INTERNAL RISK FACTOR:

Industry specific Risk:

- 1. Our Company’s business highly depends on the brands recognition and reputation of the products it offers to sale and their inability to maintain or enhance brands image that we distribute or sale could have a material adverse effect on our business, financial condition and results of operations.***

Our company has entered into dealership and distributorship agreements of consumer durable products with various brands like Xiaomi, OPPO, TECNO, Micromax, One Plus etc. We believe that the recognition and reputation of these brands among consumers has contributed significantly to the growth and success of our business. Maintaining and enhancing the recognition and reputation of these brands are, therefore, critical to our business and competitiveness.

Though we are not required to promote the products of these well-known brands, we compete on price, quality services, dedication and commitment towards customers, in our industry. Our financial performance is influenced by the success of above brands, which, in turn, depends on factors such as product design & features, the distinct character and the quality of the products, after sale services, communication activities, public relations and marketing etc. The consumers that use and recommend the branded products have come to expect a high level of quality from these products and on the failure on the part of the brands/companies to deliver on that expectation could adversely impact our business and reputation.

2. Substantial part of our business income is dependent on a few major customers and the loss of, or a significant reduction in product demands by such customers could adversely affect our business.

Revenues from any particular customer may vary significantly from reporting period to reporting period depending on the nature of ongoing demand for products. Larger demand from few major customers may represent a larger part of our portfolio. Any concentration of our business on a few customers may have an adverse effect on our results of operations and result in a significant reduction in the demand for products which could also adversely affect our business if we do not achieve our expected margins or suffer losses on one or more of these large demands, from such customers.

Further, we cannot assure you that we can maintain the historical levels of sales to these major customers or that we will be able to find new customers in case we lose any of them. Furthermore, major events affecting our customers, such as adverse market conditions, regulatory changes, adverse cash flows, change of management, etc. could adversely impact our business. If any of our major customers become bankrupt or insolvent, we may lose some or all of our business from that customer and our receivables from that customer may have to be written off, thus adversely impacting our cash flows and financial condition.

Our long-standing relationship with certain of our customers is a result of our timely and efficient supply of products. However, in the event we are unable to supply within the duration prescribed under terms with the customers, then our relationship will get strained and we may not get further orders from our customers which could adversely affect our business. Consequently, the loss of any of our significant customers, could have an adverse effect on our business, cash flows and results of operations.

3. Our reliance on licensed brands exposes us to additional risks and uncertainties in our business, including the event we are unable to extend our distributorship agreement with the brands in the future.

As we plan to expand our business through the licensed brands, we rely on our terms & conditions of our agreements. We cannot assure you that these brands will not terminate the agreement due to some deficiency in our services or otherwise, which could negatively impact our business, prospects, financial condition and results of operations. Further, there is a possibility that our agreement is not renewed on due date.

Further, the growth of our business mainly depends on our ability to enter into distributorship agreements with widely acceptable and well-known brands in the sectors in which we operate. If we are unable to get distributorship contracts of new as well as widely acceptable brands, our business will be materially and adversely affected.

4. Impact of conversion of the partnership firm M/s Safa Systems & Solutions to Safa Systems & Technologies Limited.

Our Company was converted from a partnership firm namely M/s Safa Systems & Solutions, with effect from September 21, 2021. As on the date of this Prospectus, some of the Insurance, licenses & agreements is still prevailing in the name of the erstwhile partnership firm. If the licenses & agreements are not transferred in the name of the company then the operations/business/revenue of the Company may get affected.

Further, some of the distributorship agreements entered into with the Manufacturers/suppliers of the branded products are continuing in the name of the erstwhile partnership firm and has not been re-executed in the name of the Company till the date of filing of this prospectus. We cannot assure you that, the said agreements will be re-executed in the name of the company or may take longer time. Such a situation may adversely affect our business, financial condition and results of operations.

5. As per restated financial statement, there are below mentioned contingent liabilities which may occur in future as on the date of this prospectus.

As per the Auditor comments in the Restated financials, the Company has not registered itself under PF Act & ESIC Act and has not considered the impact of provisions of AS 15 Provision for Retirement benefits, so the impact of the same cannot be ascertained. Any failure by us to apply in time may result in non-compliance of the relevant regulatory guidelines and imposition of penalty which may strain our resources.

