This Prospectus may contain conversions of certain US Dollar and other currency amounts into Indian Rupees that have been presented solely to comply with the requirements of the SEBI (ICDR) Regulations. These conversions should not be construed as a representation that those US Dollar or other currency amounts could have been, or can be converted into Indian Rupees, at any particular rate.

FORWARD LOOKING STATEMENTS

The Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

These forward-looking statements and any other projections contained in the Prospectus (*whether made by us or any third party*) are predictions and involve known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, performance or achievements to be materially different than those contemplated by the relevant forward looking statements. Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- All of the immovable properties used by the company are leased;
- Limited geographical reach
- Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Dependent on few customers;
- Fluctuations in Foreign Exchange rates.
- Changes in laws and regulations relating to the industries in which we operate;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- Occurrence of natural disasters or calamities affecting the areas in which we have operations;
- Business is subject to seasonal fluctuations;
- Conflicts of interest with group companies, the Promoter Group and other related parties;

For further discussion of factors that could cause the actual results to differ from our estimates and expectations, please refer to section titled “Risk Factors”; “Our Business”; and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 25, 116 and 202 respectively of the Prospectus.

There can be no assurance to investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Neither our Company, our Directors, our Officers, Lead Manager and Underwriter nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the LM will ensure that investors in India are informed of material developments until such time as the grant of listing and trading permission by the Stock Exchange for the Equity Shares allotted pursuant to this Issue.

SECTION II – SUMMARY OF OFFER DOCUMENT

PRIMARY BUSINESS OF THE COMPANY

Our Company is a full-service provider of manufacturing engineering and supply chain management services. We also offer efficient services in advanced engineering, 3D scanning, rapid prototyping, flow simulation, project management and quality management. Our primary focus remains to focus on and benefit from the “Make in India” initiative by the GoI by aiding in developing supplier capabilities in India. We help our customers find the right manufacturing source in India for their products and ensure optimal execution and quality by working with qualified and ISO-certified suppliers. We oversee the operations, manage supply chain process and choose the right logistics partners to be close to ports connecting us to our customer locations.

For detailed information on our business activities, please refer to section titled “*Our Business*” on page no. 116 of this Prospectus

SUMMARY OF INDUSTRY IN WHICH THE COMPANY IS OPERATING

Engineering is by far the largest segment in the Indian industry, employing approximately four million skilled and semi-skilled workers. The engineering sector has witnessed tremendous growth, led by significant investment in power projects an infrastructure development.

Supply Chain Management (SCM) has emerged as one of the most powerful business improvement tools. Suppliers, manufacturers, distributors, retailers and a host of service organizations have discovered that they must either transform their operations and tactics or be beaten by competition from more aggressive supply networks.

Worldwide, organizations have formed networks for sourcing raw materials, manufacturing products or creating services, storing and distributing the goods and ultimately delivering the products and services to customers and consumers. The objectives of these networks are to encourage product and service innovation with a view to satisfy the final customer. These organizations see the value of integrating systems and supply chain operations across the full range of component function. Business strategies are getting intrinsically connected with supply chain and information strategies. Leaders are using advanced supply chain and data systems to harmonize organizational efforts and achieve very ambitious long-term strategic goals. Leading Indian companies are forging future supply and demand networks that create an integrated delivery system, appearing seamless to the final consumer. Indian companies are moving towards an integrated system of supply, linked directly to the current demands in the chosen markets, so that efficiency savings are accrued and shared across the network.

SCM influences about 64% of all costs in a manufacturing company. American companies had spent 10 % of their GDP on Supply Chain-related activities in 1997. In Europe supply chain-related costs hover around 55-65% of total turnover. In India such costs would be around 70-80% of turnover. From these figures one can get a fair idea of the potential for savings and at the same time improving competitiveness, if supply chain-related activities are organized and managed strategically while improving process efficiency and enhancing effectiveness of the systems.

For detailed overview of our industry, please refer section titled “*Industry Overview*” on page no. 96 of this Prospectus.

NAME OF THE PROMOTERS

The Promoters of our Company are Mr. Nipul Keniya and Mr. Hiten T Shah

SECTION III – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or any other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or any part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our Restated Financial Information prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business”, “Industry Overview”, and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 116, 96, and 202, respectively, of this Prospectus, as well as other financial and other information contained in the Prospectus. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviations” beginning on page 1 of this Prospectus.

The Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in the Prospectus.

Materiality

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some events may not be material individually but may be found material collectively.
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material at present but may have material impact in the future.

Note:

The risk factors are disclosed as envisaged by the management along with the proposals to address the risk, if any. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial implication of any of the risks described in this section. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

In this Prospectus, any discrepancies in any table between total and the sums of the amount listed are due to rounding off. Any percentage amounts, as set forth in “Risk Factors” and elsewhere in

this Prospectus unless otherwise indicated, has been calculated on the basis of the amount disclosed in our restated financial statements.

In this section, unless the context requires otherwise, any reference to “we”, “us” or “our” refers to Bombay Metrics Supply Chain Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISK FACTORS:

- 1. Our business is primarily dependent upon a continuing relationship with our major customer for sale of our products and services. Our Company does not have any formal long-term arrangements with such customer. If we fail to keep this customer or fail to attract a broader range of customers, it would have a material adverse effect on our business, results of operations, cash flows and financial condition.*

Currently, we are primarily dependent on our major customer, MES, Inc., for our business. Revenue from MES, Inc., was ₹ 3011.76 lakhs, ₹ 2684.39 lakhs, ₹ 1812.59 lakhs and ₹ 581.88 lakhs for Fiscals 2021, 2020, 2019 and 2018, respectively, which represented 93.24%, 90.33%, 90.55% and 76.20% of our revenue from operations for those respective periods. We have over the years developed a continued relationship with them and their repeat clients. Since the orders are dependent on the timelines, volume and other terms of orders from of the end client, we do not have any firm commitment/ agreement for a confirmed size of orders beforehand. Any reduction or interruption in the business of our major customer, or a substantial decrease in orders placed by them, may have an adverse impact on the revenues and operations of our Company.

Further, although we are their “India Sourcing and Supply Partner”, we do not have any long-term or exclusive arrangements with them for sourcing products exclusively from us. Thus, since there is no commitment on the part of our major customer to continue to choose us as the only sourcing and supply partner in India, or refer new orders to us or also procure from other Indian suppliers and as a result, our cash flow and consequent revenue may fluctuate accordingly.

We intend to grow our business by associating and partnering with new prospective customers both in India as well as abroad. There is no assurance that we will be able to maintain the same levels of business from our existing customer or that we will be able to receive a similar size of orders from newly formed partnerships in a timely manner or at all in the event our existing customer does not continue to source the products through our Company, thus may have an adverse effect on our revenues and operations.

Further, below are audited financial information of MES Inc.:

For further details, please refer to the chapter titled “Our Group Companies” beginning on page 165 of this Prospectus.

- If we are unable to maintain and increase our presence in different geographical regions for marketing of our projects, our business, results of operations and financial condition could be adversely affected.***

For the Financial year ended March 31, 2021, 93.24% of our revenue from operations is from exports of products and services of which 100% is to a single customer based in USA. Thus, currently, we are limited to the USA and Mexico market and the reach of our products and services extends to other countries only through our customer. We believe that we have the required knowledge of the customer requirements in the industry we operate in and thus are making efforts to extend our reach to potential customers in India as well as abroad. To increase our presence in newer markets, we need to create our presence and create our brand recognition in those regions. However, ours being a competitive industry with many local, regional and international players and our Company, being a relatively small player having had experience working with only a select number of customers over the years, may not be able to effectively expand to newer markets at the scale and pace expected. We cannot assure you that we will be able to successfully secure orders in newer markets and which may reduce our volumes and adversely affect our business, results of operations and financial condition. Any failure on our part to maintain and increase the number of our arrangements for the marketing and execution of orders may adversely affect our business, results of operations and financial conditions.

The quality and growth of our business are also dependent on the health of the economy of the countries from where we as well as our major customer derive income from. In addition, the customer and end client’s economy may be adversely affected by factors such as adverse changes in liberalization policies, social disturbances, terrorist attacks and other acts of violence or war, natural calamities or interest rates changes, which may also affect the microfinance industry. Any such factor may contribute to a decrease in economic growth and thus volume of orders which could adversely impact our business and financial performance.

- There are certain outstanding legal proceedings pending against our Company and our Directors. Any adverse outcome in any of these proceedings may adversely affect our profitability and reputation and may have an adverse effect on our results of operations and financial condition.***

Our Company and Directors are currently involved in certain tax proceedings in India which are pending at different levels of adjudication before the concerned authority/ forum. We cannot assure you that these tax proceedings will be decided in favour of our Company or Directors, as the case may be. Any adverse decision in such proceedings may render us liable to penalties and may have a material adverse effect on our reputation, business, financial condition and results of operations. Additionally, during the course of our business we are subject to risk of litigation in relation to contractual obligations, employment and labour law related, personal injury and property damage, etc.

A classification of these outstanding litigations is given in the following table:

Sr. No.	Outstanding Litigations	Number of Cases	Financial implications to the extent quantifiable (Rs.)
1.	Filed against our Company	4	84,920
2.	Filed against our Directors	4	48,575

The amounts mentioned above may be subject to additional interest/ penalties being levied by the concerned authorities for delay in making payment or otherwise. For further details pertaining to outstanding litigations, kindly refer to the chapter titled “Outstanding Litigations and Material Developments” beginning on page 212 of this Prospectus.

4. *Our Company does not own any trademarks including that of the logo “” used for representing the Company and its business. In case we do not apply for registration of any trademark, it may affect our business and brand reputation. We use the graphical part (“”) of our major customer, MES, Inc.’s logo which is also not registered with any Trademark authority. Thus, we may be exposed to the risk that their trademark may be affected by events beyond our control and that our major customer may prevent us from using it in the future.*

Our Company has not applied for the registration of any trademarks in relation to its business as on the date of filing of this Prospectus. It may be possible that the trademark registration continues to not be applied for or applied but not approved or use of similar/ same name/ logo by third parties, may cause the validity or scope of the application to be challenged. In such situations, the Company may not have a strong recourse to legal proceedings to protect its trademark which could have an adverse effect on our business and/or reputation. In such a scenario, we may also be required to invest significant resources in developing new brands or logos, which could materially and adversely affect our business, financial condition, results of operations and prospects.

Being the “India Sourcing and Supply Partner” of our major customer, MES Inc., we use the

graphical part (“”) of their logo beside the name “Bombay Metrics” for representation of our Company. As on the date of this Prospectus, MES, Inc. has not applied for registration of the said graphical part of their logo with the Trademark authority of their jurisdiction. MES, Inc. has provided their consent for usage of the above but there can be no assurance that they might revoke their consent. In addition, there can be no assurance that our major customer’s trademark will not be adversely affected in the future by events or actions that are beyond their or our control, including customers’ complaints, or adverse publicity. Any damage to the “Metrics Group” brand, if not immediately and sufficiently remedied, could have an adverse effect on our business, financial condition and results of operations.

In case of revoke of approval or the same being registered and challenged by another party, we would be required to change our brand, which may prevent us from using it in the future and could require us to establish new branding and name recognition in the market, which could result in a material adverse effect on our reputation, business, financial condition and results of operations.

5. *There may be potential conflict of interests between our Company and other entities promoted by our Directors or Promoter Group Members/ Entities or Group Companies.*

Our Company is engaged in supply chain management of engineered goods and allied services, and entities including MES Inc. (also our major customer and related party), Metrics Hong Kong Pvt. Ltd. (group company), Metrics Holdings Inc., Metrics Ningbo Automotive Components Co., Ltd., Metrics Mexico Trading Company SA de CV, Metrics Mexico Supply Chain Company SA de CV, Euro Metrics Z.o.o., Metrics Japan Kabushiki Kaisha and Metrics Vietnam Company Limited are engaged in similar line of business. The company maintains business relationship of supplier-customer with MES, Inc., and Metrics Hong Kong Pvt Ltd. There have been no other business or financial relations with the other entities. However, our Director and Promoters, Mr. Hiten T Shah is the President of MES, Inc. and a Director in all the other entities mentioned above. Our Director, Mrs. Heena Shah is the Secretary and treasurer of MES, Inc. and the Director of Metrics Japan Kabushiki Kaisha. We have not executed any Non-Compete Agreement with our Directors or Promoter Group Members/ Entities or Group Companies to not to engage in businesses similar to that of our Company.

As a result, conflicts of interests may arise in the future in allocating business opportunities amongst our Company, Promoter Group Members/ Entities or Group Companies in such circumstances where our respective interests diverge. There can be no assurance that our Directors/Promoters/Promoter Group /Group Company will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any future conflicts could have a material adverse effect on our business, results of operations and financial condition.

6. *Our business requires us to obtain and renew certain registrations, licenses, approvals, NOCs and permits in the ordinary course of our business. Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.*

We require a number of approvals, licenses, registrations, NOCs and permits in ordinary course of our business. We will be required to renew such permits and approvals in relation to our existing operations and obtain new permits and approvals for any proposed operations as may be required under the applicable laws of the sector or region that we are operating in.

Further, pursuant to conversion after complying with the relevant and the applicable provisions and procedures of Companies Act, 2013, the name of our company was changed to “Bombay Metrics Supply Chain Limited”. Many of the Licenses and approvals are in the name of “Bombay Metrics Supply Chain Private Limited”, the same are required to be updated/ changed with various government/semi government authorities and various organizations. We are in the process of taking necessary steps for transferring the approvals in the new name of our Company. There can be no assurance that the relevant authorities will renew or issue any of such permits or approvals in the time-frame anticipated by us or at all. Any failure to apply for and obtain the required approvals, licenses, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licenses, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and future prospects of the Company. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any

regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

Compliance with many of the regulations applicable to our operations may involve incurring significant costs and otherwise may impose restrictions on our operations. We cannot assure you that we will not be subject to any adverse regulatory action in the future. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of our Company could be adversely affected. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of the terms and conditions stipulated under any of our licenses or permits, one or several of our licenses and certificates may be suspended or cancelled and we shall not be able to carry on the activities permitted thereunder.

7. *Our Company has reported certain negative cash flows from its operating activities on the basis of Restated Financial Statements, details of which are given below. Sustained negative cash flow could impact our growth and business in the future.*

Our Company had reported certain negative cash flows from its operating activities in the previous financial period as per the Restated Financial Statements and the same are summarized as under:

(Rs. in lakhs)

Particulars	For the Year Ended March 31,			
	2021	2020	2019	2018
Net Cash from Operating Activities	(27.25)	83.89	5.00	(38.27)

For further information on our negative net cash flows, see “Financial Statements” on page 171. We cannot assure you that our net cash flows will be positive in the future. Negative cash flows in the future could adversely affect our business, financial condition and results of operations.

8. *Our Promoters, Directors and Senior Management play a key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore, it is critical for our business that our Senior Management personnel remain associated with us.*

Through this issue, our Company proposes to get listed on the EMERGE Platform of NSE and further increase scale and reach of operations in order to take the Company to the next level of operational and financial strength. To aid this transition and effectively implement its growth strategies, our Company will depend heavily on its Promoters, Directors and Senior Management personnel.

They have been actively involved in the day-to-day operations and management making the Company’s seamless performance dependent upon their services and involvement. If all or certain members of the Senior Management are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all. The loss of the services of our key personnel or our inability to recruit or train a sufficient number of experienced personnel or our inability to manage the attrition levels in different employee categories may have an adverse effect on our financial results and business prospects.

Furthermore, our Director and Promoters, Mr. Hiten T Shah and our Director Mrs. Heena H Shah hold designations of President and Secretary, respectively, in our major customer entity, MES, Inc. A majority of our revenue from operations are currently dependent on orders received from such customer, and are thus dependent to some extent on the expertise, support and continued

relationship with such Directors and the customer.

9. *Our reliance on third parties for certain aspects of our business, including material suppliers, transporters/ importers of our materials and products as well as contract labour/ job work, exposes us to certain risks.*

We rely on third parties for the raw materials and components required for third party manufacturing for performance of supply chain management and services carried out by our Company. 100% of our manufacturing is outsourced to our suppliers and carry out production at their manufacturing unites. We also rely on third party transporters for logistics support from all our supplier locations to our warehouses in India units as well as to our customer locations in USA and Mexico. Our reliance on third parties for certain critical outsourced job works and on transporters for transport and logistics may affect our timelines for completion of the contracts with our customers.

We put in a considerable number of resources in supplier development and provide continued support to our suppliers. Our ability to maintain relationships with our selected suppliers and vendors in India contributes to our growth and our successful management of our inventory as well as other aspects of our operations. Our material and component suppliers may fail to consistently deliver products of acceptable quality and within stipulated schedules, or the suppliers to whom we have outsourced manufacturing functions to may not fulfil specified performance standards, or delivery timelines, which may adversely affect our operations.

We may be required to replace a supplier if its products or services do not meet our quality, technical or performance standards or if a supplier should unexpectedly discontinue operations due to reasons beyond its or our control (including financial distress). Our ability to maintain close and satisfactory relationships with our suppliers may impact quality and quantity of our supplies and production timelines. We have not entered any long-term arrangement or contracts with the suppliers which oblige them to maintain their business with us, thus there is no assurance that the suppliers will continue to supply to us on reasonably acceptable terms. Any conflict, changes in policy or dispute with our suppliers may extremely severely impact our ability to procure products for our orders and may affect the survivability of our business. This could adversely affect our production processes and our ability to deliver orders on time and cause disruption in our supply chain.

As we rely on transport and logistics service providers for transporting the entirety of our products, any failure on their part to perform their services in the expected manner could result in us breaching our committed completion timelines as per contracts. Factors such as the financial instability of contractors, suppliers, supplier's non-compliance with applicable laws, labour disputes, currency fluctuations, changes in tariff or import policies, severe weather, political uncertainty, terrorist attacks and transport capacity and cost may disrupt our supply chains, which may result in increased costs or delivery delays. Therefore, there is no assurance that third party suppliers or contractors will be able to meet their contractual commitments to us, or that we will not be required to incur additional costs to remedy any deficiencies in their services or to obtain alternative sources of supply in the event that our contracted suppliers should default or be delayed in their performance. A significant disruption in supply of materials, contract labour, power or other third-party services may, in turn, disrupt our operations and adversely affect our inventory management, business and financial condition, at least until alternative sources of supply of goods and services are arranged. If such events take place, we may be unable to meet our desired level of quantity or quality, which may give rise to contractual penalties or liability for failure to perform contracts, which we may not be able to recover from our suppliers. We may also lose customers and suffer damage to our reputation.

10. Currently, a majority of our Company's products are exported to USA. We are exposed to possibilities of change in import-export policies, foreign exchange rate fluctuations and exchange control risks, which may adversely affect our results of operations.

The company has foreign currency receivables for the import of paints and export of products and services and are therefore exposed to foreign exchange risk between the Indian Rupee and the Foreign currency (USD). Any adverse fluctuations or change in currency rates may impact acceptability, affordability or competitiveness for our products which may ultimately affect the profit margin and growth of the Company.

The fluctuations in foreign exchange or changes in import-export policies may also affect our ability to export our products in a timely and affordable manner. This in turn may adversely affect our profitability and revenues.

11. We benefit from certain export benefits from the Government of India, which if withdrawn or modified may have a significant impact on our results operations.

As on the date of this Prospectus, our Company receives certain export benefits from the Government of India. Due to our export activities, our Company enjoys certain benefits of incentives under the "Merchandise Exports from India Scheme" (MEIS) and "Duty Drawback Scheme" provided by the Central Government of India. Under the MEIS scheme, a percentage of achieved FOB (Free on Board) value of 2, 3, or 5% of the exports, is paid as incentives. Further, under the Duty Drawback Scheme, the excise duty suffered on inputs, service tax paid for input service and customs duty paid on imported raw material during manufacturing of export goods are remitted after export of such goods. The withdrawal or modification of such export benefits may have an adverse effect on the cost of our imported raw materials, thereby having a significant impact on our results of operations.

The MEIS scheme has been withdrawn by the Government of India w.e.f. January 01, 2021 and has been replaced by the Remission of Duties and Taxes on Export Products Scheme. As on date of this Prospectus, our Company is not availing benefits under the Remission of Duties and Taxes on Export Products Scheme. However, as of March 31, 2021 we are receiving residuary benefits under the MEIS Scheme for our export operations completed until December 31, 2020. We cannot assure you that we would be eligible to receive benefits under the Remission of Duties and Taxes on Export Products Scheme or that if we receive benefits under the said scheme, they would be equivalent to the benefits received under the erstwhile MEIS Scheme. Any reduction in the export benefits received by our Company may have an adverse impact on our export operations, business and financial condition. For further details, please refer to the section titled "Financial Information" and "Restated Financial Information – Annexure – 16- Notes to Restated Financial Information - "Other operating revenue" at page 171.

12. There have been instances in the past of delays in complying with legal, statutory or regulatory requirements, including with respect to mandatory form filings and corporate records, as well as instances in which the records of certain forms filed with the Registrar of Companies ("RoC") by our Company were filed with certain irregularities, which may lead to penalties being imposed on us and have an adverse effect on our business and operations.

There have been certain instances of delays in complying, with legal, statutory or regulatory requirements, including with respect to mandatory form filings and corporate records by our Company. In the past, there have been certain instances of certain inadvertent errors in requisite corporate authorisations and form filings. Although no show cause notice has been issued in respect of aforementioned instances against the Company till date, in the event of any cognizance being taken by the concerned authorities in respect of above, penal actions may be taken against the Company and its directors, in such events the financials of our Company shall be affected.

13. Our Company has taken an unsecured loan that may be recalled by the Director at any time.

Our Company has currently availed an unsecured loan which may be called by the lender at any time. As on March 31, 2021, an unsecured loan amounting Rs. 5.00 Lakh was due to our Director and promoters. In the event that such lender seeks repayment of such loan, our Company would need to find alternative sources of financing and there is no formal agreement with the lender. As a result, any such demand may affect our cash flows and results of operations. For further details on financing arrangements entered into by our Company, please refer chapter titled “Financial Statements” on Page no. 171 of Prospectus.

14. If we are unable to accurately forecast demand for our products and plan production schedules in advance, our business, cash flows, financial condition, results of operations, and prospects may be adversely affected.

The volume and timing of sales to our customer may vary due to variation in demand for our customer’s products, receipt of new orders from customer’s end clients, our customer’s attempts to manage their inventory, design changes, changes in their product mix, manufacturing strategy and growth strategy, and macroeconomic factors affecting the economy in general, and our customers in particular. Further, decline in demand for existing products or insufficient demand for new products launched by our end client OEMs may affect demand for our products from such OEMs. Our inability to forecast the level of customer demand for our products, process innovation, and value engineering costs as well as our inability to accurately schedule our raw material purchases and production and manage our inventory may adversely affect our business and cash flows from operations. In particular, our inability to accurately forecast demand for products in our emerging product verticals may hinder our planned growth in these verticals.

We do not have any purchase agreements. A Request for Quote (RFQ) which defines the terms and conditions and specific requirements of purchases by the customer is raised on our online portal (MESH). Once confirmed by our suppliers, these are supplemented by specific purchase orders with the quantity and expected shipping date. Although our customers provide us with forecasts of annual business volumes, which enable us to predict our income for a portion of our business, the actual orders are only placed by way of on-going purchase orders. Significant reduction in demand for our products from a major customer may have an adverse effect on our business, financial condition, results of operations, and prospects.

15. We engage in a highly competitive business and any failure to effectively compete could have a material adverse effect on us.

We compete on the basis of the strength of our supplier network, good track record, continued relationship with major customer, and ability to complete orders with trained supervision. As a result, to remain competitive in our markets, we must continuously strive to offer differentiated products/services, expand our distribution network, enhance our brand and improve our operating efficiencies. Our competitors therefore also include companies that have established their presence in specific regions as part of their strategy. These competitors may limit our opportunity to increase our market share as a result of a stronger dealer network in such regions and customer brand preferences in these locations, and may also compete with us on pricing of products. Our competitors may also introduce new and more competitive products and strengthen their supply chain management, make strategic acquisitions or establish relationships among themselves or with third parties, including suppliers of our products, thereby increasing their ability to address the needs of our target customers. An inability to effectively compete in terms of branding, providing competitive and differentiated products or services or expand into new markets, could have a material negative effect on our business, financial condition and growth prospects.

16. Product liability and other claims and costs incurred as a result of product recalls could harm our business, results of operations and financial condition.

