PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

All references to “India” are to the Republic of India and all references to the “Government” are to the Government of India.

FINANCIAL DATA

Unless stated otherwise, the financial data included in this Red Herring Prospectus are extracted from the restated financial statements of our Company, prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 171 of this Red Herring Prospectus. Our restated financial statements are derived from our audited financial statements prepared in accordance with Indian GAAP and the Companies Act, and have been restated in accordance with the SEBI (ICDR) Regulations.

Our fiscal year commences on April 1st of each year and ends on March 31st of the next year. All references to a particular fiscal year are to the 12 month period ended March 31st of that year. In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding-off. All decimals have been rounded off to two decimal points.

There are significant differences between Indian GAAP, IFRS and US GAAP. The Company has not attempted to quantify their impact on the financial data included herein and urges you to consult your own advisors regarding such differences and their impact on the Company’s financial data. Accordingly to what extent, the financial statements included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” and elsewhere in this Red Herring Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “*Financial Statements as Restated*” beginning on page 171 of this Red Herring Prospectus.

CURRENCY OF PRESENTATION

In this Red Herring Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’ / ‘Million’ / ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn./ Billions’ means ‘one hundred crores’.

INDUSTRY AND MARKET DATA

Unless stated otherwise, Industry and Market data and various forecasts used throughout this Red Herring Prospectus have been obtained from publically available information, Industry Sources and Government Publications.

Industry Sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “*Risk Factors*” beginning on page 23 of this Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENT

This Red Herring Prospectus contains certain “forward-looking statements”. These forward looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following:-

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors/areas in which we operate;
- Increased competition in the Industry which we operate;
- Factors affecting the Industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Conflict of Interest with affiliated companies, the promoter group and other related parties; and
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “Risk Factors” and chapter titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 23 and 172 respectively of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Red Herring Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act, 2013 and its applicable Companies Act Rules (as amended from time to time) and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 121, “Our Industry” beginning on page 102 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 172 respectively, of this Red Herring Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively; and*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, the financial information of the Company used in this section is derived from our financial statements under Indian GAAP, as restated in this Red Herring Prospectus. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 3 of this Red Herring Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS FACTORS

BUSINESS / COMPANY SPECIFIC RISKS

- Our Company and Promoters-Directors are involved in certain litigation which is currently pending at various stages. Currently, our Company is also involved in a criminal litigation with certain other tax related proceedings; any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.*

There are no legal proceedings by or against our Directors other than Promoters, Group Companies or Subsidiaries. A classification of legal proceedings is mentioned below:

Also, there is no assurance that in future, we, our promoters, our directors, group companies or subsidiaries may not face legal proceedings; any adverse decision in such legal proceedings may impact our business. For further details in relation to legal proceedings involving our Company, Promoters, Directors, Group Company and Subsidiaries see the chapter titled “Outstanding Litigation and Material Developments” on page 189 of this Red Herring Prospectus.

2. ***Our Company has unpaid Direct and Indirect Tax liability as on 31st December, 2017 amounting to Rs. 955.21 Lakhs, part of this liability is paid in the month of March, 2018. Further, the interest liability on such tax dues are not yet accounted for.***

Our Company has been facing working capital issues due to the nature of the business it operates into. Owing to this, our Company has accumulated unpaid tax liability as on 31st December, 2017 totalling to Rs. 995.74 Lakhs as per Restated Standalone Financial Statements. Of the mentioned amount, Rs. 583.19 Lakhs stands towards Direct Taxes while the remaining amount of Rs. 412.55 Lakhs is towards various Indirect Taxes. However, out of the above mentioned amount, our Company has partly paid its Income Tax dues of Rs. 332.88 Lakhs in the month of March, 2018.

Further, the interest liability as per the relevant Tax laws on the unpaid tax dues are not yet accounted in the books of accounts.

3. ***Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.***

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and trade payables. We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables and trade payables. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “*Objects of the Issue*” beginning on page 86 of this Red Herring Prospectus.

Further, Summary of our working capital position from Restated Standalone Financial Statements is given below: -

4. We have a very limited operating history as a company, which may make it difficult for investors to evaluate our historical performance, current business or future prospects.

Although, we have been in automation business since 2005, we have incorporated our Company only in year 2010. Further, our multi-level car parking business is still in its initial phase and contributes only approx. 19% of our Total Revenue.

Given, our limited operating history, we may not have sufficient experience as a Company to address the risks frequently encountered by early stage companies, including our ability to successfully completing our orders or maintain adequate control of our costs and expenses. Additionally, combined with the rapidly evolving and competitive nature of our markets, or limited experience as a Company further makes it difficult to evaluate our current business and future prospects. The industry we operate is fragmented in nature whereby we do not have complete information about our competitors and accordingly we may underestimate the supply of our products in the market. Also, we have limited insight into emerging trends that may adversely affect our business, financial condition, results of operations and prospects. We have encountered and will continue to encounter risks and difficulties frequently experienced by growing companies in rapidly changing industries, including unpredictable and volatile revenue and increased expenses as we continue to grow our business. The viability and demand for our products and services may be affected by many factors outside of our control. Accordingly, prospective investors should consider our business and prospects in light of the risks, losses and challenges that we face as an early-stage company and should not rely on our results of operations for any prior periods as an indication of our future performance.

5. Our Revenue have witnessed decline for the F.Y. 2016-17 compared to F.Y. 2015-16.

Our Revenue from Operations in FY 2016-17 was at Rs. 4,026.61 Lakhs compared to Rs. 4,702.15 Lakhs in FY 2015-16. The decline in revenue has been majorly due to fewer orders compared to previous year, also certain of our orders took longer than expected time for completion. Although we have not witnessed any decline in Revenues for last 5 years, but there can be no assurance that such decline may not occur in future. Declining revenue could cause pressure on profit margin which will impact the overall financial condition.

6. Our Company intends to utilise part of the Net Proceeds from this issue towards expansion by purchase of Plant & Machinery. Company is yet to place orders for such Plant & Machinerics.

As mentioned in the “Objects of the Issue” – beginning on Page 86 of this Red Herring Prospectus, Our Company will be utilising certain portion of the Net Proceeds towards expansion of our assembly line and purchase of machinery for manufacturing Child parts.

Although our company has identified the list of plant and machinery required to be bought for our proposed expansion plan, we are yet to place orders for 100% of the Plant & Machinery worth based Rs. 418.74 Lakhs as detailed in the “Objects of the Issue” beginning on Page 86 of this Red Herring Prospectus. These are based on our estimates and on third-party quotations, which are subject to a number of variables, including possible cost overruns, changes in management’s views of the desirability of current plans, change in supplier of equipment, among others, which may have an adverse effect on our business and results of operations. Further, we cannot assure that we would be able to procure these plant and machinery, or procure the same within budgeted costs and timelines. Delays in acquisition of the same could result in the cost and time overrun in the implementation of the Project, which would have a material adverse effect on our business, results of operations and financial condition.

7. Our Company has negative cash flows from its operating, investing and financing activities in the past years, details of which from Restated Standalone financials are given below. Sustained negative cash flow could impact our growth and business.

Our Company had negative cash flows from our operating, investing and financing activities in the previous years as per the Restated Standalone Financial Statements and the same are summarized as under:

Amount (Rs. In lakhs)

Particulars	For the period ended 31 st Dec, 2017	For the year ended March 31,				
		2017	2016	2015	2014	2013
Cash Flow from / (used in) Operating Activities	528.90	(63.20)	391.58	20.08	(26.31)	293.48
Cash Flow from / (used in) Investing Activities	(562.35)	(168.35)	(203.66)	(277.98)	(70.65)	(220.34)
Cash Flow from / (used in) Financing Activities	(3.06)	91.02	(146.37)	446.36	144.89	(39.45)

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

8. Our success and future revenue depend on our ability to secure order while securing order is a lengthy and competitive process, and may not result in actual orders and sales, which would affect our revenue.

We install our automation solutions at our customers’ manufacturing facility. Once the customer is satisfied with the solutions we intend to provide and if it meets our customers’ requirements, then only the approval is given pursuant to which the order is secured. This process can be quite lengthy and competitive, our customers may take longer than the expected time to evaluate our solution, further they may face delay in commissioning their commercial production. Due to this lengthy and uncertain

process, we may experience significant delay in orders which results in an increase of operating expenses and investments cost adversely affecting our business operations.

- 9. *Our top 10 customers and top 5 customers contributed substantial portion of our total revenues from operations respectively for the period ended December 31, 2017 and year ended March 31, 2017. Any loss of business from one or more of them may adversely affect our revenues and profitability.***

Contribution of our top 10 customers and top 5 customers of our total revenues from operations for the period ended December 31, 2017 and year ended March 31, 2017 is as under:

Particulars	FY 17-18 (Upto Dec'17)	FY 2016-17
Top 10 customers	74.59%	63.84%
Top 5 customers	58.41%	43.06%

Any decline in our quality standards or services, growing competition and any change in the demand, may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations. Also, our business from customers is highly dependent on our continuing relationship with them, the quality of our solution and our ability to deliver on their orders, and there can be no assurance that such customers will continue to do business with us in the future on commercially acceptable terms or at all. If our customers do not continue to purchase products from us, or reduce the volume of products purchased from us, our business prospects, results of operations and financial condition may be adversely affected. Significant dependence on them may increase the potential volatility of our results of operations and exposure to individual contract risks. In the event that any of these customers discontinue their business from us, our results of operations and financial condition may be adversely affected.

- 10. *Our Company's failure to maintain the quality to maintain the quality standards of the services and Solution or keep pace with the technological developments could adversely impact our business, results of operations and financial condition.***

Our products depend on inventions and developments as we need to provide advanced automation solution. Any rapid change in our customers' expectation on account of changes in technology or introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operation and financial condition. Although we have put in place highly qualified team for the purpose, we cannot assure that our solution will always be able to satisfy our customers' requirements. Any negative publicity regarding our Company or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. While, we believe that we have always provided latest automation solution and also endeavour regularly update our existing technology, our failure to anticipate or to respond adequately to changing technical, market demands and/or client requirements could adversely affect our business and financial results.

- 11. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees.***

We believe that the industry in which we operate face competitive pressures in recruiting and retaining skilled and unskilled labour. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past; there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage

and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

12. *Our application for registration of our corporate logo is currently pending with relevant Trademark Certifying Authority as a result of which we may have lesser recourse to initiate legal proceedings to protect our brand name. This may lead to dilution in the brand value in respect of certain services in which may deal in future.*

We operate in an environment, where generating brand recognition is significant element of our business strategy. Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. We depend on certain brand names and our corporate name and logo that we may not be able to protect and/ or maintain as few of those are currently pending for registration.

At present, we have not applied for the trademark w.r.t to our logo viz., , which is pending. There is no guarantee that the application for registration of our trademark will be accepted in favour of the Company when the same is applied with the certifying authority. This may affect our ability to protect our trademark in the event of any infringement of our intellectual property. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and future prospects.

Therefore, we do not enjoy the statutory protection accorded to a registered trademarks and are subject to various risks arising out of the same, including but not limited to passing off, infringement by a third party. Thereby, our ability to use our logo may be limited and impaired. There can be no assurance that we will be able to register our trademarks or prevent the infringement or passing off from the third party, which can result in loss of business, loss in goodwill and reputation and adversely affect our business, financial condition, results of operations and prospects.

Also, subsequent to the registration of our trademark in case of failure to renew our intellectual property on time, it may also adversely affect our business operations. Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects. The material approvals, licences or permits required for our business include trade licence, excise and tax laws, environment laws and shops and establishment licences, among others. See “Government and other Statutory Approvals” on page 199 of this Red Herring Prospectus for further details on the required material approvals for the operation of our business.

13. *We rely on our relationships with OEMs to enhance our solutions and market position, and our failure to continue to develop or maintain such relationships in the future would harm our ability to get business.*

We develop automotive solution for leading OEMs and tier-1 vendors that manufactures automobiles. For each model, OEMs install our automation solution which becomes basis for their production process. Whenever there is a modification in their design or a whole new design is launched, automation solution has to be modified according to the newer production process. So, our relationship with the OEMs is very important for continuously getting business from them. If our relationships with key industry participants were to deteriorate or if our solutions were not approved by our customers, our market position and revenue could be materially and adversely affected.

14. *We have certain contingent liabilities that have not been provided for in our Company's financials which if materialised, could adversely affect our financial condition.*

Our Company has certain contingent liabilities in its Restated Standalone Financial Statements, the details are here under:

(Amount in Rs. Lakhs)

Particulars	31-Dec-17	31-Mar-17	31-Mar-16	31-Mar-15	31-Mar-14	31-Mar-13
Bank Guarantee	121.47	213.60	-	-	-	-
Income Tax, TDS	12.77	12.19	9.28	8.54	8.48	8.48

15. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful various market conditions.

16. Any delay or defaults in receipt of payments or dues from our customers could result in a reduction of our profits.

We regularly commit resources prior to receiving or other payments from our customer. We may be subject to working capital shortages due to delays or defaults in receipt of payments or dues from such customers. If our customers default in their payments or if any order/ assignment in which we have invested significant resources is delayed, cancelled or curtailed, it could have a material adverse effect on our business, financial condition and results of operations.

17. The complexity of our solutions may lead to errors, defects and bugs, which could negatively impact our reputation with customers and result in liability.

Automation solution requires technical and software support which are complex in nature which may contain certain coding, configuration or any other technical errors and defects when installed at customers' manufacturing facility. Our products in the past have not experienced such coding, configuration and/ or any other technical errors and defects. However, there may not be any guarantee of non-occurrence of such events in future. Delivery of automation solution with defects or reliability, quality or compatibility problems could significantly delay or hinder acceptance of the product or result in a costly rework and could damage our reputation.

18. We rely upon third-party licensed software to design our solutions. Our ability to design our solution is largely dependent on these software.

Our solution needs licensed software from third parties. Our technical team has the required expertise for using advanced and updated software which is used in providing the automation solution to OEM and Tier-1 vendors. We are dependent on this software for our regular and continuous operations. While we expect to continue to use this software, we may not be able to receive the expected end result from them which may hamper our ability to provide the expected services. Further, we may not be able to use them on reasonably commercial terms which may affect our operations substantially.

19. We are dependent upon vendors from Pune and Maharashtra for outsourcing the production or procuring small parts. In an eventuality of any unrest, political tension, etc. in these region, our vendors may be unable to deliver us the required materials in a time-bound manner it may have a material adverse effect on our business operations and profitability.

For the year ended March 31, 2017, vendors from Pune and Maharashtra contributed around 68% of our purchases respectively. In the event of any incidents in these regions, there may be delay, inadequacy or default in deliveries of the required materials by any of our vendors and we may not be able to source our child parts on an adequate and timely basis or on commercially acceptable terms. A major disruption to the timely and adequate supplies could adversely affect our business, results of operations and financial condition.

Any problems faced by our vendors in their manufacturing facilities resulting in delays or non-adherence to quality requirements could adversely impact our ability to meet our customer's requirements in time and our operations would be affected to the extent we are unable to line up supplies from alternate suppliers.

20. *Presently, our major focus of revenue is on the automation solution to automotive industry and any adverse business scenario in this industry may adversely affect our business.*

Our Company has been focusing on revenue from automotive industry. Our percentage revenue in F.Y. 2016-17 from automotive industry was at around 81%. However, we are also focusing on increasing revenue from other areas like, multi-level car parking business and Secondary Packaging. Any adverse scenario affecting automobile industry will adversely affect our financial performance. Further, our other businesses are at a nascent stage which may not contribute to our revenue substantially.

21. *Our Company has not entered into any supply agreement for the major raw materials required for manufacturing of our products and are exposed to risks relating to fluctuations in commodity prices and shortage of raw material.*

Raw material costs are dependent on commodity prices, which are subject to fluctuations. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials. If we experience a significant or prolonged shortage of raw materials from any of our suppliers and we cannot procure the raw materials from other sources, we would be unable to meet our production schedules in a timely fashion, which would adversely affect our sales, margins and customer relations. In the absence of such supply agreements, we cannot assure that a particular supplier will continue to supply raw materials to us in the future. In the event the prices of such raw materials were to rise substantially or if imports were to be restricted in any manner, we may find it difficult to make alternative arrangements for supplies of our raw materials, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition.

22. *Multi-level car parking business of our company is confined to Mumbai and Pune only. We may lose opportunity available elsewhere.*

Along with our existing expertise in automation business, we have added a new vertical viz., automated multi-level car parking. However, at present w.r.t the multi-level car parking business, our operation is confined in the cities like Mumbai and Pune only. We foresee growth opportunity in these regions and hence intend to focus only in these areas in near future. This strategy of ours may lead to loss of business opportunity available in other areas of the country affecting our business adversely.

23. *We have operations outside of India and intend to expand our international operations, which exposes us to significant risks.*

We have limited operations in China and we intend to expand in the United States. The success of our business depends, in large part, on our ability to operate successfully from geographically disparate locations and to further expand our international operations and sales. Operating in international markets requires significant resources and management attention and subjects us to regulatory, economic and political risks that are different from those we face in India. We cannot be sure that further international expansion will be successful and generate enough revenues for our Company. In addition, we face risks in doing business internationally that could expose us to reduced demand for our solution, lower prices for our products or other adverse effects on our operating results.

24. *Commissioning of new segment of business, Secondary Packaging does not have any order book.*

Our Company has recently set up a team specifically for Secondary Packaging business. Our Company is in the process of identifying potential clients and exploring business opportunities in this segment, which is still at a very nascent stage. Currently, we do not have any order book under this segment. However, our Company is in talks with few prospective clients from which we expect orders in next two quarters, but there can be no assurance that such orders will materialise or orders this prospective clients into our business and receive orders in near future under this segment of business which may affect our business and the capital investment which we may have invested may not generate required returns.

- 25. *We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business. Some of the approvals are required to be transferred in the name of AFFORDABLE ROBOTIC & AUTOMATION LIMITED from AFFORDABLE ROBOTIC & AUTOMATION PRIVATE LIMITED pursuant to name change of our company and any failure or delay in obtaining the same in a timely manner may adversely affect our operations.***

We need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course of our business. Pursuant to our conversion from a private limited company to a public limited company in the year 2018, we need to take necessary steps for transferring the approvals of our company in the new name. Approvals like Consent to Establish the Unit for a product at a particular production capacity issued by Maharashtra Pollution Control Board are currently not traceable by the company. Our Company has also applied for change of name of these approvals. In case of delay or failure to obtain the same, it could affect our business operations. Any failure to renew the approvals that have expired, or to apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, could result in delaying the operations of our business, which may adversely affect our business, financial condition, results of operations and prospects. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Further, a complete series of approvals is required to be obtained for license to work a factory under the Factories Act, 1948 for which an application dated January 13, 2018 to the Industrial Safety & Health Department of Maharashtra under Labour Ministry has been made and the matter is currently pending. Additionally, our company has not applied for change of name of the approvals as mentioned in material licenses/ approvals for which the Company is yet to apply section of Government and Other Statutory Approvals Chapter. For more information, see chapter “Government and Other Statutory Approvals” on page 199 of this Red Herring Prospectus.

- 26. *We depend on certain brand names and our corporate name and logo that we may not be able to protect and/or maintain. We have a logo which is used for our business purpose. Further the said logo is not applied for registration with the Registrar of Trademarks, Trademark Registry, Mumbai.***
- Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill. Currently, we have not applied for registration of our logo. This may affect our ability to protect our trademark in the event of any infringement of our intellectual property. In the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our corporate name or logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects. In case of failure to renew our intellectual property on time, it may adversely affect our business operations.

Our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business, financial condition, results of operations and prospects.

The material approvals, licences or permits required for our business include trade licence, excise and tax laws, environment laws and shops and establishment licences, among others. See “Government and other Statutory Approvals” on page 199 of this Red Herring Prospectus for further details on the required material approvals for the operation of our business.

27. *Our automation solution is customer specific and a solution designed cannot be used for multiple customers.*

We specialize in providing automation solution to our customers based on their custom and individual preferences. After receiving orders from customers we dedicate our technically qualified team specially to design automation solution for the customers as per their requirements which are model-specific. A solution designed for a particular model for any customer cannot be used in other models of the same customer or any other customers. This nature of our business requires us to design specifically for each of our orders and we cannot generate repeated sales from one designed automation solution. This may possess operational risk to our business, as completion of any particular order is a lengthy process and requires substantial amount of working capital and human efforts. Our inability to manage them efficiently may possess serious risk to our business.

28. *We rely on third parties to manufacture and procure child parts, which exposes us to a number of risks, including reduced control over manufacturing and delivery timing and potential exposure to price fluctuations, which could result in a loss of revenue or reduced profitability.*

Our Company being in the business of providing automation solutions, we do not manufacture small machining components. Jigs and fixtures requiring child parts and spares in its structure are outsourced to third parties for the purpose of their procurement or are purchased directly through third party vendors owing to which our Company does not have any direct control over the quality and timeliness of the delivery of such child parts and their allied products. Subsequently, we are also exposed to price fluctuations in these parts which may affect our business, profitability and financial condition.

29. *Our success depends on our ability to attract and retain key employees, and our failure to do so could harm our ability to grow our business and execute our business strategies.*

Our performance and success substantially depends on the ability to attract and retain our key employees, including our management team and experienced personnel. Although some of the members of our senior management have been with us for a long period of time, there can be no assurance that any member of our senior management or other key employees will not leave us in the future.

Our success is also highly dependent on our continuous ability to identify, hire, train retain and motivate highly qualified management, technical, sales and marketing personnel. Competition for personnel in the automation industry is intense, and the availability of suitable and qualified candidates is limited. We intend to attract and hire talents from reputed institutes. However, the loss of services of one or more of our key employees, especially our technical team, or our inability to attract and retain qualified engineers, could harm our operational business and consequently financially.

30. *Our growth depends largely on the growth and development of the automobile industry, need of automation of various processes in manufacturing, packaging, and if the market does not develop as we expect, our business prospects may be harmed.*

Our industry is mainly in providing automation solution for manufacturing capital goods for automobile industry. With evolving technologies, industry standards and frequent changing customer demands our business is directly affected. Our success is largely dependent on the growth and evolution of the Automobile industry, hence, our business may suffer as a result of slowing or declining growth in automobile industry. As a result of these factors there may be an adverse effect on the future revenue and income potential of our business.

31. *Our Peer reviewed auditor has given an emphasis on Opinion in its Audit report for the period ended 31st December, 2017.*

In the audit report for Restated Standalone Financial Statements for the period ended December 31, 2017, our peer reviewed auditor has given an Emphasis on Opinion without any qualification, which read as follows:

“Note 9 to the restated standalone financial statements which describes outstanding statutory dues on account of Direct Tax and indirect tax. Since the Statutory Returns under various laws are pending for filing, interest liability on such Net Outstanding Statutory dues could not be ascertained, accordingly we could not comment on the possible impact, if any, on Statement of Profit and Loss for the respective Year/period ended.”

Although our Company has paid part of its tax liability amounting to Rs. 332.88 Lakhs in the month of March, 2018. However, we may not be able to assure you that such qualification will not arise in future and the impact of interest liability as mentioned in the auditor’s comment will not be material.

32. *We have only 1 offshore office or business place to look after our export operations.*

Our business presently caters to both domestic as well as international markets. A small portion of our revenue from operations is derived from international markets. However, we have only 1 offshore office at China which looks after our operations at China. As a result of which we may not be able to capitalize on opportunities offered by the evolving international market in a timely manner. The business operations of our Company are mainly handled from our registered office and corporate office both located at Pune.

33. *We have in the past entered into related party transactions and may continue to do so in the future.*

Our Company has entered into various transactions with our Promoters, Directors and their Relatives. While we believe that all such transactions are conducted on arm’s length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions were not entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in future in compliance with the applicable law. There can be no assurance that such transactions, individually or in aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to chapter “*Related Party Transactions*” beginning on page 169 of the Red Herring Prospectus.

34. *We are subject to foreign currency exchange rate fluctuations which could have a material and adverse effect on our results of operations and financial conditions.*

Our Company derives less than 5% of revenue from export operations. We provide our service to foreign markets and receive sale proceeds in foreign currency. Our foreign exchange transactions are not hedged. Changes in value of currencies with respect to the Rupee may cause fluctuations in our operating results expressed in Rupees. The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in future. As our exposures are not hedged, we are exposed to foreign currency fluctuation risk and may affect our Company’s results of operations.

35. *Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.*

As on December 31, 2017, our Company has unsecured loans amounting to Rs. 101.02 lakhs as per Restated Standalone Financial Statements from related and other parties. Further, some of these loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer the chapter titled “*Financial Statements as Restated*” beginning on page 171 of this Red Herring Prospectus.

