PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

CERTAIN CONVENTIONS

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, “the Company”, “our Company”, unless the context otherwise indicates or implies, refers to Sahaj Solar Limited. All references in this Draft Red Herring Prospectus to ‘India’ are to the Republic of India and its territories and possessions and all references herein to the ‘Government,’ ‘Indian Government,’ ‘GoI,’ ‘Central Government’ or the ‘State Government’ are to the GoI, central or state, as applicable.

Unless otherwise specified, any time mentioned in this Draft Red Herring Prospectus is in Indian Standard Time (“IST”). Unless stated otherwise, all references to page numbers in this Draft Red Herring Prospectus are to the page numbers of this Draft Red Herring Prospectus.

FINANCIAL DATA

Unless stated otherwise, the financial data in this Draft Red Herring Prospectus is derived from our Restated Financial Statements of our Company i.e. the Restated Consolidated Statement of Asset & Liabilities as at September 30, 2023, March 31, 2023 and March 31, 2021, the Restated Consolidated Statement of Profit and Loss and the Restated Consolidated Statement of Cash Flows for the six months period ended September 30, 2023 and for the years ended March 31, 2023 and March 31, 2021, and the Statement of Significant Accounting Policies, and other explanatory information relating to such financial periods and (ii) the Restated Statement of Asset & Liabilities as at March 31, 2022, the Restated Statement of Profit and Loss and the Restated Statement of Cash Flows for the year ended March 31, 2022, and the relevant Statement of Significant Accounting Policies, and other explanatory information relating to the year ended March 31, 2022 prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations, 2018 and the revised guidance note on reports in Company Prospectuses (Revised) issued by the ICAI, together with the schedules, notes and annexure thereto, as set out in the chapter titled ‘*Restated Financial Information*’ beginning on page 206 of this Draft Red Herring Prospectus.

Our Financial Year commences on April 1 and ends on March 31 of the following year, so all references to a particular Financial Year are to the twelve-month period ended March 31 of that year.

In the Draft Red Herring Prospectus, discrepancies in any table, graphs or charts between the total and the sums of the amounts listed are due to rounding-off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places.

There are significant differences between Indian GAAP, IFRS and U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included herein, and the investors should consult their own advisors regarding such differences and their impact on the financial data. Accordingly, the degree to which the restated financial statements included in the Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in the Draft Red Herring Prospectus should accordingly be limited.

Any percentage amounts, as set forth in the chapter titled ‘*Risk Factors*’, ‘*Business Overview*’ and ‘*Management's Discussion and Analysis of Financial Condition and Results of Operations*’ beginning on page 34, 131 and 213 respectively, of this Draft Red Herring Prospectus and elsewhere in the Draft Red Herring Prospectus, unless otherwise indicated, have been calculated on the basis of our restated financial statements prepared in accordance with the Companies Act and restated in accordance

with the SEBI (ICDR) Regulations, 2018 and the Indian GAAP and Guidance Note on 'Reports in Company Prospectus', as amended issued by ICAI.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data and forecast used throughout the Draft Red Herring Prospectus was obtained from internal Company reports, data, websites, Industry publications report as well as Government Publications. Industry publication data and website data generally state that the information contained therein has been obtained from sources believed to be reliable, but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although, we believe industry and market data used in the Draft Red Herring Prospectus is reliable, it has not been independently verified by us or the BRLM or any of their affiliates or advisors. Similarly, internal Company reports and data, while believed by us to be reliable, have not been verified by any independent source. There are no standard data gathering methodologies in the industry in which we conduct our business and methodologies and assumptions may vary widely among different market and industry sources.

In accordance with the SEBI (ICDR) Regulations, 2018 the section titled '*Basis for Offer Price*' on page 89 of the Draft Red Herring Prospectus includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLM, have independently verified such information.

Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward-looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following: -

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the industry which we operate;
- Factors affecting the industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled ‘**Risk Factors**’ and chapter titled ‘**Management Discussion and Analysis of Financial Condition and Results of Operations**’ beginning on pages 34 and 213 respectively of this Draft Red Herring Prospectus. By their nature, certain market risk disclosures are the only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Draft Red Herring Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

1. Primary Business of the Company

Our company is a Solar Solutions providing company having experience of more one decade in majority of the verticals of renewable power generation. We are a manufacturing as well as a service provider company which gives us an edge in the solar power market. We are engaged in three businesses of PV Module manufacturing, providing solar pumping systems and providing EPC Services.

For detailed information on our business activities, please refer to section titled **‘Business Overview’** on page 131 of this Draft Red Herring Prospectus.

2. Summary of industry in which the company is operating

2022 has been an eventful year for the Indian solar industry. India added around 14 GW⁸ of solar capacity in 2022, making it the year with the highest annual capacity addition. At the end of December 2022, India’s cumulative solar installations stood at 63.5 GW, making India the world’s 5th largest country in terms of installed solar capacity. India has revised its 2030 solar target to 300 GW from previous target of 100GW, out of a total 500 GW renewable energy capacity. With this revision, India will witness a solar capacity addition of around 20-30 GW every year from 2023. In 2022, the Indian government also approved Phase II of the Green Energy Corridor, which will facilitate the grid integration and power transmission of approximately 20 GW of renewable energy projects in seven States. Power evacuation refers to transmission of power from a generating plant to the grid for further transmission. The seven chosen states are Gujarat, Himachal Pradesh, Karnataka, Kerala, Rajasthan, Tamil Nadu, and Uttar Pradesh. The goal is to add 10,750 circuit kilometers of intra-state transmission lines, and 27,500 MVA substations by March 2026.

The market size for **solar water pumping systems** in India was valued at around USD 120 million in 2022 and is expected to witness a compound annual growth rate (CAGR) of approximately 20% from 2022 to 2026. The Indian **solar photovoltaic (PV)** market is expected to grow at a CAGR of 9.8% between 2024 and 2032, reaching 43.23 GW by 2032. The India **power EPC** (Engineering, Procurement, and Construction) market size was valued at USD 13.30 Billion in 2022 and is likely to reach USD 83.84 Billion by 2031, expanding at a CAGR of 22.7% during 2023–2031.

SECTION III – RISK FACTORS

Any investment in equity securities involves a high degree of risk. Investor should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a more complete understanding, you should read this section together with Sections titled, '*Business Overview*', '*The Offer*', '*Industry Overview*', '*Restated Financial Information*', '*Outstanding Litigation and Material Developments*' and '*Management's Discussion and Analysis of Financial Condition and Results of Operations*' beginning on page 131, 52, 102, 206, 229 and 213 respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus.

Any of the following risks, as well as the other risks and uncertainties discussed in this Draft Red Herring Prospectus, could have an adverse effect on our business, financial condition, results of operations and prospects and could cause the trading price of our Equity Shares to decline, which could result in the loss of all or a part of your investment. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial conditions and Red Herring Prospects.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements because of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the effect is not quantifiable and hence has not been disclosed in such risk factors. You should not invest in this Issuing unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the consequences to you of an investment in the Equity Shares.

The financial information in this section is, unless otherwise stated, derived from our Restated Financial Statements prepared in accordance with Indian GAAP, as per the requirements of the Companies Act, 2013, and SEBI (ICDR) Regulations.

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some risks may not be material individually but may be material when considered collectively.
- Some risks may have material impact qualitatively instead of quantitatively.
- Some risks may not be material at present but may have a material impact in the future.

INTERNAL RISK FACTOR

1. Our Registered Office from where we operate is not owned by us.

Our Registered Office premise situated at Office No. 301, Ashirvad Paras Opp. Prahladnagar Garden, Satellite, Ahmedabad, Gujarat, India - 380051 is not owned by us, it is taken on lease rental basis w.e.f. October 01, 2022 from our promoter & promoter group, Pramit Bharkumar Brahmhatt and Manan Bharkumar Brahmhatt, being the owners of the property, for period of 3 years at a monthly rent of Rs. 97,500/- (Rupees Nine-Seven Thousand Five Hundred Only). We cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favorable terms in future. If we are required to vacate the current premises, we would

be required to make alternative arrangements for new office and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favorable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

2. *Our Company is dependent on few numbers of customers for sales. Loss of any of this large customer may affect our revenues and profitability.*

Our top ten customers contribute 85.07%, 89.72%, 81.93%, and 81.54% of our total sales for period ended September 30, 2023 and for the financial year ended on March 31, 2023, 2022 and 2021, respectively. Our business operations are highly dependent on our customers and the loss of any of our customers may adversely affect our sales and consequently on our business and results of operations. While we typically have long term relationships with our customers, we have not entered into long term agreements with our customers and the success of our business is accordingly significantly dependent on us maintaining good relationships with our customers and suppliers. The actual sales by our Company may differ from the estimates of our management due to the absence of long-term agreements. The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future. Any decline in our quality standards, growing competition and any change in the demand, may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations.

However, the composition and revenue generated from these customers might change, as we continue to add new customers in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new customers, there can be no assurance that we will be able to maintain long term relationships with such customers or find new customers in time.

3. *We highly depend on our major raw materials and a few key suppliers who help us procure the same. Our Company has not entered into long-term agreements with its suppliers for supply of raw materials. In the event we are unable to procure adequate amounts of raw materials, at competitive prices our business, results of operations and financial condition may be adversely affected.*

Our company is primarily engaged in the manufacturing of Solar Panels and providing installation services. We are highly dependent on solar cells, which is the primary component of our manufacturing process. We have relationships with a group of suppliers that helps us source raw materials such as solar cells, glass, EVA sheets, back-cover, aluminum frame, Junction box, batteries and other solar equipment at competitive costs from regional players. We depend on a few suppliers for procurement of raw materials, required for manufacturing our products. Our top ten suppliers contributes 75.68%, 78.03%, 77.46%, and 52.75% of our total purchase for period ended September 30, 2023 and for the financial year ended on March 31, 2023, 2022 and 2021, respectively.

Our Company maintains a list of registered suppliers from whom we procure the materials on order basis as per our internal demand projections. We have not entered into long term contracts with

our suppliers and prices for raw materials are normally based on the quotes we receive from various suppliers. Since we have no formal arrangements with our suppliers, they are not contractually obligated to supply their products to us and may choose to sell their products to our competitors. Non-availability or inadequate quantity of raw material or use of substandard quality of the raw materials in the manufacture of our products, could have a material adverse effect on our business. Further, any discontinuation of production by these suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality and quantity could hamper our manufacturing schedule. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials to us. Further, we cannot assure you that our suppliers will continue to be associated with us on reasonable terms, or at all. Since our suppliers are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms to such suppliers, which may cause them to cater to our competitors alongside us.

4. *We have only one Manufacturing Facility, continued operations of our manufacturing facility is critical to our business and any disruption in the operation of our manufacturing facility may have a material adverse effect on our business, results of operations and financial condition.*

As on the date of this Draft Red Herring Prospectus, we have only one manufacturing facility situated at Bavla, Gujarat. Our manufacturing facility is subject to operating risks, such as unavailability of spare parts of the machinery, break-down, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, any local social unrest, natural disaster or breakdown of services and utilities in these areas could have material adverse effect on the business, financial position and results of our operations. In the event, we are forced to shut down our manufacturing unit for a prolonged period; it would adversely affect our earnings, our other results of operations and financial condition as a whole.

In addition to the above if our manufacturing unit suffers losses as a result of any industrial accident, we may be forced to shut down our manufacturing unit which could result in us being unable to meet with our commitments, which will have an adverse effect on our business, results of operation and financial condition. Further, any contravention of or non-compliance with the terms of various regulatory approvals applicable to our manufacturing unit may also require us to cease or limit production until such non-compliance is remedied to the satisfaction of relevant regulatory authorities. We cannot assure you that we will not experience work disruptions in the future resulting from any dispute with our employees or other problems associated with our employees and the labor involved in our manufacturing unit, which may hinder our regular operating activities and lead to disruptions in our operations, which could adversely affect our business, prospects, financial condition, cash flows and results of operations.

5. *Our Restated Financial Statements are prepared and signed by the Peer Review Chartered Accountants who is not Statutory Auditors of our Company.*

The Restated Financial Statements have been provided by Peer Reviewed Chartered Accountants M/s. B. V. Zalavadia & Co., who is not Statutory Auditor of our Company. The Restated Financial Statements of our Company for the period ended September 30, 2023 and for the financial years ended March 31 2023, March 31 2022 and March 31, 2021 have been provided by a Peer Reviewed Chartered Accountant who is not Statutory Auditor of our Company.

6. *Our failure to perform in accordance with the standards prescribed in work order of our client could result in loss of business or payment of liquidated damages.*

We received work order from our clients. Certain of these work order may require us to comply with the code of conduct and rules and regulations prescribed by our clients, which may increase our compliance costs. We may be unable to effectively address service constraints or accurately predict service requirements, as a result of which our clients may experience service shortfalls. Any disruptions to our businesses, including as a result of actions outside of our control, could significantly impact the continued performance of our obligations to meet the quality or performance standards set out in our client contracts which may in-turn harm and cause clients to terminate their contracts with us, impair our ability to obtain renewal of our contracts from existing clients and impair our ability to grow our client base, any of which could affect our business, financial condition and results of operations. In the event that we are unable to meet the prescribed obligations, we may also be required to pay compensation or liquidated damages to our clients on the terms set out in our contracts. In certain instances, we may also be required to bear consequential liability. Certain work order may also require us to provide indemnities to our clients with respect of any negligent act or omission by or misconduct of our employees. Some work orders have penalty clauses, such as charging 0.5% of the system cost per week, up to a maximum of 10%, if the system installation is delayed beyond 90 days from the Notice to proceed (NTP) date. To best of our knowledge in past five financial years there has been no instances where we were liable to pay any penalties for failure to perform in accordance with the standard prescribed in work order.

7. *We conduct our business activities on a purchase order basis and therefore, have not entered into long-term agreements with our customers.*

Our Company is engaged in the business of manufacturing of solar panels on the basis of orders which are received from our customers. We have not entered into any formal agreements, arrangement or any other understanding with our customers or our traders and therefore, our business is dependent upon the continuous relationship with the customers, our traders and the quality of products supplied to us. Further, neither do we have any exclusive agents, dealers, distributors nor have we entered into any agreements with any of the market intermediaries for selling or marketing the products supplied to us. If there occurs any change in the market conditions, market trends, requirements of our customers, or if we fail to identify and understand evolving industry trends, preferences or fail to meet our customers' demands, it might have a direct impact on our revenue and customer base. The inability to procure new orders on a regular basis or at all may adversely affect our business, revenues, cash flows and operations.

8. *Our company is engaged in assembling of solar water pumping system and customers receives subsidy from State/Central Government. Any reduction or discontinuation of such subsidy will result in reduction in number of potential consumers.*

We also provide services of assembling of solar water pumping system to beneficiaries for their captive purpose, the Empanelment of the Scheme which was run by MNRE in which beneficiaries are eligible for claiming subsidy directly from State/Central Government. Apart from that if the same scheme discontinued by the government, in future or if there is any reduction or any discontinuance of subsidy from State/Central Government, we may require to charge total cost of project from customers which will ultimately results higher cost to the customer. As a result number of potential consumer of our services may reduce which will ultimately affect our potential revenue in future to that extent.

9. *Our business activities are exposed to fluctuations in the prices of raw materials.*

Our Company is dependent on third party suppliers for procuring the raw materials required for manufacturing of our products. We are exposed to fluctuations in the prices of these raw materials

as well as its unavailability, particularly as we typically do not enter into any long-term supply agreements with our suppliers for raw materials. Our major requirement is met in the spot market. We may be unable to control the factors affecting the price at which we procure the raw materials for products we get manufactured. We also face the risks associated with compensating for or passing on such increase in our cost of trades on account of such fluctuations in prices to our customers. Upward fluctuations in the prices of traded goods may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production/trade cycles and delivery schedules, which may result in the loss of our customers and revenues.

10. We have experienced negative cash flows in the past. Any such negative cash flows in the future could affect our business, results of operations and prospects.

Our Company had reported certain negative cash flows in the previous years as per the Restated Financial Statements and the same are summarized as under:

(₹ in Lakhs)

Particulars	Sept. 30 2023	March 31, 2023	March 31, 2022	March 31, 2021
Net cash flow from/ (used in) operating activities	(573.41)	1,143.75	(166.42)	402.80
Net cash flow from/ (used in) investing activities	4.69	(86.94)	16.39	(257.68)
Net cash flow from/ (used in) financing activities	312.34	(862.94)	65.36	(184.15)
Net increase/(decrease) in cash and cash equivalents	(256.38)	193.87	(84.67)	(39.03)
Cash and cash equivalents at the beginning of the year	315.22	106.86	193.81	224.07
Cash & Cash Equivalents of Subsidiary Companies 1 & 2 on the date of acquisition	-	14.48	-	8.77
Cash & Cash Equivalents of Subsidiary Company 1 at the beginning of the year	-	-	(2.28)	-
Cash and cash equivalents at the end of the year	58.84	315.22	106.86	193.81

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If our Company is not able to generate sufficient cash flows, it may affect our business and financial operations. For further please refer chapter titled '*Financial Information*' beginning on page 206 of this Draft Red Herring Prospectus.

11. If we experience insufficient cash flows from our operations or are unable to borrow to meet our working capital requirements, it may materially and adversely affect our business, results of operations and cash flows.

Our business requires working capital primarily as a considerable amount of time passes between purchase materials and components and sale of our products. As a result, we are required to maintain sufficient stock of raw materials at all times in order to meet manufacturing requirements,

thus increasing our storage and working capital requirements. Consequently, there could be situations where the total funds available may not be sufficient to fulfil our commitments, and hence we may need to incur additional indebtedness in the future, or utilize internal accruals to satisfy our working capital needs. Our future success depends on our ability to continue to secure and successfully manage sufficient amounts of working capital. Further, our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors. While there have been no instances of modifications in payment terms by our customers in the last three Fiscals and six months ended September 30, 2023, we are also required to provide performance guarantees and advance payment guarantees to our customers which requires us to block our funds that can be used for working capital.

We typically rely on internal accruals as well as credit facilities with banks to provide for our working capital arrangements. The table below sets forth details of certain parameters as of the dates indicated:

Particulars	As of March 31, 2023			September 30, 2023*
	2021	2022	2023	
Inventories (₹ lakhs)	988.64	1,112.72	1,184.22	1,468.42
Trade Receivables (₹ lakhs)	898.40	3,726.26	5,364.96	5,228.45
Trade Payables (₹ lakhs)	831.06	3,184.59	5,624.90	4,307.27
Inventory Days	61	65	25	47
Debtors Days	53	204	106	154
Creditor Payable Days	59	210	124	154

*On an annualized basis

We have experienced an increase in our inventory days and creditor payable days in the last three Fiscals and six months ended September 30, 2023, on account of an increase in our business and revenue from operations. As we pursue our growth plan, we may be required to raise additional funds by incurring further indebtedness or issuing additional equity to meet our capital expenditures in the future. We cannot assure you that we will not experience insufficient cash flows or be able to borrow funds on a timely basis, or, at all, to meet our working capital and other requirements, or to pay our debt, which could materially and adversely affect our business and results of operations. Although we sell products either against advance payment or against letter of credit which, coupled with our internal accruals, may be able to support our working capital requirements, we cannot assure you that this will have sufficient liquidity to meet our working capital requirements.