Further the company has issued Bank Guarantee of Rs. 750.00 Lakhs to Xiaomi Technology as security deposit. Any non-compliance of the terms of agreement may result in invocation of the bank guarantee which may adversely impact our financials.

6. We may be subject to risks associated with product warranty for the brand products.

We are subject to risks and costs associated with product warranties on account of supply of defective or inferior quality products within the warranty periods stipulated for such products. Any defects in the products may result in invocation of such warranties. The defects in such products or any product liability claim against us could generate adverse publicity, leading to a loss of reputation, customers and/or increase our costs, thereby adversely affecting our reputation, business, results of operations, financial condition and cash flows.

7. *Delays or defaults in payment by our customers could affect our cash flows and may adversely affect our financial condition and operations.*

We extend credit to certain of our customers for long periods of time and there is no assurance that we will be able to recover outstanding amounts in part, full or at all. We have and may continue to have high levels of outstanding receivables. Our average outstanding receivable days are 45 to 60 days in the past three financial years. Hence, if delays or defaults in client payments continue or increase in proportion to our total revenues, it could negatively affect our cash flows and consequently affect our financial condition and operations. Further, while we may take appropriate action in the event of a non-payment of receivables, there can be no assurance that we will be able to successfully recover outstanding amounts owed to us in part or full, which in turn could affect our cash flows and may adversely affect our financial condition and operations.

8. *Our Registered Office from where we operate are not owned by us.*

Our Registered Office premise is situated at 46/2631 B, Safa Arcade, Kaniyapilly Road, Chakkaraparambu, Ernakulam-682028, Kerala, which is owned by three promoter/promoter group shareholder of our company. We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. For further details, see section “**Our Business**” on page 83 of this prospectus. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

9. *Our company has made any application for the trademark of our logo “  ” under the classes 9 & 35 of the Trademarks Act, 1999 on 09/11/2021. However, both the applications were objected, as on the date of this prospectus. There is no assurance that the application shall result in us being granted registration in a timely manner. Failure to protect our intellectual property may adversely affect our reputation, goodwill and business operations.*

We have applied for registration of our name and logo under the provisions of the under the classes 9 & 35 of the Trademarks Act, 1999 on 09/11/2021. However, both the applications were objected, as on the date of this prospectus. As such, we do not enjoy the statutory protection accorded to a registered trademark as on date. There can be no assurance that we will be able to register the trademark in future or that, third parties will not infringe our intellectual property, causing damage to our business prospects, reputation and goodwill. Further, we cannot assure you that any application for registration of our trademark by our Company will be granted by the relevant authorities in a timely manner or at all. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property. For further details of our trademarks, please see “**Government and Other Approvals**” on page 144 of this prospectus.

10. *Dependence on third-party services could have an adverse effect on our business financial condition and results of operations.*

We use vehicles/courier services owned by third parties on time to time basis. We cannot assure you that we will be able to obtain access to preferred third-party services for our supply/sale requirements, or at attractive rates or that these services will have adequate available capacity to meet our needs or be able to meet our requirements in a timely manner. Further, if we are unable to procure the services of third-party capable of sufficiently scaling up operations in response to increased demand from our customers, we may be compelled to make capital expenditures or seek out costlier or lower quality third-party service to meet our needs. Any inability to secure vehicles or courier services or on attractive terms could have an adverse effect on our business, financial condition and results of operations.

11. *The extent to which the Coronavirus pandemic (COVID-19) may affect our business and operations in the future is uncertain and cannot be predicted.*

During the first half of calendar year 2020, COVID-19 spread to a majority of countries across the world, including India. The COVID-19 pandemic has had, and may continue to have, significant repercussions across local, national and global economies and financial markets. In particular, a number of governments and organizations have revised GDP growth forecasts for calendar year 2020 downward in response to the economic slowdown caused by the spread of COVID-19. The global impact of the COVID-19 pandemic has been rapidly evolving and public health officials and governmental authorities have responded by taking measures, such as prohibiting people from assembling in large numbers, instituting quarantines, restricting travel, issuing “stay-at-home” orders and restricting the types of businesses that may continue to operate, among many others. On March 14, 2020, India declared COVID-19 as a “notified disaster” and imposed a nationwide lockdown beginning on March 25, 2020. The lockdown has been extended periodically by varying degrees by state governments and local administrations. The lifting of the lockdown across various regions has been regulated with limited and progressive relaxations being granted for movement of goods and people in other places and calibrated re-opening of businesses and offices. Despite the lifting of the lockdown, there is significant uncertainty regarding the duration and long-term impact of the COVID-19 pandemic, as well as possible future responses by the Government, which

makes it impossible for us to predict with certainty the impact that COVID-19 will have on our business and operations in the future.

