prices. Protectionist measures could restrict exports of goods and services and thus harm the economy's potential to create quality jobs.

Power Sector Industry

Power is one of the most critical components of infrastructure crucial for the economic growth and welfare of nations. The existence and development of adequate infrastructure is essential for sustained growth of the Indian economy.

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

India ranks third among 40 countries in EY's Renewable Energy Country Attractiveness Index, on back of strong focus by the government on promoting renewable energy and implementation of projects in a time bound manner.

India has moved up 73 spots to rank 26th in the World Bank's list of electricity accessibility in 2017, according to Mr Piyush Goyal, Minister of State (Independent Charge) for Power, Coal, Renewable Energy and Mines, Government of India.

In September 2017, the Government of India launched the Saubhagya scheme to provide electricity connections to over 40 million families in rural and urban areas by December 2018 at a cost of US\$ 2.5 billion.

Market Size

Indian power sector is undergoing a significant change that has redefined the industry outlook. Sustained economic growth continues to drive electricity demand in India. The Government of India’s focus on attaining ‘Power for all’ has accelerated capacity addition in the country. At the same time, the competitive intensity is increasing at both the market and supply sides (fuel, logistics, finances, and manpower).

Total installed capacity of power stations in India stood at 330,260.53 Megawatt (MW) as on May, 2017.

The Ministry of Power has set a target of 1,229.4 billion units (BU) of electricity to be generated in the financial year 2017-18, which is 50 BU’s higher than the target for 2016-17. The annual growth rate in renewable energy generation has been estimated to be 27 per cent and 18 per cent for conventional energy.

The Government has added 10.2 Giga Watts (GW) of conventional energy generation capacity. The total solar power capacity addition from new installations in India in the first half of 2017 reached 4,765 MW and has exceeded the total capacity addition done in 2016*.

Two under-construction hydro projects of NHPC in Himachal Pradesh and Jammu & Kashmir (J&K), expected to be commissioned in 2018, will produce 4,458.69 million units of additional power, according to the Ministry of Power, Government of India

A total of 13,872 villages out of 18,452 un-electrified villages in India have been electrified up to June 30, 2017 as part of the target to electrify all villages by May 1, 2018.

A total of 26.3 million households which are below poverty line (BPL) have been electrified under the Rural Electrification component of Deen Dayal Upadhyay Gram Jyoti Yojana (DDUGJY), according to the Ministry of Power, Government of India.

Investment Scenario

Around 293 global and domestic companies have committed to generate 266 GW of solar, wind, mini-hydel and biomass-based power in India over the next 5–10 years. The initiative would entail an investment of about US\$ 310–350 billion. Between April 2000 and March 2017, the industry attracted US\$ 11.59 billion in Foreign Direct Investment (FDI).

Some major investments and developments in the Indian power sector are as follows:

- International Finance Corporation (IFC), the investment arm of the World Bank Group, is planning to invest about US\$ 6 billion through 2022 in several sustainable and renewable energy programmes in India.
- GE Energy Financial Services (GEEFS) plans to invest US\$ 90 million to develop a solar power project of 500 megawatt (MW) in partnership with Rattan India Group.
- Greenko Energy Holdings has raised US\$ 155 million from its existing investors, Abu Dhabi Investment Authority (ADIA) and Singapore’s sovereign wealth fund GIC, which will be utilised for expanding its clean energy portfolio to 3 gigawatts (GW) from 2 GW at present.
- Private equity (PE) investment firm, Actis LLP, is planning to invest about US\$ 500 million in Solenergi Power Pvt Ltd, its second renewable energy platform in India.
- Mahindra and Mahindra Ltd is planning to invest in high-end electric powertrain technology in a move towards the future of mobility as well as for the electrification of its existing and future line-up of products.
- Hero Future Energies Pvt Ltd is planning to foray into the battery storage business and set up solar charging stations for electric vehicles (EV) in India to capitalise on India's emerging EV market.
- The Asian Development Bank (ADB) and the Punjab National Bank (PNB) have signed a financing loan worth US\$ 100 million, which will be used to support solar rooftop projects on commercial and industrial buildings across India.
- Tata Capital Ltd and International Finance Corporation (IFC) have invested Rs 200 crore (US\$ 31.05 million) in their joint venture (JV), Tata Cleantech Capital Ltd (TCCL), to increase its loan book for investing in renewable energy projects.
- CDC Group Plc, a development finance institution, plans to set up its own renewable energy platform in the eastern states of India like Bihar, Odisha and Assam, and other neighbouring countries to focus on developing hundreds of megawatts (MWs) of high-quality greenfield generational capacity.
- Japan’s JERA Co. Inc, has acquired a 10 per cent stake in ReNew Power Ventures Pvt. Ltd for US\$ 200 million, valuing the company at US\$ 2 billion before its proposed Initial Public Offer (IPO).
- The Indian Railways is looking to award six tenders worth Rs 8000 crores (US\$ 1.2 billion), for setting up of a country-wide electricity transmission network, as part of a strategy to reduce electricity bills.
- Renewable energy company ReNew Power has announced securing US\$ 390 million debt funding from its existing investor Asian Development Bank (ADB) for developing and expanding capacities of 709 megawatt (MW) across various states of India.
- International Finance Corporation (IFC), along with IFC Global Infrastructure Fund, the private equity fund of IFC Asset Management Company, has announced investment of US\$ 125 million equity in Hero Future Energies, which will help the firm set up 1 gigawatt (GW) of Greenfield solar and wind power plants over the next one year.

Government Initiatives

The Government of India has identified power sector as a key sector of focus so as to promote sustained industrial growth. Some initiatives by the Government of India to boost the Indian power sector:

- The 'Pradhan Mantri Sahaj Bijli Har Ghar Yojana', with an outlay of Rs 16,320 crore (US\$ 2.51 billion), has been launched by the Government of India with the aim of providing electricity access to over 40 million families in the country by December 2018.
- The Ministry of Environment, Forest and Climate Change, Government of India has clarified that solar PV (photovoltaic) power, solar thermal power projects, and solar parks will not require the environment clearance which was mandatory under the provisions of Environment Impact Assessment (EIA) notification, 2006.
- By installing 3 million LED street lights to illuminate 50,000 kilometres of roads in India under the Street Lighting National programme (SLNP), the state-run Energy Efficiency Services Limited has achieved 390 million kWh in annual energy savings, according to the Ministry of Power, Government of India.
- The Ministry of Power, Government of India, has taken various measures to achieve its aim of providing 24x7 affordable and environment friendly 'Power for All' by 2019, which includes preparation of state specific action plans, and implementation of Green Energy Corridor for transmission of renewable energy, among other measures.
- India has become an associate member of the International Energy Agency (IEA), which makes the Paris-based body more significant, indicating India's growing prominence in playing an important role in the global energy dialogue, according to the IEA.
- The Government of India plans to auction coal blocks for commercial mining by the end of December 2017, which would end the monopoly of state-run firms in coal mining and help in achieving the country's target of producing 1 billion tonnes of coal by 2020.
- The Cabinet Committee on Economic Affairs (CCEA) has approved a new coal linkage policy, aimed at providing necessary supply of fuel to power plants through reverse auction
- The Government of India has announced plans to implement a US\$ 238 million National Mission on advanced ultra-supercritical technologies for cleaner coal utilisation.
- The Cabinet Committee on Economic Affairs (CCEA) has approved the enhancement of capacity of the Scheme for Development of Solar Parks and Ultra Mega Solar Power Projects from 20,000 megawatt (MW) to 40,000 MW, which will ensure setting up of at least 50 solar parks each with a capacity of 500 MW and above in various parts of the country.
- The Union Cabinet, Government of India has given its ex-post facto approval for signing of a Memorandum of Understanding (MoU) on Renewable Energy between India and Portugal, which will help strengthen the bilateral cooperation between the two countries.
- The Ministry of New and Renewable Energy plans to introduce a fixed-cost component to the tariff for electricity generated from renewable energy sources like solar or wind, in a bid to promote a green economy.
- The Union Cabinet has approved the ratification of International Solar Alliance's (ISA) framework agreement by India, which will provide India a platform to showcase its solar programmes, and put it in a leadership role in climate and renewable energy issues globally.

The Road Ahead

- The 2026 forecast for India's non-hydro renewable energy capacity has been increased to 155 GW from 130 GW on the back of more than expected solar installation rates and successful wind energy auctions#.
- India could become the world's first country to use LEDs for all lighting needs by 2019, thereby saving Rs 40,000 crore (US\$ 6.23 billion) on an annual basis.
- India's solar power capacity addition is forecasted at 9.4 gigawatts (GW) in 2017 which is even higher than the previous estimates of 8.8GW of capacity addition&.
- The Indian power sector has an investment potential of Rs 15 trillion (US\$ 225 billion) in the next 4–5 years, thereby providing immense opportunities in power generation, distribution, transmission, and equipment, according to Union Minister Mr. Piyush Goyal.
- The government's immediate goal is to generate two trillion units (kilowatt hours) of energy by 2019. This means doubling the current production capacity to provide 24x7 electricity for residential, industrial, commercial and agriculture use.
- The government has electrified 13,000 villages so far out of the total 18,452 villages and is targeting electrification of all villages by 2019, within the targeted 1,000 days.
- The Government of India is taking a number of steps and initiatives like 10-year tax exemption for solar energy projects, etc., in order to achieve India's ambitious renewable energy targets of adding 175 GW of renewable energy, including

addition of 100 GW of solar power, by the year 2022. The government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the section “Forward-Looking Statements” for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the Twelve-month period ended March 31 of that year. In this section, a reference to the “Company” or “we”, “us” or “our” means Solex Energy Limited.