12. The Company has received a notice from MSME Commissionerate for the delayed payments under MSMED Act, 2006.

The Company has received a notice from MSME Commissionerate vide notice number MSME-D/MSEFC/DP-1588/8520 dated 07/12/2022, to be present for the hearing for Conciliation/ Arbitration for the delayed payments under MSMED Act, 2006. One of our supplier BKT Enterprise, Ahmedabad has supplied us faulty material and in view of the same the Company have asked for the replacement but the Company had not received any communication from the supplier hence, the Company withhold the payment of the supplier. The Company had appeared in the hearing and the authority ordered the Company to submit the final submissions within 7 working days. The Company have submitted final submissions vide dated December 12, 2022. The status of this matter is pending before the authorities for their consideration. The Quantum of contingent

liability is not ascertainable at present

Any adverse decisions in above proceeding may affect our business, results of operations, cash flows and financial condition.

13. *We had certain inaccuracy in relation to regulatory filings to be made with the RoC and our company has made non-compliances of certain provision under applicable laws.*

Our Company has failed to adhere to some of the requirements of the Companies Act, 2013 and the rules made under it, as amended from time to time. Our Company has not submitted form DIR-12 for Mr. Dilip Balshanker Joshi and Ms. Amita Jatin Parikh, who were appointed as an Additional Independent Directors of our Company with effect from July 01, 2023 and July 05, 2023 respectively.

We have not received any show cause notice from any regulatory authority regarding the above matters till date and no penalty or fine have been levied on our Company for the same. However, we cannot guarantee that such instances will not occur in the future, or that our Company will not face any further delays or defaults in relation to its reporting obligations, or that any penalty or fine will not be imposed on our Company for the same. Such events may have a material impact on our business performance and financial condition.

14. *Our Promoter Pramit Bhartkumar Brahmbhatt plays a key role in our functioning and we heavily rely on his knowledge and experience in operating our business and therefore, it is critical for our business that our promoter remain associated with us.*

We benefit from our relationship with our Promoter Pramit Bhartkumar Brahmbhatt and our success depends upon the continuing relationship with him, who has been responsible for the growth of our business and is closely involved in the overall strategy, direction and management of our business. He has been actively involved in the day-to-day operations and management. Accordingly, our performance is heavily dependent upon his services. If our Promoter is unable or unwilling to continue in his present position, we may not be able to replace him easily or at all. Our Promoter, has built relations with various customers over the years and other persons who form part of our stakeholders and are connected with us. Discontinuance of his services may impair our ability to implement our strategy, our business, financial condition, results of operations and prospects may be materially and adversely affected.

15. *The outstanding orders in our order book may be delayed, modified or cancelled which may have an adverse impact on our business, results of operations and cash flows.*

We have a substantial order book of solar PV modules and as of September 30, 2023, our Company's pending order book of solar PV modules was 10.56 MW which included domestic orders, export orders, etc. We cannot guarantee that the income anticipated in our order book will be realized on time, or at all. Any cancellations or scope adjustments, which may occur from time to time, could reduce the amount of our order book and the income and profits that we ultimately earn from the contracts. Any delay, cancellation or payment default could have a material adverse effect on our business, results of operations and cash flows.

16. *We are exposed to credit risk from our customers and the recoverability of our trade receivables is subject to uncertainties.*

We typically allow certain credit period to some of our customers and are therefore exposed to credit risk from such customers. The table below sets forth certain details of our trade receivables, and trade receivable turnover days for the year/period indicated:

Particulars	As of March 31, 2023			September 30, 2023*
	2021	2022	2023	
Trade Receivables (₹ lakhs)	898.40	3,726.26	5,364.96	5,228.45
Debtors Days	53	204	106	154

*On an annualised basis

A customer's ability to make payments on timely basis depend on various factors such as the general economic and market conditions and the customer's cash flow position, which are out of our control. Delays in receiving payments from our customers may adversely affect our cash flow position and our ability to meet our working capital requirements. There is no assurance that our customers will pay us on a timely basis or at all, which may adversely affect the recoverability of our trade receivables, or that we will be able to efficiently manage the level of bad debt arising from delayed payments.

Bringing action against our customers to enforce their contractual obligations is often difficult and there can be no assurance that if we initiate any legal proceedings against any such entities, we will receive a judgment in our favour or on a timely basis. A failure by any of our customers to meet its contractual commitments, or an insolvency or liquidation of any of our customers, could have an adverse effect on our financial condition and results of operations.

17. *Our Restated Financial Information for the relevant financial reporting periods are not comparable on account of certain acquisitions and divestments made by our Company in the relevant financial reporting periods.*

With regards to our subsidiaries, our Company had bought 51% stake in Sustainable Planet Green Energies Private Limited (SPGEPL) in July'23 and bought 80% stake in Veracity Powertronics Private Limited (VPPL) in Dec'22. Our Company had initially bought a 56% stake in Veracity Energy and Infrastructure Private Limited (VEIPL) in July'20 and then sold this stake by the end of Dec'21. Subsequently, our Company had again acquired an 80% stake in VEIPL in Dec'22.

To summarize, our company currently holds 51% stake in SPGEPL and 80% in VPPL and VEIPL each. Further, our company has not taken required valuation reports for these acquisitions and divestments.

Potential investors should carefully take into account the discussion above, our Restated Financial Information, and the discussions in '*Management's Discussion and Analysis of Financial Conditions and Results of Operations*' on page 213, in evaluating our business and financial performance and in making any investment decision.

18. *Improper storage, processing and handling of materials and products may cause damage to our inventory leading to an adverse effect on our business, results of operations and cash flows.*

Our inventory primarily consists of materials and components used in our manufacturing operations, and finished products. Our materials, manufacturing processes and finished products are susceptible to damage or contamination if not appropriately stored, handled and processed, which may affect the quality of the finished product. Although there have been no such material incidents that have occurred in the last three Fiscals and six months ended September 30, 2023,

should such an incident happens in the future, we cannot assure you that it will not result in the losses of inventory. In the event such damage or contamination is detected at the manufacturing facility during quality checks, we may have to suspend manufacturing activities, and lower capacity utilizations, which could materially and adversely affect our business prospects and financial performance. Improper storage may also result in higher than usual damage to our inventory due to adverse weather conditions or longer than usual storage periods, which may also require us to incur additional expenses in replacing that portion of the inventory and/ or incur additional expenses in maintenance and improvement of our storage infrastructure, which may adversely affect our profit margin.

19. We have certain contingent liabilities that have been disclosed in our financial statements, which if they materialize, may adversely affect our results of operations, cash flows and financial condition.

As at September 30, 2023, our contingent liabilities that have been disclosed in our Restated Financial Information, were as follows:

Particulars	Amount (₹ in lakhs)
Service Tax & VAT Matters under dispute	-
Claims against the company not acknowledged as debt (Interest Amount to Disputed MSME Dues) (Refer Note 1)	1.15
Letter of Credits & Guarantees	222.48
Performance Guarantees	494.97
Custom Duty related to export obligation (Refer Note 2)	108.39
Total	826.99

Note:

1. Claims against the company not acknowledged as debt comprises of interest amount on delayed payment to disputed MSME Supplier. The case is pending at MSME Commissionerate, Gandhinagar for adjudication.
2. In relation to Custom Duty related to export obligation, Rs. 108.39 Lacs is the amount of duty saved in relation to which company was supposed to achieve total export obligation of \$ 10,52,060 (Rs. 672.62 Lacs) against which the company has already executed exports amounting to \$ 10,17,795 (Rs. 669.70 Lacs) till the date of signing of restated financial statements. Company is into the process of getting Export Obligation Discharge Certificates (EODC) for the licences wherein prescribed export obligation is duly achieved. For the balance export obligation, the company may or may not be required to pay duty amount along with applicable interest.

If a significant portion of these liabilities materialize, it could have an adverse effect on our business, cash flows, financial condition and results of operations. For further information on contingent liabilities as of September 30, 2023, see '**Restated Financial Information**' on page 206.

20. Company derives a significant portion of revenue from solar pumping systems and any reduction in the production of such products could have an adverse effect on the business, results of operations and financial condition.

Company derives a significant portion of revenue from solar pumping systems and any reduction in the production of such products could have an adverse effect on the business, results of operations and financial condition. Our Company have generated ₹ 3,664.77 lakhs and ₹ 13,213

lakhs from manufacturing of solar pumping systems consisting of amounting to 60.26% and 72.94% of the total revenue from operations for period / financial year ended on September 30, 2023 and March 31, 2023. Consequently, any reduction in a temporary or permanent discontinuation of solar pumping systems could have an adverse effect on business of the company, results of operations and financial condition.

21. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds.*

The funding requirement and deployment of the Net Proceeds described in '*Objects of the Offer*' on page 83 of this Draft Red Herring Prospectus are based on current circumstances of our business, prevailing market conditions estimates received from the third-party agencies, and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy, as discussed further below. The estimates for the proposed expenditure are based on several variables, a significant variation in any one or a combination of which could have an adverse effect. Furthermore, the deployment of funds has not been appraised by any bank or financial institution.

We operate in a highly competitive and dynamic industry and we may have to revise our funding requirements and deployment from time to time on account of various factors beyond our control, such as availability of raw material, demographic trends, technological changes, increasing regulations or changes in government policies, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our business, results of operations, financial condition and access to capital such as credit availability and interest rate levels. Our Company, in accordance with the policies established by the Board from time to time, will have flexibility to deploy the Net Proceeds. Furthermore, pending utilization of Net Proceeds towards the Objects of the Issue, our Company will have the flexibility to deploy the Net Proceeds and to deposit the Net Proceeds temporarily in deposits with one or more scheduled commercial banks included in Second Schedule of Reserve Bank of India Act, 1939, as may be approved by our Board. Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Net Proceeds and there can be no assurance that we will earn significant interest income on, or that we will not suffer unanticipated diminution in the value of, such temporary deposits. Furthermore, various risks and uncertainties, such as economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations, financial condition and access to capital and including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business.

22. *We have entered into, and will continue to enter into, related party transactions that may involve conflicts of interest.*

In ordinary course of business, we have entered into certain transactions with related parties in the past and from time to time, we may enter into related party transactions in the future as well.

While our Company believes that all such related party transactions that we have entered into are legitimate business transactions conducted on arms-length basis and are in compliance with the Companies Act and other applicable laws, we cannot assure that we could not have been achieved more favourable terms had such transactions not been entered into with related parties. Further, in future our Company may enter into related party transaction in Compliance with the Companies Act and other applicable laws. Furthermore, we cannot assure that these or any future related party transactions that we may enter into, individually or in the aggregate, will not have an adverse effect

on our financial condition and results of operation. Further, the transactions we have entered into and any future transactions with our related parties have involved or could potentially involve conflicts of interest which may be detrimental to our Company. For details of the related party transactions in the six months period ended Sept 30, 2023 and Fiscals 2023, 2022 and 2021 respectively, see Note titled 'Related Party Transaction' under section Notes forming part of Restated Financial Information under the chapter '**Restated Financial Information**' beginning on page 206 of this Draft Red Herring Prospectus.

23. *We face competition in our business from domestic competitors. Such competition would have an adverse impact on our business and financial performance.*

The industry, in which we are operating, is highly and increasingly competitive and our results of operations and financial condition are sensitive to, and may be materially adversely affected by, competitive pricing and other factors. Competition may result in pricing pressures, reduced profit margins or lost market share or a failure to grow our market share, any of which could substantially harm our business and results of operations. There can be no assurance that we can effectively compete with our competitors in the future, and any such failure to compete effectively may have a material adverse effect on our business, financial condition and results of operations.

24. *Any adverse change in regulations governing our products and the products of our customers, may adversely impact our business prospects and results of operations.*

Regulatory requirements with respect to our products and the products of our customers are subject to change. An adverse change in the regulations governing the development of our products and their usage by our customers, including the development of licensing requirements and technical standards and specifications or the imposition of onerous requirements, may have an adverse impact on our operations. Our Company may be required to alter our manufacturing and/or distribution process and target markets and incur capital expenditure to achieve compliance with such new regulatory requirements applicable to us and our customers. We cannot assure you that we will be able to comply with the regulatory requirements. If we fail to comply with new statutory or regulatory requirements, there could be a delay in the submission or grant of approval for manufacturing and marketing new products or we may be required to withdraw existing products from the market. Moreover, if we fail to comply with the various conditions attached to such approvals, licenses, registrations and permissions once received, the relevant regulatory body may suspend, curtail or revoke our ability to market such products and/or we may be deemed to be in breach of our arrangements with our customers. Consequently, there is an inherent risk that we may inadvertently fail to comply with such regulations, which could lead to forced shutdowns and other sanctions imposed by the relevant authorities, as well as the withholding or delay in receipt of regulatory approvals for our new products, which may adversely impact our business, results of operations and financial condition.

25. *Our Company has availed ₹ 221.28 lakhs as unsecured loan as on September 30, 2023, which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition.*

Our Company has, as per the Restated Financial Statements, as on September 30, 2023, has availed total sum of ₹ 221.28 lakhs as unsecured loan from Director/Promoter & Promoter Group of our company, which may be recalled at any time. Sudden recall may impact our operations and also may force us to opt for funding at unviable terms resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For details of transactions, please refer '**Financial Information**' beginning from page 206 of this Draft Red Herring Prospectus.

- 26. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.***

As on date of this Draft Red Herring Prospectus, our Promoter and Promoter group collectively owns 97.08% equity shareholding in our Company. Post this Offer, they will collectively own [•] % of our post issue equity share capital. As a result, our Promoter, together with the members of the Promoter Group, will continue to exercise a significant degree of influence over Company and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act, 2013 and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoter will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or other shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

- 27. *We depend on our management team and other personnel with technical expertise, and if we are unable to recruit and retain qualified and skilled personnel, our business and our ability to operate or grow our business may be adversely affected.***

Our success depends to a large extent on the continued services of our management team and other personnel with technical expertise. In an event they no longer work for us, there is no assurance that we will be able to find suitable replacements for such Personnel in a timely manner or at all and implement a smooth transition of responsibilities to any newly appointed personnel. The market for qualified professionals is competitive and we may not continue to be successful in our efforts to attract and retain qualified people. We may therefore need to increase compensation and other benefits in order to attract and retain personnel in the future, which may adversely affect our results of operations.

- 28. *We do not have copies of past experience certificates of our promoters/Directors and Key Managerial Personnel.***

We do not have relevant copies of past experience certificates of Sureshchandra Naharsinh Rao – Non-Executive Director, Dilip Balshanker Joshi – Independent Director and Manan Bharkumar Brahmhatt – Chief Financial Officer. We can't assure you that backups for the relevant copies of experience certificates will be available in a timely manner or at all. We have relied on self-attested resume received from them.

- 29. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the offer price.***

Our Promoters' average cost of acquisition of Equity Shares in our Company is lower than the Offer Price of the shares proposed to be offered through this Draft Red Herring Prospectus. For further details regarding the average cost of acquisition of Equity Shares by our Promoters in our Company, please refer to page 33 of this Draft Red Herring Prospectus.

- 30. *There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.***

The Offer proceeds is entirely at the discretion of the issuer/management. As per SEBI (ICDR) Regulations, 2018, and amendments thereto, the appointment of a monitoring agency is required only if the Offer size exceeds ₹ 10,000 Lakhs. Hence, we have not appointed any monitoring agency to monitor the utilization of Offer proceeds. However, as per Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Offer Proceeds.

31. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risks.*

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may deteriorate over time, due to evolving business conditions. Any dilution or deficiency in our internal control system may expose us to additional risks.

32. *Some of the KMPs are associated with our company for less than one year.*

Our Chief Financial Officer and Company Secretary have been associated with the Company for a period of less than one year therefore they may not have been accustomed to the company affairs till date. For details of Key Management Personnel and their appointment, please refer to chapter ‘*Our Management*’ beginning on page 180 of this Draft Red Herring Prospectus.

EXTERNAL RISK FACTOR

33. *Political instability and significant changes in Government policy could adversely affect economic conditions in India generally and our business in particular.*

Changes in exchange rates and controls, interest rates, Government policies, taxation, social and ethnic instability and other political and economic developments in and affecting India may have an adverse effect on our results of operations. India has a mixed economy with a large public sector and an extensively regulated private sector. The role of the Government and that of the state governments in the Indian economy and their effect on producers, consumers, service providers and regulators has remained significant over the years. Both state and central governments have, in the past, among other things, imposed controls on the prices of a broad range of goods and services, restricted the ability of businesses to expand existing capacity and reduce the number of their employees and determined the allocation to businesses of raw materials and foreign exchange. Since 1991, successive Governments have pursued policies of economic liberalization, including significantly relaxing restrictions in the private sector. Nevertheless, the role of the Government and state governments in the Indian economy as producers, consumers and regulators has remained significant. There can be no assurance that the Government’s past liberalization policies or political stability will continue in the future. Elimination or substantial change of such policies or the introduction of policies that negatively affect the security service industry could have an adverse effect on our business. Any significant change in India’s economic liberalization and deregulation policies could disrupt business and economic conditions in India generally and our business in particular.

34. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition, and prospects.*

The regulatory and policy environment in which we operate is evolving and subject to change. Our business is subject to a significant number of state tax regimes and changes in legislations

governing them, implementing them or the regulator enforcing them in any one of those jurisdictions could adversely affect our results of operations. The applicable categories of taxes and tax rates also vary significantly from state to state, which may be amended from time to time. The final determination of our tax liabilities involves the interpretation of local tax laws and related regulations in each jurisdiction as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned, and expenditures incurred. Changes in the operating environment, including changes in tax law, could impact the determination of our tax liabilities for any given tax year. Taxes and other levies imposed by the Government or State Governments that affect our industry include GST, income tax and other taxes, duties or surcharges introduced from time to time and any adverse changes in any of the taxes levied by the Government or State Governments could adversely affect our competitive position and profitability. Such changes, including the instances mentioned below, may adversely affect our business, results of operations, financial condition and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy.

35. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

36. *A slowdown in economic growth in India could adversely affect our business.*

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or any future volatility in global commodity prices could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting housing, tourism and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial or political turmoil or war especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

37. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

38. *A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.*

As a listed Indian company, there are provisions in Indian legal regime that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

39. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks in India, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

40. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which we operate contained in the Draft Red Herring Prospectus.*

While facts and other statistics in the Draft Red Herring Prospectus relating to India, the Indian economy and the industry in which we operate has been based on various web site data that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled '**Industry Overview**' beginning on page 102 of this Draft Red Herring Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance

that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

RISKS RELATED TO OUR EQUITY SHARES AND EQUITY SHARE HOLDERS

- 41. *There is no guarantee that our Equity Shares will be listed on the EMERGE Platform of NSE in a timely manner or at all.***

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Offer will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Emerge Platform of NSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

- 42. *The Offer Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Offer.***

The Offer price is based on numerous factors and may not be indicative of the market price for our Equity Shares after the Offer. The market price of our Equity Shares could be subject to significant fluctuations after the Offer, and may decline below the Offer Price. There can be no assurance that you will be able to resell your Shares at or above the Offer Price. Among the factors that could affect our Share price are: quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net profit and income; changes in income or earnings estimates or publication of research reports by analysts; speculation in the press or investment community; general market conditions; and domestic and international economic, legal and regulatory factors unrelated to our performance.

- 43. *The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.***

Prior to this Offer, there has been no public market for our Equity Shares. [•] is acting as Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Offer due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Offer, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Offer. For further details of the obligations and limitations of Market Makers, please refer to the section titled '**General Information**' on page 58 of this Draft Red Herring Prospectus.

- 44. *The requirements of being a public listed company may strain our resources and impose***

additional requirements.

With the increased scrutiny of the affairs of a public-listed company by shareholders, regulators and the public at large, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur in the past. We will also be subject to the provisions of the listing agreements signed with the Stock Exchange which requires us to file unaudited financial results on a half-yearly basis. In order to meet our financial control and disclosure obligations, significant resources and management supervision will be required. As a result, management's attention may be diverted from other business concerns, which could have an adverse effect on our business and operations. There can be no assurance that we will be able to satisfy our reporting obligations and/or readily determine and report any changes to our results of operations in a timely manner as other listed companies. In addition, we will need to increase the strength of our management team and hire additional legal and accounting staff with appropriate public company experience and accounting knowledge and we cannot assure that we will be able to do so in a timely manner.

- 45. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

- 46. You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the Offer until the Offer receives appropriate trading permissions.***

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Draft Red Herring Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance with the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchange, we are required to refund all the monies collected to investors.

- 47. You may be subject to Indian taxes arising out of capital gains on sale of Equity Shares.***

Under current Indian tax laws and regulations, capital gains arising from the sale of Equity Shares in an Indian Company are generally taxable in India. Any gain realized on the sale of listed Equity Shares on a stock exchange will be subject to capital gains tax in India and also would also be subject to Securities Transaction Tax ("STT"). STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. For more details, please refer to '***Statement of Possible Tax Benefits***' beginning on page 99 of this Draft Red Herring Prospectus.

- 48. Any future issuance of Equity Shares may dilute your shareholdings, and sales of the Equity Shares by our major shareholders may adversely affect the trading price of our Equity Shares.***

Any future equity issuances by our Company may lead to the dilution of investors' shareholdings in our Company. In addition, any sale of substantial Equity Shares in the public market after the completion of this Offer, including by our major shareholders, or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could significantly impair our future ability to raise capital through offerings of the Equity Shares. We cannot predict what effect, if any, market sales of the Equity Shares held by the major shareholders of our Company or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

49. *Rights of shareholders under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles and Indian law govern our corporate affairs. Legal principles relating to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a corporate entity in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as one of our Shareholders than as a shareholder of a corporate entity in another jurisdiction.

50. *Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend upon a variety of factors such as future earnings, financial condition, cash flows, working capital requirements, and restrictive covenants in our financing arrangements.*

Our Company has not paid any dividends till now and there can be no assurance that we will pay dividends in future. Our ability to pay dividends in the future will depend on our earnings, financial condition and capital requirements. Dividends distributed by us will attract dividend distribution tax at rates applicable from time to time. There can be no assurance that we will generate sufficient income to cover our operating expenses and pay dividends to our shareholders, or at all. Our ability to pay dividends could also be restricted under the existing or certain financing arrangements that we may enter into.

51. *Foreign investors are subject to foreign investment restrictions under Indian laws which limit our ability to attract foreign investors, which may adversely affect the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of Equity Shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of the Equity Shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all.

Details of the Market Making arrangement for this Offer

Our Company has entered into a Market Making Agreement dated [•] with the following Market Maker for fulfilling the Market Making obligations under this Offer:

[•]	
Correspondence Address	: [•]
Tel No.	: [•]
E-mail	: [•]
Website	: [•]
Contact Person	: [•]
SEBI Registration No.	: [•]
Market Maker Registration No.	: [•]

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with NSE to fulfill the obligations of Market Making) dated [•] to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issuer.

[•], registered with Emerge Platform of NSE will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.

2. The minimum depth of the quote shall be ₹ 1,00,000. However, the investors with holdings of value less than ₹ 1,00,000 shall be allowed to Issue their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and Emerge Platform of NSE Limited from time to time.
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
5. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
6. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on Emerge Platform of NSE Limited and Market Maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
7. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems or any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
8. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
9. The Market Maker shall have the right to terminate the said arrangement by giving a three months-notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker.
In case of termination of the above mentioned Market Making Agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particulars point of time.
10. **Risk containment measures and monitoring for Market Maker:** Emerge Platform of NSE Limited will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
11. **Punitive Action in case of default by Market Maker:** Emerge Platform of NSE Limited will monitor the obligations on a real-time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (Issuing two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.
12. **Price Band and Spreads:** SEBI Circular bearing reference no: *CIR/MRD/DP/ 02/2012* dated *January 20, 2012*, has laid down that for Offer size up to ₹ 250 Crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Offer price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

Pursuant to SEBI Circular number *CIR/MRD/DSA/31/2012* dated *November 27, 2012*, limits on the upper side for Markets Makers during market making process has been made applicable, based on the Offer size and as follows:

Offer Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Offer Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Offer Size)
Up to ₹ 20 Crores	25%	24%
₹ 20 Crores to ₹ 50 Crores	20%	19%
₹ 50 Crores to ₹ 80 Crores	15%	14%
Above ₹ 80 Crores	12%	11%

All the above-mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

On the first day of listing, there will be a pre-open session (call auction) and there after trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity Shares on the Stock Exchange.

Withdrawal of the Offer

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Offer at any time before the Offer Opening Date without assigning any reason thereof.

If our Company withdraws the Offer any time after the Offer Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Offer Closing Date, providing reasons for not proceeding with the Offer shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Offer advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction. If our Company withdraws the Offer after the Offer Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will have to file a fresh offer document with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares issued through the Prospectus, which our Company will apply for only after Allotment; and (ii) the final Registrar of Companies approval of the Prospectus.

**To be finalised upon determination of Offer Price and updated in the Prospectus prior to filing with the RoC. The amount utilized for general corporate purposes shall not exceed 25% of the Gross Proceeds of the Fresh Issue*

The fund requirements, the deployment of funds and the intended use of the Net Proceeds, as indicated above, are based on our current business plan and circumstances, management estimates, prevailing market conditions and other commercial and technical factors, which are subject to change from time to time. These fund requirements have not been appraised by any bank, financial institution or any other external agency. If the Net Proceeds are not utilized (in full or in part) for the Objects of the Offer during the period stated above due to any factors such as (i) economic and business conditions; (ii) the timing

of completion of the Issue; (iii) market conditions outside the control of our Company; and (iv) any other business and commercial considerations, the remaining Net Proceeds shall be utilized (in full or in part) in subsequent Fiscals as may be determined by our Company, in accordance with applicable laws. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable law. For further information on factors that may affect our internal management estimates, see ***‘Risk Factors - Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by any bank or financial institution or any other independent agency and our management will have broad discretion over the use of the Net Proceeds’*** on page 43 of this Draft Red Herring Prospectus.

In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to availability and compliance with applicable laws. Further, in case of shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilizing our internal accruals or seeking additional equity and/or debt arrangements from existing and future lenders or any combination of them. If the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for (i) general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds in accordance with the SEBI ICDR Regulations; or (ii) towards any other object where there may be a shortfall, at the discretion of the management of our Company and in compliance with applicable laws.

Means of Finance

The fund requirements for all the Objects of the Offer are proposed to be entirely funded from the Net Proceeds, Internal Accruals and borrowings from Banks and Financial Institutions. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations 2018 and Clause 9(C) of Part A of Schedule VI of the SEBI ICDR Regulations 2018 through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the Offer or through existing identifiable internal accruals.

Details of the Objects

a) Funding incremental working capital requirements of our Company

Our Company proposes to utilise up to ₹ 3,375 lakhs from the Net Proceeds towards funding its working capital requirements in FY 2024-25 as per the requirement. We have significant working capital requirements and fund our working capital requirements in the ordinary course of business from our internal accruals/equity and financing facilities from various banks and financial institutions. Our Company requires additional working capital for funding future growth requirements of our Company and for other business purposes, and the Net Proceeds deployed towards funding our working capital requirements are proposed to be utilised for the aforesaid purposes. For further details of the working capital facilities currently availed by our Company, see ***‘Financial Indebtedness’*** and ***‘Financial Information’*** on pages 209 and 206 of this Draft Red Herring Prospectus, respectively.

Basis of estimation of working capital requirement

Sahaj Solar Limited is a Solar Solutions providing company having experience in majority of the verticals of renewable power generation. The Company is a manufacturer as well as a service provider company having well established position in medium sized solar panel manufacturers. We

The COVID-19 outbreak has shown a negative impact on India's Solar Photovoltaic Market. The national-wide lockdown has halted construction works of solar PV projects. There has been significant disruptions in the global supply chains, causing significant price increases. On account of the experienced key management personnel, project management and operations team with an

excellent track record, we were able to manage the Inventory days to 61 days, Trade Receivable days to 53 and Trade Payable days to 59 in FY 2020-21.

Lingering effects from the COVID-19 pandemic and the last lockdown in Shanghai in 2022 have led to increased shipping costs, while the war in Ukraine has sparked inflationary pressure worldwide. Specifically in the solar industry, the price of polysilicon had been on an upward trajectory. The Company maintained the inventory days to 65 days. The Company ventured in the government projects which contributed to ~24% of the total revenue from operations. But this spiked in the trade receivable days to 204 days. The disrupted working capital affected the Payment to the Creditors and thus was increased to 210 days in FY 2021-22.

However, with the significant increase in production capacity and the improvement of global supply chains, prices for solar products have decreased considerably along the value chain. The Company was able to achieve a significant growth in the revenue in FY 2022-23 and managed to halve down the working capital days to 25 inventory days, 106 trade receivable days and 124 trade payable days. The working capital margin as a % of revenue in FY 2022-23 also reduced primarily on account of the lower inventory days.

The Inventory days as on September 30, 2023 is 47 and the trade receivable and trade payable days were 154 respectively.

Expected working capital requirements

As on January 1, 2024, the Company has generated the revenue from operations of INR ~10,170 Lakhs. The Company has not entered into any long term agreements/tie-ups and foresees to move ahead with its current strategy of balanced government – non-government customers base with prime focus on the Solar Pump Business.

The estimates of the working capital requirements for the Financial Year 2024 and Financial Year 2025 have been prepared based on the management estimates of current and future financial performance. The projection has been prepared using set of assumptions that include assumptions about future events and management's action that are not necessarily expected to occur.

On the basis of our existing working capital requirements and estimated working capital requirements, our Board pursuant to its resolution dated March 12, 2024 has approved the projected working capital requirements for the Financial Year 2024 and Financial Year 2025, with the assumptions and justifications for holding levels, and the proposed funding of such working capital requirements, as set forth below:

Total Means of Finance	6,937.28	10,631.64

**Pursuant to the certificate dated March 12, 2024 by M/s. Mistry & Shah LLP, Chartered Accountants, have compiled and confirmed the working capital estimates and working capital projections.*

The requirement for working capital has increased due to the expansion of operations. The company has engaged significantly in the solar water pump business. It has already conducted business of INR 3,710.24 lakhs in H1 FY24 and INR 13,213.74 lakhs in FY23 which represents 61% and 73% of total revenue respectively. The majority of the solar pump business is conducted through state governments. Payments are received after thorough validation by various government agencies. This entire process takes approximately 4 to 6 months, contributing to increased debtors and working capital.

The Company intends to allocate up to ~ INR 3,375.00 lakhs of the net proceeds for its working capital needs. The reason being that the Company has secured a work order from various Government clients, the extended payment period for receivables collection is approximately 4 months. Consequently, there is a need for additional funds to manage this delayed cash flow. Further, to cater the new projects which has been allocated in August 2023 for which the execution shall begin in December 2023, the company forecasts to maintain reasonable inventory holdings.

The table below sets forth the details of holding levels (in days) for the six-month period ended September 30, 2023 and for the Financial Year 2023, Financial Year 2022 and Financial Year 2021 as well as the estimated holding levels (in days) Financial year 2024 and Financial year 2025:

Particulars	<i>(in days)</i>					
	March 31, 2025	March 31, 2024	Sept 30, 2023	March 31, 2023	March 31, 2022	March 31, 2021
Inventories	45	45	47	25	65	61
Trade Receivable	120	120	154	106	204	53
Short Term Loans & Advances	18	18	44	17	15	20
Other Current Assets	5	5	4	10	3	2
Trade Payable	90	90	154	124	210	59
Short Term Provisions	4	4	8	5	4	4
Other Current Liabilities	5	5	28	5	7	4

The above details of holding levels as well as projections have been certified by M/s. Mistry & Shah LLP, Chartered Accountants dated March 12, 2024.

Note:

The holding period has been computed over 365 (three hundred sixty-five) days for each financial year and 180 (One Eighty) days for the six months period ended September 30, 2023. Estimated holding days for FY 2024 and 2025 have been rounded to the nearest number.

The table below sets forth the key assumptions for our working capital projections:

Particulars	Assumptions
Inventories	Our Company had maintained inventory holding period of 61 days in Financial Year 2021, 65 days in Financial Year 2022, 25 days in Financial Year 2023 and 47 days in September 30, 2023. The holding days were higher on account of restrictions imposed during Covid-19. However, the holding level has reduced gradually on account of the project work executed during this period. In September 30, 2023, high activity period resulting in higher inventory levels which may regularise by year end. We expect holding level to stay around 45 days for Financial Year 2024 and 2025.
Trade Receivable	The holding levels of trade receivables were at 53 days in Financial Year 2021, 204 days in Financial Year 2022, 106 days in Financial Year 2023 and 154 days in September 30, 2023. The Company faced higher receivable days in FY 2021-22 due to delays in receiving payments from government departments, attributed to prior engagement in pandemic-related activities and the timing of fund disbursements. It reduced in FY 2022-23 due to the government discoms consistently fulfilling their payment obligations. However, we consider that we would be able to maintain the trade receivables around 120 days in the Financial Year 2024 and 2025.
Trade Payable	Our Company had maintained trade payables at 59 days in Financial Year 2021, 210 days in Financial Year 2022, 124 days in Financial Year 2023 and 154 days in September 30, 2023. Government Companies consistently make payments on time, we are able to settle our dues with creditors within a shorter timeframe. We expect to maintain trade payable days at around 90 days for Financial Year 2024 and 2025.

Apart from above there are other working capital requirements such as Other Current assets, loans and advances, short term provisions and other current liabilities. Details of which are given below.

Particulars	Assumptions
Loans and Advances	Loans and advances mainly include loans and advances given to employees and suppliers.
Other Current Assets	Other Assets mainly includes balance with governmental authority, subsidy receivables, security deposits and other current assets. Loans and advances is estimated based on previous years outstanding amount and for expected Business requirement of company.
Other current liabilities	Other Current Liabilities mainly include Statutory dues payable, advances from customers and other expenses payable. Other current liabilities is estimated based on previous years outstanding amount and for expected Business requirement of company.
Short-term provisions	Short-term provisions mainly include Provision for income tax, Provision for Expenses and Provision for Gratuity. Short-term provisions is estimated based on previous years outstanding amount and for expected Business requirement of company.

Dear Sir(s),

Sub: Proposed initial public offering of equity shares of ₹ 10 each (the “Equity Shares” and such offering, the “Issue”) of Sahaj Solar Limited (formerly known as Sahaj Solar Private Limited) (the “Company”) pursuant to Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (“SEBI ICDR Regulations”) and the Companies Act, 2013, as amended (the “Act”).

We report that the enclosed statement in Annexure A, states the possible special tax benefits available to the Company and to its shareholders under the applicable tax laws presently in force in India including the Income Act, 1961 (‘Act’), as amended by the Finance Act, 2023 i.e. applicable for FY 2023-24 and AY 2024-25, and other direct and indirect tax laws presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the statute. Hence, the ability of the Company or its shareholders to derive the stated possible special tax benefits is dependent upon their fulfilling such conditions, which based on business imperatives the Company faces in the future, the Company may or may not choose to fulfill.

The benefits discussed in the enclosed annexure are not exhaustive. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Issue. We are neither suggesting nor advising the investor to invest money based on this statement.

We do not express any opinion or provide any assurance as to whether:

- i. the Company or its shareholders will continue to obtain these benefits in future; or
- ii. the conditions prescribed for availing the benefits have been/would be met with, and
- iii. the revenue authorities / courts will concur with the views expressed herein.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

The benefits discussed in the enclosed statement are not exhaustive nor are they conclusive. The contents stated in the annexure are based on the information, explanations and representations obtained from the Company.

We hereby give consent to include this statement of tax benefits in the Draft Red Herring Prospectus, Red Herring Prospectus, the Prospectus and submission of this certificate as may be necessary, to the Stock Exchange/ SEBI/ any regulatory authority and/or for the records to be maintained by the Book Running Lead Manager in connection with the Issue and in accordance with applicable law.

ECONOMIC OUTLOOK

GLOBAL ECONOMIC OUTLOOK

Global growth is projected to fall from 3.5 percent in 2022 to 3.0 percent in 2023 and 2.9 percent in 2024 on an annual average basis. There is a downward revision of 0.1 percentage point for 2024 compared with the July 2023 WEO Update projection. At the same time, there are more sizable changes in the underlying growth trajectories of major economies, with stronger projections for the United States and downward revisions for China and the euro area. The forecasts for growth during 2023–24 are also slower than those before the onset of the shocks of 2020–22 (Figure 1.17): the January 2022 WEO Update projected global growth at 3.8 percent in 2023 and 3.4 percent in 2024. The 2023–24 forecasts are also below the historical (2000–19) annual average of 3.8 percent. Growth is below the historical average across broad income groups, both in overall GDP as well as in per capita GDP. On a year-over-year basis, global growth bottomed out in the fourth quarter of 2022. However, in some major economies, it is not expected to have bottomed out until the second half of 2023. Advanced economies continue to drive the decline in annual average growth from 2022 to 2023, with stronger services activity offset by weaker manufacturing, as well as idiosyncratic factors. On average, these economies are expected to have broadly stable growth in 2024 with a pickup in 2025. By contrast, emerging market and developing economies, on average, are projected to see stable growth over 2022–24, with a slight pickup in 2025, although with sizable shifts across regions.