We face an inherent business risk of exposure to product liability or recall claims, in the event that our products fail to perform as expected or such failure results, we may be subject to claims resulting from our manufacturing defects or failure to satisfy the requirements of our customers. These claims may include payment for the replacement of a product. Even unsuccessful product liability claims would likely divert management's time in addressing the issue, adversely affect our goodwill and impair the marketability of our customer's products to the end client. Although, we undergo complete testing in-house and we are liable for the quality of the products manufactured by us. Depending on the terms under which we supply products, our customer may hold us responsible for some or all of the repair or replacement costs of defective products, when the product supplied does not perform as expected. A successful product liability claim or costs incurred for a product recall, would have an adverse effect on our business, results of operations and financial condition. We do not carry insurance for product liability or recall. Till date our company has rarely incurred such major cost, and have been successful in passing down such costs to our suppliers, but we cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims. Further, our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our customer, our company or products or mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations.

17. Certain agreements may be inadequately stamped, notarised or may not have been registered as a result of which our operations may be adversely affected.

Our agreements may have irregularities of enforceability, such as non-registration, not notarised and inadequate payment of stamp duty which may affect the evidentiary value of the relevant lease or license agreements in specific performance or other injunctive procedures in a court of law, and could impair our operations. Further, it may result in levy of penal charges, in case cognizance being taken by concerned authorities. In the event of any dispute arising out of such unstamped, unnotarized and/or unregistered agreements, we may not be able to effectively enforce our rights arising out of such agreements which may have a material adverse impact on our business.

18. We may not be able to identify or effectively respond to evolving preferences, expectations or trends in a timely manner, and a failure to derive the desired benefits from our product development efforts may impact our competitiveness and profitability.

Our customers require variety of product offerings suited to different requirements. The success of our business depends in part on our ability to anticipate, identify and respond promptly to evolving trends in demographics and preferences, customer expectations, needs and demands, and develop new/ differentiated products to meet these requirements. Our success is also dependent on our ability to identify and respond to the economic, social, and other trends that affect demographic and end-customer preferences and specifications. Since we are majorly engaged in providing products and services customized as per our continued major customer, we cannot assure you that our future product development initiatives will be successful or be completed within the anticipated period or budget, or that the newly developed or improvised products, if any, will achieve wide market acceptance from potential customers.

It is often difficult to estimate the time to market new products and there is a substantial risk that we may have to abandon a potential product that is no longer commercially viable, even after we have invested significant resources in the marketing and import of such product. Further, as we continue to grow our business by expanding our brand offerings and our geographic reach, maintaining quality and consistency may be more difficult and there can be no assurance that the

customers' confidence in our brand will not diminish. Failure or any delay on our part to identify such trends, to align our business successfully and maintain quality could negatively affect our brand image, our relationship with our suppliers/customers, the rate of growth of our business, our market share and our prospects.

19. A shortage or non-availability of essentials such as manpower and utilities such as electricity and water could affect the operations of our suppliers' operations and thus have an adverse effect on our business, results of operations and financial condition.

Our business operations are heavily dependent on continuous smooth operations of our suppliers' manufacturing facilities. Thus, the operations being manpower intensive, we are indirectly dependent on the availability of a sufficient pool of skilled, semi-skilled and unskilled labour to efficiently execute our orders. Our suppliers' may not be able to secure the required number of skilled/ semi-skilled labourers required for the timely execution of our orders for a variety of reasons including possibility of disputes with sub-contractors, strikes, less competitive rates to suppliers' sub-contractors as compared to our competitors, COVID- 19 related challenges or changes in labour regulations that may limit availability of contractual labour. This could cause a delay in completion and thus impact schedule of completion and impact revenues. Also, the supply of electricity and water are critical to our suppliers' operations. This may cause halt or pause in operations While our suppliers' have been adequately meeting their power requirements, we cannot assure you that these will be sufficient and, or, that they will not face a shortage of electricity despite their existing arrangements. Any shortage or non-availability of water or electricity could result in temporary shut-down of a part, or all, of our suppliers' operations at the locations experiencing such shortage. Such shut-downs could, particularly if they are for prolonged periods, have an adverse effect on our business, results of operations and financial condition. Moreover, if our suppliers' are required to operate for extended periods of time on diesel-generator sets or if we are required to source water from third parties, their our cost of production would be higher during such period which could be passed on to us and thus have an adverse impact on our profitability.

20. While we are currently not subject to extensive Governmental regulation, any regulatory or legal framework introduced in the future may increase our compliance requirements and costs, which may adversely affect our business, results of operations and prospects. However, to run our business, we require certain regulatory permits and approval to operate.

At present, the segments in which we operate are not subject to extensive Government regulation. While we are not in a position to predict the likelihood, timing or content of any such regulation or legislation, if any such regulation or legislation is notified, we may be affected in various ways. However, we have obtained all permits and licenses, which are adequate to run our business. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

21. If we are unable to source business opportunities effectively, we may not achieve our financial objectives.

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution channel and to implement systems capable of effectively accommodating our growth. However, we cannot assure that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by

us in the future may be different from those presently in use. No assurance can be given that our analysis of market conditions and other data or the strategies that we may use in future to use will be successful under various market conditions.

22. Our Promoters and members of our Promoter Group will continue to retain majority control in the Company after the Issue, which will enable them to influence the outcome of matters submitted to shareholders for approval.

Upon completion of this Issue, our Promoters and members of the Promoter Group will continue to have substantial shareholding of our post-Issue equity share capital. As a result, the Promoter Group will have the ability to control our business including matters relating to any sale of all or substantially all of our assets, the timing and distribution of dividends and the election or termination of appointment of our officers and directors. This control could delay, defer or prevent a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company even if it is in the Company's best interest. In addition, for so long as the Promoters and Promoter Group continue to exercise significant control over the Company, they may influence the material policies of the Company in a manner that could conflict with the interests of our other shareholders. The Promoters and members of the Promoter Group may have interests that are adverse to the interests of our other shareholders and may take positions with which we or our other shareholders do not agree.

23. In addition to normal remuneration/ sitting fees, other benefits and reimbursement of expenses of our Promoters and our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.

Some of our Promoters and our Directors are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration/ sitting fees or benefits and reimbursement of expenses. We cannot assure you that our Directors/ Promoters would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors and Promoters will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. Furthermore, our Director and promoters Mr. Hiten T Shah and our director Mrs. Heena H Shah are also President and Secretary & Treasurer of our major customer, MES, Inc. and thus are interested in the business of the company. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

24. One of our Group Companies had incurred losses.

Our Group Company i.e. MES, Inc. has incurred losses in 3 years as disclosed in the latest audited financials provided. For further details regarding the financial performance of our group company, please refer chapter titled "*Our Group Companies*" beginning on page 165 of this Prospectus. Sustained financial loss by our group company may not be perceived positively by external parties, which in turn may affect our credibility and/or profitability by virtue of association with them.

25. The LM has relied on declarations, undertakings and affidavits furnished by some of our Directors, Promoter Group Members and Group Companies for some of their details included in this Prospectus.

Some of our Directors have been unable to trace copies of documents pertaining to their educational qualifications and/or prior professional experience and have not provided documents of their directorships in entities outside India. Accordingly, reliance has been placed on signed resume, declarations, undertakings and affidavits furnished by these Directors to the Lead Manager to disclose details of their educational qualifications and/or professional experience and other directorships in entities outside India, in this Prospectus. One Promoter Group Member, being a OCI, and files joint tax returns as per the applicable laws in USA and we have not received accurate documentation on her individual holdings and has thus furnished a declaration to the Lead Manager, based on which disclosures relating to her Promoter Group Entities outside India have been mentioned in this Prospectus. Further, our Group Companies, being companies incorporated outside India, have been unable to provide certain information required to be disclosed due inapplicability, thus LM has relied on declarations provided. Accordingly, the Lead Manager has been unable to independently verify these details prior to inclusion in this Prospectus. Further, there can be no assurances that our Directors, Promoter Group Members and Group Companies will be able to trace the relevant documents or provide accurate and complete details pertaining to the above information in the future, or at all.

26. We have issued Equity Shares during the last one year at a price that may be below the Issue Price. Furthermore, the average cost of acquisition of Equity Shares by our Promoters could be lower than the issue price.

During the last one year we have issued Equity Shares at a price that may be lower than the Issue Price:

Date of Transaction	Number Shares Purchased/ Sold	Face Value (Rs.)	Issue Price (Rs.)	Nature of Consideration	Nature of Allotment
March 20, 2021	4150 (Purchased)	10	90**	Cash	Rights Issue
March 30, 2021	10,64,250 (Bonus)	10	NA	NA	Bonus issue in the ratio of 75:1

**On June 29, 2021, Mr. Nipul Keniya has paid differential amount of Rs. 3 per Equity Share for 4150 Equity Shares aggregating to Rs. 12,450 towards promoter's contribution, pursuant to proviso of sub regulation (b) of Regulation 237(1) of SEBI (ICDR) Regulations, 2018.

Furthermore, our Promoters average cost of acquisition of Equity Shares in our Company is lower than the Issue Price as decided by the Company, in consultation with the LM. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters "Capital Structure" beginning on page 56 of this Prospectus.

- 27. *The Objects of the Issue for which funds are being raised, are based on our management estimates and any bank or financial institution or any independent agency has not appraised the same. The deployment of funds in the project is entirely at our discretion, based on the parameters as mentioned in the chapter titles “Objects of the Issue”.***

The fund requirement and deployment, as mentioned in the “Objects of the Issue” on page 84 of this Prospectus is based on the estimates of our management and has not been appraised by any bank or financial institution or any other independent agency. These fund requirements are based on our current business plan. We cannot assure that the current business plan will be implemented in its entirety or at all. In view of the highly competitive and dynamic nature of our business, we may have to revise our business plan from time to time and consequently these fund requirements. The deployment of the funds as stated under chapter “*Objects of the Issue*” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency. Further, we cannot assure that the actual costs or schedule of implementation as stated under chapter “*Objects of the Issue*” will not vary from the estimated costs or schedule of implementation. Any such variance may be on account of one or more factors, some of which may be beyond our control. Occurrence of any such event may delay our business plans and/or may have an adverse bearing on our expected revenues and earnings.

- 28. *Some of our orders may not be completed within their agreed completion dates. Such delays may adversely affect our business, results or operations and financial conditions.***

Sometime our business involves various implementation risks including preparation of finalization of end product, delay or disruption in supply of raw materials, and government approvals and consents, unanticipated cost increases, logistics issues, adverse environmental and weather conditions, natural disasters, pandemics, force majeure events or permits.

In the past, we have experienced delays in implementation of some of our purchase orders and thus instances of time over-run in the completion of our orders. Recently, such time overrun and delay increased due to the hindrances posed by the COVID- 19 pandemic. While, till date there has been no major cost or litigation consequent to such delay in execution of our orders. However, we cannot assure you that no penalties or liquidated damages may not be levied upon us on account of such extension for completion. Similarly, our future orders may also be subject to delays and time and cost over-run on account of reasons which are beyond our control. Such modification and changes to the order completion timelines may have significant impact on our ongoing and future orders and consequently, we may be penalized and be required to pay damages to our clients, which may have an adverse effect on our business, client relations, our credibility, results of operation and financial conditions. While we may seek to minimize the risks from any unanticipated events, it cannot be assured that all potential delays can be mitigated and that we will be able to prevent any time and cost over-runs and any loss of profits resulting from such delays, shortfalls and disruptions.

- 29. *A substantial portion of our revenue is dependent on export sales. Any adverse changes in the conditions affecting international markets could adversely affect our business, results of operations and financial condition. Moreover, we are exposed to possibilities of loss of products in transportation, change in import-export policies, foreign currency exchange rate fluctuations and exchange control risks, which may adversely affect our results of operations.***

A substantial portion of our revenue is dependent on export sale of products and supply chain services to our major customer in USA. In the event of a slowdown in this region, or any developments that make our products and services less attractive in this region, we may experience more pronounced effects on our business, results of operations, and financial condition than if we had further diversified sales across different geographical locations. Our business, results of operations and financial condition have been and will continue to be largely dependent

on the prevailing conditions affecting lighting, automotive, electrical industries and the resulting market for engineered goods and associated supply chain management services in this region. Operating in international markets exposes us to a number of risks globally, including, without limitation:

- Compliance with laws and regulations (including imposition of non-tariff barriers), which can be onerous and costly as the magnitude and complexity of, and continual amendments to, those laws and regulations are difficult to predict and the liabilities, costs, obligations and requirements associated with these laws and regulations can be substantial;
- Security, and unexpected changes in laws, regulatory requirements and enforcement;
- Challenges caused by distance, language and cultural differences;
- Difficulties with local operating and market conditions, particularly regarding customs, taxation and labour;
- Potential damage to our brand and reputation due to non-compliance with local laws;
- Currency exchange rate fluctuations;
- Difficulty in recovering trade receivables;
- Inadequate local infrastructure;
- Competition from local players in the segment; and
- Economic and financial conditions, including the stability of credit markets, foreign currency fluctuations and controls, particularly the ability to repatriate funds to India and other countries.

To the extent that our operations are affected by unexpected and adverse economic, regulatory and, social and political conditions in the countries in which we operate, we may experience operational disruptions, loss of assets and personnel and other indirect losses that could materially and adversely affect our business, financial condition and results of operations.

30. Third party industry and statistical data in this Prospectus may be incomplete, incorrect or unreliable.

We have not independently verified data from industry and other publications contained herein and although we believe these sources to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled with regard to other countries. Therefore, discussions of matters relating to India and its economy are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete or unreliable.

31. We do not own any of the properties from which we operate. If we are unable to renew our current leases or if we renew them on terms which are detrimental to our Company, we may suffer a disruption in our operations or increased relocating costs, or both, which could adversely affect our business, results of operations, cash flows and financial condition.

We lease properties for our operations, including our registered office in Mumbai, sourcing office in Coimbatore as well as our warehouse in Mumbai. There is no guarantee that these leases will be renewed or extended once their term is complete. If we are unable to renew or extend our current leases, or if we renew or extend them on terms which are detrimental to us, we may suffer a disruption in our operations or increased relocating costs, or both, which could adversely affect our business, results of operations, cash flows and financial condition. For further details regarding our leased premises, please refer to chapter titled “*Our Business*” beginning on Page 116 of this Prospectus.

32. Insurance coverage obtained by us may not adequately protect us against unforeseen losses.

As per our arrangement with our customer, our company has to bear the product liability only till it reaches the Indian port/ airport, after which, the liability lies with the customer. We maintain an

amount of insurance protection that we consider adequate including Vehicle Insurance Policy and a Comprehensive General Liability Policy which includes bodily injury and property damage liability, personal and advertising injury liability and medical payments. We may not have identified every risk and further may not be insured against every risk because such risks are either uninsurable or not insurable on commercially acceptable terms, including operational risk that may occur and the occurrence of an event that causes losses in excess of the limits specified in our policies, or losses arising from events or risks not covered by insurance policies such as COVID-19 and other pandemics, or due to the same being inadequate, could materially harm our cash flows, financial condition and future results of operations. However, we cannot provide any assurance that our insurance will be sufficient or effective under all circumstances and against all hazards or liabilities to which we may be subject. At present, we have not availed insurance coverage for our office premises. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all.

33. Our Company has entered into certain related party transactions and may continue to do so in the future.

Our Company has entered into few related party transactions with our Promoters, Directors, Promoter Group and group companies over the last three financial years. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to section titled "Financial Statements" beginning on page no. 171 of this Prospectus.

34. In the event there is any delay in the completion of the Issue, there would be a corresponding delay in the completion of the objects/ schedule of implementation of this Issue which would in turn affect our revenues and results of operations.

The funds that we receive would be utilized for the Objects of the Issue as has been stated in the Chapter "Objects of the Issue" on page no. 84 of this Prospectus. The proposed schedule of implementation of the objects of the Issue is based on our management's estimates. If the schedule of implementation is delayed for any other reason whatsoever, including any delay in the completion of the Issue, we may have to revise our business strategies, development and other plans resulting in unprecedented financial mismatch and this may adversely affect our revenues and results of operations.

35. The requirements of being a listed company may strain our resources and impose additional requirements.

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we were not required to incur in the past. We will also be subject to the provisions of the listing agreement signed with the Stock Exchange. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a

timely manner. Failure of our Company to meet the listing requirements of stock exchange, if any, could lead to imposition of penalties, including suspension of trading in shares of the Company.

36. There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lacs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to NSE and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

37. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details regarding our dividend policy, please see “Dividend Policy” on page no. 170 of this Prospectus.

38. Our Company’s operations are geographically dispersed.

Our company has a wide base of operations with locations across state boundaries, there is significant risk of failure of supply lines, communication lines or disruption of efficient management due to instability or location specific actors in different states. We are also exposed to multiplicity of diverse state specific laws, regulation or legislation, if any detrimental regulation or legislation is notified, we may be affected in various ways.

RISKS RELATING TO THE EQUITY SHARES AND THE ISSUE

39. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long term capital gains tax in India at the specified rates depending on certain factors, such as STT is paid, the quantum of gains and any available treaty exemptions. Accordingly, you may be subject to payment of long term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a

domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

40. Any future issuance of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us, including through exercise of employee stock options may dilute your shareholding in our Company, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our Promoters or other significant shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences for us including difficulty in raising debt or equity financing. In addition, any perception by investors that such issuances or sales might occur may also affect the trading price of our Equity Shares. We cannot assure you that we will not offer Equity Shares or that our shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

41. The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares will be disclosed in the issue opening advertisement and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

42. Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority.

There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

43. *We cannot assure you that our equity shares will be listed on the EMERGE platform of NSE Limited in a timely manner or at all, which may restrict your ability to dispose of the equity shares.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. Though we shall make best of our efforts to comply with all applicable regulatory, financial and operational requirements for getting the equity shares proposed to be offered through this Prospectus listed on EMERGE platform of NSE in a time bound manner, yet on account of any change in applicable laws, economic conditions and/or any other reason/s beyond our control, the said shares may not get listed on the EMERGE platform of National Stock Exchange of India Ltd. in a timely manner or at all, which may restrict your ability to dispose of the equity shares. However, even in such circumstances, the company shall stay fully committed to pay such interest and/or refund the full application amount, as may be required in accordance with the applicable regulatory directives.

44. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares is Rs. 93. This price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page no. 90 of this Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation the following;

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

45. *After listing, sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISK FACTORS:***46. The outbreak and after-effects of COVID-19, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition, cash flows and results of operations.***

The outbreak, or threatened outbreak, of any severe communicable disease or pandemic, as seen in the recent outbreak and aftermath of COVID-19, could materially adversely affect overall business sentiment and environment across industries. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty and caused economic slowdown. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines, shelter in place orders, and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding COVID-19 and no government-certified treatment or vaccine is available. A rapid increase in severe cases and deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe.

The spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or that we determine are in the best interests of our employees, customers, vendors and suppliers. If any of our employees are suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or suspend operations at the site location for disinfection. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed. The extent to which COVID-19 further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the coronavirus and the actions taken globally to contain the coronavirus or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely affect our business, financial condition, cash flows and results of operations.

On account of the nationwide lockdown, operations at all of our offices and work sites were suspended. This resulted in a decrease in revenues, particularly during the period of March 22, 2020 to May 03, 2020 on account of government restrictions imposed and additionally on account of cost control measures implemented by our dealers and end-customers. We also experienced disruptions in supply chain and inventory management, as well as delays in new orders and payments. While we resumed our operations in a phased manner at some of our supplier locations with the progressive relaxation of the lockdown and were fully operational by September 2020, we are required to implement additional safety measures, such as, regular temperature checks, regular sanitization, and compulsory use of masks and hand sanitization, and limited workforce. We have monitored and considered the impact of known events arising from the COVID-19 pandemic and follow the required safety protocols and will continue to closely monitor the impact that COVID-19 may have on our business, financial condition, liquidity and results of operations. Adverse effects of the COVID-19 pandemic may also significantly increase the effect of the aforementioned factors affecting our results of operations.

The impact of the pandemic on our business, operations and future financial performance has included and may include the following:

- temporary shutdown of our offices and supplier manufacturing facilities due to government restrictions;
- decrease in sales of our products, particularly in the first half of Fiscal 2021;
- inability to utilize our workforce including because of travel or government restrictions, such as stay at home orders, or illness of our employees due to COVID-19 and associated quarantining requirements, which resulted in a slowdown in our operations;
- disruptions to our supply chain in terms of material sourcing due to temporary closure of the facilities of suppliers, and delivery of finished products due to transportation/ export restrictions;
- delays in completion of existing orders, and if prolonged may negatively impact our cash conversion cycle and ability to convert our backlog order book into cash;
- inability to collect full or partial payments from clients due to deterioration in liquidity, including financial distress experienced by clients;
- potential negative impact on the health of our employees, particularly if a significant number of them are afflicted by COVID-19, resulting in a deterioration in our ability to ensure business continuity during this disruption.

Any resulting financial impact due to the above cannot be reasonably estimated at this time. In addition, we cannot predict the impact that the COVID-19 pandemic will have on our suppliers, vendors, clients and each of their financial conditions; however, any material effect on these parties could adversely impact us. As a result of these uncertainties, the impact may vary significantly from that estimated by our management from time to time, and any action to contain or mitigate such impact, whether government-mandated or opted by us, may not have the anticipated effect or may fail to achieve its intended purpose altogether.

Existing insurance coverage may not provide protection or coverage for any costs that may arise from all such possible events. Further, we generate almost all of our revenue in India. The effects of COVID-19 in India may be of a greater magnitude, scope and duration than those experienced to date in other countries. To the extent that the COVID-19 pandemic adversely affects our business and operations, it may also have the effect of heightening many of the other risks described in this section.

47. Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.

Our business and industry in which we operate is regulated by different laws, rules and regulations framed by the Central and State Government. Please refer to section titled “*Key Industry Regulations and Policies*” on page no. 116 of this Prospectus for details of the laws currently applicable to us. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations. There can be no assurance that our Company will succeed in obtaining all requisite regulatory approvals in the future for our operations or that compliance issues will not be raised in respect of our operations, either of which could have a material adverse effect on our business, financial condition and results of operations.

48. Global economic conditions were unprecedented and challenging and have had, and continue to have, a material adverse impact on the Indian financial markets and the Indian economy in general, and, given the same economic conditions this may, in future, have a material adverse impact on our business and financial performance and may have an impact on the price of the Equity Shares.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

49. Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse impact on our business, financial condition and results of operations

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include customs duties, excise duties, sales tax, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. There can be no assurance that these tax rates/slab will continue in the future. Further, with the Introduction of the Goods and Services Act, tax rates and its implication may have material impact on materials or on our Products. Any changes in these tax rates/slabs could adversely affect our financial condition and results of operations.

50. Political instability or changes in the Government could adversely affect economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company's business could cause its results of operations to suffer. Any significant change in India's economic policies could disrupt business and economic conditions in India generally and the Company's business in particular.

51. Malpractices by some players in the industry affect overall performance of emerging Companies.

The industry in which our Company operates is subject to risk associated with unethical business practices such as unethical marketing, dishonest advertising, questionable pricing practices, inaccurate claims with regards to safety and efficacy of the product etc. Consumers' attitude toward the industry today is dominated by a sense of mistrust, paving a way for regulators for stricter entry barriers and introduction of code of conducts; making the entire industry environment regulated and controlled. *Malpractices* by some players in the industry affects the overall performance of the emerging Companies like our as the industry norms are applicable to all at parity. Any unethical business practices by any industry player or intermediary may impact our business and results of operations.

52. The occurrence of natural or man-made disasters or outbreak of global pandemics, such as the COVID-19 pandemic, could adversely affect our results of operations, cash flows and financial condition.

Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business. The occurrence of natural disasters, including prolonged spells of abnormal rainfall, cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, infectious disease outbreaks such as the COVID-19 pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows

or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

53. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Prospectus.*

As stated in the reports of the Auditor included in this Prospectus under section titled “Financial Statements” beginning on page no. 171 of this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus. Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

54. *We have not prepared, and currently do not intend to prepare, our financial statements in accordance with the International Financial Reporting Standards (“IFRS”). Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.*

Public companies in India, including us, may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for convergence with IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 (the “IFRS Convergence Note”). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 35 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined. Our financial condition, results of operations, cash flows or changes in shareholders’ equity may appear materially different under IFRS than under Indian GAAP or our adoption of converged Indian Accounting Standards may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period and in the corresponding (restated) period in the comparative Fiscal/period.

55. *Any downgrading of India’s debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could

have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

56. You will not be able to sell immediately on the Indian Stock Exchange any of the Equity Shares you purchase in the Issue until the Issue receives appropriate trading permissions.

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with section 40 of the Companies Act, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

57. Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.