36. *The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operational and financial conditions.*

The automation business is growing rapidly and hence it is competitive on account of both the small and large players. Players in this industry generally compete with each other on key attributes such as

technical competence, quality of solutions, strong clientele, pricing and after sales service. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

37. *Our assembly facility is located at Wadki, Pune. Any shutdown or any interruption for a significant period of time, in this facility may in turn adversely affect our business, financial condition and results of operations.*

Our Company has its facility located at Wadki, Pune. Our success depends on our ability to successfully provide quality automation solution to meet our customer specification. Our assembly facility is susceptible to damage or interruption or operating risks, such as human error, power loss, breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, loss of services of our external contractors, terrorist attacks, acts of war, break-ins, earthquakes, other natural disasters and industrial accidents and similar events. Further, our manufacturing facility is also subject to operating risk arising from compliance with the directives of relevant government authorities. Operating risks may result in personal injury and property damage and in the imposition of civil and criminal penalties. If our Company experiences delays or shutdowns due to any reason, including disruptions caused by disputes with its workforce or any external factors, our Company's operations will be significantly affected, which in turn would have a material adverse effect on its business, financial condition and results of operations.

38. *We are subject to various laws and regulations relating to the handling and disposal of any hazardous materials and wastes being generated from our assembly facility. If we fail to comply with such laws and regulations, we can be subjected to prosecution, including imprisonment and fines or incur costs that could have a material adverse effect on the success of our business.*

We are required to obtain registrations from the relevant State Pollution Control Board to be able to handle and dispose hazardous and wastes. We are also required to take a number of precautionary measures and follow prescribed practices in this regard.

Further, our company is subject to following certain rules and guidelines, but not limited to:

- a. The Micro, Small and Medium Enterprises Development Act, 2006;
- b. The Maharashtra Industrial Policy 2013;
- c. Industrial Disputes Act, 1947 ("ID Act") and Industrial Dispute (Central) Rules, 1957;
- d. The Factories Act, 1948;
- e. The Environment Protection Act, 1986;
- f. Water (Prevention and Control of Pollution) Act, 1974;
- g. National Environmental Policy, 2006; and
- h. Foreign Exchange Management Act, 1999.

Our failure to comply with these laws could result in us being prosecuted, including our directors and officers responsible for compliance being subjected to imprisonment and fines. We may also be liable for damage caused to the environment. Any such action could adversely affect our business and financial condition.

39. *The shortage or non-availability of power facilities may adversely affect our operations and have an adverse impact on our results of operations and financial condition.*

Our facility requires substantial amount of power facilities. The quantum and nature of power requirements of our industry and Company is such that it cannot be supplemented/ augmented by alternative / independent sources of power supply since it involves significant capital expenditure and per unit cost of electricity produced is very high in view of increasing oil prices and other constraints. We are mainly dependent on State Government for meeting our electricity requirements. Any defaults or non-compliance of the conditions may render us liable for termination of the agreement or any future changes in the terms of the agreement may lead to increased costs, thereby affecting the profitability.

Further, since we are majorly dependent on third party power supply; there may be factors beyond our control affecting the supply of power.

Any disruption / non availability of power shall directly affect our production which in turn shall have an impact on profitability and turnover of our Company.

40. *We generally do business with our customers on tender basis and do not enter into long term contracts with most of them.*

Our business is dependent on our continuing relationships with our customers. Our Company does not have any long-term contract with any customers. Any change in the design pattern of our customer or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

41. *Our Company has made certain inadequate/ lapsed /delayed filings as required under Companies Act, 2013 and under the applicable provisions of Companies Act, 1956.*

Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013 and under the applicable provisions of the Companies Act, 1956. Some of which has not been done within the stipulated time period at some instances. Some of the disclosures have been filed inadequately as would be required under the provisions of Companies Act, 2013. For instance, our Company has lapsed in filing of Form AOC-4 CFS by attaching wrong financials in the form for financial year 2016-17. Further, we have delayed in filing Form MGT-7 and Form AOC-4 CFS for the financial year 2016-17. Due to these delays in filings, our Company had on few occasions paid the requisite late fees. Although, we have not received any show-cause notice in respect of the above, such delay/non-compliance may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company has now appointed a Company Secretary and is in the process of setting up a system to ensure that requisite filings are done appropriately with the requisite timeline.

42. *Our Company is dependent on third party transportation providers for the delivery of machines/robots and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.*

Our Company uses third party transportation providers for delivery of machines/ robots to the customers. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. In addition there may be loss or damage in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of machines which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

43. *Our insurance coverage may not be adequate.*

Our Company has obtained insurance coverage in respect of certain risks. We have taken insurance policies to insure our cargo such as Standard Fire and Special Perils Policy. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, losses due to terrorism, etc. Further, there can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

For further details, please refer chapter titled “*Our Business*” beginning on page 121 of this Red Herring Prospectus.

44. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

We have secured our lenders by creating a charge over our movable and immovable properties in respect of loans / facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 916.98 Lakhs as on December 31, 2017 as per Restated Standalone Financial Statements. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information on the *Financial Indebtedness* please refer to page 185 of this Red Herring Prospectus.

45. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements.*

Under our financing arrangements, we are required to obtain the prior, written lender consent for, among other matters, changes in our capital structure, formulate a scheme of amalgamation or reconstruction and entering into any other borrowing arrangement. Further, we are required to maintain certain financial ratios.

There can be no assurance that we will be able to comply with these financial or other loan covenants or that we will be able to obtain the consents necessary to take the actions we believe are necessary to operate and grow our business. Our level of existing debt and any new debt that we incur in the future has important consequences. Any failure to comply with these requirements or other conditions or covenants under our financing agreements that is not waived by our lenders or is not otherwise cured by us, may require us to repay the borrowing in whole or part and may include other related costs. Our Company may be forced to sell some or all of its assets or limit our operations. This may adversely affect our ability to conduct our business and impair our future growth plans. For further information, see the chapter titled “*Financial Indebtedness*” on page 185 of the Red Herring Prospectus. Though these covenants are restrictive to some extent for us, however it ensures financial discipline, which would help us in the long run to improve our financial performance.

46. *We have taken guarantees from Promoters and members of Promoter Group in relation to debt facilities provided to us.*

We have taken guarantees from Promoters and members of Promoter Group in relation to our secured debt facilities availed from our Bankers. In an event any of these persons withdraw or terminate its/their guarantees, the lender for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lender and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could adversely affect our financial condition. For more information please see the chapter titled “*Financial Indebtedness*” beginning on page 185 of this Red Herring Prospectus.

47. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “*Objects of the Issue*” beginning on page 86 of this Red Herring Prospectus.

48. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 170 of this Red Herring Prospectus.

49. *Within the parameters as mentioned in the chapter titled ‘Objects of this Issue’ beginning on page 86 of this Red Herring Prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.*

We intend to use entire Issue Proceeds towards purchase of plant & machinery, meeting working capital requirements, repayment of short term loans and general corporate purposes. Such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled ‘Objects of the Issue’ beginning on page 86 of this Red Herring Prospectus. The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors.

The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled ‘*Objects of the Issue*’ beginning on page 86 of this Red Herring Prospectus, the management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue. However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholder shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

50. *Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

51. *Negative publicity could adversely affect our revenue model and profitability*

Our business is dependent on the trust our customers have reposed in the quality of our services. Any negative publicity our Company, service, or our brand due to any other unforeseen events could affect our reputation and our results from operations. Further, our business may also be affected if there is any negative publicity associated with the services which are being rendered by our Company which may indirectly result in erosion of our reputation and goodwill.

52. *Deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.*

Since, the Issue size is less than Rs.10,000 lakh and as per the provisions of Regulation 16 (1) of the SEBI ICDR Regulations, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

However, Audit Committee will monitor the utilization of the proceeds of this Issue and prepare the statement for utilization of the proceeds of this Issue. However in accordance with Section 27 of the Companies Act, 2013, a company shall not vary the objects of the Issue without our Company being authorised to do so by our shareholders by way of special resolution and other compliances in this regard. Our Promoters and controlling shareholder shall provide exit opportunity to such shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

53. *Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Our success is substantially dependent on the expertise and services of our Directors, Promoter and our Key Managerial Personnel (“KMP”). They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for KMP in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

54. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Our Directors and Key Managerial Personnel (“KMP”) are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and KMP may also be interested to the extent of their shareholding and dividend entitlement in our Company. For further information, see “*Capital Structure*” and “*Our Management*” on pages 72 and 148, respectively, of this Red Herring Prospectus.

55. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own [●] of the Equity Shares. As a result, our Promoter together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our AoA. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

56. *We may not be successful in implementing our business strategies.*

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

57. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation and goodwill of our Company. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

58. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.*

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

59. *Industry publicity could adversely affect our revenue model and profitability*

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Red Herring Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although, we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other such problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus.

60. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the floor price.*

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the Floor Price of the Price Band as may be decided by the Company in consultation with the BRLM. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title “*Capital Structure*” beginning on page 72 of this Red Herring Prospectus.

61. *We have issued Equity Shares in the last twelve months, the price of which may be lower than the Issue Price.*

Our Company has issued 50,00,000 Equity Shares in the last twelve months which may be at a price lower than the issue price. For further details of Equity Shares issued, please refer to chapter titled, “*Capital Structure*” beginning on page 72 of this Red Herring Prospectus.

ISSUE SPECIFIC RISKS

62. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares will be determined by book built method. This price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page 95 of this Red Herring Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

63. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

64. *QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid*

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within six Working Days from the Bid/Issue Closing Date, events affecting the Bidders’ decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

EXTERNAL RISKS FACTORS

INDUSTRY RISKS

65. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

OTHER RISKS

66. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Red Herring Prospectus.

As stated in the reports of the Auditor included in this Red Herring Prospectus under chapter “*Financial Statements as restated*” beginning on page 171, the financial statements included in this Red Herring Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Red Herring Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Red Herring Prospectus. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

67. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity

Under the Income-tax Act, 1961, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India except any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the Securities Transaction Tax (“STT”) has been paid on the transaction. The STT will be levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realised on the sale of shares held for more than 12 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of shares on a stock exchange held for a period of 12 months or less will be subject to short term capital gains tax. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, will be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

In Finance Bill 2017, Section 10(38) was amended to provide that exemption under this section for income arising on transfer of equity share acquired on or after 1st day of October 2004 shall be available only if the acquisition of share is chargeable to STT under Chapter VII of the Finance (No 2) Act, 2004. In this case, this provision becomes effective, sale shares acquired on or after 1st day of October 2004 on which STT was not charged will attract tax under provisions of Long Term Capital Gains.

As per Finance Bill 2018, exemption under section 10(38) for income arising from long term gains on transfer of equity share shall not be available on or after 1st day of April 2018 if the long term capital gains exceeds Rs. 1,00,000/- p.a. Such income arising from long term gains on transfer of equity share on or after 1st day of April 2018 in excess of Rs. 1,00,000/- pa. shall be chargeable at the rate of 10%.

Capital gains arising from the sale of shares will be exempt from taxation in India in cases where an exemption is provided under a tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdictions on gains arising from a sale of the shares subject to relief available under the applicable tax treaty or under the laws of their own jurisdiction.

68. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;
- central and state sales tax, value added tax and other levies; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

69. *Financial instability in Indian financial markets could adversely affect our Company's results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

70. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The GoI has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

71. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

72. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or

fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

73. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

74. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

75. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

76. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

PROMINENT NOTES

1. Public Issue of upto 26,81,600 Equity Shares of face value of Rs. 10 each of our Company for cash at a price of Rs. [●] per Equity Share ("Issue Price") aggregating upto Rs. [●] Lakhs, of which 1,36,000 Equity Shares of face value of Rs. 10 each will be reserved for subscription by Market Maker to the Issue ("Market Maker Reservation Portion"). The Issue less the Market Maker Reservation Portion i.e. Net Issue of 25,45,600 Equity Shares of face value of Rs. 10 each is hereinafter referred to as the "Net Issue". INTRODUCTION TO ENGINEERING INDUSTRY

The Indian Engineering sector has witnessed a remarkable growth over the last few years driven by increased investments in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of strategic importance to India’s economy.

India on its quest to become a global superpower has made significant strides towards the development of its engineering sector. The GoI has appointed the EEPC as the apex body in charge of promotion of engineering goods, products and services from India. India exports transport equipment, capital goods, other machinery/equipment and light engineering products such as castings, forgings and fasteners to various countries of the world. The Indian semiconductor industry offers high growth potential areas as the industries which source semiconductors as inputs are themselves witnessing high demand.

India became a permanent member of the WA in June 2014. The country is now a part of an exclusive group of 17 countries who are permanent signatories of the WA, an elite international agreement on engineering studies and mobility of engineers.

APPROACH TO AUTOMOTIVE ENGINEERING & MANUFACTURING INDUSTRY ANALYSIS

This Approach Note is developed by Pantomath Capital Advisors (P) Ltd ('Pantomath') and any unauthorized reference or use of this Note, whether in the context of Manufacturing & Engineering Industry and / or any other industry, may entail legal consequences.

Analysis of Automotive Engineering and products manufacturing industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Automotive Engineering Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Automotive Engineering and products manufacturing industry.

Manufacturing Sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing Sector is “Automotive Engineering and products manufacturing industry”, which in turn encompasses various segments such as Automotive solutions and assembling of car parking structures.

Thus, the micro analysis of such segments should be analysed in the light of “Automotive Engineering and products manufacturing industry” at large. An appropriate view on automation and car parking structures then, calls for the overall economic outlook, performance and expectations of Manufacturing Sector, position of Automotive Engineering and products manufacturing Industry and micro analysis thereof.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India's capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world's “political carrying capacity for globalisation” may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends—documented widely—about stagnant or declining trade at the global level. This changed outlook will affect India's export and growth prospects.

Third, developments in the US, especially the rise of the dollar, will have implications for China's currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On, the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China's ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 percent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate

recorded in the second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services— dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The CPI - New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4 percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of FCNR deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having have risen from around US\$ 350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI inflows, which grew from 1.7 percent of GDP in FY 2016 to 3.2 percent of GDP in the second quarter of FY 2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports,

which was far steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

OUTLOOK FOR 2017-18

Turning to the outlook for 2017-18, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

As discussed earlier, India's exports appear to be recovering, based on an uptick in global economic activity. This is expected to continue in the aftermath of the US elections and expectations of a fiscal stimulus. The IMF's January update of its World Economic Outlook forecast is projecting an increase in global growth from 3.1 percent in 2016 to 3.4 percent in 2017, with a corresponding increase in growth for advanced economies from 1.6 percent to 1.9 percent. Given the high elasticity of Indian real export growth to global GDP, exports could contribute to higher growth next year, by as much as 1 percentage point.

The outlook for private consumption is less clear. International oil prices are expected to be about 10-15 percent higher in 2017 compared to 2016, which would create a drag of about 0.5 percentage points. On the other hand, consumption is expected to receive a boost from two sources: catch-up after the demonetisation-induced reduction in the last two quarters of 2016-17; and cheaper borrowing costs, which are likely to be lower in 2017 than 2016 by as much as 75 to 100 basis points. As a result,

spending on housing and consumer durables and semi-durables could rise smartly. It is too early to predict prospects for the monsoon in 2017 and hence agricultural production. But the higher is agricultural growth this year, the less likely that there would be an extra boost to GDP growth next year.

Since no clear progress is yet visible in tackling the twin balance sheet problem, private investment is unlikely to recover significantly from the levels of FY 2017. Some of this weakness could be offset through higher public investment, but that would depend on the stance of fiscal policy next year, which has to balance the short-term requirements of an economy recovering from demonetisation against the medium-term necessity of adhering to fiscal discipline—and the need to be seen as doing so. Putting these factors together, we expect real GDP growth to be in the 6¾ to 7½ percent range in FY2018. Even under this forecast, India would remain the fastest growing major economy in the world.

There are three main downside risks to the forecast. First, the extent to which the effects of demonetisation could linger into next year, especially if uncertainty remains on the policy response. Currency shortages also affect supplies of certain agricultural products, especially milk (where procurement has been low), sugar (where cane availability and drought in the southern states will restrict production), and potatoes and onions (where sowings have been low). Vigilance is essential to prevent other agricultural products becoming in 2017-18 what pulses was in 2015-16.

Second, geopolitics could take oil prices up further than forecast. The ability of shale oil production to respond quickly should contain the risks of a sharp increase, but even if prices rose merely to \$60-65/barrel the Indian economy would nonetheless be affected by way of reduced consumption; less room for public investment; and lower corporate margins, further denting private investment. The scope for monetary easing might also narrow, if higher oil prices stoked inflationary pressure.

Third, there are risks from the possible eruption of trade tensions amongst the major countries, triggered by geo-politics or currency movements. This could reduce global growth and trigger capital flight from emerging markets. The one significant upside possibility is a strong rebound in global demand and hence in India's exports. There are some nascent signs of that in the last two quarters. A strong export recovery would have broader spill over effects to investment.

Fiscal outlook

The fiscal outlook for the central government for next year will be marked by three factors. First, the increase in the tax to GDP ratio of about 0.5 percentage points in each of the last two years, owing to the oil windfall will disappear. In fact, excise-related taxes will decline by about 0.1 percentage point of GDP, a swing of about 0.6 percentage points relative to FY 2017.

Second, there will be a fiscal windfall both from the high denomination notes that are not returned to the RBI and from higher tax collections as a result of increased disclosure under the PMGKY. Both of these are likely to be one-off in nature, and in both cases the magnitudes are uncertain.

A third factor will be the implementation of the GST. It appears that the GST will probably be implemented later in the fiscal year. The transition to the GST is so complicated from an administrative and technology perspective that revenue collection will take some time to reach full potential. Combined with the government's commitment to compensating the states for any shortfall in their own GST collections (relative to a baseline of 14 percent increase), the outlook must be cautious with respect to revenue collections. The fiscal gains from implementing the GST and demonetisation, while almost certain to occur, will probably take time to be fully realized. In addition, muted non-tax revenues and allowances granted under the 7th Pay Commission could add to pressures on the deficit.

The macroeconomic policy stance for 2017-18

An economy recovering from demonetisation will need policy support. On the assumption that the equilibrium cash-GDP ratio will be lower than before November 8, the banking system will benefit from a higher level of deposits. Thus, market interest rates—deposits, lending, and yields on g-secs—should be lower in 2017-18 than 2016-17. This will provide a boost to the economy (provided, of course, liquidity is no longer a binding constraint). A corollary is that policy rates can be lower not necessarily to lead and nudge market rates but to validate them. Of course, any sharp uptick in oil prices and those of agricultural products, would limit the scope for monetary easing.

Fiscal policy is another potential source of policy support. This year the arguments may be slightly different from those of last year in two respects. Unlike last year, there is more cyclical weakness on account of demonetisation. Moreover, the government has acquired more credibility because of posting steady and consistent improvements in the fiscal situation for three consecutive years, the central government fiscal deficit declining from 4.5 percent of GDP in 2013-14 to 4.1 percent, 3.9 percent, and 3.5 percent in the following three years. But fiscal policy needs to balance the cyclical imperatives with medium term issues relating to prudence and credibility.

One key question will be the use of the fiscal windfall (comprising the unreturned cash and additional receipts under the PMGKY which is still uncertain. Since the windfall to the public sector is both one off and a wealth gain not an income gain, it should be deployed to strengthening the government's balance sheet rather than being used for government consumption, especially in the form of programs that create permanent entitlements. In this light, the best use of the windfall would be to create a public sector asset reconstruction company so that the twin balance sheet problem can be addressed, facilitating credit and investment revival; or toward the compensation fund for the GST that would allow the rates to be lowered and simplified; or toward debt reduction. The windfall should not influence decisions about the conduct of fiscal policy going forward.

Perhaps the most important reforms to boost growth will be structural. In addition to those spelt out in Section 1—strategic disinvestment, tax reform, subsidy rationalization—it is imperative to address directly the twin balance sheet problem. The problem is large, persistent and difficult, will not correct itself even if growth picks up and interest rates decline, and current attempts have proved grossly inadequate. It may be time to consider something like a public sector asset reconstruction company.

Another area of reform relates to labour. Given the difficulty of reforming labour laws per se, the thrust could be to move towards affording greater choice to workers which would foster competition amongst service providers. Choices would relate to: whether they want to make their own contribution to the EPFO; whether the employers' contribution should go to the EPFO or the National Pension Scheme; and whether to contribute to the ESI or an alternative medical insurance program. At the same time, there could be a gradual move to ensure that at least compliance with the central labour laws is made paperless, presence less, and cashless. One radical idea to consider is the provision of a universal basic income. But another more modest proposal worth embracing is procedural: a standstill on new government programs, a commitment to assess every new program only if it can be shown to demonstrably address the limitations of an existing one that is similar to the proposed one; and a commitment to evaluate and phase down existing programs that are not serving their purpose.

The Corporate Identification Number of our Company is U29299PN2010PLC135298.

The business which was started in year 2005 as a proprietorship concern, is in the business of providing turnkey automation solution to automotive, semi-automotive and manufacturing industries. The Company programs and automates the functions of machines used in manufacturing process of automobile industry. The Assembly facility of the Company is situated at Pune, Maharashtra along with the Head office, covering an area of 8,442 sq. meters. The assembly unit is equipped with requisite software, technology, machinery, spares store and other basic amenities for its employees making itself an integrated facility. Our Company is also in the business of assembling and installing automatic multi-level car parking system. This system is preferred by residential complexes, shopping malls and commercial buildings. Our Company has presence in Mumbai and Pune in automated car-parking business. Further, in FY 2017-18, our Company has set-up a new line of business, Secondary Packaging, which is aimed at FMCG industries by way of providing automation service in container packaging of the final packed product.

Our Company is promoted by Mr. Manohar Padole and Mr. Milind Padole. Our individual promoters manage and control the day-to-day affairs of our business operations. Under the leadership of Mr. Milind Padole, our Company has seen remarkable growth in its operational performance. The experience of our promoters and management team is also further reflected in its strong business and financial performance of the Company condition. Our trained and professional experts are *inter alia* involved in (i) engineering & design; (ii) controls & automation; (iii) process study; (iv) robotic application; (v) robotic simulation; (vi) offline programming; (vii) ergonomic study; (viii) layout presentation; (ix) assembly; (x) material handling design; (xi) bulk storage system design; (xii) project management; (xiii) quality and certification; (ix) finance & procurement; (x) HR & administration; (xi) spares & service support; and (xii) training.

Our Company operates on certain core values which are enshrined in the table below. These core values ensures that the Company achieves its end objective without compromising on the quality of the products of the Company.

Further, our Company specializes in analysing the process which is followed in its manufacturing activity and thereby strives to provide quality automation solution to increase the productivity and client’s satisfaction. The Company has an in-house team with technical expertise who does the required programming by using advanced software. Our Company operates with a customer centric approach whereby our Company focuses on continuous training of team which helps us to be innovative and provide quality solution to our customers. We strive to provide the automation solution which is defect free and highly productive. Our customers in automation business are mostly Automobile industries who uses our automation solution in their manufacturing processes. Apart from providing automation solutions, we also manufacture Special Purpose Machine (SPM) as per the requirement of our customers. Foreseeing the growth in car-parking business, our Company by using its automation business expertise has ventured now into automated car parking segment which has allowed the Company to gain renowned clients in its initial phase of the business. We are providing various types of parking facility, namely, Mechanical, Hydraulic, Puzzle, Rotary parking giving our customers a variety of parking options suitable to their needs. Secondary packaging is a new line of business which the company is exploring which will focus on providing the automation solution in packaging of packed final products of FMCG companies. The Company aims to provide highly productive and defect free automated secondary packaging solution to the FMCG sector.

Our Company’s operational presence are as below:

Registered & Manufacturing Office: Gate No. 1209, Near Hotel Vijay Executive, Pune-Saswad Highway, Wadki, Taluka – Haveli, Pune – 412 308, Maharashtra, India

Branch Office: F35, DLF Centre Point, Sector-11, Mathura Road, Faridabad - 121007, Haryana, India.

OUR PRODUCTS

Sr. No.	Product	Image	Description
1.	Industrial Automation		Programming and designing the process to be followed by machines/robots used in manufacturing process. With industrial automation, pace of production becomes faster and chances of inaccuracy and error are substantially eliminated, due to sensor based automated process.
2.	Multi-level Car Parking		With different types of parking methods, vehicles are parked in multi-layers. This is an automated system which finds out the available parking slot reducing the cost and area required for constructing parking areas.
3.	Secondary Packaging		This involves packing of multiple packed products into bigger boxes using automated machines. Such automated secondary packaging reduces time of packing and error-free count of products into each box.

RAW MATERIALS

Our Company requires Steel fabrications, Metal Plates, Machined Steel Components, Mechanical, Pneumatic, Hydraulic Parts & Accessories, Electrical & Control Material, Safety Equipment & Devices, and Robots which constitutes as major raw material.

OUR BUSINESS PROCESS

The automation is done through a specialised process. These steps include:

1. Requirement understanding:

To provide an automation solution to any process of manufacturing, there has to be a proper understanding of the process which is followed in manufacturing process. We strive for in depth understanding of the process to provide high quality automation solution as per the requirement of our

customer. Our experience has led us to a position where we can identify potential opportunities, bottlenecks, manufacturing flexibility limitations, etc. Prior to providing the automation services to our customers, we understand their exact requirement by asking them questions regarding their precise requirements which enables us at our end to understand the level of the process orientation and scale of automation that shall be required to meet the customers desire and demand. Our dedicated and experienced technical team. We have a dedicated and experienced technical team who understands the importance of automation accuracy and believe in customer centric approach and customer friendly attitude.