We are closely monitoring the impact of COVID-19 on our financial condition, liquidity, operations, suppliers and workforce. Any intensification of the COVID-19 pandemic or any future outbreak of another highly infectious or contagious disease may adversely affect our business, results of operations and financial condition.

On basis of assessments of the impact of the outbreak of COVID-19 on business operation of the entity, the turnover for FY 2020-21 has been reduced to Rs. 208.51 crores from Rs. 255.12 crores in FY 2019-20. The situation with COVID-19 is still evolving, also some of the various preventive measures taken are still in force, leading to highly uncertain economic environment. Due to these circumstances, the management's assessment of the impact on the subsequent period is dependent upon the circumstances as they evolve.

12. *The Qualification and Experience Proof of some of our Promoters & Directors are not available.*

Our Promoters and Directors are qualified and are highly experienced to run the day-to-day affairs of the Company. However, the Qualification and Experience Proof (as mentioned in this Prospectus) of some of our Promoters & Directors are not available.

13. *Our revenues are highly dependent on our operations in certain geographical region of Kerala. Any adverse development affecting our operations in these regions could have an adverse impact on our business, financial condition and results of operations.*

We have derived a substantial portion of our revenue from products sold to customers based in Kerala only. If the economic conditions of Kerala become volatile or uncertain or the conditions in the financial market were to deteriorate, especially in recent times due to the COVID-19 pandemic, or if there are any changes in laws applicable to our industry or if any restrictive conditions are imposed on us or our business, there will be a severe impact on the financial condition of our business. Further, the ultimate customers located in these geographies may reduce or postpone their spending significantly which would adversely affect our operations and financial conditions.

14. *We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.*

The market for our industry is competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as timely delivery, pricing, the quality etc. Some of our competitors may have longer industry experience and greater financial, technical and other resources, which may enable them to react faster in changing market scenario and remain competitive. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our volume of sales and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition.

15. *Our success depends heavily upon our Promoters and Directors for their continuing services, strategic guidance and financial support.*

Our success depends heavily upon the continuing services of Promoters & Directors who are the natural person in control of our Company. Our Promoters have a vast experience in the field of distributorship through their erstwhile Partnership firm engaged in similar business. They have established cordial relations with various customers and suppliers over the past several years, which have immensely benefitted our Company's current customer and supplier relations. We believe that our Promoters, who have rich experience in this industry, managing customers and handling overall businesses, has enabled us to experience growth and profitability. We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Further, our Promoters are also part of certain other firms / ventures and may continue to do so. If they divert their attention to such other concerns, we may not be able to function as efficiently and profitably as before. We may have to incur additional costs to replace the services of our Promoters or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

Further, we also depend significantly on our directors for executing their day-to-day activities. If our Promoters / Directors or any member of the senior management team is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected. For details, see chapter titled "*Financial Indebtedness*" on page nos. 134 of this Prospectus.

16. *We have working capital requirements. If we experience insufficient cash flows to enable us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.*

Our business requires working capital, part of which would be met through additional borrowings in the future. Further bank loan availed in the partnership firm is in the process of being transferred to our Company and Bank sanction is pending. In many cases, significant amounts of working capital are required to finance the procurement of branded

products before payments are received from customers. Our working capital requirements may increase if, under certain conditions, where payment terms do not include advance payments or include delayed payments from customers. Additionally, our working capital requirements have increased in recent years due to the general growth of our business. All of these factors may result, or have resulted, in increases in our working capital needs.

Due to various factors, including certain extraneous factors such as changes in tariff regulations, interest rates, insurance and other costs or borrowing and lending restrictions, if any, we may not be able to finance our working capital needs, or secure other financing when needed, on acceptable commercial terms, or at all, which may have a material adverse effect on our business, financial condition, growth prospects and results of operation.