Our Articles of Association, the composition of our Board of Directors and Indian laws governing our corporate affairs and procedures, directors' fiduciary duties and liabilities, and shareholders' rights, may differ from those that would apply to companies incorporated in other jurisdictions. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholders of a corporation in another jurisdiction.

58. Investors may not be able to enforce a judgment of a foreign court against us.

Our Company is incorporated under the laws of India. Our Company's assets are located in India and our Managing Director and KMP are residents of India and substantially all of our assets and the assets of the aforementioned persons are located in India. As a result, it may not be possible for investors outside of India to effect service of process on us or such persons from their respective jurisdictions outside of India, or to enforce against them judgments obtained in courts outside of India predicated upon our civil liabilities of such Director/ KMP under the laws other than Indian Law. Moreover, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce judgements if it viewed the amount of damages excessive or inconsistent with Indian public policy. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the civil code. Recognition and enforcement of foreign judgments is provided for under Section 13 of the Code of Civil Procedure, 1908, as amended, on a statutory basis. Section 13 of the Code of Civil Procedure, 1908, as amended, provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except:

- (i) where the judgment has not been pronounced by a court of competent jurisdiction;
- (ii) where the judgment has not been given on the merits of the case;
- (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the law of India in cases to which such law is applicable;
- (iv) where the proceedings in which the judgment was obtained were opposed to natural justice;

- (v) where the judgment has been obtained by fraud; and
- (vi) where the judgment sustains a claim founded on a breach of any law then in force in India.

Under Section 14 of the Code of Civil Procedure, 1908, as amended, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record.

However, such presumption maybe displaced by proving that the court did not have jurisdiction. Section 44A of the Code of Civil Procedure, 1908, as amended, provides that where a foreign judgment has been rendered by a superior court, within the meaning of that Section, in any country or territory outside of India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the Code of Civil Procedure, 1908, as amended, is applicable only to monetary decrees not being of same nature as amounts payable in respect of taxes, other charges of a like nature, or of a fine or other penalties.

Details of Market Making Arrangement for the Issue

Our Company and the Lead Manager has entered into Market Making Agreement dated June 22, 2021 with the following Market Maker, to fulfill the obligations of Market Making for this Issue:

Name	Rikhav Securities Limited
Correspondence Address:	B, Matruchhaya, 4 th floor, S.N. Road, Mulund (W), Mumbai- 80
Tel No.:	022-25935353
Fax No.	022-25935300
E-mail:	info@rikhav.net
Website:	www.rikhav.net
Contact Person:	Mr. Hitesh Lakhani
SEBI Registration No.:	INZ000157737

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, 2018, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- 1) The Market Maker(s) (individually or jointly) shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the

Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).

- 2) The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of SME Platform of NSE and SEBI from time to time.
- 3) The minimum depth of the quote shall be Rs.1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that script provided that he sells his entire holding in that script in one lot along with a declaration to the effect to the selling broker.
- 4) The Market Maker shall not sell in lots less than the minimum contract size allowed for trading on the SME Platform (in this case currently the minimum trading lot size is 1200 equity shares; however the same may be changed by the SME Platform of NSE from time to time).
- 5) After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our company reaches to 25% of Issue Size (Including the 1200 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% of Issue Size would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of Market Maker in our Company reduces to 24% of Issue Size, the Market Maker will resume providing 2 way quotes.
- 6) There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, NSE may intimate the same to SEBI after due verification.
- 7) Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
- 8) There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- 9) On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
- 10) The Marker maker may also be present in the opening call auction, but there is no obligation on him to do so.
- 11) There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- 12) The Market Maker(s) shall have the right to terminate said arrangement by giving a six months' notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s) and execute a fresh arrangement.

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice

period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018, as amended. Further our Company and the Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our office from 11.00 a.m. to 5.00 p.m. on working days.

- 13) **Risk containment measures and monitoring for Market Makers:** NSE EMERGE SME Exchange will have all margins, which are applicable on the NSE main board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
- 14) **Punitive Action in case of default by Market Makers:** NSE EMERGE SME Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. BASIS OF ESTIMATION

The incremental working capital requirements are based on historical Company data and estimation of the future requirements based on the orders executed in Financial Year 2019-20 and to be executed in the Financial Year 2020-21 and Financial Year 2021-22 considering the growth in activities of our Company.

Assumption for future working capital requirements:

(No. of Days)

Particulars	Holding level as on March 31, 2020 (Restated)	Holding level as on March 31, 2021 (Restated)	Holding level as on March 31, 2022 (Estimated)
Current Assets			
Inventories	1	5	1
Trade Receivables	2	27	33
Current Liabilities			
Trade Payables	64	117	107

Justification for “Holding Period” levels:

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories	Holding level of inventories was 1 day during the Financial Year 2019-20 and 5 days in Financial Year 2020-21. On the basis of estimation and projection, the holding period is assumed to be 1 day in Financial Year 2021-22, taking into consideration the general availability of vessel at the ports depending on which the finished products can be transported in a timely manner or would have to be stored temporarily at the warehouse.
Trade Receivables	Receivables realization period was 2 days in Financial Year 2019-20 since GST refund was pending and thus, we had to avail an advance from our customer. Taking into consideration that the GST refunds are now being processed in a timely manner, the realization period for debtors is back to the normal practice, i.e. 27 days in Financial Year 2020-21 and is expected to be 33 days for the Financial Year 2021-22.
Assets- Current Liabilities	
Trade Payables	The credit period in Financial Year 2019-20 was 64 days and increased to 117 days during Financial Year 2020-21 due to the impact of COVID 19 pandemic. It is estimated to be 107 days for Financial Year 2021-22, due to the continued impact of the pandemic which has caused a delay in orders and thus the supplier realization period is expected to be extended based on the financial estimation and projections prepared by the management.

The Board at its meeting held on September 16, 2021, approved the plan of utilization of Issue Proceeds as stated hereinabove. This amount is based on our management’s current estimates of the amounts to be utilized towards the respective objects. However, the actual deployment of funds will depend on a number of factors affecting our results of operation, financial condition and access to capital. Further, in the event that there is a surplus under any head, such amount shall be utilized towards general corporate purposes.

b) General Corporate Purposes

Our Company intends to deploy the balance Net Proceeds aggregating to Rs. 43.00 Lakhs for General Corporate Purposes as decided by our board, we have flexibility in applying the remaining proceeds after meeting issue expenses for general corporate purpose including but not restricted to, meeting operating expenses, strengthening of our business development and marketing capabilities, meeting exigencies which the Company in the ordinary course of business may not foresee or any other purpose as approved by our board of directors, subject to compliance with the necessary provisions of the Companies Act.

Issue Expenses

The total expenses of the Issue are estimated to be approximately Rs. 42.00 lakhs. The estimated Issue expenses are as follows:

Activity Expense	Amount ⁽¹⁾ (Rs. in Lakhs)	Percentage of Total Estimated Issue Expenses ⁽¹⁾	Percentage of Issue Size ⁽¹⁾
Underwriting commission, brokerage and selling commission (including Commission/ processing fees for SCSBs, Sponsor Bank, Members of the Syndicate, Registered Brokers, RTAs and CDPs ⁽²⁾⁽³⁾ , etc)	1.00	2.38%	0.23%
Issue relating expenses such as fees to Lead manager Fixed Fee, Registrar to the Issue Legal Advisors, Auditors, Paper Advertisements and other expenses incurred/ to be incurred including promotional expenses	30.00	71.42%	7.00%
Listing fees, Stock Exchange processing/ listing fees, software fees, Depositories' fees, other regulatory expenses and sundry expenses.	11.00	26.19%	2.57%
Total estimated Issue expenses	42.00	100%	9.80%

Note: Of the above issue expenses, our Company has already incurred Rs. 20.16 Lakhs towards Issue expenses out of internal accruals as verified and certified by Rajendra & Co., Chartered Accountants vide their Certificate dated June 22, 2021.

⁽¹⁾ Issue expenses excluding applicable taxes, where applicable. Issue expenses are estimates and are subject to change.

⁽²⁾ Includes Selling commission payable to registered broker, SCSBs, RTAs, CDPs on the portion directly procured from Retail Individual Applicants and Non – Institutional Applicants, would be 0.15 % on the allotment amount on the application wherein shares are allotted

⁽³⁾ Includes commission/Processing fees of Rs. 10 per valid application forms for SCSBs. In case the total processing fees payable to SCSBs exceeds Rs. 1 lakh, then the amount payable to SCSBs would be proportionately distributed based on the number of valid applications such that the total Processing Fees payable does not exceed Rs. 1 lakh

Schedule of Implementation & Deployment of Funds

Our Company plans to deploy the funds towards the above stated Objects during FY 2021-22, depending upon various factors including the actual timing of the completion of the Issue and the receipt of the Net Proceeds.

In the event that estimated utilization out of the funds in any given financial year is not completely met, the same shall be utilized in the next financial year. The proposed year wise break up of deployment of funds and Schedule of Implementation of Net Issue Proceeds is as under:

S.No.	Particulars	Amount to be deployed and utilized in FY 2021-2022
1	Working Capital Requirements	343.54
2	General Corporate Purposes	43.00
	Net Proceeds from the Issue	386.54

Deployment of Funds- Cash Flow Statement in case of Promoters' Contribution brought prior to the public issue and utilized

On June 29, 2021, Mr. Nipul Keniya has paid differential amount of Rs. 3 per Equity Share for 4150 Equity Shares aggregating to Rs. 12,450 towards promoter's contribution, pursuant to proviso of sub regulation (b) of Regulation 237(1) of SEBI (ICDR) Regulations, 2018. Further, the same has been verified and certified by Rajendra & Co., Chartered Accountants *vide* their Certificate dated September 16, 2021.

The above has been kept in a separate bank account and is not utilised towards means of finance for the stated objects and has not already been deployed by the issuer, thus the requirement of a cash flow statement from the statutory auditor, disclosing the use of such funds received as Promoters' contribution is not applicable.

Appraisal

None of the Objects have been appraised by any bank or financial institution or any other independent third party organization. The funding requirements of our Company and the deployment of the proceeds of the Issue are currently based on available quotations and management estimates. SECTION V – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this section includes extracts from publicly available information, data and statistics and has been derived from various government publications and industry sources. Neither we nor any other person connected with the Issue have verified this information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and, accordingly, investment decisions should not be based on such information.

Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect and, accordingly, investment decisions should not be based on such information. You should read the entire Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Statements” and related notes beginning on page 25 and 171 Prospectus.

Our Company is a full-service provider of manufacturing of engineered goods and supply chain management services. We also offer efficient services in advanced engineering, 3D scanning, rapid prototyping, flow simulation, project management and quality management. Our primary focus remains to focus on and benefit from the “Make in India” initiative by the GoI by aiding in developing supplier capabilities in India.

Engineering is by far the largest segment in the Indian industry, employing approximately four million skilled and semi-skilled workers. The engineering sector has witnessed tremendous growth, led by significant investment in power projects and infrastructure development.

Supply Chain Management (SCM) has emerged as one of the most powerful business improvement tools. Suppliers, manufacturers, distributors, retailers and a host of service organizations have discovered that they must either transform their operations and tactics or be beaten by competition from more aggressive supply networks.

Worldwide, organizations have formed networks for sourcing raw materials, manufacturing products or creating services, storing and distributing the goods and ultimately delivering the products and services to customers and consumers. The objectives of these networks are to encourage product and service innovation with a view to satisfy the final customer. These organizations see the value of integrating systems and supply chain operations across the full range of component function. Business strategies are getting intrinsically connected with supply chain and information strategies. Leaders are using advanced supply chain and data systems to harmonize organizational efforts and achieve very ambitious long-term strategic goals. Leading Indian companies are forging future supply and demand networks that create an integrated delivery system, appearing seamless to the final consumer. Indian companies are moving towards an integrated system of supply, linked directly to the current demands in the chosen markets, so that efficiency savings are accrued and shared across the network.

SCM influences about 64% of all costs in a manufacturing company. American companies had spent 10 % of their GDP on Supply Chain-related activities in 1997. In Europe supply chain-related costs hover around 55-65% of total turnover. In India such costs would be around 70-80% of turnover. From these figures one can get a fair idea of the potential for savings and at the same time improving

competitiveness, if supply chain-related activities are organized and managed strategically while improving process efficiency and enhancing effectiveness of the systems.

MACRO ECONOMIC OVERVIEW - GLOBAL

The global economy is recovering, and is expected to expand by 5.6 percent in 2021 and 4.3 percent in 2022. The strength of the near term recovery is, to a large extent, attributable to a few major economies, such as the United States and China. In many other economies, the pickup is projected to be less robust than previously envisioned, partly due to the continued spread of the virus and slow vaccine distribution. On aggregate, the global forecast has been upgraded as a result of the diminishing economic impact of subsequent waves of COVID-19, faster-than-expected pace of vaccination in many advanced economies, and additional fiscal relief in the United States. U.S. output is rebounding particularly sharply, fueled by substantial fiscal support, and it is now expected to exceed its pre-pandemic projection by the end of this year. Growth in other major advanced economies is also firming, albeit to a lesser extent due in part to the resurgence of COVID-19 caseloads.

Many countries will take a prolonged period to regain their pre-COVID-19 levels of activity, and a return to pre-pandemic output trends may become unattainable in the absence of major reform efforts (World Bank 2020a; World Bank 2021a). The erosion of skills from lost education and employment are likely to reduce productivity, as will the smaller stock of physical capital resulting from last year's sharp decline in investment. Debt burdens and financial vulnerabilities have risen in many parts of the global economy, which will make the recovery susceptible to financial market stress. This is expected to be accompanied by a gradual withdrawal of macroeconomic policy support over the forecast horizon. The evolution of the pandemic and the pace of vaccination will be the most crucial factor driving the outlook.

Following a sharp slowdown last year, growth among low-income countries (LICs) is expected to pick up to an average of 3.8 percent a year in 2021-22, still lower than its 2010-19 average pace and below January projections. Fragile and conflict-affected LICs are expected to face a particularly dire outlook, with growth of 2.5 percent in 2021-22. In about 60 percent of LICs and 75 percent of fragile and conflict-affected LICs, last year's per capita income losses will not be fully unwound by 2022. Risks to the growth outlook are tilted to the downside and include further impediments to widescale vaccinations, debt distress, worsening food insecurity, and a rise in violence. With tens of millions of people expected to have slipped into extreme poverty last year, the legacies of the pandemic are set to weigh on human and physical capital accumulation, income growth, and poverty reduction for years to come.

Global trade collapsed by nearly 16 percent at the height of the COVID-19-induced global recession, in the second quarter of 2020, as pandemic-related policies disrupted shipping, international travel, and domestic economic activity. The subsequent rebound, however, was swift, especially for goods trade, and much faster than after the 2007-2009 global financial crisis. The recovery in global trade offers an opportunity for emerging market and developing economies (EMDEs) to jump-start their still-weak recovery from the pandemic. To seize this opportunity after a decade of slow trade growth, however, many countries may need to implement policies to lower the cost of trade.

The recovery from the COVID-19-induced global recession offers an opportunity to revive trade growth as the global trade network is reshaped. The pandemic is likely to accelerate changes in supply-chains that had already begun, including by further regionalizing production networks and increasing digitalization. Multinational corporations operating in EMDEs have already increased the use of digital technologies and enhanced diversification of suppliers and production sites to increase their resilience to supply chain shocks.

The world economy is experiencing an exceptionally strong but highly uneven recovery. Global growth is set to reach 5.6 percent in 2021—its strongest post-recession pace in 80 years—in part underpinned by steady but highly unequal vaccine access. Growth is concentrated in a few major economies, with most emerging market and developing economies (EMDEs) lagging behind: while about 90 percent of advanced economies are expected to regain their pre-pandemic per capita income levels by 2022, only about one-third of EMDEs are expected to do so. In low-income countries, the effects of the pandemic are reversing earlier gains in poverty reduction and compounding food insecurity and other long-standing challenges. The global outlook remains highly uncertain, with major risks around the path of the pandemic and the possibility of financial stress amid large debt loads. Controlling the pandemic at the global level will require more equitable vaccine distribution, especially for low-income countries.

As the global economy rebounds from the COVID-19- induced global recession, the accompanying strength in global trade offers an opportunity to jumpstart the recovery in EMDEs. Lowering cross-border trade costs could help revive trade growth. Trade costs are high: on average, they double the cost of internationally traded goods over domestic goods.

Fault Lines Widen in the Global Recovery

The global economy is projected to grow 6.0 percent in 2021 and 4.9 percent in 2022. The 2021 global forecast is unchanged from the April 2021 WEO, but with offsetting revisions. Prospects for emerging market and developing economies have been marked down for 2021, especially for Emerging Asia. By contrast, the forecast for advanced economies is revised up. These revisions reflect pandemic developments and changes in policy support. The 0.5 percentage-point upgrade for 2022 derives largely from the forecast upgrade for advanced economies, particularly the United States, reflecting the anticipated legislation of additional fiscal support in the second half of 2021 and improved health metrics more broadly across the group.

The pandemic has taken a turn for the worse in some parts of the world since the release of the April 2021 WEO. Meanwhile, a speedy vaccine rollout has helped bring down caseloads quickly in other regions. Economies are diverging even further, influenced by differences in the pace of vaccine rollout and policy support. However, smooth and durable recoveries are not assured even in places where infections are seemingly under control.

- **Advanced economies:** Growth prospects have been revised up for 2021–22 from expected further normalization in the second half of 2021 as vaccine rollout proceeds and with additional fiscal support
- **Emerging market and developing economies:** The forecast for the group is revised down 0.4 percentage point in 2021 compared with the April WEO, largely because of growth markdowns for emerging Asian economies. Growth prospects in India have been downgraded following the severe second COVID wave during March–May and expected slow recovery in confidence from that setback. Similar dynamics are at work in the ASEAN-5 group (Indonesia, Malaysia, Philippines, Thailand, Vietnam), where recent infection waves are causing a drag on activity.

- The 2021 growth forecast for the low-income developing country group is marked down 0.4 percentage point, with the slow rollout of vaccines as the main factor weighing on the recovery (partially offset by stronger external demand from advanced economies).

Global trade: Despite near-term supply disruptions, global trade volumes are projected to expand 9.7 percent in 2021, moderating to 7.0 percent in 2022.

Gross Domestic Product (GDP) Growth

Overall, fiscal deficits are projected at 9.9 percent of GDP in 2021, down 0.4 percentage points of GDP from the April 2021 WEO due to greater backloading of US stimulus programs, which more than offset additional COVID-19 related support in other AEs. Advanced economy debt is projected at 122.5 percent of GDP at end-2021. Future fiscal action should be anchored by credible medium-term strategies that rebuild fiscal buffers once the recovery is underway. In fact, some countries have announced medium-term plans while maintaining current support (for instance, Canada, United Kingdom).

In emerging market economies, the projected fiscal deficit for 2021 is 7.1 percent of GDP (0.5 percentage point smaller than in the April 2021 WEO). For some countries, the deficit has been lowered based on fiscal outturns in the first part of the year or growth revisions (China, South Africa). In others, additional fiscal measures have been proposed to mitigate the economic consequences of recurring infection waves (Brazil, India). Government debt is projected to rise to 65.1 percent in 2021, primarily due to China. Interest rate hikes in some countries to prevent inflation will likely lead to less fiscal policy space to support the economy. Policies should be embedded in medium-term fiscal frameworks. Those with depleted space and increased fiscal risk should give added weight to preventing disruptive debt dynamics. Countries with credible fiscal rules may be able to pursue more gradual adjustments.

In low income developing countries (LICDs), the overall fiscal deficit in 2021 was revised up by 0.3 percentage points from the April 2021 WEO, mainly because of the reemergence of fuel subsidies as well as the additional COVID-19 and security related support in Nigeria. Still, at 5.2 percent of GDP, the overall fiscal deficit remains well below that of advanced and emerging market economies, reflecting financing constraints— about 60 percent of LICDs are assessed to be at high risk of or in debt distress. The public debt-to-GDP ratio for 2021 is projected at 48.5 percent. Several LICDs have announced an intention to restructure their debts and some have sought debt relief under the G20 Common Framework (Chad, Ethiopia, and Zambia). Once the recovery is firm, achieving debt sustainability while pursuing the United Nations Sustainable Development Goals will require raising domestic revenues, improving spending efficiency, developing medium-term fiscal frameworks, and undertaking structural reforms to facilitate private sector activity.

MACROECONOMIC OVERVIEW - INDIA

Macroeconomic Overview of India Gross Domestic Product (GDP) Growth and Outlook

Amid coronavirus pandemic, India's gross domestic product (GDP) grew at 1.6 per cent in the January-March quarter of fiscal year 2020-21, but witnessed a contraction of 7.3 per cent for the entire fiscal year. This is the first full-year contraction in the Indian economy in the last four decades since 1979-80, when GDP had shrunk by 5.2 per cent. This is also the second straight quarter of expansion since India exited a rare recession.

Real GDP or Gross Domestic Product (GDP) at Constant (2011-12) Prices in the year 2020-21 is now estimated to attain a level of ₹135.13 trillion, as against the First Revised Estimate of GDP for the year 2019-20 of ₹145.69 trillion, released on 29th January 2021. The growth in GDP during 2020-21 is estimated at -7.3 per cent as compared to 4.0 per cent in 2019-20," said Ministry of Statistics & Programme Implementation in a statement.

The Indian economy was negatively impacted by an unprecedented health crisis in 2020-21 with the highly contagious corona virus (Covid-19) spreading across the country. In response to the pandemic, Government has taken several proactive preventive and mitigating measures starting with progressive tightening of international travel, issue of advisories for the members of the public, setting up quarantine facilities, contact tracing of persons infected by the virus and various social distancing measures.

An already-slowng Indian economy has been derailed from its growth track after a stringent shutdown was imposed in March to halt the spread of Covid-19. India's GDP is expected to contract by 10.3% in FY21 – for the first time in four decades. Due to Covid-19, the GDP of Q1 of FY21 GDP declined by 23.9% at INR 26,895 Cr as compared to INR 35,353 Cr for the same period last year (Q1 FY20). The Private Final Consumption declined by 24% in Q1 FY21 as compared to Q1 FY20 and the Gross Final Capital Formation reduced by 48% for the same tenure.

Strong Growth Path

The government has taken several measures to revive the economy and to return to a normal to high growth trajectory. As the monetary and fiscal stimuli work their way through, India can expect an economic turnaround soon. In addressing the current slowdown, India has several advantages and comforting factors including the following:

- **Aatmanirbhar Bharat Abhiyan:** Prime Minister Narendra Modi on May 12, 2020 announced the Aatmanirbhar Bharat Abhiyan which combined relief, policy reforms and fiscal and monetary measures to help businesses and individuals to cope with the situation created by the pandemic and helps transform India into a self-reliant economy.
- **Preferred Destination for Foreign Investment:** Lately, India has become an attractive destination for foreign investment owing to its large and rapid growing consumer market in addition to a developed commercial banking network, availability of skilled manpower and a package of fiscal incentives for foreign investors.
- **Strong and Diversified Industrial and Infrastructural Base:** India has established a strong and diversified manufacturing base for the production of a wide variety of basic and capital goods to meet the requirements of various sectors; and systematically rolled out a public-private partnership (PPP) programme for the delivery of high-priority public utilities and infrastructure.
- **Burgeoning Foreign Exchange (Forex) Reserves:** India's foreign exchange reserves (currently USD 500 Bn, the highest ever) provide confidence in the country's ability to manage the balance of payments.
- **Demographic Dividend:** Presently, India is one of the youngest nations in the world with more than 62% of its population in the working age group (15-59 years), and more than 54% of its total population below 25 years of age. Its population pyramid is expected to bulge around the 15-59 age groups over the next decade. This poses a formidable challenge as well as a huge opportunity.

The way forward is too uncertain and it is not possible to have a precise road map for the foreseeable future. However, given India's strong fundamentals and a clear roadmap to maintain the growth trajectory, the country will remain at the forefront of global economic growth.

Indian Economy Growth Rate & Statistics

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Market size

India's real gross domestic product (GDP) at current prices stood at Rs. 135.13 lakh crore (US\$ 1.82 trillion) in FY21, as per the provisional estimates of annual national income for 2020-21.

India is the fourth-largest unicorn base in the world with over 21 unicorns collectively valued at US\$ 73.2 billion, as per the Hurun Global Unicorn List. By 2025, India is expected to have ~100 unicorns by 2025 and will create ~1.1 million direct jobs according to the Nasscom-Zinnov report 'Indian Tech Start-up'. India needs to increase its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030's, for productivity and economic growth according to McKinsey Global Institute. Net employment rate needs to grow by 1.5% per year from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030.

According to data from the RBI, as of the week ended on June 04, 2021, the foreign exchange reserves in India increased by US\$ 6.842 billion to reach US\$ 605 billion.