GLOBAL PROSPECTS

After growing 3.1 percent last year, the global economy is set to slow substantially in 2023, to 2.1 percent, amid continued monetary policy tightening to rein in high inflation, before a tepid recovery in 2024, to 2.4 percent.

The resilience that global economic activity exhibited earlier this year is expected to fade. Nonetheless, for 2023 as a whole, global activity is projected to slow, with a pronounced deceleration in advanced economies and a sizeable pickup in China (figure A). Inflation pressures persist, and

the drag on growth from the ongoing monetary tightening to restore price stability is expected to peak in 2023 in many major economies.

This slowdown will compound a period of already-subdued growth—over the first half of the 2020s (2020-2024), growth in EMDEs is expected to average just 3.4 percent, one of the weakest half-decades of the past 30 years (Figure. B). This slowdown reflects both cyclical dynamics and the current trend of declining global potential output growth (Figure. C).

Global financial conditions have tightened as a result of policy rate hikes and, to a lesser extent, recent bouts of financial instability. Many banks experienced substantial unrealized losses due to the sharp rise in policy interest rates.

Countries with more pronounced macroeconomic policy vulnerabilities, as reflected by lower credit ratings, have experienced slower growth and greater financial stress, including large currency depreciations and a sharp widening of sovereign spreads. Projections for 2023 growth in these economies have fallen by more than half over the past year (Figure D).

Inflation pressures persist. Although global headline inflation has been decelerating as a result of base effects, abating supply chain pressures, and falling commodity prices, core inflation in many countries remains elevated, and inflation is above target in almost all inflation-targeting economies. Inflation is expected to continue to be above its pre-pandemic level beyond 2024 (Figure E). That said, inflation expectations in most inflation targeting countries have so far not undergone a major shift and appear to remain anchored.

Energy prices have eased considerably since their peak in 2022 on account of weaker global growth prospects and a warmer-than-expected Northern winter, which reduced natural gas and electricity consumption.

The global economy is projected to slow substantially this year, with a pronounced deceleration in advanced economies. The first half of the 2020s is expected to be one of the weakest half-decades of the past 30 years for emerging market and developing economies (EMDEs), as a result of both cyclical dynamics and slowing potential growth. EMDEs with lower credit ratings are set to experience a particularly sharp slowdown this year. Inflation remains elevated in many countries and is envisaged to remain above pre-pandemic levels beyond 2024. Excluding China, EMDEs are expected to make next to no progress at closing the gap in per capita incomes with advanced economies over the forecast horizon. (Figure F)

By 2024, economic activity in EMDEs will still be about 5 percent below levels projected on the eve of the pandemic.

GLOBAL RISKS AND POLICY CHALLENGES

An intensification of advanced-economy banking stress could result in a sharp slowdown in global growth in 2024, or even a global recession if it had major spillovers to emerging market and developing economies (EMDEs). A more hawkish U.S. monetary policy reaction to inflation could also further raise borrowing costs in EMDEs, especially in those with underlying vulnerabilities. There is an increasing need for debt relief for low-income countries amid a greater diversity of lenders. Substantial investments are needed to achieve resilient and low-carbon growth. Rising debt servicing costs are increasing the risk of debt distress. Reversing the decline in potential growth requires decisive structural reforms.

In a scenario where banking stress results in a severe credit crunch and broader financial stress in advanced economies, global growth in 2024 would only be 1.3 percent, about half the pace in the baseline forecast (Figure A).

Another risk to the forecast pertains to the possibility of higher-than-expected global inflation. This would result in additional monetary policy tightening, which could trigger financial stress. This would be particularly important in the case of the United States, given the scale of international spillovers from hawkish policy reaction by the Federal Reserve to rein in inflation—such spillovers could include a substantial further rise in borrowing costs in EMDEs, especially in those with underlying vulnerabilities (Figure B). In the longer term, the decades-long slowdown of the fundamental drivers of potential growth—labor supply, capital accumulation, and total factor productivity—may be exacerbated by trade fragmentation and climate-related natural disasters.

In the longer term, the decades-long slowdown of the fundamental drivers of potential growth—labor supply, capital accumulation, and total factor productivity—may be exacerbated by trade fragmentation and climate-related natural disasters.

Debt distress in various EMDEs, including low income countries (LICs), highlights the need for globally coordinated debt relief that overcomes the challenges posed by the increasing diversity of lenders (Figure C). Sustained international cooperation is needed to accelerate the clean energy transition, help countries improve both energy security and affordability, and incentivize the investments needed to pursue a path toward resilient, low-carbon growth (Figure D). The global community also has a vital role to play in mitigating humanitarian crises stemming from food shortages and conflict.

Tighter financing conditions, slowing growth, and elevated debt levels create significant fiscal challenges for EMDEs. The rising cost of servicing debt is increasing the risk of debt distress among EMDEs, particularly LICs (Figure E). Countries need to pursue a carefully calibrated policy mix that avoids inflationary fiscal stimulus and ensures that government support is appropriately targeted to vulnerable groups. Measures to improve fiscal space without unduly damaging activity need to be prioritized. Across many EMDEs, especially LICs, strengthened institutions and improvements to domestic governances are needed to boost the efficiency of spending and taxation.

Many of the current challenges reflect underlying longer-run trends. Potential growth in EMDEs has been on a decades-long declining path because of slowing growth rates of labor force, investment, and productivity. The slowdown in these fundamental factors has been exacerbated by the overlapping shocks of the pandemic, Russia’s invasion of Ukraine, and the sharp tightening of global monetary policy in response to high inflation. Reversing the decline in potential growth will require decisive structural reforms (Figure F).

These include measures to improve investment conditions, develop human capital and infrastructure, increase participation in the formal labor force, foster productivity growth in services, and promote international trade. In particular, fostering investment in green energy and climate resilience can ensure that growth is both robust and sustainable.

GLOBAL TRADE

Global trade is being dampened by subdued global demand and the continued rotation of consumption toward services. Energy prices have eased considerably since their peak in 2022 as a result of weaker global growth prospects and a warmer-than-usual winter, which reduced demand for energy for heating. Core inflation around the world has been persistent, resulting in continued monetary tightening. EMDE financial conditions continue to be restrictive, with less creditworthy borrowers facing greater financial strains.

Supply chain pressures and supplier delivery times have dropped back to pre-pandemic levels as goods demand has weakened and global shipping conditions have improved. A rising number of new trade measures have been protectionist. The ongoing shift in global consumption toward less trade-intensive goods will likely continue to lower the growth rate of trade relative to output. This shift and subdued demand are expected to dampen global trade growth substantially this year.

GLOBAL INFLATION AND FINANCIAL DEVELOPMENTS

Global core inflation remains elevated. Projections suggest inflation will continue to be above its pre-pandemic level beyond 2024. Market-based measures of long-term inflation compensation in advanced economies remain above 2 percent, despite a decline in oil prices. In many emerging market and developing economies (EMDEs), inflation is either accelerating or has stabilized at high levels. One-year-ahead EMDE inflation expectations have declined only slightly. Longer-term projections point to a faster decline in inflation in countries with inflation targets.

With supply chain pressures easing and energy prices declining, excess demand appears to be a key driver of continuing high inflation in advanced economies, though lingering impairments to supply capacity may also still play a role. In Europe, the role of energy prices is particularly important—the pass-through of energy costs into broader prices may be adding to inflation persistence, which could be further exacerbated by the sun setting of fiscal programs that have attenuated price spikes for end-users. The absence of economic slack may also be increasing the ability of firms and workers to exercise pricing power, such that inflation has become more responsive to economic activity.

Core Inflation

Inflation Momentum in EMDEs

Prior to the advanced-economy bank failures in March, the U.S. yield curve registered its deepest inversion in four decades. During the banking stress, short-term government bond yields and bank stocks fell sharply. Despite these events, and much tightened bank lending standards, advanced economy credit spreads remain contained. As borrowing costs have risen globally, currency depreciation and credit spread widening in emerging market and developing economies have been disproportionately concentrated in the countries with the weakest credit ratings.

EMERGING MARKET AND DEVELOPED ECONOMIES

Indicators of domestic demand in emerging market and developing economies (EMDEs), such as consumer confidence, have started to recover but remain weak. Tighter financial conditions have weighed on activity in sectors more sensitive to interest rates, such as construction and industrial production, both of which have been subdued. Tourism has recovered substantially since 2022.

Growth of EMDE Internal Production

GLOBAL SOLAR MARKET

Solar power continued to dominate the newly added global power generation capacity in 2022, claiming yet another year at the top spot among renewable energy sources. Out of 362 GW of new renewable

(RES) capacity added last year, solar PV accounted for 66%, connecting 239 GW to the grid (see Fig. 1). Solar's share of new renewable capacity increased substantially from the 56% contributed in 2021. This highlights the growing prominence of solar in the global energy transition, installing about two times the capacity than all other renewable technologies combined.

However, it is important to keep these positive developments in perspective. Solar power still contributes a minor share of total electricity demand, accounting for

only 4.5% of global power production in 2022, increasing from 3.7% in the previous year (see Fig. 2). Though still relatively small, we observe a clear growth acceleration – solar's share increased by 0.8 percentage points or 22% in 2022, compared to 0.5 percentage points or 16% in 2021. This is much faster than the growth of other renewable sources, which collectively provided around 25.4% of the

world’s power generation, representing about 3% growth from the 24.6% share in 2021. Non-renewable sources maintained their dominant position with a 70.1% share. Nevertheless, their share decreased by 1.6 percentage points in 2022, and is at an all-time low.

The immense market potential of solar and its cost leadership indicate that it will continue to capture a larger share than any other power generation technology and further lead the global energy transition. As the spearhead of the movement to renewables, solar generated 1,289 TWh in 2022, up 24% from the 1,040 TWh it generated in 2021 (see Fig.3). Wind is the second fastest growing technology when it comes to global power generation, with a 16% growth rate. In the meantime, electricity generated by coal, the dirtiest source of power generation, grew by 1%, while gas-powered electricity marginally declined, and nuclear electricity decreased by 5%.

Solar’s exceptional success can be attributed to various factors, but a key driver is its significant cost reduction over the past decade, propelling it to become the global leader in terms of cost competitiveness (Fig. 4). However, the past two years have witnessed significant disruptions in global supply chains, causing significant price increases. Lingering effects from the COVID-19 pandemic and the last lockdown in Shanghai in 2022 have led to increased shipping costs, while the war in Ukraine has sparked inflationary pressure worldwide. Specifically in the solar industry, the price of polysilicon had been on an upward trajectory for the past two years, peaking at around 38 USD/kg in December 2022, compared to just below 10 USD/kg in early 2021, according to Bloomberg BNEF, while other product prices along the value chain soared as well. All this has resulted in the first increase in solar PV’s

Levelised Cost of Electricity (LCOE) after a decade of uninterrupted decline, rising from 36 USD/MWh in 2021 to 60 USD/MWh in 2023, the sharpest increase among all power technologies. Despite this increase, solar power remained significantly cheaper than any fossil fuels and nuclear, considering the overall rise in technology prices. While solar power had become cheaper than wind power in 2021, the relationship has reversed in 2023. However, with the significant increase in production capacity and the improvement of global supply chains, prices for solar products have decreased considerably along the value chain, from silicon to modules in recent months – and are anticipated to reach pre-crisis levels this year.

Regardless of the recent solar power price increase, utility-scale solar power remains more affordable than newly established conventional power generation sources (Fig. 5). Additionally, the cost-competitiveness of combining solar power with storage, in comparison to using gas turbines to meet peak demand, is unquestionable. This can be seen in an increasing number of countries worldwide setting hybrid renewable auctions. Such auctions involve the co-location of different renewable energy sources alongside battery storage, offering a flexible and versatile solution to meet energy requirements.

The majority of the top 10 solar markets in 2022 retained their positions from the previous year, although there were significant shifts in rankings and some newcomers due to varying growth dynamics.

GLOBAL RENEWABLE ENERGY MARKET

Overall renewable energy capacity additions rose by almost 13% to nearly 340 GW in 2022. However, solar PV was the only technology that broke a deployment record last year, with net additions of nearly 220 GW – a 35% increase from 2021. Expansions in China and the European Union alone accounted for over 85% of the growth in annual PV capacity additions.

Annual PV growth rose in all major markets last year except the United States, where it shrank almost 15% due to supply chain challenges and rising costs. After solar PV, hydropower was the next-largest contributor to record-level renewable energy expansion globally, owing to the commissioning of multiple large projects, mostly in Asia. While global hydropower capacity additions did not break any records, they were the highest they have been since 2016 thanks to continuous expansion in China.

The deployment of new renewable electricity installations is expected to break records in both 2023 and 2024 thanks to strong and continuous policy support as well as high electricity prices, which will increase the economic attractiveness of distributed PV systems. Global renewable capacity additions are set to soar by 107 gigawatts (GW), the largest absolute increase ever, to more than 440 GW in 2023. Despite a hike in interest rates, rising system costs and persistent supply chain challenges, faster solar

PV and wind expansion underpins this acceleration due to continuous policy support and improving competitiveness. Renewables will break another annual deployment record in 2024, driven by solar PV, which will account for the two-thirds of next year’s entire renewable capacity additions.

Solar PV remains the main source of global renewable capacity expansion in 2023, accounting for 65% of growth with distributed applications, including residential and commercial systems, accounting for almost half of global PV expansion. Since Russia’s invasion of Ukraine, the global energy crisis has driven up wholesale and retail electricity prices in many parts of the world, making small solar PV systems more economically attractive for residential and commercial customers. Policy makers in many countries, especially in Europe, have been seeking options for immediate diversification away from imported fossil fuels, improving the policy environment for distributed solar PV systems that can be installed rapidly.

Russia’s invasion of Ukraine has pushed the accelerator on renewable energy deployment in the European Union, impacting short-term deployment especially, as the bloc urgently needs to reduce its dependence on Russian natural gas imports. As a result of policy actions in many European countries, we have revised the forecast for renewable capacity additions for 2023 and 2024 upwards by 38% compared with IEA expectations before the war in December 2021

China’s ambitious target of net zero emissions by 2060, its strong and continuous policy support for renewable energy, and the large size of its domestic manufacturing industry for all renewable technologies consolidate China’s position as the undisputed leader in global renewable energy deployment in 2023 and 2024. India’s push to expand domestic manufacturing is triggering a supply-demand mismatch and higher prices in the short term, affecting PV expansion in 2023 and 2024. Historically, India has imported almost 90% of its solar PV modules from China. However, the government’s production-linked incentives (PLIs) for PV manufacturing aim to increase India’s domestic manufacturing capabilities to reduce or eliminate imports. The two rounds of the PLI subsidy scheme should allow India to become fully self-sufficient in terms of solar PV supply in the next four to five years.

Along with supply-demand mismatches, the introduction of higher import tariffs on PV modules and cells in April 2022 led to a 30-40% increase in module prices in the second half of 2022. This reduced project bankability, forcing developers to either cancel or delay projects while waiting for PV prices to fall. In response, the government postponed ALMM requirements for all projects commissioned by April 2024 and extended the commissioning deadlines. Although government actions have mitigated some challenges, our forecast nevertheless expects that the temporary supply-demand mismatch for top-tier PV modules will prevent rapid utility-scale PV expansion in 2023 and 2024. However, the Indian market should experience a real deployment boom beyond 2025, with higher auction volumes and lower prices.

KEY MARKET TRENDS

Solar Photovoltaic (PV) Expected to Dominate the Market

- Solar PV systems convert sunlight directly into electricity using solar panels made up of semiconductor materials, typically silicon. When sunlight strikes the solar cells, it excites electrons, generating a flow of direct current (DC) electricity. This DC electricity is converted into alternating current (AC) using an inverter in homes, businesses, and the electrical grid.
- The cost of solar PV systems has declined rapidly over the past decade. This cost reduction is driven by technological advancements, economies of scale, and improved manufacturing processes. As a result, solar PV has become increasingly cost-competitive with conventional energy sources, making it more attractive for widespread adoption.
- Additionally, the global electricity demand is continuously increasing due to population growth, urbanization, and the electrification of various sectors, including transportation. Solar PV systems offer a scalable and decentralized solution to meet this growing energy demand, particularly in regions with limited or unreliable grid infrastructure.
- According to International Renewable Energy Agency, the global solar photovoltaics installed capacity increased by more than 22% between 2020 and 2021 compared to 2% for concentrated solar power systems. Signifying the increased adaption of solar photovoltaics over concentrated solar power systems.
- Moreover, governments worldwide have introduced supportive policies and financial incentives to promote solar PV installations. These measures include feed-in tariffs, tax credits, grants, and net metering programs. Such policies encourage the adoption of solar PV systems by reducing upfront costs, improving investment returns, and facilitating grid integration.
- For instance, Australia has set a goal of generating 82% of its electricity through renewable sources like solar PV and wind by 2030, and solar PV is expected to be a significant contributor to achieving this target.
- For instance, in November 2022, X-Elio unveiled its intention to construct a solar photovoltaics farm with a capacity of 300 MW near Wagga Wagga, New South Wales. Additionally, X-Elio has initiated the development of two other solar photovoltaics farms, namely the Forest Glen Solar Farm, with a capacity of 120 MW in New South Wales, and the Wunghnu Solar Farm, with a capacity of 80 MW in Victoria. These projects form part of X-Elio's extensive portfolio, comprising more than 500 MW of renewable energy projects currently under development in Australia.

Therefore, owing to the above points, the solar photovoltaic (PV) segment is likely to dominate the solar energy market during the forecast period.