17. Our Company had negative cash flow from operating activity in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow from operating activity in the financial years as mentioned below, which could affect our business and growth:

Our Company has availed certain unsecured loan and are repayable on demand. Though our Company intends to repay the loan amount in near future, sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer to the section **"Unsecured Loans"** under **"Financial Statements as restated"** beginning on page no. 115 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

20. We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licences in timely manner or comply with such rules and regulations or at all may adversely affect our operations.

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business. We cannot assure you that our directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our

Promoters & our directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Promoters and Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. Furthermore, our claim records may affect the premiums which insurance companies may charge us in the future.

We intend to deploy the Net Issue Proceeds in financial year 2021-22 and such deployment is based on certain assumptions and strategy which our Company believes to implement in future. The funds raised from the Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the Issue Proceeds, please refer chapter titled “Objects of the Issue” beginning on page 50 of this prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company’s Board of Directors. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled “Objects of the Issue” beginning on page 50 of this prospectus, the Management will have significant flexibility in applying the proceeds received by our Company from the Issue. Our Board of Directors will monitor the proceeds of this Issue.

- 27. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than Rs.10,000 Lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of these funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

- 28. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.**

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 114 of this prospectus.

- 29. Any future issuance of Equity Shares may dilute your shareholdings, and sale of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.**

Any future equity issuances by our Company may lead to the dilution of investors’ shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Issue, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

- 30. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.**

The Issue price is based on numerous factors. For further information, see the chapter titled “Basis for Issue Price” beginning on page no. 54 of this prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

- 31. There have been some instances of erroneous execution in the past with certain agreements. If any part of such agreements is aggrieved, it may adversely affect our business, financial condition and results of operation.**

In the past, there have been some instances of erroneous execution with certain agreement such as the partnership deed executed is not registered with the Registrar of Firms. The effect of non-registration, in certain cases, is to make the document inadmissible in legal proceedings. Till date, of filing this prospectus, there have been no action taken by any party to such agreements. However, it cannot be assured that even in future no such parties will be aggrieved by erroneous execution of previous agreements. Therefore, if the any of the parties to such agreements are aggrieved, we may lose benefits enjoyed through such agreements and face certain punitive actions against our Company or our

Promoters/Directors/Officers in relation to the same, which may adversely affect our business, financial condition and results of operations.

32. *The requirements of being a public listed company may strain our resources and impose additional requirements.*

With the increased scrutiny of the affairs of a public listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange(s) which require us to file unaudited financial results on a half yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

33. *The price of the Equity Shares may be highly volatile after the Issue.*

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including, volatility in the Indian and global securities market; our operations and performance; performance of our competitors and the perception in the market about investments in the our industry; adverse media reports on us or the industry; changes in the estimates of our performance or recommendations by financial analysts; significant developments in India's economic liberalization and deregulation policies; and significant developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market subsequently.

34. *There is no existing market for our Equity Shares, and we do not know if one will develop to provide you with adequate liquidity. Further, an active trading market for the Equity Shares may not develop and the price of the Equity Shares may be volatile.*

An active public trading market for the Equity Shares may not develop or, if it develops, may not be maintained after the Issue. Our Company, in consultation with the lead manager, has determined the Issue Price. The Issue Price may be higher than the trading price of our Equity Shares following this Issue. As a result, investors may not be able to sell their Equity Shares at or above the Issue Price or at the time that they would like to sell. The trading price of the Equity Shares after the Issue may be subject to significant fluctuations in response to factors such as, variations in our results of operations, market conditions specific to the sectors in which we operate, economic conditions of India and volatility of the securities markets elsewhere in the world.

35. *The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Although we currently intend that the Equity Shares will remain listed on the Stock Exchanges, there is no guarantee of the continued listing of the Equity Shares. Failure to maintain our listing on the Stock Exchanges or other securities markets could adversely affect the market value of the Equity Shares.

The Issue Price of the Equity Shares has been determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. You may not be able to resell your Equity Shares at a price that is attractive to you.