2. Process formulation & Designing:

Once we get a clear understanding of the type of automation required, our Process & Designing team work together for formulating a process flow of the machine with automation which includes 3D drawing of the component, production volume and shift schedule, concept and feasibility studies, modelling and material designing. All this enables us to calculate the cycle time required for the completion of the entire process. This process formulation is done by using advanced and modern software, giving results satisfying the needs of our customer. Once a complete process flow is defined and mutually agreed, then designing of the machine/robot is done. Designing is done keeping in mind the process finalised avoiding any faulty outcome.

3. Simulation:

Simulation is a 3D computerised replica of the process designed, it helps in finding out any error or defect in the process. After the process and designing is finalised, our dedicated simulation team does the simulation of the entire designed process. It helps the customer to visualize the end result of the recommendation, and the tangible relationship it will form with the revised manufacturing process. Simulation allows us to observe a real-like situation in our systems which allows us to make, modify if necessary and meet the customer's requirement.

4. Parts Assembling:

Once the designing is finalised and simulation is approved by the customer, we issue the detailed design of parts and components to various vendors for manufacturing. Manufactured parts after being received by vendors are issued to shop floor for assembly. Further, parts which are directly bought from suppliers are also issued to shop floor. In the shop floor, we conduct a proper quality check for all the parts received. Once they pass the quality criteria, it is further used for assembly as per the design approved.

5. Inspections and Corrections:

We believe that our strength lies in the quality of service we provide to our customers. To ensure that we continue to strengthen this trust which is reposed on us, we conduct an in-depth inspection of the assembled machines with the help of various tools and equipment such as CMM Machine, Laser Tracker, etc. Inspection helps us to identify any shortfall in the machines at the right time and find out any area where improvement or modifications are required. Since inspection is one of the most critical step, we deploy a highly professional and experienced team for this purpose giving utmost importance to customer service. Any necessary corrections required are done immediately before we proceed the machine to trail.

6. Trials:

After the inspection and correction step, machines are ready for use for commercial purpose. However, to ensure that our customers do not face any trouble while operating the machine at their site, we conduct a live trial on our shop floor in the presence of our customer so as to avoid any last minute hustle. With the trial, we explain our customer about the working of the machine and automation, all the queries and doubts of the customer are clarified by our technical team. Once the customer is satisfied with the trial operation, we proceed to final step.

7. Approval and Dispatch:

With the successful completion of trial and satisfaction of the customer meeting their exact requirement, final approval from the customer is taken indicating their satisfaction to their requirement. We prepare to dispatch the automated machines to our customer's site. We ensure proper packaging and safe transit of the machines to the customer and help the customer with the installation of the machine at their site.

APPRAISAL AND MONITORING AGENCY

As per regulation 16(1) of the SEBI ICDR Regulations, the requirement of Monitoring Agency is not mandatory if the Issue size is below Rs. 10,000 Lakhs. Since the Issue size is only of Rs. [●] lakhs, our Company has not appointed any monitoring agency for this Issue. However, as per Section 177 of the Companies Act, 2013, the Audit Committee of our Company, would be monitoring the utilization of the proceeds of the Issue.

EXPERT OPINION

Except the report of the Peer Reviewed Auditor on statement of tax benefits and report on restated financials for the year ended March 31, 2017, 2016, 2015, 2014 and 2013 and for the period ended December 31, 2017 as included in the Red Herring Prospectus, our Company has not obtained any expert opinion.

BOOK BUILDING PROCESS

Book building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the BRLM in accordance with the Book Building Process, and advertised in all editions of a widely circulated English Newspaper, all editions of a widely circulated Hindi Newspaper and a widely circulated Prabhat Newspaper, Marathi being the regional language of Maharashtra, where our registered office is situated at least five working days prior to the Bid/ Issue Opening date. The Issue Price shall be determined by our Company, in consultation with the BRLM in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are:-

- Our Company;
- The Book Running Lead Manager in this case being Pantomath Capital Advisors Private Limited, the Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with BSE and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the BRLM;
- The Registrar to the Issue and;
- The Designated Intermediaries

The SEBI ICDR Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein 49.84 % of the Net Issue shall be available for allocation on a proportionate basis to QIBs. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to

their Bids. Further not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not less than 35% of the Net Issue shall be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Issue Price.

Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for Retail Portion where allotment to each Retail Individual Bidders shall not be less than the minimum bid lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under-subscription, if any, in any category, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLMs and the Stock Exchange.

All Bidders can participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate through the ASBA process. In accordance with the SEBI Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise or withdraw their Bids prior to the Bid/Issue Closing Date. Anchor Investors are not allowed to withdraw their Bids after the Anchor Investors Bidding Date.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “*Issue Procedure*” on page 228 of this Red Herring Prospectus.

Illustration of Book Building and Price Discovery Process (Investors should note that this example is solely for illustrative purposes and is not specific to the Issue, it also excludes bidding by Anchor Investors)

Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20 to Rs. 24 per equity share, Issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centers during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to Issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22 in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the Issue price at or below such cut-off price, i.e., at or below Rs. 22/-. All bids at or above this Issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

1. Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 228 of this Red Herring Prospectus);
2. Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
3. Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories;
4. Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act, 1961 in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims;
5. Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form;

BID / ISSUE PROGRAMME

An indicative timetable in respect of the Issue is set out below:

Event	Indicative Date
Bid/Issue Opening Date	Thursday, May 24, 2018
Bid/Issue Closing Date	Monday, May 28, 2018
Finalization of Basis of Allotment with the Designated Stock Exchange	On or before Thursday, May 31, 2018
Initiation of Refunds	On or before Friday, June 01, 2018
Credit of Equity Shares to Demat Accounts of Allottees	On or before Monday, June 04, 2018
Commencement of trading of the Equity Shares on the Stock Exchange	On or before Tuesday, June 05, 2018

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Issue Closing Date, the timetable may change due to various factors, such as extension of the Issue Period by our Company, or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The minimum depth of the quote shall be Rs. [●]/-. However, the investors with holdings of value less than Rs. [●]/- shall be allowed to Issue their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of [●]/- the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be Rs. [●]/- until the same, would be revised by BSE.
3. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 1,36,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this issue over and above 1,36,000 Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2-way quotes.
4. There shall be no exemption / threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, BSE may intimate the same to SEBI after due verification.
5. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
6. There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, **Pantomath Stock Brokers Private Limited** is acting as the sole Market Maker.
7. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:
 - I. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - II. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the issue price.
 - III. Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/ fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

9. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

10. SME Platform of BSE will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
11. SME Platform of BSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.

12. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 Crore to Rs. 50 Crore	20%	19%
Rs. 50 to Rs. 80 Crore	15%	14%
Above Rs. 80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / BSE from time to time.

14. Our Company does not have any Employee Stock Option Scheme / Employee Stock Purchase Plan for our employees and we do not intend to allot any shares to our employees under Employee Stock Option Scheme / Employee Stock Purchase Plan from the proposed issue. As and when, options are granted to our employees under the Employee Stock Option Scheme, our Company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014.

15. Our Book Running Lead Manager, PCAPL do not hold any Equity Shares of our Company as on the date of the Red Herring Prospectus. However, Pantomath Fund Managers LLP and Pantomath Sabrimala AIF Pantomath Sabrimala SME Growth Fund Series I, associates of PCAPL hold 48,000 Equity shares and 2,00,000 Equity shares respectively of our Company. Please note that the allotment of Equity Shares to above said associates of PCAPL is in compliance with Regulation 21A of the Securities and Exchange Board of India (Merchant Bankers) Regulations 1992, as amended, and the PCAPL confirms that (i) it has not become a promoter or associate (as defined therein) of the Company.

16. The BRLM, Syndicate Members and any persons related to the BRLM and Syndicate Members (other than Mutual Funds sponsored by entities related to the BRLM) cannot apply in the Issue under the Anchor Investor Portion. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Offer, either in the Net QIB Category or in

the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

17. Under-subscription in the net issue, if any, in any category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the BSE.
18. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.
19. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the net offer to the public portion.
20. There are no Equity Shares against which depository receipts have been issued.
21. Other than the Equity Shares, there is no other class of securities issued by our Company.
22. There will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, right issue or in any other manner during the period commencing from the date of the Red Herring Prospectus until the Equity Shares have been listed. Further, our Company does not intend to alter its capital structure within six months from the date of opening of the Issue, by way of split/consolidation of the denomination of Equity Shares. However our Company may further issue Equity Shares (including issue of securities convertible into Equity Shares) whether preferential or otherwise after the date of the listing of equity shares to finance an acquisition, merger or joint venture or for regulatory compliance or such other scheme of arrangement or any other purpose as the Board may deem fit, if an opportunity of such nature is determined by its Board of Directors to be in the interest of our Company.
23. None of the persons/entities comprising our Promoter Group, or our Directors or their relatives have financed the purchase by any other person of securities of our Company other than in the normal course of the business of any such entity/individual or otherwise during the period of six months immediately preceding the date of filing of this Red Herring Prospectus.
24. Our Company, our Promoters, our Directors and the Book Running Lead Manager have not entered into any buy back or standby or similar arrangements for the purchase of Equity Shares being offered through the Issue from any person.
25. There are no safety net arrangements for this public issue.
26. An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock-in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
27. All the Equity Shares of our Company are fully paid up as on the date of this Red Herring Prospectus. Further, since the entire issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares and thus all shares offered through this issue shall be fully paid-up.
28. As per RBI regulations, OCBs are not allowed to participate in this Issue.
29. Our Company has not raised any bridge loans against the proceeds of the Issue.
30. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
31. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.

32. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
33. No payment, direct or indirect in the nature of discount, commission, and allowance or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Issue.
34. We have 10 shareholders as on the date of filing of this Red Herring Prospectus.
35. Our Promoters and the members of our Promoter Group will not participate in this Issue.
36. Our Company has not made any public issue since its incorporation.
37. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing the Red Herring Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.
38. For the details of transactions by our Company with our Promoter Group, Group Companies for the period ended December 31, 2017 and financial years ended March 31, 2013, 2014, 2015, 2016, 2017 please refer to paragraph titled “Details of Related Parties Transactions as Restated” in the chapter titled *‘Financial Statements as restated’* on page 171 of the Red Herring Prospectus.

**Our Company has been sanctioned Cash Credit Limit of Rs. 1200.00 lakhs (Existing Limit of Rs. 500.00 lakhs of Karnataka Bank has been taken over by Axis Bank Limited and a fresh sanction of Rs. 700.00 lakhs has been granted) by Axis Bank Limited vide sanction letter dated February 28, 2018. The tenor of the said limit is One Year.

Accordingly, we confirm that we are in compliance with the requirement to make firm arrangements of finance under Regulation 4(2) (g) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Net Proceeds and existing identifiable internal accruals.

The fund requirements mentioned above are based on the internal management estimates of our Company and have not been verified by the Book Running Lead Manager or appraised by any bank, financial institution or any other external agency. The fund requirements are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilising our internal accruals or seeking debt financing.

Details of the Objects

1. Purchase of New Plant and Machinery:

Currently, we manufacture some of the parts of our final product in-house and rest of the parts are manufactured by third party manufacturers for us. We intend to purchase New Plant and Machinery to increase our existing capacity as well as to commence in-house production of some of those outsourced parts in order to reduce the production time as well as to have an enhanced quality control over our manufacturing activity.

Our current manufacturing facility along with our Head Office is situated on the land which is spread across an area of 8,442 Square Meters. We propose to install the proposed New Plant and Machinery at the space available on that land only.

Estimated Cost

The total estimated cost of New Plant and Machinery is Rs. 418.72 lakhs. The total cost for setting up of New Plant and Machinery has been estimated by our management in accordance with our business plan approved by our Board of Directors pursuant to its meeting dated May 09, 2018 and quotations received from third party suppliers.

The detailed list of New Plant and Machinery to be acquired by the company is as follows:

No second-hand machinery or material is proposed to be purchased out of the aforesaid objects. The abovementioned Plant and Machinery is proposed to be acquired in a ready-to use condition.

We have not entered into any definitive agreements with the suppliers and there can be no assurance that the same suppliers would be engaged to eventually supply the machinery at the same costs. The quantity of the machinery is based on the estimates of our management. Our Company shall have the flexibility to deploy the machinery and material at additional manufacturing facility, according to the business requirements of such facility, which are dynamic, which may evolve with the passage of time and based on the estimates of our management.

Our Promoters, Directors, Key Management Personnel or Group Entities have no interest in the proposed procurements, as stated above.

2. Funding the working capital requirements of our Company:

We fund the majority of our working capital requirements in the ordinary course of our business from our internal accruals, net worth and financing from various banks. As on March 31, 2016 and March 31, 2017, the amount outstanding on our Company's fund based working capital facility was Rs. 542.09 lakhs and Rs. 613.69 lakhs respectively as per restated standalone financial statements. As on March 31, 2017, our sanctioned working capital facilities comprised of fund based limit of Rs. 500.00 lakhs. For further details, please refer to the chapter titled "Financial Indebtedness" beginning on page 185 of this Red Herring Prospectus.

Justification for “Holding Period” levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories- Raw Material	We have assumed raw material Inventory period of 10.00 months and 11.00 months for the FY 2017-18 and 2018-19 respectively, which is lower than FY 2016-17 levels, as we are proposing to purchase New Plant and Machinery from the Net Proceeds to manufacture some of the parts in-house and to increase our production which would result into faster clearance of our raw material inventory.
Trade receivables	Financial Year 2017-18- We have assumed trade receivable period of 4.00 months for the FY 2017-18 as against 4.83 months for FY 2016-17 as we intend to quickly realise our debtors to fund our estimated working capital requirements for the FY 2017-18. Financial Year 2018-19- Since, we are proposing our initial public offering in the FY 2018-19, we would be able to fund part of our increased estimated working capital requirements from the issue proceeds and therefore, we intend to liberalise our credit policy from 4.00 months in the FY 2017-18 to 4.75 months in the FY 2018-19 to increase our Revenue from Operations.
Liabilities–Current Liabilities	
Trade Payables	In FY 2017-18 and for FY 2018-19, the credit period is expected to be 5.00 months and 4.00 months respectively, as, going forward we intend to reduce our creditors days by infusing funds from the Net Proceeds to avail better credit terms from the creditors.

Our Company proposes to utilize Rs. 1750.00 lakhs of the Net Proceeds in FY 2018-19 towards our working capital requirements. The balance portion of our working capital requirement for the FY 2018-19 will be arranged from existing Bank loans and Internal Accruals/ Net Worth.

3. Repayment/ Pre-payment of certain Long Term Borrowings availed by our Company:

We avail majority of our fund requirements in the ordinary course of business from various banks, financial institutions and unsecured loans from related parties. For further details of the loans availed by our Company, see chapter titled “Financial Indebtedness” on page 185 of this Red Herring Prospectus.

M/s. MGAM & Company, Chartered Accountants vide Certificate dated March 23, 2018 has confirmed that as on March 23, 2018 our company had Rs. 449.71 lakhs of Secured Loan outstanding from Axis Bank Limited, which is proposed to be repaid/ pre-paid from the Net Proceeds. We believe that such repayment/ pre-payment will help reduce our outstanding indebtedness. We believe that reducing our indebtedness will result in enhanced equity base, reduce our financial costs, improve our profitability and improve our leverage capacity.

The details of the proposed repayment of the loans are provided below:

Name of Lender	Amount Outstanding as on March 23, 2018 (in lakhs)	Nature of facility	Rate of Interest (%)	Security	Term	Purpose	Utilisation	Repayment from the Net Proceeds of the Issue (Rs. in lakhs)
Axis Bank Limited	449.71	Long Term Working Capital Demand Loan	9.50%	First Hypothecation Charge on the entire movable assets of the company	31 Months	Working Capital	Working Capital	449.71

4. General Corporate Purposes:

The Net Proceeds will be first utilized towards the Objects as mentioned as mentioned above. The balance is proposed to be utilized for general corporate purposes, subject to such utilization not exceeding 25% of the Net Proceeds, in compliance with the SEBI ICDR Regulations. Our Company intends to deploy the balance Net Proceeds, if any, for general corporate purposes, subject to above mentioned limit, as may be approved by our management, including but not restricted to, the following:

- (i) strategic initiatives
- (ii) brand building and strengthening of marketing activities; and
- (iii) On-going general corporate exigencies or any other purposes as approved by the Board subject to compliance with the necessary regulatory provisions.

The quantum of utilization of funds towards each of the above purposes will be determined by our Board of Directors based on the permissible amount actually available under the head “General Corporate Purposes” and the business requirements of our Company, from time to time. We, in accordance with the policies of our Board, will have flexibility in utilizing the Net Proceeds for general corporate purposes, as mentioned above.

#Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

BRIDGE FINANCING

We have not entered into any bridge finance arrangements that will be repaid from the Net Issue Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit facility with our lenders, to finance project requirements until the completion of the Issue. Any amount that is drawn down from the overdraft arrangement / cash credit facility during this period to finance project requirements will be repaid from the Net Proceeds of the Issue.

APPRAISAL BY APPRAISING AGENCY

The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution.

INTERIM USE OF FUNDS

Pending utilization of the Issue Proceeds for the Objects of the Issue described above, our Company shall deposit the funds only in Scheduled Commercial Banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilization of the proceeds of the Issue as described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

MONITORING UTILIZATION OF FUNDS

As the size of the Issue does not exceed Rs 10,000 lakhs in terms of Regulation 16 of the SEBI Regulations, our Company is not required to appoint a monitoring agency for the purposes of this Issue. Our Board and Audit Committee shall monitor the utilization of the Net Proceeds.

Pursuant to Regulation 32 of the Listing Regulations, our Company shall on a half yearly basis disclose to the Audit Committee the uses and application of the Issue Proceeds. Until such time as any part of the Issue Proceeds remains unutilized, our Company will disclose the utilization of the Issue Proceeds under separate heads in our Company's balance sheet(s) clearly specifying the amount of and purpose for which Issue Proceeds have been utilized so far, and details of amounts out of the Issue Proceeds that have not been utilized so far, also indicating interim investments, if any, of such unutilized Issue Proceeds. In the event that our Company is unable to utilize the entire amount that we have currently estimated for use out of the Issue Proceeds in a Fiscal Year, we will utilize such unutilized amount in the next financial year. Further, in accordance with Regulation 32(1) (a) of the Listing Regulations our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Issue Proceeds for the objects stated in this Red Herring Prospectus.

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorized to do so by the Shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

OTHER CONFIRMATIONS

No part of the Net Proceeds will be paid by us to the Promoters and Promoter Group, the Directors, associates or Key Management Personnel or Group Companies, except in the normal course of business and in compliance with applicable law.

BASIS FOR ISSUE PRICE

The Issue Price will be determined by our Company in consultation with the Book Running Lead Manager, on the basis of an assessment of market demand for the Equity Shares issued through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is Rs. 10 each and the Issue Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band. Investors should also refer sections titled “Risk Factors” and “Financial Statements” and chapter titled “Our Business” beginning on pages 23, 171, and 121 respectively of this Red Herring Prospectus, to have an informed view before making an investment decision. The trading price of the Equity Shares of our Company could decline due to these risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computing the price, are:

- Quality of solutions
- Experienced Promoters and Management
- In-house facilities
- Scope of expansion
- Innovation of automation solution
- Technological Skills
- Strong Customer service

For further details, refer to heading “Our Competitive Strengths” under chapter titled “Our Business” beginning on page 121 of this Red Herring Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the restated financial statements of the Company for Financial Years 2015, 2016 and 2017 and for the period ended December 31, 2017 prepared in accordance with Indian GAAP. Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per Share (EPS) as per Accounting Standard 20

On the basis of standalone restated financials:

Year/ Period Ended	Basic & Diluted EPS (Rs.)	Weight

Notes-

Net Asset Value per Equity Share has been calculated as net worth as per Restated Financial Statements divided by number of equity shares outstanding at the end of the period.

Net worth has been computed as the aggregate of share capital and reserves and surplus (excluding revaluation reserves, if any) of our Company. Issue Price per Equity Share will be determined on conclusion of the Book Building Process.

EPS is calculated after adjusting for issuance of 4 bonus share for every 1 share held affected on October 04, 2018 on proportionate basis. For details, see the section “Capital Structure” on page 72 of this Red Herring Prospectus.

6. Comparison with other listed companies

We believe that there are no listed Companies in India which are engaged in the business of providing turnkey automation solution to automotive, semi-automotive and manufacturing industries. Further there are no listed entities which are focused exclusively on the segment in which we operate. Hence, it is not possible to provide an industry comparison in relation to our Company.

Notes:

The Issue Price of Affordable Robotic And Automation Limited will be Rs. [●] per Equity Share. Affordable Robotic And Automation Limited is a Book Built issue and price band for the same shall be published 5 working days before opening of the Issue in English and Hindi national newspapers and one regional newspaper with wide circulation.

The Issue Price of Rs. [●] will be determined by our Company, in consultation with the Book Running Lead Manager, on the basis of assessment of market demand from investors for Equity Shares through the Book Building Process and, is justified in view of the above qualitative and quantitative parameters. Investors should read the above mentioned information along with Risk Factors and Financial Statements, as Restated beginning on pages 23 and 171, respectively, to have a more informed view. INTRODUCTION TO ENGINEERING INDUSTRY

The Indian Engineering sector has witnessed a remarkable growth over the last few years driven by increased investments in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of strategic importance to India’s economy.

India on its quest to become a global superpower has made significant strides towards the development of its engineering sector. The GoI has appointed the EEPC as the apex body in charge of promotion of engineering goods, products and services from India. India exports transport equipment, capital goods, other machinery/equipment and light engineering products such as castings, forgings and fasteners to various countries of the world. The Indian semiconductor industry offers high growth potential areas as the industries which source semiconductors as inputs are themselves witnessing high demand.

India became a permanent member of the WA in June 2014. The country is now a part of an exclusive group of 17 countries who are permanent signatories of the WA, an elite international agreement on engineering studies and mobility of engineers.

APPROACH TO AUTOMOTIVE ENGINEERING & MANUFACTURING INDUSTRY ANALYSIS

This Approach Note is developed by Pantomath Capital Advisors (P) Ltd ('Pantomath') and any unauthorized reference or use of this Note, whether in the context of Manufacturing & Engineering Industry and / or any other industry, may entail legal consequences.

Analysis of Automotive Engineering and products manufacturing industry needs to be approached at both macro and micro levels, whether for domestic or global markets. Automotive Engineering Industry forms part of Manufacturing Sector at a macro level. Hence, broad picture of Manufacturing Sector should be at preface while analysing the Automotive Engineering and products manufacturing industry.

Manufacturing Sector comprises various industries, which in turn, have numerous sub-classes or products. One such major industry in the overall Manufacturing Sector is “Automotive Engineering and products manufacturing industry”, which in turn encompasses various segments such as Automotive solutions and assembling of car parking structures.

Thus, the micro analysis of such segments should be analysed in the light of “Automotive Engineering and products manufacturing industry” at large. An appropriate view on automation and car parking structures then, calls for the overall economic outlook, performance and expectations of Manufacturing Sector, position of Automotive Engineering and products manufacturing Industry and micro analysis thereof.

GLOBAL ECONOMIC OVERVIEW

For India, three external developments are of significant consequence. In the short run, the change in the outlook for global interest rates as a result of the US elections and the implied change in expectations of US fiscal and monetary policy will impact on India’s capital flows and exchange rates. Markets are factoring in a regime change in advanced countries, especially US macroeconomic policy, with high expectations of fiscal stimulus and unwavering exit from unconventional monetary policies. The end of the 20-year bond rally and end to the corset of deflation and deflationary expectations are within sight. Second, the medium-term political outlook for globalisation and in particular for the world’s “political carrying capacity for globalisation” may have changed in the wake of recent developments. In the short run a strong dollar and declining competitiveness might exacerbate the lure of protectionist policies. These follow on on-going trends—documented widely—about stagnant or declining trade at the global level. This changed outlook will affect India’s export and growth prospects.

Third, developments in the US, especially the rise of the dollar, will have implications for China’s currency and currency policy. If China is able to successfully re-balance its economy, the spill over effects on India and the rest of the world will be positive. On, the other hand, further declines in the yuan, even if dollar-induced, could interact with underlying vulnerabilities to create disruptions in China that could have negative spill overs for India. For China, there are at least two difficult balancing acts with respect to the currency. Domestically, a declining currency (and credit expansion) props up the economy in the short run but delay rebalancing while also adding to the medium term challenges. Internationally, allowing the currency to weaken in response to capital flight risks creating trade frictions but imposing capital controls discourages FDI and undermines China’s ambitions to establish the Yuan as a reserve currency. China with its underlying vulnerabilities remains the country to watch for its potential to unsettle the global economy.

REVIEW OF MAJOR DEVELOPMENTS IN INDIAN ECONOMY

The Indian economy has continued to consolidate the gains achieved in restoring macroeconomic stability. Real GDP growth in the first half of the year was 7.2 percent, on the weaker side of the 7.0-7.75 per cent projection in the Economic Survey 2015-16 and somewhat lower than the 7.6 percent rate

recorded in the second half of 2015-16 (Figure 1a). The main problem was fixed investment, which declined sharply as stressed balance sheets in the corporate sector continued to take a toll on firms' spending plans. On the positive side, the economy was buoyed by government consumption, as the 7th Pay Commission salary recommendations were implemented, and by the long-awaited start of an export recovery as demand in advanced countries began to accelerate. Nominal GDP growth recovered to respectable levels, reversing the sharp and worrisome dip that had occurred in the first half of 2015-16 (Figure 1b).