ASIA-PACIFIC EXPECTED TO DOMINATE THE MARKET

- Asia-Pacific, in recent years, has been the primary market for solar energy installations. With an additional installed capacity of around 75.7 GW in 2021, the region held a market share of about 57.2% of the global solar power installed capacity.
- The Levelized Cost of Energy (LCOE) for solar PV in the last decade reduced by more than 85%, because of which developing countries in the region, such as Indonesia, Malaysia, and Vietnam, saw an increase in solar energy installation capacity in their total energy mix.
- China is a major contributor to the solar energy market's growth in Asia-Pacific and globally. China had a total installed solar PV capacity of about 306.4 GW as of 2021, representing an increase of 21% from that of 2020. According to China's National Energy Administration (NEA), its newly installed solar PV capacity reached around 53 GW in 2021. Of this capacity, around 29 GW came from distributed solar power generation projects, and the remaining shares came from the large-scale solar plants.
- China already achieved its solar energy goal in 2020, two years ahead of the schedule. In China, most of the solar PV projects are concentrated in the eastern and southern parts of the country. In these two regions, the economy is the most prosperous. These regions also have the maximum demand for solar power. China has also secured the position of the largest solar panel technology manufacturer in the world. As of 2021, the country manufactured more than 60% of the solar panels across the world. China's dominance in solar panel manufacturing is evident from the fact that out of the top ten solar panel manufacturers in the world, seven are Chinese firms.
- In June 2021, the National Thermal Power Corporation (NTPC) declared that it will be building a 4.75 GW solar PV plant in the Rann of Kutch in Gujarat, India, as a part of its efforts in building a 60 GW renewable energy portfolio by 2032. The cost of the project is estimated to be USD 3.31 billion, and the project is expected to enter into commercial operation in 2023. Such large-scale utility projects are expected to increase the adoption of solar energy during the forecast period.
- In December 2021, the Power Development Department (PDD) of Ladakh signed a power purchase agreement (PPA) with Solar Energy Corporation of India (SECI) for buying 50 MW DC solar power.
- In March 2022, Alibaba Group's logistics arm Cainiao Network started to use distributed solar power generated by rooftop solar panels installed on its bonded warehouses in China to power its operations. The company had installed the PV power generation systems on 100,000 square meters of warehouse rooftop, that can store 7.862 MW of energy, with an annual power output of over 8 million kilowatts hour, which is enough to power more than 3,000 homes. The power generated by the solar power system will be sufficient to power Cainiao's warehouse operations, and excess electricity will be diverted to the grid. Further, by 2023, Cainiao and its partners expect to install rooftop PV generation systems on Cainiao's bonded warehouses spanning a combined 500,000 square meters.
- Therefore, owing to the above points, Asia-Pacific is expected to dominate the solar energy market during the forecast period.

RECENT DEVELOPMENTS

- In March 2022, California Department of Water Resources, utility company Turlock Irrigation District (TID), Marin County, California-based water and energy project developer Solar AquaGrid, and University of California partnered on a pilot project named Project Nexus.
- In May 2022, NJR Clean Energy Ventures (CEV) started construction on an 8.9-MW floating solar installation in Millburn, New Jersey, which is expected to be the largest floating array in the United States. The project uses a floating racking system, 16,510 solar panels were likely to be installed on a reservoir located at the New Jersey American Water Canoe Brook Water Treatment Plant. The clean power generated by the array will provide approximately 95% of the facility's annual power needs through a power purchase agreement with CEV.

INDIAN ECONOMIC OUTLOOK

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. Real GDP at constant prices (2011-12) in the first quarter of 2023–24 is estimated at Rs. 40.37 trillion (US\$ 484.94 billion), showing a growth of 7.8% as compared to the first quarter of 2022-23 estimated at Rs. 37.44 trillion (US\$ 449.74 billion). Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. In 2023-24 (April-September), India's service exports stood at US\$ 164.89 billion. Furthermore, India's overall exports (services and merchandise) in 2023-24 (April-September) were estimated at US\$ 376.29 billion. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-December 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

INDIAN MARKET SIZE

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 232.15 trillion (US\$ 3.12 trillion) in FY22. With more than 100 unicorns valued at US\$ 332.7 billion, India has the third-largest unicorn base in the world. The government is also focusing on renewable sources to generate energy and is planning to achieve 40% of its energy from non-fossil sources by 2030.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 and 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between 2023 and 2030. India's current account deficit (CAD), primarily driven by an increase in the trade deficit, stood at 2.1% of GDP in the first quarter of FY 2022-23.

Exports fared remarkably well during the pandemic and aided recovery when all other

growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Mr. Piyush Goyal, Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS IN INDIAN ECONOMY

- As of August 2023, India's foreign exchange reserves stood at US\$ 594.90 billion.
- In the first half of 2023-24, India saw a total of US\$ 21 billion in PE-VC investments.
- Merchandise exports in September 2023 stood at US\$ 34.47 billion, with total merchandise exports of US\$ 211.40 billion during the period of April-September (2023-24).
- India was also named as the 48th most innovative country among the top 50 countries, securing 40th position out of 132 economies in the Global Innovation Index 2023. India rose from 81st position in 2015 to 40th position in 2023. India ranks 3rd position in the global number of scientific publications.
- PMI Services remained comfortably in the expansionary zone at 62.3 in the month of June 2023.
- In September 2023, the gross Goods and Services Tax (GST) revenue collection stood at Rs. 1,62,712 crore (US\$ 19.54 billion), of which CGST is Rs. 29,818 crore (US\$ 3.58 billion), SGST is Rs. 37,657 crore (US\$ 4.52 billion), IGST is Rs. 83,623 crore (US\$ 10.04 billion).
- Between April 2000 – June 2023, cumulative FDI equity inflows to India stood at US\$ 937.58 billion.
- In August 2023, the overall IIP (Index of Industrial Production) stood at 145.1. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 111.9, 143.5 and 220.5, respectively, in August 2023.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 5.02% in September 2023.
- Foreign Institutional Investors (FII) inflows between April-July (2023-24) were close to Rs. 80,500 crore (US\$ 9.67 billion), while Domestic Institutional Investors (DII) sold Rs. 4,500 crore (US\$ 540.56 million) in the same period. As per depository data, Foreign Portfolio Investors (FPIs) invested Rs. 22,000 crore (US\$ 2.67 billion) in India during the first week of July 2023.
- The wheat procurement during RMS 2023-24 (till May) was estimated to be 262 lakh metric tonnes (LMT) and the rice procured in KMS 2023-24 was 385 LMT. The combined stock position of wheat and rice in the Central Pool is over 579 LMT (Wheat 312 LMT and Rice 267 LMT).

GOVERNMENT INITIATIVES

- As of April 2022, India signed 13 Free Trade Agreements (FTAs) with its trading partners including major trade agreements like the India-UAE Comprehensive Partnership Agreement (CEPA) and the India-Australia Economic Cooperation and Trade Agreement (Ind Aus ECTA).
- The Union Budget of 2022-23 was presented on February 1, 2022, by the Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman. The budget had four priorities PM Gati Shakti, Inclusive Development, Productivity Enhancement and Investment, and Financing of Investments. In the Union Budget 2022-23, effective capital expenditure is expected to increase by 27% at Rs. 10.68 lakh crore (US\$ 142.93 billion) to boost the economy. This will be 4.1% of the total Gross Domestic Production (GDP).
- In February 2022, Minister for Finance and Corporate Affairs Ms. Nirmala Sitharaman said that productivity linked incentive (PLI) schemes would be extended to 14 sectors to achieve the mission of Atma Nirbhar Bharat and create 60 lakh jobs with an additional production capacity of Rs. 30 lakh crore (US\$ 401.49 billion) in the next five years.
- In the Union Budget of 2022-23, the government announced funding for the production linked incentive (PLI) scheme for domestic solar cells and module manufacturing of Rs. 24,000 crore (US\$ 3.21 billion).
- In May 2021, the government approved the production linked incentive (PLI) scheme for manufacturing advanced chemistry cell (ACC) batteries at an estimated outlay of Rs. 18,100 crore (US\$ 2.44 billion); this move is expected to attract domestic and foreign investments worth Rs. 45,000 crore (US\$ 6.07 billion).
- In August 2021, Prime Minister Mr. Narendra Modi announced an initiative to start a national mission to reach the US\$ 400 billion merchandise export target by FY22.

INDIAN RENEWABLE ENERGY MARKET

INTRODUCTION

India's energy demand is expected to increase more than that of any other country in the coming decades due to its sheer size and enormous potential for growth and development. Therefore, most of this new energy demand must be met by low-carbon, renewable sources. India's announcement that it intends to achieve net zero carbon emissions by 2070 and to meet 50% of its electricity needs from renewable sources by 2030 marks a historic point in the global effort to combat climate change.

The Indian renewable energy sector is the fourth most attractive renewable energy market in the world. India was ranked fourth in wind power, fifth in solar power and fourth in renewable power installed capacity, as of 2020. Installed renewable power generation capacity has gained pace over the past few years, posting a CAGR of 15.92% between FY16-FY22. India is the market with the fastest growth in renewable electricity, and by 2026, new capacity additions are expected to double.

With the increased support of the Government and improved economics, the sector has become attractive from an investor's perspective. As India looks to meet its energy demand on its own, which is expected to reach 15,820 TWh by 2040, renewable energy is set to play an important role.

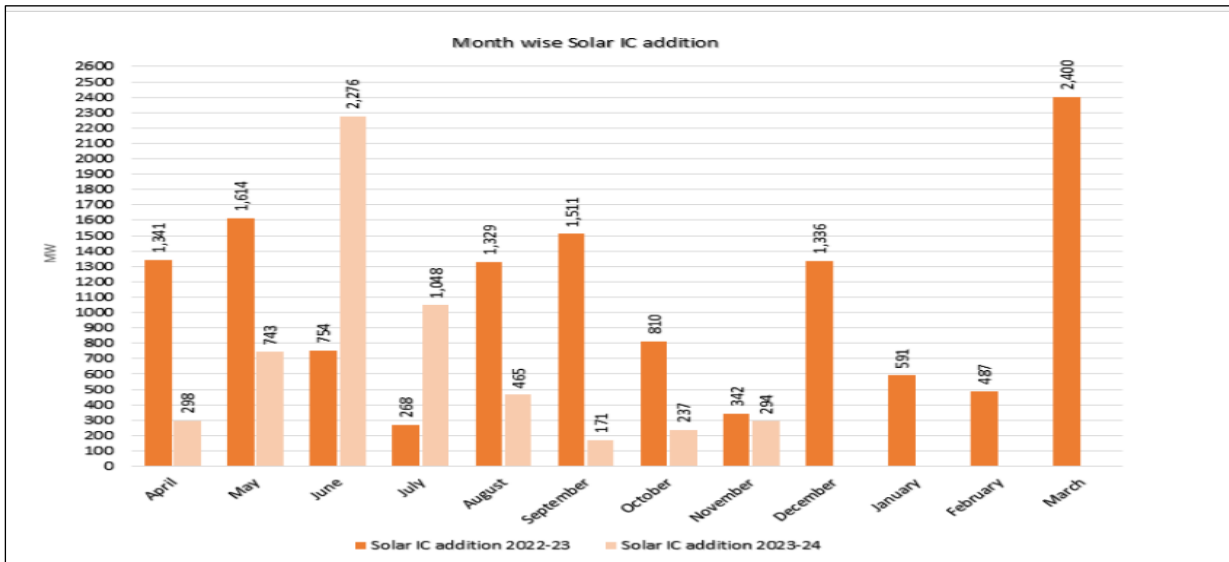

- RE capacity addition during November 2023 has been 596.05 MW (Solar – 293.65 MW, Wind – 271.30 MW, Large Hydro-30.00 MW and Others-1.10 MW).
- RE generation during November 2023 has decreased by 11.03% as compared to November 2022.
- Large Hydro Power generation during November 2023 as compared to November 2022 has decreased by 32.99%.
- Solar Power generation during November 2023 as compared to November 2022 has decreased by 1.95%.
- Wind Power generation during November 2023 as compared to November 2022 has increased by 42.37% on All India basis in all States/UTs except Maharashtra and Kerala.
- Biomass Power generation during November 2023 as compared to November 2022 has increased by 46.49% on All India basis except States of Haryana and Karnataka.
- Bagasse power generation during November 2023 as compared to November 2022 has decreased by 5.15%.
- Others (Waste to Energy) Power generation has increased by 8.52% during November 2023 as compared to November 2022 on All India basis except Haryana and West Bengal.
- Small Hydro Power generation during November 2023 as compared to November 2022 has decreased by 23.25%.

MARKET SIZE

As of October 2022, India's installed renewable energy capacity (including hydro) stood at 165.94 GW, representing 40.6% of the overall installed power capacity.

The country is targeting about 450 Gigawatt (GW) of installed renewable energy capacity by 2030 – about 280 GW (over 60%) is expected from solar. According to the International Energy Agency (IEA), India's installed renewable energy capacity will reach 174 GW in 2023, accounting for about 37% of the country's total energy supply. The report indicates that India has exceeded its target of installing 175 GW of renewable energy capacity by 2022, with a projected capacity of 280 GW by 2025.

The non-hydro renewable energy capacity addition stood at 4.2 GW for the first three months of FY23 against 2.6 GW for the first three months of FY22. According to research by the Council on Energy, Environment and Water's Centre for Energy Finance (CEEW-CEF), India's total installed power generation capacity reached 416 GW in FY23, of which 125 GW (30%) came from renewable energy (RE) and 47 GW (11%) comes from hydro.

The electricity generation target (Including RE) for the year 2023-24 has been fixed as 1750 Billion Units (BU) i.e. growth of around 7.2% over the actual generation of 1624.158 BU for the previous year (2022-23). The generation during 2022-23 was 1624.158 BU as compared to 1491.859 BU generated during 2021-22, representing a growth of about 8.87%.

Solar power installed capacity has increased by more than 18 times, from 2.63 GW in March 2014 to 49.3 GW at the end of 2021. In 2022, till November, India has added 12 GW of solar power capacity.

Power generation from renewable energy sources (not including hydro) stood at 16.18 billion units (BU) in September 2022, up from 14.49 BU in September 2021.

With a potential capacity of 363 GW and with policies focused on the renewable energy sector, Northern India is expected to become the hub for renewable energy in India.

GROWTH DRIVERS

According to the data released by the Department for Promotion of Industry and Internal Trade (DPIIT), FDI inflow in the Indian non-conventional energy sector stood at US\$ 12.57 billion between April 2000-June, 2022. More than Rs. 5.2 lakh crore (US\$ 70 billion) has been invested in India's renewable energy sector since 2014. According to the analytics firm British Business Energy, India ranked 3rd globally in terms of its renewable energy investments and plans in 2020. Some major investments and developments in the Indian renewable energy sector are as follows:

- Around US\$ 2.8 trillion will be invested in energy in 2023. More than US\$ 1.7 trillion is going to clean energy, including renewable power, nuclear, grids, storage, low-emission fuels, efficiency improvements and end-use renewables and electrification.
- US\$ 2.4 billion National Hydrogen Mission for production of 5 MMT by 2030 and US\$ 36 million additional in budget.
- 59 solar parks with an aggregate capacity 40 GW have been approved in India.
- Solar Parks in Pavagada (2 GW), Kurnool (1 GW) and Bhadla-II (648 MW) are included in the top 5 operational solar parks of 7 GW capacity in the country.
- The world's largest renewable energy park of 30 GW capacity solar-wind hybrid project is under installation in Gujarat.
- India offers a great opportunity for investments in the RE sector; \$196.98 Bn worth of projects are underway in India.
- Wind Energy has an offshore target of 30 GW by 2030 with 3 potential sites identified.
- In August 2022, Norfund, who manages the Norwegian Climate Investment Fund, and KLP, Norway's biggest pension company, signed an agreement to buy a 49% share of a 420 MW solar power plant in Rajasthan for Rs. 2.8 billion (US\$ 35.05 million).
- India has generated 47.64 BU of solar power in the first half of 2022, a 34% YoY increase.
- Investment in renewable energy in India reached a record US\$ 14.5 billion in FY22, an increase of 125% over FY21.
- Delhi's Indira Gandhi International Airport (IGIA) has become the first Indian airport to run entirely on hydro and solar power. The onsite solar power plants meet around 6% of the airport's electricity requirement.
- Ayana Renewable Power Pvt Ltd (Ayana) announced plans to set up renewable energy projects totalling 2 gigawatts (GWs) with an investment of Rs. 12,000 crore (US\$ 1.53 billion) in Karnataka.
- India ranked third on the EY Renewable Energy Country Attractive Index 2021.
- In February 2022, Creduce Technologies-HCPL JV announced winning the bid for India's single largest hydropower carbon credits project with Satluj Jal Vidyut Nigam, which will create more than 80 million carbon credits.

- In February 2022, Husk Power Systems, a renewable energy company working towards rural electrification, secured a US\$ 4.2 million loan from the Indian Renewable Energy Development Agency (IREDA).
- In December 2021, India's largest energy provider, Tata Power, was awarded a contract by the Maharashtra State Electricity Distribution Company Limited (MSEDCL) to set up a 300 MW wind-solar hybrid power plant.
- In October 2021, Reliance New Energy Solar Ltd. (RNESL) announced two acquisitions to build more capabilities. Both acquisitions – REC Solar Holdings AS (REC Group), a Norway-based firm, and Sterling & Wilson Solar, based in India – exceeded US\$ 1 billion and are expected to contribute to Reliance's target of achieving the capacity of 100 GW of solar energy at Jamnagar by 2030.
- In October 2021, Adani Green Energy Ltd. (AGEL) acquired SB Energy India for US\$ 3.5 billion to strengthen its position in the renewable energy sector in India.
- In August 2021, Copenhagen Infrastructure Partners (CIP) signed an investment agreement with Amp Energy India Private Limited to facilitate joint equity investments of US\$ 200 million across Indian renewable energy projects.
- In July 2021, National Thermal Power Corporation Renewable Energy Ltd. (NTPC REL), NTPC's fully-owned subsidiary, sent out a tender to domestic manufacturers to build India's first green hydrogen fuelling station in Leh Ladakh.
- The NTPC is expected to commission India's largest floating solar power plant in Ramagundam, Telangana by May-June 2022. The expected total installed capacity is 447MW.
- The Solar Energy Corporation of India (SECI) implemented large-scale central auctions for solar parks and has awarded contracts for 47 parks with over 25 GW of combined capacity.

GOVERNMENT INITIATIVES

The Government of India has taken several initiatives to promote a healthy environment for the growth of manufacturing sector in the country. Some of the notable initiatives and developments are:

- In Budget 2023-24, Green Growth identified is one of the nodes in the SAPTARISHI (seven priorities).
- In Budget 2023-24, pumped storage projects received a push with a detailed framework to be formulated.
- In Budget 2023-24, US\$ 1.02 billion (Rs. 8,300 crore) central sector support for ISTS infrastructure for 13 GW renewable energy from Ladakh was announced.
- On November 9, Minister for Finance & Corporate Affairs, Ms. Nirmala Sitharaman, approved the final Sovereign Green Bonds framework of India. The Paris Agreement's Nationally Determined Contribution (NDC) targets will be further strengthened by this approval, which will also aid in attracting foreign and domestic capital to green projects.
- In the Union Budget 2022-23, the allocation for the Solar Energy Corporation of India (SECI), which is currently responsible for the development of the entire renewable energy sector, stood at Rs. 1,000 crores (US\$ 132 million).
- In the Budget, the government allocated Rs. 19,500 crore (US\$ 2.57 billion) for a PLI scheme to boost manufacturing of high-efficiency solar modules.
- In February 2022, Nepal and India agreed to form a Joint Hydro Development Committee to explore the possibility of viable hydropower projects.
- In November 2021, at the Cop-26 Summit in Glasgow, Prime Minister Mr. Narendra Modi made a promise to increase India's renewable energy generation capacity to 500 GW and meet 50% of India's energy needs through renewable means by the year 2030.
- In October 2021, the Ministry of Power announced a new set of rules aimed at reducing financial stress for stakeholders and safeguarding timely cost recovery in electricity generation.

