#### **INTERNAL RISK FACTOR:**

1. Our Promoters, Promoters Group and Group Company are party to certain litigation and claims. These legal proceedings are pending at different levels of adjudication before various courts and regulatory authorities. Any adverse decision may make us liable to liabilities/penalties and may adversely affect our reputation, business and financial status. A classification of these legal and other proceedings is given below:

**2. Investment risk pertaining to investment in our associate company Dynamic Services & Security Limited.**

We have acquired 22,82,063 Equity shares of Dynamic Services & Security Limited (“DSSL”) being 25.97% of total current shareholding on 30/08/2021 and in turn issued our shares to the shareholders as consideration. (For further details, please refer chapter “**Capital Structure**” beginning from page no. 40 of this prospectus). The Company Dynamic Services & Security Limited has its own internal risks and is also involved in certain litigations, any adverse outcome of which may erode the value our investment resulting in adverse financial impact for our Company. Certain notable risks are enumerated below:

**a) Impact of merger of the three proprietorships firms with Dynamic Services & Security Limited:**

DSSL has taken over three proprietorship firm namely M/s. Dynamic Services (Prop: Jugal Kishore Bhagat), M/s. Dynamic Enterprises (Prop: Rekha Bhagat) and M/s. Global Services (Prop: Rekha Devi Bhagat) with effect from March 31, 2019 vide Business Takeover agreement (BTA) dated 30<sup>th</sup> June 2019 as a going concern and all the assets, liabilities, revenues and expenses of the three firms has been merged with DSSL. However, since the ongoing contracts are undertaken in the proprietorship entities and the respective PAN and GST are used for receipt of contractual payments but for accounting purposes all the revenues, expenses, assets and liabilities are booked in the name of DSSL as per the BTA terms, so there is a mismatch in the filings done to statutory authorities like GST and Income Tax by the respective clients for whom the work is undertaken by the respective proprietorship entities, but since the accounting records are of DSSL and filings are accordingly made so there may be possibility of departmental enquiry and adverse outcome resulting in adverse impact on the financials of DSSL.

**b) DSSL has contingent liabilities which if materialises may adversely affect the financial position:**

As on March 31, 2021 DSSL has contingent liabilities towards bank guarantees, tax demands and disputed claims not provided for to the tune of Rs. 1353.06 Lakhs. The said contingent liabilities if materialises may adversely affect the financial position of our Company.

*In the past, one Bank Guarantee issued by M/s. Dynamic Services amounting to Rs. 147.33 Lakhs (being 10% of total contract value of Rs. 1473.32 Lakhs) has been forfeited by West Central Railway and contract has been terminated.*

**3. Ongoing enquiry proceedings by Goods and Service Tax department against the proprietary concern of Mr. Jugal Kishore Bhagat namely M/s. Dynamic Services and M/s. Pragati General Order Supplier:**

There was an investigation/enquiry/Audit pertaining to Service Tax dues for the period 1<sup>st</sup> April 2015 to 1<sup>st</sup> June 2017 of the above-mentioned firm, which culminated into a demand of Rs.730.21 Lacs, and was settled under the Sabka Vishwas (Legacy Dispute Resolution) Scheme, 2019 by making a payment of Rs.365.11 Lacs to DGGI-North Kolkata.

Further, enquiry/investigation pertaining to GST liability assessment for the FY 2017-18, 2018-19 and 2019-20 are ongoing for the same firm mentioned above, with Bureau of Investigation (South Bengal) and DGGI-East Kolkata Unit. Both the agency as afore-stated collected relevant documents as was available with the firm at the time of the respective Survey. The Firm requested the Bureau of Investigation (South Bengal) to consolidate all the enquiries with one department i.e., DGGI-East Kolkata Unit instead of two separate units for the better compliance purpose. The matter is pending with DGGI-East Kolkata Unit as well of Bureau of Investigation (South Bengal). Total amount of dues is yet to be ascertained as the outcome of the enquiry proceedings is pending. Any adverse outcome of the enquiry proceedings may affect the financial position of the Company/Group.

**4. Pending Income Tax proceedings in the name of the Promoters:**

There are pending Income Tax proceeding in the name of Mr. Jugal Kishore Bhagat under section 143(2) for complete scrutiny of books of accounts for the AY 2020-21. The matter is under proceeding. Any negative outcome involving Income Tax demands, penalties and Interest will have a material impact on the financials of the Promoter and may also in-turn adversely affect the financials of our Company. Income Tax notices are also served in the name of Mrs. Rekha Bhagat which is under process. Any adverse proceedings may impact our Companies financials.

**5. One of our Promoters proprietorship firm, M/s. Dynamic Services has been debarred by West Central Railway**

West Central Railway has terminated a contract worth Rs. 1473.32 lakhs of M/s. Dynamic Services vide their letter dated 15/11/2019 and reconfirmed vide their letter dated 16/03/2020, wherein it has been alleged that Balance Sheet and P/L Account filed by the firm during the tendering process was incorrect and untrue, when compared with the documents provided/filed with the Income Tax Department. West Central Railway also forfeited the performance guarantee amounting to Rs. 147.33 Lakhs and debarred the firm from participating in any bid for executing any work being tendered by West Central Railway for a period as per extant rules and guideline.