EXTERNAL RISKFACTORS

1. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

2. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, capital gains arising from the sale of equity shares within 12 months in an Indian company are classified as short-term capital gains and generally taxable. Any gain realized on the sale of listed equity shares on a stock exchange that are held for more than 12 months is considered as long-term capital gains and is taxable at 10%, in excess of Rs. 1,00,000. Any long-term gain realized on the sale of equity shares, which are sold other than on a recognized stock exchange and on which no STT has been paid, is also subject to tax in India. Capital gains arising from the sale of equity shares are exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

3. *Public companies in India, including our Company, shall be required to prepare financial statements under Indian Accounting Standards.*

Our Company currently prepares its annual financial statements under Indian GAAP. The MCA, Government of India, has, through a notification dated February 16, 2015, set out the Indian Accounting Standards (Ind AS) and the timelines for their implementation. In accordance with such notification, our Company is required to prepare its financial statements in accordance with Ind AS. Ind AS is different in many aspects from Indian GAAP under which our financial statements are currently prepared. Accordingly, the degree to which the restated financial statements included in the prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the prospectus should accordingly be limited.

4. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- Custom duties on imports of products;
- Goods and Service Tax

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

5. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

6. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Power Sector industry contained in the prospectus.*

While facts and other statistics in the prospectus relating to India, the Indian economy and the Consumer Durable industry has been based on various government publications, reports from government agencies, India Brand Equity Foundation and industry publications etc. that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled "**Industry Overview**" beginning on page 59 of this prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly

relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

7. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stockprice.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

8. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

9. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

10. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

11. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

The current Covid-19 pandemic had brought the world to a standstill affecting all sectors and the livelihood of many are at stake including the Indian economy. However, our Country is achieving normalcy by various measures taken by the Government. The pandemic is still to be controlled and any major outbreak will seriously impact our business. Further, our Country in the past has experienced natural calamities such as earthquakes, tsunami, floods etc. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

12. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Foreign Direct Investment (FDI)

Introduction

Apart from being a critical driver of economic growth, Foreign Direct Investment (FDI) has been a major non-debt financial resource for the economic development of India. Foreign companies invest in India to take advantage of relatively lower wages, special investment privileges like tax exemptions, etc. For a country where foreign investment is being made, it also means achieving technical know-how and generating employment. The Indian Government's favourable policy regime and robust business environment has ensured that foreign capital keeps flowing into the country. The Government has taken many initiatives in recent years such as relaxing FDI norms across sectors such as defence, PSU oil refineries, telecom, power exchanges, and stock exchanges, among others.

Market size

- According to the Department for Promotion of Industry and Internal Trade (DPIIT), FDI equity inflow in India stood at US\$ 547.2 billion between April 2000 and June 2021, indicating that the government's efforts to improve ease of doing business and relaxing FDI norms have yield results.

CONSUMER DURABLES INDUSTRY REPORT

INTRODUCTION

Indian consumer durables market is one of the largest and fastest growing segments within India's consumer market. The market comprises of a huge middle class (urban and rural), relatively large affluent class and a small economically disadvantaged class. Global corporations view India as one of the key markets from where future growth is likely to emerge. The growth in India's consumer market would be primarily driven by a favourable population composition and increasing disposable income.

Consumer durables consists of two main categories: home and household appliances, and consumer electronics. Major and small appliances, like refrigerators, washing machines, and microwave ovens, vacuum cleaners and fans, are broadly classified as home appliances. Consumer electronics includes television sets, radios, personal computers and sometimes mobile phones and other electronic devices, like tablets, wearable devices, etc.

Source: (<https://bitly.co/9mDZ>)

Consumer durables can be broadly categorized into the following 3 heads:

- White Goods: White goods mainly include air conditioners, refrigerators, washing machines, audio equipment and speakers.
- Brown Goods: This kind of consumer durables mostly include kitchen appliances like chimneys, electric fans, grinders, iron, microwave ovens, mixers and varied other cooking ranges.
- Consumer Electronics: Some commonly used consumer electronic goods are DVD players, MP3 players, mobile telephones, telephones, VCD players, etc.

With the continuous rise of disposable income and technological sophistication, the demand for a variety of consumer durables goods is increasing. This in turn is encouraging strong competition among the different consumer durables brands operating in India. The rural and urban markets for consumer durables have been growing at a rate of around 15% on an average.