All financial information included herein is based on our “Financial information of the Company” included on page 129 of this Prospectus.

OVERVIEW

Incorporated in 2014, Our Company is engaged providing renewable energy solutions, specialized in the manufacturing of Solar photovoltaic module, solar home light, solar street light, solar lantern, solar power plant, solar invertors, solar water heating systems and wood fired water heater etc. We precisely manufacture the offered products using optimum grade components and advanced technology in compliance with the set norms of the industry. We also provide the offered appliances in numerous specifications and customization in accordance with the demands of our customers. Our manufacturing facilities is situated in Anand, Gujarat.

Solex Energy Limited is an ISO 14001:2015 Certification, ISO 9001:2015 Certification, OHSAS 18001:2007 and CE MARK CERTIFIED offering systems of high quality and reliability. Solex modules are TUV certified & tested by the UL India Pvt. Ltd and comply in accordance with the standards.

Our Company was originally incorporated on October 13, 2014 as “Solex Energy Private Limited” under the provisions of the Companies Act, 2013 with the Registrar of Companies, Gujarat. After incorporation, Our Company has acquired the running business of “M/s Sun Energy Systems” a proprietorship concern of our Promoter engaged in manufacturing of Solar Panels and other renewable Energy Devices since 2002 vide business transfer agreement dated November 12, 2014. Further our Company was converted into Public Limited Company and consequently name of company was changed from “Solex Energy Private Limited” to “Solex Energy Limited” vide resolution passed by the Shareholders at the Annual General Meeting held on September 09, 2017 and a fresh certificate of incorporation dated September 22, 2017 issued by the Registrar of Companies, Ahmedabad.

Solex was originally incorporated by Mr. Kalpeshkumar Ramanbhai Patel and Ms. Arpitaben Upendrabhai Shelat in the year 2014. Presently the promoter of the Company is Mr. Kalpeshkumar Ramanbhai Patel, who have rich experience of about more than 24 years in the field of solar manufacturing business. The vast experience of the Promoter has been instrumental in determining the vision and growth strategies for our Company. We further believe that our market position has been achieved by adherence to the vision of our Promoter and senior management team and their experience of over a decades in the industry in which our Company operates.

Mr. Kalpeshkumar Ramanbhai Patel, Chairman cum Managing Director of the Company has a vision & mission that to provide the world class renewable energy solutions, services, technology and contribute to the sustainability. We are widely recognized for our high-quality products, services and contribution to a sustainable life. Our focus is to continuously improve our efficiency, quality, and technology.

Our product ranges from Solar PV Module (3WP - 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC). We also provide solution for solar roof top system, solar home and rural lighting system, solar power pack and solar power plant. Our Products are eligible for Subsidy from Government which is reduced from sales value during the sale of Product and thereafter release to our Company directly from Government.

Our development process includes design, development, testing, manufacturing and delivery. Our progressive management and cutting edge production technology contribute to our ability to provide our customers with exceptional value in a highly competitive industry. The main object of the company is to provide the best quality with cheaper cost, so in line with our mission of offering high quality, cost effective photovoltaic solutions without compromising on quality, performance & safety, we have invested in state-of-the-art automatic production line that offers premium quality of production with consistency and economies of scale. Further, for manufacturing good quality products without any hurdles, we have implemented strict quality checks and control in order to offer our

clients with only the top most quality products.

For the period year ended July 31, 2017 our company's Total Revenue and Restated Profit after Tax were Rs. 635.49 Lacs and Rs. 30.87 Lacs respectively. For the year ended March 31, 2017, our Company's Total Revenue and Restated Profit after Tax were Rs. 3449.60 Lacs and Rs. 91.64 Lacs, respectively. For the year ended March 31, 2016, our Company's Total Revenue and Restated Profit after Tax was Rs. 4662.14 Lacs and Rs. 38.64 Lakhs respectively, compared to our Company's Total Income and Restated Profit after Tax of Rs. 637.46 Lacs and Rs. 9.53 Lacs respectively, over previous year ended i.e. March 31, 2015.

Certifications and Recognition:-

- Certificate of Compliance as ISO 9001:2015 for its Quality Management Systems.
- Certificate of Compliance as ISO 14001:2015 certified for its Environmental Management Systems.
- Certificate as OHSAS: 18001: 2007 certified for its Health & Safety Management Systems.
- Certified for Photovoltaic Module (PV) by UL India Private Limited for comply with IEC 61701 Standard for Salt Mist Corrosion testing.
- Certified by SGS-TUV SAAR GMBH (Germany) for Solar Products.

COMPETITIVE STRENGTHS

Cost efficient sourcing and locational advantage

We have established a technologically advanced infrastructural facility, which spreads across a huge land area. This facility includes different units like production unit, admin, marketing, quality control etc. These units are equipped with up-to-date machinery and modern technology and ensures hassle free operations. With the backing of the quality of our products and reasonable rates at which we offer these, we have managed to establish a strong footing in the industry. Our specialists work in close synchronization with each another to satisfy the ever evolving necessities of our prestigious customers in the most efficient manner. Being a quality oriented organization, we make enormous effort to present our clientele with excellent quality products as per their requirements. We believe that our cost efficient manufacturing and supply chain management results in a significant reduction in our operational costs. With our experience, we are able to time our procurement of raw materials and being a large player in the industry we are also able to source these materials at a competitive price.

Proven and experienced management team

Our Promoter has around 24 years of experience in the industry. We believe that our senior management team has extensive experience in the commissioning of and operating manufacturing capacities, finance, sales, business development and strategic planning in the industry. The vision and foresight of our management enables us to explore and seize new opportunities and accordingly position ourselves to introduce new products to capitalize on the growth opportunities in the interior infrastructure sector. We believe that the demonstrated ability and expertise of our management team for committed asset investment and use of cutting-edge technology results in growing capacities and rising production levels with better cost management and enhanced process efficiency has translated into our quality product, increasing profitability and improved margins which gives us a competitive edge. Under the able guidance of our mentor, we have touched highest position in this highly competitive industry. His innovative thinking and creative ideas have helped us to claim the remarkable position in the industry.

Our sales and marketing network

Currently, we are doing market only in India. We are enhancing our presence in India by offering customer better product varieties and quality at economical prices. The Company has added several high value products such as Solar PV Module (3WP – 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC).

Extensive distribution network

Our distribution network ensures our product availability to our customers translating into efficient supply chain, focused customer service and short turnaround times for product delivery. Our dealer base is supported by an efficient sub dealer and distribution network and sales team, leading the products to retail outlets and making our products available on the shelf across most places at all times thereby reducing dealer stock levels and increased annual sales per dealer.

OUR BUSINESS STRATEGY

Cost effective production and timely fulfilment of orders

Our Company has taken various steps to ensure adherence to timely fulfillment of orders and also to achieve greater cost efficiency. Our Company also has enjoyed good relations with our suppliers and as a consequence have the benefit of timely supplies of the materials which has been one of the major reasons to achieve timely fulfillment of orders of our customers. Our Company constantly endeavors to implement an efficient procurement policy for inputs required for production so as to ensure cost efficiency in procurement which in turn results in cost effective production.

Optimal Utilization of Resources

Our Company constantly endeavors to improve our manufacturing process to optimize the utilization of resources. We have invested significant resources, and intend to further invest in our activities to develop customized systems and processes to ensure effective management control. We regularly analyze our existing policies to be carried out for operations of our Company which enable us to identify the areas of bottlenecks and correct the same. This helps us in improving efficiency and putting resources to optimal use.

To build-up a professional organization

As an organization we believe in transparency and commitment in our work among our work force and with our suppliers, customers, government authorities, banks, financial institutions etc. We have employed experienced persons for taking care of our day to day activities. We also consult with outside agencies on a case to case basis on technical and financial aspects of our business. Hence, the philosophy of professionalism is foundation stone of our business strategy and we wish to make it more sound and strong in times to come. We will consistently put efforts among its group of experienced employees to transform them into an outstanding team of empowered professionals which helps in further accelerating the wheels of development of the Organization.

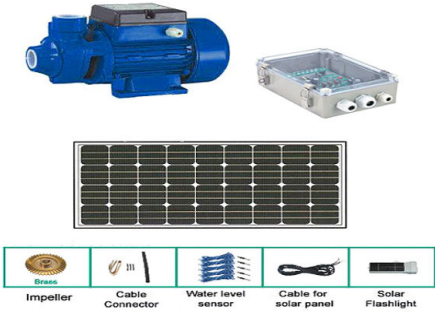

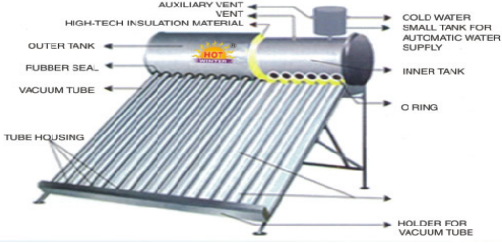

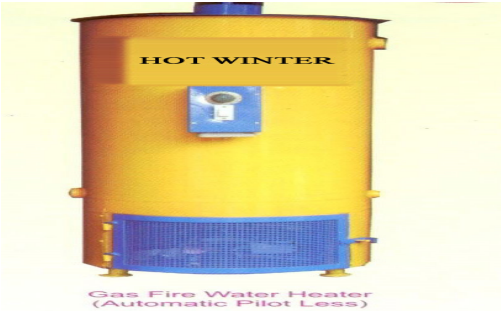

Diversification and Expansion

Our Company engaged in the manufacturing of solar products and further our company wish to expand its business, which helps to our company to achieve its vision and mission. We are focusing on further integrating our operations and improving capacity utilization at our production facilities and optimize product planning across product categories. Higher capacity utilization results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over higher sales, thereby increasing profit margins. We also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs.