**6. Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.**

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

Particulars	31-03-2021	31-03-2020	31-03-2019
Net cash from operating activities	(2,67,29,946)	9,81,013	9,44,954
Net Cash (used in) / from investing activities	(2,80,505)	-	-
Net Cash used in financing activities	2,71,04,235	(10,45,948)	(9,72,843)
<b>Net increase/(decrease) in cash and cash equivalent</b>	<b>93,784</b>	<b>(64,935)</b>	<b>(27,889)</b>

**7. Our majority turnover is from few clients in the past three years**

Our clientele base is increasing over the years wherein we have been able to add new clients however the number of clients with whom we have done the high value transaction is low. Our Management has been proactively involved in increasing the business and have managed to add to the clientele some of the big players and also our Company has diversified into Infrastructure space wherein we have already entered into high value contracts with the Government departments. If our Company is not able to sustain the momentum and deliver quality service and timely execution, we may not be able to secure big contracts or expand our business which will adversely affect our financial position.

**8. We may face competition from a number of international and domestic third-party logistics companies, which may adversely affect our market position and business.**

While the logistics industry in India is generally fragmented, we may face competition from a number of international and domestic third-party logistics service providers, especially as the trend toward larger-scale logistics providers in India continues. Some of our competitors may have significantly greater financial and marketing resources and operate larger networks than we do. In the regions of India in which we may operate, we may face competition from certain regional logistics services providers and the unorganized sector, some of which have market presence in their respective areas of operation. We may also face competition from new entrants into the logistics service industry. If we cannot maintain, or gain, sufficient market presence or are unable to differentiate ourselves from our competitors, we may not be able to compete effectively. Further, if we cannot maintain cost competitiveness within the third-party logistics industry, including, in the event we choose to expand and incur excessive fixed costs or if we experience a disproportionate increase in costs in comparison to our competitors, our customers could choose to service their third-party logistics needs with our competitors rather than us. Our ability to compete effectively may be constrained by the following factors:

- Lack of own Vehicles and dependence on third party Transport providers
- loss of key members of our management and experienced employees (in particular those from our sales force who have established relationships with our key customers and those who have deep sector expertise that we leverage to provide effective solutions for our customers) to our competitors;
- deployment of more advanced technology platforms by our competitors;
- alliances entered into by our competitors with other logistics services providers, increasing their distribution network or resources and technologies that may not be available to us;
- lower cost base of domestic and regional competitors than ours, increasing their cost competitiveness;
- the deployment by our competitors of a more robust fleet of transportation vehicles;
- difficulties entering new sectors that may be dominated by competitors;
- our competitors having a wider domestic and global network of warehouses and delivery centres; and
- existing or new competitors pricing their services with significant discounts.

In addition, increased competition may reduce the growth of our customer base and result in higher selling and promotional expenses. If we are unable to compete effectively with our competitors, we may experience a decline in our revenues and profitability and our business, financial condition and results of operations could be materially and adversely affected.

**9. Delays or defaults in payment by our customers could affect our cash flows and may adversely affect our financial condition and operations.**

We extend credit to certain of our customers for long periods of time and there is no assurance that we will be able to recover outstanding amounts in part, full or at all. We have and may continue to have high levels of outstanding receivables. Our average outstanding receivable days are 3 to 4 months in the past three financial years. Hence, if delays or defaults in client payments continue or increase in proportion to our total revenues, it could negatively affect our cash flows and consequently affect our financial condition and operations. Further, while we may take appropriate action in the event of a non-payment of receivables, there can be no assurance that we will be able to successfully recover outstanding amounts owed to us in part or full, which in turn could affect our cash flows and may adversely affect our financial condition and operations.

**10. We have incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations. We may also be unable to obtain future financing to fund our operations, expected capital expenditure and working capital requirements on favorable terms, or at all.**

As on the date of the Prospectus, we have outstanding outside debt in our books of accounts. Our level of indebtedness has important consequences to us, such as:

- increasing our vulnerability to general adverse economic, industry and competitive conditions;
- limiting our flexibility in planning for, or reacting to, changes in our business and the industry;
- affecting our credit rating;
- limiting our ability to borrow more money both now and in the future; and
- increasing our interest expenditure and adversely affecting our profitability.

If any of these risks were to materialise, our business and results of operations may be adversely affected. Our business requires funding for capital expenditure and working capital requirements. The actual amount and timing of future capital expenditure may depend on several factors, among others, new opportunities, regulatory approvals, regulatory changes, economic conditions, technological changes and market developments in our industry. Our sources of additional funding, if required, to meet our capital expenditure may include the incurrence of debt or the issue of equity or debt securities or a combination of both. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. In case there is insufficient cash flow to meet our working capital requirement or we are unable to arrange the same from other sources or there is delay in disbursement of arranged funds, or there is any increase in interest rate on our borrowings, it may adversely affect our operations and profitability. These factors may result in an increased amount of short-term borrowings.