- In August 2021, the Indian government proposed new rules for the purchase and consumption of green energy. The latest rules are a part of government measures to encourage large-scale energy consumers, including industries, to leverage renewable energy sources for regular operations.
- In July 2021, to encourage rooftop solar (RTS) throughout the country, notably in rural regions, the Ministry of New and Renewable Energy plans to undertake Rooftop Solar Programme Phase II, which aims to install RTS capacity of 4,000 MW in the residential sector by 2022 with a provision of subsidy.
- In July 2021, the Ministry of New and Renewable Energy (MNRE) gave the go ahead to NTPC Renewable Energy Ltd., a 100% subsidiary of NTPC, to build a 4,750 MW renewable energy park at the Rann of Kutch in Khavada, Gujarat. This will be India's largest solar park to be developed by the country's leading power producer.
- The Government of India has announced plans to implement a US\$ 238 million National Mission on advanced ultra-supercritical technologies for cleaner coal utilisation.
- Indian Railways is taking increased efforts through sustained energy efficient measures and maximum use of clean fuel to cut down emission level by 33% by 2030.
- The government has spent US\$ 4.63 billion on hydroelectric projects to provide electricity to villages in Jammu and Kashmir from 2018-21.

ROAD AHEAD

India has set a target to reduce the carbon intensity of the nation's economy by less than 45% by the end of the decade, achieve 50% cumulative electric power installed by 2030 from renewables, and achieve net-zero carbon emissions by 2070. Low-carbon technologies could create a market worth up to US\$ 80 billion in India by 2030.

India's target is to produce five million Tonnes of green hydrogen by 2030. Green Hydrogen target is set at India's electrolyser manufacturing capacity is projected to reach 8 GW per year by 2025. The cumulative value of the green hydrogen market in India could reach US\$ 8 billion by 2030 and India will require at least 50 gigawatt (GW) of electrolysers or more to ramp up hydrogen production.

India's ambitious renewables energy goals are transforming its power sector. Rising population and widespread electrification in rural homes is fuelling the demand for energy to power homes, businesses and communities. Clean energy will reduce pollution levels as villages become self-sustainable with their use of clean energy. In 2022, India's renewable energy sector is expected to boom with a likely investment of US\$ 15 billion this year, as the government focuses on electric vehicles, green hydrogen, and the manufacturing of solar equipment.

It is expected that by 2040, around 49% of the total electricity will be generated by renewable energy as more efficient batteries will be used to store electricity, which will further cut the solar energy cost by 66% as compared to the current cost. The use of renewables in place of coal will save India Rs. 54,000 crore (US\$ 8.43 billion) annually. Around 15,000 MW of wind-solar hybrid capacity is expected to be added between 2020 to 2025.

As per the Central Electricity Authority (CEA) estimates, by 2029-2030, the share of renewable energy generation would increase from 18% to 44%, while that of thermal is expected to reduce from 78% to 52%. The CEA also estimates India's power requirement to grow to reach 817 GW by 2030.

INDIAN SOLAR ENERGY MARKET

SOLAR IN INDIA MARKET ANALYSIS SOURCE:

India's solar market is estimated to be at 79.07 GW by the end of this year and is projected to reach 195.11 GW after five years, registering a CAGR of 19.8% during the forecast period.

- Over the medium term, the Indian solar energy market is growing owing to the cost of solar power technology declining, solar systems becoming more flexible, and solar power is a greener way to make electricity. The market is also propelled by supportive government policies, particularly the Ministry of New and Renewable Energy (MNRE) plans to encourage renewable-based power generation.
- On the other hand, the solar energy market is restrained by issues like transmission and distribution losses and unpredictability in the continuity of power supply.
- Nevertheless, India has a lot of solar irradiance and gets solar energy all year. This means there are many places in the sunniest parts of the country, like Rajasthan, Gujarat, and Andhra Pradesh, where solar energy can be used. This, along with foreign investment and a lot of research and development projects to improve the technology, gives the Indian solar energy market a lot of chances to grow.
- The India Solar Energy Market was estimated at USD 38 billion in 2022 and is anticipated to reach around USD 238 billion by 2030, growing at a CAGR of roughly 40% between 2023 and 2032. Our research report offers a 360-degree view of the India Solar Energy market's drivers and restraints, coupled with the impact they have on demand during the projection period. Also, the report examines opportunities and competitive analysis for the India Solar Energy market.
- Due to its size and tremendous potential for growth and development, India's energy demand is anticipated to rise more than any other nation in the next decades. The majority of this additional energy demand must therefore be satisfied by renewable, low-carbon sources. A significant turning point in the global fight to tackle climate change has been reached with India's announcement that it plans to attain net zero carbon emissions by 2070 as well as to meet 50% of its electricity needs from renewable sources by 2030.
- India's market for renewable energy ranks fourth globally in terms of attractiveness. As of 2020, India's installed capacity for renewable energy was fourth overall, sixth for solar power and fourth for wind power. With a CAGR of 15.92% between FY16 and FY22, installed renewable power generation capacity has accelerated during the past several years. With new capacity predicted to double by 2026, India is the market with the fastest growth in renewable electricity.
- By 2030, the nation wants to have installed 450 Gigawatts (GW) of renewable energy, of which 280 GW (more than 60%) will be solar. Between March 2014 and March 2021, the installed capacity of solar energy expanded by more than 18 times, from 2.63 GW to 49.3 GW. India has increased its solar power capacity by 12 GW through November 2022.

SOLAR POWER GENERATION GROWTH OUTWEIGH OTHER SOURCES

- Due to its favourable location in solar belt (400S to 900N), India is one of the best recipient of Solar Energy with abundant availability.
- Solar power installed capacity has increased by more than 18 times, from 2.63 GW in March 2014 to 63.3 GW at the end of 2022.
- In 2022, till November, India has added 12 GW of solar power capacity.
- In the first half of 2022, India has saved US\$ 4.2 billion in fuel costs through solar power generation, as well as 19.4 million tonnes of coal.
- India has generated 70.24 BU of solar power in the first nine months of 2022, a 36% YoY increase.
- The Bhadla Solar Park in Rajasthan’s Jodhpur district is the largest solar power plant in the world. Spanning 14,000 acres, the power plant is fully operational and has a capacity of 2,250 MW
- Delhi’s Indira Gandhi International Airport (IGIA) has become the first Indian airport to run entirely on hydro and solar power. Around 6% of the airport’s electricity requirement is met from the onsite solar power plants.
- In November 2021, the government announced future plans to increase the funding under the PLI scheme for domestic solar cells and module manufacturing to RS. 24,000 crore (US\$ 3.17 billion) from the existing Rs. 4,500 crore (US\$ 594.68 million) to make India an exporting nation.
- The world's largest floating 600 MW solar energy project will be constructed at the Omkareshwar Dam in the Khandwa district of Madhya Pradesh at the estimated cost of Rs. 3,000crore (US\$ 3.84billion). The project is expected to begin power generation by FY23.

Top 10 state-wise solar installations in India (April 2023)

GROWTH DRIVERS BY GOVERNMENT

- Prime Minister Mr. Narendra Modi initially set the target of installing 175 GW of renewable energy capacity by 2030, but has now increased it to 450 GW.
- US\$ 2.4 billion National Hydrogen Mission for production of 5 MMT by 2030 and US\$ 36 million additional in budget.
- The Indian government's commitment to reaching net-zero emissions by 2070 and increasing its renewable energy target to 500 GW by 2030 at the COP26 summit has provided great support to the industry and spurred unprecedented growth.
- In October 2021, the Ministry of Power announced a new set of rules aimed at reducing financial stress for stakeholders and safeguarding timely cost recovery in electricity generation.
- In November 2021, the government announced future plans to increase the funding under the PLI scheme for domestic solar cells and module manufacturing to Rs. 24,000 crore (US\$ 3.17 billion) from the existing Rs. 4,500 crore (US\$ 594.68 million) to make India an exporting nation.
- Solar city per state-approved and approved setting up 59 solar parks of 40 GW across the nation. The government is also giving a push to Floating PV Projects.

INVESTEMENTS

- Around US\$ 2.8 trillion will be invested in energy in 2023. More than US\$ 1.7 trillion is going to clean energy, including renewable power, nuclear, grids, storage, low-emission fuels, efficiency improvements and end-use renewables and electrification.
- In August 2022, Norfund, who manage the Norwegian Climate Investment Fund, and KLP, Norway's biggest pension company, signed an agreement to buy a 49% share of a 420 MW solar power plant in Rajasthan for Rs. 2.8 billion (US\$ 35.05 million).
- Investment in the renewable energy in India reached a record US\$ 14.5 billion in FY22, an increase of 125% over FY21.
- In 2022, India's renewable energy sector is expected to boom with a likely investment of US\$ 15 billion, as the government focuses on electric vehicles, green hydrogen, and the manufacturing of solar equipment.

GOVERNMENT POLICIES

- In November 2021, the government announced future plans to increase the funding under the PLI scheme for domestic solar cells and module manufacturing to Rs. 24,000 crore (US\$ 3.17 billion) from the existing Rs. 4,500 crore (US\$ 594.68 million) to make India an exporting nation.
- The Solar Energy Corporation of India (SECI) implemented large-scale central auctions for solar parks and has awarded contracts for 47 parks with over 25 GW of combined capacity.
- The government will prioritise the full integration of manufacturing units into solar photovoltaic (PV) modules.
- India's liberal foreign investment policy permits 100% FDI in the renewable energy sector.
- In February 2023, IREDA announced to establish office in Gujarat's GIFT city to finance renewable energy projects in foreign currency.
- Ayana Renewable Power Pvt Ltd (Ayana) announced plans to set up renewable energy projects totalling 2 gigawatts (GWs) with an investment of Rs. 12,000 crore (US\$ 1.53 billion) in Karnataka.

HIGHLIGHTS UNDER MAJOR ONGOING SCHEMES

The section outlines achievements under various schemes of the Ministry during the year.

1. Pradhan Mantri Kisan Urja Suraksha Evam Utthaan Mahabhiyan (PM-KUSUM) for decentralised solar

As on 31.12.2022, 88.45 MW capacity solar power plants were installed under scheme's Component-A, about 1.81 lakh stand-alone solar pumps were installed under Component-B and 1174 pumps were reported solarised under individual pump solarisation variant of Component-C.

2. Roof Top Solar (RTS) Programme Phase-II

Against the target of 4 GW RTS in Residential sector under the programme around 1.66 GW capacity reported installed as on 31.12.2022. Overall nearly 7.6 GW capacity of grid-connected RTS plants reported installed in the country as on 31.12.2022. Phase II of the Rooftop Solar Programme timelines have been extended up to 31.03.2026.

3. Central Public Sector Undertaking (CPSU) Scheme for Grid-Connected Solar Photovoltaic (PV) Power Projects

Under this scheme, around 8.2 GW of projects have been awarded, as on 31.12.2022, out of which around 1.5 GW has been commissioned as on 31.12.2022 and balance are under implementation.

4. Development of Solar Parks and Ultra Mega Solar Power Projects

Under this scheme, 57 Solar Parks with a cumulative capacity of 39.28 GW in 13 states were approved, as on 31.12.2022.

5. PLI Scheme: 'National Programme on High Efficiency Solar PV Modules'

The Government of India is implementing the Production Linked Incentive (PLI) Scheme for National Programme on High Efficiency Solar PV Modules, for achieving manufacturing capacity of Giga Watt (GW) scale in High Efficiency Solar PV modules with outlay of Rs. 24,000 crore. Around 8.7 GW fully integrated solar PV module manufacturing capacities awarded under PLI Tranche-I of outlay Rs 4,500 crore, are under implementation. For selection of manufacturers under Tranche-II of outlay Rs 19,500 crore, bid document has been issued by Solar Energy Corporation of India (SECI) on 18.11.2022

INDIA SOLAR WATER PUMP SYSTEMS INDUSTRY

The Indian solar water pumping systems market has experienced remarkable growth, spurred by the nation's commitment to sustainable energy solutions and the need for reliable water supply in agriculture. With approximately 70% of India's population engaged in agriculture, the demand for efficient water pumping systems is substantial. The market size for solar water pumping systems in India was valued at around USD 120 million in 2022 and is expected to witness a compound annual growth rate (CAGR) of approximately 20% from 2022 to 2026.

Government initiatives, including the Kisan Urja Suraksha evam Utthaan Mahabhiyan (KUSUM) scheme, have been instrumental in incentivizing the adoption of solar-powered water pumps. KUSUM aims to install 30.8 GW of solar capacity for agriculture and reduce the carbon footprint associated with conventional pumping systems. As a result, more than 200,000 solar water pumps were deployed across the country by the end of 2022.

INDIA SOLAR PHOTOVOLTAIC (PV) MARKET ANALYSIS

The Indian solar photovoltaic (PV) market is expected to grow at a CAGR of 9.8% between 2024 and 2032, reaching 43.23 GW by 2032. The COVID-19 outbreak has shown a negative impact on India's Solar Photovoltaic Market. The national-wide lockdown has halted construction works of solar PV projects totalling about 5 GW, which is, in turn would delay to meet the country's target of 100 gigawatts (GW) installed solar energy capacity by 2022. Factors such as favourable government schemes for small-scale solar power generation, and upcoming large-scale solar power projects, are expected to drive the market. However, the solar energy market is also hampered by issues like T&D losses (Transmission & Distribution losses), and unpredictability in the continuity of power supply.

The solar PV rooftop segment is expected to dominate the market during the forecast period. Owing to increasing solar PV installations in the commercial and industrial segment during recent years. India has an abundance of solar irradiance and receives solar energy throughout the year. This has created umpteen opportunities to exploit solar energy from the sunniest sites in the country, especially Rajasthan, Gujarat, and Andhra Pradesh. The factor mentioned above, clubbed with foreign investment and extensive R&D projects to improve the technology, and provides ample opportunities for the growth of the solar energy market in India. The market is also propelled by supportive government policies, particularly the plans formulated by the Ministry of New & Renewable Energy (MNRE) to encourage renewables-based power generation.

The India Solar Photovoltaic (PV) Market is fragmented. Some of the major players includes Tata Power Solar, Adani Group, Azure Power Global Limited, EMMVEE SOLAR, Mahindra Susten Pvt Ltd.

INDIA POWER EPC MARKET IN INDIA

The **India power EPC** (Engineering, Procurement, and Construction) **market size** was valued at **USD 13.30 Billion in 2022** and is likely to reach **USD 83.84 Billion by 2031**, expanding at a **CAGR of 22.7%** during **2023–2031**. The growth of the market is attributed to the increasing industrial operations across various sectors, sustained economic growth and government initiatives such as “power for all”.

India Power EPC Market Trends, Drivers, Restraints, and Opportunities

- Increasing initiatives from government of India in a bid to promote sustained industrial growth and achieve clean energy transition are projected to drive the market growth during the forecast period.
- Rapid growth of the power related projects such solar and wind power parks are major factors boosting the market expansion in the coming years.

- High cost of service and high maintenance related to power grids due to inadequate infrastructure are anticipated to restrict the market growth.
- Lack of power grid penetration across various regions of the country present as major challenge that can hamper the market expansion in the coming years.
- R&D investment, technological advancement, introduction of new renewable power sources, and various government initiatives are expected to create immense opportunities for the market players.

NATIONAL SOLAR MISSION

GRID CONNECTED SOLAR PROJECTS

The Government set the target of 100 GW of installed solar power capacity in the country by 2022 under the National Solar Mission (NSM). The target is planned to be achieved through various policy decisions and schemes such as Scheme for Development of Solar Parks and Ultra-mega Solar Power Projects, Central Public Sector Undertaking (CPSU) Scheme Phase-II (Government Producer Scheme), Production Linked Incentive scheme for ‘National Programme on High Efficiency Solar PV Modules’, Prime Minister Kisan Urja Suraksha Evam Utthaan Maha Abhiyan (PM-KUSUM), Rooftop Solar Programme etc.

ACHIEVEMENTS

As on 31-12-2022, a cumulative solar power of 63.30 GW has been installed in the country. This includes 53 GW from ground-mounted solar, 8.08 GW from rooftop solar and 2.22 GW from off-grid solar. In addition to this, a capacity of around 51.13 GW is under implementation and 31.4 GW is under tendering stage.

It is expected that the solar power projects of capacity around 15 GW will be commissioned during this Financial Year (FY) 2022-23. Based upon availability of land and solar radiation, the potential solar power in the country has been assessed to be around 750 GW.

GROWTH OUTLOOK IN INDIAN SOLAR MARKET

2022 has been an eventful year for the Indian solar industry. India added around 14 GW⁸ of solar capacity in 2022, making it the year with the highest annual capacity addition. At the end of December 2022, India’s cumulative solar installations stood at 63.5 GW, making India the world’s 5th largest country in terms of installed solar capacity. India has revised its 2030 solar target to 300 GW, out of a total 500 GW renewable energy capacity. With this revision, India will witness a solar capacity addition of around 20-30 GW every year from 2023. India’s non-utility scale solar also expanded in 2022. While India added around 1.6 GW of rooftop solar, India’s commercial and industrial sectors installed around 2.5 GW of solar through open access, which is a 92% annual increase from 2021. Open access solar represents contracts between a solar power producer and consumer, linked via a Power Purchase Agreement (PPA). The Indian government also introduced some ground-breaking reforms which should accelerate India’s solar power capacity additions. Segments progress in 2022 India revised its solar capacity targets in 2014, aiming to reach 60 GW of utility-scale solar by 2022. As of December 2022, the country had a total capacity of 53.8 GW of utility-scale solar, thereby achieving 90% of the set target. Currently, India has 17 solar parks in the pipeline, representing an aggregated capacity of 10 GW. In 2022 about 11.3 GW of new utility-scale solar capacity was installed, a 47% increase from 2021. In 2022, the Indian government also approved Phase II of the Green Energy Corridor, which will facilitate the grid integration and power transmission of approximately 20 GW of renewable energy projects in seven States. Power evacuation refers to transmission of power from a generating plant to the grid for further transmission. The seven chosen states are Gujarat, Himachal Pradesh, Karnataka, Kerala, Rajasthan, Tamil Nadu, and Uttar Pradesh. The goal is to add 10,750 circuit kilometres of intra-

state transmission lines, and 27,500 MVA substations by March 2026. In total, this is estimated to cost 12,031 crore rupees (INR), equal to 1.34 billion EUR; the Central Finance Assistance (CFA) will cover 33% of the project cost.