OUR PRODUCTS:-

S.No.	Name of Product	Description
1.	Solar CFL Street lighting system and Solar LED Street lighting system	 <ul style="list-style-type: none"> ➤ DTDC controller (Automatic ON/OFF Operation). ➤ Two step charging algorithm ➤ Highly efficient charge controller and inverter. ➤ Temperature compensated battery set points. ➤ Weather proof luminaries ➤ Anodized aluminum reflector ➤ Anti-corrosive galvanized pole/MS Pole and suitable accessories ➤ ABS/MS Battery box ➤ 3 days system autonomy.

2.	Solar Lantern		<ul style="list-style-type: none"> ➤ Light weight and portable design. ➤ Non-polluting and Eco friendly. ➤ Bright and cool light after charging. ➤ Suitable Indications and Protections.
3.	Solar Power Plant, Solar Rooftop System & Solar Photovoltaic Module		<p>Solar farms engineered are designed to work with a high degree of efficiency to achieve a minimum performance ratio of at least 80%. We provide our customers with a complete end to end solutions beginning with initial feasibility analysis until the final installation of the power plant and connection to the grid.</p> <p>Solar Photovoltaic Module is High efficiency Mono/Poly crystalline silicon solar cells which are Highly resistant to rain, water, abrasion and hail impact.</p>
4.	"Solex" Solar Powered Petrol Station		<p>Most petrol pumps require to be run on a 24x7 basis thereby requiring an intelligent Solar Power Management System. Alternate power sources like diesel generators have a higher switchover time and the dispenser pump shuts down almost instantly. Power fluctuations also end-up damaging dispensing units at petrol pumps. Sudden power failure leads to loss of fuel, time and money of both the customer and the petrol pump owner.</p>
5.	"Solex" Solar Powered Mobile Tower		<p>The solar power tower, also known as 'central tower' power plants or heliostar power plants or power towers, is a type of solar furnace using to receive the focused sunlight. It uses as array of flat, movable mirrors (called heliostats) to focus the sun's rays up on a collector tower (the target). Concentrated solar thermal is seen as one viable solution for renewable, pollution free energy.</p> <p>The Green Tower offers telecom companies large and small a solar-powered system that comes with energy storage, giving the service a new level of flexibility and reliability. Depending on energy needed to run your cell towers makes up 15 to 50 percent of total operating costs — the costs are higher in remote areas and the developing world, since we need to rely on gas-powered generators to keep the towers running.</p>

6.	Solar Water Pumping system-Surface		<ul style="list-style-type: none"> ➤ Solex Solar water pumping system is a standalone system operating on a power generated by photovoltaic modules. ➤ The power generated by solar panels is used for operating DC Surface mono bloc pump. ➤ The pumps are used for lifting water from open well or reservoir for minor irrigation and drinking water supply. ➤ The system requires shadow free area for solar panels.
7.	Solar Water Pumping System-Submersible	 <p style="text-align: center; color: red; font-size: small;">NEW MODELS OF SOLAR WATER PUMP IN INDIA</p>	<ul style="list-style-type: none"> ➤ Solar water pumping system is a standalone system operating on a power generated by photovoltaic modules. ➤ The power generated by solar panels is used for operating DC submersible pump. ➤ Submersible pumps divided into two, Helical rotor and centrifugal pumps. ➤ Helical rotor pumps are used for high depth and low discharge and centrifugal pumps are used for low depth and high discharge.
8.	Solar Water Heater (ETC)		<ul style="list-style-type: none"> ➤ Low Cost Solar Water Heating ➤ Easy to Install ➤ No Electricity Required ➤ Gravity Pressure Hot Water ➤ High Quality Evacuated Tubes. ➤ 150LPD Quality Evacuated Tubes ➤ 150LPD,200LPD,300LPD capacity
9.	Gas Fired Water Heater	 <p style="text-align: center; color: red; font-size: small;">Gas Fire Water Heater (Automatic Pilot Less)</p>	<ul style="list-style-type: none"> ➤ Special high temperature resistant inner coating to prevent corrosion. ➤ Hot Winter Gas heater are hydrostatically pressure tested and up to 150 P.S.I. working pressure. ➤ All water connection are 1 N.P.T To provide full flow of water. <p>Insulation: Fiberglass machine pressed mattresses sag and moisture proof surrounds the storage heater and clad with Galvanized Sheet (Stainless Steel Sheet On special request)</p>

OUR MANUFACTURING PROCESS:-

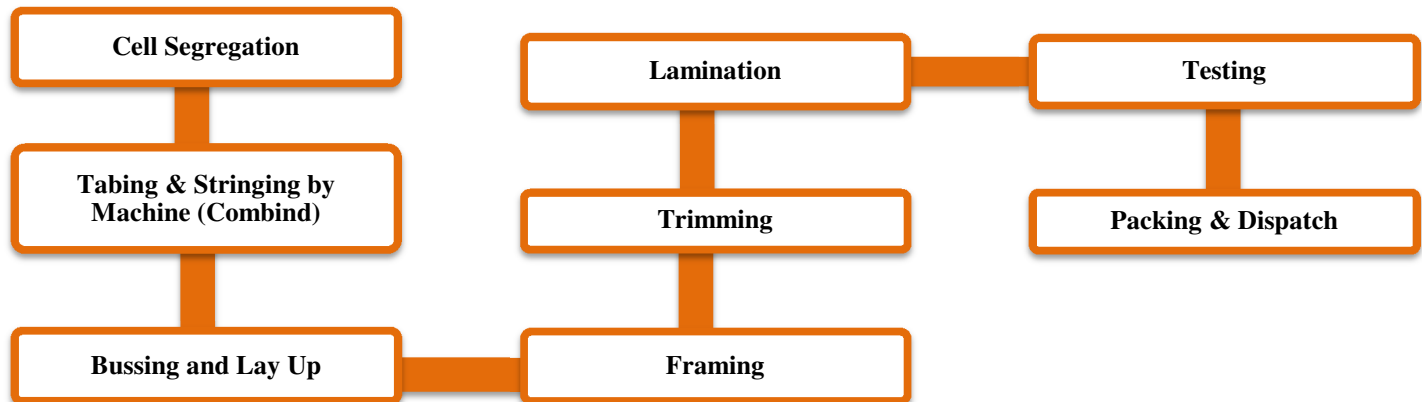

Our Product manufacturing process is segregated in following:-

1. Manual Process
2. Auto Plant Process

Manufacturing Flow Chart for Manual Process:-

Manufacturing Flow Chart for Auto Plant Process:-

Steps Involved in the Manufacturing of Solar Products:-

Photovoltaic (PV) cells are made up of at least 2 semi-conductor layers. One layer containing a positive charge, the other a negative charge. Sunlight consists of little particles of solar energy called photons. As a PV cell is exposed to this sunlight, many of the photons are reflected, pass right through, or absorbed by the solar cell. When enough photons are absorbed by the negative layer of the photovoltaic cell, electrons are freed from the negative semiconductor material. Due to the manufacturing process of the positive layer, these freed electrons naturally migrate to the positive layer creating a voltage differential, similar to a household battery.

A solar cell, or photovoltaic cell (previously termed "solar battery"), is an electrical device that converts the energy of light directly into electricity by the photovoltaic effect, which is a physical and chemical phenomenon. It is a form of photoelectric cell, defined as a device whose electrical characteristics, such as current, voltage, or resistance, vary when exposed to light. Solar cells are the building blocks of photovoltaic modules, otherwise known as solar panels.

In the process of manufacturing of solar products by our company, there are so many steps is involved in the manufacturing, which are as under.

S.No.	Process	Description	
1.	Cell Segregation & Scrubing	We segregate solar cell according to quality as we have received from Vendor as Raw Material. In this process we checked all the material that which solar cell is in Good Quality or which is not according to our requirements. Basically, Cell Segregation means shorting the goods according to solar cell quality.	
2.	Siding Cell Testing	In this process we checked that all the points of Solar cell is properly working or not and all solar cell points are generating the power from all solar cell points or not and connected with Inverter in which power stored.	
3.	Manual Testing	The cells are tested on different parameters like open circuit voltage, Short circuit current and Maximum power point current and voltage respectively.	
4.	Sun Simlater	Sun Simulator is a device that provides natural sunlight. The machine is used for testing solar cells, sunscreen, plastic and other materials and devices under lab conditions.	
5.	Lamination	It is used to join all the layers forming the module, ensuring immunity to the cell against dust, moisture, humidity, and other environmental conditions.	
6.	Aluminium Cutter	Basically, in this process we cuts the solar cell as per our requirement that how much we required to manufacture the product as per the customer's demand or order.

COLLABORATIONS/ TIE – UPS/ JOINT VENTURES:-

Except as disclosed in this Prospectus, we do not have any Collaboration/Tie Ups/ Joint Ventures as on date of Prospectus.

EXPORT OBLIGATION:-

Our Company does not have any export obligation as on date.

UTILITIES AND INFRASTRUCTURE FACILITIES:-

Raw Material: The raw material used in the manufacture of Products are procured from suppliers available either locally or from suppliers available in different regions of India and Outside India. Our Company procure raw material from vendors selected after analysis of quotation received from every vendor for each raw material & by-products used in our manufacturing process. Also our Company believes in selecting vendors who are highly established in market since years because they have experience in manufacturing such material. Additionally, the quality of the raw material is also verified before making the order of the material to make sure that the superior quality of material should be used in manufacturing of our Product.

Power: Our Company requires power for the requirement of the Office for lighting, systems, Equipments and machines for running etc. Adequate power is available which is met through the electric supply by respective area electricity Board.