When a new product is introduced, initially a small fraction of the population will purchase it, gradually its potential consumer base will grow and continue till all potential buyers have it. This leads to the diffusion of durables. Some durables become outdated which are no longer in demand due to availability of better substitutes.

The demand for refrigerators, washing machines, water heaters, vacuum cleaners, etc. are restricted to higher income groups. Unit price and demand for these durables show no significant variation.

- **Growing demand:** The headset market revenue in India is projected to reach >US\$ 77 million by 2027 at a CAGR of 4.7%, driven by rising adoption of wireless headsets among consumers.
- **Increasing Investments:** The S&P BSE Consumer Durables Index rose 1.58% in May 2021 and stood at 78.40% higher over the last year. The government plans to significantly invest in rural electrification and affordable housing schemes. Between April 2000 and June 2021, electronic goods attracted FDI inflows of US\$ 3.2 billion.
- **Policy support:** In July 2021, the government approved 14 companies under the production linked incentive (PLI) scheme for IT hardware. Over the next four years, these companies are expected to fuel total production of >US\$ 21.64 billion.
- **Opportunities:** Tech players are focusing on tapping the Indian consumer electronics market, developing electronic components manufacturing base in India and encouraging export. Consumer electronics brands are focusing on expansion in the Indian smart wearables market.

AIR PURIFIERS

Due to continuous air quality deteriorating in major metropolitan areas (including Delhi and surrounding areas) and alarming Air Quality Index levels, room air purifier makers are seeing a surge in their sales numbers.

Every year, manufacturers are looking for a silver lining as sales numbers of this product spikes after Diwali and has now touched a market size of almost Rs. 500 crores, in which the Delhi NCR and the Northern region contributes around three-fourths of the sales.

Manufacturers have lined up new models, now claiming reprieve, not only from poor air quality, but also protection against the threat of the SARS COV-2 virus and other smart features providing much needed relief to thousands of health conscious families across the country. At the same time, increasing awareness of the effects of indoor pollution is creating demand in the residential and institutional sectors for air purifiers.

Air purifier sales peak only when consumers see pollution rising to a dangerous level, increased media coverage of poor air quality has led to consumer awareness, thereby resulting in more sales. In the past few years, there has been a sudden surge in air purifiers demand during the smog situation in Delhi. The onset of winter only further deteriorates the air quality and acts as a catalyst to push the sales for air purifiers.

As per internal estimates, the current market for Air Purifiers in India is around Rs. 450-500 crore annually and has seen sporadic growth but largely concentrated in the northern regions of India, which roughly contributes to more than 80% of the market. However, the trend is steadily changing as awareness of pollution and its harmful effects increase.

CONSUMPTION

As a country with a huge population, and growing household income and purchasing power, India was the second largest market for major appliances and the third largest market for small appliances in 2019, based on revenue. In urban India, refrigerators and mixers were among the most popular home appliances. For instance, the air conditioner market has seen steady growth since 2009, with climate change induced heat waves in India as one of the driving forces behind its increased demand. For many durable goods, India is still a market with great growth potential. In the consumer electronics segment, televisions occupied the top with an estimated 200 million households in financial year 2020 with a projected market size of US\$ 13.66 billion. However, with the impact of COVID-19 pandemic, the market growth might be interrupted for a few years.

MAJOR PLAYERS

The leader of the household appliances market was Whirlpool of India Limited, with a revenue of Rupees 61.21 billion in financial year 2021. Domestic brands like Bajaj and Crompton were also popular in the market. And with the growing popularity of smart devices, including smartphones, smart TVs, and smart wearables, despite the initially low penetration rate compared to other more mature markets across the globe, the consumer electronics segment in India would become increasingly important, with an estimated market size of US\$ 58 billion in 2025. In the category of smartphones and smart wearables, Chinese vendor Xiaomi had preformed very well in recent years.

RECENT CONSUMPTION PATTERNS

The last two years have been challenging in many ways for customers as the pandemic has confined them to homes, leading to a paradigm shift in consumer behaviour and the home appliances industry at large. However, consumer sentiment was quite positive during the festive season. Work from home and stay at home have created good demand for durables, as leisure travel is restricted so certain section of consumers are spending on upgrading consumer durables. Companies are witnessing good growth in premium products across categories and are also introducing meaningful consumer promotions for the festive season.