India reached 8.8 GW of cumulative installed solar rooftop capacity at the end of 2022. The state of Gujarat led in deployment with a 24% share of the total solar rooftop installations, followed by Maharashtra (14%), and Rajasthan (9%). In 2022, over 2 GW of solar rooftop tenders were issued, representing a 90% increase. In 2022, India's Prime Minister Shri Narendra Modi launched a nationwide Direct Benefit Transfer scheme. This scheme allows consumers who want to install residential rooftop to receive subsidies within 30 days after Distribution Company (Discom) officials have verified the system, and the submission of required documents. The scheme, developed by the Ministry of New and Renewable Energy, allows any residential consumer from any part of the country to apply for rooftop solar without waiting for Discom administrative processes. In July 2022 the Indian government implemented Green Open Access Rules in the C&I segment, to further accelerate the country's ambitious renewable energy programmes, with the objective of ensuring access to affordable, reliable, sustainable and green energy for all. Through this measure, the limit for open access transactions was reduced from 1 MW to 100 kW; appropriate provisions have also been created for cross subsidy surcharges, additional surcharges, and standby charges. All together, these measures will help consumers to access green power at affordable rates. Through

India Cumulative Solar PV Capacity 2008-2022, By NSEFI

these rules, the government also appointed Grid India (formerly known as Power System Operation Corporation, POSOCO) as the Central Nodal Agency to set up and operate a single window green energy open access system for renewable energy. This prompted the industry to install around 2.5 GW of solar open access in 2022, a 92% increase from the 1.3 GW installed in 2021. India set a target to install a total capacity of 4,886 MW of small solar power plants co-located with agriculture, under the framework of the KUSUM scheme. These installations range between 500 kW and 2 MW, and are installed on or near farmlands located within a 5 km radius from the substation. As of 2022, 48.2 MW of solar capacity has been installed on or near agriculture farmlands.

To achieve the 280 GW goal by 2030, India needs to add approximately 20-30 GW of solar power every year, beginning from 2023. In March 2023, the Indian government announced a bidding trajectory for renewable energy projects. The Ministry will issue bids for 50 GW of renewable energy projects annually for the financial years 2024-28. Moreover, India is on track to become one of the largest manufacturing hubs for solar products, due to the implementation of PLI I and PLI II schemes. The country is expected to build 100 GW of solar manufacturing capacity by 2027.

Company Background

We are a renewable energy solution provider engaged majorly into three businesses being manufacturing of PV modules, providing solar water pumping systems and providing EPC services to our PAN India customers. Our company was originally formed & incorporated as a Private Limited Company at Gujarat under the Companies Act, 1956 under the name and style of ‘Sahaj Solar Private Limited’ vide certificate of incorporation dated February 26, 2010, bearing Corporate Identification Number U40106GJ2010PTC059713 issued by the Registrar of Companies, Gujarat, Dadra and Nagar Havelli.

Our Company was initially promoted by Mr. Rajnibhai Radadiya and Mr. Sandipbhai Radadiya. On September 25, 2014, our existing promoters, Mr. Pramit Brahmhatt and Mrs. Varna Brahmhatt acquired Sahaj Solar Private Limited. Further, our company was converted into a Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on April 01, 2023 and the name of the company was changed to ‘Sahaj Solar Limited’. The registered office of our company is situated at Office No. 301, Ashirvad Paras, Opp. Prahladnagar Garden, Satellite, Ahmedabad, Gujarat, India, 380051.

Business Overview

Our company is a Solar Solutions providing company having experience of almost one decade in majority of the verticals of renewable power generation. We are a manufacturing as well as a service provider company which gives us an edge in the solar power market. We are engaged in three businesses of PV Module manufacturing, providing solar pumping systems and providing EPC Services.

First being PV Module manufacturing, for which our company has a PV module manufacturing plant having a capacity of 100 MWs at our plant in Bavla, Ahmedabad, Gujarat, India on a land measuring approximately 2,883.77 square metres; having a construction of 2445.5 square metres comprising of factory as well as office premises enabling the company to deliver quality and affordable solar panels to its customers. Our Company's automated production facility offers mono & poly crystalline PV Modules for various solar projects across India and abroad. The plant is an integrated manufacturing facility for PV modules. Apart from polycrystalline module, the facility manufactures Mono PERC (Passivated Emitter and Rear Contact) module, with not less than 21% and higher efficiency also. To enhance efficiency and brand positioning, we use Crystalline Photovoltaic Technology for manufacturing Solar PV Modules. Our plant has the capacity to manufacture customized size PV modules. Our Company has built a reputation for solar PV modules and is sold under the brand name of 'SAHAJ'. We strive to deliver reliable solar solutions through our products and we achieve this majorly through our streamlined PV module manufacturing line and comprehensive EPC solutions.

Secondly, our company is engaged in providing solar water pumping systems. A solar water pump is an application of Solar PV System which converts solar energy into electricity to run motor and pump. The motor energized by solar power delivers water out of bore well, river, lake or pond. The key components of solar water pumping system is solar panel which is manufactured by our company. The second important component of the solar water pumping system is the module mounting structure (MMS) is manufactured by Veracity Energy and Infrastructure Private Limited (one of our subsidiary company). The controller for solar water pumping system is designed by Veracity Powertronics Private Limited (one of our subsidiary company). These components comprise of more than 70% of the total system cost. The balance components of the solar water pumping system are being outsourced. As a part of the Central Government's initiative to increase farmers' income, the Ministry of New and Renewable Energy (MNRE) has launched the Pradhan Mantri Kisan Urja Suraksha evam Utthan Mahabhiyan (PM KUSUM) Scheme for farmers for installation of solar pumps and grid connected solar and other renewable power plants in the country. Through this scheme, more than 20 lakh farmers (MNRE PM KUSUM scheme) will benefit with standalone solar water pumping system which will enable them to produce crops in multiple seasons and thereby increase their incomes. The standalone solar water pump has provided the farmers with the opportunity to work independent of grid power.

Our company also designs and customizes solar mobile trolleys for the usage in rural and remote areas as and when required to produce electricity for solar water pumping, for off grid power and to run other utilities by producing electricity on the move.

Thirdly, our Company being an integrated solar energy solutions provider, also offers engineering, procurement, and construction ("EPC") services to our customers. Our EPC services include design, supply, installation, testing, commissioning and maintaining of all sizes of projects ranging from simple domestic solar installation to setting up a large scale Solar Power Plant.

Our Company adheres to accepted industry product accreditations. Our Company has obtained certifications such as MNRE registered company, ISO 9001:2015, ISO 14001:2015, ISO 45000:2018, CE – 2010, IS 14286/ IEC 61215; 2005, IS/IEC 61730 – 1;2004, IS/IEC 61730-2;2004, IEC TS 62804-1, and IEC 61701 : 2011.

Under our company, we have three subsidiaries as follow;

1. **Veracity Energy and Infrastructure Private Limited (“VEIPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated on December 20, 2012. The registered office of the company is situated at Office No. 301, Ashirvad Paras, Opp. Prahladnagar Garden, Satellite, Ahmedabad – 380051. The Corporate Identification Number of the company U40106GJ2012PTC073056. VEIPL is engaged in the business of assembling and manufacturing of Solar Modules’ mounting structure and other structure related manufacturing activities. As on date our Company holds 80% equity stake in VEIPL.
2. **Veracity Powertronics Private Limited (“VPPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated on January 01, 2013. The registered office of the company is situated at Office No. 301, Ashirvad Paras, Opp. Prahladnagar Garden, Satellite, Ahmedabad – 380051. The Corporate Identification Number of the company U74140GJ2013PTC073203. VPPL is engaged in the business of assembling and trading of Solar water pump, motor and controller. As on date our Company holds 80% equity stake in VPPL.
3. **Sustainable Plant Green Energies Private Limited (“SPGEPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 2013 vide Certificate of Incorporation dated on April 29, 2023. The registered office of the company is situated at 301- Plot No- 9, Sur No- 913 TP No 25, Aashirwad, Opp. Krashna Bunglows, Prahalad Nagar, Nr. AUDA Gardan, And Nagar Road, Vejalpur, Ahmedabad – 380051. The Corporate Identification Number of the company U27104GJ2023PTC140657. SPGEPL is exploring the opportunities for hydro power projects and utilities in power plant projects. As on date our Company holds 51% equity stake in SPGEPL.

We have established a geographically diversified presence in India. Our local presence backed with our track record makes us capable of coping up the pace of this growing market. In India, we have developed a decent client base purchasing our solar PV modules, solar water pumping systems and EPC services. Also the remote monitoring system provided by us helps the clients to monitor performance and take pre-emptive measures. Our customer base includes government projects as well as private projects.

Our key domestic customers are divided as below: -

a) Government Customers

MGVCL, DGVCL, PGVCL, GEDA, HAREDA, MEDA, Maharashtra State Electricity Distribution

co. Ltd.

b) Private Customers

Mahindra Susten Private Limited, Mahindra Solarize Private Limited, Secured Meters, Eglo, Shekhani Industries, Nuvoco Cements (Lafarge Cements), Tenneco, Valeo, Rotomag, Premier Solar and Iron Mountain.

Our products and services have enabled us secure a healthy order book in coming years which shall further strengthen our market presence and growth. Our team undertakes project implementation with two aspects:

- Prolonged life of the equipment; and
- Optimum return on investment.

Financial Snapshot

Our Company has experienced growth and improvement in top line and bottom line on a restated basis over the period of previous financial years. Following are the Key Performance Indicators of our company for the period ended on September 30, 2023 and Financial Years ended on March 31, 2023, 2022 and 2021.

Business Areas

Our Business operations can be broadly described as follows:

A. SOLAR PV MODULE MANUFACTURING

Our Company produces two kinds of solar PV modules being mono PERC and Multicrystalline solar PV modules. We have a production facility in Bavla, Ahmedabad that is equipped with updated manufacturing equipments to smoothly drive our supply chain, sales and distribution network. Our company has a 100 MW (Rated Installed Capacity) SPV Module manufacturing line. Our solar panel manufacturing line embodies the products under the supervision of our team. The plant is equipped with all the test equipment needed for quality assurance of movement of raw material and finished goods conforming to the latest BIS and International standards.

Our solar PV modules are currently manufactured using both Multicrystalline and Mono-PERC Crystalline cell technology. Our portfolio of solar energy products consists of the following solar PV modules which includes bifacial (glass – to – transparent back sheet modules) and are differentiated on the basis of solar PV module technology and type as well as cell size:

Monoperc Solar Panels

Multi-Crystalline Solar Panels

Mono Crystalline Solar Panel

Mono Crystalline solar panel having mono silicon crystal solar cells. Mono ingots are formed from a pure refined silicon and due to the mono crystalline silicon solar cell one can achieve better quality and higher efficiency of panels. Our mono-crystalline solar panels can achieve a module-level efficiency of more than 21% and this type of solar panel is widely used in various solar projects.

We manufacture Mono crystalline solar panels in following sizes:

-  ***Mono Crystalline – 144 cells***
-  ***Mono Crystalline – 132 cells***
-  ***Mono Crystalline – 120 cells***

Multi Crystalline Solar Panel

Multi Crystalline solar panel uses solar cells that are made from multifaceted silicon crystals. To achieve a better quality of panels, our company manufactures panels under the integrated manufacturing management system. Our multi-crystalline solar panels achieve a module-level efficiency of up to 18% used widely across solar projects for homes, businesses, agriculture solar solutions and large-scale solar power plants. These reliable solar panels minimize installation costs and maximize kWh output.

We manufacture Multi crystalline solar panels in following sizes:

-  ***Multi Crystalline – 72 cells***
-  ***Multi Crystalline – 66 cells***
-  ***Multi Crystalline – 60 cells***

Some of the applications of Solar PV modules areas under:

- On-grid large scale utility systems
- On-grid roof top residential and commercial system
- Net metering solutions
- Off-grid residential systems
- Solar pumping applications
- Rural electrification
- Green telecom tower

- Solar street light
- Solar home lighting system(HLS)
- Solar Lantern
- Solar traffic signal
- Solar electric vehicle charging station, etc.

PROCUREMENT AND MANUFACTURING PROCESS OF PV MODULES

Raw Material Procurement Process

All procurement activities shall be done with valid purchase requisition (PR) from production to purchase team encompassing the BOM as set out by design team and no purchase shall be taken up for procurement without valid PR. PR is created by production or store and approved by authorities.

On basis of details of SOW received in PR, procurement need to float enquiry within 2 working days of approved receipt of PR. Procurement in its best effort shall float enquiry to minimum 3 vendors however same shall be dependent on nature of work and material specification.

While RFQ is floated to vendors, parallel activity to be initiated for vendor registration if the vendor is not registered to whom the enquiry is floated Procurement will ensure to receive the offers from the vendors within 3 working days (this includes any clarification to be sought from production team, if required). The negotiation and vendor recommendation shall be closed within 2 working days of receipt of offers.

Any deviation from SOW shall be duly approved by Production. The terms and conditions of PO/WO shall strictly have the Quality Checks requirements as per needs of Veracity plant QAP. Order issuance shall be completed within 2 days of vendor recommendation.

Shipping & Logistics of Procured Material

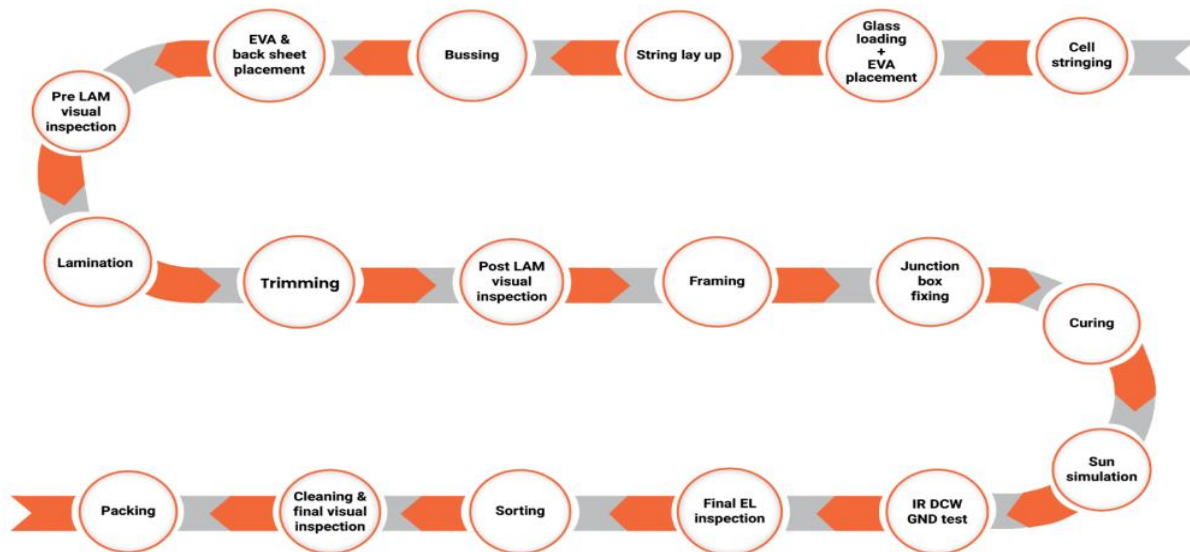

For imported material, we procure material via sea transportation and/ or via air transportation with the shipping terms of FOB and CIF. In the FOB shipping terms, we do the freight booking for the concerned transportation mode which carries the goods to concerned port in India.

On receipt of goods at the port, custom clearance and duty payment process takes place and after that the goods are released from cargo premises. The goods are then brought to our production facility through local transportation.

General Procurement Flow

Manufacturing Process of PV Modules

Detailed Stage wise Process of PV Module Manufacturing

Sr. No.	Process	Description
1	Cell Stringing (Tabbing & Stringing)	In this process of solar panel manufacturing, number of solar cells are to be connected to form a string with the help of solar interconnect ribbon and soldering
		
2	Glass Loading & EVA Placement	Process of glass loading is performed after checking the visual quality parameter and after this process of first layer EVA placement is performed.
		
3	Auto Lay-up String Layup	Automatic Layup Machine designed to simplify the lay-up of the strings on the glass. In this process, the machine picks up and positions the strings coming out from the stringers on the glass with encapsulant material.
		