Water: Water is required only for drinking and sanitary purposes and adequate water sources are available at the existing premises.

Human Resource: We have experienced Promoter and management whom we rely on to anticipate industry trends and capitalize on new business opportunities that may emerge. We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for its kind of business. Our senior management team consists of experienced individuals with diverse skills in manufacturing, engineering, and finance. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth.

As on July 31, 2017, we have 24 Employees on payroll as per requirement of the work. The company wish to increase its employee numbers and the details of which is given below:

SALES AND MARKETING:-

We are doing market all over India and focused on export market. We have developed a marketing network across various states in the country majorly focusing on government agencies and public sector undertakings. Our success lies in the strength of our relationship with our customers who have been associated with us for a long period. Our Sales & Marketing team is headed by our management which keeps itself updated on the customer preference and changes in their requirements from time to time. Our marketing team is also assisted by a technical team which is headed by Mr. Kalpeshkumar Ramanbhai Patel, through their vast experience and good rapport with customers plays an instrumental role in quality maintenance and timely delivery of products.

MARKETING STRATEGY:-

In future we intend to focus on following marketing strategies:

- Focus on existing markets and tender bidding for Government.
- Continuously holding markets Trends.
- Supply of Quality Products.
- Fulfillment of Order Quantity.

COMPETITION:-

Presently, the focus of the government is on development of renewable energy sector, solar power products market in India and on the verge of expansion. The target for solar power generation capacity in the country has been set at 100 GW by 2022 and this is anticipated to increase development of solar power products in India. Further, the Government provides incentives and subsidies for solar power products. As per Government plans and providing subsidy to promote renewable energy products, there are so many competitors are available in the local market to compete. We believe that the principal factors affecting competition in our business include client relationships, reputation, the abilities of employees, market focus and the relative quality and price of the products. We compete with other manufacturers on the basis of quality, durability, specifications, design and variety of products. While these factors are key parameters in client's decisions matrix in purchasing goods, product range, product quality and product price is often the deciding factor in most deals.

INSURANCE:-

We maintain a range of insurance policies to cover our assets, risks and liabilities. Substantially all of our insurance policies related to manufacturing Unit and our movable property provide appropriate coverage in relation to fire, explosions, floods, inundations, earthquakes, landslides. We constantly evaluate the risks in an effort to be sufficiently covered for all known risks. We believe that the amount of insurance coverage presently maintained by us represents an appropriate level of coverage required to insure our business and operations and is in accordance with the industry standard in India.

REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and other Approvals” on page 176 of this Prospectus.

We are subject to a number of Central and State legislations which regulate substantive and procedural aspects of the business. Additionally, the business activities of our Company require sanctions, approval, license, registration etc. from the concerned authorities, under the relevant Central and State legislations and local bye-laws. For details of Government and Other Approvals obtained by the Company in compliance with these regulations, see section titled —Government and Other Approvals beginning on page no. 176 of this Prospectus. The following is an overview of some of the important laws, policies and regulations which are pertinent to our business as a player in the field of our Industry.

A. STATUTORY AND COMMERCIAL LAWS

The Companies Act, 1956

The Act deals with laws relating to companies and certain other associations. It was enacted by the parliament in 1956. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. Regulation of the financial and management aspects constitutes the main focus of the Act. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

The Companies Act, 2013 (to the extent notified)

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Act received the assent of President of India on 29th August 2013. At present almost all the provisions of this law have been made effective except a very few. The Ministry of Corporate Affairs, has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013.

Competition Act, 2002

The Competition Act, 2002 “prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (the “CCI”) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on March 4, 2011 and came into effect on June 1, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is Likely to have an appreciable adverse effect on competition in India. Effective June 1, 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

Industrial (Development and Regulation) Act, 1951

The Industrial (Development and Regulation) Act, 1951 has been liberalized under the New Industrial Policy dated July 24, 1991, and all industrial undertakings have been made exempt from licensing except for certain industries such as distillation and brewing of

alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defense equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum ("IEM") with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

Indian Contract Act, 1872

Indian Contract Act codifies the way we enter into a contract, execute a contract, and implement provisions of a contract and effects of breach of a contract. The Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them. Each contract creates some right and duties upon the contracting parties. Indian contract deals with the enforcement of these rights and duties upon the parties.

The Indian Contract Act also lays down provisions of indemnity, guarantee, bailment and agency. Provisions relating to sale of goods and partnership which were originally in the Act are now subject matter of separate enactments viz., the Sale of Goods Act and the Indian Partnership Act. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honoured and that legal remedies are made available to those who are affected.

Negotiable Instruments Act, 1881

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

The Registration Act, 1908 ("Registration Act")

The Registration Act was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

Indian Stamp Act, 1899(the "Stamp Act")

Under the Indian Stamp Act, 1899 (the "**Stamp Act**") stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state. Instruments chargeable to duty under the Stamp Act, which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein and it also provides for impounding of instruments that are not sufficiently stamped or not stamped at all.

The Sale of Goods Act, 1930(Sale of Goods)

The law relating to the sale of goods is codified in the Sale of Goods Act, 1930. It defines sale and agreement to sell as a contract whereby the seller transfers or agrees to transfer the property in goods to the buyer for a price and provides that there may be a contract of sale between part owner and another and that the contract of sale may be absolute or conditional. According to the provisions of this Act, a contract of sale is made by an offer to buy or sell the goods for a price and the acceptance of such offer. The Act further provides that the contract may provide for the immediate delivery of the goods or immediate payment of the price or both or for the delivery or payment by instalments or that the delivery or payment or both shall be postponed. Provisions are made in this Act for existing or future goods, perishable goods, ascertainment of price, conditions and warranties, effects of the contract, delivery to courier, duties of seller and buyer, buyer's right of examining the goods, liability of buyer for neglecting or refusing the delivery of goods, rights of unpaid seller, suits for breach of the contract, sale, etc.

The Arbitration and Conciliation Act, 1996

This act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Act is to comprehensively cover international and commercial arbitration and conciliation as also domestic arbitration and conciliation, to make provision for an arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration, to provide that the arbitral tribunal gives reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction, to minimise the supervisory role of courts in the arbitral process, to permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

Electricity Act, 2003

The Electricity Act, 2003 has been recently introduced with a view to rationalize electricity tariff, and to bring about transparent policies in the sector. The Act provides for private sector participation in generation, transmission and distribution of electricity, and provides for the corporatization of the state electricity boards. The related Electricity Regulatory Commissions Act, 1998 has been enacted with a view to confer on these statutory Commissions the responsibility of regulating this sector.

The Legal Metrology Act 2009

The Legal Metrology Act, 2009 (“LMA”) provides for establishing uniform standards of weights and measures regulate trade in weights, and other goods which are sold or distributed by weight, measure or number. Every manufacturer, repairer and seller shall have to obtain a license from the respective Controller. The Act allows Govt. approved test centers to verify weights and measures.

B. LAWS RELATING TO LABOUR AND EMPLOYMENT

As part of business of the Company it is required to comply from time to time with certain laws in relation to the employment of labour. A brief description of certain labour legislations which are applicable to the Company is set forth below:

The Factories Act, 1948

The Factories Act defines a ‘factory’ to be any premises including the precincts thereof, on which on any day in the previous 12 months, 10 or more workers are or were working and in which a manufacturing process is being carried on or is ordinarily carried on with the aid of power; or where at least 20 workers are or were working on any day in the preceding 12 months and on which a manufacturing process is being carried on or is ordinarily carried on without the aid of power. State governments prescribe rules with respect to the prior submission of plans, their approval for the establishment of factories and the registration and licensing of factories.

The Factories Act provides that the ‘occupier’ of a factory (defined as the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors) shall ensure the health, safety and welfare of all workers while they are at work in the factory, especially in respect of safety and proper maintenance of the factory such that it does not pose health risks, the safe use, handling, storage and transport of factory articles and substances, provision of adequate instruction, training and supervision to ensure workers’ health and safety, cleanliness and safe working conditions. If there is a contravention of any of the provisions of the Factories Act or the rules framed thereunder, the occupier and manager of the factory may be punished with imprisonment or with a fine or with both.

The Gujarat Factories Rules, 1963

The Gujarat Factories Rules, 1963 (the “Rules”) seek to regulate labour employed in factories in the State of Gujarat and makes provisions for the safety, health and welfare of the workers. The Rules also mandate maintenance of certain statutory registers in the factory.

Employees State Insurance Act, 1948, as amended (the “ESIC Act”)

The Employee’s Compensation Act, 1923 has been enacted with the objective to provide for the payment of compensation by certain classes of employers to their workmen or their survivors for industrial accidents and occupational diseases resulting in the death or disablement of such workmen. The Act makes every employer liable to pay compensation in accordance with the Act if a personal injury/disablement/loss of life is caused to a workman (including those employed through a contractor) by an accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the Act within one month from the date it falls due, the Commissioner may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

The Minimum Wages Act, 1948

The State Governments may stipulate the minimum wages applicable to a particular industry. The minimum wages generally consist of a basic rate of wages, cash value of supplies of essential commodities at concession rates and a special allowance, the aggregate of which reflects the cost of living index as notified in the Official Gazette. Workers are to be paid for overtime at overtime rates stipulated by the appropriate State Government. Any contravention may result in imprisonment of up to six months or a fine of up to Rs. 500. Further, employees who have been paid less than the minimum wages are entitled to the payment of the shortfall amount, together with compensation, which may extend up to ten times the shortfall amount.