The Indian appliance and consumer electronic industry was estimated to be around Rs. 76,400 crore (US\$ 10.93 billion) in the pre-pandemic 2019. The year 2021 continued to be a challenging year due to the second wave and increasing raw material prices. The consumer durable industry is expecting double-digit growth in the festive season sales in 2021 despite inflationary pressure on inputs that led to price hike twice in the year, shortage of components such as chipsets and a threat of a third wave

of the pandemic. The makers such as Panasonic, LG, Haier, Godrej Appliances and Lloyds are expecting a pent-up demand and good growth in premium products across categories like large-screen TVs, front-load washing machines, and bigger capacity refrigerators.

There has been a steady rise in demand for value-proposition appliances such as smart 4K Android TVs, connected range of ACs (HU series), refrigerators, washing machines, microwaves and other lifestyle appliances. Various companies are hoping to maintain the growth momentum through festive season to make up for losses due to the pandemic, launching a range of flagship products ahead of the festive season.

The companies are keeping their supply chain and inventory ready for the festive season, which starts in the North and other parts from Dussehra and goes up to Diwali and usually accounts for up to 30 per cent of their sales in a month. Companies announced an array of exciting offers such as cashback and easy consumer finance schemes to aid better consumer buying.

Makers have planned to launch new models along with a 360-degree integrated, promotional campaigns, cash backs, easy finance options as zero down payment and long-term EMI schemes. A good festive season sales would also help them recover the losses incurred on account of the second wave of the pandemic and lockdowns.

CONCLUSION

ROAD AHEAD

Indian appliance and consumer electronics (ACE) market is expected to increase at 9% CAGR to reach Rs. 3.15 trillion (US\$ 48.37 billion) in 2022. Demand growth is likely to accelerate with rising disposable income and easy access to credit. Increasing electrification of rural areas and wide usability of online sales would also aid growth in demand.

From the consumer durable market analysis, it can be concluded that this sector has huge potentialities to grow in near future in India. Further, the present government's initiative "Make in India" could act as a greatest opportunity to this sector. It is concluded that the determinants like income, the number of durables possessed, level of education of household head have significant positive effect on the demand for most of the major durables. Income is one of the important determinants which has significant positive effect on the demand for the major durables. The level of education of the household head has positive significant effect on the demand for major durables. Similarly, the number of durables possessed by a household also has positive effect on the demand for durable goods.

OUR MARKET STRATEGY: -

“Safa Systems & Technologies Limited” is having a Dashing, Experienced & Customer Centric Business Development Team right from the Top Management till the on-field executive, whose main aim is to bring the business for the organization in a right full way. We at Safa use several elements in marketing mix such as Product, Price, Place, Promotion, People, Physical evidence (exchange of Cards/brochures) and Process etc.

In its nascent stage, the Company in 2012 started off as all Kerala distributor for Micromax smart phones. The Company subsumed the existing distribution channel of Micromax, which was earlier managed by the erstwhile distributor. We were then supplying to the sub distributors in each district who in turn were supplying directly to the market.

The business of the company was in a three-tier format. Within a short span of time, the Company expanded the business to the entire region of Kerala, which were not catered to by them previously by appointing new sub distributors in those regions. Gradually the company changed the distribution format from 3 tier to 2 tier. This enabled our Company to directly interact with Large Format Retail (LFR) accounts and other prominent retailers.

Marketing of the products are usually done by the respective brands for their products. However, in some cases, in some brands, the Company jointly undertakes the marketing activities. The goodwill and repute of the Company attracted greater opportunities as other brands approached the company for distributorship.

Recently, the Company has taken an office in Mumbai as a part of its expansion plans to grow their presence into other regions of the country. We also supply goods to other distributors and whole sellers outside Kerala as and when the opportunity arises.

Business Development (BD) / Sales Process: -

➤ **Acquiring New Brands:** - The Company acquires the contract of distributorship directly from the brands it deals in. Usually, brands looking to expand their market by tapping into new regions approach the Company for business. It is usually in the form of a fixed term contract that is subject to renewal.

➤ **Contract Renewal Process:** - Usually unless terminated at the instance of either of the parties the contract hold valid.