The major highlights of the sectoral growth outcome of the first half of 2016-17 were: (i) moderation in industrial and nongovernment service sectors; (ii) the modest pick-up in agricultural growth on the back of improved monsoon; and (iii) strong growth in public administration and defence services— dampeners on and catalysts to growth almost balancing each other and producing a real Gross Value Addition (GVA) growth (7.2 percent), quite similar to the one (7.1 per cent) in H2 2015-16 (Figure 1b).

Inflation this year has been characterized by two distinctive features. The CPI - New Series inflation, which averaged 4.9 per cent during April-December 2016, has displayed a downward trend since July when it became apparent that kharif agricultural production in general, and pulses in particular would be bountiful. The decline in pulses prices has contributed substantially to the decline in CPI inflation which reached 3.4 percent at end-December. The second distinctive feature has been the reversal of WPI inflation, from a trough of (-)5.1 percent in August 2015 to 3.4 percent at end-December 2016, on the back of rising international oil prices. The wedge between CPI and WPI inflation, which had serious implications for the measurement of GDP discussed in MYEA (Box 3, Chapter 1, MYEA 2015-16), has narrowed considerably. Core inflation has, however, been more stable, hovering around 4.5 percent to 5 percent for the year so far. The outlook for the year as a whole is for CPI inflation to be below the RBI's target of 5 percent, a trend likely to be assisted by demonetisation.

External Sector

Similarly, the external position appears robust having successfully weathered the sizeable redemption of FCNR deposits in late 2016, and the volatility associated with the US election and demonetisation. The current account deficit has declined to reach about 0.3 percent of GDP in the first half of FY2017. Foreign exchange reserves are at comfortable levels, having have risen from around US\$ 350 billion at end-January 2016 to US\$ 360 billion at end-December 2016 and are well above standard norms for reserve adequacy. In part, surging net FDI inflows, which grew from 1.7 percent of GDP in FY 2016 to 3.2 percent of GDP in the second quarter of FY 2017, helped the balance-of-payments

The trade deficit declined by 23.5 per cent in April-December 2016 over corresponding period of previous year. During the first half of the fiscal year, the main factor was the contraction in imports, which was far

steeper than the fall in exports. But during October- December, both exports and imports started a long-awaited recovery, growing at an average rate of more than 5 per cent. The improvement in exports appears to be linked to improvements in the world economy, led by better growth in the US and Germany. On the import side, the advantage on account of benign international oil prices has receded and is likely to exercise upward pressure on the import bill in the short to medium term. Meanwhile, the net services surplus declined in the first half, as software service exports slowed and financial service exports declined. Net private remittances declined by \$4.5 bn in the first half of 2016-17 compared to the same period of 2015-16, weighed down by the lagged effects of the oil price decline, which affected inflows from the Gulf region.

Fiscal Position

Trends in the fiscal sector in the first half have been unexceptional and the central government is committed to achieving its fiscal deficit target of 3.5 percent of GDP this year. Excise duties and services taxes have benefitted from the additional revenue measures introduced last year. The most notable feature has been the over-performance (even relative to budget estimates) of excise duties in turn based on buoyant petroleum consumption: real consumption of petroleum products (petrol) increased by 11.2 percent during April-December 2016 compared to same period in the previous year. Indirect taxes, especially petroleum excises, have held up even after demonetisation in part due to the exemption of petroleum products from its scope. More broadly, tax collections have held up to a greater extent than expected possibly because of payment of dues in demonetised notes was permitted. Non-tax revenues have been challenged owing to shortfall in spectrum and disinvestment receipts but also to forecast optimism; the stress in public sector enterprises has also reduced dividend payments.

State government finances are under stress. The consolidated deficit of the states has increased steadily in recent years, rising from 2.5 percent of GDP in 2014-15 to 3.6 percent of GDP in 2015-16, in part because of the UDAY scheme. The budgeted numbers suggest there will be an improvement this year. However, markets are anticipating some slippage, on account of the expected growth slowdown, reduced revenues from stamp duties, and implementation of their own Pay Commissions. For these reasons, the spread on state bonds over government securities jumped to 75 basis points in the January 2017 auction from 45 basis points in October 2016. For the general government as a whole, there is an improvement in the fiscal deficit with and without UDAY scheme.

OUTLOOK FOR 2017-18

Turning to the outlook for 2017-18, we need to examine each of the components of aggregate demand: exports, consumption, private investment and government.

As discussed earlier, India's exports appear to be recovering, based on an uptick in global economic activity. This is expected to continue in the aftermath of the US elections and expectations of a fiscal stimulus. The IMF's January update of its World Economic Outlook forecast is projecting an increase in global growth from 3.1 percent in 2016 to 3.4 percent in 2017, with a corresponding increase in growth for advanced economies from 1.6 percent to 1.9 percent. Given the high elasticity of Indian real export growth to global GDP, exports could contribute to higher growth next year, by as much as 1 percentage point.

The outlook for private consumption is less clear. International oil prices are expected to be about 10-15 percent higher in 2017 compared to 2016, which would create a drag of about 0.5 percentage points. On the other hand, consumption is expected to receive a boost from two sources: catch-up after the demonetisation-induced reduction in the last two quarters of 2016-17; and cheaper borrowing costs, which are likely to be lower in 2017 than 2016 by as much as 75 to 100 basis points. As a result, spending

on housing and consumer durables and semi-durables could rise smartly. It is too early to predict prospects for the monsoon in 2017 and hence agricultural production. But the higher is agricultural growth this year, the less likely that there would be an extra boost to GDP growth next year.

Since no clear progress is yet visible in tackling the twin balance sheet problem, private investment is unlikely to recover significantly from the levels of FY 2017. Some of this weakness could be offset through higher public investment, but that would depend on the stance of fiscal policy next year, which has to balance the short-term requirements of an economy recovering from demonetisation against the medium-term necessity of adhering to fiscal discipline—and the need to be seen as doing so. Putting these factors together, we expect real GDP growth to be in the 6¾ to 7½ percent range in FY2018. Even under this forecast, India would remain the fastest growing major economy in the world.

There are three main downside risks to the forecast. First, the extent to which the effects of demonetisation could linger into next year, especially if uncertainty remains on the policy response. Currency shortages also affect supplies of certain agricultural products, especially milk (where procurement has been low), sugar (where cane availability and drought in the southern states will restrict production), and potatoes and onions (where sowings have been low). Vigilance is essential to prevent other agricultural products becoming in 2017-18 what pulses was in 2015-16.

Second, geopolitics could take oil prices up further than forecast. The ability of shale oil production to respond quickly should contain the risks of a sharp increase, but even if prices rose merely to \$60-65/barrel the Indian economy would nonetheless be affected by way of reduced consumption; less room for public investment; and lower corporate margins, further denting private investment. The scope for monetary easing might also narrow, if higher oil prices stoked inflationary pressure.

Third, there are risks from the possible eruption of trade tensions amongst the major countries, triggered by geo-politics or currency movements. This could reduce global growth and trigger capital flight from emerging markets. The one significant upside possibility is a strong rebound in global demand and hence in India's exports. There are some nascent signs of that in the last two quarters. A strong export recovery would have broader spill over effects to investment.

Fiscal outlook

The fiscal outlook for the central government for next year will be marked by three factors. First, the increase in the tax to GDP ratio of about 0.5 percentage points in each of the last two years, owing to the oil windfall will disappear. In fact, excise-related taxes will decline by about 0.1 percentage point of GDP, a swing of about 0.6 percentage points relative to FY 2017.

Second, there will be a fiscal windfall both from the high denomination notes that are not returned to the RBI and from higher tax collections as a result of increased disclosure under the PMGKY. Both of these are likely to be one-off in nature, and in both cases the magnitudes are uncertain.

A third factor will be the implementation of the GST. It appears that the GST will probably be implemented later in the fiscal year. The transition to the GST is so complicated from an administrative and technology perspective that revenue collection will take some time to reach full potential. Combined with the government's commitment to compensating the states for any shortfall in their own GST collections (relative to a baseline of 14 percent increase), the outlook must be cautious with respect to revenue collections. The fiscal gains from implementing the GST and demonetisation, while almost certain to occur, will probably take time to be fully realized. In addition, muted non-tax revenues and allowances granted under the 7th Pay Commission could add to pressures on the deficit.

The macroeconomic policy stance for 2017-18

An economy recovering from demonetisation will need policy support. On the assumption that the equilibrium cash-GDP ratio will be lower than before November 8, the banking system will benefit from a higher level of deposits. Thus, market interest rates—deposits, lending, and yields on g-secs—should be lower in 2017-18 than 2016-17. This will provide a boost to the economy (provided, of course, liquidity is no longer a binding constraint). A corollary is that policy rates can be lower not necessarily to lead and nudge market rates but to validate them. Of course, any sharp uptick in oil prices and those of agricultural products, would limit the scope for monetary easing.

Fiscal policy is another potential source of policy support. This year the arguments may be slightly different from those of last year in two respects. Unlike last year, there is more cyclical weakness on account of demonetisation. Moreover, the government has acquired more credibility because of posting steady and consistent improvements in the fiscal situation for three consecutive years, the central government fiscal deficit declining from 4.5 percent of GDP in 2013-14 to 4.1 percent, 3.9 percent, and 3.5 percent in the following three years. But fiscal policy needs to balance the cyclical imperatives with medium term issues relating to prudence and credibility.

One key question will be the use of the fiscal windfall (comprising the unreturned cash and additional receipts under the PMGKY which is still uncertain. Since the windfall to the public sector is both one off and a wealth gain not an income gain, it should be deployed to strengthening the government's balance sheet rather than being used for government consumption, especially in the form of programs that create permanent entitlements. In this light, the best use of the windfall would be to create a public sector asset reconstruction company so that the twin balance sheet problem can be addressed, facilitating credit and investment revival; or toward the compensation fund for the GST that would allow the rates to be lowered and simplified; or toward debt reduction. The windfall should not influence decisions about the conduct of fiscal policy going forward.

Perhaps the most important reforms to boost growth will be structural. In addition to those spelt out in Section 1—strategic disinvestment, tax reform, subsidy rationalization—it is imperative to address directly the twin balance sheet problem. The problem is large, persistent and difficult, will not correct itself even if growth picks up and interest rates decline, and current attempts have proved grossly inadequate. It may be time to consider something like a public sector asset reconstruction company.

Another area of reform relates to labour. Given the difficulty of reforming labour laws per se, the thrust could be to move towards affording greater choice to workers which would foster competition amongst service providers. Choices would relate to: whether they want to make their own contribution to the EPFO; whether the employers' contribution should go to the EPFO or the National Pension Scheme; and whether to contribute to the ESI or an alternative medical insurance program. At the same time, there could be a gradual move to ensure that at least compliance with the central labour laws is made paperless, presence less, and cashless. One radical idea to consider is the provision of a universal basic income. But another more modest proposal worth embracing is procedural: a standstill on new government programs, a commitment to assess every new program only if it can be shown to demonstrably address the limitations of an existing one that is similar to the proposed one; and a commitment to evaluate and phase down existing programs that are not serving their purpose.

GLOBAL MANUFACTURING INDUSTRY

World manufacturing growth

World manufacturing growth accelerated in the third quarter of 2017, as economic recovery strengthened worldwide. Positive results reported in the First half of this year carried over into the third quarter. Steady progress over several consecutive quarters characterizes both industrialized and developing and emerging industrial economies, and prospects for sustained global industrial growth in forthcoming

periods are good (Figure 1). For the first time in several years, industrial growth moved back to the positive zone in all of the major economies.

The driving forces behind the positive developments in global manufacturing were improving business conditions, rising consumer spending, promising investment plans directed towards developing economies and healthy external demand support activities. On the other hand, risks for global growth such as concerns where Brexit negotiations will lead to, changes in global trade arrangements or high geopolitical uncertainty have not yet dissipated.

Global manufacturing output rose by 4.5 per cent in the third quarter of 2017 compared to the same period of the previous year. This impressive gain was based on an already strong growth throughout the first half of 2017. The disaggregated data points to the thriving performance of major industrialized economies with a significant share in global manufacturing output, namely the United States, Japan, Germany, the Republic of Korea, Italy as well as Brazil. The manufacturing output of China, the world's largest manufacturer, continued to register a high growth rate in the third quarter.

Industrialized economies as a whole exhibited record-breaking growth at 3.1 per cent in the third quarter of 2017 - the highest manufacturing output growth in a year-by-year comparison in the post-crisis period. Such growth was attributable to Europe's dynamic recovery, where a 4.0 per cent growth was achieved. East Asian industrialized economies experienced a healthy 4.5 per cent year-by-year upward trend and the nearly two-year consecutive slump has all but been forgotten. Relative lower growth was observed in the North America region, where manufacturing output expanded by a mere 1.4 per cent.

A reversal of negative trends in Argentina and Brazil has had a considerable impact on recovery in the Latin America region. Manufacturing output of the region rose by 2.5 per cent in the third quarter of 2017, which also resulted in an accelerated growth rate of developing and emerging industrial economies as a whole at 6.2 per cent. A relatively higher increase was achieved by Asia's developing economies with a 6.5 per cent expansion recorded in the third quarter on a year-to-year basis. The manufacturing production of African regions remained in the positive zone of high growth despite the weak foundation of these countries' manufacturing industries. According to UNIDO's latest estimates, African manufacturing experienced a 6.4 per cent year-to-year gain in the third quarter of 2017. Entering the second half of the year 2017, recovery in global manufacturing has evolved from being relatively modest to becoming more dynamic. Improvements were recorded in both industrialized economies and developing and emerging industrial economies.

Industrialized economies

The manufacturing output of industrialized economies has followed a progressively improving upward trend over the last quarters. All industrialized regions, namely Europe, North America and East Asia, were characterized by robust dynamics in the third quarter and took a step towards a steady future. The latest data revealed an acceleration of growth in the manufacturing sector of European economies during the third quarter of 2017 in a year-by-year comparison, beating expectations. Improved business and consumer confidence complemented by strong domestic and external demand resulted in new business and export orders. All of these factors provide tremendous opportunities to investors and signal that Europe's manufacturing sector is gradually stabilizing.

Taking a closer look at specific numbers, Europe's manufacturing sector as a whole stepped up production by 4.0 per cent in the third quarter of 2017, while the growth rate in the eurozone countries increased by 3.9 per cent compared to the same period of the previous year. In both cases, the result meant a 1.0 per cent jump from the previous quarter's results

The major economies of the Eurozone recorded strong growth in the third quarter of 2017. Manufacturing output rose by 4.6 per cent in Germany, 3.8 per cent in Italy and 2.8 per cent in France comparing year-to-year developments. Spain, another leading Eurozone economy, achieved a 3.3 per cent growth rate. The manufacturing output of other economies of the single currency block seemingly remained healthy in the third quarter and continued on the trajectory of continuous improvement. The highest growth of over 8.0 per cent was observed in Slovenia and Lithuania.

Among other economies, manufacturing output grew by 5.8 per cent in Austria, 4.7 per cent in Belgium, 5.2 per cent in Portugal and 3.8 per cent in Slovakia. Among individual economies beyond the euro zone, the Swiss manufacturing sector experienced the strongest increase in the last 10 years and expanded sharply by 8.7 per cent compared to the same period of the previous year. The rapid surge from an upwardly revised 3.3 per cent gain in the previous quarter was primarily boosted by the manufacturing of pharmaceuticals and of computer, electronic and optical products. The manufacturing output in the United Kingdom rose by 2.7 per cent compared to the same period of the previous year. Another exceptionally positive result was observed in Sweden with a 5.8 per cent growth rate. Higher growth rates above 5.0 per cent were also observed in Czechia and Hungary.

North America's overall manufacturing growth was lower than in other industrialized regions at 1.4 per cent. The United States' manufacturers have recently picked up as the dollar dropped in value, making U.S. goods cheaper in foreign markets and boosting exports. However, a 1.2 per cent growth in the U.S.' total manufacturing production in the third quarter of 2017 represents a slight slowdown, given the performance of the U.S.' manufacturing sector in the second quarter. A solid performance was witnessed in Canadian manufacturing, where production expanded by 3.2 per cent.

Strong global growth continued to drive manufacturing activity in industrialized East Asian economies during the third quarter, leading the manufacturing production to expand by 4.5 per cent. Japan's manufacturing output rose by 4.7 per cent compared to the same period of the previous year. Despite the slightly lower figure in the third quarter, Japan has maintained an uninterrupted period of high growth for several consecutive quarters. Growth momentum strengthened in Malaysia, where manufacturing output recorded a 7.0 per cent increase in the third quarter of 2017. A particularly strong two-digit growth rate was observed in Singapore, while the Republic of Korea and Taiwan, Province of China's manufacturing production expanded only moderately by 1.4 per cent and 3.3 per cent, respectively.

The manufacturing recovery in Russia remained largely on track in the third quarter of 2017, with a nearly 1.0 per cent expansion recorded on a year-to-year basis. A similar growth rate was also observed in Norway which further reduced its contraction rate.

Developing and Emerging Industrial Economies

The combination of good results in all developing and emerging industrial regions helped the developing and emerging industrial economies as a whole achieve a 6.2 per cent growth in the third quarter of 2017 (Figure 3). The recovery of Latin America continues unabated, the growth momentum is also largely holding up across the Asian economies and production in Africa is further promoting from boosted investor confidence.

Manufacturing activity in China has stabilized at the same pace of growth since the beginning of 2017 7.3 per cent increase on a year-by-year basis. The development of advanced manufacturing industries and the new investment plan in the environment has led to an overall upgrade of China's manufacturing industry. Latin America has made positive developments in the manufacturing sector, following the resumption of growth in the second quarter. Brazilian manufacturers are finally emerging from the deep recession with an upward trend of 2.8 per cent recorded in the third quarter of 2017. The largest expansion was observed in the manufacturing of motor vehicles, trailers and semi-trailers. Meanwhile, Argentina has overcome a severe decline in economic growth with the country's manufacturing activity recording a growth of 4.4 per cent – its best performance over the last six years. Looking at other countries in the region, Mexico's manufacturing production retained a positive increase of nearly 3.5 per cent, Chile recorded a moderate upturn of 1.5 per cent, while manufacturing output in Peru and Ecuador decreased in comparison to the same period of 2016.

An impressive growth rate was observed in Asia and the Pacific region. Viet Nam, one of Asia's fast growing economies, continued to attract sizeable foreign direct investment in-ows. Its manufacturing sector was supported by strong demand for electronics and retained a solid pace in the third quarter, expanding by 12.8 per cent. However, the long-term trajectory of double-digit year-to-year growth in manufacturing was interrupted at the beginning of 2017 due to weakened exports. A positive development in growth was also observed in Indonesia, where manufacturing production accelerated and registered a 5.5 per cent gain in the third quarter of 2017. Similarly, the slowed performance of India's manufacturing sector in the last quarter improved slightly, with a moderate 2.2 per cent increase. In Thailand, manufacturing output rose by 4.2 per cent, which was mainly supported by a higher output of the automotive industry. As regards the manufacturing output of other economies from the region, Pakistan and Mongolia performed well, but the Philippines and Jordan's manufacturing sector contracted in a year-by-year comparison.

Among Africa's economies, South Africa, the region's most industrialized country, has been performing below its potential since the final quarter of 2016 and has entered a recession. Following three quarters of depressed manufacturing production in a row, South Africa's manufacturing sector showed marginal positive growth in the third quarter of 2017. However, its current growth is still too weak to project whether the recession will be overcome by the end of the year. Similarly, Tunisia's manufacturing output rose by 2.4 per cent following a period of contraction. A positive growth rate was also registered in Egypt and Morocco, while Senegal and Nigeria's manufacturing output fell compared to the same period of the previous year. However, it should be noted that estimates for Africa are based on limited data, revealing high instability and volatility.

Among other developing economies, the manufacturing output of Eastern European countries registered relatively higher growth rates in the third quarter of 2017. Manufacturing output rose by 8.2 per cent in Poland, 4.7 per cent in Belarus, 5.8 per cent in Bulgaria, 8.5 per cent in Serbia and over 9.0 per cent in Romania, Latvia and Bosnia and Herzegovina. Turkey's manufacturing sector also performed well and exceeded 10.0 per cent growth rate.

Findings by Industry Groups

Global manufacturing production maintained a positive growth rate in all industries in the third quarter of 2017. Advanced manufacturing such as automation, robotics and digital products have been experiencing a steady expansion at the global level. Shifting from low technology to high technology manufacturing industries plays a key role in promoting innovation in the long term and, moreover, determines the positioning of economies within the global market. Therefore, the competition between advanced and emerging economies in high-tech leadership will be compelling and crucial for both groups.

In the wake of the fourth industrial revolution, embracing emerging technologies brings global manufacturing production to a new level. The high growth rate in medium high and high technology industries observed in the third quarter of 2017 led to an increase in high value goods, indicating a high level of consumer confidence (Figure 4). UNIDO data largely support this pro-technology approach.

Medium high and high technology manufacturing industries have repeatedly held top positions when looking at year-by-year comparisons - these industries witnessed a 6.0 per cent growth rate, a record-breaking result in the last Five years. When reviewing the individual top industries, the manufacturing of computers, electronics and optical products grew by 8.3 per cent, the production of machinery and equipment rose by 8.0 per cent, the manufacturing of pharmaceutical products by 6.7 per cent (which recorded a visibly accelerated growth rate compared to the results of the previous quarter), the production of electrical equipment by 6.1 per cent and the manufacturing of motor vehicles by 5.9 per cent. The production in all of the above- mentioned industries was dominated by developing and emerging industrial economies compared with industrialized economies (Figure 5).

As regards medium technology manufacturing industries, 2.3 per cent growth was registered worldwide in the third quarter of 2017. The global manufacturing of rubber and plastic products increased by 3.4 per cent in a year-by-year comparison, while the manufacturing of non-metallic mineral products recorded a growth rate of 3.0 per cent. The global manufacturing of basic metals rose at a moderate pace of 1.6 per cent. In low technology manufacturing industries, overall global production rose by 3.3 per cent in the third quarter of 2017 compared to the same period of the previous year. The global manufacturing of fabricated metal products grew by 4.6 per cent, followed by the manufacturing of furniture with a 4.3 per cent increase. Relatively high growth rates were maintained worldwide in the production of basic consumer goods - the global manufacturing of food products rose by 3.8 per cent, beverages by 3.4 per cent and the global manufacturing of both textile and wearing apparel increased by slightly over 2.5 per cent. The growth rate of the manufacturing of paper products expanded by 2.4 per cent, while coke and refined petroleum products and printing remained below 2.0 per cent.

INDIAN MANUFACTURING SECTOR

Introduction

Manufacturing has emerged as one of the high growth sectors in India. Prime Minister of India, Shri. Narendra Modi, had launched the 'Make in India' program to place India on the world map as a manufacturing hub and give global recognition to the Indian economy. India is expected to become the fifth largest manufacturing country in the world by the end of year 2020.

Market Size

The Gross Value Added (GVA) at basic constant (2011-12) prices from the manufacturing sector in India grew 7.9 per cent year-on-year in 2016-17, as per the 2nd provisional estimate of annual national income published by the GoI. Under the 'Make in India' initiative, the GoI aims to increase the share of the manufacturing sector to the GDP to 25 per cent by 2022, from 16 per cent, and to create 100 million new jobs by 2022. Business conditions in the Indian manufacturing sector continue to remain positive.

Investments

With the help of Make in India drive, India is on the path of becoming the hub for hi-tech manufacturing as global giants such as GE, Siemens, HTC, Toshiba, and Boeing have either set up or are in process of setting up manufacturing plants in India, attracted by India's market of more than a billion consumers and increasing purchasing power.

Cumulative, FDI in India's manufacturing sector reached US\$ 70.51 billion by June 2017.

India has become one of the most attractive destinations for investments in the manufacturing sector. Some of the major investments and developments in this sector in the recent past are:

- JSW Energy has signed a MoU with the Government of Gujarat, for setting up an electric vehicle (EV) manufacturing unit in Gujarat at an estimated cost of Rs 4,000 crore (US\$ 608.88 million).
- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.
- Cochin Shipyard Ltd, which recently completed its IPO, will utilize the funds from the issue to implement expansion projects worth Rs 2,800 crore (US\$ 437.3 million), which are already in its pipeline.
- Indian biscuits giant, Britannia Industries Ltd (BIL), is setting up its largest plant ever, in Ranjangaon, Maharashtra, with an investment of Rs 1,000 crore (US\$ 156.89 million). The plant will have an annual capacity of 120,000 tonne and will be completed by FY19.
- IKEA, a Swedish furniture company, aims to manufacture more than 30 per cent of its products in India in the coming years, stated Mr Patrik Antoni, Deputy Country Manager, IKEA.
- Volvo India Pvt Ltd, Swedish luxury car manufacturer, will start assembly operations near Bengaluru in India by the end of 2017. The company is targeting to double its share in India's luxury car segment to 10 per cent by 2020.
- Larsen & Toubro (L&T) has bagged a contract worth US\$ 669.34 million from the MoDs, GoI, to supply 100 artillery of 155mm/52 caliber tracked self-propelled guns for the Indian Army, under the Make in India initiative.
- Berger Paints has entered into a partnership with Chugoku Marine Paints (CMP), thereby marking its entry into the marine paints segment, which has an estimated market size of Rs 250 crore (US\$ 38.82 million) and is expected to grow at 25 per cent annually for the next five years.
- SAIC Motor Corp, China's largest automaker, has signed a deal to buy General Motors (GM) India's Halol plant in Gujarat.
- Dabur India Ltd set up its largest manufacturing plant globally, spread over 30 acres, at a cost of Rs 250 crore (US\$ 38.82 million), in Tezpur, Assam, which will produce Dabur's complete range of ayurvedic medicines, health supplements, and personal care products among others.