Employees’ Compensation Act, 1923

The Employee’s Compensation Act, 1923 (“ECA”) has been enacted with the objective to provide for the payment of compensation by certain classes of employers to their workmen or their survivors for industrial accidents and occupational diseases resulting in the death or disablement of such workmen. The Act makes every employer liable to pay compensation in accordance with the Act if a personal injury/disablement/loss of life is caused to a workman (including those employed through a contractor) by an accident arising out of and in the course of his employment. In case the employer fails to pay compensation due under the Act within one month from the date it falls due, the Commissioner may direct the employer to pay the compensation amount along with interest and may also impose a penalty.

Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the monthly wages payable to such persons is less than Rs. 10,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

The Payment of Gratuity Act, 1972

The Gratuity Act establishes a scheme for the payment of gratuity to employees engaged in every factory, mine, oil field, plantation, port and railway company, every shop or establishment in which ten or more persons are employed or were employed on any day of the preceding twelve months and in such other establishments in which ten or more employees are employed or were employed on any day of the preceding twelve months, as notified by the Central Government from time to time. Penalties are prescribed for non-compliance with statutory provisions. Under the Gratuity Act, an employee who has been in continuous service for a period of five years will be eligible for gratuity upon his retirement, resignation, superannuation, death or disablement due to accident or disease. However, the entitlement to gratuity in the event of death or disablement will not be contingent upon an employee having completed five years of continuous service. The maximum amount of gratuity payable may not exceed Rs. 1 million.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“Act”) and the schemes formulated there under (“Schemes”)

This Act provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- i. ***The Employees Provident Fund Scheme:*** As per this Scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.

- ii. **The Employees Pension Scheme:** Employees' Pension Scheme is Pension Scheme for survivors, old aged and disabled persons. This Scheme derives its financial resource by partial diversion from the Provident Fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33 per cent of the employee's pay shall be remitted by the employer to the Employees' Pension fund within 15 days of the close of every month by a separate bank draft or cheque on account of the Employees' Pension Fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the Act. The Central Government shall also contribute at the rate of 1.16 per cent of the pay of the members of the Employees' Pension Scheme and credit the contribution to the Employees' Pension Fund.
- iii. **The Employees Deposit Linked Insurance Scheme:** As per this Scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the Act, to the Insurance Fund within 15 days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the Act.

Payment of Bonus Act, 1965

Every person liable to pay tax under this Act (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

The Goods and Services Tax Act, 2017

Goods and Services Tax (GST) is considered to be the biggest tax reform in India since independence. It will help realise the goal of "One Nation-One Tax-One Market." GST is expected to benefit all the stakeholders – industry, government and consumer.

Goods and Services Tax (GST) is an indirect tax throughout India and was introduced as The Constitution (One Hundred and Twenty Second Amendment) Act 2017, following the passage of Constitution 122nd Amendment Bill. The GST is governed by GST Council and its Chairman is Union Finance Minister of India - Arun Jaitley. This Act has been made applicable with effect from 1st July 2017. With the introduction of GST all central, state level taxes and levies on all goods and services have been subsumed within an integrated tax having two components – central GST and a state GST. Thus there will be a comprehensive and continuous mechanism of tax credits. The Central government passed four sets of GST Acts in the Budget session this year. These were Central GST Act, 2017; Integrated GST Act, 2017; Union Territory GST Act, 2017 and GST (Compensation to States) Act, 2017. The Acts were approved by the Parliament after they were introduced as the part of the Money Bill. Following the passage of GST Acts, the GST council has decided 4 tax rate slabs viz., 5%, 12%, 18% and 28% on supply of various goods and services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single State will be levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that State. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax, therefore, taxes are paid to the State where the goods or services are consumed and not the State in which they were produced.

E. INTELLECTUAL PROPERTY LAWS

India has certain laws relating to intellectual property rights such as patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 trademark protection under the Trade Marks Act, 1999, and design protection under the Designs Act, 2000.

The Trademarks Act, 1999

The Act provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the Trademarks Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

The Designs Act, 2000

This Act protects any visual design of objects that are not purely utilitarian. An industrial design consists of the creation of a shape, configuration or composition of pattern or colour, or combination of pattern and colour in three-dimensional form containing aesthetic value. It provides an exclusive right to apply a design to any article in any class in which the design is registered.

F. FOREIGN INVESTMENT REGULATIONS

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992, provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto.

Foreign Exchange Management Act, 1999 (“the FEMA”), and Rules and Regulations thereunder

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer of Issue of Security by a person Resident Outside India) Regulations, 2000 (“FEMA Regulations”) to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

Other Laws

In addition to the above, our Company is also required to comply with the provisions of the Companies Act, and other applicable statutes imposed by the Centre or the State for its day-to-day operations.

The Company is engaged providing renewable energy solutions, specialized in the manufacturing of Solar photovoltaic module, solar home light, solar street light, solar lantern, solar power plant, solar invertors, solar water heating systems and wood fired water heater etc.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Summary Statement of Assets and Liabilities of the Company as on July 31, 2017, March 31, 2017, March 31, 2016 and March 31, 2015 and the Restated Summary Statement of Profit and Loss and Restated Summary Statements of Cash Flows for the stub period ended on July 31st 2017 & financial year ended on March 31st 2017, March 31, 2016 and March 31, 2015 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Financial Statements of the Company for the stub period ended on July 31, 2017 & financial year ended on March 31, 2017, March 31, 2016 and March 31, 2015.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, 1956 (up to March 31, 2014), and notified sections, schedules and rules of the Companies Act 2013 (with effect from April 01, 2014), including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities, if any, as at the date of the financial statements and reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, employee retirement benefit plans, provision for income tax and the useful lives of fixed assets. The difference between the actual results and estimates are recognized in the period in which results are known or materialized.

3. FIXED ASSETS

Fixed assets are stated at historical cost/revalued value (as valued by registered valuer) less accumulated depreciation and impairment losses, if any. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Intangible assets are stated at acquisition cost, Net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over their estimated useful lives.

Gains or losses arising from the retirement or disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit & Loss.

4. DEPRECIATION

Tangible Fixed Assets

In accordance with AS-6 “Depreciation”, depreciation on tangible fixed assets is computed on considering useful life provided in the Schedule - II of the Act. The Company is providing depreciation on Straight Line basis as per the useful life prescribed in Schedule II of the Companies Act, 2013.

Pursuant to Companies Act, 2013 (‘the Act’) being effective from April 1, 2014, the Company has calculated the depreciation rates on tangible fixed assets as per useful life specified in Part ‘C’ of Schedule II of the Act. The Company has consistently calculated depreciation based on SLM method.

5. BORROWING COSTS

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

- (i) The company assesses, at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.
- (ii) After impairment, depreciation/ amortization is provided on the revised carrying amount of the asset over its remaining useful life.

7. INVESTMENTS

There are no Investments made during the Audit Period.

8. INVENTORIES

The Company is Following Cost or NRV whichever is lower method for valuing its Inventories.

9. REVENUE RECOGNITION

Revenue from sale of Products is recognized when all the risk and rewards related to sale of Product is transferred to Customer and the revenue can be reliably measured and no significant uncertainty exists regarding the amount of consideration that will be derived.

10. EMPLOYEE BENEFITS

The Company is not offering any Employee Benefits to its Employees.

11. ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount that are enacted or substantively enacted, at the reporting date.

(i) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

(ii) Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

12. CONTINGENT LIABILITIES AND PROVISIONS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for

- a) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or
- b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

13. EARNINGS PER SHARE:

In determining the Earnings Per share, the company considers the net profit after tax which does not include any post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

The number of shares used in computing Diluted earnings per share comprises the weighted average number of shares considered for computing Basic Earnings per share and also the weighted number of equity shares that would have been issued on conversion of all potentially dilutive shares.

In the event of issue of bonus shares, or share split the number of equity shares outstanding is increased without an increase in the resources. The number of Equity shares outstanding before the event is adjusted for the proportionate change in the number of equity shares outstanding as if the event had occurred at the beginning of the earliest period reported.

14. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

15. SEGMENT REPORTING:

(i) Business Segment

- (a) The business segment has been considered as the primary segment.
- (b) The Company's primary business segments are reflected based on principal business activities, the nature of Products, the differing risks and returns, the organization structure and the internal financial reporting system.
- (c) The Company's primary business comprises of Solar and Other renewable Products and since it is the only reportable segment as envisaged in Accounting Standard 17 'Segment Reporting'. Accordingly, no separate disclosure for Segment reporting is required to be made in the financial statements of the Company.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

C. NOTES ON RESTATEMENTS MADE IN THE RESTATED FINANCIALS

1. The financial statements including financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.

The forward-looking statements contained in this discussion and analysis is subject to a variety of factors that could cause actual results to differ materially from those contemplated by such statements.

OVERVIEW

Incorporated in 2014, Our Company is engaged providing renewable energy solutions, specialized in the manufacturing of Solar photovoltaic module, solar home light, solar street light, solar lantern, solar power plant, solar invertors, solar water heating systems and wood fired water heater etc. We precisely manufacture the offered products using optimum grade components and advanced technology in compliance with the set norms of the industry. We also provide the offered appliances in numerous specifications and customization in accordance with the demands of our customers. Our manufacturing facilities is situated in Anand, Gujarat.

Solex Energy Limited is an ISO 14001:2015 Certification, ISO 9001:2015 Certification, OHSAS 18001:2007 and CE MARK CERTIFIED offering systems of high quality and reliability. Solex modules are TUV certified & tested by the UL India Pvt. Ltd and comply in accordance with the standards.