Recent Developments

With an improvement in the economic scenario, there have been investments across various sectors of the economy. Private Equity - Venture Capital (PE-VC) sector recorded investments worth US\$ 20 billion in the first five months of 2021, registering a 2x growth in value compared with the same period in 2020. Some of the important recent developments in Indian economy are as follows:

- Merchandise exports stood at US\$ 62.89 billion between April 2021 and May 2021, while imports touched US\$ 84.27 billion. The estimated value of service exports and imports between April 2021 and May 2021 stood at US\$ 35.39 billion and US\$ 19.86 billion, respectively.
- In May 2021, the Manufacturing Purchasing Managers' Index (PMI) in India stood at 50.8.
- Gross GST collections stood at Rs. 141,384 crore (US\$ 19.41 billion) in April 2021.
- Cumulative FDI equity inflows in India stood at US\$ 763.58 billion between April 2000 and March 2021. Foreign Direct Investment (FDI) inflows in India stood at US\$ 6.24 billion in April 2021, registering an increase of 38% YoY.
- India's Index of Industrial Production (IIP) for April 2021 stood at 126.6 against 143.4 for March 2021.
- Consumer Food Price Index (CFPI) – Combined inflation was 5.01 in May 2021 against 1.96 in April 2021.
- Consumer Price Index (CPI) – Combined inflation was 6.30 in May 2021 against 4.23 in April 2021.
- In June 2021, foreign portfolio investors (FPIs) turned net buyers by investing Rs. 12,714 crore (US\$ 1.71 billion) into the Indian markets. According to depositories data, between June 1, 2021 and June 25, 2021, FPIs invested Rs. 15,282 crore (US\$ 2.06 billion) in equities.

Government Initiatives

The first Union Budget of the third decade of 21st century was presented by Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman in the Parliament on February 1, 2020. The budget aimed at energising the Indian economy through a combination of short-term, medium-term and long-term measures.

In the Union Budget 2021-22, capital expenditure for FY22 is likely to increase by 34.5% at Rs. 5.5 lakh crore (US\$ 75.81 billion) over FY21 (BE) to boost the economy.

Increased government expenditure is expected to attract private investments, with production-linked incentive scheme providing excellent opportunities. Consistently proactive, graded and measured policy support is anticipated to boost the Indian economy.

In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs. 18,100 crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs. 45,000 crore (US\$ 6.07 billion).

The Union Cabinet approved the production linked incentive (PLI) scheme for white goods (air conditioners and LED lights) with a budgetary outlay of Rs. 6,238 crore (US\$ 848.96 million) and the 'National Programme on High Efficiency Solar PV (Photo Voltic) Modules' with an outlay of Rs. 4,500 crore US\$ 612.43 million).

In June 2021, the RBI (Reserve Bank of India) announced that the investment limit for FPI (foreign portfolio investors) in the State Development Loans (SDLs) and government securities (G-secs) would persist unaffected at 2% and 6%, respectively, in FY22.

To boost the overall audit quality, transparency and add value to businesses, in April 2021, the RBI issued a notice on new norms to appoint statutory and central auditors for commercial banks, large urban co-operatives and large non-banks and housing finance firms.

In May 2021, the Government of India has allocated Rs. 2,250 crore (US\$ 306.80 million) for development of the horticulture sector in 2021-22. In November 2020, the Government of India announced Rs. 2.65 lakh crore (US\$ 36 billion) stimulus package to generate job opportunities and provide liquidity support to various sectors such as tourism, aviation, construction and housing. Also, India's cabinet approved the production-linked incentives (PLI) scheme to provide ~Rs. 2 trillion (US\$ 27 billion) over five years to create jobs and boost production in the country.

Numerous foreign companies are setting up their facilities in India on account of various Government initiatives like Make in India and Digital India. Mr. Narendra Modi, Prime Minister of India, launched Make in India initiative with an aim to boost country's manufacturing sector and increase purchasing power of an average Indian consumer, which would further drive demand and spur development, thus benefiting investors. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Some of the recent initiatives and developments undertaken by the Government are listed below:

- In June 2021, RBI Governor, Mr. Shaktikanta Das announced the policy repo rate unchanged at 4%. He also announced various measures including Rs. 15,000 crore (US\$ 2.05 billion) liquidity support to contact-intensive sectors such as tourism and hospitality.
- In June 2021, Finance Ministers of G-7 countries, including the US, the UK, Japan, Italy, Germany, France and Canada, attained a historic contract on taxing multinational firms as per which the minimum global tax rate would be at least 15%. The move is expected to benefit India to increase foreign direct investments in the country.
- In June 2021, the Indian government signed a US\$ 32 million loan with World Bank for improving healthcare services in Mizoram.
- In May 2021, the Government of India (GoI) and European Investment Bank (EIB) signed the finance contract for second tranche of EUR 150 million (US\$ 182.30 million) for Pune Metro Rail project.
- According to an official source, as of June 2021, 29 companies including global electronics manufacturing organisations, such as companies Foxconn, Sanmina SCI, Flex, Jabil Circuit, have registered under the Rs. 12,195 crore (US\$ 1.64 billion) production linked incentive scheme for the telecom sector.
- In May 2021, Union Cabinet has approved the signing of memorandum of understanding (MoU) on migration and mobility partnership between the Government of India, the United Kingdom of Great Britain and Northern Ireland.
- In April 2021, Minister for Railways and Commerce & Industry and Consumer Affairs, Food & Public Distribution, Mr. Piyush Goyal, launched 'DGFT Trade Facilitation' app to provide instant access to exporters/importers anytime and anywhere.
- In April 2021, Dr. Ahmed Abdul Rahman AlBanna, Ambassador of the UAE to India and Founding Patron of IFIICC, stated that trilateral trade between India, the UAE and Israel is expected to reach US\$ 110 billion by 2030.

- India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- The Government of India is going to increase public health spending to 2.5% of the GDP by 2025.
- For implementation of Agriculture Export Policy, Government approved an outlay Rs. 2.068 billion (US\$ 29.59 million) for 2019, aimed at doubling farmers income by 2022.

Road Ahead

As indicated by provisional estimates released by the National Statistical Office (NSO), India posted a V-shaped recovery in the second half of FY21. As per these estimates, India registered an increase of 1.1% in the second half of FY21; this was driven by the gradual and phased unlocking of industrial activities, increased investments and growth in government expenditure.

As per the Reserve Bank of India's (RBI) estimates, India's real GDP growth is projected at 9.5% in FY22; this includes 18.5% increase in the first quarter of FY22; 7.9% growth in the second quarter of FY22; 7.2% rise in the third quarter of FY22 and 6.6% growth in the fourth quarter of FY22.

India is focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030, which is currently 30% and have plans to increase its renewable energy capacity from to 175 gigawatt (GW) by 2022. In line with this, in May 2021, India, along with the UK, jointly launched a 'Roadmap 2030' to collaborate and combat climate change by 2030.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behaviour and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

GLOBAL MANUFACTURING SECTOR

World Manufacturing Growth

Global manufacturing output growth has registered a sharp decline of 6.0 per cent in the first quarter of 2020 due to economic lock-down measures motivated by COVID-19 pan-demic. The current economic downturn is the first of such magnitude since the financial crisis of 2008/2009, when manufacturing output fell by 7.1 per cent in the fourth quarter of 2008.

The current decline comes at a time when world manufacturing production is already experiencing a gradual decline, indicating an over-all economic slowdown throughout 2019. The global outbreak of COVID-19 has further reinforced the downward trend in the first quarter of 2020. The majority of countries halted their economic activities from March 2020 onwards, with only a few countries including China going into lockdown sooner. Consequently, a massive decline of manufacturing output is expected in the forthcoming period in industrialized economies and in most developing countries. Industrialized economies, which began closing businesses at the end of the first quarter, reported a moderate level of contraction. Manufacturing production in these countries dropped by 2.5 per cent compared to the first quarter of 2019. Manufacturing output was already declining in this country group following a period of sustained economic growth which lasted for more than three years.

North America's manufacturing output fell by 2.4 per cent in the first quarter of 2020. In addition to the COVID19 outbreak, continued trade uncertainty and prevailing tariffs, especially between the U.S. and China, further contributed to this decrease. The manufacturing output of Europe's industrialized economies dropped by 4.4 per cent for similar reasons as well on a year-over-year comparison, while East Asia's manufacturing output remained almost the same, primarily due to the recent solid performance of the Republic of Korea and Taiwan, Province of China.

China, the world's largest manufacturer, was hit hard by COVID-19 in the first quarter of 2020, registering an unprecedented decline of manufacturing output. According to seasonally adjusted index numbers, China's manufacturing output plunged by 14.1 per cent, mainly because of the COVID-19 lockdown measures. A slowdown in manufacturing growth figures was, however, also observed in China in 2019. Manufacturing production of developing and emerging industrial economies (excluding China), which had not yet been affected by COVID19, recorded a 1.8 per cent decrease in the first quarter of 2020. In previous quarters, this country group's growth performance was characterized by sluggish growth after a steady decline in growth throughout 2018.

Developing economies in Asia and the Pacific, which until recently were deemed fast growing economies, reported a negative year-over-year growth rate of 2.5 per cent in the first quarter of 2020.

Viet Nam was among the very few countries in the region that maintained a high manufacturing growth rate at 7.9 per cent, whereas India's manufacturing output dropped further by 5.4 per cent. Latin America witnessed a 2.8 per cent reduction of manufacturing output compared to the first quarter of 2019. Ecuador recorded a growth rate of 1.4 per cent, while Argentina's, Mexico's and Brazil's outputs shrank by 6.3 percent, 3.4 per cent and 2.2 per cent, respectively. Estimates based on limited data on Africa's manufacturing output indicated a slight increase of manufacturing output by 0.2 per cent for the first quarter of 2020; in the previous quarter, the continent's growth rate was 1.0 per cent. In the quarters before that, this country group registered a quarterly year-over-year output growth of around 2 per cent. Other developing economies achieved a stable year-over-year manufacturing output growth rate of 1.7 per cent in the first quarter of 2020. Turkey, the largest manufacturer in this country group, showed strong output growth at 4.7 per cent in the first quarter of 2020; in the previous quarter, the country's manufacturing output growth rate was 6.4 per cent, following a year of massive reductions in output.

The figures clearly react that global manufacturing production has experienced an external shock (i.e. the COVID19 pandemic). Other risks and uncertainties, including higher trade barriers and regulations as well as the Brexit, which played a key role at the end of 2019, have become secondary. As manufacturing is considered an engine of overall economic growth, the global slump in manufacturing production has serious impacts on the world economy. COVID-19 forced governments around the world to respond immediately to contain the pandemic and to support their local economies. The full extent of the containment measures' economic impact on countries world-wide remains to be seen. A redistribution of global manufacturing production might evolve as industrialized countries, in particular, realized their strong dependence on imports due to the outsourcing of production activities in the past.

Industrialized economies

Industrialized countries reported an annual output growth of 19.2 per cent in the second quarter of 2021, following a subdued increase of 1.8 per cent in the previous quarter. Detailed figures provide further insights into different industrialized regions of the world.

In a year-over-year comparison, Northern America's manufacturing output increased by 16.8 per cent in the second quarter of 2021, following a slight drop by 0.2 per cent in the previous quarter. This development is primarily linked to the manufacturing activity in the United States, the largest economy in this group, where output grew by 16.5 per cent in the current quarter.

The manufacturing output of industrialized economies in the Asia & Pacific region increased by 17.0 per cent in the second quarter of 2021, already exceeding pre-pandemic production levels in the previous quarter. In the second quarter of 2021, Japan registered its first output growth (19.8 per cent) since the beginning of 2019. Furthermore, Taiwan, Province of China (16.8 per cent), Singapore (17.4 per cent) and the Republic of Korea (12.2 per cent) reported an increase in manufacturing output over the last three quarters, mostly due to the positive performance of the computer and electronics as well as the pharmaceutical industries. Israel, on the other hand, had a comparably lower growth rate of 5.4 per cent in the current quarter, but experienced no production losses in 2020. Manufacturing production in European industrialized economies rose by 22.8 per cent in the second quarter of 2021 relative to the same period in 2020, after a growth of 2.8 per cent in the previous quarter. Country-level data for this group indicate considerable growth rates in the second quarter of 2021 compared to the reduced manufacturing production a year ago.

Developing and Emerging Industrial Economies

In accordance with UNIDO Statistics' country groups, China is presented separately due to its size and the specific characteristics of its economy. Sustained high growth rates over the past several years have rapidly been transforming China into an industrialized economy.

China

The latest seasonally adjusted figures for the Chinese manufacturing sector (12.1 per cent) as well as for the majority of its industries indicate markedly high growth rates in the second quarter of 2021. Furthermore, medium high- and hightechnology industries, such as computers and electronics, electrical equipment and motor vehicles, recorded an overall growth of 15.8 per cent in a year-over-year comparison. It remains uncertain, however, in what direction China's export-oriented manufacturing sector will continue to develop in the context of dynamic domestic activity and subdued international demand.

Developing and emerging industrial economies (excl. China)

Manufacturing output in developing and emerging industrial economies (excl. China) increased by 31.1 per cent in the second quarter of 2021, but with significant variability across the different regions. Asia and the Pacific (Dev. and EIE) reported a year-over-year manufacturing output growth of 33.6 per cent in the second quarter of 2021 and of 3.5 per cent in the first, respectively. A closer look at specific countries in this region reveals growth patterns with varying intensity. Manufacturing output in India, for example, increased by 56.2 per cent, and Turkey's by 43.9 per cent, while Indonesia, the second largest manufacturer in the region, reported a comparably lower year-over-year output growth of 6.9 per cent

In the second quarter of 2021, Latin America's manufacturing output expanded by 30.4 per cent on a year-over-year comparison, after achieving a solid growth rate of 5.6 per cent in the previous quarter. The region's two largest manufacturers, Mexico (36.4 per cent) and Brazil (25.7 per cent) reported high growth rates, as did Argentina (34.1 per cent), Colombia (27.1 per cent) and Costa Rica (25.3 per cent). Chile, the only country in this group classified as an industrialized economy, witnessed an increase in manufacturing output of 10.2 per cent in a year-over-year comparison.

Compared to the second quarter of 2020, growth estimates based on limited data availability for African countries indicate a stable expansion of manufacturing output of 17.8 per cent. By contrast, a year ago, output dropped by 17.1 per cent, as COVID-19 forced many countries to impose containment measures. In the current quarter, however, an expansion of manufacturing output was recorded in many African countries, such as South Africa (39.3 per cent), Rwanda (30.2 per cent), Senegal (22.6 per cent) and Nigeria (4.6 per cent). The manufacturing output of European developing and emerging industrial economies experienced a year-over-year growth of 21.6 per cent in the second quarter of 2021, after suffering a COVID-19-related decline of 18.0 per cent a year ago. Country-level data, however, reveal considerable country-level variability. For instance, manufacturing output in Romania, Croatia and Greece rose considerably by 36.6 per cent, 15.0 per cent and 14.4 per cent, respectively, while Ukraine's output only grew slightly by 0.4 per cent in a year-over-year comparison

Asia and the Pacific experienced a drop of manufacturing output by 2.5 per cent compared to the same quarter of the previous year. The weaker growth rates recorded at the end of 2018 already signalled a downward trend following year-over-year growth rates of at least 4.0 per cent in previous quarters. A closer look at specific countries in this region reveals a diverse picture. The manufacturing output of Vietnam and the Philippines increased by 7.9 per cent and 1.4 per cent, respectively. By contrast, India's,

Thailand's and Pakistan's manufacturing output fell by 5.4 per cent, 7.1 per cent and 8.7 per cent, respectively.

Latin America's manufacturing output on a year-over-year basis decreased by 2.8 per cent in the first quarter of 2020, following sluggish economic development since the fourth quarter of 2018. Argentina, for example, witnessed a further deepening of its ongoing recession, with a 6.3 per cent drop in manufacturing output in the first quarter of this year. The region's two largest manufacturers, Mexico and Brazil, also experienced perceptible reductions in manufacturing output by 3.4 per cent and 2.2 per cent, respectively. Ecuador was among the few countries with an increase of manufacturing output (1.4 per cent). It remains to be seen how hard the continent has been hit by the pandemic, as public health data are indicating the emergence of a new hotspot in the region. Compared to the first quarter of 2019, growth estimates based on limited data availability for African countries generally indicated a slight increase of manufacturing output by 0.2 per cent following years of varying growth rates.

Among others, Nigeria's manufacturing output rose by 0.6 per cent, whereas Senegal's output decreased by 1.4 per cent. In the other developing economies country group, manufacturing output increased noticeably by 1.7 per cent in Eastern European countries compared to the same period of the previous year. This expansion of manufacturing output was mainly attributable to Turkey (as was the case in the previous quarter), its output rising by 4.7 per cent in the first quarter of 2020. It remains to be seen whether this trend reflects stabilization of Turkey's manufacturing sector. Other countries with a noteworthy growth rate in manufacturing production include Moldova (3.7 per cent), Serbia (3.0 per cent) and Greece (1.5 per cent). By contrast, Bosnia and Herzegovina's, Romania's and Croatia's manufacturing output fell by 8.0 per cent, 7.5 per cent and 3.8 per cent, respectively, compared to the first quarter of 2019.

INDIAN ENGINEERING AND CAPITAL GOODS SECTOR

Introduction

The engineering sector is the largest of the industrial sectors in India. It accounts for 27% of the total factories in the industrial sectors and represents 63% of the overall foreign collaborations. India's engineering sector has witnessed a remarkable growth over the last few years driven by increased investment in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of strategic importance to India's economy.

India, on its quest to become a global superpower, has made significant stride towards developing its engineering sector. The Government has appointed Engineering Export Promotion Council (EEPC) as the apex body in charge of promotion of engineering goods, products, and services from India. India export transport equipment, capital goods, other machinery/equipment, and light engineering products such as castings, forgings, and fasteners to various countries of the world. The Indian semiconductor industry offers a high growth potential area as industries which source semiconductors as inputs are themselves witnessing high demand.

India became a permanent member of the Washington Accord (WA) in June 2014. The country is now a part of an exclusive group of 17 countries who are permanent signatories of the WA, an elite international agreement on engineering studies and mobility of engineers.

Market size

Turnover of the capital goods industry was estimated at US\$ 92.00 billion in 2019 and is forecast to reach US\$ 115.17 billion by 2025.

India exports engineering goods mostly to US and Europe, which account for over 60% of the total export. Engineering exports were recorded at US\$ 75.90 billion in April (FY20) and reached US\$ 60.25 billion in January (FY21). Index of industrial production (IIP) for electrical equipment industry stood at 105.5 in FY20.

The Indian machine tool production and consumption were estimated at Rs. 6,150 crore (US\$ 872.46 million) and Rs. 15,670 crore (US\$ 2.22 billion), respectively, in 2019-20.

Investments

100% FDI is allowed through the automatic route, with major international players looking for growth opportunities to enter the Indian engineering sector. The engineering sector in India attracts immense interest from foreign players as it enjoys a comparative advantage in terms of manufacturing cost, technology, and innovation. The above, coupled with favourable regulatory policies and growth in the manufacturing sector, has enabled several foreign players to invest in India.

According to The United Nations Conference on Trade and Development (UNCTAD), India ranked among the top 10 recipients of Foreign Direct Investment (FDI) in 2019, attracting US\$ 49 billion in inflows, a 16% increase from the previous year, driving FDI growth in South Asia.

FDI inflows for miscellaneous mechanical and engineering sectors stood at US\$ 3,650.78 million between April 2000 and September 2020 according to the data released by Department for Promotion of Industry and Internal Trade (DPIIT).

In the recent past, there have been many major investments and developments in the Indian engineering and design sector:

- In January 2021, Tesla, the electric car maker, set up a R&D centre in Bengaluru and registered its subsidiary as Tesla India Motors and Energy Private Limited.
- In December 2020, Schindler partnered with L&T Technology Services Limited (LTTS) to enhance its innovative digital engineering capabilities. Under this partnership, LTTS would provide services & solutions for product development, innovation and engineering that will help Schindler accelerate its digitisation and connectivity initiatives.
- In December 2020, Daimler India (a commercial vehicle maker), which recently set up 10 new touchpoints, is focusing on network expansion. The company plans to have at least 350 dealerships pan-India by 2022.
- In December 2020, Larsen & Toubro (L&T) has won multiple orders to supply mining equipment to coal, cement and iron ore sectors. The contract's scope includes supply of equipment and maintenance contracts to support operations over 3-4 years.
- In November 2020, Larsen & Toubro delivered the first hardware—a booster segment—for the Gaganyaan Launch Vehicle to ISRO, ahead of schedule.
- In November 2020, BHEL, state-owned engineering firm, set a record by successfully developing and testing the highest-rated auto transformer in India. At the National High Power Test Laboratory (NHPTL) in Madhya Pradesh, BHEL successfully developed and tested the auto transformer.
- In November 2020, Mahindra Logistics Ltd., a supply chain management service provider, has developed a 'built-to-suit' warehousing capacity in Tamil Nadu. This workspace would cater to two

key customers in the e-commerce and auto-engineering industries. The facility is focused on offering integrated solutions to an e-commerce player and a German auto-component supplier.

- In November 2020, Samsung partnered with IIT-Jodhpur to establish AR-VR Innovation Lab. In cooperation with the faculty of the Department of Computer Science and Engineering (IIT-Jodhpur), Samsung engineers will provide courses to B.Tech, M.Tech and Ph.D. students. In addition, the facility will be used by fellow researchers to perform experiments. The laboratory will train up to 35 students a year.

Government Initiatives

The Indian engineering sector is of strategic importance to the economy owing to its intense integration with other industry segments. The sector has been de-licensed and enjoys 100% FDI. With the aim to boost the manufacturing sector, the Government has relaxed the excise duties on factory gate tax, capital goods, consumer durables and vehicles.

- The Indian telecom equipment market is likely to increase owing to the government's Rs. 12,195 crore (US\$ 1.6 billion) production-linked incentive scheme approved for telecom gear manufacturing in February 2021.
- The upcoming new textile policy (in draft version as of February 2021) is likely to focus on setting up manufacturing hubs for textile machineries with the help of FDIs.
- In December 2021, the Government of India announced that they are in talks with Argentina and Brazil to ink trade pacts with the two largest markets in South America, as it seeks to strengthen trade with the region.
- The Export Policy Uttar Pradesh 2020-25 for promoting export growth and competitiveness, providing export subsidiaries with the required export-related assistance and services and creating & improving technical and physical infrastructures to improve exports from state industries.
- In November 2020, to strengthen the capital goods (CG) sector, the government has set up a 22-member interministerial committee through initiatives, which will help this sector to effectively contribute to the national target of achieving a US\$ 5 trillion economy and a US\$ 1 trillion manufacturing sector.
- In the Union Budget 2021, the government has given a massive push to the infrastructure sector by allocating Rs. 233,083 crore (US\$ 32.02 billion) to enhance the transport infrastructure.
- The government expanded the 'National Infrastructure Pipeline (NIP)' to 7,400 projects. ~217 projects worth Rs. 1.10 lakh crore (US\$ 15.09 billion) were completed as of 2020.
- The Union Cabinet has approved incentives up to Rs. 10,000 crore (US\$ 1.47 billion) for investors by amending the M-SIPS scheme in order to further incentivise investment in electronics sector, create employment opportunities and reduce dependence on import by 2020.
- Government approved the 'Production Incentive Scheme' (PLI) for large-scale electronics manufacturing.

Road Ahead

Turnover of capital goods industry is expected to increase to US\$ 115.17 billion by 2025F. India's engineering R&D market will increase from US\$ 36 billion in FY19 to US\$ 42 billion by FY22.

India needs Rs. 235 trillion (US\$ 3.36 trillion) of investment in infrastructure in the next decade (2020-29).

The export of engineering goods is expected to reach US\$ 200 billion by 2030.

Note: Conversion rate used for January 2021 is Rs. 1 = US\$ 0.0137

Export Highlights

- In FY19, India's engineering export stood at US\$ 81.02 billion and for FY20, it stood at US\$ 75.97 billion.
- Engineering contributes 25% of India's total exports in goods and is its largest foreign exchange earner.
- The engineering sector has a 30% weight in India's Index of Industrial Production.
- The engineering goods export was US\$ 67.32 billion in between April 2020 and February 2021 and for February 2021, it was US\$ 7.06 billion.
- The top three destination of Indian engineering exports during April–July 2020-21 were USA, China, and Singapore.

EEPC India (Formerly Engineering Export Promotion Council)

- EEPC India has more than 13,000 members, including small and medium enterprises (SMEs) and trading houses.
- The export of engineering goods grew 6.32% y-o-y to reach US\$ 81 billion in FY2019.