- Apple Inc is looking to expand its Taiwanese contract manufacturer, Wistron's, production facility in Bengaluru, India, where it started manufacturing iPhone SE in May, 2017.
- China based LCD and touchscreen panel manufacturer, Holitech Technology, has announced plans to investing up to US\$ 1 billion in India by the end of 2017.
- Tristone Flowtech Group, the Germany-based flow technology systems specialist, has set up a new facility in Pune, which will manufacture surge tank as well as engine cooling and aircharge hose for the Indian market. The company plans to start the production at the plant in the fourth quarter of 2017.
- Honda Motorcycle & Scooter India plans to invest around Rs 600 crore (US\$ 90 million) to add a new line to produce additional 600,000 units at its Narsapura facility in Karnataka.
- Hindustan Coca-Cola Beverages plans to set up a bottling plant with an investment of Rs 750 crore (US\$ 112.5 million) in phases at the first industrial area being developed by Government of Madhya Pradesh under the public private partnership in Babai village of Hoshangabad, Bhopal.
- Tata Advanced Systems is collaborating with the world's largest defence contractor Lockheed Martin to manufacture the F-16 fighter jets in India.

Government Initiatives

In a bid to push the 'Make in India' initiative to the global level, Shri. Narendra Modi, Prime Minister of India, pitched India as a manufacturing destination at the World International Fair in Germany's Hannover in 2015. Mr Modi showcased India as a business friendly destination to attract foreign businesses to invest and manufacture in the country.

The GoI has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- The GoI has introduced several policy measures in the Union Budget 2017-18 to provide impetus to the manufacturing sector. Some of which include reduction of income tax rate to 25 per cent for MSME companies having turnover up to Rs 50 crore (US\$ 7.5 million), MAT credit carry forward extended to 15 years from 10 years and abolishment of FIPB by 2017-18.
- The GoI has launched a PMP aimed at adding more smartphone components under the “*Make in India*” initiative thereby giving a push to the domestic manufacturing of mobile handsets.
- The GoI is in talks with stakeholders to further ease FDI in defence under the automatic route to 51 per cent from the current 49 per cent, in order to give a boost to the Make in India initiative and to generate employment.
- The Ministry of Heavy Industries and Public Enterprises, GoI, has approved the setting up of four CoE in areas of textile machinery, machine tools, welding technology and smart pumps, which will help raise the technology depth of the Indian Capital Goods Industry.
- The MoD, GoI, approved the “Strategic Partnership” model which will enable private companies to tie up with foreign players for manufacturing submarines, fighter jets, helicopters and armoured vehicles.
- The Union Cabinet has approved the M-SIPS in which, proposals will be accepted till December 2018 or up to an incentive commitment limit of Rs 10,000 crore (US\$ 1.5 billion).

Road Ahead

India is an attractive hub for foreign investments in the manufacturing sector. Several mobile phone, luxury and automobile brands, among others, have set up or are looking to establish their manufacturing bases in the country.

The manufacturing sector of India has the potential to reach US\$ 1 trillion by 2025 and India is expected to rank amongst the top three growth economies and manufacturing destination of the world by the year 2020. The implementation of the GST will make India a common market with a GDP of US\$ 2 trillion along with a population of 1.2 billion people, which will be a big draw for investors.

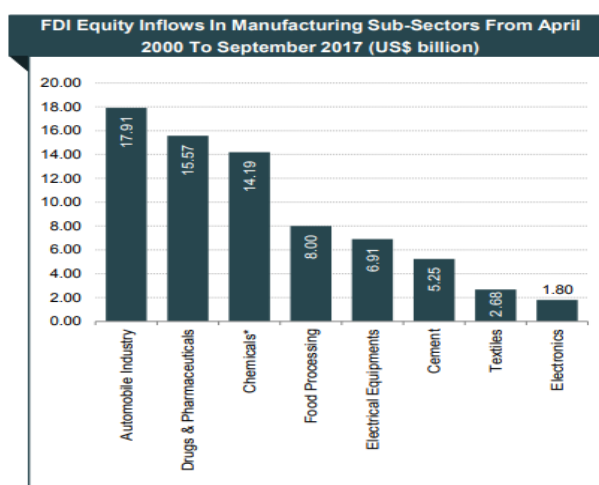

With impetus on developing industrial corridors and smart cities, the government aims to ensure holistic development of the nation. The corridors would further assist in integrating, monitoring and developing a conducive environment for the industrial development and will promote advance practices in manufacturing.

FOREIGN INVESTMENT FLOWING INTO MANUFACTURING SECTOR

- 100 per cent FDI is approved in the sector through the automatic route under the current FDI Policy.
- In August 2017, Department of Industrial Policy and Promotion released the consolidated FDI Policy and a new industrial policy is expected by October 2017. This will improve technology transfer in the sector as well as investment opportunities in startups.
- The FDI equity inflows to the Indian manufacturing sector have been increasing over the years with US\$ 6.91 billion coming in 2016-17.
- For the period between April 2000-Sep, 2017
 - Automobile sub-sector received FDI inflows of US\$ 17.91 billion
 - Drug and pharmaceutical manufacturing has received US\$ 15.57 billion
 - Chemical manufacturing sector (excluding fertilizers) received inflows totalling to US\$ 14.19 billion
- Out of the 10 highest FDI investment avenues, these three have been manufacturing activities.

KEY TRENDS IN INDIAN MANUFACTURING SECTOR

- **Major Investments and Expansion Into New Markets:** As per India Manufacturing Barometer 2017*, more than 50 per cent of respondents in the industry are planning major investments and 62 per cent are planning to expand into foreign markets. Along with major investments consolidation is happening in sectors like cement.
- **Additive Manufacturing:** Popularly known as 3D printing, this new manufacturing technology uses digital models to create products by printing layers of materials. This has huge potential in India with the rise of mega projects coming up. Indian IT major Wipro in collaboration with EOS manufactured India's first additive manufacturing engineered component for ISRO's GSAT19 communications satellite launch in June 2017.
- **Industrial Internet of Things (IIOT) and Industry 4.0:** With the rise of IoT in consumer tech, manufacturing sector has also started implementing this new network of sensors and actuators for data collection, monitoring, decision making and process optimisation over internet infrastructure. Data is a huge component of this whole setup and Indian companies have a lot of potential in this area with many large companies already betting on big data and analytics. As an example, Indian Railways will be rolling out locomotives with solutions like remote diagnostics and proactive predictive maintenance and these trains will be part of a wider ecosystem connected to industrial internet.
- **Advanced Robotics:** While standalone robotic workstations are already common place even in Indian companies, advanced robotics use enhanced senses, dexterity, and intelligence to automate tasks or work alongside humans.
- **Innovation:** Reliance Industries is using big data and analytics to optimise its operations and write applications for customers, based on more than 30 years of data. As of November 2016, the Ministry of Textiles signed MoUs with 20 e-commerce firms to engage with various handloom and handicraft clusters.
- **Focus on backward integration:** During Textiles India 2017, the Ministry of Textiles signed 65 MoUs. MoUs were signed between various domestic and international organisations from industry and government; three of the MoUs signed are G2G MoUs. The MoUs signed relate to exchange of information and documentation, Research and Development, commercialisation of handloom products and silk production, cooperation in Geo textiles, skill development, supply of cotton and trade promotion with overseas partners, etc.
- **Focus on forward integration:** In 2015, Maruti Suzuki launched its premium retail outlets named 'Nexa' to differentiate from its old retail outlets. This strategy has been adopted to market cars that are more premium than the budget ones Maruti has been known for. With this they can operate in two segments with one established brand name.
- **Collaboration:** The GoI has been pushing for greater technology transfers and collaborations along with more FDI and domestic production. Tata Advanced Systems is collaborating with the world's largest defence contractor Lockheed Martin to manufacture the F-16 fighter jets in India while the Adani Group has also entered the sector by forming a joint venture with Israel-based Elbit Systems.

INDIAN ENGINEERING INDUSTRY

Engineering exports from India stood at US\$ 65.23 billion in FY17. Engineering exports for the period of April-December 2017-18 was US\$ 56,091.89 million as against US\$ 45,696.36 million in the same period previous year. During FY08–FY17, engineering exports from India registered growth at a CAGR of 7.61 per cent. Engineering exports include transport equipment, capital goods, other

machinery/equipment and light engineering products such as castings, forgings and fasteners. With the revival of demand for iron and steel in China and the US, India's engineering exports reached US\$65.2 billion in FY17.

Transport equipment (which includes Auto and auto component including Aircraft and ship boats) is the leading contributor to engineering exports. The segment accounted for 32.46 per cent of the total engineering exports from India in FY17. Exports of iron and steel products accounted for a market share of around 22.44 per cent, in the overall exports, while industrial machinery including electrical machinery accounted for 23.85 per cent of the total engineering exports in FY17. Other commodities includes medical and scientific instruments, hand tools and cutting tools, bicycle parts, office equipment, prime mica and mica products, etc. and accounted for a share of 10 per cent of the total engineering exports from India in FY17. Attractive markets for Indian engineering products are USA, China, Germany, U.K., Canada, France, Russia, Japan, Australia, South Korea, Saudi Arabia and Southern Africa.

GROWTH DRIVERS

- **Demand-side drivers:**
 - Capacity addition for power generation
 - Increase in infrastructure spending
 - Rise in exports which is touched US\$ 65.23bn during FY17
- **Policy:**

- De-licensing
- Reduction in tariff and customs
- Supportive government policies leading to higher investments
- **Investments:**
 - Increasing FDI inflows
 - Higher M&A
 - Easy credit facilities for manufacturing companies

ADVANTAGES

(Source: *Indian Engineering Analysis - India Brand Equity Foundation - www.ibef.org*)

KEY SEGMENTS - AUTOMOTIVE

- **Passenger & utility vehicles:**
 - Currently, there are 16 manufacturers of passenger cars and multi-utility vehicles, 13 manufacturers of commercial vehicles and 16 manufacturers of 2 wheelers and 3 wheelers Total production in the automobiles sector stood at approximately 21.4 million units in April-December 2017.
 - In April-December 2017, sales of passenger vehicles went up by 8.13 per cent, whereas the sales of utility vehicles rose by 19.43 per cent.
- **Auto components:**
 - The auto components industry has more than 500 companies in the organised sector and about 10,000 entities in the unorganised sector.
 - During 2016-17, exports of auto components increased at a CAGR of 9.96 per cent, from US\$ 5.1 billion in FY09 to US\$ 10.9 billion in FY17.
 - In March 2017, Wipro opened an automotive engineering centre in Detroit North America, to serve as a hub to support automotive engineering and IT requirements of OEMs and tier-I suppliers.
- **Agriculture machinery:**
 - Agricultural tractors dominate the agriculture machinery sector
 - The Indian tractor industry is the world's largest and accounts for one-third of the global production, and is the cheapest producer world over providing room for more exports in tractors.
 - Indian tractors are exported to the US, Malaysia, Turkey and Africa
 - In November 2016, the Central Government directed the states of Punjab, Haryana and U.P. to promote use of agri-equipment for effective management of crop residue.

MARKET SIZE OF ENGINEERING SECTOR

The capital goods and engineering turnover in India is expected to reach US\$ 125.4 billion by FY17.

India exports its engineering goods mostly to the US and Europe, which accounts for over 60 per cent of the total exports. Recently, India's engineering exports to Japan and South Korea have also increased with shipments to these two countries rising by 16 and 60 per cent respectively. Sri Lanka, Nepal and Bangladesh have also emerged as the major destinations for India's engineering exports.

According to the IESA, the ESDM market is expected to grow at a CAGR of 16-23 per cent to reach US\$ 228 billion by 2020 from \$100 billion in 2016-17. According to a study by ASSOCHAM and NEC Technologies, the demand for electronic products in India is expected to grow at a CAGR of 41 per cent during 2017-20 to US\$ 400 billion by 2020.

According to data from the Engineering Export Promotion Council of India, engineering exports from India grew 11.33 per cent year-on-year to reach US\$ 65.23 billion in FY 2016-17. Exports of electrical machinery rose to US\$ 4.6 billion in FY 2016-17 from US\$ 3.7 billion in FY 2015-16.

INVESTMENTS

The engineering sector in India attracts immense interest from foreign players as it enjoys a comparative advantage in terms of manufacturing costs, technology and innovation. The above, coupled with favourable regulatory policies and growth in the manufacturing sector has enabled several foreign players to invest in India.

The FDI inflows into India's miscellaneous mechanical and engineering industries during April 2000 to June 2017 stood at around US\$ 3.34 billion, as per data released by the DIPP.

In the recent past there have been many major investments and developments in the Indian engineering and design sector:

- With an aim to increase its presence in India, Denmark-based heating ventilation and air-conditioning (HVAC) giant, Danfoss, is planning to take its manufacturing localisation to 50 per cent as well as double its supplier base in India by 2020.
- Larsen and Toubro Ltd (L&T) has been awarded with projects worth Rs 2,170 crore (US\$ 336.93 million), which includes an order worth Rs 1,169 crore (US\$ 181.51 million) from Oman Electricity Transmission Company SAOC.
- South Korean electronics major, LG, is planning to make India as its export hub, on the back of improved ties between South Korea and India, as per Mr Ki Wan Kim, Managing Director, LG Electronics India (LGEI).
- Warburg Pincus is in advance talks with Tata Technologies to acquire up to 40 per cent minority stake for about Rs 2,300 crore (US\$ 357.11 million).
- Hexagon Capability Centre India (HCCI) in collaboration with NITK, Surathkal, launched first-of-its-kind NextGen 3D Lab costing Rs 7.7 crore (US\$ 1.15 million) at NITK Campus. The lab aims at making budding engineers industry-ready by the time they graduate.
- Engineering and construction major L&T entered into a joint venture with European defence major Matra BAE Dynamics Alenia (MBDA) Missile Systems for development of missiles in India. L&T will own 51 per cent stake in the JV named L&T MBDA Missile Systems and the rest 49 with the European partner.

- American plane maker Boeing Corporation has launched the Boeing India Engineering & Technology Center in Bengaluru. The centre will employ hundreds of locals who will work to support Boeing, including its information technology & data analytics, engineering, research and technology, and tests.
- Reliance Defence and Engineering Ltd said it has signed an agreement with the US Navy for undertaking service, maintenance and repair of Seventh Fleet of US Navy at the Reliance Shipyard at Pipavav in Gujarat.

GOVERNMENT INITIATIVES

The Indian engineering sector is of strategic importance to the economy owing to its intense integration with other industry segments. The sector has been de-licensed and enjoys 100 per cent FDI. With the aim to boost the manufacturing sector, the government has relaxed the excise duties on factory gate tax, capital goods, consumer durables and vehicles.

- In the Union Budget 2017-18, the GoI increased the allocation for incentive schemes like the M-SIPS and the EDF to Rs 745 crore (US\$ 111 million) for providing a boost to the semiconductor as well as the electronics manufacturing industry.
- The Union Cabinet has approved incentives up to Rs 10,000 crore (US\$ 1.47 billion) for investors by amending the M-SIPS scheme, in order to further incentivise investments in electronics sector, create employment opportunities and reduce dependence on imports by 2020.
- The Ministry of Electronics and Information Technology plans to revise its policy framework, which would involve the government taking a more active role in developing the sector by providing initial capital, with the aim to attract more private players and make India a global semiconductor hub.
- The GoI is planning to merge 6 engineering consulting PSUs to create a mega consultancy firm that can take up projects across sectors and compete with the likes of Bechtel of the US and domestic majors like Larsen & Toubro (L&T).

ROAD AHEAD

The engineering sector is a growing market. Spending on engineering services is projected to increase to US\$ 1.1 trillion by 2020. The government, in consultation with semiconductor industry, has increased focus on the ESDM sector in last few years. Some of the initiatives outlined in the National Electronics policy and the National Telecom policy are already in the process of implementation, such as PMS, EMC and M-SIPS.

India's capital good sector is expected to triple in size to Rs 7.5 trillion (US\$ 116 billion) and add 21 million jobs by 2025.

Exchange Rate Used: INR 1 = INR 1 = US\$ 0.015 as of October 30, 2017.

OVERVIEW

Our Company was originally incorporated as “Affordable Robotic & Automation Private Limited” at Pune, Maharashtra as a Private Limited Company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated January 12, 2010, bearing Corporate Identification Number U29299PN2010PTC135298 issued by Registrar of Companies, Pune, Maharashtra. Subsequently, our Company was converted into a Public Limited Company pursuant to a Shareholders’ resolution passed at the Extra-ordinary General Meeting of the Company held on January 24, 2018 and the name of our Company was changed to “Affordable Robotic & Automation Limited” vide a fresh Certificate of Incorporation dated February 2, 2018 issued by the Registrar of Companies, Pune, Maharashtra. The Corporate Identification Number of our Company is U29299PN2010PLC135298.

The business which was started in year 2005 as a proprietorship concern, is in the business of providing turnkey automation solution to automotive, semi-automotive and manufacturing industries. The Company programs and automates the functions of machines used in manufacturing process of automobile industry. The Assembly facility of the Company is situated at Pune, Maharashtra along with the Head office, covering an area of 8,442 sq. meters. The assembly unit is equipped with requisite software, technology, machinery, spares store and other basic amenities for its employees making itself an integrated facility. Our Company is also in the business of assembling and installing automatic multi-level car parking system. This system is preferred by residential complexes, shopping malls and commercial buildings. Our Company has presence in Mumbai and Pune in automated car-parking business. Further, in FY 2017-18, our Company has set-up a new line of business, Secondary Packaging, which is aimed at FMCG industries by way of providing automation service in container packaging of the final packed product.

Our Company is promoted by Mr. Manohar Padole and Mr. Milind Padole. Our individual promoters manage and control the day-to-day affairs of our business operations. Under the leadership of Mr. Milind Padole, our Company has seen remarkable growth in its operational performance. The experience of our promoters and management team is also further reflected in its strong business and financial performance of the Company condition. Our trained and professional experts are *inter alia* involved in (i) engineering & design; (ii) controls & automation; (iii) process study; (iv) robotic application; (v) robotic simulation; (vi) offline programming; (vii) ergonomic study; (viii) layout presentation; (ix) assembly; (x) material handling design; (xi) bulk storage system design; (xii) project management; (xiii) quality and certification; (ix) finance & procurement; (x) HR & administration; (xi) spares & service support; and (xii) training.

Our Company operates on certain core values which are enshrined in the table below. These core values ensures that the Company achieves its end objective without compromising on the quality of the products of the Company.

Further, our Company specializes in analysing the process which is followed in its manufacturing activity and thereby strives to provide quality automation solution to increase the productivity and client's satisfaction. The Company has an in-house team with technical expertise who does the required programming by using advanced software. Our Company operates with a customer centric approach whereby our Company focuses on continuous training of team which helps us to be innovative and provide quality solution to our customers. We strive to provide the automation solution which is defect free and highly productive. Our customers in automation business are mostly Automobile industries who uses our automation solution in their manufacturing processes. Apart from providing automation solutions, we also manufacture Special Purpose Machine (SPM) as per the requirement of our customers. Foreseeing the growth in car-parking business, our Company by using its automation business expertise has ventured now into automated car parking segment which has allowed the Company to gain renowned clients in its initial phase of the business. We are providing various types of parking facility, namely, Mechanical, Hydraulic, Puzzle, Rotary parking giving our customers a variety of parking options suitable to their needs. Secondary packaging is a new line of business which the company is exploring which will focus on providing the automation solution in packaging of packed final products of FMCG companies. The Company aims to provide highly productive and defect free automated secondary packaging solution to the FMCG sector.

Our Company's operational presence are as below:

Registered & Manufacturing Office: Gate No. 1209, Near Hotel Vijay Executive, Pune-Saswad Highway, Wadki, Taluka – Haveli, Pune – 412 308, Maharashtra, India

Branch Office: F35, DLF Centre Point, Sector-11, Mathura Road, Faridabad - 121007, Haryana, India.

Sales and Marketing Office:

Pune: F35, DLF Centre Point, Sector-11, Mathura Road, Faridabad - 121007, Haryana, India.

China Office: Office No.-4, 345, Rongmei Road, Songjiang, Dist – Shanghai, Public Republic of China – 210 600

OUR FINANCIAL SNAPSHOT

As per Standalone Restated Financial Statements, summary of our financial position is as under:

(Amount in Rs. Lakhs)

Particulars	For the period ended 31 st Dec, 2017	F.Y. 2016-17	F.Y 2015-16	F.Y. 2014-15

OUR PRODUCTS

Sr. No.	Product	Image	Description
1.	Industrial Automation		Programming and designing the process to be followed by machines/robots used in manufacturing process. With industrial automation, pace of production becomes faster and chances of inaccuracy and error are substantially eliminated, due to sensor based automated process.
2.	Multi-level Car Parking		With different types of parking methods, vehicles are parked in multi-layers. This is an automated system which finds out the available parking slot reducing the cost and area required for constructing parking areas.
3.	Secondary Packaging		This involves packing of multiple packed products into bigger boxes using automated machines. Such automated secondary packaging reduces time of packing and error-free count of products into each box.

RAW MATERIALS

Our Company requires Steel fabrications, Metal Plates, Machined Steel Components, Mechanical, Pneumatic, Hydraulic Parts & Accessories, Electrical & Control Material, Safety Equipment & Devices, and Robots which constitutes as major raw material.

OUR BUSINESS PROCESS

The automation is done through a specialised process. These steps include:

1. Requirement understanding:

To provide an automation solution to any process of manufacturing, there has to be a proper understanding of the process which is followed in manufacturing process. We strive for in depth understanding of the process to provide high quality automation solution as per the requirement of our customer. Our experience has led us to a position where we can identify potential opportunities, bottlenecks,

manufacturing flexibility limitations, etc. Prior to providing the automation services to our customers, we understand their exact requirement by asking them questions regarding their precise requirements which enables us at our end to understand the level of the process orientation and scale of automation that shall be required to meet the customers desire and demand. Our dedicated and experienced technical team. We have a dedicated and experienced technical team who understands the importance of automation accuracy and believe in customer centric approach and customer friendly attitude.

2. Process formulation & Designing:

Once we get a clear understanding of the type of automation required, our Process & Designing team work together for formulating a process flow of the machine with automation which includes 3D drawing of the component, production volume and shift schedule, concept and feasibility studies, modelling and material designing. All this enables us to calculate the cycle time required for the completion of the entire process. This process formulation is done by using advanced and modern software, giving results satisfying the needs of our customer. Once a complete process flow is defined and mutually agreed, then designing of the machine/robot is done. Designing is done keeping in mind the process finalised avoiding any faulty outcome.

3. Simulation:

Simulation is a 3D computerised replica of the process designed, it helps in finding out any error or defect in the process. After the process and designing is finalised, our dedicated simulation team does the simulation of the entire designed process. It helps the customer to visualize the end result of the recommendation, and the tangible relationship it will form with the revised manufacturing process. Simulation allows us to observe a real-like situation in our systems which allows us to make, modify if necessary and meet the customer's requirement.

4. Parts Assembling:

Once the designing is finalised and simulation is approved by the customer, we issue the detailed design of parts and components to various vendors for manufacturing. Manufactured parts after being received by vendors are issued to shop floor for assembly. Further, parts which are directly bought from suppliers are also issued to shop floor. In the shop floor, we conduct a proper quality check for all the parts received. Once they pass the quality criteria, it is further used for assembly as per the design approved.

5. Inspections and Corrections:

We believe that our strength lies in the quality of service we provide to our customers. To ensure that we continue to strengthen this trust which is reposed on us, we conduct an in-depth inspection of the assembled machines with the help of various tools and equipment such as CMM Machine, Laser Tracker, etc. Inspection helps us to identify any shortfall in the machines at the right time and find out any area where improvement or modifications are required. Since inspection is one of the most critical step, we deploy a highly professional and experienced team for this purpose giving utmost importance to customer service. Any necessary corrections required are done immediately before we proceed the machine to trail.

6. Trials:

After the inspection and correction step, machines are ready for use for commercial purpose. However, to ensure that our customers do not face any trouble while operating the machine at their site, we conduct a live trial on our shop floor in the presence of our customer so as to avoid any last minute hustle. With the trial, we explain our customer about the working of the machine and automation, all the queries and doubts of the customer are clarified by our technical team. Once the customer is satisfied with the trial operation, we proceed to final step.

7. Approval and Dispatch:

With the successful completion of trial and satisfaction of the customer meeting their exact requirement, final approval from the customer is taken indicating their satisfaction to their requirement. We prepare to dispatch the automated machines to our customer's site. We ensure proper packaging and safe transit of the machines to the customer and help the customer with the installation of the machine at their site.