Our Company was originally incorporated on October 13, 2014 as "Solex Energy Private Limited" under the provisions of the Companies Act, 2013 with the Registrar of Companies, Gujarat. After incorporation, Our Company has acquired the running business of "M/s Sun Energy Systems" a proprietorship concern of our Promoter engaged in manufacturing of Solar Panels and other renewable Energy Devices since 2002 vide business transfer agreement dated November 12, 2014. Further our Company was converted into Public Limited Company and consequently name of company was changed from "Solex Energy Private Limited" to "Solex Energy Limited" vide resolution passed by the Shareholders at the Annual General Meeting held on September 09, 2017 and a fresh certificate of incorporation dated September 22, 2017 issued by the Registrar of Companies, Ahmedabad.

Solex was originally incorporated by Mr. Kalpeshkumar Ramanbhai Patel and Ms. Arpitaben Upendrabhai Shelat in the year 2014. Presently the promoter of the Company is Mr. Kalpeshkumar Ramanbhai Patel, who have rich experience of about more than 24 years in the field of solar manufacturing business. The vast experience of the Promoter has been instrumental in determining the vision and growth strategies for our Company. We further believe that our market position has been achieved by adherence to the vision of our Promoter and senior management team and their experience of over a decades in the industry in which our Company operates.

Mr. Kalpeshkumar Ramanbhai Patel, Chairman cum Managing Director of the Company has a vision & mission that to provide the world class renewable energy solutions, services, technology and contribute to the sustainability. We are widely recognized for our high-quality products, services and contribution to a sustainable life. Our focus is to continuously improve our efficiency, quality, and technology.

Our product ranges from Solar PV Module (3WP - 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC). We also provide solution for solar roof top system, solar home and rural lighting system, solar power pack and solar power plant. Our Products are eligible for Subsidy from Government which is reduced from sales value during the sale of Product and thereafter release to our Company directly from Government.

Our development process includes design, development, testing, manufacturing and delivery. Our progressive management and cutting edge production technology contribute to our ability to provide our customers with exceptional value in a highly competitive

industry. The main object of the company is to provide the best quality with cheaper cost, so in line with our mission of offering high quality, cost effective photovoltaic solutions without compromising on quality, performance & safety, we have invested in state-of-the-art automatic production line that offers premium quality of production with consistency and economies of scale. Further, for manufacturing good quality products without any hurdles, we have implemented strict quality checks and control in order to offer our clients with only the top most quality products.

- Certificate of Compliance as ISO 14001:2015 certified for its Environmental Management Systems.
- Certificate as OHSAS: 18001: 2007 certified for its Health & Safety Management Systems.
- Certified for Photovoltaic Module (PV) by UL India Private Limited for comply with IEC 61701 Standard for Salt Mist Corrosion testing.
- Certified by SGS-TUV SAAR GMBH (Germany) for Solar Products.

COMPETITIVE STRENGTHS

Cost efficient sourcing and locational advantage

We have established a technologically advanced infrastructural facility, which spreads across a huge land area. This facility includes different units like production unit, admin, marketing, quality control etc. These units are equipped with up-to-date machinery and modern technology and ensures hassle free operations. With the backing of the quality of our products and reasonable rates at which we offer these, we have managed to establish a strong footing in the industry. Our specialists work in close synchronization with each another to satisfy the ever evolving necessities of our prestigious customers in the most efficient manner. Being a quality oriented organization, we make enormous effort to present our clientele with excellent quality products as per their requirements. We believe that our cost efficient manufacturing and supply chain management results in a significant reduction in our operational costs. With our experience, we are able to time our procurement of raw materials and being a large player in the industry we are also able to source these materials at a competitive price.

Proven and experienced management team

Our Promoter has around 24 years of experience in the industry. We believe that our senior management team has extensive experience in the commissioning of and operating manufacturing capacities, finance, sales, business development and strategic planning in the industry. The vision and foresight of our management enables us to explore and seize new opportunities and accordingly position ourselves to introduce new products to capitalize on the growth opportunities in the interior infrastructure sector. We believe that the demonstrated ability and expertise of our management team for committed asset investment and use of cutting-edge technology results in growing capacities and rising production levels with better cost management and enhanced process efficiency has translated into our quality product, increasing profitability and improved margins which gives us a competitive edge. Under the able guidance of our mentor, we have touched highest position in this highly competitive industry. His innovative thinking and creative ideas have helped us to claim the remarkable position in the industry.

Our sales and marketing network

Currently, we are doing market only in India. We are enhancing our presence in India by offering customer better product varieties and quality at economical prices. The Company has added several high value products such as Solar PV Module (3WP – 325 WP), Solar Lanterns (CFL & LED Base), Solar Home Light System (CFL & LED Base), Solar Street Light System (CFL & LED Base), Solar Off-Grid Power Plant (Solar Rooftop Systems), Solar Grid Connected Power Plant, Solar Water Heater Flat Plant Collector, Solar Water Heater ETC Type, Solar Submersible Pump (AC & DC), Solar Surface Pump (DC).

Extensive distribution network

Our distribution network ensures our product availability to our customers translating into efficient supply chain, focused customer service and short turnaround times for product delivery. Our dealer base is supported by an efficient sub dealer and distribution network and sales team, leading the products to retail outlets and making our products available on the shelf across most places at all times thereby reducing dealer stock levels and increased annual sales per dealer.

OUR BUSINESS STRATEGY

Cost effective production and timely fulfilment of orders

Our Company has taken various steps to ensure adherence to timely fulfillment of orders and also to achieve greater cost efficiency. Our Company also has enjoyed good relations with our suppliers and as a consequence have the benefit of timely supplies of the materials which has been one of the major reasons to achieve timely fulfillment of orders of our customers. Our Company constantly endeavors to implement an efficient procurement policy for inputs required for production so as to ensure cost efficiency in procurement which in turn results in cost effective production.

Optimal Utilization of Resources

Our Company constantly endeavors to improve our manufacturing process to optimize the utilization of resources. We have invested significant resources, and intend to further invest in our activities to develop customized systems and processes to ensure effective management control. We regularly analyze our existing policies to be carried out for operations of our Company which enable us to identify the areas of bottlenecks and correct the same. This helps us in improving efficiency and putting resources to optimal use.

To build-up a professional organization

As an organization we believe in transparency and commitment in our work among our work force and with our suppliers, customers, government authorities, banks, financial institutions etc. We have employed experienced persons for taking care of our day to day activities. We also consult with outside agencies on a case to case basis on technical and financial aspects of our business. Hence, the philosophy of professionalism is foundation stone of our business strategy and we wish to make it more sound and strong in times to come. We will consistently put efforts among its group of experienced employees to transform them into an outstanding team of empowered professionals which helps in further accelerating the wheels of development of the Organization.

Diversification and Expansion

Our Company engaged in the manufacturing of solar products and further our company wish to expand its business, which helps to our company to achieve its vision and mission. We are focusing on further integrating our operations and improving capacity utilization at our production facilities and optimize product planning across product categories. Higher capacity utilization results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over higher sales, thereby increasing profit margins. We also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs.

OUR PRODUCTS:-

S.No.	Name of Product	Description
1.	Solar CFL Street lighting system and Solar LED Street lighting system	<ul style="list-style-type: none"> ➤ DTDC controller (Automatic ON/OFF Operation). ➤ Two step charging algorithm ➤ Highly efficient charge controller and inverter. ➤ Temperature compensated battery set points. ➤ Weather proof luminaries ➤ Anodized aluminum reflector ➤ Anti-corrosive galvanized pole/MS Pole and suitable accessories ➤ ABS/MS Battery box ➤ 3 days system autonomy.
2.	Solar Lantern	<ul style="list-style-type: none"> ➤ Light weight and portable design. ➤ Non-polluting and Eco friendly. ➤ Bright and cool light after charging. ➤ Suitable Indications and Protections.

3.	Solar Power Plant, Solar Rooftop System & Solar Photovoltaic Module	Solar farms engineered are designed to work with a high degree of efficiency to achieve a minimum performance ratio of at least 80%.We provide our customers with a complete end to end solutions beginning with initial feasibility analysis until the final installation of the power plant and connection to the grid.
4.	"Solex" Solar Powerd Petrol Station	Most petrol pumps require to be run on a 24x7 basis thereby requiring an intelligent Solar Power Management System. Alternate power sources like diesel generators have a higher switchover time and the dispenser pump shuts down almost instantly. Power fluctuations also end-up damaging dispensing units at petrol pumps. Sudden power failure leads to loss of fuel, time and money of both the customer and the petrol pump owner.
5.	"Solex" Solar Powered Mobile Tower	<p>The solar power tower, also known as 'central tower' power plants or heliostar power plants or power towers, is a type of solar furnace using to receive the focused sunlight. It uses as array of flat, movable mirrors (called heliostats) to focus the sun's rays up on a collector tower (the target). Concentrated solar thermal is seen as one viable solution for renewable, pollution free energy.</p> <p>The Green Tower offers telecom companies large and small a solar-powered system that comes with energy storage, giving the service a new level of flexibility and reliability. Depending on energy needed to run your cell towers makes up 15 to 50 percent of total operating costs — the costs are higher in remote areas and the developing world, since we need to rely on gas-powered generators to keep the towers running.</p>
6.	Solar Water Pumping system-Surface	<ul style="list-style-type: none"> ➤ Solex Solar water pumping system is a standalone system operating on a power generated by photovoltaic modules. ➤ The power generated by solar panels is used for operating DC Surface mono bloc pump. ➤ The pumps are used for lifting water from open well or reservoir for minor irrigation and drinking water supply. ➤ The system requires shadow free area for solar panels.
7.	Solar Water Pumping System-Submersible	<ul style="list-style-type: none"> ➤ Solar water pumping system is a standalone system operating on a power generated by photovoltaic modules. ➤ The power generated by solar panels is used for operating DC submersible pump. ➤ Submersible pumps divided into two, Helical rotor and centrifugal pumps. ➤ Helical rotor pumps are used for high depth and low discharge and centrifugal pumps are used for low depth and high discharge.
8.	Solar Water Heater (ETC)	<ul style="list-style-type: none"> ➤ Low Cost Solar Water Heating ➤ Easy to Install ➤ No Electricity Required ➤ Gravity Pressure Hot Water ➤ High Quality Evacuated Tubes. ➤ 150LPD Quality Evacuated Tues ➤ 150LPD,200LPD,300LPD capacity
9.	Gas Fired Water Heater	<ul style="list-style-type: none"> ➤ Special high temperature resistant inner coating to prevent corrosion. ➤ Hot Winter Gas heater are hydrostatically pressure tested and up to 150 P.S.I. working pressure. ➤ All water connection are 1 N.P.T To provide full flow of water. <p>Insulation: Fiberglass machine pressed mattresses sag and moisture proof surrounds the storage heater and cladded with Galvanized Sheet (Stainless Steel Sheet On special request)</p>