**11. Our Registered Office from where we operate are not owned by us.**

Our Registered Office premise is situated at 375, Dakshindari Road, Kolkata – 700 048, West Bengal, India, which is owned by promoters of our company. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favorable terms in future. For further details, see section “**Our Business**” on page 64 of this prospectus. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favorable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

**12. The trend toward outsourcing of supply chain management activities, throughout India or within specific sectors, may change, thereby reducing demand for our services.**

Our growth strategy is based on the assumption that the trend of outsourcing of supply chain management and other logistics services will continue, or rise, in the future to a certain extent. Third-party logistics service providers, such as us, are generally able to conduct supply chain management and other logistics services more efficiently than comparable in-house operations run by customers primarily as a result of expertise, implementation and adoption of technology, efficient management of operations and lower and more flexible employee cost structures. However, many factors could cause a reversal of this trend. For example, our customers may consider the risks in relying on third-party service providers, or they may begin to define these activities as within their own core competencies and decide to perform supply chain and other logistics operations themselves or they may select transport providers who have their own fleet instead of logistic service providers like us who don't own any vehicle but source it through other transport providers, which could have a material and adverse effect on our business.

Furthermore, when a customer ceases to outsource portions of its logistics operations to us, the customer may find it less compelling or unattractive to engage us for remaining logistics services, as a result of which some or all of our business with such customer may be adversely affected.

**13. Our Company has not made any application for registration of trademark yet. We are taking steps to apply for the registration of the Trademark in due course. We are unable to assure you that the future viability or value of any of our intellectual property or that the steps taken by us to protect the proprietary rights of our Company will be adequate.**

We have not made any application with ‘The Registrar of Trade Marks, Trade Marks Registry’ for registration of trademark of our logo “”. We are taking steps to apply for the registration of the Trademark in the due course as the registration for the said trademark in our name is important to retain our brand equity. If our application for registration is not accepted or if any oppositions filed against our trademark application are successful, we may lose the statutory protection available to us under the Trade Marks Act, 1999 for such trademark. Further, we cannot assure that our future application would be granted registration or will not be challenged or if granted registration, will not be invalidated or circumvented or will offer us any meaningful protection. We are unable to assure that the future viability or value of any of our intellectual property or that the steps to be taken by us to protect the proprietary rights of our Company will be adequate.

**14. *Dependence on third-party vendors could have an adverse effect on our business financial condition and results of operations.***

Our ability to service our customers depends on the availability and costs of vehicles used for transport, equipment and adequate work force of independent contractors for operations. We use vehicles owned by third parties on per trip basis. Further, we often engage independent contractors for our skilled and unskilled labour needs and, in the event that such contractors are not available, this may have a material and adverse effect on our operations. We cannot assure you that we will be able to obtain access to preferred third-party vendors for our vehicles or independent contractors, or at attractive rates or that these vendors will have adequate available capacity to meet our needs or be able to meet our requirements in a timely manner. Further, if we are unable to procure the services of third-party vendors capable of sufficiently scaling up operations in response to increased demand from our customers, we may be compelled to make capital expenditures or seek out costlier or lower quality third-party vendors to meet our needs. Any inability to secure vehicles or independent contractors or on attractive terms could have an adverse effect on our business, financial condition and results of operations.

**15. *Our business is dependent on the road network in India and our ability to utilise the hired vehicles in an uninterrupted manner. Any disruptions or delays in this regard could adversely affect us and lead to a loss of reputation and/or profitability.***

The transportation and delivery services we provide are dependent on the road network in India. There are various factors which affect road transport such as political unrest, bad weather conditions, natural calamities, road construction, road quality, regional disturbances, fatigue or exhaustion of drivers, improper conduct of the drivers, accidents or mishaps and third-party negligence. Even though we undertake various measures to avoid or mitigate such factors to the extent possible, some of these could cause extensive damage and affect our operations. Also, any such interruption or disruptions could cause delays in the delivery of goods to their destination and/or also cause damage to transported cargo. We may be held liable to pay compensation for losses incurred by our customers in this regard, and/or losses or injuries sustained by other third parties. Further, such delays and/or damage may cause a loss of reputation, which, over a period of time could lead to a decline in business. In the event that goods to be delivered have a short shelf life, such as perishable goods, any delay in the delivery of such cargo could also expose us to additional losses and claims. Although, some of these risks are beyond our control, we may still be liable for the condition of such cargo and their timely delivery and any disruptions or delays could adversely affect us and lead to a loss of reputation and profitability. Under the terms of certain of our agreements with our customers, we are required to facilitate customers' insurance claims for losses on products in transit and to compensate such customers if we fail to do so. In addition, any prolonged or significant downtime of the transportation vehicles or related equipment caused by unforeseen circumstances may cause major disruptions to our operations. In the event we are affected by such prolonged and significant downtime of the vehicles or equipment, our operations and financial performance may be materially and adversely affected.

**16. *The extent to which the Coronavirus pandemic (COVID-19) may affect our business and operations in the future is uncertain and cannot be predicted.***

During the first half of calendar year 2020, COVID-19 spread to a majority of countries across the world, including India. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19. The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing "stay-at-home" orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a "notified disaster" and imposed a nationwide lockdown beginning on March 25, 2020. The lockdown has been extended periodically by varying degrees by state governments and local administrations. The lifting of the lockdown across various regions has been regulated with limited and progressive relaxations being granted for movement of goods and people in other places and calibrated re-opening of businesses and offices. Despite the lifting of the lockdown, there is significant uncertainty regarding the duration and long-term impact of the COVID-19 pandemic, as well as possible future responses by the Government, which makes it impossible for us to predict with certainty the impact that COVID-19 will have on our business and operations in the future.

We are closely monitoring the impact of COVID-19 on our financial condition, liquidity, operations, suppliers and workforce. Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, results of operations and financial condition.