GLOBAL SUPPLY CHAIN MANAGEMENT

Role of supply chain management for the global economy

Today we live in a highly interconnected world economy that organizes millions of businesses operating across different regions or countries. Given smooth economic coordination is a pre-condition for the successful functioning of the global economy, supply chain management offers the most needed service to ensure a strong network between a company and its suppliers to manufacture or produce, then to distribute goods to customers. As a commercial system of organizations, resources, information and people, the supply chain network forms a complex and dynamic supply and demand network between a multitude of economic agents. The expansion of international trade triggered the importance of supply chain management further. For instance, the global supply chain management market was worth roughly 16 billion U.S. dollars in 2019. Over the last decade, supply chain management software and procurement market expanded more than twice. These networks of supply chains form the so-called global value chains (GVCs), which is the prevailing method of interaction in international trade relations.

Disrupting the frontiers of supply chain networks

International cooperation between firms throughout the production cycle makes some industries operate more efficiently at times absent from disruptions. Yet, when some supply chain disruptions occur, things look much gloomier than one could wish. Some industries are more vulnerable to sudden disturbances in the supply chain than others. Petroleum products, medical devices and mining were the top three industries most vulnerable to an unexpected distortion in the supply chain network. The predicted net present value (NPV) losses from systematic supply chain disruptions in the petroleum products industry could reach over 6.3 billion U.S. dollars as of 2020. Industries with a high dependency on the smooth

functioning of the GVCs are more likely to be exposed to a shock with high magnitude and persistence, such as demand variability, non-sustainable sourcing, or long input lead times.

Firms shaping the supply chain economy

Every single node, like a firm or an organization, on a supply chain network, has the potential to shape and affect the entire system. Aggregation of firm dynamics to provide supply chain services exhibited across the world determine the direction, potential, and growth path of the global market for supply chain management. After a new innovation is introduced to the market, idea dissemination takes place at a rapid rate. More than one-third of surveyed supply chain professionals stated that their company already adopted cutting-edge inventory and network optimization tools to sustain competitive advantage in the marketplace. In addition to profit-maximization, the need to mitigate climate change catastrophe also urges supply chain firms to react. For example, roughly 28 percent of surveyed supply chain firms revealed that they currently implement circular economy design approaches in innovation strategy to reduce environmental footprint and optimize sustainability.

Potential outlook

Despite the long-lasting coronavirus (COVID-19) pandemic, which hit global value chains immensely, supply chain management will remain and become a more integral part of a growing global economy in years to come. During the upcoming decade, the global supply chain management market is expected to more than double in size, reaching over 37 billion U.S. dollars economic worth by 2027. The supply chain management software market is expected to follow a similar tendency over the next couple of years. Although there is a possibility that the entire production mechanisms will change as a result of the fourth industrial revolution, it is still unsure to definitively tell how the supply chain management will be affected. As long as the overall industrial production and economic interaction across regions or countries will increase, so will follow the supply chain management market.

INDIAN SUPPLY CHAIN MANAGEMENT

The disruptive nature of supply chains and increasing globalization of businesses have brought about rapid changes in the way Indian industries perceive supply chain networks. The pandemic has presented before the country a unique opportunity to redefine global supply chain operations by proactively leveraging its resources and workforce to enhance efficiency and responsiveness to disruptions.

In his speech back in May 2020, the honourable PM Narendra Modi acknowledged the propitious position the pandemic had put the nation in. He reflected on his ‘Aatma Nirbhar’ vision for India and highlighted the key role the five guiding pillars — economic recovery, a technologically-driven infrastructure, governing system, demography and consumer demand — would play in realizing this vision.

Economic recovery in India in the short term is heavily dependent on pharmaceuticals, agriculture and consumer products. In the long term, there are several factors that drive the recovery from disruptions in the supply chain.

Future of Supply Chain Management in India

Supply chain in India amidst the pandemic was wrought by risks and uncertainties which have the potential of reversing the recoveries the Indian economy has made in the short term. Since 14% of India's GDP is spent on logistics, it is the need of the hour to explore supply chain management in India and devise strategies to improve it.

However, the COVID-19 pandemic was the catalyst businesses needed to drive innovations in the supply chain. Surprisingly, even companies that were under-equipped to respond to disruptive events and had limited resources rose up to the challenge by adopting analytical practices and technical standards to provide solutions.

But the challenge does not end here. It would require constant effort, efficacious upgrades and rigorous risk assessment and management to ensure supply chains stand the test of time. Companies worldwide must rethink their business models to create agile and resilient supply chains that help stabilise growth and ensure sustainability. This would mean relying heavily on digital technologies and agile methodologies to respond efficiently to the ever-evolving technological domain.

With the backing of cutting-edge technologies, an active interest in the diverse cultures around the world, and skilled workforce, India can adapt magnificently to the emerging challenges and recover stably in the post-pandemic world.

Key Trends in Supply Chain Management in 2021

As traditional supply chain strategies are being discarded to make way for cost-effective technological interventions in the supply chain, companies will have to re-examine their business models, diversify manufacturing processes and reconsider trade channels.

Some of the largest components in the EU, the Americas, and Asia are realigning their business goals in a similar manner to better mitigate risks. Japan, for instance, has set aside USD 2.2 billion to help businesses move production out of China since disrupting events soured the relationship between the two trading partners.

There are some progressive supply chain trends expected in the future:

- **Automation**

Automation is poised to become the norm in the supply chain industry. Manual and repeatable tasks like data entry shall be replaced by automation software and will help businesses free up resources to allocate to more important tasks. This will reduce errors, speed up the process, and ensure seamless availability of information. Technological developments such as these help companies witness invaluable growth and gain distinction in the competitive marketplace.

- **Sales and Operations Execution (S&OP)**

By subscribing to agile management methods, companies will be able to effectively strategize and execute plans in the face of unpredictable changes in demand and inevitable disruptions. This will allow them to respond to unforeseen internal and external risks more efficiently.

- **Sustainability**

Businesses will increasingly adopt sustainable development frameworks in their supply chain management to combat environmental challenges. More and more large scale companies around the world are discarding traditional practices in favour of eco-friendly and sustainable standards.

There is a rigorous assessment of risks pertaining to supply chain operations as the economy targets carbon neutrality and Indian companies are increasingly embracing sustainable norms in their business initiatives with France, Japan, the UK and the US.

- **Machine Learning and Artificial Intelligence**

Even though digitization of supply chain operations had been in progress all along the past decade, the pandemic has accelerated this process. From this point on, machine learning and AI implementation will gain momentum to influence decision-making practices by providing actionable insights through data collaboration.

Short Term Goals

There was a steep decline in consumer demand due to the Covid-19 pandemic and government-enforced lockdowns. How quickly consumer demand rises will determine the future of the supply chain.

To complement the increase in consumer demand, there would have to be a proportional rise in demand for capital goods.

Furthermore, this unfettered rise in demand is likely to negatively impact the already disrupted supply chain which companies with inconsistencies in cash flow aren't likely to survive.

Long term goals

A survey conducted by KPMG and Management Development Institute has concluded that the Indian industry, in the long term, would benefit from:

- Realigning supply chain goals with business goals.
- Allowing better integration of supply chain processes.
- Fostering productive partnerships with vendors to improve inventory management.
- Employing technological solutions to streamline supply chain processes.

Way Forward

India needs to position itself at the centre of the global supply chain market. This would require cultivating productive trade relationships with global partners and facilitating efficient supply chains built on protectionist policies. The key approach to realising this vision would include capital-intensive measures like:

- Establishing supply chains at the sectoral, regional, and global levels.
- Promoting a culture of accountability and transparency.
- Subscribing to sustainable and environment-friendly methodologies.
- Presenting India as an investment destination for global initiatives.

The long term goal would be to eliminate imminent risks in the supply chain by restructuring internal and external operations. In the short term, India needs to mend disrupted supply chains by driving consumer demand.

Government Measures

There are some immediate measures the Indian government is expected to take to safeguard its position in the global supply chain platform:

- Make promised incentives available to industries to resume operations.
- Establish Common Facility Centers (CFCs) to enforce technological standards in import and export.
- Diversify supply chain operations and promote the expansion of businesses.

- Increase the operating hours in supply chain management.
- Provide support to businesses by making information readily available to all supply chain management services – vendors, distributors, buyers, logistics and consumers.
- Renegotiate Free Trade Agreements with partners to include post-pandemic changes in policies of import-export in India.
- Invest in upskilling supply chain management professionals so that they can competently and meaningfully contribute to the growth of the country.

Conclusion

Despite the devastating impact of the COVID-19 pandemic on businesses, India has positioned itself as a lucrative investment opportunity for global investors with its undeniable suitability in demographics, economic recovery rate, and improved business environment. India also has liberal FDI norms, a large consumer base, and an improving rank in Ease of Doing Business for the Indian government and industries to leverage this emergent opportunity. It is also necessary for India to adopt technological innovations to attract skilled employees with expertise in supply chain management which would benefit the country in the long run.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward looking statements that involve risks and uncertainties. You should read the chapter titled “Forward Looking Statements” beginning on page 19 of this Prospectus, for a discussion of the risks and uncertainties related to those statements and also the chapter “Risk Factors” beginning on page 25 of this Prospectus for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our Fiscal Year ends on March 31st of each year, so all references to a particular Fiscal are to the twelve-month period ended March 31st of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information. The following information is qualified in its entirety by and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the chapters titled “Risk Factors” and “Financial Statements” beginning on pages 25 and 171 respectively of this Prospectus.

Overview

Our Company is a full-service provider of manufacturing of engineered goods and supply chain management services. We also offer efficient services in advanced engineering, 3D scanning, rapid prototyping, flow simulation, project management and quality management. Our primary focus remains to focus on and benefit from the “Make in India” initiative by the GoI by aiding in developing supplier capabilities in India.

We help our customers find the right manufacturing source in India for their products and ensure optimal execution and quality by working with qualified and ISO-certified suppliers. We oversee the operations, manage supply chain process and choose the right logistics partners to be close to ports connecting us to our customer locations.

We help our customers understand the benefits and savings of global manufacturing by helping many OEMs and Tier 1 customers manage their entire manufacturing and supply chain processes. Our mission is to deliver top-quality components in a timely and efficient manner, so we can reduce our customers’ overheads in as many areas as possible.

Our Company started operations in 2015 and is now promoted by Nipul Keniya and Mr. Hiten T Shah, who have considerable industry experience and possesses business intellect in the marketing and trading circles of the engineering and supply chain industry. Our Promoters are supported by our directors, our experienced management and dedicated team who together manage and control the major affairs of our business operations. Our staff includes qualified engineers, sourcing experts, quality inspectors and supply chain experts to maintain optimal metrics for the work we do.

Backed by the business connections of our Promoters and Directors, their know-how about international procurement markets, as well as significant experience in overseeing manufacturing and quality engineering, we are currently the ‘India Sourcing and Supply Partner’ to MES, Inc., USA. We are working towards our aim is to explore additional opportunities and extending our reach globally by associating with various other Indian and international entities who require our comprehensive range of services which include sourcing, procurement, quality management and supply chain management.

We believe our success is the result of sustained efforts over the years in key aspects of our business, such as product portfolio, process improvements, and relationships with our suppliers and our major customer. Our growth and profitability are driven by our ability to make available an assortment of quality products and allied services. Our company has recently been awarded “Best Exporter of the Year” in the Small Business Awards 2021, “Most Trusted Exporter in Western India” by Topgallant Media for International Service Pride Awards 2021 and declared “Winner” at the India 5000 BEST MSME Awards 2021.

Our revenue from operations was Rs. 3,230.13 lakhs, Rs. 2,971.69 lakhs, Rs. 2,001.87 lakhs and Rs. 763.63 lakhs for the Fiscals 2021, 2020, 2019 and 2018, respectively. Our revenue from operations has grown at a CAGR of 43% during Fiscal 2018 to 2021.

The company’s EBITDA was Rs. 200.67 lakhs, Rs. 201.21 lakhs, Rs. 141.80 lakhs and Rs. 70.56 lakhs for the Fiscals 2021, 2020, 2019 and 2018, respectively. Our EBITDA has grown at a CAGR of 30% during Fiscal 2018 to 2021.

Our restated profit after tax was Rs. 130.20 lakhs, Rs. 139.45 lakhs, Rs. 93.43 lakhs and Rs. 43.98 lakhs for the Fiscals 2021, 2019 and 2018, respectively. The net profit after tax has grown at a CAGR of 31% during Fiscal 2018 to 2021.

Impact of COVID-19 on our business operations

The pandemic outbreak has caused an economic downturn on a global scale, including closures of many businesses and reduced consumer spending, as well as significant market disruption and volatility. The manufacturing operations for our products were shut down from March 22, 2020, to May, 2020 and we resumed our operations in a phased manner and were fully operational by September 2020. The demand for our products is dependent on and directly affected by factors affecting industries where our products are applied. For e.g., many of our end clients’ projects were halted. We faced increased inventory levels during the first few months of the pandemic due to virtual halt of the operations. Despite the impact of the COVID-19 pandemic, our revenue from operations stood at ₹3,230.13 lakhs during the financial year ended March 31, 2021, due to continuous support from suppliers in execution of orders from and flow of orders from our customers

Though India is at the stage of initial distribution of vaccines, we cannot predict the timelines as to when the vaccines shall reach at mass level. We continue to closely monitor the impact that COVID-19 may have on our business and results of operations. It is difficult for us to predict the impact that COVID-19 will have on us, our customers or suppliers in the future.

Our Strengths

We consider our business strengths to be the following:

1. Wide product and services portfolio with focus on quality

We have gradually diversified, expanded and evolved our range of products and services to provide a one-stop solution for our customers. As on March 31, 2021, our product portfolio consists of over thirteen types of engineered castings and forged parts in addition to supply chain management services. We engage in facilitating and monitoring continuous manufacturing of new varieties based on the orders of our customers and meet their specifications and requirements. We also provide reverse engineering, rapid prototyping, flow simulation, and 3D printing services. We believe that maintaining a wide range

of products and services in our business provides us with an opportunity to cater to diverse needs of customers and provide end-to-end assistance.

Our Company believes in qualitative manufacturing and adheres to various qualitative standards. Our products undergo quality check at various levels of production. to ensure that any quality defects or product errors are rectified on real time basis. Our products are also certified as compliant with quality standards including ISO 9001 and IATF 2016. We have an in-house laboratory for quality control purpose which have 10 employees as on March 31, 2021. We believe that focus on quality are the key strengths for our success over the years. Our qualitative approach has helped us become a continuous preferred supplier for MES, Inc. as well as gained recognition from end consumer businesses.

2. Existing well established relationship with our well-connected customer in the ever- growing market for our products in North America

As the India Sourcing and Supply Partner to our customer MES, Inc., we manage and source a portfolio of wide range of products for MES, Inc. who then supplies the products to the end client. We manage the entire supply chain process for the customer, i.e., from choosing the optimal supplier, sourcing, overseeing the process, quality audit to logistics of the products reaching the customer. We combine our expertise with an understanding of the engineered products market developed through client feedback and extensive interaction with various end consumer companies who use our products. We believe that we constantly try to address customer needs with a variety of products. Our existing client relationship helps us to get repeat business from our customer. This has helped us maintain a long-term working relationship with our customer and improve our customer retention strategy.

Our customer is a well-connected supplier of engineered products in the USA and Mexico market, will established business as its clients. This ensures repeat orders and stream-lined production to delivery processes which enable us to grow our product and service umbrella with a continuous flow of orders.

3. Experienced management and dedicated employee base

We have an experienced management team with significant expertise in the engineering goods industry and supply chain management. Our management team collectively has many years of entrepreneurial and managerial experience in our industry. This has facilitated efficient operational coordination and continuity of effective business strategies. Their industry experience enables us to anticipate and address variance in customer specifications, manage and grow our operations, maintain and leverage customer relationship.

Our experienced management team is led by Mr. Nipul Keniya, our Chairman and Managing Director, who has over 10 years of marketing experience and supported by the guidance from our Director, Mr. Hiten T Shah who has global experience in the industry we operate in. Other members of the senior management team such as Thangaraj Kutty, Prasanth Kesavan, Prakash Subramaniam, Suhas Jagtap, Mitesh Malkan, also have extensive industry experiences in their respective fields. We had 31 employees as on August 31, 2021, across our key business verticals. We believe that the experience and relationships with various stakeholders that our management team has enabled us to extend our operating capabilities, improved the quality of our products, continuously innovate our processes and achieved our growth in our industry.

4. Asset light business model and competitive products

Our business model is such that we rely on our ability to design quality and technically sound products from a suitable manufacturer. We have a long-standing relationship with our suppliers and continuously scope out new manufacturers and provide supplier development assistance along with technical and quality support to ensure smooth processes and proactive communication. This arrangement allows us to scale our operations quickly and the products are manufactured as per our specifications at a pre-determined cost and as per our quality standards without incurring any capital expenditure on manufacturing facilities.

We operate on an asset light business model which does not require us to invest heavily on physical assets such as plant and machinery, office equipment, etc. and therefore we believe this business model allows us to be capital efficient. We believe our business model is scalable, such that we can expand our geographical reach and production capacity and add new products efficiently without disrupting our existing business. Further, this also helps us in better cash flow management and lower risk.

Our Strategies

Our business strategies include the following:

1. Increase our geographical reach by exploring other international markets

At present, we supply products and provide services primarily to MES, Inc. based in USA and Mexico. Thus, we are currently only benefiting from our customer's reach across the US market. We intend to explore other international markets and source opportunities with varied businesses across different geographies. We believe that this will help us build global connections, expand our scope and scale of operations, and establish a brand recognition.

2. Expand our supplier base

Currently, we work with those suppliers with whom we have developed a relationship. We intend to continue to grow our supplier network in line with the growth of our business operations as well as provide supplier development and hand holding. Our suppliers, receive quality checks and engineering support, which enables a continuous improvement in their products and processes. This along with integrated supply chain and inventory support aids in ensuring proactive communication, smooth launches and a quality end product. Bombay Metrics philosophy is to create win-win solutions for our suppliers and customers, create a challenging and exciting work environment for our team, and to develop quality suppliers across the globe.

3. Focus on establishing our presence in domestic market

At present, we are supplying only to one major international customer. We intend to explore domestic entities seeking engineered products and the range of services we provide and thus creating a local presence. We believe that our brand and reputation and ability to provide qualitative, wide range of products at competitive prices will help us to develop a fairly new but strong presence in the domestic market. We have already initiated the process of registering as a vendor for an Indian multinational conglomerate and are aiming to connect with more such large and well-known entities and thus establish our brand recognition in India, as well.

4. Continue to improve operating efficiencies through technology enhancements and supplier development

At Bombay Metrics, we provide complete support and guidance to our suppliers and engage in developing, monitoring and training them to ensure optimal growth and benefit from opportunities. We continue to further help to develop our suppliers' technology systems to increase asset productivity, operating efficiencies and strengthen our competitive position. We believe that the technology and operational capabilities will continue to play a key role in effectively managing and expanding our operations, maintain strict operational and fiscal controls and continue to enhance customer service levels. We intend to continue to invest time, knowledge, research and efforts in our suppliers' technology capabilities to develop customized systems and processes to ensure effective and efficient control on products and processes. We continue to focus on further strengthening our operational and fiscal controls.

Business Operations

Over the years, we have established a track record of successfully executing and delivering majority of our orders in a timely manner and have developed and enhanced competencies in the areas in which we operate. Details of operation wise break-up of revenue for the fiscals ended on March 31, 2021, 2020, 2019 and 2018 are as follows:

Product Portfolio

A brief description of the products made available, processes monitored and the industry to which they find their application in are as follows:

Process	Description	End Product and Industry Application
<p style="text-align: center;">Die casting</p> 	<p>Die casting is a metal casting process that is characterized by forcing molten metal under high pressure into a mold cavity. The mold cavity is created using two hardened tool steel dies which have been machined into shape and work similarly to an injection mold during the process.</p> <p>Most die castings are made from non-ferrous metals, depending on the type of metal being cast, a hot- or cold-chamber machine is used.</p>	<p>Aluminum and Zinc Castings for Lighting Medical/ Electrical Industries</p>
<p style="text-align: center;">Green Sand Moulding</p> 	<p>Green sand casting is an efficient molding process that utilizes sand as the main molding material. This casting method is referred to as “green” since the sand is recyclable and there are no chemical additives in the sand, just clay, water, and sand. The moisture content within the molds provides the binding structure for the sand.</p>	<p>Iron Castings for Aggregates / Agriculture / Heavy Truck</p> 
<p style="text-align: center;">Shell Moulding</p> 	<p>Shell mold casting is a metal casting process similar to sand casting, in that molten metal is poured into an expendable mold. However, in shell mold casting, the mold is a thin-walled shell created from applying a sand-resin mixture around a pattern. The pattern, a metal piece in the shape of the desired part, is reused to form multiple shell molds. A reusable pattern allows for</p>	<p>Typical parts are small-to-medium in size and require high accuracy, such as gear housings, cylinder heads, connecting rods, and lever arms.</p> <p>Alloy Steel parts for Hydraulics / Automotive industry</p>

	<p>higher production rates, while the disposable molds enable complex geometries to be cast. Shell mold casting requires the use of a metal pattern, oven, sand-resin mixture, dump box, and molten metal.</p> <p>Shell mold casting allows the use of both ferrous and non-ferrous metals, most commonly using cast iron, carbon steel, alloy steel, stainless steel, aluminum alloys, and copper alloys.</p>	
<p>Investment casting</p> 	<p>Investment Casting, also known as Lost Wax Casting, is a precision casting process that provides design flexibility and significant cost advantages. The process involves pouring molten metal into a mold that has been created using a wax model. Once the mold is made, the wax model is melted and drained away. Hollow cores can be effected by using a heat-proof core that prevents the molten metal from totally filling the mold.</p> <p>It is generally used for small castings, but can be used to produce much larger components.</p>	<p>Stainless Steel Parts for Lighting / Automotive industries</p> 
<p>Gravity casting</p> 	<p>Gravity casting is a casting process used for non-ferrous alloy parts. Sometimes referred to as Permanent Mould, the process is typically used on aluminum, zinc, and copper base alloys.</p> <p>Molten metal is poured into channels in the tool to allow the material to fill the entire</p>	<p>Aluminum parts for Lighting / Automotive industry</p>

	<p>mold cavity. The metal is either dosed or hand poured by using ladles. Usually, the alloy enters the mold cavity from the lower part of the die. This reduces the formation of turbulence and subsequent porosity and inclusions in the finished part.</p>	
<p style="text-align: center;">CNC Machining</p> 	<p>The CNC Machining process is more precise than manual machining, and can be repeated in exactly the same manner over and over again. The precision possible in this process can produce complex shapes that would be almost impossible to achieve with manual machining.</p> <p>It is used in the production of many complex three-dimensional shapes. Because of the accuracy, close tolerances and repeatability. Thus is used in jobs that need a high level of precision or very repetitive tasks.</p>	<p>Various Brass, Steel, Ferrous, Non-Ferrous parts for Hydraulics / Motion Control</p> 
<p style="text-align: center;">Extrusion</p> 	<p>Extrusion is a process used to create objects of a fixed cross-sectional profile. A material is pushed through a die of the desired cross-section.</p> <p>The process begins by heating the stock material (for hot or warm extrusion). It is then loaded into the container in the press. A dummy block is placed behind it where the ram then presses on the material to push it out of the die. Afterward the extrusion is stretched in order to straighten it. If better properties are required then it may be heat</p>	<p>Aluminum parts for Lighting / Solar industry</p> 

Process	Description	End Product and Industry Application
	<p>treated or cold worked.</p> <p>The extrusion ratio is defined as the starting cross-sectional area divided by the cross-sectional area of the final extrusion. One of the main advantages of the process is that this ratio can be very large while still producing quality parts.</p>	
<p style="text-align: center;">Forging</p> 	<p>Forging is a manufacturing process involving the shaping of metal using localized compressive forces from a hammer or a die. We provide hot forging, warm forging and cold forging.</p> <p>Widely used in mechanisms and machines wherever a component requires high strength, forging can produce a component that is stronger than an equivalent cast or machined part.</p> <p>This offers uniformity of composition and structure. As the metal is shaped during the forging process, its internal grain deforms to follow the general shape of the part. As a result, the grain is continuous throughout the part, giving rise to a piece with improved strength characteristics. This strengthens the resulting steel product particularly in terms of impact and shear strength.</p>	<p>Ferrous & Non ferrous Forged parts for Specialty Vehicles</p> <p>Nonferrous Forged parts for Construction</p>
<p style="text-align: center;">Precision Stamping</p>	<p>We are able to arrange to manufacture precision stamping parts using progressive stamping and tandem stampings techniques utilizing cold-rolled or hot-</p>	<p>Stamping parts for Lighting / Medical industry</p>

	<p>rolled steel, carbon steel or stainless steel.</p> <p><u>Hydraulic presses:</u> This type of precision stamping employs hydraulics to apply pressure to material. Hydraulic presses allow for an advanced degree of control and feature an adjustable stroke and speed capability that can typically deliver full power during any point in the stroke. We have access to presses that vary in size from 20 to 10,000 tons and offer stroke sizes from about 10mm to 800mm.</p> <p><u>Mechanical presses:</u> The mechanical press uses a flywheel to transfer and store energy. Our manufacturers have punches ranging in size from 5mm to 500mm and with speeds falling between twenty and 1,500 strokes per minute.</p>	
<p style="text-align: center;">Assemblies</p> 	<p>Our manufacturers can perform a wide range of assemblies, from simple two component assemblies to complex assemblies. Services

Our services may be understood as a complete Supply Chain Management service centered on quality, value and efficiency. Supply Chain Management (SCM) is a strategic science that goes into improving the way your company sources component parts from manufacturers.