Minimum Application Value, Market Lot and Trading Lot

As per regulations made under and Section 29(1) of the Companies Act, 2013 the Equity Shares to be allotted must be in Dematerialized form i.e. not in the form of physical certificates but be fungible and be represented by the statement issued through electronic mode. Hence, the Equity Shares being offered can be applied for in the dematerialized form only. In this context, two agreements have been signed among our Company, the respective Depositories and the Registrar to the Issue:

- Tripartite Agreement dated December 04, 2017 between NSDL, our Company and Registrar to the Issue; and
- Tripartite Agreement dated November 30, 2017 between CDSL, our Company and Registrar to the Issue; and

The trading of the Equity Shares will happen in the minimum contract size of 2000 Equity Shares and the same may be modified by the SME platform of NSE from time to time by giving prior notice to investors at large.

Allocation and allotment of Equity Shares through this Issue will be done in multiples of 2000 Equity Shares and is subject to a minimum allotment of 2000 Equity Shares to the successful applicants in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations the minimum application size in terms of number of specified securities shall not be less than Rupees One Lakh per application.

Minimum Number of Allottees

The minimum number of allottees in the Issue shall be 50 shareholders. In case the number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the amounts in the ASBA Account shall be unblocked forthwith.

Joint Holders

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013 the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Section 72 of the Companies Act, 2013 any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- To register himself or herself as the holder of the Equity Shares; or
- To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

Section 1: Purpose of the General Information Document (GID)

This document is applicable to the public issues undertaken inter-alia through the Fixed Price Issues. The purpose of the “General Information Document for Investing in Public Issues” is to provide general guidance to potential Applicants in IPOs, on the processes and procedures governing IPOs, undertaken in accordance with the provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (“SEBI ICDR Regulations, 2009”) as amended.

Applicants should note that investment in equity and equity related securities involves risk and Applicant should not invest any funds in the Issue unless they can afford to take the risk of losing their investment. The specific terms relating to securities and/or for subscribing to securities in an Issue and the relevant information about the Issuer undertaking the Issue; are set out in the Prospectus filed by the Issuer with the Registrar of Companies (“RoC”). Applicants should carefully read the entire Prospectus and the Application Form and the Abridged Prospectus of the Issuer in which they are proposing to invest through the Issue. In case of any difference in interpretation or conflict and/or overlap between the disclosure included in this document and the Prospectus, the disclosures in the Prospectus shall prevail. The Prospectus of the Issuer is available on the websites of stock exchanges, on the website(s) of the LM(s) to the Issue and on the website of Securities and Exchange Board of India (“SEBI”) at www.sebi.gov.in.

For the definitions of capitalized terms and abbreviations used herein Applicants may refer to the section “Glossary and Abbreviations”.

Section 2: Brief Introduction to IPOs on SME Exchange

2.1 Initial public offer (IPO)

An IPO means an offer of specified securities by an unlisted Issuer to the public for subscription and may include an Offer for Sale of specified securities to the public by any existing holder of such securities in an unlisted Issuer.

For undertaking an IPO, an Issuer is inter-alia required to comply with the eligibility requirements of in terms of either Regulation 26(1) or Regulation 26(2) of the SEBI ICDR Regulations, 2009 if applicable. For details of compliance with the eligibility requirements by the Issuer Applicants may refer to the Prospectus.

The Issuer may also undertake IPO under Chapter XB of SEBI (ICDR) regulations, wherein as per,

- Regulation 106M (1): An issuer whose post-issue face value capital does not exceed ten crore rupees shall issue its specified securities in accordance with provisions of this Chapter.
- Regulation 106M (2): An issuer whose post-issue face value capital is more than ten crore rupees and upto twenty five crore rupees, may also issue its specified securities in accordance with provisions of this Chapter.

The present Issue being made under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation.

2.2 Other Eligibility Requirements

In addition to the eligibility requirements specified in paragraphs 2.1 an Issuer proposing to undertake an IPO is required to comply with various other requirements as specified in the SEBI ICDR Regulations, 2009, the Companies Act, 1956 and the Companies Act, 2013 as may be applicable (“the Companies Act), the Securities Contracts (Regulation) Rules, 1957 (the “SCRR”), industry-specific regulations, if any, and other applicable laws for the time being in force.

Following are the eligibility requirements for making an SME IPO under Regulation 106M (1) of Chapter XB of SEBI (ICDR) Regulation:

- a) In accordance with Regulation 106(P) of SEBI (ICDR) Regulation, Issue has to be 100% underwritten and the LM has to underwrite at least 15% of the total issue size.
- b) In accordance with regulation 106(R) of SEBI (ICDR) Regulation, total number of proposed allottees in the Issue shall be greater than or equal to fifty, otherwise the entire application money will be blocked forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, than the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under Section 40 of the Companies Act, 2013.
- c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulation, Company is not required to file any Offer Document with SEBI nor has SEBI issued any observations on the Offer Document. The Lead Manager shall submit the copy of Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Prospectus with Stock Exchange and the Registrar of Companies.
- d) In accordance with Regulation 106(V) of the SEBI (ICDR) Regulation, the LM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the Issue.
- e) The Issuer shall have Net Tangible Assets of at least Rs. 1 crore as per the latest audited financial result.
- f) The Net worth (excluding revaluation reserves) of the Issuer shall be at least Rs. 1 crore as per the latest audited financial result.
- g) The issuer should have a tract record of distributable profits in terms of Section 123 of Companies Act, 2013 for two out of immediately preceding three financial years.
- h) The post –issue paid up capital of the issuer shall be at least Rs. 1 crore.
- i) The issuer shall mandatorily facilitate trading in demat securities
- j) The issuer should not been referred to Board for Industrial and Financial Reconstruction.
- k) No petition for winding up is admitted by a court of competent jurisdiction against the Issuer.
- l) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
- m) The company should have a website
- n) There has been no change in the promoter(s) of the company in the 1 year preceding the date of filing application to NSE for listing on SME segment.

Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter X-B of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106 (M) (3) of SEBI (ICDR) Regulation, 2009 the provisions of regulations 6(1), 6(2), 6(3) , Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this Issue.

Thus the Company is eligible for the Issue in accordance with Regulation 106M(2) and other provision of Chapter XB of SEBI (ICDR) Regulations as the post –issue face value capital does not exceed ` 2,500 Lakh. Company also complies with the eligibility conditions laid by the SME Platform of NSE for listing of our Equity Shares.

2.3 Types of Public Issues – Fixed Price Issues and Book Built Issues

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built Issue**”) or undertake a Fixed Price Issue (“**Fixed Price Issue**”). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in this Draft Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Bid/Issue Opening Date, in case of an IPO and at least one Working Day before the Bid/Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities.

Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 Issue Period

The Issue may be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period. Details of Issue Period are also available on the website of Stock Exchange.

2.5 Migration To Main Board

SME Issuer may migrate to the Main Board of Stock Exchange from the SME Exchange at a later date subject to the following:

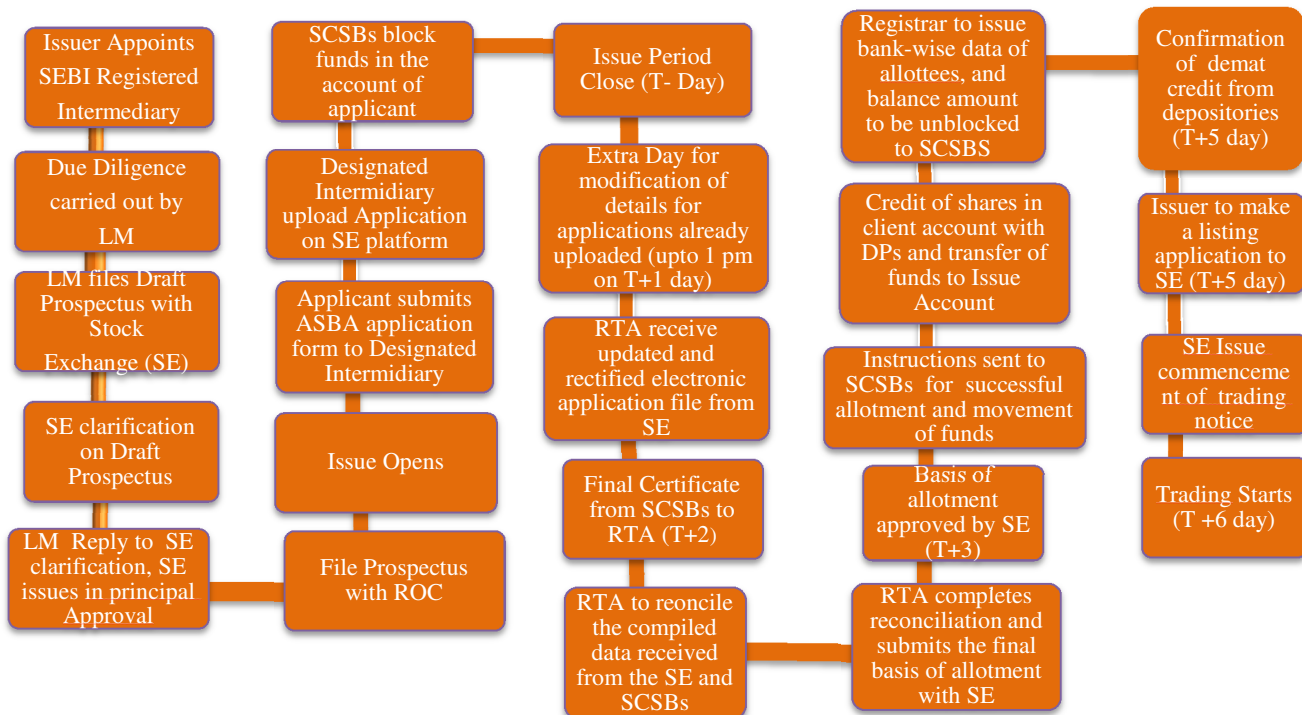

- a) If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), The Company shall apply to SE for listing of its shares on its Main Board subject to the fulfillment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