**17. *Our revenues are highly dependent on clients located in India. Any decline in the economic health of India could adversely affect our business, financial condition and results of operations.***

We have derived a substantial portion of our revenue from services offered to clients based in India only. If the economic conditions of India become volatile or uncertain or the conditions in the financial market were to deteriorate, especially in recent times due to the COVID-19 pandemic, or if there are any changes in laws applicable to our services and operations or if any restrictive conditions are imposed on us or our business, the pricing of our services may become less favorable for us. Further, our clients located in these geographies may reduce or postpone their spending significantly

which would adversely affect our operations and financial conditions. Any reduction in spending on third party logistic services may lower the demand for our services and negatively affect our revenues and profitability.

**18. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.***

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a vast experience in the field of logistics and infrastructure through their erstwhile Proprietorship firms engaged in similar business. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company's current customer and supplier relations. We believe that our relation with our Promoters, who have rich experience the industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other firms / ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our directors for executing their day-to-day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

In addition, we depend on our Directors / Promoters in availing certain bank loans and for the extension of unsecured loans and advances from time to time. We rely on our Directors and Promoters, in relation to our bank loans for which they have granted certain security and personal guarantees. For details, see chapter titled "**Financial Indebtedness**" on page nos. 112 of this Prospectus. We cannot assure you that any future financing we obtain without guarantees from our Directors / Promoters or from unrelated third-parties will be on terms which are equal to or more favourable than the terms of our past financings.

**19. *Our Company has entered into certain related party transactions and may continue to do so in the future.***

Our Company has entered into related party transactions with our Promoters, Directors, Group Entities and their relatives. While our Company believes that all such transactions have been conducted on the arm's length basis, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our Company will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to "**Related Party Transactions**" under section titled "**Financial Statements**" on page no. 111 of this Prospectus.

**20. *Our Company has availed unsecured loan from our Directors / Promoters and Promoter Group which is repayable on demand. Any demand from the lender for repayment of such unsecured loan may affect our cash flow and financial condition.***

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section "**Unsecured Loans**" under "**Financial Statements as restated**" beginning on page no. 94 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

**21. *We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations.***

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. For further details, please see chapters titled "**Key Regulations and Policies**" and "**Government and Other Key Approvals**" at pages 68 and 123 respectively of this Prospectus.

- 22. *If we are unable to manage our growth effectively or if our estimates or assumptions used in developing our strategic plan are inaccurate or we are unable to execute our strategic plan effectively, our business and prospects may be materially and adversely affected.***

Our revenue and our business operations have grown in recent years. Although we plan to continue to expand our scale of operations, we may not be able to sustain these rates of growth in future periods due to a number of factors, including, among others, our execution capability, our ability to retain, maintain & enter into new supplier MOUs / agreements, our ability to maintain customer satisfaction, our ability to mobilise sufficient working capital, macroeconomic factors beyond our control such as decline in global economic conditions, competition with other players in the organized and unorganized segments, the greater difficulty of growing at sustained rates from a larger revenue base, our inability to control our expenses and the availability of resources for our growth. There can be no assurance that we will not suffer from capital constraints, operational difficulties or difficulties in expanding existing business operations.

Our development and expansion strategies will require substantial managerial efforts and skills and the incurrence of additional expenditures may subject us to new or increased risks. We may not be able to efficiently or effectively implement our growth strategies or manage the growth of our operations, and any failure to do so may limit future growth and have an adverse effect on our business. Further, our strategy to improve our debt – equity ratio may not materialise in the manner we intend to, and we may be required to obtain additional debt to meet immediate capital requirements, resulting in unfavourable ratios.

Also, the fund requirement and deployment for our strategies are based purely on management estimates and assumptions considering the current market scenario and are subject to revision in the light of changes in external circumstances or costs. If we are unsuccessful in executing our strategic plan, or if the underlying estimates or assumptions used to develop our strategic plan are materially inaccurate, our business and financial condition would have an adverse impact.

- 23. *In addition to normal remuneration, other benefits and reimbursement of expenses our Directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.***

Some of our Directors (including our Promoters) and Key Management Personnel may be interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration, incentives or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Promoters & our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Promoters and Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Promoters and Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects. For further details of our transactions or interests of our promoters / promoter group, please refer the chapters titled “*Our Promoters and Promoter Group*” and “*Our Group Companies*”, “*Related Party Transactions*” and “*Financial Statement as Restated*” beginning on page nos. 88, 91, 111 and 94 respectively, of this Prospectus.

- 24. *The Qualification and Experience Proof of some of our Promoters & Directors are unavailable.***

- 25. *Our Company’s insurance coverage may not be adequate to protect us against all material hazards which may result in disruptions of operations/monetary loss on account of stoppage of work.***

Our Company has not covered itself against business or operational risks.