Bombay Metrics has developed proven strategies for each phase of the Supply Chain Management process. Our well managed sourcing-to-delivery solution allows us to pass on savings to our customers, not just in component costs and shipping rates, but also money saved by lowering lead times in tooling and the manufacturing process.

Business Flow

The general flow of activities involved in our SCM process can be understood as follows:

➤ Creation of RFQ by the customer on online portal:

Bombay Metrics has been able to have multiple locations for sourcing and customer warehousing due to R&D initiatives in IT and ERP systems (SAP and the proprietary MESH automation portal). These systems make key information about parts, pricing, quality, inventory and logistics readily available globally so team members can make informed decisions and remain flexible around customers' needs.

- Our customer receives Request for Quote ('RFQ') from their clients (end clients)
- We receive a Request for Quote ('RFQ') from the customer on our online portal.
- Our team then issues an RFQ based on client requirements to prospective suppliers.

➤ Supplier Selection:

- We source from suppliers based on factors such as quality, cost, delivery timelines, efficient production schedule and flexibility.
- Our supplier selection includes ISO certification as a minimal requirement to partner with us.
- We choose such suppliers who have a good track record in manufacturing engineering resources and proven techniques on business growth. By providing some hand-holding and monitoring the operations, we aid in developing the operations and techniques of our suppliers.

➤ Supplier Quotes

Company receives quote from various suppliers in India and we after certain negotiation with supplier submit the final quote to buyer MES and once the quotes are approved by MES we get the business awarded

➤ Negotiations and Business Awarded

We negotiate the payment, timeline and other allied terms with the shortlisted suppliers and based on the best deal, we award the business to the supplier.

➤ Tooling and PPAP process:

- Tool Manufacturing: Our tooling expertise team builds tooling by outsourcing the manufacturing to third parties with start to end involvement of Bombay Metrics: Our tooling manufacturing methods for better output and ensure a quality product which- Increases productivity and enhance tool-life, reduces tooling lead time from months to weeks and creates ease of manufacturing for highly critical part configurations
- Review of critical engineering specifications with the customers and relaying of such information to suppliers at tooling kickoff.
- Our trained and experienced team monitors and controls the tooling development and Production Part Approval Process ('PPAP') submission process.
- The Dies/ moulds produced by the supplier are sent to MES, Inc. USA, who then sends it to the customer for PPAP which generally takes 4-6 weeks.

- Depending on the approval from the customer, further order is processed. If changes required by the end client, the same is communicated and carried out in the product.
- Monitoring and communicating delivery timelines

➤ Quality Management:

At Bombay Metrics, quality management is a continuous process at every stage. We constantly invest time and resources towards our suppliers, which ensures the products are technologically sound and a minimal rejection rate.

- Conduct checking of raw materials supplied by third parties at independent labs
- We utilize project management tools and Advanced Product Quality Planning ('APQP') to track every step of the tooling and manufacturing process.
- Conduct inspections at supplier's manufacturing locations to ensure accurate measurements and method of production are being followed.
- In-person review of the product by Bombay Metrics Quality and Sourcing Engineers. Our Quality Team travels to all suppliers and conducts Audit and prepare a report on the observations made.
- Under the Overseas Quality Improvement Initiative, our engineers perform periodical Kaizen sessions with the key suppliers to improve part quality. Quality engineers, supplier inspectors, supplier operators and supplier quality managers are all involved.

➤ Supply Chain Management, Logistics and Delivery:

Bombay Metrics provides comprehensive global and domestic logistics solutions for shipping goods out of India. Additionally, if required, we store the finished products at our Mumbai warehouse or a warehouse close to the closest port to consolidate shipments. If not required, we directly ship the products from the supplier factory to MES, Inc. at their USA/ Mexico location. Majority of our shipments are sent through ship containers (i.e., waterways). In the event of short timelines or wherever required, we arrange to send a loose container load (i.e., by air).

We manage the global logistics process to save time and money on international shipping by:

- Selecting the right logistics partner
- Consolidating shipments/ orders in containers, and sending a combined container, wherever possible.
- Optimizing global inventory utilizing a variety of inventory planning and optimizing tools
- Calculating optimal pack density and quality of all goods through "Packaging" and "Cargo building" software tools
- Managing required import/ export procedures that comply with India and International protocols. (Recently awarded "One star export house" from GoI)
- Navigating customs requirements, paperwork, and shipment charges
- Monitoring port conditions and re-route shipments, if necessary
- Ensuring delivery timelines are met with by Just in Time delivery approach.

Allied services provided by Bombay Metrics are:

➤ Inspections and Process Audits:

Reducing quality issues before the product reaches the customer, eliminating miscommunication and preventing increased product costs and delays are all goals of Bombay Metrics inspection and process audit services. We have a staff of trained and experienced supplier quality engineers across most of our associated Indian manufacturing locations that perform complete audits from raw material through final packaging. We also offer an inspection solution that utilizes our customized software, “MESH”, for proper reporting and distribution to engineers across the globe. The end result is to ensure client’s satisfaction as to meeting of manufacturing standards of supplier performance, efficiency and effectiveness by constant monitoring.

As part of our inspection and audit process, a Bombay Metrics approved Quality Inspector visits supplier location and certifies if the process and part is compliant with customer specifications. Our personnel work systematically to implement improvements for mass production, prevent miscommunications at the factory level, and avoid additional costs and delays.

Inspections provided- Part dimensional, Pre-production, Pre-shipment, Destructive & non-destructive testing, Metallurgical, Mechanical properties, RoHS Testing, Functional validation, Aesthetic / Visual Sample of tools used during inspections, Coordinating measuring machine (CMM), 2D Height master Spectrometer, Radiography, and Video measuring system.

➤ Supplier Assessments:

- Bombay Metrics quantitative and qualitative supplier assessment process is focused on reducing costs, mitigating risks and driving continuous improvement. By taking complete responsibility for vetting new and monitoring existing suppliers we create a greater understanding of each supplier’s capabilities and responsiveness. This knowledge results in lower financial and operational risk and can help company’s better plan new products and services that generate higher-quality results. For global customers, this process also helps enable the approval of Indian suppliers and enabling them to be able to benefit from the Government of India’s focus on “Make in India.”
- After each assessment we meet with the supplier to work on any process improvements. We have found post assessment activities, such as supplier training and development, are the best ways to drive positive and measurable results.

➤ Reverse Engineering:

We support OEMs to re-design their long running parts to use them in modern production techniques.

- Generating CAD drawings and solid models from samples using reverse engineering methodologies
- Creating tooling models per process requirements
- Re-designing products that align with modern manufacturing technologies
- Rapid prototyping for design validation and process establishment
- Performing Finite Element Analysis (FEA) and redesigning parts
- Re-design the product to align with new project lines
- Making customer proposal to eliminate product risk

- Rapid prototyping for design validation and process establishment

➤ Research and Development Services:

Over the years we have built and continued an on-going process of engaging a dedicated team who conduct research on various commodities and technologies to improve the manufacturing and thus strive to achieve beneficial supply chain management practices.

Utilities

Infrastructure

Our Registered Office is well equipped with computer systems, internet connectivity, other communication equipment and security, etc. which are required for our business operations.

Power

We have arrangements for regular power supply at our office premises. We meet our power requirements at registered office by purchasing electricity from private power companies.

Water

Water is procured from external water supply agencies operating in the local area.

Inventory Management

The raw materials are mainly stored on-site at the supplier's manufacturing facilities and the finished goods are moved directly to the port to be sent to the customer or if required, stored at our Mumbai warehouse or a warehouse close to a port so as to consolidate shipments. We produce a quantity of finished products that is determined based on confirmed orders and thus delivery of the same is generally by just-in-time basis.

Competition

We compete with Indian as well as global companies who are able to provide supply of the products needed by the client. We face competition from various domestic and international manufacturers and traders and other players, showcasing no significant competitive advantage in terms of innovation or differentiation. Competition emerges from small as well as big players in the engineering parts and products industry. The organized players in the industry compete with each other by providing high quality, consistent and time bound products and value-added services. We believe the principal elements of competition in our business are consistent and quality products, their prioritized production and delivery and strong relations with manufacturers. We compete against our competitors by establishing ourselves as a knowledge-based company by assisting manufacturers at every step of production and we focus on providing products and services that would be in consonance with technical and quality requirements of our customer as well as we try to offer competitive pricing without compromise on the quality.

Currently, although we are the "India Sourcing and Supply Partner" of our customer MES, Inc., we do not have any formal agreement with them for the same and thus they may procure from other suppliers based in India. Some of these players may already have a robust procurement network and develop better relations with our major customer, MES Inc., which could impact our revenue and profitability. In the future, we may also face competition from new entrants in the segment.

Insurance

Our operations are subject to risks inherent in our operations, such as risk of material or equipment loss, damage to goods in transit, work or employee accidents, fire, earthquake, flood and other force majeure events, acts of terrorism and explosion including hazards that may cause injury or loss of life, severe damage to or destruction of properties, equipment and environmental damage.

As per our arrangement with our customer, our company has to bear the product liability only till it reaches the Indian port/ airport, after which, the liability lies with the customer. To overcome these uncertainties, we have a Vehicle Insurance Policy and a Comprehensive General Liability Policy which includes bodily injury and property damage liability, personal and advertising injury liability and medical payments.

Human Resources

Details of the manpower employed by our Company as on August 31, 2021 is as follows:

Collaborations, any Performance Guarantee or Assistance in Marketing by the Collaborators

As on date of this Prospectus, our Company has not entered into any technical or financial collaboration agreements, or Performance guarantee or assistance for marketing with any Company.

Approach to Marketing and Marketing Set-up

As a strategy we do not have marketing division. Our top management and key executives enjoy the confidence of our major customer, MES, Inc. who is well connected with several corporate clients. Currently, we get most of our business through them in our operating markets. We interact with our customer as well as the end clients to get the feedback on the quality of products and services and improve the same as well. The management team stays in touch with our customer and end clients. Now, they are also approaching new customers in India and abroad to try and develop new business relationships. Our Company has been focusing on acquiring new customers through its direct and indirect channels. Till date our top management have been instrumental in getting the business.

Exports and Exports Obligations

As on the date of this Prospectus, our Company does not have any Export Obligation. As on date 100% of our exports are directly to our customer, MES, Inc. to their USA or Mexico location and have thus received export benefits under the Merchandise Exports from India Scheme (MEIS). For the details of

Sales and MEIS benefits, please refer Chapter titled “*Financial Statements*” on Page no. 162 of this Prospectus.

As on the date of this Prospectus, our Company does not have any outstanding export obligations.

Government of India, through Ministry of Commerce and Industry on September 01, 2020, vide circular number 30/2015-2020, has capped the export incentives under the scheme, Merchant Export from India Scheme (MEIS), at ₹ 2 crore per exporter on outbound shipments made during the period from September 1 to December 31, 2020. The aforesaid cap on export incentive can further see downward revision in line with GOI’s plan to curtail the cumulative incentive payment to ₹ 5,000 crores. Additionally, the MEIS scheme has been withdrawn by the Government of India w.e.f. January 01, 2021 and has been replaced by the Remission of Duties and Taxes on Export Products Scheme. As on date of this Prospectus, our Company is not availing benefits under the Remission of Duties and Taxes on Export Products Scheme. However, as of March 31, 2021 we are receiving residuary benefits under the MEIS Scheme for our export operations completed until December 31, 2020.

Payment terms and credit period between the Company and our major customer, MES Inc.:

As per the purchase orders received from the Company, the payment terms include 30 days of credit period.

Intellectual Property

As on the date of this Prospectus, our company has not applied for registration for any intellectual property rights.

Being the “India Sourcing and Supply Partner” of our major customer, MES Inc., we use the graphical

part (“”) of their logo along with the name “Bombay Metrics” as part of representation of our Company. As on the date of this Prospectus, MES Inc. has not registered the said graphical part of their logo with the Trademark authority of their jurisdiction.

With regards to risks associated with the same, please refer section titled “*Risk Factors*” on page no. 25 of this Prospectus.

The description below may not be exhaustive, and is only intended to provide general information to investors, and is neither designed as, nor intended to substitute, professional legal advice. Judicial and administrative interpretations are subject to modification or clarification by subsequent legislative, judicial or administrative decisions. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain.

The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For information on regulatory approvals obtained by us, see “Government and Other Approvals” on page 217. We are required to obtain and regularly renew certain licenses / registrations / sanctions / permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye laws, acts and policies. Additionally, the projects undertaken by us require, at various stages, the sanction of the concerned authorities under the relevant central and state legislations and local byelaws.

Following is an overview of some of the important laws and regulations, which are relevant to our business.

INDUSTRY-SPECIFIC LAWS

The Maharashtra Shops and Establishment Act 1948

The Company has its registered office in the state of Maharashtra. Accordingly, the provisions of the Maharashtra Shops and Establishments Act, 1948 are applicable to the Company. The provisions of the Act regulate the Conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health and safety measures, and wages for overtime work.

The Registration Act, 1908

The Registration Act, 1908 was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose. The purpose of Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. Evidence of registration is available through an inspection of relevant land records, which usually contains details of the registered property.

The Indian Stamp Act, 1899 (“Stamp Act”)

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have

enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

The Information Technology Act, 2000 (“IT Act”)

The Information Technology Act, 2000 regulates and governs the communications made and services provided in the electronic form. It provides legal recognition to transactions carried out by means of electronic data interchange and other means of electronic communication. The IT Act prescribes punishment for publication of, obscene and offensive materials through electronic means. The Information Technology (Amendment) Act, 2008, which amended the IT Act, gives recognition to contracts concluded through electronic means, creates liability for failure to protect sensitive personal data and gives protection to intermediaries in respect of third party information liability. Further, under Section 69A of the IT Act and the Information Technology (Procedure & Safeguards for Blocking for Access of Information by Public) Rules, 2009, directions can be issued by the Government or intermediary, blocking public access to any information generated, transmitted, retrieved, stored or hosted in any computer resource.

The Micro, Small and Medium Enterprises Development Act, 2006 (the “MSME Act”)

The Micro, Small and Medium Enterprises Development Act, 2006 and Industries (Development and Regulation) Act, 1951 The Micro, Small and Medium Enterprises Development Act, 2006 (“MSME Act”) In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME) the Micro, Small and Medium Enterprises Development Act, 2006 is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and Regulation) Act, 1951.

TAX RELATED LAWS

Income Tax

The Income-tax Act, 1961 (“IT Act”) is applicable to every Company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its “Residential Status” and “Type of Income” involved. Every Company assessable to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its returns by 30th September of each assessment year.

Goods and Service Tax (GST)

Goods and Services Tax (GST) is levied on supply of goods or services or both jointly by the Central and State Governments. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017 and is governed by the GST Council. GST provides for imposition of tax on the supply of goods or services and will be levied by centre on intra-state supply of goods or services and by the States including Union territories with legislature/ Union Territories without legislature respectively. A destination based consumption tax GST would be a dual GST with the centre and states simultaneously levying tax with a common base. The GST law is enforced by various acts viz. Central Goods and Services Act, 2017 (CGST), State Goods and Services Tax Act, 2017 (SGST), Union Territory Goods and Services Tax Act,

2017(UTGST), Integrated Goods and Services Tax Act, 2017 (IGST) and Goods and Services Tax (Compensation to States) Act, 2017 and various rules made there under. It replaces following indirect taxes and duties at the central and state levels.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

Service Tax

Service tax was charged on taxable services as defined in Chapter V of Finance Act, 1994, which required a service provider of taxable services to collect service tax from a service recipient and pay such tax to the Government. There are other indirect taxes which are now subsumed under GST and these are Additional Duties of Excise, Cess, Purchase Tax, Taxes on advertisements.

ENVIRONMENT RELATED LAWS

Environment Protection Act, 1986

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for coordination of the activities of various central and state authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exist among water, air and land, and human beings and other living creatures, plants, micro-organisms and property.

LABOUR LAWS

Employees Provident Fund and Miscellaneous Provisions Act, 1952

Employees Provident Funds and Miscellaneous Provisions Act, 1952 ("EPFA") was introduced with the object to institute compulsory provident fund for the benefit of employees in factories and other establishments. The EPFA provides for the institution of provident funds and pension funds for employees in establishments where more than 20 persons are employed and factories specified in Schedule I of the EPFA. Under the EPFA, the Central Government has framed the "Employees Provident Fund Scheme", "Employees Deposit-linked Insurance Scheme" and the "Employees Family Pension Scheme". Liability is imposed on the employer and the employee to contribute to the funds mentioned above, in the manner specified in the statute. There is also a requirement to maintain prescribed records and registers and filing of forms with the concerned authorities. The EPFA also prescribes penalties for avoiding payments required to be made under the abovementioned schemes.

Certain other Labour laws and regulations that may be applicable to our Company include the following:

- Child Labour (Prohibition and Regulation) Act, 1986;
- Contract Labour (Regulation and Abolition) Act, 1970;
- Employees' Compensation Act, 1923
- Employees' Provident Funds and Miscellaneous Provisions Act, 1952;
- Employees' State Insurance Act, 1948;
- Equal Remuneration Act, 1976;
- Industrial Disputes Act, 1947;
- Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979;
- Minimum Wages Act 1948;
- Payment of Bonus Act, 1965;
- Payment of Gratuity Act, 1972;
- Payment of Wages Act, 1936;
- Shops and Commercial Establishments Acts, where applicable;
- The Maternity Benefit Act, 1961;
- The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013;
- Trade Union Act, 1926;
- Workmen's Compensation Act, 1923.
- Public Liability Insurance Act, 1991

INTELLECTUAL PROPERTY LAWS

Certain laws relating to intellectual property rights such as patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957 trademark protection under the Trade Marks Act, 1999, and design protection under the Designs Act, 2000 are also applicable to us.

The Copyright Act, 1957 (the "Copyright Act") governs copyright protection in India. Even while copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration under the Copyright Act acts as a prima facie evidence of the particulars entered therein and helps expedite infringement proceedings and reduce delay caused due to evidentiary considerations.

The Trademarks Act, 1999 (the "Trademarks Act") provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the Trademarks Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The Trademarks Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

Under statute, India provides for the patent protection under the Patents Act, 1970 (the "Patents Act"). The Patents Act governs the patent regime in India and recognizes process patents as well as product patents. Patents obtained in India are valid for a period of 20 years from the date of filing the application. The Patents Act also provides for grant of compulsory license on patents after expiry of three years of its grant in certain circumstances such as reasonable requirements of the public, non-availability of patented invention to public at affordable price or failure to work the patented invention.

The Designs Act, 2000 (the "Designs Act") protects any visual design of objects that are not purely utilitarian. An industrial design consists of the creation of a shape, configuration or composition of pattern or colour, or combination of pattern and colour in three-dimensional form containing aesthetic

value. It provides an exclusive right to apply a design to any article in any class in which the design is registered.

GENERAL LAWS

Indian Contract Act

The Indian Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract.

Registrations under the applicable Shops & Commercial Establishments Acts of the respective States in which our Company has an established place of business/office (“Shops Act”)

The Shops Act provides for the regulation of conditions of work in shops, commercial establishments, restaurants, theatres and other establishments. The Act is enforced by the Chief Inspector of Shops (CIS) and various inspectors under the supervision and control of Deputy/Assistant Labour Commissioners of the concerned District, who in turn functions under the supervision of Labour Commissioner. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments including commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

The Companies Act, 2013

The Act deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. Regulation of the financial and management aspects constitutes the main focus of the Act. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between the set of competing factors, namely, management autonomy and investor protection.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. “Specific performance” means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

OTHER LAWS:

Foreign Exchange Management Act, 1999 (“FEMA”)

Foreign investment in India is primarily governed by the provisions of FEMA and the rules and regulations promulgated there under. FEMA aims at amending the law relating to foreign exchange with facilitation of external trade and payments for promoting orderly developments and maintenance of foreign exchange market in India. It applies to all branches, offices and agencies outside India owned or controlled by a person resident in India and also to any contravention there under committed outside India by any person to whom this Act applies. Every exporter of goods is required to a) furnish to the Reserve

Bank or to such other authority a declaration in such form and in such manner as may be specified, containing true and correct material particulars, including the amount representing the full export value or, if the full export value of the goods is not ascertainable at the time of export, the value which the exporter, having regard to the prevailing market conditions, expects to receive on the sale of the goods in a market outside India; b) furnish to the Reserve Bank such other information as may be required by the Reserve Bank for the purpose of ensuring the realization of the export proceeds by such exporter. The Reserve Bank may, for the purpose of ensuring that the full export value of the goods or such reduced value of the goods as the Reserve Bank determines, having regard to the prevailing market conditions, is received without any delay, direct any exporter to comply with such requirements as it deems fit. Every exporter of services shall furnish to the Reserve Bank or to such other authorities a declaration in such form and in such manner as may be specified, containing the true and correct material particulars in relation to payment for such services.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 ("FEMA Regulations") to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

Foreign Trade (Development and Regulation) Act, 1992 ("FTA")

The FTA seeks to increase foreign trade by regulating imports and exports to and from India. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given a wide power to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The FTA read with the Indian Foreign Trade Policy, 2015-20 (extended till March 31, 2021) provides that no person or company can make exports or imports without having obtained an importer exporter code ("IEC") number unless such person or company is specifically exempted. An application for an importer exporter code number has to be made to the Office of the Director General of Foreign Trade, Ministry of Commerce ("DGFT"). An importer-exporter code number allotted to an applicant is valid for all its branches, divisions, units and factories. Failure to obtain the IEC number shall attract penalty under the FTA.

In addition to the above, our Company is also required to comply with the provisions of the SEBI regulations and rules framed thereunder, and other applicable statutes enacted by the Government of India or relevant state governments and authorities for our day-to-day business and operations. Our Company is also subject to various central and state tax laws.

Annexure D : Significant Accounting Policies to the Restated Financial Statements

A. CORPORATE INFORMATION

Bombay Metrics Supply Chain Private Limited (The Company) is incorporated on 28th March 2015 and is primarily engaged in the business of trading of engineering tools and components and supply chain management services. The registered office of the Company is located at 201/Quantum Towers, Ram Baug lane, Near Chincholi Petrol Pump, S.V.Road, Malad (West) Mumbai-400064, Maharashtra, India .

Post reporting date the Company is converted into a Public Limited Company and the name of the Company has been changed to "Bombay Metrics Supply Chain Limited" with effect from 21st May 2021. Company has filed Draft Prospectus dated 5th June 2021 with National Stock Exchange for listing its equity shares on SME platform of the Exchange.

B. SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of preparation to the Restated Financial Information:

The Restated Summary Statement of Assets and Liabilities of the Company as on March 31, 2021, March 31, 2020, March 31, 2019, and March 31, 2018 and the Restated Summary Statement of Profit and Loss and Restated Summary Statements of Cash Flows for the year ended on March 31, 2021, March 31, 2020, March 31, 2019, and March 31, 2018 and the annexure thereto (collectively, the "Restated Financial Statements" or "Restated Summary Statements") have been extracted by the management from the Audited Financial Statements of the Company for the year ended on March 31, 2021, March 31, 2020, March 31, 2019, and March 31, 2018.