OUR COMPETITIVE STRENGTHS

1. Quality of solutions

We believe that quality and innovation are the bed-rock of successful strategy. Towards this end we stress on and constantly strive to improve the quality of our service. For high quality automation solutions, we believe we need to have a strong team of professionals having requisite technical expertise and qualifications. Human capital is one of the most important assets in any service industry and to provide a high quality solution, we continuously invest in training our people who use advanced and updated software giving the perfect result.

2. Experienced Promoters and Management

We have an experienced management team including our promoters who have more than a decade of experience in automation industry. Our Company is led by our promoter Mr. Milind Padole who has strong experience and knowledge of the industry. He looks after the entire operation of the Company and is technically qualified with rich experience. It is through the constant vision and experience of our management team including the promoters, we have been able to build a sustainable business model and created a strong clientele. We have employed people in different areas of work who have required technical competence and qualifications. We strongly believe that the success of our organization lies in the efforts of our human resources.

3. In-house facilities

Our Company boasts of having integrated facility where all the activities involved into providing the automation service is done in-house. From programming to the trial step, our assembly facility provides for all, due to which we are not dependent to any third party. We have a dedicated section for each process with technically qualified people working on it. Our facility has all the required machineries, tools and equipment to carry out the necessary activity. We have a large shop floor which allows us to do complete production-like trial before delivering the machines.

4. Scope of expansion

Our facility is located at Pune and is spread over an area of approx. 2 acres which accommodates both office and manufacturing facility. Out of which, the Pune facility has 1 acre of unused land, we plan to use this surplus land for expansion of our shop floor which would enable us to take projects which necessitates the use of larger production line for trial. With the expansion of shop floor, we would also be able to dedicate an area for multi-level car parking automation business. With expanded facility, our Company intends to take a larger leap in expanding our business.

5. Innovation of automation solution

The integration of applications on today's assembly lines is an increasingly complex challenge. Engineers must simultaneously strive for higher quality and work towards reduction in cost, all which must be completed with limited capital funding. We have been stressing on continuous innovation and improvement in the automation solution we provide, we understand the quality of automation solution will define our customer's performance. Giving importance to it, we use our innovative software and technologies to provide the automation solution, like, Sensors which helps in labour safety purpose. Further, we also deploy software in the machine which is used for production monitoring and any error in the process can be rectified on real-time basis.

6. Technological Skills

The Automation service we provide calls for both hard and soft skills. Human capital is an asset to any Service industry and we continue to invest in it by different ways. The people employed with us possess skills which are must to provide a high quality solution to the customers. We give importance to skills such as Programming, Designing and Problem solving, we continuously invest in training our employees so as to develop them with the latest technologies.

7. Strong Customer service

Our Company specialises in providing the solution which are world class. We provide on-site support in the form of consultative Needs Analysis, Automated Facilities Support, Training and Project Integration. We also provide Process Engineers, Installation Engineers, Software Engineers and Project Engineers for project execution purposes. The team is highly competent, qualified and possess required technical expertise to serve our customers at the right time.

OUR BUSINESS STRATEGY

Our Vision:

Our vision is to be a leader in the robotics and automation business not just concentrated in the domestic markets but also in international markets with sustain attention on innovation, quality and customer satisfaction which in turn shall enhance the value of all stakeholders of our Company. Further, we intend to capitalize on the growing manufacturing activity in India and abroad. In line with this vision, our Company is implementing a business strategy with the following key components enshrined in the below mentioned diagram. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business.

Our Mission:

Our Company has very well laid down its objective in order to achieve its vision and success. Our Company intends to be the most preferred partner for customers by delivering superior experience in projects by creating smart automation solutions by adopting new and innovative technology. Our Company not being a non-profitable company also at the same time intends to grow itself by generating revenues and profits by driving competitiveness and operating the business at benchmark and optimum levels. Our customer centric approach driven by highly professional and experienced team with no compromise on quality enables each and every employee and associate of our Company to achieve and unleash full potential to deliver sustainable outcomes. In the end, our Company being a society driven intends to achieve its vision keeping in mind the best practices on care for our environment and society.

1. Providing complete solution

The need of the hour is have 365 degree solution for the customer's needs. Understanding the need of providing end-to-end automation solution, we continue to focus on the strategies which gives us a competitive edge over the other players in the Industry. There are very few players who provide a complete automation solution and we plan to tap the growing need of automation by providing complete automation solution to our customers by capitalising our technical expertise in automation business. We plan to give solution from Press Die Tooling to Weld Shop Tooling which will become a unique point of strength for our Company.

2. Technology tie-ups

To provide high quality automation solution to our customer, we acknowledge that world-class technology is required. Although our country in recent years have advanced a leap forward in technologies, we still lag a step behind few of the most advanced nations in terms of technologies. Understanding this fact, in near future, we plan to tie-up with few world-class technology companies for exchange of knowledge that will enable our company to stand out in providing turnkey automation solution.

3. Investment in machine-shops

Delivering the solution on time and in compliance with our customers requirements has been our niche, we strive to bank on it in future by investing time and money in improving our machine shops. A technologically modern and advanced machines is a key factor in delivering the solution on time. By investing in machines, we aim to reduce the time of project execution by almost 50% owing to bigger assembly line and requisite machineries. The investment in machines should be sophisticated and more standardised in terms of designs which shall enable us to execute the orders with a reduced time lag.

4. Tapping foreign markets

To be successful in automation service industry, it is a pre-requisite to have presence in countries which have huge amount of manufacturing activity. Apart from India, countries such as China and Brazil is a big market for automation solution service, manufacturing activity in these countries are enormous and they possess growth opportunities. We plan to tap these markets in near future by expanding our operations at China and setting up a marketing team for Brazil. With these systems in place and our experience in automation, we expect our business would be highly successful in these areas affecting our performance favourably.

5. End Of Line automation

End Of Line automation is the service of providing automation solution to Secondary Packaging in FMCG sector. We foresee the need of automation solution in secondary packaging area, with the upcoming launches of food parks in various parts across the country there is a huge opportunity to tap. We would leverage our experience in automation business to provide the automation solution to secondary packaging business.

PRODUCT WISE REVENUE BREAK-UP

Our Company generates revenues majorly from these 2 products viz., Automation and Car-Parking. The product-wise break-up of the Total Revenue is as under:

(Amount in Rs. Lakhs)

Particulars	For the period ended 31 st December, 2017	Revenue (in %)	For the year ended 31 st March, 2017	Revenue (in %)
Automation	3,788.15	81.2%	3,286.20	81.6%
Car-Parking	876.72	18.8%	740.40	18.4%
Net Revenue	4,664.88	100.0%	4,026.61	100.0%

CUSTOMER WISE REVENUE BREAK-UP

For the Financial Year 2016-17, Our top 5 customers were as under:

(Amount in Rs. Lakhs)

Customer Name	Product	Amount	% of Total Revenue
Bajaj Auto Ltd	Automation	501.64	12.46%
Badve Engineering Ltd.	Automation	442.45	10.99%
Badve Autotech Pvt. Ltd.	Automation	293.94	7.30%
Rajshriya Automotive Industries Pvt. Ltd.	Automation	267.29	6.64%

SKH Y Tech India Pvt ltd.	Automation	228.43	5.67%
Total		1,733.75	43.06%

OUR PROPOSED PROJECT

Our Company has been in the business of Automation Solution for more than a decade. Our Company now intends to increase the size of its current business and at the same time increase its focus on Multi-level car parking business. We currently have in-house manufacturing facility for some of the parts and outsource manufacturing of some part.

Our Company intends to purchase new plant & machinery to increase our existing capacity as well as to start in-house production of child parts which are currently outsourced. This is being planned in order to improve the quality of the product along with reducing the time required for production further the unused land will be used as Car Parking assembly facility.

Our Company has identified the Plant & Machinery to be bought, however, no formal agreement, MoU have been entered into with any of the parties. Further, we have taken quotation from third parties w.r.t. Plant & Machineries, however, we have not placed order for any of the plant and machineries.

For details of the location of the project, plant and machinery please refer to the section entitled “*Objects of the Issue*” on page 86 of this Red Herring Prospectus.

SWOT ANALYSIS

Strengths:

- 1. Presence across automobiles sector** – Our Company provides turnkey automation solution across automobile segment covering 2/3/4 wheelers vehicles. Presence across the sector have created a brand image for our company and is now a trusted player for automobile automation. This benefits our company in getting marquee clients.
- 2. Growing multi-level car parking business** – In very small amount of time, our company has become among the top players in car parking business in Mumbai. With our experience in industrial automation business, catering into multi-level car parking business has been comparatively easier for us and increasing share of revenue from this profitable business.
- 3. After sales service**–Customer service in automation solution business is epicentre of growth. Our strong after sales service to our customer has made us a trusted partner for them in their manufacturing activity. We have a dedicated technical team in each of the major cities in India who provides on-site technical help as and when required by the customer.

Weakness:

- 1. Inability to achieve large turnkey projects** – To get a large turnkey project, generally sizes of which are more than \$3 Million, OEMs prefers us to have established design houses which gives them comfort regarding the capability of the solution provider. As of date, we do not have a full-fledged design house, owing to which we are unable to receive large turnkey projects from them. However, with growing business and further expansion plans, we aim to cater the large size projects as well.
- 2. Stressed working capital** –It being a service industry, we have to manage our receivables and payables effeciently which affects our working capital requirements. Currently, our company is facing with a situation of stressed working capital which affects our financial and operational performance. However, as stated in the Objects of the Issue, on page no. **86** of Red Herring Prospectus, we would be utilising part of the Net Proceeds towards working capital management.
- 3. Dependency on small vendors**–Since we do not manufacture small parts required in machines for automation, we have to outsource those manufacturing or purchase it from third parties. Due to which we are dependent on numerous small vendors who provide us these small parts which are

generally small in value but large in number. Our dependency on these vendors affects our operational performance.

Opportunities:

- 1. Evolving of Driverless cars, Electric vehicle** - In coming years, the concept of driverless cars would become reality and many countries across the globe would be in hurry to implement this phenomena. Focus of government on electric vehicle and migration from BSIV vehicles to BSVI vehicles in coming years would ask for huge capital expenditures from OEMs. With introduction of these cars, there would be mass production of new and unique designs calling for huge demand in automation solution for these areas.
- 2. Growing population and disposable income** –The demand for automation increases if the demand for product increases, to meet the growing demand company will have to maintain a robust manufacturing activity. However, meeting this demand manually is impossible, hence automation would be required. With growing population and purchasing power of India’s economy, demand is set to be higher. This will help the automotive industry to be competitive by improving productivity, quality and consistency meeting the safety requirements.

Threats:

- 1. Trade barriers** -In the past there have been instances where low cost production countries dump their cheap products in foreign markets, due to which there have been certain trade impositions on these markets. Owing to trade barriers, demand of the products are hit affecting the overall industry.
- 2. Lack of skilled labour** –As the automation service sector requires people who are technically qualified and having experience in the automation field to provide quality automation solution. The service industry in general is dependent on human capital. However, this industry has lately experienced lack of such resources affecting the performance of overall industry.

UTILITIES & INFRASTRUCTURE FACILITIES

Infrastructure Facilities

Our registered office and assembly unit at Pune is well equipped with computer systems, internet connectivity, other communications equipment, security and other facilities, which are required for our business operations to function smoothly. It is equipped with requisite utilities and facilities including the following:

Power

Our Company meets its power requirements by purchasing electricity from State Electricity Board. We also have our own 160 Kva generator set for un-interrupted supply of electricity.

Spares stores

Our Company has in-house stores exclusively for spares which houses all the necessary spares.

CAPACITY AND CAPACITY UTILIZATION

We are in the business of manufacturing of SPMs on the basis of suggested automation solutions to customers. The SPMs are tailor made and each SPM is different, hence there is no capacity as such which can be quantified in terms of production.

PLANT AND MACHINERY

The proposed list of major plant and machinery for our expansion is as follows:-

S. No.	Particulars	Quantity/ Weight/ Area	Suppliers
13.	CRANE 5 TON	5	Ramasa Crane Pvt. Ltd.
14.	SHOT BLASTING UNIT	1	New Aero wheel Surface Finishing Solutions

S. No.	Particulars	Quantity/ Weight/ Area	Suppliers
15.	OVEN FOR PAINTING	1	New Aero wheel Surface Finishing Solutions
16.	PAINT BOOTH	1	New Aero wheel Surface Finishing Solutions
17.	COMPRESSOR 7 BAR FOR PAINTING/ POWDER COATING, AND ASSLY	1	New Aero wheel Surface Finishing Solutions
18.	ROLL FORMING LINE IMPORTED	1	Techno Crafts
19.	ROTARY GRINDING MACHINE(900*3000 MM)	1	Techno Crafts
20.	BAND SAW MACHINE 300 MM (IMPORTED WITH ATTACHMENT)	1	Techno Crafts
21.	CABLE TRAY MAKING MACHINE	1	Techno Crafts
22.	HYDRALIC SHEARING MACHINE	1	Techno Crafts
23.	PRESS BRAKE(CNC)	1	Accura Machine Tools Pvt. Ltd.
24.	PLAZA CUTTING MACHINE	1	Pro-Arc Welding & Cutting Systems Pvt. Ltd.

COLLABORATIONS/TIE UPS/ JOINT VENTURE

Our Company does not have any co-operation agreement or collaborations as on the date of this Red Herring Prospectus.

EXPORT AND EXPORT OBLIGATION

As on the date of this Red Herring Prospectus, our Company does not have any Export Obligation.

HUMAN RESOURCES:

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for our business. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth. Our work progress and skilled/ semi-skilled/ unskilled resources together with our strong management team have enabled us to successfully implement our growth plans.

END USERS

We cater to International and Domestic customers. Currently we offer automation solutions by one-to-one interaction with our customers. The market for automation can be broadly classified into two categories, on the basis of their end-use:

a) Automotive OEMs

We mostly provide turnkey automation solution to Automobile industries. We customize the manufacturing process and provide the programming and automation solution for full line of production.

b) Builders & Local Bodies

We install automated car parking machines at the site. Car parking systems are of different sizes and designs as per the requirement of clients, which are, Builders and Local bodies.

COMPETITION

Automation being an engineering industry, we face competition from various small domestic and international players. The Industry which we cater to is highly competitive and fragmented with many small and medium-sized companies.

Most of our competitors in the regional level are small players who provide automation solution in parts.

We intend to continue competing vigorously to capture more market share and manage our growth in an optimal way.

INSURANCE

Our operations are subject to risks inherent in the engineering and manufacturing industry, such as work accidents, fire, earthquake, floods and other force majeure events, acts of terrorism and explosions including hazards that may cause injury and loss of life, severe damage to and the destruction of property and equipment damage.

Our Company has insurance coverage which we consider reasonably sufficient to cover all normal risks associated with our operations and which we believe is in accordance with the industry standards.

We have taken Standard Fire & Special Perils Policy for a substantial majority of our assets at our office and factory. These policies also insure us against the risk of earthquakes with plinth and foundation. We also have a Marine Cargo Open Policy that covers our products while in transit. We have Workman Compensation Insurance to cover our employees. Further, we have also insured our vehicles. Our policies are subject to customary exclusions and customary deductibles.

Industrial Disputes Act, 1947 ("ID Act") and Industrial Dispute (Central) Rules, 1957

The ID Act and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The ID Act was enacted to make provision for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. Employees may also be subject to the terms of their employment contracts with their employer, which contracts are regulated by the provisions of the Indian Contract Act, 1872. The ID Act also sets out certain requirements in relation to the termination of the services of the workman. The ID Act includes detailed procedure prescribed for resolution of disputes

with labour, removal and certain financial obligations up on retrenchment. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lock-outs, closures, lay-offs and retrenchment.

TAX RELATED LEGISLATIONS

Value Added Tax (“VAT”)

VAT is a system of multi-point Levy on each of the purchases in the supply chain with the facility of set-off input tax on sales whereby tax is paid at the stage of purchase of goods by a trader and on purchase of raw materials by a manufacturer. VAT is based on the value addition of goods, and the related VAT Liability of the dealer is calculated by deducting input tax credit for tax collected on the sales during a particular period. VAT is a consumption tax applicable to all commercial activities involving the production and distribution of goods and the provisions of services, and each state that has introduced VAT has its own VAT Act, under which, persons Liable to pay VAT must register and obtain a registration number from Sales Tax Officer of the respective State.

VAT of relevant State, where the company is operating.

Service Tax

Chapter V of the Finance Act, 1994 as amended, provides for the levy of a service tax in respect of ‘taxable services’, as specified in entry 39 defined therein. The service provider of taxable services is required to collect service tax from the recipient of such services and pay such tax to the Government. Every person who is liable to pay this service tax must register himself with the appropriate authorities. According to Rule 6 of the Service Tax Rules, every assessee is required to pay service tax in TR 6 challan by the 5th / 6th of the month immediately following the month to which it relates. Further, under Rule 7 (1) of Service Tax Rules, the Company is required to file a half yearly return in Form ST 3 by the 25th of the month immediately following the half year to which the return relates.

Central Sales Tax Act, 1956 (“CST”)

The main object of this act is to formulate principles for determining (a) when a sale or purchase takes place in the course of trade or commerce (b) when a sale or purchase takes place outside a State (c) when a sale or purchase takes place in the course of imports into or export from India, to provide for levy, collection and distribution of taxes on sales of goods in the course of trade or commerce, to declare certain goods to be of special importance trade or commerce and specify the restrictions and conditions to which State Laws imposing taxes on sale or purchase of such goods of special importance (called as declared goods) shall be subject. CST Act imposes the tax on interstate sales and states the principles and restrictions as per the powers conferred by Constitution.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e. bringing into India from a place outside India or at the time of export of goods i.e. taking out of India to a place outside India. Any Company requiring to import or export any goods is first required to get it registered and obtain an IEC (Importer Exporter Code). Imported goods in India attract basic customs duty, additional customs duty and education cess. The rates of basic customs duty are specified under the Customs Tariff Act 1975. Customs duty is calculated on the transaction value of the goods. Customs duties are administrated by Central Board of Excise and Customs under the Ministry of Finance.

The Central Excise Act, 1944

The Central Excise Act, 1944 (“Central Excise Act”) consolidates and amends the law relating to Central Duties of Excise on goods manufactured or produced in India. Excisable goods under the Act means goods specified in the Schedule to the Central Excise Tariff Act, 1985 as being subject to duty of excise. Factory means any premises, including the precincts thereof, wherein or in any part of which excisable goods are manufactured, or wherein or in any part of which any manufacturing process connected with the production of these goods being carried on or is ordinarily carried out. Under the Act a duty of excise is levied on all excisable goods, which are produced or manufactured in India as and at the rates, set forth in the First Schedule to the Central Excise Tariff Act, 1985.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by Centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act, 2017 (UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made thereunder. It replaces following indirect taxes and duties at the central and state levels:

Central Excise Duty, Duties of Excise (Medicinal and Toilet Preparations), additional duties on excise – goods of special importance, textiles and textile products, commonly known as CVD – special additional duty of customs, service tax, central and state surcharges and cesses relating to supply of goods and services, state VAT, Central Sales Tax, Luxury Tax, Entry Tax (all forms), Entertainment and Amusement Tax (except when levied by local bodies), taxes on advertisements, purchase tax, taxes on lotteries, betting and gambling.

It is applicable on all goods except for alcohol for human consumption and five petroleum products.

Taxpayers with an aggregate turnover of Rs. 20 lakhs would be exempt from tax. The exemption threshold for special category of states like North-East shall be Rs. 5 lakhs. Small taxpayers with an aggregate turnover in preceding financial year upto Rs. 1 crore (75 lakhs in case of special category states) may opt for composition levy. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. There is a special rate of 0.25% on some precious and semi-precious stones and 3% on gold. In addition a cess of 15% or other rates on top of 28% GST applies on few items like aerated drinks, luxury cars and tobacco products. The rate of tax for CGST and SGST/UTGST shall not exceed –

- a) 5% in case of restaurants etc.
- b) 1% of the turnover in case of manufacturer
- c) 1% turnover of taxable supplies of goods, in case of other supplier

Export and supplies to SEZ shall be treated as zero-rated supplies. Import of goods and services would be treated as inter-state supplies. Every person liable to take registration under these Acts shall do so within a period of 30 days from the date on which he becomes liable to registration. The Central/State authority shall issue the registration certificate upon receipt of application. The Certificate shall contain fifteen digit registration number known as Goods and Service Tax Identification Number (GSTIN). In case a person has multiple business verticals in multiple location in a state, a separate application will be made for registration of each and every location. The registered assessee are then required to pay GST as per the rules applicable thereon and file the appropriate returns as applicable thereon.

Maharashtra State Tax on Profession, Trades, Callings and Employments Act, 1975

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The State of Maharashtra, Karnataka, Tamil Nadu and Andhra Pradesh have their own professional tax structure and tax is levied on every person who exercises any profession or calling or is engaged in any trade or holds any appointment, public or private, or is employed in any manner in state is liable to pay the profession tax at the specified rate provided that no tax shall be payable by the person who have attained sixty five year of age and handicapped person with more than 40% disability or parent of a physically disabled or mentally

retarded child. The tax payable under the State Acts as mentioned above by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

OTHER LAWS

The Factories Act, 1948 (“Factories Act”)

The Factories Act, 1948 aims at regulating labour employed in factories. A “factory” is defined as “any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...”. The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory. The occupier is required to ensure, as far as it is reasonably practicable, the health, safety and welfare of all workers while they are at work in the factory.

Shops and establishments laws in various states

Under the provisions of local Shops and Establishments laws applicable in various states, establishments are required to be registered. Such laws regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

ENVIRONMENTAL LEGISLATIONS

The Environment Protection Act, 1986 (“Environment Protection Act”)

The purpose of the Environment Protection Act is to act as an "umbrella" legislation designed to provide a frame work for Central government co-ordination of the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental

pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to (a) prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Air Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Air Act, if a person intends to commence an industrial plant in a pollution control area.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Water Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Water Act.

Hazardous Waste (Management and Handling) Rules, 1989 (“Hazardous Waste Rules”)

The Hazardous Waste Rules, as amended, impose an obligation on each occupier and operator of any facility generating hazardous waste to dispose of such hazardous wastes properly and also imposes obligations in respect of the collection, treatment and storage of hazardous wastes. Each occupier and operator of any facility generating hazardous waste is required to obtain an approval from the relevant state pollution control board for collecting, storing and treating the hazardous waste.

The Public Liability Insurance Act, 1991

This Act imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

National Environmental Policy, 2006

This Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of the National Environmental Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor
- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development

- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resources for Environmental Conservation

INTELLECTUAL PROPERTY LEGISLATIONS

In general the Intellectual Property Rights includes but is not limited to the following enactments:

- The Patents Act, 1970
- Indian Copyright Act, 1957
- The Trade Marks Act, 1999

Indian Patents Act, 1970

A patent is an intellectual property right relating to inventions and is the grant of exclusive right, for limited period, provided by the Government to the patentee, in exchange of full disclosure of his invention, for excluding others from making, using, selling, importing the patented product or process producing that product. The term invention means a new product or process involving an inventive step capable of industrial application.

The Copyright Act, 1957

Copyright is a right given by the law to creators of literary, dramatic, musical and artistic works and producers of cinematograph films and sound recordings. In fact, it is a bundle of rights including, inter alia, rights of reproduction, communication to the public, adaptation and translation of the work. There could be slight variations in the composition of the rights depending on the work.

Trade Marks Act, 1999 (“TM Act”)

The Trade Marks Act, 1999 provides for the application and registration of trademarks in India for granting exclusive rights to marks such as a brand, label and heading and obtaining relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits any registration of deceptively similar trademarks or chemical compounds among others. It also provides for penalties for infringement, falsifying and falsely applying for trademarks.

GENERAL LAWS

Apart from the above list of laws – which is inclusive in nature and not exhaustive - general laws like the Indian Contract Act 1872, Specific Relief Act 1963, Negotiable Instrument Act 1881, The Information Technology Act, 2000, Sale of Goods Act 1930 and Consumer Protection Act 1986 are also applicable to the company.

OTHER LAWS:

Foreign Trade (Development and Regulation) Act, 1992

The Development and Regulation of foreign trade by facilitating imports and exports from and to India. The Import-Export Code number and licence to import or export includes a customs clearance permit and any other permission issued or granted under this act. The Export and Import policy, provision for development and regulation of foreign trade shall be made by the Central Government by publishing an order. The Central Government may also appoint Director General of Foreign Trade (“DGFT”) for the purpose of Export-Import Policy formulation.

If any person makes any contravention to any law or commits economic offence or imports/exports in a manner prejudicial to the trade relations of India or to the interest of other person engaged in imports or exports then there shall be no Import Export Code number granted by Director-General to such person and if in case granted shall stand cancelled or suspended. Provision of search and seizure of Code of Criminal Procedure, 1973 shall apply to every search and seizure made under this Act. In case of appeals

in a case the order made by the appellate authority shall be considered to be final. The powers of the civil court under Code of Civil Procedure, 1908 shall vest in him.