- 26. *We require high working capital for our smooth day to day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favourable terms may have an adverse effect on our operations, profitability and growth prospects.***

Our business demands substantial funds towards working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favourable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

- 27. *We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.***

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our

senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director's and officer's insurance policy or any keyman insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

**28. Upon completion of the Issue, our Promoters / Promoter Group may continue to retain significant control, which will allow them to influence the outcome of matters submitted to the shareholders for approval.**

After completion of the Issue, our Promoters and Promoter Group will collectively own 64.79% of the total post issue Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring any strategic decision favourable to the Company or effecting a change in control of our Company for the betterment of the stakeholders.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

**29. The average cost of acquisition of Equity Shares by our Promoters is lower than the Issue Price.**

Sl. No.	Name of the Promoter	No. of Equity Shares Held	Avg. Cost of Acquisition (In ₹ per Equity Share)
1	Mr. Jugal Kishore Bhagat	37,91,273	19.29
2	Mrs. Rekha Bhagat	11,94,727	18.19

*The average cost of acquisition of Equity Shares by our Promoters has been calculated by taking into account the amount paid by them to acquire, by way of subscription to Equity Shares at the time of incorporation and subsequent Issues involving conversion of loan and share swap and the net cost of acquisition has been divided by total number of shares held as on date of the prospectus.*

**30. Employee misconduct, errors or fraud could expose us to business risks or losses that could adversely affect our business prospects, results of operations and financial condition.**

Employee misconduct, errors or frauds could expose us to business risks or losses, including regulatory sanctions, penalties and serious harm to our reputation. Such employee misconduct includes breach in security requirements, misappropriation of funds, hiding unauthorized activities, failure to observe our operational standards and processes, and improper use of confidential information. It is not always possible to detect or deter such misconduct, and the precautions we take to prevent and detect such misconduct may not be effective. In addition, losses caused on account of employee misconduct or misappropriation of petty cash expenses and advances may not be recoverable, which we may result in write-off of such amounts and thereby adversely affecting our results of operations. Our employees may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions in which case, our reputation, business prospects, results of operations and financial condition could be adversely affected.

**31. We may not be successful in implementing our business strategies.**

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

**32. Industry information included in this prospectus has been derived from industry reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.**

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third

parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this prospectus.

- 33. Within the parameters as mentioned in the chapter titled “Objects of this Issue” beginning on page 50 of this prospectus, our Company’s management will have flexibility in applying the proceeds of this Issue. The fund requirement and deployment mentioned in the Objects of this Issue have not been appraised by any bank or financial institution.**

We intend to use entire Issue Proceeds towards meeting the working capital requirement and general corporate purpose. We intend to deploy the Net Issue Proceeds in financial year 2021-22 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 50 of this prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “*Objects of the Issue*” beginning on page 50 of this prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors and the Audit Committee will monitor the proceeds of this Issue.

- 34. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than Rs. 10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances.

- 35. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.**

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “*Dividend Policy*” on page 93 of this prospectus.

- 36. Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.**

Any future equity issuance by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 37. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.**

The Issue price is based on numerous factors. For further information, see the chapter titled “*Basis for Issue Price*” beginning on page no. 54 of this prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

**38. *Managing employee benefit pressures in India may prevent us from sustaining our competitive advantage which could adversely affect our business prospects and future financial performance.***

Employee benefits represent a major expense for us and our ability to maintain or reduce such costs is critical for our business operations. We may be required to increase employee compensation levels to remain competitive and manage attrition, and consequently we may need to increase the prices of our products and services. An increase in wages/ salaries paid to our employees may result in a material adverse effect on our profits in the event that we are unable to pass on such increased expenditure to our users or customers without losing their business to our competitors. Likewise, if we are unable to sustain or increase the number of employees as necessary to meet growing demand, our business, financial condition and results of operations could be adversely affected.

**39. *Certain agreements may be inadequately stamped or may not have been registered as a result of which our operations may be adversely affected.***

Few of our agreements may not be stamped adequately or registered. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a penalty for inadequate stamping. The effect of non-registration, in certain cases, makes the document inadmissible in legal proceedings. Any potential dispute due to non-compliance of local laws relating to stamp duty and registration may adversely impact the operations of our Company.

**40. *The requirements of being a public listed company may strain our resources and impose additional requirements.***

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange(s) which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

## **EXTERNAL RISK FACTORS**

**1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.***

Our business and industry is regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

**2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

**3. *Public companies in India, including our Company, shall be required to prepare financial statements under Indian Accounting Standards.***

Our Company currently prepares its annual financial statements under Indian GAAP. The MCA, Government of India, has, through a notification dated February 16, 2015, set out the Indian Accounting Standards (Ind AS) and the timelines for their implementation. In accordance with such notification, our Company is required to prepare its financial statements in accordance with Ind AS. Ind AS is different in many aspects from Indian GAAP under which our financial statements are currently prepared. Accordingly, the degree to which the restated financial statements included in the prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the prospectus should accordingly be limited.

**4. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.***

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- Goods and Service

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

**5. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.***

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

**6. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the prospectus.***

While facts and other statistics in the prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data and IBEF that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “**Industry Overview**” beginning on page 58 of this prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

**7. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.***

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

**8. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

**9. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.***

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

- 10. Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.**  
Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.
- 11. Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.**  
India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.
- 12. Terrorist attacks, civil unrest and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.**  
Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