- b) If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications (including letters notifying the unblocking of the bank accounts of Applicants) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer,
- b) The Designated Intermediaries and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- c) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Bid cum Application Form/Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- d) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

“Any person who:

- **makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or**
 - **makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or**
 - **otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.”**
- e) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 72 of the Companies Act, 2013. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE FIRST APPLICANT

- a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories’ records.
- b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim (“PAN Exempted Applicants”). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in their Depository records, are liable to be rejected.
- c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.

- e) Applications by Applicants whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and demographic details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, **otherwise, the Application Form is liable to be rejected.**
- b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for unblocking of ASBA Account or for other correspondence(s) related to an Issue.
- d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- a) The Issuer may mention Price as per Prospectus. However a Prospectus registered with RoC contains one price.
- b) Minimum and Maximum Application Size
- i. For Retail Individual Applicants
- The Application must be for a minimum of 2000 equity shares. As the application price payable by the retail individual applicants cannot exceed ` 200000 they can make Application for only minimum Application size i.e. for 2000 equity shares.
- ii. For Other Applicants (Non Institutional Applicants and QIBs):
- The Application must be for a minimum of such number of equity shares such that the Application Amount exceeds ` 200000 and in multiples of 2000 equity shares thereafter. An application cannot be submitted for more than the Issue Size. However, the maximum application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision of Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 200000 for being considered for allocation in the Non Institutional Portion. Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of equity shares that can be held by them under prescribed law or regulation or as specified in this Prospectus.
- c) **Multiple Applications:** An applicant should submit only one Application Form. Submission of a second Application Form to either the same or to the Designated Intermediaries and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- d) Applicants are requested to note the following procedures may be followed by the Registrar to the issue to detect multiple applications:
- i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and PFI sub-accounts, applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
- ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In

any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.

- e) The following applications may not be treated as multiple applications:
 - i. Application by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being the Fixed Price Issue this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 Basis of Allotment

Allotment will be made in consultation with SME Platform of NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).
- b) The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c) For applications where the proportionate allotment works out to less than 2000 Equity Shares the allotment will be made as follows:
 - i. Each successful applicant shall be allotted 2000 Equity Shares;
 - ii. The successful applicants out of the total applicants for that category shall be determined by the drawal of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- d) If the proportionate allotment to an applicant works out to a number that is not a multiple of 2000 Equity Shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of 2000 Equity Shares subject to a minimum allotment of 2000 Equity Shares.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the lower nearest multiple of 2000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, upto 110% of the size of the offer specified under the Capital Structure mentioned in the Prospectus.
- f) The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for Retail Individual applicants as described below:
 - i. As per Regulation 43(4) of the SEBI (ICDR) Regulations, as the Retail Individual Investor category is entitled to more than fifty percent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - ii. Remaining to Individual applicants other than retail individual investors and Other investors including corporate bodies or institutions, irrespective of the number of specified securities applied for;
 - iii. The unsubscribed portion in either of the categories specified in (a) or (b) above may be available for allocation to the applicants in the other category, if so required.

'Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with SME Platform of NSE.

The Executive Director/ Managing Director of the SME Platform of NSE, Designated Stock Exchange in addition to Lead Merchant Banker and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations, 2009.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. Applicants **are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Applicants who have been Allotted Equity Shares in the Issue.

- c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Applicants Depository Account will be completed within 5 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Applicant's depository account is completed within 5 Working Days of the Issue Closing Date.

SECTION 8: INTEREST AND REFUNDS

8.1 COMPLETION OF FORMALITIES FOR LISTING & COMMENCEMENT OF TRADING

The Issuer may ensure that all steps for the completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges are taken within 6 Working Days of the Issue Closing Date. The Registrar to the Issue may give instructions for credit to Equity Shares the beneficiary account with DPs, and dispatch the Allotment Advice within 6 Working Days of the Issue Closing Date.

8.2 GROUNDS FOR UNBLOCKING OF FUNDS

8.2.1 Non Receipt of Listing Permission

An Issuer makes an application to the Stock Exchange(s) for permission to deal in/list and for an official quotation of the Equity Shares. All the Stock Exchanges from where such permission is sought are disclosed in Prospectus. The Designated Stock Exchange may be as disclosed in the Prospectus with which the Basis of Allotment may be finalized.

If the permissions to deal in and for an official quotation of the Equity Shares are not granted by any of the Stock Exchange(s), the Issuer may forthwith initiate action to unblock the application amount from the Investors accounts. If such money is not repaid within the eight days after the Issuer becomes liable to repay it, then the Issuer and every director of the Issuer who is an officer in default may, on and from such expiry of eight days, be liable to repay the money, with interest at such rate, as prescribed under Section 73 of Companies Act, and disclosed in the Prospectus.

8.2.2 Minimum Subscription

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten.

As per Section 39 of Companies Act, 2013 if the "stated minimum amount" has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our company does not receive the 100% subscription of the offer through the Offer Document including devolvement of underwriters, if any, within sixty (60) days from the date of closure of the issue, our company shall forthwith unblocked the entire application amount received. If there is a delay beyond eighty days after our company becomes liable to pay the amount, our company and every officer in default will, on and from the expiry of this period be jointly and severally liable to repay the money, with interest or other penalty as prescribed under SEBI Regulations and the Companies Act, 2013.

The minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50 no allotment will be made pursuant to this Issue and the amounts in the ASBA Account shall be unblocked within 6 working days of closure of the issue.

Further in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs.100000/- (Rupees One Lakh) per application.

The equity shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance without the applicable laws of such jurisdiction.

8.2.3 MINIMUM NUMBER OF ALLOTTEES

The Issuer may ensure that the number of prospective allottees to whom Equity Shares may be allotted may not be less than 50 failing which the entire application monies may be unblocked forthwith.

8.3 Mode of Unblocking of Funds

Within 6 Working Days of the Issue Closing Date, the Registrar to the Issue may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Application and also for any excess amount blocked on Application.

8.3.1 Mode of making refunds for Applicants

The Registrar to the Issue may instruct the controlling branch of the SCSB to unblock the funds in the relevant ASBA Account for any withdrawn, rejected or unsuccessful ASBA applications or in the event of withdrawal or failure of the Issue.

8.4 Interest In Case Of Delay in Allotment

The Issuer may pay interest at the rate of 15% per annum if demat credits are not made to Applicants or instructions for unblocking of funds in the ASBA Account are not dispatched within the 6 Working days of the Issue Closing Date.

The Issuer may pay interest at 15% per annum for any delay beyond 6 working days from the Issue Closing Date, if Allotment is not made.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government, the FDI Policy (as defined below) and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are FIPB and the RBI.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), issued consolidated FDI Policy, which with effect from June 07, 2016 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on June 7, 2016. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

Subscription by foreign investors (NRIs/FPIs)

FPIs are permitted to subscribe to Equity Shares of an Indian Company in a public Issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through Issue, subject to total FPI investment being within the individual FPI/sub account investment limit of 10 per cent subject to the total sectoral cap of all FPIs/sub-accounts put together being 24 per cent of the paid-up capital of the Indian company.

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of FIPB or RBI, subject to fulfillment of certain conditions as specified by DIPP / RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the foreign direct investment (“FDI”) Policy and the non-resident shareholding is within the sectoral limits under the FDI policy; and (ii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company.

Representation from the Applicants

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines and approvals.

Investors that make application under the Issue will be required to confirm and will be deemed to have represented to our Company, the Underwriters, and their respective directors, officers, agents, affiliates and representatives, as applicable, that they are eligible under all applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares of our Company and will not Issue, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines and approvals to acquire Equity Shares of our Company. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

There is no reservation for Non Residents, NRIs, FPIs, foreign venture capital funds, multi-lateral and bilateral development financial institutions and any other foreign investor. All Non Residents, NRIs, FPIs and foreign venture capital funds, multi-lateral and bilateral development financial institutions and any other foreign investor applicants will be treated on the same basis with other categories for the purpose of allocation.

As per the existing policy of the Government of India, OCBs also cannot participate in any Public Issue.

The Equity Shares have not been and will not be registered under the Securities Act or any state securities laws in the United States and may not be offered or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S promulgated under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, the Equity Shares are only being offered and sold outside the United States to certain persons in offshore transactions in compliance with Regulation S under the Securities Act.

Our Company, LM and the Issue Management Team are not making any selling efforts in any jurisdiction outside India.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. The Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