The Company has prepared the financial statements to comply in all material respects with the accounting standards specified as per section 133 of the Companies Act, 2013, read with rule 7 of the Companies (Accounts) Rules, 2014, Companies (Accounting Standards) Amendment Rules, 2016 and other accounting principles generally accepted in India. The financial statements have been prepared under the historical cost convention and on accrual basis. The accounting policies have been consistently applied by the Company and are consistent with those adopted in the preparation of financial statement for the financial years ended 31st March, 2021 2020, 2019 and 2018.

b. Revenue Recognition

- i. Revenue is recognized on accrual basis when it can be reliably measured and it is reasonable to expect ultimate collection.
- ii. Incomes from services rendered are accounted based on agreements / arrangements with the parties.
- iii. Sales is recognized on transfer of risks and rewards of ownership in the goods to customers and is net of Goods and service tax.
- iv. Export Incentives are recognized when the right to receive is established.

c. Property Plant & equipments and Depreciation:

- i) Property plant & Equipments are stated at Cost net of recoverable taxes and accumulated depreciation and impairment loss, if any. Depreciation on fixed assets is provided on Written Down Method on the basis of useful life of assets as prescribed in Schedule II to the Companies Act, 2013 after considering estimated scrap value.
- ii) Intangible Assets are amortized based on Straight Line Method over a period of 5 years.

d. Foreign Currency Transactions:

- i) Transactions denominated in foreign currency are recorded at the exchange rates prescribed by Customs department prevailing on the date of the transaction.

- ii) Monetary items denominated in foreign Currencies remaining outstanding at the year end are translated at the year end exchange rate.
- iii) Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit & Loss Account.

e. Inventories

Inventories are valued at cost or net realisable value whichever is lower. Cost of inventories comprises cost of purchase and includes expenses incurred for bringing the inventories to their present location and condition.

f. Taxation :

- i) Current tax expenses are accounted in the same period to which the revenue and expenses relate. Provision for current income tax is made for the tax liability payable on taxable income after considering tax allowances, deductions and exemptions determined in accordance with the applicable tax rates and the prevailing tax laws.
- ii) Minimum Alternate Tax credit, if any is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.
- iii) Deferred Tax is recognised on timing difference, being the difference between taxable income and accounting income that originates in one period and is capable of reversal in one or more subsequent periods.

g. Employee Benefits:

- i) Short term employee benefits are recognized as expenses at the undiscounted amount in the Statement Profit and Loss of the year in when the related services are rendered.
- ii) Long term benefits are recognized as an expense in the Statement Profit and Loss of the year when related services are rendered ,based on actuarial valuation at the discounted present value of the amount payable.

h. Net profit or loss for the period, prior period items and changes in Accounting Policies:

All the extra ordinary and prior period items of Income and expenses are separately disclosed in the statement of Profit and Loss account in the manner such that its impact on the current profit or loss can be perceived. If there has been any change in the Company's accounting policies or accounting estimate so as to have material impact on the current year profit/loss or that of later periods the same would be disclosed as part of Annexures to accounts. All the items of Income and Expenses from ordinary activities with such size and nature such that they become relevant to explain the performance of the company have been disclosed separately. The same is in compliance with AS-5 to the extent applicable.

i. Earnings per Share and Diluted Earnings per Share :

Basic earnings/ (loss) per share are calculated by dividing the net profit/ (loss) for the period/ year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period/ year. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue.

For the purpose of calculating diluted earnings/(loss) per share, the net profit/(loss) for the period/year attributable to equity shareholders and the weighted average number of shares outstanding during the period/ year are adjusted for the effects of all dilutive potential equity shares except where the results will be anti- dilutive. The dilutive potential equity shares are deemed converted as of the beginning of the period, unless they have been issued at a later date.

j. Impairment of Assets

The Company assesses at each reporting date as to whether there is any indication that an asset (tangible and intangible) may be impaired. An asset is treated as impaired, when the carrying cost of the asset exceeds its recoverable amount. Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life.

An impairment loss if any, is charged to Profit and Loss Account in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

k. Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognized if, as a result of a past event, the Company has a present legal obligation that is reasonably estimable, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at the reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for a contingent liability is also made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

l. Segment Reporting:

The Company is engaged in the business of trading of engineering tools and components and supply chain management services, and in the Management's opinion, this is the only segment and hence there are no separate reportable primary segment as per AS 17 on "Segment Reporting"

Notes

1 The ratios have been computed as per the following formulae:

(i) Basic Earnings per share:

$$\frac{\text{Restated Net profit after tax for the year/period attributable to the Equity Shareholders of Company}}{\text{Number of equity shares and potential equity shares outstanding during the year/period}}$$

(ii) Diluted Earnings per share:

$$\frac{\text{Restated Net profit after tax for the year / period}}{\text{Number of equity shares and potential equity shares outstanding during the year/period}}$$

Earnings per share calculations are in accordance with AS 20 "Earnings per Share" notified under section 133 of the Companies Act, 2013.

(iii) Return on net worth (%):

Restated Net profit after tax for the year / period attributable to the Equity Shareholders of Company
Restated Average Net worth for the year / period

(iv) Net Assets Value per equity shares:

Restated Net worth as at the end of the year / period
Number of equity shares and potential equity shares outstanding during the year/period

2. Weighted average number of equity shares is the number of equity shares outstanding as the beginning of the year / period adjusted by a number of equity shares issued during year / period multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year / period.

3. Return on Net Worth ratio ('RONW') mentioned in above note represents the aggregate of the paid up share capital, reserves & surplus.

Information required as per Item (II) (C) (iv) of Part A of Schedule VI to the SEBI Regulations:

An analysis of reasons for the changes in significant items of income and expenditure is given hereunder:

1. Unusual or infrequent events or transactions

There has not been any unusual trend, infrequent event or transaction in our business activity.

2. Significant economic changes that materially affected or are likely to affect income from continuing operations.

There are no significant economic changes that may materially affect or likely to affect income from continuing operations.

3. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Apart from the risks as disclosed under Section “**Risk Factors**” beginning on page 25 of the Prospectus, in our opinion there are no other known trends or uncertainties that have had or are expected to have a material adverse impact on revenue or income from continuing operations.

4. Future changes in relationship between costs and revenues

Other than as described in the sections “**Risk Factors**”, “**Our Business**” and “**Management’s Discussion and Analysis of Financial Condition and Results of Operations**” on pages 25, 116 and 202 respectively, to our knowledge, no future relationship between expenditure and income is expected to have a material adverse impact on our operations and finances.

5. Total turnover of each major industry segment in which our Company operates

The Company is a full-service provider of manufacturing of engineered goods and supply chain management services. Relevant industry data, as available, has been included in the chapter titled “**Industry Overview**” beginning on page 96 of this Prospectus.

6. Increases in net sales or revenue and Introduction of new products or services or increased sales prices

Increases in revenues are by and large linked to increases in volume of our business.

7. Status of any publicly announced New Products or Business Segment

Our Company has not announced any new product or service.

8. Seasonality of business

Our Company's business is not seasonal in nature.

9. Dependence on few customers

The revenue of our company is dependent on a single customer (thus limited number of customers).

10. Competitive conditions

Competitive conditions are as described under the Chapters "*Industry Overview*" and "*Our Business*" beginning on pages 96 and 116 respectively of the Prospectus.

11. Details of material developments after the date of last balance sheet i.e. March 31, 2021

Except as disclosed in this Prospectus, to our knowledge no circumstances have arisen since March 31, 2021, that could materially and adversely affect or are likely to affect, our operations or profitability, or the value or our ability to pay our material liabilities within the next 12 months

SECTION VII – LEGAL AND OTHER INFORMATION**OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS**

Except as stated in this section, there are no (i) criminal proceedings; (ii) actions taken by statutory or regulatory authorities; (iii) tax proceedings; (iv) any other pending litigation considered material, in each case, involving our Company, or our Directors and our Promoters; (v) any litigation involving our Company, our Directors or any other person whose outcome could have a material adverse effect on the position of our Company; (vi) inquiries, inspections or investigations initiated or conducted under the Companies Act against our Company in the preceding five (5) years from the date of this Prospectus; (vii) pending proceedings initiated against our Company for economic offences; (viii) material frauds committed by or against our Company in the preceding five (5) years from the date of this Prospectus; (ix) defaults for non-payment of statutory dues; (x) fines imposed or compounding of offences against our Company in the preceding five (5) years from the date of this Prospectus; (xi) matters involving our Company pertaining to violations of securities law; and (xii) outstanding dues to material creditors and small scale undertakings.

In relation to (iv) and (v) above, our Board, at its meeting held on May 25, 2021 has determined Material Litigation as:

- a. the aggregate amount involved in such individual litigation exceeds 5% of the profit after tax as per the last full year audited financial statements; or where the decision in one litigation is likely to affect the decision in similar litigations, even though the amount involved in such single litigation individually may not exceed the abovementioned thresholds, if similar litigations put together collectively exceed 5% of the profit after tax as per the last full year audited financial statements;*
- b. any such litigation wherein the monetary liability is not quantifiable but which is expected to be material from the perspective of the Company's business, operations, prospects or reputation.*

Except as stated in this section, there are no outstanding litigation involving our Group Companies, the outcome of which would have a material impact on our Company

In relation to (xii) above, our Board, at its meeting held on May 25, 2021 has determined 'Material Dues' as: Outstanding dues to creditors in excess of 5% of the outstanding trade payables as per the last audited financial statements. Details of Material Dues to creditors as required under the SEBI ICDR Regulations have been disclosed on our website at www.bombaymetrics.com

It is clarified that for the purposes of the above, pre-litigation notices received by our Company, Directors or Promoters shall, unless otherwise decided by the Board, not be considered as litigation until such time that our Company or any of its Directors or Promoters, as the case may be, is impleaded as a defendant in litigation before any judicial forum.

Except as disclosed herein, our Company, its Directors and Promoters are not Wilful Defaulters and there have been no violations of securities laws in the past or pending against them.

MECHANISM FOR REDRESSAL OF INVESTOR GRIEVANCES

The Agreement between the Registrar and our Company provides for retention of records with the Registrar for a period of at least three years from the last date of dispatch of the letters of allotment, demat credit and unblocking of funds to enable the investors to approach the Registrar to this Issue for redressal of their grievances. In terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2018/22 dated February 15, 2018, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days.

Further, the investors shall be compensated by the SCSBs in accordance with SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 in the events of delayed unblock for cancelled/withdrawn/deleted applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially-allotted applications, for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the post issue Lead Manager shall compensate the investors at the rate higher of ₹ 100 or 15% per annum of the application amount for the period of such delay.

All grievances in relation to the application process may be addressed to the Registrar to the Issue with a copy to the relevant Designated Intermediary to whom the Application Form was submitted. The Applicant should give full details such as name of the sole or first Applicant, Application Form number, Applicant DP ID, Client ID, UPI ID, PAN, date of the submission of Application Form, address of the Applicant, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Application Form was submitted by the Applicant. The Registrar to the Issue shall obtain the required information from the SCSBs and Sponsor Bank for addressing any clarifications or grievances of ASBA Applicant. Our Company, the LM and the Registrar to the Issue accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with its obligations under applicable SEBI ICDR Regulations.

Further, the Applicant shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned herein.

Our Company has not received any investor complaint during the three years preceding the date of this Prospectus. Further, no investor complaint in relation to our Company is pending as on the date of the Prospectus.

Further, as on date of this Prospectus our Company has no any subsidiary company and none of our Group Companies is listed on any stock exchanges, so disclosure regarding mechanism for redressal of investor grievances for our subsidiary company and group companies are not applicable.

DISPOSAL OF INVESTOR GRIEVANCES BY OUR COMPANY

Our Company or the Registrar to the Issue or the SCSB in case of ASBA Bidders shall redress routine investor grievances within 15 working days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has obtained authentication on the SCORES and shall comply with the SEBI circular (CIR/OIAE/1/2014) dated December 18, 2014 in relation to redressal of investor grievances through SCORES.

We have constituted the Stakeholders Relationship Committee of the Board *vide* resolution passed at the Board Meeting held on May 24, 2021. For further details, please refer to the section titled “*Our Management*” beginning on page 143 of this Prospectus.

SECTION IX – ISSUE RELATED INFORMATION

TERMS OF THE ISSUE

The Equity Shares being Allotted pursuant to this Issue shall be subject to the provisions of the Companies Act, 2013, SEBI (ICDR) Regulations, 2018, SEBI Listing Regulations, SCRA, SCRR, our Memorandum of Association and Articles of Association, the terms of the Draft Prospectus, the Prospectus, the Abridged Prospectus, Application Form, any Revision Form, the CAN/Allotment Advice and other terms and conditions as may be incorporated in the Allotment Advice and other documents/certificates that may be executed in respect of the Issue. The Equity Shares shall also be subject to laws as applicable, guidelines, rules, notifications and regulations relating to the issue of capital and listing and trading of securities issued from time to time by SEBI, the Government of India, the Stock Exchange, the RBI, RoC and/or other authorities, as in force on the date of the Issue and to the extent applicable or such other conditions as may be prescribed by the SEBI, the RBI, the Government of India, the Stock Exchange(s), the RoC and/or any other authorities while granting its approval for the Issue.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019 and circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 and any subsequent circulars issued by SEBI in this regard, SEBI has introduced an alternate payment mechanism using Unified Payments Interface (UPI) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIIs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019. With effect from July 1, 2019, with respect to Application by retail individual investors through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Applicants with existing timeline of T+6 days will continue for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, the final reduced timeline will be made effective using the UPI Mechanism for applications by retail individual investors (“UPI Phase III”), as may be prescribed by SEBI.

Further vide the said circular Registrar to the Issue and Depository Participants have also been authorized to collect the Application forms. Investors may visit the official website of the concerned stock exchange for any information on operationalization of this facility of form collection by the Registrar to the Issue and Depository Participants as and when the same is made available.

Allotment only in Dematerialised Form

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall

only be in dematerialized form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- 1) Tripartite agreement dated June 16, 2021 between our Company, NSDL and the Registrar to the Issue.
- 2) Tripartite agreement dated June 21, 2021 between our Company, CDSL and the Registrar to the Issue.

The Company's shares bear an ISIN: INE0I3Y01014.

Market Lot and Trading Lot

Trading of the Equity Shares will happen in the minimum contract size of 1200 Equity Shares in terms of the SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012 and the same may be modified by NSE from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Issue will be done in multiples of 1200 Equity Share subject to a minimum allotment of 1200 Equity Shares to the successful Applicants. Further, in accordance with SEBI (ICDR) Regulations the minimum application size in terms of number of specified securities shall not be less than Rupees One Lakh per application.

Minimum Number of Allottees

In accordance with Regulation 268 (1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within eight (8) Working days of closure of Issue.

Jurisdiction

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/authorities in Mumbai.

The Equity Shares have not been, and will not be, registered under the U.S. Securities Act 1933, as amended (the "Securities Act") or any state securities laws in the United States and may not be offered or sold within the United States or to, or for the account or benefit of, "U.S. persons" (as defined in Regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, the Equity Shares will be offered and sold outside the United States in compliance with Regulation S of the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been, and will not be, registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Joint Holders

Where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint-holders with benefits of survivorship.

Nomination facility to investors

In accordance with Section 72 (1) & 72 (2) of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 (3) of the Companies Act, 2013, be entitled to the same advantages to

which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in accordance to Section 72 (4) of the Companies Act, 2013, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Articles of Association of the Company, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
- (b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board of Directors may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board of Directors may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Applicant would prevail. If the Applicant wants to change the nomination, they are requested to inform their respective Depository Participant.

Withdrawal of the Issue

Our Company in consultation with the Lead Manager, reserve the right not to proceed with the Fresh Issue reserve the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of Offered Shares, at any time after the Issue Opening Date but before the Board meeting for Allotment. In such an event our Company would issue a public notice in the newspapers, in which the pre-Issue advertisements were published, within two days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Lead Manager, through the Registrar to the Issue, shall notify the SCSBs and Sponsor Bank (in case of RII’s using the UPI Mechanism), to unblock the bank accounts of the ASBA Applicants and the Escrow Collection Bank to release the Application Amounts to the Anchor Investors, if applicable, within one day of receipt of such notification. Our Company shall also promptly inform the Stock Exchange on which the Equity Shares were proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment; and (ii) the filing of Prospectus with RoC. If our Company, in consultation with the Lead Manager withdraw the Issue after the Application/ Issue Closing Date and thereafter determine that they will proceed with public Issue of the Equity Shares, our Company shall file a fresh Draft Offer Document with the Stock Exchange.

**In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/Offer Closing Date, the Bidder shall be compensated in accordance with the applicable law by the intermediary responsible for causing such delay in unblocking. The LM shall, in its sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking. The Bidder shall be compensated in the manner specified in the SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.*

The above timetable is indicative and does not constitute any obligation on our Company or the Lead Manager.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on NSE is taken within six Working Days from the Offer Closing Date, the time table may change due to various factors, such as extension of the Issue Period by our Company or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

Applications and any revision to the same shall be accepted **only between 10.00 a.m. and 5.00 p.m. (IST)** during the Issue Period. (except for the Issue Closing Date). On the Issue Closing Date, the Applications and any revision to the same shall be accepted between **10.00 a.m. and 3.00 p.m. (IST)** or such extended time as permitted by the Stock Exchanges, in case of Applications by Retail Individual Applicants after taking into account the total number of applications received up to the closure of timings and reported by the Lead Manager to the Stock Exchange. It is clarified that Applications not uploaded on the electronic system would be rejected. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Applications on the Issue Closing Date, the Applicants are advised to submit their Applications one day prior to the Issue Closing Date and, in any case, no later than 3.00 p.m. (IST) on the Issue Closing Date. All times mentioned in this Prospectus are Indian Standard Times. Applicants are cautioned that in the event a large number of Applications are received on the Issue Closing Date, as is typically experienced in public Issues, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Issue. Applications will be accepted only on Business Days. Neither our Company nor the Lead Manager is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Applications Amount) at any stage. Retail Individual Applicants can revise or withdraw their Applications prior to the Issue Closing Date. Except Allocation to Retail Individual Investors, Allocation in the Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic Application Form, for a particular Applicant, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSB or the member of the Syndicate for rectified data.

Minimum Subscription

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten. If the Issuer does not receive the subscription of 100% of the Issue through this issue document including devolvement of Underwriter within sixty days from the date of closure of the issue, the issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after the issuer becomes liable to pay the amount, the issuer shall pay interest prescribed under section 40 of the Companies Act, 2013.

In terms of Regulation 260 of the SEBI (ICDR) Regulations, 2018, the issue is 100% underwritten. For details of underwriting arrangement, kindly refer the chapter titled “*General Information- Underwriting*” beginning on page 55 of this Prospectus.

Further, in accordance with Regulation 267 of the SEBI ICDR Regulations, 2018, the minimum application size in terms of number of specified securities shall not be less than Rupees One Lakh per application.

ISSUE PROCEDURE

All Applicants should review the General Information Document for Investing in Public Issues prepared and issued in accordance with the circular (SEBI/HO/CFD/DIL1/CIR/P/2020/37) dated March 17, 2020 notified by SEBI and the UPI Circulars, notified by SEBI (the “**General Information Document**”), which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957 and the SEBI (ICDR) Regulations. The General Information Document shall be made available on the websites of the Stock Exchanges, the Company and the Lead Manager before opening of the Issue. Please refer to the relevant portions of the General Information Document which are applicable to this Issue.

Additionally, all Applicants may refer to the General Information Document for information, in addition to what is stated herein, in relation to (i) category of Applicants eligible to participate in the Issue; (ii) maximum and minimum Application size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Applicants and Retail Individual Investors applying through the United Payments Interface channel; (v) issuance of Confirmation of Allocation Note (“CAN”) and Allotment in the Issue; (vi) general instructions (limited to instructions for completing the Application Form); (vii) Designated Date; (viii) disposal of Applications; (ix) submission of Application Form; (x) other instructions (limited to joint Applications in cases of individual, multiple Applications and instances when an Application would be rejected on technical grounds); (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious Applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“**UPI Phase III**”), as may be prescribed by SEBI. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers opening on/or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, as amended, are deemed to form part of this Prospectus.

Our Company and the LM do not accept any responsibility for the completeness and accuracy of the information stated in this section and are not liable for any amendment, modification or change in the

applicable law which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that their Applications are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Prospectus.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Lead Manager.

Further, our Company and the LM are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Issue.

PART A

OCBs may invest in this Issue provided it obtains a prior

approval from the RBI. On submission of such approval along with the Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

For Retail Individual Applicants

The Application must be for a minimum of 1200 Equity Shares and in multiples of 1200 Equity Shares thereafter, so as to ensure that the Application Price payable by the Applicant does not exceed Rs. 2,00,000. In case of revision of Applications, the Retail Individual Applicants have to ensure that the Application Price does not exceed Rs. 2,00,000.

For Other than Retail Individual Applicants (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds Rs. 2,00,000 and in multiples of 1200 Equity Shares thereafter. An Application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Prospectus.

The above information is given for the benefit of the Applicants. The Company and the LMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

The total number of Shares to be allocated to each category as a whole shall be arrived at on proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).

The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

For applications where the proportionate allotment works out to less than 1200 Equity shares the allotment will be made as follows:

Each successful applicant shall be allotted 1200 Equity shares; and

The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of 1200 Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of 1200 Equity shares subject to a minimum allotment of 1200 Equity shares.

If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1200 Equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Prospectus.

The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for small individual applicants as described below:

As the retail individual investor category is entitled to more than fifty percent on proportionate basis, the retail individual investors shall be allocated that higher percentage.

The balance net offer of shares to the public shall be made available for allotment to Individual applicants other than retails individual investors and Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.

The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Retail Individual Investor' means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with Stock Exchange. The Executive Director / Managing Director of Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Participation by Associates /Affiliates of LM and the Market Makers

The LM, Market Maker and the Underwriter, if any shall not be entitled to subscribe to this Issue in any manner except towards fulfilling their underwriting and market making obligations. However, associates/affiliates of the LM/ Underwriters and Market Makers, if any may subscribe to Equity Shares in the Issue, either in the QIB Category or in the Non- Institutional Category as may be applicable to the Applicants, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Option to Subscribe in the Issue

As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.

The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.

A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Applicants to the Public Issue Account. In case of withdrawal/ failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

Terms of payment

The entire Issue price of Rs. 93 per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Applicants.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The applicants should note that the arrangement with Bankers to the Issue or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Issue and the Registrar to the Issue to facilitate collections from the Applicants.

Payment mechanism

The applicants shall specify the bank account number in their Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non Retail Applicants shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Application Form or for unsuccessful Application Forms, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application by the ASBA Applicant, as the case may be.

Unblocking of ASBA Account

On the basis of instructions from the Registrar to the Issue, the SCSBs shall transfer the requisite amount against each successful ASBA Applicant to the ASBA Public Issue Account as per section 40 (3) of the Companies Act, 2013 and shall unblock excess amount, if any in the ASBA Account.

However, the Application Amount may be unblocked in the ASBA Account prior to receipt of intimation from the Registrar to the Issue by the Controlling Branch of the SCSB regarding finalization of the Basis of Allotment in the Issue, in the event of withdrawal/failure of the Issue or rejection of the ASBA Application, as the case maybe.

Disposal of Applications and Application Moneys and Interest in Case of Delay

The Company shall ensure the dispatch of Allotment advice, instructions to SCSBs and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the Allotment to the Stock Exchange within one working day of the date of Allotment of Equity Shares.

The Company shall use best efforts that all steps for completion of the necessary formalities for listing and commencement of trading at SME Platform of NSE where the Equity Shares are proposed to be listed are taken within 6 (six) working days of closure of the issue.

Impersonation

Attention of the Applicants is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

"Any person who—

Makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or

Makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or

Otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447."

The liability prescribed under Section 447 of the Companies Act, for fraud involving an amount of at least Rs. 10 Lakhs or 1% of the turnover of the Company, whichever is lower, includes imprisonment for a term which shall not be less than six months extending up to 10 years and fine of an amount not less than the amount involved in the fraud, extending up to three times such amount.

Basis of Allotment

Allotment will be made in consultation with NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).

For applications where the proportionate allotment works out to less than 1200 equity shares the allotment will be made as follows:

Each successful applicant shall be allotted 1200 equity shares; and

The successful applicants out of the total applicants for that category shall be determined by the draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of 1200 equity shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of 1200 equity shares subject to a minimum allotment of 1200 equity shares.

If the Shares allocated on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.

Since present issue is a fixed price issue, the allocation in the net offer to the public category in terms of Regulation 253 of the SEBI (ICDR) Regulations, 2018 shall be made as follows:

Minimum of 50% of the net offer of shares to the Public (i.e. 2,18,400 Equity Shares) shall be made available for allotment to retail individual investors; and

The balance net offer of shares to the public (i.e. 2,18,400 Equity Shares) shall be made available for allotment to Non-Institutional Investors, including Qualified Institution Buyers, Corporate Bodies/ Institutions.