➤ **Client Support:** - Client support is as important as sales. In fact, it is perhaps one of the major factors that have lead to the growth of the Company over the years. While the company is in the business of distributorship, maintaining robust business relations with the brands and retail participants ensures that the Company remains ahead of its competitors. While such support does not generate any revenue for the company, it surely does increase the goodwill of the organization in the market and amongst the customers. Additionally, the Company often, working with the brands takes up the advertising process for certain products.

OUR HISTORY AND CERTAIN CORPORATE MATTERS

History and Background:

Our Company is founded and promoted by Mr. Faizal Bavaraparambil Abdul Khader, Mr. Bavaraparambil Abdhulkadher Hydrose, and our promoter group includes Ms. Sruthi Muhammed Ali, Ms. Arakkal Ayyoob Soumya, Mr. Pathukunju Parayankudy Abubacker, Mr. Bavaraparambil Ayyoob Abdul Khader, Mr. Anaz Abdul Khader Bavaraparambil in the year 2021 by way of conversion of a Partnership Firm named “Safa Systems & Solutions” and to continue the similar and related business activity in the name of the company. This was done to corporatize and build a professionally managed and Board driven organization.

Mr. Bavaraparambil Abdhulkadher Hydrose (Father of Mr. Faizal, Managing Director and Promoter) started his business journey in the year 1975 as a wholesale trader of Lemon, Arecanut and Spices etc. Later on he also ventured into manufacturing of Slippers and Plywoods.

Since the year 2002-03, the elder sons of Mr. B H Abdul Khader, Mr. Faizal B A also stepped into the business. Mr. Faizal B A, a commerce graduate and a person who once aspired to become a Chartered Accountant, dropped his CA ambitions to join the family business. Sooner His Brother Mr. Ayyoob B A also joined the family business, following his brother, and was supported by his youngest brother Mr. Anas B A who is a B.Tech Graduate also joined the business and they diversified into electronic and mobile equipment business. They formed a partnership firm “Safa System & Solutions” in 2012 having 7 family members as partners.

Safa Systems & Solutions started its business in the year 2012 as a new entrant in the field of telecommunication and its accessories. We were appointed as all Kerala distributor for Micromax Smartphones and the initial year turnover i.e. in the financial year 2012-13 was Rs.7.84 crores. In the financial year 2013-14, we crossed a turnover of Rs.51.24 Crores. In the year 2015, we also made an arrangement with Micromax for its Feature Phones distributions in the State of Kerala, and in the financial year 2014-15 and 2015-16, we crossed a net turnover of Rs.94.98 Crores and 90.90 crores respectively. In the Financial year 2016-17, our net turnover dropped to Rs.73.30 crores because of the brand issues with Micromax. Until then we were only dealing with the products of Micromax.

In the year 2017-18, we decided to create a portfolio of brands rather than sticking to one brand and we were looking forward to capture 25% to 30% of the Smartphones market size in the state of Kerala. In the same year we signed up with the brand OPPO and we crossed a net turnover of Rs.169.41 Crores.

In the financial year 2018-19 we signed up with more brands like Xiaomi, Vivo, LG, etc. and our net turnover was Rs.254.92 Crores. Further, In the Financial Year 2019-20 we also signed up with more brands like Huawei, Motorola, etc. and we crossed a net turnover of Rs.255.12 Crores.

In the Financial Year 2020-21 we signed up with the brand One Plus for the Kerala region. The net turnover in financial year 2020-21 dropped to Rs. 208.51 crores due to Covid-19, pandemic.

The journey from 2012 to date was quite remarkable and we felt the need to structure the business from partnership firm to corporate setup, unorganized to organized and well professionally managed organisation. Accordingly, the partnership firm was converted into Limited Company in the year 2021.

Presently, our company is in the business of distributorship of consumer durable products like Mobile phones, Mobile phone accessories, Tablets, LED TVs, Home appliances and wearable devises of various brands like Xiaomi, OPPO, TECNO, Micromax, One Plus in Kerala. The company works in B2B (Business to Business) model.

Phased implementation of Unified Payments Interface (UPI)

SEBI has issued the various UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Retail Individual Investors through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Investor had the option to submit the ASBA Form with any of the Designated Intermediary and use his/her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by Retail Individual Investors through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days. For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the Managers.