The EXIM Policy is a set of guidelines and instructions established by the DGFT in matters related to the export and import of goods in India. This policy is regulated under the said act. DGFT is the main governing body in matters related to the EXIM Policy. The Act shall provide development and regulation of foreign trade by facilitating imports into, and augmenting exports from India. Trade Policy is prepared and announced by the Central Government (Ministry of Commerce).

Foreign Exchange Management Act, 1999 (“FEMA”).

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 and the rules and regulations promulgated there under. FEMA aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

Further, a resident of India investing abroad also needs to comply with provisions of Master Direction on Direct investment by Residents in Joint Venture (JV) / Wholly Owned Subsidiary (WOS) Abroad. Under the said regulation an entity has to comply with various provisions including filing of ODI (Overseas Direct Invest) Form, APR (Annual Performance Report) etc. to concerned authorities/AD Category Bank.

THE FOREIGN DIRECT INVESTMENT

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2017 (“FDI Policy 2017”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“RBI”) has also issued Master Direction – on Foreign Investment in India. Presently, FDI in India is being governed by Master Direction on Foreign Investment dated January 4, 2018 as updated from time to time by RBI. In terms of the Master Directions, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Directions. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

2. The Restated Financial Information contain all the disclosures required by the SEBI ICDR regulations and partial disclosures as required by Accounting Standards notified under section 133 of Companies Act, 2013.
3. We have carried out Re-audit of the financial statements for the Year ended on March 31, 2017 and for the period ended December 31, 2017 as required by SEBI regulations. We have not audited any financial statements of the Company as of any date or for any period subsequent to December 31, 2017. Accordingly, we do not express any opinion on the financial position, results or cash flows of the Company as of any date or for any period subsequent to December 31, 2017.
4. The preparation and presentation of the Financial Statements referred to above are based on the Audited financial statements of the Company in accordance with the provisions of the Act and the Financial Information referred to above is the responsibility of the management of the Company.

5. In our opinion, the above financial information contained in Annexure I to III and Annexure A to AB of this report read along with the Restated statement of Significant Accounting Policies and Notes as set out in Annexure IV are prepared after making adjustments and regrouping as considered appropriate and have been prepared in accordance with paragraph B, Part II of Schedule II of the Act, the SEBI Regulations, The Revised Guidance Note on Reports in Company Prospectus and Guidance Note on Audit Reports/Certificates on Financial Information in Offer Documents issued by the Institute of Chartered Accountants of India (“ICAI”) to the extent applicable, as amended from time to time, and in terms of our engagement as agreed with the Company. We did not perform audit tests for the purpose of expressing an opinion on individual balances of account or summaries of selected transactions, and accordingly, we express no such opinion thereon.
6. Consequently the financial information has been prepared after making such regroupings and adjustments as were, in our opinion, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.
7. The report should not in any way be construed as a re-issuance or re-dating of any of the previous audit report, nor should this constructed as a new opinion on any of the financial statements referred to herein.
8. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
9. Our report is intended solely for use of the management and for inclusion in the Offer Document in connection with the IPO-SME for Proposed Issue of Equity Shares of the Company and our report should not be used, referred to or adjusted for any other purpose without our written consent.

7. Auditor’s Responsibility

Our responsibility is to express an opinion on these restated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

8. **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the restated financial statements read together with the notes thereon, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, to the extent applicable.

a) In the case of Restated Statement of Assets and Liabilities of the Company as at March 31, 2013, March 31, 2014, March 31, 2015, March 31, 2016 and March 31, 2017 and for the period ended on December 31, 2017;

b) In the case of the Restated Statement of Profit and Loss, of the profit/ (Loss) of the Company for the Years/Period ended on that date; and

c) In the case of the Restated Cash Flow Statement, of the cash flows of the Company for the Years/Period ended on that date.

9. **Emphasis of Matter**

Without qualifying our report, we draw attention to the following matters in the Notes to the Restated financial statements:

Note 9 to the restated standalone financial statements which describes outstanding statutory dues on account of Direct Tax and indirect tax. Since the Statutory Returns under various laws are pending for filing, interest liability on such Net Outstanding Statutory dues could not be ascertained, accordingly we could not comment on the possible impact, if any, on Statement of Profit and Loss for the respective Year/period ended.

ANNEXURE-IV

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE RESTATED SUMMARY STATEMENTS

A. BACKGROUND

The Company was incorporated as “Affordable Robotic & Automation Private Limited” at Pune, Maharashtra as a Private Limited Company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated January 12, 2010 bearing Corporate Identification Number U29299PN2010PTC135298 issued by Registrar of Companies, Pune, Maharashtra. Subsequently, the Company was converted into a Public Limited Company pursuant to a Shareholders resolution passed at the Extraordinary General Meeting of the Company held on January 24, 2018 and the name of the Company was changed to “Affordable Robotic & Automation Limited” pursuant to issuance of fresh Certificate of Incorporation consequent upon conversion of Company from Private to Public Limited dated February 2, 2018 issued by the Registrar of Companies, Pune, Maharashtra.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Summary Statement of Assets and Liabilities of the Company as on December 31, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31, 2013, and the Restated Summary Statement of Profit and Loss and Restated Summary Statements of Cash Flows for the period ended on December 31, 2017 and for the year ended on March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31, 2013 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Audited Financial Statements of the Company for the period ended December 31, 2017 and for the year ended March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31, 2013.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities, if any, as at the date of the financial statements and reported amounts of income and expenses during the year. Examples of such estimates include valuation of stock, etc. The difference between the actual results and estimates are recognized in the period in which results are known or materialized.

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation on fixed assets of the Company is provided on the basis of W.D.V. method for the specified life of the asset and in the manner specified in schedule II to the Companies Act, 2013 from applicable date.

5. BORROWING COSTS

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's (including goodwill) recoverable amount is the higher of an asset's net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation/ amortization is provided on the revised carrying amount of the asset over its remaining useful life.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

The inventories are valued by the management at cost or market price whichever is lower and on the basis of physical verification of stock at the end of the year.

9. REVENUE RECOGNITION

- i) Revenue from sale of goods is recognized on the transfer of title in the goods which generally coincides with dispatch and is stated net of discounts and sales tax.
- ii) Other income is accounted for on accrual basis in accordance with Accounting Standards (AS) 9- "Revenue Recognition".

11. EMPLOYEE BENEFITS

Defined-contribution plans:

- (i) The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is being made.
- (ii) Employee gratuity fund scheme is the Defined Benefit Plan. Provision for gratuity has been made in the restated accounts based on actuarial Valuation. Gratuity is paid at the time of retirement of employees.
- (iii) Short Term Employee Benefits like leave benefit, if any, are paid along with salary and wages on a month to month basis.

12. SEGMENT ACCOUNTING

(i) Business Segment

(a) The business segment has been considered as the primary segment.

(b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

(c) The Company's primary business comprises of Turnkey Automation Solution provider for all kind of Industrial Automation needs such as Line Automation, Assembly Line, Conveyor, Robotic Inspection Stations, etc and accordingly there is only one reportable segment as envisaged in Accounting Standard 17 'Segment Reporting'.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

13. ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

(i) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

(ii) Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

14. CONTINGENT LIABILITIES AND PROVISIONS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for

- a) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or
- b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

15. EARNINGS PER SHARE:

In determining the Earnings Per share, the company considers the net profit after tax which does not include any post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

16. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

C. CHANGES IN ACCOUNTING POLICIES IN THE PERIOD/YEARSS COVERED IN THE RESTATED FINANCIALS

Net Profit After Tax as per Restated Accounts:	406.78	395.63	122.04	14.07	81.20	43.35

a) Adjustment on account of provision for Gratuity and Compensated Absences:

The Company did not provide gratuity based on the requirement of AS -15 (Revised), therefore during the restatement, provision for gratuity have been done as per the actuarial valuation and accordingly short provisions in respective year were adjusted to comply with the requirement of AS-15 (Revised).

b) Adjustment on account of Provision of Deferred Tax Assets:

Due to Provision for Gratuity (Employee benefits) and disallowances under section 43b of Income tax Act, during the period of restatement, The Company has recalculated the deferred tax liability and deferred tax assets at the end of respective year/period ended at the rate of normal Tax rate applicable at the end of relevant year/period. Due to same short/(excess) deferred tax assets has been recognized in the financial statement of the respective year.

c) Provision of Income Tax (Current/Prior Period):

During the period of Restatement, Income tax liability was recalculated as per the prevailing tax rates, accordingly the revised income tax provision has been charged to the Statement of Profit and Loss account along with interest on delay payment of direct tax. Short/(Excess) provision has adjusted in respective year/period. For More Details refer Annexure AA enclosed with the Financial Statement.

d) Adjustment on account of wrong accounting treatment of Preliminary expenditure not written off :

The Company has wrongly accounted some expenditures as Assets under the category of **Preliminary expenditure not written off**. During the restatement Opening balance of Rs. 1.89 Lakhs as on 01.04.2012 of such asset has been adjusted with the opening balance of retained earnings. Further During the FY 2015-16 and 2017-18, Company has incurred Rs. 2.01 Lakhs and 6.66 lakhs respectively towards increase in authorized share capital in ROC, which has now been rectified and written off in statement of Profit and Loss Account. During the Restatement Company has reversed the effect of all the amortization of expenses which has been made in Audited Accounts.

e) TDS receivable from Employees

During the FY 2015-16, Company has paid the salary to Employees without deduction of TDS, however the TDS deduction was made in the Employees ledgers after making payment of salary. According to management, since the employees have left the organization, such balance of Rs. 2.78 Lakhs is not recoverable and accordingly in restatement, management has written off the balance in respective year's Statement of Profit and Loss Account.

f) Wrong accounting of Service Tax Paid (VCES)

During the Restatement Company has accounted service tax input without availing Cenvat of such Service tax in respective return , therefore such balance of Rs. 0.19 Lakhs is not available for Cenvat and accordingly in restatement, management has written off the balance in respective year's Statement of Profit and Loss Account.

g) Adjustment of Gratuity Liability prior to 31.03.2012

According to Actuarial Valuation report, the Opening balance of Gratuity liability of the Company i.e. Rs 4.04 Lakhs has been adjusted with Opening balance of retained earnings.

Note:

1) The ratios have been computed as below:

- Basic earnings per share (Rs.) - : Net profit after tax as restated for calculating basic EPS / Weighted average number of equity shares outstanding at the end of the period or year
 - Diluted earnings per share (Rs.) - : Net profit after tax as restated for calculating diluted EPS / Weighted average number of equity shares outstanding at the end of the period or year for diluted EPS
 - Return on net worth (%) - : Net profit after tax (as restated) / Net worth at the end of the period or year
 - Net assets value per share - : Net Worth at the end of the period or year / Total number of equity shares outstanding at the end of the period or year
 - Net assets value per share (effect of bonus issue of equity shares) - : Net Worth at the end of the period or year / Total number of equity shares outstanding at the end of the period or year (after split and bonus issue)
- Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the period/year adjusted by the number of equity shares issued during period/year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the period/year.
 - Net worth for ratios mentioned in note 1(c) and 1(d) is = Equity share capital + Reserves and surplus (including, Securities Premium, General Reserve and surplus in statement of profit and loss).
 - The Company has allotted 248000 equity share at 75 each (including of Preimum of Rs 65 each) on January, 2018.

2. The Restated Financial Information contain all the disclosures required by the SEBI ICDR regulations and partial disclosures as required by Accounting Standards notified under section 133 of Companies Act, 2013.
3. We have carried out Re-audit of the financial statements for the Year ended on March 31, 2017 and for the period ended December 31, 2017 as required by SEBI regulations. We have not audited any financial statements of the Company as of any date or for any period subsequent to December 31, 2017. Accordingly, we do not express any opinion on the financial position, results or cash flows of the Company as of any date or for any period subsequent to December 31, 2017.
4. The preparation and presentation of the Financial Statements referred to above are based on the Audited financial statements of the Company in accordance with the provisions of the Act and the Financial Information referred to above is the responsibility of the management of the Company.
5. In our opinion, the above financial information contained in Annexure I to III and Annexure A to AB of this report read along with the Restated statement of Significant Accounting Policies and Notes as set out in Annexure IV are prepared after making adjustments and regrouping as considered appropriate and have been prepared in accordance with paragraph B, Part II of Schedule II of the Act, the SEBI Regulations, The Revised Guidance Note on Reports in Company Prospectus and Guidance Note on Audit Reports/Certificates on Financial Information in Offer Documents issued by the Institute of Chartered Accountants of India (“ICAI”) to the extent applicable, as amended from time to time, and in terms of our engagement as agreed with the Company. We did not perform audit tests for the purpose of expressing an opinion on individual balances of account or summaries of selected transactions, and accordingly, we express no such opinion thereon.
6. Consequently the financial information has been prepared after making such regroupings and adjustments as were, in our opinion, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.
7. The report should not in any way be construed as a re-issuance or re-dating of any of the previous audit report, nor should this constructed as a new opinion on any of the financial statements referred to herein.
8. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
9. Our report is intended solely for use of the management and for inclusion in the Offer Document in connection with the IPO-SME for Proposed Issue of Equity Shares of the Company and our report should not be used, referred to or adjusted for any other purpose without our written consent.

8. Auditor’s Responsibility

Our responsibility is to express an opinion on these restated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and

perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

9. Opinion

In our opinion and to the best of our information and according to the explanations given to us, the restated financial statements read together with the notes thereon, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, to the extent applicable.

- a) In the case of Restated Consolidated Statement of Assets and Liabilities of the Company as at March 31, 2017 and for the period ended on December 31, 2017;
- b) In the case of the Restated Consolidated Statement of Profit and Loss, of the profit/ (Loss) of the Company for the Years/Period ended on that date; and
- c) In the case of the Restated Consolidated Cash Flow Statement, of the cash flows of the Company for the Years/Period ended on that date.

10. Emphasis of Matter

Without qualifying our report, we draw attention to the following matters in the Notes to the Restated financial statements:

Note 9 to the restated consolidated financial statements which describes outstanding statutory dues on account of Direct Tax and indirect tax. Since the Statutory Returns under various laws are pending for filing, interest liability on such Net Outstanding Statutory dues could not be ascertained, accordingly we could not comment on the possible impact, if any, on Statement of Profit and Loss for the respective Year/period ended.

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE RESTATED SUMMARY STATEMENTS

A. BACKGROUND

The Company was incorporated as “Affordable Robotic & Automation Private Limited” at Pune, Maharashtra as a Private Limited Company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated January 12, 2010 bearing Corporate Identification Number U29299PN2010PTC135298 issued by Registrar of Companies, Pune, Maharashtra. Subsequently, the Company was converted into a Public Limited Company pursuant to a Shareholders resolution passed at the Extraordinary General Meeting of the Company held on January 24, 2018 and the name of the Company was changed to “Affordable Robotic & Automation Limited” pursuant to issuance of fresh Certificate of Incorporation consequent upon conversion of Company from Private to Public Limited dated February 2, 2018 issued by the Registrar of Companies, Pune, Maharashtra.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

- A) The Restated Consolidated Summary Statement of Assets and Liabilities of the Company as on December 31, 2017, and for the year ended March 31, 2017 and the Restated Consolidated Summary Statement of Profit and Loss and Restated Consolidated Summary Statements of Cash Flows for the period ended on December 31, 2017 and for the year ended on March 31, 2017 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Audited Consolidated Financial Statements of the Company for the period ended December 31, 2017 and for the year ended March 31, 2017.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

B) Basis for preparation of financial statements

- The financial statements of the Joint venture in china is prepared based on the proportionate method of Consolidation as suggested in Accounting Standard 27 “Financial reporting of Interest in Joint Ventures”. Consolidation are drawn up to the same balance sheet date as that of the Company, i.e. March 31, 2017 and on the basis of the management's representation and certification
- The financial statements of the Group have been consolidated on a line by line basis by adding together the propionate book values of line items of assets, liabilities, income and expenses, after eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses as per Accounting Standard 27.
- The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and events in similar circumstances and necessary adjustments required for deviations, if any to the extent possible unless otherwise stated, are made in the Consolidated Financial Statements and are presented in the same manner as the Company's standalone financial statements.
- The Joint Ventures considered in the consolidated financial statements:

Name of the Entity	Country of Incorporation	Proportion of effective ownership interest	
		31 st Dec 2017	31 st March 2017
ARAPL Intelligent Equipment Shanghai Co. Ltd	Peoples' Republic of China	80%	80%

3. FIXED ASSETS

Fixed assets are stated at historical cost less accumulated depreciation and impairment losses. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

4. DEPRECIATION

Depreciation on fixed assets of the Company is provided on the basis of W.D.V. method for the specified life of the asset and in the manner specified in schedule II to the Companies Act, 2013 from applicable date.

5. BORROWING COSTS

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

The company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's (including goodwill) recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation/ amortization is provided on the revised carrying amount of the asset over its remaining useful life.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

The inventories are valued by the management at cost or market price whichever is lower and on the basis of physical verification of stock at the end of the year.

9. REVENUE RECOGNITION

- i) Revenue from sale of goods is recognized on the transfer of title in the goods which generally coincides with dispatch and is stated net of discounts and sales tax.
- ii) Other income is accounted for on accrual basis in accordance with Accounting Standards (AS) 9- "Revenue Recognition".

10. EMPLOYEE BENEFITS

Defined-contribution plans:

- (i) The company has no policy of encashment and accumulation of leave. Therefore, no provision of leave Encashment is being made.
- (ii) Employee gratuity fund scheme is the Defined Benefit Plan. Provision for gratuity has been made in the restated accounts based on actuarial Valuation. Gratuity is paid at the time of retirement of employees.
- (iii) Short Term Employee Benefits like leave benefit, if any, are paid along with salary and wages on a month to month basis.

11. SEGMENT ACCOUNTING

(i) Business Segment

(a) The business segment has been considered as the primary segment.

(b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

(c) The Company's primary business comprises of Turnkey Automation Solution provider for all kind of Industrial Automation needs such as Line Automation, Assembly Line, Conveyor, Robotic Inspection Stations, etc and accordingly there is only one reportable segment as envisaged in Accounting Standard 17 'Segment Reporting'.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

12. ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India.

The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

(i) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

(ii) Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

13. CONTINGENT LIABILITIES AND PROVISIONS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for

a) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or

b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

14. EARNINGS PER SHARE:

In determining the Earnings Per share, the company considers the net profit after tax which does not include any post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

15. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

C. CHANGES IN ACCOUNTING POLICIES IN THE PERIOD/YEARSS COVERED IN THE RESTATED FINANCIALS

There is no change in significant accounting policies except accounting of Gratuity which was previously done on cash basis, has now been accounted based on mercantile system as certified by Independent Actuary.

D. NOTES ON RESTATEMENTS MADE IN THE RESTATED FINANCIALS

1. The financial statements including financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.
2. The Company does not have information as to which of its supplier are Micro small and Medium Enterprise registered under The Micro small and Medium Enterprise Development Act 2006. Consequently the liability, if any, of interest which would be payable under The Micro small and Medium Enterprise Development Act 2006, cannot be ascertained. However, the Company has not received any claims in respect of such interest and as such, no provision has been made in the books of accounts.

Qualitative Disclosure about Market Risk

Financial Market Risks

Market risk is the risk of loss related to adverse changes in market prices, including interest rate risk. We are exposed to interest rate risk, inflation and credit risk in the normal course of our business.

Interest Rate Risk

Our financial results are subject to changes in interest rates, which may affect our debt service obligations and our access to funds.

Effect of Inflation

We are affected by inflation as it has an impact on the raw material cost, wages, etc. In line with changing inflation rates, we rework our margins so as to absorb the inflationary impact.

Credit Risk

We are exposed to credit risk on monies owed to us by our customers. If our customers do not pay us promptly, or at all, we may have to make provisions for or write-off such amounts.

Reservations, Qualifications and Adverse Remarks

Except as disclosed in chapter titled “*Financial Statements*” beginning on page 171 of this Red Herring Prospectus, there have been no reservations, qualifications and adverse remarks.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 106R of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts / authorities in Mumbai, Maharashtra, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDER

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO BIDDERS

In accordance with Section 72 of the Companies Act, 2013, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Issue after the Bid/Issue Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Bid/Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company withdraws the Issue after the Bid/ Issue Closing Date and thereafter determines that it will proceed with an issue/issue for sale of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

BID/ ISSUE OPENING DATE

Bid / Issue Opening Date	Thursday, May 24, 2018
Bid / Issue Closing Date	Monday, May 28, 2018
Finalisation of Basis of Allotment with the Designated Stock Exchange	On or before Thursday, May 31, 2018
Initiation of Refunds	On or before Friday, June 01, 2018
Credit of Equity Shares to demat accounts of Allottees	On or before Monday, June 04, 2018
Commencement of trading of the Equity Shares on the Stock Exchange	On or before Tuesday, June 05, 2018

The above timetable is indicative and does not constitute any obligation on our Company, and the BRLM. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Bids and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Bid/Issue Period. On the Bid/Issue Closing Date, the Bids and any revision to the same shall be accepted between **10.00 a.m. and 5.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual Bidders after taking into account the total number of Bids received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchanges. It is clarified that Bids not uploaded on the electronic system would be rejected. Bids will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, the Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date and, in any case, no later than

5.00 p.m. (IST) on the Bid/Issue Closing Date. All times mentioned in this Red Herring Prospectus are Indian Standard Times. Bidders are cautioned that in the event a large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public issue, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only on Business Days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Bids due to faults in any software/hardware system or otherwise. Any time mentioned in this Red Herring Prospectus is Indian Standard Time.

Our Company in consultation with the BRLM, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision of the Price Band, the Bid/Issue Period will be extended for at least three additional working days after revision of Price Band subject to the Bid/ Issue Period not exceeding 10 working days. BIDS BY FPI INCLUDING FIIs

In terms of the SEBI FPI Regulations, any qualified foreign investor or FII who holds a valid certificate of registration from SEBI shall be deemed to be an FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations. An FII or a sub-account may participate in this Issue, in accordance with Schedule 2 of the FEMA Regulations, until the expiry of its registration with SEBI as an FII or a sub-account. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued by the designated depository participant under the FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. An FII or subaccount may, subject to payment of conversion fees under the SEBI FPI Regulations, participate in the Issue, until the expiry of its registration as a FII or sub-account, or until it obtains a certificate of registration as FPI, whichever is earlier. Further, in case of Bids made by SEBI-registered FIIs or sub-accounts, which are not registered as FPIs, a certified copy of the certificate of registration as an FII issued by SEBI is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10.00% of our post-Issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10.00% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectorial cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included. The existing individual and aggregate investment limits an FII or sub account in our Company is 10.00% and 24% of the total paid-up Equity Share capital of our Company, respectively.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate

regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client' norms. Following are the eligibility requirements for making an SME IPO under Regulation 106M (2) of Chapter XB of SEBI (ICDR) Regulation:

- (a) In accordance with regulation 106(P) of the SEBI (ICDR) Regulations, issue has to be 100% underwritten and the BRLM has to underwrite at least 15% of the total issue size.
- (b) In accordance with Regulation 106(R) of the SEBI (ICDR) Regulations, total number of proposed allottees in the issue shall be greater than or equal to fifty, otherwise, the entire application money will be refunded forthwith. If such money is not repaid within eight days from the date the company becomes liable to repay it, than the Company and every officer in default shall, on and from expiry of eight days, be liable to repay such application money, with interest as prescribed under section 40 of the Companies Act, 2013.
- (c) In accordance with Regulation 106(O) the SEBI (ICDR) Regulations, Company is not required to file any Offer Document with SEBI nor has SEBI issue any observations on the Offer Document. The BRLM shall submit the copy of Red Herring Prospectus and Prospectus along with a Due Diligence Certificate including additional confirmations as required to SEBI at the time of filing the Red Herring Prospectus and Prospectus with the Registrar of Companies.
- (d) In accordance with Regulation 106(V) of the SEBI ICDR Regulations, the BRLM has to ensure compulsory market making for a minimum period of three years from the date of listing of Equity Shares offered in the issue.
- (e) The Company has track record of distributable profits in terms of section 123 of Companies Act, 2013 for at least two years out of immediately preceding three financial years and each financial year has to be a period of at least 12 months. Extraordinary income will not be considered for the purpose of calculating distributable profits. The net worth of the Company is positive.
- (f) The post issue paid up capital of the company (face value) shall not be more than Rs. 25 crore.

- (g) The issuer shall mandatorily facilitate trading in demat securities.
- (h) The issuer should not been referred to Board for Industrial and Financial Reconstruction.
- (i) No petition for winding up is admitted by a court or a liquidator has not been appointed of competent jurisdiction against the Company
- (j) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the issuer
- (k) The Company should have a website. Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter XB of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 7, Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this issue.

Thus Company is eligible for the issue in accordance with regulation 106M (1) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital does not exceed Rs. 1000 Lakhs. Company also complies with the eligibility conditions laid by the SME Platform of BSE for listing of our Equity Shares.