#### Overview of the Indian Economy

In order to compute gross domestic product (GDP), India adopted fiscal year 2011-12 as the base year, according to which the GDP climbed to ₹135.13 trillion in 2020-21 from ₹87 trillion in the year 2011-12. It exhibits a CAGR of 6.6%. The Indian economy expanded 1.6% year-on-year in Q1 2021, accelerating from an upwardly revised 0.5% growth in Q4 and beating market forecasts of 1%. It was the 2nd straight quarter of growth since the country exit a pandemic-induced recession. On the expenditure side, both private (2.7% vs -2.8% in Q4) and public (28.3% vs -1%) spending rebounded while gross fixed capital formation rose faster (10.9% vs 2.6%). Meantime, net trade contributed negatively to growth as exports climbed 8.8% (vs -3.5% in Q4) but imports jumped at a faster 12.3% (vs -5% in Q4). On the production side, output rose for manufacturing (6.9%); construction (14.5%) and utilities (9.1%). In the last fiscal year that ended on March 31st, the economy contracted a record 7.3%, less than earlier estimates of an 8% drop. Asia's 3rd largest economy is expected to grow at the world's fastest rate this year despite projections for the current quarter being more pessimistic amid the 2nd flare-up of infections in April. However, the World Bank projected that the Indian Economy is expected to grow at 8.3% in fiscal year 2021-22 as compared to the projected global growth of 5.6%.

## Indian Infrastructure Industry

Infrastructure sector is a key driver for the Indian economy. The sector is highly responsible for propelling India’s overall development and enjoys intense focus from Government for initiating policies that would ensure time-bound creation of world class infrastructure in the country. Infrastructure sector includes power, bridges, dams, roads, and urban infrastructure development. According to the Department for Promotion of Industry and Internal Trade (DPIIT), FDIs in the construction development sector (townships, housing, built up infrastructure and construction development projects) and construction (infrastructure) activities stood at US\$ 26.08 billion and US\$ 24.72 billion, respectively, between April 2000 and March 2021. In FY21, infrastructure activities accounted for 13% share of the total FDI inflows of US\$ 81.72 billion.

The infrastructure sector encompasses roads, power, railways, urban infrastructure, and irrigation among others. The sheer size and magnitude of major infrastructure development projects dictate substantial capital investment. The government introduced significant policy reforms to augment foreign direct investment (FDI) inflows to further boost investment and enhance infrastructure in the country. The Indian government’s policy reforms resulted in total FDI inflows of USD16.3 billion in construction activities in infrastructure from fiscal 2001 to fiscal 2020, as per the Department of Industrial Policy & Promotion data.

The roads sector accounted for 49% of total investments in the infrastructure industry over fiscal year 2015-19.

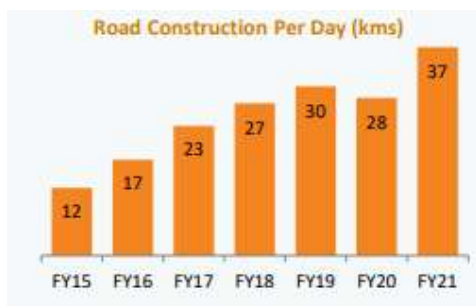

India has the second-largest road network in the world, spanning a total of 5.89 million kilometres (kms).

Private sector has emerged as a key player in the development of road infrastructure in India. Increased industrial activities, along with increasing number of two and four wheelers have supported the growth in road transport infrastructure projects. The Government’s policy to increase private sector participation has proved to be a boon for the infrastructure industry with many private players entering the business through the public-private partnership (PPP) model. In FY21, there were 125 PPP projects worth US\$ 23.25 billion in India. Currently, 12-15% of the investment in state roads is through public and private partnerships. A few states such as Karnataka and Maharashtra have awarded projects under HAM. However, private investments in the infrastructure industry reduced from ~26% in fiscal 2010 to ~17% (expected) in fiscal 2020 mainly due to higher risks borne by private investors with respect to the PPP model.

With the Government permitting 100% Foreign Direct Investment (FDI) in the road sector, several foreign companies have formed partnerships with Indian players to capitalise on the sector's growth. Cumulative FDI in construction development stood at US\$ 25.93 billion between April 2000 and December 2020. The Government’s move to cut GST rates on construction equipment from 28% to 18% is expected to give boost to the industry.

The Government of India has allocated Rs. 111 lakh crore (US\$ 1.4 trillion) under the National Infrastructure Pipeline for FY 2019-25. The roads sector is likely to account for 18% capital expenditure over FY 2019-25.

In May 2021, the Ministry of Road Transport and Highways constructed 1,470 kms of national highways compared with 847 kms in May 2020.

*\*Until June 2021*

Source: IBEF

The Minister for Road Transport & Highways and Micro, Small and Medium Enterprises, Mr. Nitin Gadkari, is targeting to construct 40 kms per day in FY22. As per the Ministry of Road Transport and Highways, national highway construction hit an all-time high of 37 km per day in FY 2020-21.

In December 2020, Union Minister of Road Transport and Highways, Mr. Nitin Gadkari laid foundation stones for 15 National Highways projects with a total length of 266 kms, worth Rs. 4,127 crore (US\$ 560.88 million) in Nagaland.

Under Pradhan Mantri Gram Sadak Yojana (PMGSY), in the UT of Jammu & Kashmir, 3,261 roads of length of 19,277 kms and 243 bridges have been sanctioned, out of which 1858 roads of length 11,517 kms and 84 bridges have been completed. Similarly, in the UT of Ladakh, 142 roads of length of 1207 kms and 3 bridges have been sanctioned, out of which 96 roads of length 699 kms and 2 bridges have been completed until July 2020.

Under the Union Budget 2021-22, the Government of India has allocated Rs. 108,230 crore (US\$ 14.85 billion) to the Ministry of Road Transport and Highways.