The unsubscribed portion in either of the categories specified in (a) or (b) above may be allocated to the applicants in the other category.

Explanation: If the retails individual investor category is entitled to more than allocated portion on proportionate basis, the retails individual investors shall be allocated that higher percentage.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is governed by the provisions of the FEMA Rules. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The DIPP makes policy announcements on FDI through press notes and press releases. In case of any conflict, the FEMA Rules prevail. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The consolidated FDI policy circular of 2017, dated August 28, 2017 issued by the DIPP (“FDI Circular”) consolidates the policy framework which was in force as on August 28, 2017 and reflects the FDI Policy as on August 28, 2017. Further, the FDI Circular consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP. As per the FDI Circular the cap for foreign investment in petroleum and natural gas industry, is 100% under the automatic route. However, downstream investments by a resident entity which is ‘foreign-owned and controlled’ within the meaning of the FDI Circular are treated as foreign investment for the purposes of the FDI Circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI or any other relevant authority, provided that (i) the activities of the investee company are under the automatic route under the FDI Circular and the transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Circular; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI and RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, or any state securities laws in the United States, and, unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws in the United States. Accordingly, the Equity Shares are being offered only outside the United States in offshore transactions in compliance with Regulation S under the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company. Investors cannot offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriter and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

**SECTION X – MAIN PROVISIONS OF ARTICLES OF ASSOCIATION
THE COMPANIES ACT, 2013**

COMPANY LIMITED BY SHARES

ARTICLES OF ASSOCIATION OF

BOMBAY METRICS SUPPLY CHAIN LIMITED

Preliminary

The regulations contained in the Table marked ‘F’ in Schedule I to the Companies Act, 2013 shall not apply to the Company, except in so far as the same are repeated, contained or expressly made applicable in these Articles or by the said Act.

The regulations for the management of the Company and for the observance by the members thereto and their representatives, shall, subject to any exercise of the statutory powers of the Company with reference to the deletion or alteration of or addition to its regulations by resolution as prescribed or permitted by the Companies Act, 2013, be such as are contained in these Articles.

Interpretation

1. In these Articles, unless the context otherwise requires —
 - (i) “Act” shall mean the Companies Act, 2013,
 - (ii) “Applicable Law” shall mean (a) any applicable statute, law, regulation, ordinance, rule, judgment, rule of law, order, decree, clearance, approval, directive, guideline, policy, requirement, or other governmental restriction.
 - (iii) or any similar form of decision, or determination by, or any interpretation or administration of any of the foregoing by, any statutory or regulatory authority;
 - (iv) “Board” shall mean the board of directors of the Company.
 - (v) “Common seal” means the common seal of the Company.
 - (vi) “Company” shall mean **Bombay Metrics Supply Chain Limited**
 - (vii) “Director” shall mean the director of the Company.
 - (viii) “Memorandum” shall mean the memorandum of association of the Company.
 - (ix) “Shares” shall mean the Shares of the Company.
2. Unless the context otherwise requires, words or expressions contained in these regulations shall bear the same meaning as in the Act or any statutory modification thereof in force at the date at which these regulations become binding on the Company.

Public Company

1. The Company is a Public Company within the meaning of Section 2(71) of the Companies Act, 2013 and accordingly:
 - (a) is not a private company

Provided that a company which is a subsidiary of a company, not being a private company, shall be deemed to be public company for the purposes of this Act even where such subsidiary company continues to be a private company in its articles.

Share capital and variation of rights

2. The authorised and issued share capital of the Company shall be as stated in Clause V of the Memorandum of the Company, capable of being increased or decreased in accordance with these presents and the provisions of the Act in that behalf with the power to divide the Share capital, whether original or increased or decreased into several classes and conditions in such a manner as may for the time being be provided by these presents and allowed by the Act.

3. Subject to the provisions of the Act and these Articles, the Shares in the capital of the Company shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit.

4. (i) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after incorporation, in case of subscribers to the memorandum or after allotment or within one month after the application for the registration of transfer or transmission or within such other period as the conditions of issue shall be provided,—
 - (a) one certificate for all his Shares without payment of any charges; or
 - (b) several certificates, each for one or more of his Shares, upon payment of twenty rupees for each certificate after the first.
 (ii) Every certificate shall be under the Common Seal and shall specify the Shares to which it relates and the amount paid-up thereon.

 (iii) In respect of any share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate, and delivery of a certificate for a share to one of several joint holders shall be sufficient delivery to all such holders.

5. (i) If any Share certificate be worn out, defaced, mutilated or torn or if there be no further space on the back for endorsement of transfer, then upon production and surrender thereof to the Company, a new certificate may be issued in lieu thereof, and if any certificate is lost or destroyed then upon proof thereof to the satisfaction of the Company and on execution of such indemnity as the Company deem adequate, a new certificate in lieu thereof shall be given. Every certificate under this Article shall be issued on payment of fees for each certificate as may be fixed by the Board.

 (ii) The provisions of Articles 3 and 4 shall *mutatis mutandis* apply to debentures of the Company.

6. Except as required by Applicable Law, no person shall be recognised by the Company as holding any Share upon any trust, and the Company shall not be bound by, or be compelled in any way to recognise (even when having notice thereof) any equitable, contingent, future or partial interest in any Share, or any interest in any fractional part of a Share, or (except only as by these regulations

or by law otherwise provided) any other rights in respect of any Share except an absolute right to the entirety thereof in the registered holder.

7. (i) If at any time the Share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may, subject to the provisions of Section 48 of the Act, and whether or not the Company is being wound up, be varied with the consent in writing of the holders of three-fourths of the issued Shares of that class, or with the sanction of a special resolution passed at a separate meeting of the holders of the Shares of that class.

(ii) To every such separate meeting, the provisions of these regulations relating to general meetings shall *mutatis mutandis* apply, but so that the necessary quorum shall be at least two persons holding at least one-third of the issued Shares of the class in question.
8. The rights conferred upon the holders of the Shares of any class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that class, be deemed to be varied by the creation or issue of further Shares ranking *paripassu* therewith.
9. Subject to the provision of Section 55 of the Act, the Company shall have the power to issue redeemable preference Shares. The resolution authorising such issue shall prescribe the manner, terms and conditions for redemption.
10. The Company shall have the power, subject to and in accordance with the provisions of Section 54 of the Act and other relevant regulations in this regard from time to time or to the corresponding sections of the Act, to issue sweat equity Shares to its employees and/or Directors on such terms and conditions and in such manner as may be prescribed by the law from time to time.

Lien

11. (i) The Company shall have a first and paramount lien—
 - (a) on every Share (not being a fully paid Share), for all monies (whether presently payable or not) called, or payable at a fixed time, in respect of that Share; and
 - (b) on all Shares (not being fully paid Shares) standing registered in the name of a single person, for all monies presently payable by him or his estate to the Company: Provided that the Board may at any time declare any Share to be wholly or in part exempt from the provisions of this clause.

Provided that the Board may at any time declare any Share to be wholly or in part exempt from the provisions of this clause.
- (ii) The Company's lien, if any, on a Share shall extend to all dividends payable and bonuses declared from time to time in respect of such Shares.
12. The Company may sell, in such manner as the Board thinks fit, any Shares on which the Company has a lien:

Provided that no sale shall be made—

- (i) unless a sum in respect of which the lien exists is presently payable; or
 - (ii) until the expiration of fourteen days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the Share or the person entitled thereto by reason of his death or insolvency.
13. (i) To give effect to any such sale, the Board may authorise some person to transfer the Shares sold to the purchaser thereof.
- (ii) The purchaser shall be registered as the holder of the Shares comprised in any such transfer.
- (iii) The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
14. (i) The proceeds of the sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable.
- (ii) The residue, if any, shall, subject to a like lien for sums not presently payable as existed upon the Shares before the sale, be paid to the person entitled to the Shares at the date of the sale.

Calls on Shares

15. (i) The Board may, from time to time, make calls upon the members in respect of any monies unpaid on their Shares (whether on account of the nominal value of the Shares or byway of premium) and not by the conditions of allotment thereof made payable at fixed times:
- Provided that no call shall exceed one-fourth of the nominal value of the Share or be payable at less than one month from the date fixed for the payment of the last preceding call.
- (ii) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company, at the time or times and place so specified, the amount called on his Shares.
- (iii) A call may be revoked or postponed at the discretion of the Board.
16. A call shall be deemed to have been made at the time when the resolution of the Board authorising the call was passed and may be required to be paid by instalments.
17. The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.
18. (i) If a sum called in respect of a Share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest thereon from the day appointed for payment thereof to the time of actual payment at ten per cent. per annum or at such lower rate, if any, as the Board may determine.

- (ii) The Board shall be at liberty to waive payment of any such interest wholly or in part.
19. (i) Any sum which by the terms of issue of a Share becomes payable on allotment or at any fixed date, whether on account of the nominal value of the Share or by way of premium, shall, for the purposes of these regulations, be deemed to be a call duly made and payable on the date on which by the terms of issue such sum becomes payable.
- (ii) In case of non-payment of such sum, all the relevant provisions of these regulations as to payment of interest and expenses, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
20. The Board
- (i) may, if it thinks fit, receive from any member willing to advance the same, all or any part of the monies uncalled and unpaid upon any Shares held by him; and
- (ii) upon all or any of the monies so advanced, may (until the same would, but for such advance, become presently payable) pay interest at such rate not exceeding, unless the Company in general meeting shall otherwise direct, twelve per cent per annum, as may be agreed upon between the Board and the member paying the sum in advance.

Transfer of Shares

21. (i) The instrument of transfer of any Share in the Company shall be executed by or on behalf of both the transferor and transferee.
- (ii) The transferor shall be deemed to remain a holder of the Share until the name of the transferee is entered in the register of members in respect thereof.
22. The Board may, subject to the right of appeal conferred by section 58 of the Act decline to register—
- (a) the transfer of a Share, not being a fully paid Share, to a person of whom they do not approve;
or
- (b) any transfer of Shares on which the Company has a lien.
23. The Board may decline to recognise any instrument of transfer unless—
- (a) the instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56 of the Act;
- (b) the instrument of transfer is accompanied by the certificate of the Shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and
- (c) the instrument of transfer is in respect of only one class of Shares.

24. On giving not less than seven days' previous notice in accordance with section 91 of the Act and rules made thereunder, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:

Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.

Transmission of shares

25. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the company as having any title to his interest in the shares.
- (ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.
26. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either
- (a) to be registered himself as holder of the share; or
- (b) to make such transfer of the share as the deceased or insolvent member could have made..
- (ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.
27. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.
- (ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.
- (iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.
28. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

Forfeiture of shares

29. If a member fails to pay any call, or instalment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or instalment remains unpaid, serve a notice on him requiring payment of so much of the call or instalment as is unpaid, together with any interest which may have accrued.
30. The notice aforesaid shall—
 - (a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
 - (b) state that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.
31. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.
32. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

(ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.
33. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.

(ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.
- 34.i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;

(ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

(iii) The transferee shall thereupon be registered as the holder of the share; and

(iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.
35. The provisions of these regulations as to forfeiture shall apply in the case of nonpayment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account

of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

Alteration of capital

36. The Directors may, from time to time, with the sanction of the Company in general meeting by ordinary resolution increase the authorised capital of the Company by such sum to be divided into Shares of such amount and of such classes with such rights and privileges attached thereto as the general meeting shall direct by specifying the same in the resolution and if no directions be given, as the Directors may determine.
37. Subject to the provisions of section 61 of the Act, the Company may, by ordinary resolution,—
 - (a) consolidate and divide all or any of its Share capital into Shares of larger amount than its existing Shares;
 - (b) convert all or any of its fully paid-up Shares into stock, and reconvert that stock into fully paid-up Shares of any denomination;
 - (c) sub-divide its Shares, or any of them, into Shares of smaller amount than is fixed in the Memorandum, and
 - (d) cancel any Shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person.
38. The Company may, by special resolution, reduce in any manner and with, and subject to, any incident authorised and consent required by law,—
 - (i) its Share capital;
 - (ii) any capital redemption reserve account; or
 - (iii) any Share premium account.

Capitalization of profits

39. (i) The Company in general meeting may, upon the recommendation of the Board, resolve—
 - (a) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the Company's reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and
 - (b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.
- (ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—

- (a) paying up any amounts for the time being unpaid on any Shares held by such members respectively;
 - (b) paying up in full, unissued Shares of the Company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;
 - (c) partly in the way specified in sub-clause (a) and partly in that specified in sub-clause (b);
 - (d) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued Shares to be issued to members of the Company as fully paid bonus Shares;
 - (e) The Board shall give effect to the resolution passed by the Company in pursuance of this regulation.
40. (i) Whenever such a resolution as aforesaid shall have been passed, the Board shall—
- (a) make all appropriations and applications of the undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid Shares if any; and
 - (b) generally do all acts and things required to give effect thereto.
- (ii) The Board shall have power—
- (a) to make such provisions, by the issue of fractional certificates or by payment in cash or otherwise as it thinks fit, for the case of Shares becoming distributable infractions; and
 - (b) to authorise any person to enter, on behalf of all the members entitled thereto, into an agreement with the Company providing for the allotment to them respectively, credited as fully paid-up, of any further Shares to which they may be entitled upon such capitalisation, or as the case may require, for the payment by the Company on their behalf, by the application thereto of their respective proportions of profits resolved to be capitalised, of the amount or any part of the amounts remaining unpaid on their existing Shares;
- (iii) Any agreement made under such authority shall be effective and binding on such members.

Buy-back of Shares

41. The Company shall have the power to buy-back its own Shares or other securities subject to the provisions of Sections 68 to 70 of the Act or any statutory modifications thereof and any guidelines as may be laid down in this regard.

General meetings

42. All general meetings other than annual general meeting shall be called extraordinary general meetings.
43. (i) The Board may, whenever it thinks fit, call an extraordinary general meeting.

- (ii) If at any time directors capable of acting who are sufficient in number to form a quorum are not within India, any director or any two members of the Company may call an extraordinary general meeting in the same manner, as nearly as possible, as that in which such a meeting may be called by the Board.

Proceedings at general meetings

- 44. (i) No business shall be transacted at any general meeting unless a quorum of members is present at the time when the meeting proceeds to business.
 - (ii) Save as otherwise provided herein, the quorum for the general meetings shall be as per the act.
- 45. The chairperson, if any, of the Board shall preside as chairperson at every general meeting of the Company.
- 46. If there is no such chairperson, or if he is not present within fifteen minutes after the time appointed for holding the meeting, or is unwilling to act as chairperson of the meeting, the directors present shall elect one of their members to be chairperson of the meeting.
- 47. If at any meeting no director is willing to act as chairperson or if no director is present within fifteen minutes after the time appointed for holding the meeting, the members present shall choose one of their members to be chairperson of the meeting.

Adjournment of meeting

- 48. (i) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.
 - (ii) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.
 - (iii) When a meeting is adjourned for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
 - (iv) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

Voting rights

- 49. Subject to any rights or restrictions for the time being attached to any class or classes of Shares,—
 - (i) on a show of hands, every member present in person shall have one vote; and
 - (ii) on a poll, the voting rights of members shall be in proportion to his Share in the paid-up equity Share capital of the Company.

50. A member may exercise his vote at a meeting by electronic means in accordance with section 108 of the Act and shall vote only once.
51. (i) In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders.
- (ii) For this purpose, seniority shall be determined by the order in which the names stand in the register of members.
52. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee or other legal guardian, and any such committee or guardian may, on a poll, vote by proxy.
53. Any business other than that upon which a poll has been demanded may be proceeded with, pending the taking of the poll.
54. No member shall be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of Shares in the Company have been paid.
55. (i) No objection shall be raised to the qualification of any voter except at the meeting or adjourned meeting at which the vote objected to is given or tendered, and every vote not disallowed at such meeting shall be valid for all purposes.
- (ii) Any such objection made in due time shall be referred to the Chairperson of the meeting, whose decision shall be final and conclusive.

Proxy

56. The instrument appointing a proxy and the power-of-attorney or other authority, if any, under which it is signed or a notarised copy of that power or authority, shall be deposited at the registered office of the Company not less than 48 hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote, or, in the case of a poll, not less than 24 hours before the time appointed for the taking of the poll; and in default the instrument of proxy shall not be treated as valid.
57. An instrument appointing a proxy shall be in the form as prescribed in the rules made under section 105 of the Act.
58. A vote given in accordance with the terms of an instrument of proxy shall be valid, notwithstanding the revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the Shares in respect of which the proxy is given:

Provided that no intimation in writing of such death, insanity, revocation or transfer shall have been received by the Company at its office before the commencement of the meeting or adjourned meeting at which the proxy is used.

Board of Directors

59. Unless otherwise determined by the Company in general meeting the number of Directors shall not be less than 3 (Three) and shall not be more than 15(Fifteen).
- (ii) The Board shall have power to determine the directors whose period of the office is or not liable to determine by retirement of director by rotation.
60. (i) The remuneration of the directors shall, in so far as it consists of a monthly payment, be deemed to accrue from day-to-day.
- (ii) In addition to the remuneration payable to them in pursuance of the Act, the directors may be paid all travelling, hotel and other expenses properly incurred by them—
- (a) in attending and returning from meetings of the Board of Directors or any committee thereof or general meetings of the Company; or
- (b) in connection with the business of the Company.
61. The Company may exercise the powers conferred on it by section 88 of the Act with regard to the keeping of a foreign register; and the Board may (subject to the provisions of that section) make and vary such regulations as it may think fit respecting the keeping of any such register.
62. All cheques, promissory notes, drafts, *hundis*, bills of exchange and other negotiable instruments, and all receipts for monies paid to the Company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, by such person and in such manner as the Board shall from time to time by resolution determine.
63. Every director present at any meeting of the Board or of a committee thereof shall sign his name in a book to be kept for that purpose.
64. (i) Subject to the provisions of section 149 of the Act, the Board shall have power at any time, and from time to time, to appoint a person as an additional director, provided the number of the directors and additional directors together shall not at any time exceed the maximum strength fixed for the Board by the articles.
- (ii) Such person shall hold office only up to the date of the next annual general meeting of the Company but shall be eligible for appointment by the Company as a director at that meeting subject to the provisions of the Act.
65. The Board may appoint a person not being a person holding any alternate directorship for any other director in the Company to act as an alternate director for a director during his absence for a period of not less than 3 months from India. Such alternate director shall be entitled, while holding office as such to receive notices of meetings of the Board or any committee of the Board to which the relevant original director has been appointed and to attend and vote as a director at any such meeting of the Board or any such committee at which the relevant director is not present and generally to exercise all

the powers, rights, duties and authorities and to perform all functions of such original director. Further such alternate director shall be entitled to exercise the vote of the original director at any meeting of the Board or any such committee. The alternate director shall continue to hold office for a period not longer than that permissible to the original director in whose place he has been appointed and shall vacate the office if and when the director in whose place he has been appointed returns to India.

Proceedings of the Board

66. (i) The Board of Directors may meet for the conduct of business, adjourn and otherwise regulate its meetings, as it thinks fit.
- (ii) A director may, and the manager or secretary on the requisition of a director shall, at any time, summon a meeting of the Board.
67. (i) Save as otherwise expressly provided in the Act, questions arising at any meeting of the Board shall be decided by a majority of votes.
- (ii) In case of an equality of votes, the Chairperson of the Board, if any, shall have a second or casting vote.
68. Where the Board is unable to hold a physical meeting, the Board may hold a meeting of the Board via video-conference or any other mode permitted by Applicable Law. The Board will ensure that all Board meetings are held in accordance with the Act, Rules and Applicable Laws.
69. The continuing directors may act notwithstanding any vacancy in the Board; but, if and so long as their number is reduced below the quorum fixed by the Act for a meeting of the Board, the continuing directors or director may act for the purpose of increasing the number of directors to that fixed for the quorum, or of summoning a general meeting of the Company, but for no other purpose.
70. (i) The Board may elect a Chairperson of its meetings and determine the period for which he is to hold office.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the directors present may choose one of their number to be Chairperson of the meeting.
71. (i) The Board may, subject to the provisions of the Act, delegate any of its powers to committees consisting of such member or members of its body as it thinks fit.
- (ii) Any committee so formed shall, in the exercise of the powers so delegated, conform to any regulations that may be imposed on it by the Board.
72. (i) A committee may elect a Chairperson of its meetings.
- (ii) If no such Chairperson is elected, or if at any meeting the Chairperson is not present within five minutes after the time appointed for holding the meeting, the members present may choose one of their members to be Chairperson of the meeting.

73. (i) A committee may meet and adjourn as it thinks fit.
- (ii) Questions arising at any meeting of a committee shall be determined by a majority of votes of the members present, and in case of an equality of votes, the Chairperson shall have a second or casting vote.
74. All acts done in any meeting of the Board or of a committee thereof or by any person acting as a director, shall, notwithstanding that it may be afterwards discovered that there was some defect in the appointment of any one or more of such directors or of any person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such director or such person had been duly appointed and was qualified to be a director.
75. Save as otherwise expressly provided in the Act, a resolution in writing, signed by all the members of the Board or of a committee thereof, for the time being entitled to receive notice of a meeting of the Board or committee, shall be valid and effective as if it had been passed at a meeting of the Board or committee, duly convened and held.

The Seal

76. (i) The Board shall provide for the safe custody of the seal.
- (ii) The seal of the Company shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorised by it in that behalf, and except in the presence of at least two directors and of the secretary or such other person as the Board may appoint for the purpose; and those two directors and the secretary or other person aforesaid shall sign every instrument to which the seal of the Company is so affixed in their presence.
77. The Directors shall provide a Common Seal for the purpose of the Company and shall have power from time to time to destroy the same and substitute a new seal in lieu thereof and the Directors shall provide for the safe custody of the Common Seal for the time being and the Common Seal shall never be used except by or under the authority of the Directors or a Committee of the Directors and in the presence of at least one Director who shall sign every instrument to which the Common Seal is affixed.

Dividends and Reserve

78. The Company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
79. Subject to the provisions of section 123 of the Act, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the Company.
80. (i) The Board may, before recommending any dividend, set aside out of the profits of the Company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be

applicable for any purpose to which the profits of the Company may be properly applied, including provision for meeting contingencies or for equalising dividends; and pending such application, may, at the like discretion, either be employed in the business of the Company or be invested in such investments (other than Shares of the Company) as the Board may, from time to time, think fit.

(ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.

81. (i) Subject to the rights of persons, if any, entitled to Shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the Shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the Shares in the Company, dividends may be declared and paid according to the amounts of the Shares.

(ii) No amount paid or credited as paid on a Share in advance of calls shall be treated for the purposes of this regulation as paid on the Share.

(iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the Shares during any portion or portions of the period in respect of which the dividend is paid; but if any Share is issued on terms providing that it shall rank for dividend as from a particular date such Share shall rank for dividend accordingly.

82. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the Company on account of calls or otherwise in relation to the Shares of the Company.

83. (i) Any dividend, interest or other monies payable in cash in respect of Shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.

(ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.

84. Any one of two or more joint holders of a Share may give effective receipts for any dividends, bonuses or other monies payable in respect of such Share.

85. Notice of any dividend that may have been declared shall be given to the persons entitled to Share therein in the manner mentioned in the Act.

86. No dividend shall bear interest against the Company.

Accounts

87. (i) The Board shall from time to time determine whether and to what extent and at what times and places and under what conditions or regulations, the accounts and books of the Company, or any of them, shall be open to the inspection of members not being directors.

(ii) No member (not being a director) shall have any right of inspecting any account or book or document of the Company except as conferred by law or authorised by the Board or by the Company in general meeting.

88. The Company shall, in relation to its financial statements, adopt accounting principles as approved by the Board.
89. The auditors of the Company shall be a firm of chartered accountants of repute as may be agreed between the Shareholders from time to time.
90. The financial year of the Company shall be 1st April of a year to 31st March of the immediately succeeding year. For the first year, the financial year shall be from the date of incorporation to the 31st March of the immediately succeeding year, unless determined otherwise by the Board.

Winding up

91. Subject to the provisions of Chapter XX of the Act and rules made thereunder—

(i) If the Company shall be wound up, the liquidator may, with the sanction of a special resolution of the Company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the Company, whether they shall consist of property of the same kind or not.

(ii) For the purpose aforesaid, the liquidator may set such value as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the members or different classes of members.

(iii) The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trusts for the benefit of the contributories if he considers necessary, but so that no member shall be compelled to accept any Shares or other securities whereon there is any liability.

Indemnity

92. Every officer of the Company shall be indemnified out of the assets of the Company against any liability incurred by him in defending any proceedings, whether civil or criminal, in which judgment is given in his favour or in which he is acquitted or in which relief is granted to him by the court or the tribunal.