2.4 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (“**Book Built issues**”) or undertake a Fixed Price Issue (“**Fixed Price Issues**”). An issuer may mention Price or Price Band in the Red Herring Prospectus (in case of a fixed price Issue) and Floor price or price band in the red herring prospectus (in case of a book built issue) and determine the price at a later date before registering the prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Bid/ Issue Opening Date, in case of an IPO and at least one Working Day before the Bid/Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Bidders should refer to the RHP/ Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.5 ISSUE PERIOD

The Issue may be kept open for a minimum of three Working Days (for all category of Bidders/Applicants) and not more than ten Working Days. Bidders/Applicants are advised to refer to the Bid cum Application Form and Abridged Prospectus or RHP/Prospectus for details of the Bid/Issue Period. Details of Bid/Issue Period are also available on the website of the Stock Exchange(s).

In case of a Book Built Issue, the Issuer may close the Bid/Issue Period for QIBs one Working Day prior to the Bid/Issue Closing Date if disclosures to that effect are made in the RHP. In case of revision of the Floor Price or Price Band in Book Built Issues the Bid/Issue Period may be extended by at least three Working Days, subject to the total Bid/Issue Period not exceeding 10 Working Days. For details of any revision of the Floor Price or Price Band, Bidders/Applicants may check the announcements made by the Issuer on the websites of the Stock Exchanges and the BRLM and

the advertisement in the newspaper(s) issued in this regard

2.6 MIGRATION TO MAIN BOARD

SME Issuer may migrate to the Main Board of SE from the SME Exchange at a later date subject to the following:

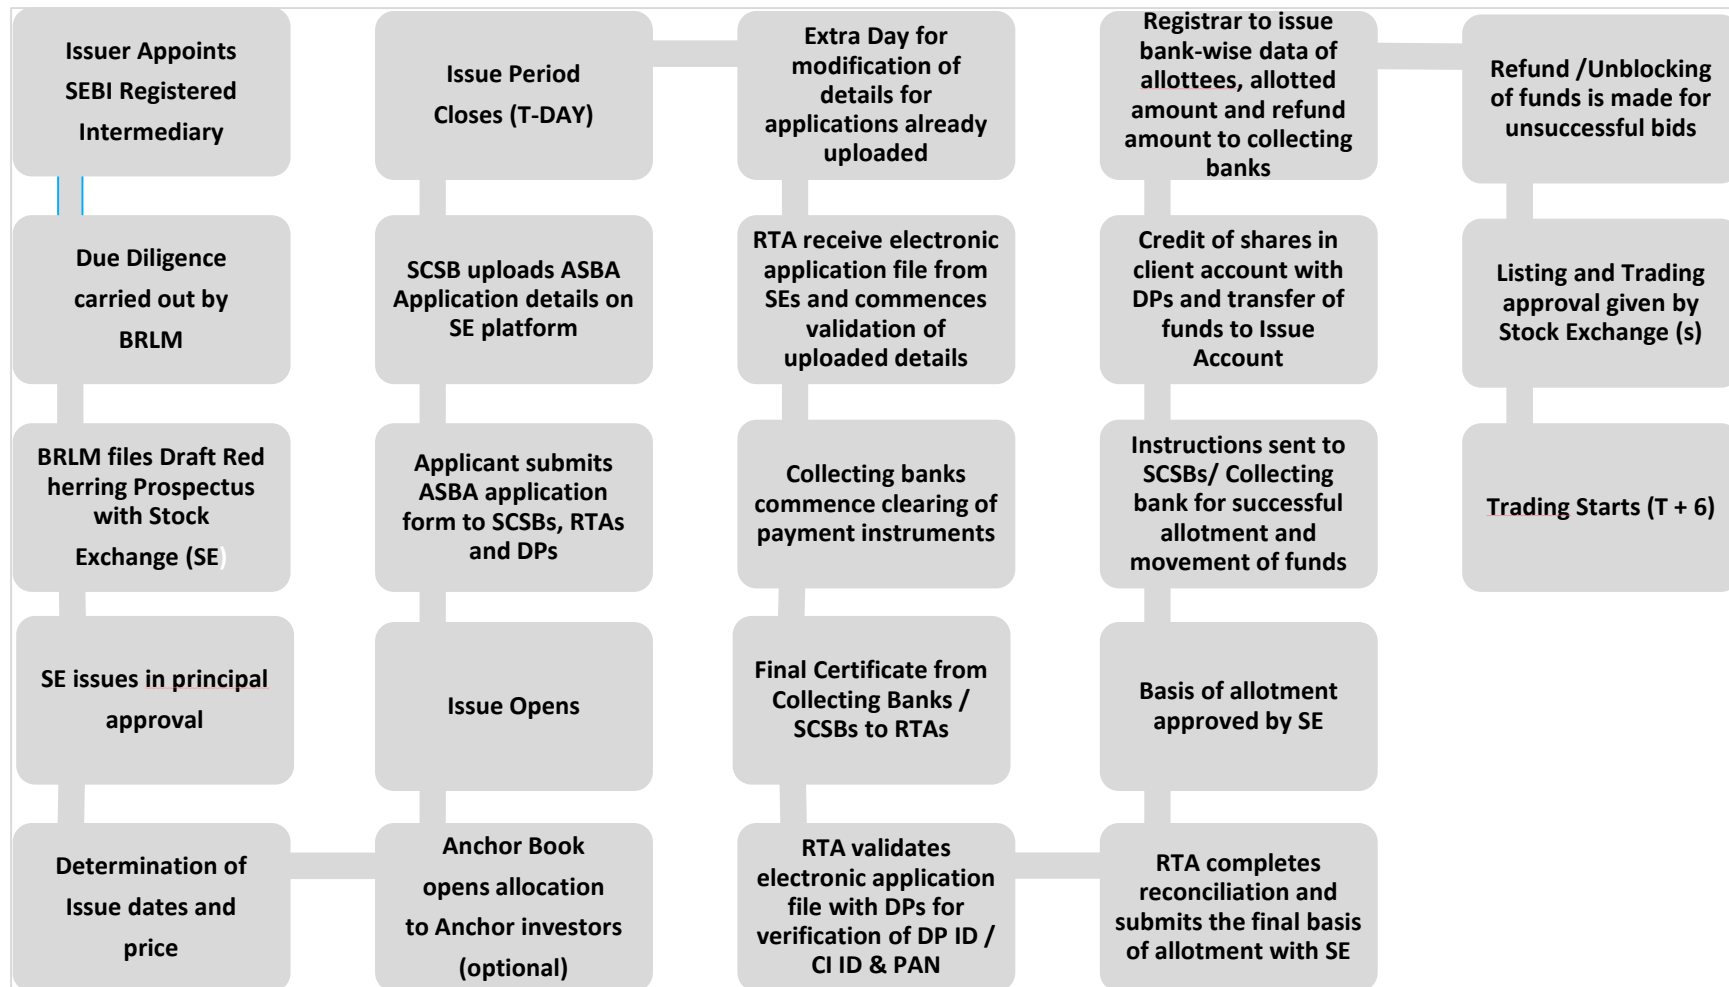

- (a) If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favor of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfillment of the eligibility criteria for listing of specified securities laid down by the Main Board.

OR

- (b) If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

2.7 FLOWCHART OF TIMELINES

A flow chart of process flow in Fixed Price and Book Built Issues is as follows

- (d) **Minimum Bid Value and Bid Lot:** The Issuer in consultation with the BRLM may decide the minimum number of Equity Shares for each Bid to ensure that the minimum Bid value is within the range of above Rs.1,00,000. The minimum Bid Lot is accordingly determined by an Issuer on basis of such minimum Bid value.
- (e) **Allotment:** The Allotment of specified securities to each RII shall not be less than the minimum Bid Lot, subject to availability of shares in the RII category, and the remaining available shares, if any, shall be Allotted on a proportionate basis. For details of the Bid Lot, Bidders may refer to the RHP or the advertisement regarding the Price Band published by the Issuer.

4.1.4.1. Maximum and Minimum Bid Size

- (a) The Bidder may Bid for the desired number of Equity Shares at a specific price. Bids by Retail Individual Investors, Employees and Retail Individual Shareholders must be for such number of shares so as to ensure that the Bid Amount less Discount (as applicable), payable by the Bidder does not exceed Rs. 200,000.
- (b) In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or any other reason, the Bid may be considered for allocation under the Non-Institutional Category (with it not being eligible for Discount), then such Bid may be rejected if it is at the Cut-off Price.
- (c) For NRIs, a Bid Amount of up to Rs. 200,000 may be considered under the Retail Category for the purposes of allocation and a Bid Amount exceeding Rs. 200,000 may be considered under the Non-Institutional Category for the purposes of allocation.
- (d) Bids by QIBs and NIIs must be for such minimum number of shares such that the Bid Amount exceeds Rs. 200,000 and in multiples of such number of Equity Shares thereafter, as may be disclosed in the Bid cum Application Form and the RHP/Prospectus, or as advertised by the Issuer, as the case may be. Non-Institutional Investors and QIBs are not allowed to Bid at Cut off Price.
- (e) RII may revise or withdraw their bids until Bid/Offer Closing Date. QIBs and NII's cannot withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after Bidding and are required to pay the Bid Amount upon submission of the Bid.
- (f) In case the Bid Amount reduces to Rs. 200,000 or less due to a revision of the Price Band, Bids by the Non-Institutional Investors who are eligible for allocation in the Retail Category would be considered for allocation under the Retail Category.

- (g) For Anchor Investors, if applicable, the Bid Amount shall be least Rs 10 crores. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors. Bids by various schemes of a Mutual Fund shall be aggregated to determine the Bid Amount. A Bid cannot be submitted for more than 60% of the QIB Category under the Anchor Investor Portion. Anchor Investors cannot withdraw their Bids or lower the size of their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the Anchor Investor Bid/Offer Period and are required to pay the Bid Amount at the time of submission of the Bid. In case the Anchor Investor Issue Price is lower than the Issue Price, the balance amount shall be payable as per the pay-in-date mentioned in the revised CAN. In case the Issue Price is lower than the Anchor Investor Offer Price, the amount in excess of the Issue Price paid by the Anchor Investors shall not be refunded to them.
- (h) A Bid cannot be submitted for more than the issue size.
- (i) The maximum Bid by any Bidder including QIB Bidder should not exceed the investment limits prescribed for them under the applicable laws.
- (j) The price and quantity options submitted by the Bidder in the Bid cum Application Form may be treated as optional bids from the Bidder and may not be cumulated. After determination of the issue Price, the number of Equity Shares Bid for by a Bidder at or above the issue Price may be considered for Allotment and the rest of the Bid(s), irrespective of the Bid Amount may automatically become invalid. This is not applicable in case of FPOs undertaken through Alternate Book Building Process.

4.1.4.2. Multiple Bids

- (a) Bidder should submit only one Bid cum Application Form. Bidder shall have the option to make a maximum of Bids at three different price levels in the Bid cum Application Form and such options are not considered as multiple Bids. Submission of a second Bid cum Application Form to either the same or to another member of the Syndicate, SCSB or Registered Broker and duplicate copies of Bid cum Application Forms bearing the same application number shall be treated as multiple Bids and are liable to be rejected.
- (b) Bidders are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple Bids:
 - i. All Bids may be checked for common PAN as per the records of the Depository. For Bidders other than Mutual Funds and FII sub-accounts, Bids bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected.
 - ii. For Bids from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Bids on behalf of the PAN Exempted Bidders, the Bid cum Application Forms may be checked for common DP ID and Client ID. Such Bids which have the same DP ID and Client ID may be treated as multiple Bids and are liable to be rejected.

- (c) The following Bids may not be treated as multiple Bids:
 - i. Bids by Reserved Categories Bidding in their respective Reservation Portion as well as bids made by them in the Offer portion in public category.
 - ii. Separate Bids by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Bids clearly indicate the scheme for which the Bid has been made.
 - iii. Bids by Mutual Funds, and sub-accounts of FIIs (or FIIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.
 - iv. Bids by Anchor Investors under the Anchor Investor Portion and the QIB Portion.

4.1.5 CATEGORY OF BIDDERS

- (a) The categories of Bidders identified as per the SEBI ICDR Regulations, 2009 for the purpose of Bidding, allocation and allotment in the Issue are RIIs, NIIs and QIBs.
- (b) An Issuer can make reservation for certain categories of Bidders as permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, Bidders may refer to the RHP.
- (c) The SEBI ICDR Regulations, 2009, specify the allocation or allotment that may be made to various categories of Bidders in an Issue depending upon compliance with the eligibility conditions. Details pertaining to allocation are disclosed on reverse side of the Revision Form. For Issue specific details in relation to allocation Bidder may refer to the DRHP.

4.1.6 INVESTOR STATUS

- (a) Each Bidder should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Bidder, such as NRIs, FPIs and FVCIs may not be allowed to Bid/apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Bidders are requested to refer to the DRHP for more details.
- (c) Bidders should check whether they are eligible to apply on non-repatriation basis or repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Bid cum Application Form and Non-Resident Bid cum Application Form.
- (d) Bidders should ensure that their investor status is updated in the Depository records.

4.1.7 PAYMENT DETAILS

- (a) The full Bid Amount (net of any Discount, as applicable) shall be blocked in the ASBA Account based on the authorisation provided in the Bid cum Application Form. If discount is applicable in the Issue, the RIIs should indicate the full Bid Amount in the Bid cum Application Form and the funds shall be blocked for the Bid Amount net of Discount. Only in cases where the RHP indicates that part payment may be made, such an option can be exercised by the Bidder. In case of Bidders specifying more than one

Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less Discount offered, if any.

- (b) Bid Amount cannot be paid in cash, through money order or through postal order or through stock invest.
- (c) Bidders who Bid at Cut-off Price shall DEPOSIT the Bid Amount based on the Cap Price.
- (d) All Bidders can participate in the Offer only through the ASBA mechanism.
- (e) Please note that, providing bank account details in the space provided in the Bid cum Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1. Payment instructions for Bidders

- (a) Bidders may submit the Bid cum Application Form either
 - i. in electronic mode through the internet banking facility offered by an SCSB authorizing blocking of funds that are available in the ASBA account specified in the Bid cum Application Form, or
 - ii. in physical mode to any Designated Intermediary.
- (b) Bidders must specify the Bank Account number in the Bid cum Application Form. The Bid cum Application Form submitted by Bidder and which is accompanied by cash, demand draft, money order, postal order or any mode of payment other than blocked amounts in the ASBA Account maintained with an SCSB, will not be accepted.
- (c) Bidders should ensure that the Bid cum Application Form is also signed by the ASBA Account holder(s) if the Bidder is not the ASBA Account holder.
- (d) Bidders shall note that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- (e) From one ASBA Account, a maximum of five Bid cum Application Forms can be submitted.
- (f) Bidders should submit the Bid cum Application Form only at the Bidding Centre i.e. to the respective member of the Syndicate at the Specified Locations, the SCSBs, the Registered Broker at the Broker Centres, the RTA at the Designated RTA Locations or CDP at the Designated CDP Locations
- (g) Bidders bidding through a Designated Intermediary, other than a SCSB, should note that Bid cum Application Forms submitted to such Designated Intermediary may not be accepted, if the SCSB where the ASBA Account, as specified in the Bid cum Application Form, is maintained has not named at least one branch at that location for such Designated Intermediary, to deposit Bid cum Application Forms.
- (h) Bidders bidding directly through the SCSBs should ensure that the Bid cum Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained.
- (i) Upon receipt of the Bid cum Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as

mentioned in the Bid cum Application Form.

- (j) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and for application directly submitted to SCSB by investor, may enter each Bid option into the electronic bidding system as a separate Bid.
- (k) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not accept such Bids and such bids are liable to be rejected.
- (l) Upon submission of a completed Bid cum Application Form each Bidder may be deemed to have agreed to block the entire Bid Amount and authorized the Designated Branch of the SCSB to block the Bid Amount specified in the Bid cum Application Form in the ASBA Account maintained with the SCSBs
- (m) The Bid Amount may remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Bid, as the case may be.
- (n) SCSBs bidding in the Issue must apply through an Account maintained with any other SCSB; else their Bids are liable to be rejected.

4.1.8 Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful Bids transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Bid, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Bid, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected Bids, if any, to enable the SCSBs to unblock the respective bank accounts.
- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful Bidder to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bids, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within six Working Days of the Bid/Issue Closing Date.
- (d) In the event of withdrawal or rejection of the Bid cum Application Form and for unsuccessful Bidders, the Registrar to the Issue may give instructions to the SCSB to unblock the Bid Amount in the relevant ASBA Account within 6 Working Days of the Bid/Issue Closing Date.

4.1.8.1. Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) Bidders applying under RII category, Retail Individual Shareholder and employees are only eligible for discount. For Discounts offered in the Issue, Bidders may refer to the

RHP/Prospectus.

- (c) The Bidders entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Bid Amount less Discount (if applicable).

Bidder may note that in case the net payment (post Discount) is more than two lakh Rupees, the bidding system automatically considers such Bids for allocation under Non-Institutional Category. These Bids are neither eligible for Discount nor fall under RII category.

4.1.8.2. Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds through Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of Bids by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

4.1.9 SIGNATURES AND OTHER AUTHORISATIONS

- (a) Only the First Bidder is required to sign the Bid cum Application Form. Bidders should ensure that signatures are in one of the languages specified in the Eighth Schedule to the Constitution of India.
- (b) If the ASBA Account is held by a person or persons other than the Bidder, then the Signature of the ASBA Account holder(s) is also required.
- (c) In relation to the Bids, signature has to be correctly affixed in the authorization/undertaking box in the Bid cum Application Form, or an authorisation has to be provided to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid/ amount mentioned in the Bid cum Application Form.
- (d) Bidders must note that Bid cum Application Form without signature of Bidder and /or ASBA Account holder is liable to be rejected.

4.1.10 ACKNOWLEDGEMENT AND FUTURE COMMUNICATION

- (a) Bidders should ensure that they receive the acknowledgment duly signed and stamped by Bid Collecting Intermediary or SCSB, as applicable, for submission of the Bid cum Application Form.
- (b) All communications in connection with Bid made in the Offer should be addressed as under:
 - i. In case of queries related to Allotment, non-receipt of Allotment Advice, credit of allotted equity shares, the Bidders should contact the Registrar to the Issue.
 - ii. In case of ASBA Bids submitted to the Designated Branches of the SCSBs, the Bidders should contact the relevant Designated Branch of the SCSB.
 - iii. Bidders may contact the Company Secretary and Compliance Officer or BRLM in case of any other complaints in relation to the Offer.
 - iv. In case of queries relating to uploading of Bids by a Syndicate Member, the Bidders should contact the relevant Syndicate Member.
 - v. In case of queries relating to uploading of Bids by a Registered Broker, the Bidders should contact the relevant Registered Broker
 - vi. In case of Bids submitted to the RTA, the Bidders should contact the relevant RTA.
 - vii. In case of Bids submitted to the DP, the Bidders should contact the relevant DP.
- (c) The following details (as applicable) should be quoted while making any queries -
 - i. Full name of the sole or First Bidder, Bid cum Application Form number, Bidder' DP ID, Client ID, PAN, number of Equity Shares applied for, amount paid on Bid.

ii. name and address of the Designated Intermediary, where the Bid was submitted; or

For further details, Bidder may refer to the Red Herring Prospectus and the Bid cum Application Form.

4.2. INSTRUCTIONS FOR FILING THE REVISION FORM

- (a) During the Bid/Offer Period, any Bidder (other than QIBs and NIIs, who can only revise their Bid amount upwards) who has registered his or her interest in the Equity Shares for a particular number of shares is free to revise number of shares applied using revision forms available separately.
- (b) RII may revise / withdraw their Bid till closure of the Bid/Offer period.
- (c) Revisions can be made only in the desired number of Equity Shares by using the Revision Form.
- (d) The Bidder can make this revision any number of times during the Bid/Offer Period. However, for any revision(s) in the Bid, the Bidders will have to use the services of the SCSB through which such Bidder had placed the original Bid.

1.1.1.NAME AND CONTACT DETAILS OF SOLE/FIRST BIDDER, PAN OFSOLE/FIRST BIDDER & DEPOSITORY ACCOUNT DETAILS OF THE BIDDER

Bidders should refer to instructions contained in paragraphs 4.1.1, 4.1.2 and 4.1.3.

1.1.2.BID OPTIONS REVISION ‘FROM’ AND ‘TO’

- (a) Apart from mentioning the revised number of shares in the Revision Form, the Bidder must also mention the details of shares applied/bid for given in his or her Bid cum Application Form or earlier Revision Form. For example, if a Bidder has Bid for three options in the Bid cum Application Form and such Bidder is changing only one of the options in the Revision Form, the Bidder must still fill the details of the other two options that are not being revised, in the Revision Form. The members of the Syndicate, the Registered Brokers and the Designated Branches of the SCSBs may not accept incomplete or inaccurate Revision Form.
- (b) In case of revision, Bid options should be provided by Bidders in the same order as provided in the Bid cum Application Form.
- (c) In case of revision of Bids by RIIs, Employees and Retail Individual Shareholders, such Bidders should ensure that the Bid Amount, subsequent to revision, does not exceed Rs. 200,000. In case the Bid Amount exceeds Rs. 200,000 due to revision of the Bid or for any other reason, the Bid may be considered, subject to eligibility, for allocation under the Non-Institutional Category, not being eligible for Discount (if applicable) and such Bid may be rejected if it is at the Cut-off Price. The Cut-off Price option is given only to the RIIs, Employees and Retail Individual Shareholders indicating their agreement to Bid for and purchase the Equity Shares at the Issue Price as determined at the end of the Book Building Process.
- (d) In case the total amount (i.e., original Bid Amount plus additional payment) exceeds Rs. 200,000, the Bid will be considered for allocation under the Non-Institutional Category in terms of the RHP. If, however, the RII does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the RII and the RII is deemed to have approved such revised Bid at Cut-off Price.
- (e) In case of a downward revision in the Price Band, RIIs and Bids by Employees under the Reservation Portion, who have bid at the Cut-off Price could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked in case of Bidders.

1.1.3.PAYMENT DETAILS

- (a) All Bidders are required to make payment of the full Bid Amount (less Discount, if applicable) along with the Bid Revision Form. In case of Bidders specifying more than one Bid Option in the Bid cum Application Form, the total Bid Amount may be calculated for the highest of three options at net price, i.e. Bid price less discount offered, if any.
- (b) Bidder may Issue instructions to block the revised amount based on cap of the revised Price Band (adjusted for the Discount (if applicable) in the ASBA Account, to the same Designated Intermediary through whom such Bidder had placed the original Bid to enable the relevant SCSB to block the additional Bid Amount, if any.
- (c) In case the total amount (i.e., original Bid Amount less discount (if applicable) plus additional payment) exceeds Rs.2,00,000, the Bid may be considered for allocation under the Non-Institutional Category in terms of the DRHP. If, however, the Bidder does not either revise the Bid or make additional payment and the Issue Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for may be adjusted downwards for the purpose of Allotment, such that additional amount is required blocked and the Bidder is deemed to have approved such revised Bid at the Cut-off Price.
- (d) In case of a downward revision in the Price Band, RIIs, Employees and Retail Individual Shareholders, who have bid at the Cut-off Price, could either revise their Bid or the excess amount paid at the time of Bidding may be unblocked.

1.1.4. SIGNATURES AND ACKNOWLEDGEMENTS

Bidders may refer to instructions contained at paragraphs 4.1.8 and 4.1.9 for this purpose.

4.3. SUBMISSION OF REVISION FORM/ BID CUM APPLICATION FORM /APPLICATION FORM

4.3.1. Bidders may submit completed Bid cum Application form / Revision Form in the following manner:-

Mode of Bid	Submission of Bid cum Application Form
All investors Bids	To the Bid cum Application Collecting Intermediaries as mentioned in the Red herring Prospectus/ Bid cum Application Form

Bidders should submit the Revision Form to the same Designated Intermediary through which such Bidders had placed the original Bid.

BIDDERS SHOULD NOTE THAT IN CASE THE PAN, THE DP ID AND CLIENT ID MENTIONED IN THE BID CUM APPLICATION FORM AND ENTERED INTO THE ELECTRONIC APPLICATION SYSTEM OF THE STOCK EXCHANGES BY THE BIDS COLLECTING INTERMEDIARIES DO NOT MATCH WITH PAN, THE DP ID AND CLIENT ID AVAILABLE IN THE DEPOSITORY DATABASE, THE BID CUM APPLICATION FORM IS LIABLE TO BE REJECTED.

BASIS OF ALLOCATION

- (a) The SEBI ICDR Regulations, 2009 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- (b) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations, 2009. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- (c) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.
- (d) **Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs.20 to Rs 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

SECTION 6: ISSUE PROCEDURE IN FIXED PRICE ISSUE

This being Book Built Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Retail Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to DRHP. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Offer (excluding any Offer for Sale of specified securities). However, in case the Offer is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of BSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- (a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category x number of Shares applied for).
- (b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- (c) For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- (d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- (e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this DRHP.
- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Bidders as described below:

- i. As the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
- ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual bidders other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
- iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to bidders in the other category, if so required.

Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-.Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director / Managing Director of the Designated Stock Exchange in addition to BRLM and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. **Bidders are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Bidders who have been Allotted Equity Shares in the Issue.
- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Bidders Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Bidder depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2017 (“**FDI Policy 2017**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company.

The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by Reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI

regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any 'fit and proper/due diligence' requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, , FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap.

Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FPIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

ii. Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

iii. Investment by NRI or OCI on non-repatriation basis

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Issue in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Issue.

Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Red Herring Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.