In January 2021, the Government of India and New Development Bank (NDB) signed two loan agreements for US\$ 646 million for upgrading the state highway network and district road network in Andhra Pradesh.

In December 2020, the MoRTH proposed to develop additional 60,000 kms of national highways (in the next five years), of which 2,500 kms are expressways/access controlled highways, 9,000 kms are economic corridors, 2,000 kms are coastal and port connectivity highways and 2,000 kms are border road/strategic highways. The ministry also intends to improve connectivity for 100 tourist destinations and construct bypasses for 45 towns/cities.

### **Share of various infrastructure segments in total construction spend**

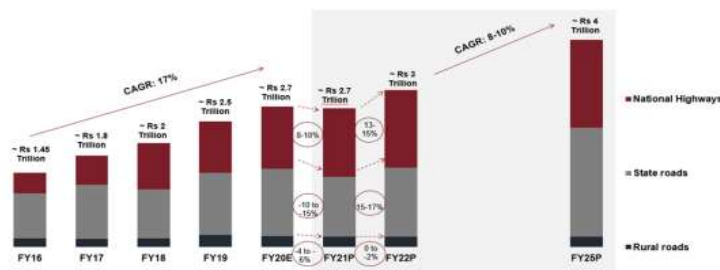

The total construction spend in the overall infrastructure segment from fiscal 2015 to fiscal 2019 was valued at Rs 17.93 trillion. Of this, the roads sector accounted for Rs 8.7 trillion.

### **Investments by private sector to grow 2x times over the next 5 years**

The expected private construction investments in national highways to increase 2x to Rs 1.5 trillion over fiscal 2021-25 compared with the previous five years. This is expected to be mainly through the hybrid annuity model (HAM) model, as the build-operate-transfer (BOT) toll model may have only a few takers. A policy push in the form of changes in model concession agreements (MCAs) for HAM and BOT projects and a reduction in bid eligibility criteria across all national highway projects would bode well for private participation. However, the share of HAM in total projects awarded is constrained by the cautious approach of banks on lending to HAM projects. Amidst the COVID-19 pandemic, NHAI and the ministry have taken various steps under the Atmanirbhar programme to ease issues faced by developers. Measures such as releasing monthly payments

instead of milestone-based payments and extension of timelines for completion of projects have sustained private participation in the sector.

### National Highway capex to sustain the sector this fiscal, supported by construction of high value expressway

E: Estimated, P: Projected

Note: Capex excludes land acquisition costs

Source: NHAI, MoRTH, State budget documents, PMGSY

### Future growth in road construction on account of increased government focus

It is expected that investments in roads to record a 0-2% decline in fiscal 2021 owing to the Covid-19 pandemic due to the lockdown impacting construction activities and migration of labour. A 10-15% recovery is likely in FY22 led by increased execution of projects as NHAI shifts its focus to execution and implementation of high-value projects such as expressways. Road projects augur well for construction players, as nearly all funds (save those used for land acquisition) are channelised into construction. Spending on road construction, which is estimated to have risen 11% on-year in fiscal 2020, is forecast to increase 1.6 times over fiscal 2021-25 compared with fiscal 2016-20, due to the government's focus on roads, and state and national highways driven by public funds. Around 35% of the projects awarded by the National Highways Authority of India (NHAI) in fiscal 2019 and 2020 are through HAM. Under HAM, 40% of the total construction cost is paid by the government during the construction period. Private players are struggling to infuse funds in BOT toll projects because of their highly leveraged balance sheets and the overhang of languishing projects awarded between fiscal 2011 and 2013. However, HAM was instrumental in attracting substantial private funds. Introduced by the end of FY16, HAM constituted nearly 20% of the total length awarded by NHAI in fiscal 2020. It is expected to account for 35-45% of total NHAI projects awarded in fiscal 2021. As execution of these projects picks up, private investments are expected to go up.

### Railways Investment in past five years

Of the total construction spend in the infrastructure sector, railways had a share of 11.4% in fiscal 2015-19. Historically, investments in railways have come from the Centre; and private participation has been miniscule. Indian Railways is trying to harness private capital for funding capex across projects such as first/last mile and port connectivity projects, logistic parks/private freight terminals, station redevelopment, etc. It has developed various PPP models such as non-government rail, joint venture, capacity augmentation with funding provided by customers, build-operate-transfer, and capacity augmentation through annuity to suit different risk appetites.

### PPP in railways

To reduce the transit time and supply-demand deficit in the railway sector, the government has introduced privatisation of railways in fiscal 2020. Under this move, the government plans to privatise 100 paths bundled in 10-12 clusters entailing nearly 150 trains with a concession period of 35 years. In addition, the government also announced a PPP model for station redevelopment. Under this move, 400 stations have been identified for redevelopment which envisages an investment

opportunity of nearly Rs 1 trillion. These development plans would improve participation of private players in the railway sector over the longer term.

### Impact of Logistics Industry

The e-commerce industry is expected to clock an estimated 10-15% CAGR between fiscals 2021 and 2023 to ~Rs 4.8 trillion. Growth is expected to be driven by segments such as the online marketplace, where players will continue to offer huge discounts, deals, and innovations to attract customers. Further, rising penetration of the internet, increasing use of smart phones (with mobile apps), and increasing consumer awareness should support the growth story. As the industry grows, players are looking to develop local ecosystems to serve demand across India. As these local ecosystems evolve, lead distances will reduce and freight traffic could gradually shift from air freight to roads.

#### Indian Logistics Industry

The Logistics Sector was granted Infrastructure status in the 14th Institutional Mechanism (IM) Meeting held on 10th November, 2017 to meet the need for integrated Logistics sector development in view of the fact that the logistics cost in India is very high compared to developed countries. The Indian logistic sector is primarily categorized into four segments comprising Transportation (rail, road, air, water-ways), warehousing (Container freight stations and Inland Container Depots), freight forwarding and value-added logistics. The transportation contributes maximum (60%) to the whole pie of logistic sector which comprises of various means such as road, rail, air and water.

### The Road Sector

In FY17, India had the 2nd largest road network in the world, spanning over a total of 5.21 million kms. Over 64.5 per cent of all goods in the country are transported through roads, while, 90 per cent of the total passenger traffic uses road network to commute. Road Transport is a critical infrastructure for the economic development of a country. It influences the pace, structure and pattern of development. Road transport is the dominant mode of transport in India, both in terms of traffic share and in terms of contribution to the national economy. Apart from facilitating the movement of goods and passengers, road transport plays a key role in promoting equitable socio-economic development across regions of the country. It also plays vital role in social and economic integration and development of the country. Easy accessibility, flexibility of operations, door-to-door service and reliability have earned road transport a greater significance in both passenger and freight traffic vis-à-vis other modes of transport. Sustained economic development and expanding road network have led to rapidly increasing motorized vehicles in India. The total number of registered motor vehicles has increased from about 0.3 million in 1951 to 210.0 million in 2015. The total registered motor vehicles in the country grew at a Compound Annual Growth Rate of 9.8 percent between 2005 and 2015. The share of motor vehicles categorized as “Others”, which include tractors, trailers and three-wheelers has increased from 1.3 percent in 1951 to 7.5 percent in 2015. In terms of contribution to the economy, road transport contributes about 3.3 percent of Gross Value Addition (GVA) against the total transport sector contribution of 5 percent in the GVA.

### Impact of GST

The implementation of GST has benefited the Indian economy by reducing high tax incidence and logistics costs. The unified tax replaces most indirect taxes, including the excise duty and service tax at the central level and VAT and local levies at the state level. Post GST, logistic cost is reduced to 10-12% of total value of goods as compared to 14% of total value of goods pre GST.

### Key Challenges in the Logistics Industry

India, despite being a low-cost country, has higher logistics cost due to various issues and challenges faced by the industry. Apart from being entangled in complex tax structure the industry is also affected by poor rate of customs efficiency of clearance processes and procedures thus affecting the international export logistics stratum. Furthermore, sub-optimal comfort provided by the existing Indian infrastructure combined with lack of implementation of efficient IT-enabled tracking and tracing mechanisms has affected the performance of logistics. A country's competitiveness is measured by the ease of doing business. India stands at 35th position in the logistics performance index (LPI) amongst 160 countries around the world, with Germany on top, Singapore, China and United States of America in 5th, 9th, and 10th positions, respectively, as per the World Bank report 2016.

### Governmental Initiatives in Logistics Sector

- In November 2017, logistics sector was given the status of infrastructure, to boost investments in the sector.
- Budget allocation for road sector increased to US\$ 10.07 billion in 2017-18 from US\$ 8.99 billion in 2016-17.
- Road projects worth Rs 6.92 trillion (US\$ 107.64 billion) approved in October 2017.
- The Government is making an attempt to revive and give boost to Public Private Partnerships.

### Warehousing Facility

Warehousing forms a crucial link in the overall logistics value chain. It accounts for ~5% of the Indian logistics market (excluding inventory carrying costs, which amount to another ~30%). Warehousing in India has been evolving rapidly from being traditional —godowns -a mere four-wall-and-shed with sub optimal size, inadequate ventilation and lighting, lack of racking systems, poor hygiene conditions and lack of inventory management or evolved solutions such as warehouse management systems into modern setups with storage and handling points where raw material, intermediate and manufactured goods are collected, assorted, stored and distributed to the point of consumption/sale. As key end users are increasingly outsourcing their warehousing services, warehousing players are recognizing the need to be a part of the customer's logistics chain, as against being a landlord leasing out space. The size of the Indian warehousing industry (across commodities and modes) is pegged at about INR560 billion (excluding inventory carrying costs, which amount to another ~INR4,340 billion). The industry is growing at over 10% annually.

### Warehousing Capacity in India

Almost  $\frac{3}{4}$  of the organised warehousing sector is being controlled by Government PSUs such as the Food Corporation of India (FCI), Central Warehousing Corporation (CWC) and State Warehousing Corporations (SWCs). The current capacity of the organised warehouse, controlled by PSUs, cooperatives and private sector is 126.97 million metric tons, of which the private sector has only 18.97 million metric tons, the details are as follows:-

Sr. No.	Name of the organisation/Sector	Storage capacity in million tons
1.	Food Corporation of India	35.92
2.	Central Warehousing Corporation	11.72
3.	State Warehousing Corporations and state agencies	45.28
4.	Cooperative Sector	15.07
5.	Private Sector	18.97

#### **Phased implementation of Unified Payments Interface (UPI)**

SEBI has issued the various UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Retail Individual Investors through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

**Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

**Phase II:** This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by Retail Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

**Phase III:** The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.