		This equipment helps to avoid any manual intervention which further avoids the micro cracks
		

Sr. No.	Process	Description
4	Bussing Process	Bussing step involves linking the cell strings in series or parallel with bus ribbons, in order to give the required shape to the module prior to encapsulation.
	EVA and Backsheet Placement / Labeling & Back Cover Station	Lay the EVA sheet over connected strings, and then lay the Back sheet to complete the sandwich and cut in Back Sheet and EVA in predefine position to take output terminals out.
5	Electroluminescence (EL) Test EL TESTER/ Pre Lam Visual Inspection	<p>An essential tool for detecting and identifying different types of defects in photovoltaic modules. Electroluminescence (EL) measurements are becoming an essential characterization tool to guarantee the quality of PV modules of different technologies.</p> <p>In order to obtain the EL image, the PV module is electrically biased by applying a certain level of current, and the emitted photons (luminescence) are captured by a camera (Si or InGaAs).</p>
6	Lamination Process	<p>Encapsulation of the module by applying the right pressure and temperature to laminate the various components. The crucial factors in the laminating process are the raw materials, temperature, vacuum and pressure. Solar panel lamination ensures the longevity of the solar cells of a module as they need to be able to withstand outdoor exposure in all types of climates for periods of 25 years and more</p>

Sr. No.	Process	Description
7	Trimming and Post Visual	Trimming Back sheet: This step involves cutting off the excess material of the back sheet to make perfectly shaped modules.
	Post LAM Visual Inspection	Post Visual Inspection: Auto inline Visual inspection Equipment shows 90-degree view of laminated module, in presence of light. Quality criteria and category is decided as per the QC inspection criteria. This also helps to avoid offline activity and prevent micro cracks
8	Framing and Junction Box Fixing	At the final assembly stage, the frames are created on the basis of requirements as per the size of the solar panel than installs the junction box at the back of the panel with the help of sealant
9	Curing	The panel is now ready, but sealant requires sometime to dry off, so in curing process, we left the panels to dry and so that the frame can attach properly.
10	Sun Simulation / Final Testing	In final testing process, Sun Simulator is a device that provides illumination approximating to natural sunlight to read the power and efficiency of the solar module at Standard Test Condition , it is also essential to verify eventual power losses in the finished modules. With the help of this testing method, we can have the final technical parameters of modules at STC level

Sr. No.	Process	Description
11	HiPot Test / IR DCW GND Test	<p>HiPot test is one of the safety test, the main purpose of hipot test is for testing insulating capability of DUT (Device under Test). When the equipment is operating, apply a high voltage to test point for testing whether insulation breakdown or electrical flashover/ARC are occurred</p> 
	Final EL Inspection & Sorting	<p>Final EL To perform In Process Quality Control in final stage. As micro cracks could be generated during manufacturing process, thus 100% Modules undergo test by EL tester, so that micro crack defect free Modules can be dispatched to the customers. After this sorting of modules with reference to the current sorting parameter is being performed before the cleaning and packaging process.</p> 
12	Cleaning	<p>Cleaning of modules will be done from both side of module to ensure that there is no stain before sending to customer.</p> 
	Packing	<p>Final packing can be customized as per customer requirements</p> 

Capacity Utilization

The following table sets forth certain information relating to our production capacity¹ installed of our manufacturing facilities for solar PV modules for the relevant fiscal period and actual production in such periods:

Particulars	Location	01.04.2023 to 30.09.2023	2022-23	2021-22	2020-21
Rated Installed Capacity	Bavla	100MW	100MW	100MW	100MW
Effective Installed Capacity (one shift of 9 hours)	Bavla	17MW*	34MW	34MW	34MW
Capacity Utilized	Bavla	13.12MW	25.04MW	17.21MW	26.59MW

Particulars	Location	01.04.2023 to 30.09.2023	2022-23	2021-22	2020-21
Capacity Utilized (% of Effective Capacity Utilized)	Bavla	77.17%	73.00%	50.00%	78.20%

**As the period for 6 months beginning from April 01, 2023 to September 30, 2023 is taken into account, the effective installed capacity of the plant is taken half as compared to other fiscals on a pro-rata basis.*

Note:

- 1. It is to be noted here that since the solar modules that we manufacture produce power which is measured in Watts and hence our production capacity mentioned above is mentioned in units of Watts. It means that we produce solar modules that are capable of producing the respective abovementioned MW of power.*
- 2. The Company's Current Rated Capacity (100 MW) has been considered based on 100% operational effectiveness and 300 working days.*
- 3. Effective Installed Capacity is calculated on the basis of various dimensions, performance and quality of module manufactured.*
- 4. The capacity utilization has been calculated as a percentage (%) on the basis of actual production during any fiscal year divided by effective installed capacity.*

B. SOLAR WATER PUMPING SYSTEMS

The market of solar pumping solutions in India and in African countries is huge as these countries are primarily agricultural countries and we focus on this vertical to align with the thought of contributing towards reduced dependency on fossil fuels and contributing towards the greener environment.

Solar water pump set comprises of a pump, motor, panel and a controller is operated by a solar panel. It is an application of Solar PV System which converts solar energy into electricity to run motor and pump. The motor energized by solar power delivers water out of bore well, river, lake or pond.

The energy produced by solar panels convert sunlight into electrical energy (DC - Direct Current). This energy is supplied to the pump via Pump Controller in DC pump or through VFD (Variable Frequency Drive) in AC pumps [VFD converts DC into Alternative Current (AC)]. Pump system is a combination of an impeller and a motor. The impeller propels water movement, and the motor drives the pump. The water is propelled out of the bore well/river/lake/pond through the pipe and water can then be fed to the fields for irrigation and other purposes. Water output varies during the day with varying solar irradiance.

We provide customized solar water pumping solutions and ~61% and ~73% of our revenue from operation is derived from this business on basis of September 30, 2023 and March 2023 financials respectively.

We customize the pumping systems as per the requirement of the client.

Solar Water Pump consists of

- Solar PV modules with 25 years performance warranty
- Hot dip galvanized iron module mounting structures

- Pump controller
- Solar Pump motor set (DC/AC) made of stainless steel which remains rust-free.
- Accessories-pipe, cable etc.
- Remote monitoring mechanism option available on request
- Warranty against manufacturing defect on pump, controller, module and pump kit

Applications:

- Agriculture
- Drinking Water
- Residential
- Hotels, Resorts

To support the solar water pumping systems provided by us we also design and customize solar water trolley as and where required to effectively execute our projects.

C. SOLAR MOBILE TROLLEY

With the purpose of overcoming obstacles for farmers and their economic prosperity and growth, our company has introduced and designed Sahaj Solar Mobile Trolley. We get it made from fabricators as and when the need arises in the projects.

This trolley is specially designed by our team for the farmers to irrigate their farmlands. It is integrated with solar panels, pump controller and a surface or submersible pump on a 4 wheeled trolley which can be pulled with the help of a tractor or manually. The product can be used by small and marginal farmers on a sharing basis. The product comes in 3000watt with 3hp pump and 5000watt with 5hp pump variants.

Some of the features of mobile solar trolley are as follows:

- Can be used as a replacement for diesel generator for canal, river and other form of irrigation.
- Take it anywhere anytime
- No installation needed
- 100% solar powered
- Unique and innovative design
- Lockable coverings prevent theft
- Operated manually &with hydraulic system
- Can also be used for drinking water, irrigation water and other pumping requirement.
- It is estimated that the 24 months diesel cost can recover the cost of the system
- Can be used for Agriculture chaff cutter & thresher as well.

D. ENGINEERING PROCUREMENT CONSTRUCTION (EPC)

With almost a decade long know-how in Solar Project Management, Our Company has gained a decent amount experience in design, supply, installation, testing, commissioning and maintaining of all sizes of projects ranging from simple domestic solar installation to setting up a large scale Solar Power projects.

We help, guide and support our clients starting from conceiving to implementation of the entire solar power project. Our skilled team of project management experts undertakes a series of planned activities from designing to execution of the project.

Following are the part of our Project Management under EPC services:-

- Conceptualization
- Feasibility Study
- Detailed engineering
- Plant Erection Estimation
- Budget Planning
- Third party capital identification & recommendations
- Project Management
- Planning & Scheduling
- Procurement of Major Equipment & Balance of Plant
- Start-up & Commissioning
- Installation & Commissioning Manuals for OEM Equipment

We provide solar rooftop solutions under our EPC services for the clients who want to install on grid solar solutions within their premises.

E. SOLAR ROOFTOPS

A solar Rooftop is an application of Solar PV System which converts solar energy into electricity to use it across the residence or industry as per the installed location.

In grid connected rooftop or small SPV system, the DC power generated from SPV panel is converted to AC power using power conditioning unit and is fed to the grid either of 33 kV/11 kV three phase lines or of 440V/220V three/single phase line depending on the local technical and legal requirements.

These systems generate power during the day time which is utilized by powering captive loads and feed excess power to the grid. In case, when power generated is not sufficient, the captive loads are served by drawing power from the grid.

Apart from providing on grid EPC services, we also cater to the requirement of rural and remote areas clients by providing them off grid solar systems.

F. SOLAR OFF-GRID POWER PLANT

Off-grid systems work independently of the grid but have batteries which can store the solar power generated by the system. The system usually consists of solar panels, battery, charge controller, grid box, inverter, mounting structure and balance of systems.

Off-grid solar power packs are an ideal solution for areas having no electricity supply. These self-sustaining solar powered panels can provide clean energy for residential homes and small commercial units and reduce their dependence on DG sets, thereby saving fuel costs.

The off grid system can be customized as per the user requirements. Solar off-grid systems are customized as per the power need ranging from 0.25KW to 30KW.

With the given plethora of products and services, Sahaj holds a reputation in the market which is a growth driver for our company.

Our Core Competitive Strengths

- Experience in both solar panel manufacturing and solar pumping services*
- Empanelled partner of various Government schemes and tenders*
- Located in one of the highest consumption zones*
- Well established position in medium sized solar panel manufacturers with state of the art manufacturing facility*
- Follows the strictest production guidelines and the best International Industry Standards and Practices with all major national & international certifications.*
- Experienced key management personnel, project management and operations team with an excellent track record*

1. Experience in both Solar panel manufacturing and EPC services

We are primarily an experienced solar PV module manufacturing facility. We focus on selection of right quality of raw materials for quality performance of the solar panels and durability of the panels considering longer lifecycle of Solar PV panels. We focus on production practices with the highest standard of quality and safety norms to avoid below par performance of the solar PV panels. We constantly monitor and improve our operations for the better output that have developed a diversified product and service portfolio catering to solar energy solutions, and as a result we are able to provide integrated EPC services. We have experience in executing EPC projects for solar plants and have projects which have been executed or are under execution at various stages of construction. Our dedicated in-house team of designers and engineers manages its surveys, planning, basic and detailed design, and technical evaluation of vendors and assess safety requirements. We are focused on providing ongoing technical support across the complete value chain of the project in a cost-effective manner. To manage such a large and diversified portfolio of projects, we aim to update our business processes to reduce project costs, optimize working capital and manage our contractual obligations. We aim to achieve this by leveraging digital capabilities to not only streamline our sourcing and procurement but also financial management of projects.

2. Empanelled partner of various Government schemes and tenders

We are ALMM approved module manufacturing company with BIS certification which is mandatory for Indian market. We are empanelled as partners with various Government of India schemes such as Jal Jeevan Mission which is aimed to provide drinking water to 35 – 40 Cr Indian by tap at their homes.

PM KUSUM aims to provide solar based irrigation systems to farmers across India. The Government objective is to reach out farmers at the remote areas where the grid connectivity is not available. The core intention is to increase farmer's income by multi fold times which will eventually contribute to the Indian economy. As a part of the scheme, we are one of the leading agencies working with GUVNL- the nodal agency for the state of Gujarat, MEDA- the nodal agency for the state of Maharashtra, HAREDA- the nodal agency for the state of Haryana, UPNEDA- the nodal agency for the state of for Uttar Pradesh, MPUVNL- the nodal agency for the state of for Madhya Pradesh, CREDA-the nodal agency for the state for Chhattisgarh.

As a part of national solar mission, we are one of the earlier agencies working with GEDA- the state government for Gujarat, to develop solar installation for the residential consumers and to develop the awareness for renewable energy.

We participate individually in various tenders related to solar irrigation system, micro grid, roof top and ground mount systems and solar street lights. We also explore opportunities to participate in various tenders by building consortium with other solar companies to get the strategic advantage of the core strength of each other.

3. Located in one of the highest consumption zone

Gujarat is one of India's most solar-developed states, with its total installed solar power generation capacity reaching 10133.66 MW as of 30 June 2023. (Source: <https://pib.gov.in/PressReleaseIframePage.aspx?PRID=1947140>)

Gujarat has been a leader in solar-power generation in India due to its high solar-power potential, availability of vacant land, connectivity, transmission and distribution infrastructure and utilities

and availability of more than 300 clear sunny days. According to a report, Solar Power of Gujarat policy framework, financing mechanism and incentives have contributed to a green investment climate in the state and the targets for grid-connected solar power.

Western Part of India is the one of the highest consumption zones of India. Due to the locational advantage, we are in receipt of various governments orders too.

We have received an order to supply water pumps under PM KUSUM scheme as due to locational advantage of western region, almost 40% of total solar water pumps supply has been allocated to the western region.

4. Well established position in medium sized solar panel manufacturers

Our company has is one of the growing solar panels manufacturers as listed in ALMM. We have increased our installed capacity from 5 MW to 100 MW from 2014 to 2023. Our company has established its position as a recognized player in solar water pumping system segment and also one of the early developers of CPV concentrated photovoltaic system.

5. Follows the production guidelines and the accepted International Industry Standards and Practices with all major national & international certifications.

We are ISO certified and BIS certified. We have national & international certifications like MNRE, ISO, IEC. We are following the accepted standards for production and for the quality check and satisfaction for our end users.

6. Experienced key management personnel, project management and operations team with an excellent track record

Our Company is promoted by entrepreneur, Mr. Pramit Brahmhatt, who has a decent experience and exposure of approximately 10 years in various sectors such as Financing, and Captive & Independent Solar Power Producer. Under the able guidance of our promoter, we have marked a considerable position in this highly competitive industry. His innovative thinking and ideas have helped the Company to claim a good position in the industry. Further, the other directors of our Company are well educated, having experience in their respective knowledge fields. Their understanding of the markets in which they operate has helped the company in leveraging business opportunities and streamlining business processes, thereby contributing towards the growth of the Company. We are led by a management team with experience in the power industry, deep understanding of managing projects and a proven track record of performance. Benefitting from the experience of the management team, their quick decision-making abilities and strategy to focus on key markets for opportunities, since 2014, we have been able to expand our operations. Our management team is also assisted by a strong technical team.

The vision and foresight of our management enables us to explore and seize new opportunities and accordingly position ourselves to capitalize on the growth opportunities in the interior infrastructure sector.

We conduct continuous learning and development programs for our team, to keep our team updated with the latest market studies and new technologies and innovations.

OUR BUSINESS STRATEGIES

Our focus is on utilizing our core strengths for expanding our operations in existing as well as new markets. Our Company is engineered with updated technology and aptly supported by an efficient team of trained personnel who have marketed the product in unexplored markets, and have paved the way for acquiring a considerable share of the competitive market which hitherto was not captivated or dominated by unorganized companies. The increase in the renewable energy market and government initiatives, both local and global, has given us opportunity to explore the market further to cater to the growing demand. A brief description of the business strategies employed by us is as under:

1. Continued focus on developing new and innovative products and services

We are constantly pursuing opportunities and product segments which leverage our existing technology platform and know-how. Our philosophy of product development originates from market survey and feedbacks. We believe in developing products based on customer experiences and need. As the solar energy market is ever evolving, it is important to provide product solutions based on the latest available technology and product development becomes a key feature to do so. We are working on many technology solutions where we are integrating solar technology with the basic processes to make users life comfortable. For example, we have started designing solar trolleys in house for the ease of setting up solar pumping systems for some of the orders. Also, agriculture related machines like De-husking machine, de-stoning machine, etc. are currently being developed by our team as we believe that is a potential area for innovation. The prototype development for these products are in progress to operate these products through solar power.

2. Focus on increasing market share into untapped markets and underdeveloped countries

The renewable energy has become the necessity for all the countries, solar is the key source to provide renewable energy from very basic capacity to utility scale. As we have a core strength of customization of product and solution, it is working very well into the underdeveloped countries where the grid power is not available in major parts of the country. These countries are predominantly agricultural based economies with our customized irrigation and off grid solutions we are focusing to tap these unorganized markets where customization of the product based on geographical and economic conditions is required. These are the niche markets that provide us the opportunity to fill in the gap created by unavailability of grid power and lack of power infrastructure.

Our Company is already exporting solar PV modules to a few African underdeveloped countries and is progressively working to broaden the customer base in similar untapped potential markets.

3. Invest in technology development and global partnerships for vertical integration

The growth of solar energy sector has paved the way for integration of technology with the energy. The constant innovation in technological field and solar energy field has provided various solutions which were unthinkable before a decade. The solar field has created opportunities into power storage filed, smart cities, generation of green hydrogen and green fertilizers solutions. To develop such solutions, vertical integration of technology is very essential. We are working with global innovators and product developers to come up with holistic solutions to create storage options and produce green hydrogen-based solutions powered by solar energy. The objective to invest in technology development is to remain ahead of the industry peers and to provide next generation solutions to the end users from underdeveloped countries to developed countries.

Our strategy is to focus on markets with conducive solar power policies and high solar resources. We aim to spread our area of supply of our products to other regions that have continuous and large solar opportunities and leverage this regional presence to strategically access local geographies as needed. Therefore, our Company believes in making investments for continuously achieving higher levels of excellence in our products to cater to the diverse specifications. We have invested in upgrading our machinery and equipment's with modern technology. We seek to continue to work towards the upgradation and modernization of our infrastructure and technology in future as well for sustaining our growth thin the subsequent periods.

Our management is exploring global partnerships for technological advancement and in discussion with a few technologically advanced players from developed countries in the field of battery storage and PEM (Polymer Electrolyte Membrane) based electrolysers for probable future vertical integration to our existing portfolio.

4. Grow our customer base and maintain relationships with other key stakeholders

We believe high quality and safety complying products are of much importance for customer retention and repeat-order flow. We have procedure in place to have close interaction with our customers to strengthen our relationships with them and enabling us to understand the market perception and demand for our products.

We believe there is a substantial opportunity to grow our customer base in existing and new markets through a combination of our strong track record and market leadership in the regions in which we operate and our relationships with key stakeholders in the solar power industry. We intend to develop this opportunity by continuing to invest in our business development activities, participation in the tendering process and working towards exploring global footprints to optimize our ability to identify, evaluate and win new customers.

At Sahaj, we continue to obtain repeat orders from our existing customers through efficient deliverables and by maintaining client relationships. Our management team and marketing team focuses on reaching out to new markets and thereby broaden our customer base.

5. Enhance our commitment to society and sustainable business development

We actively pursue environmental, social and governance initiatives as part of our business operations. Our business is environmentally focused, and we strive towards facilitating a cleaner environment and reduced carbon emissions through the use of our solar PV modules, as well as our EPC contracts, for solar power generation, which is an environment friendly method of power generation. Furthermore, our marketing and branding efforts are constantly focused on building climate consciousness amongst our customers.

Our Company also strives to reduce wastage and while expanding our manufacturing capacity, we are developing economies of scale. Our operations and quality management systems are certified under some of the industry’s best quality standards including IS 14286/ IEC 61215; 2005, IS/IEC 61730 – 1;2004, IS/IEC 61730-2;2004, ISO 9001:2015, ISO 45001:2018, ISO 14001:2015.

The industry in which our Company operates prima facie focuses towards the goal to an environment friendly and sustainable business development. Further, our ongoing development of agricultural products would be focused on farmers’ upliftment.

INNOVATION, RESEARCH AND DEVELOPMENT – SAMPLE TESTING AND CHECKING AT FACTORY IN BAVLA

We continue to focus on R&D, in order to develop reliable and updated solar solutions to our customers. Before we enter a new market, our regional development teams prepare market analysis reports and financial models, including key assumptions, to guide us in sourcing, evaluating and executing solar power projects. These market analysis reports include information on the contract structure and related tax aspects, permitting processes, timelines and costs, logistics, local manufacturing, sub-contractor availability, off-taker credibility, visa regulations, results of technical diligence, key project milestones, major market risks and an action plan outlining steps and requirements for pursuing projects in the subject market. We update the market analysis reports quarterly, or more frequently as needed.

We also engage the local stakeholders and agencies to identify the requirements, norms and demography to design the product and solution based on their inputs.

At Sahaj, a team from our existing employees, based on their experience is created to undertake the research and development projects where they contribute their inputs for the development of innovative products which are currently being developed.

CUSTOMER SERVICE

We have a dedicated customer service team at our branch offices in Haryana, Gujarat and Maharashtra to resolve issues related to our products and services. Customers may log complaint/query on email or on the dedicated contact no provided to them. Our team strives to acknowledge all complaints/queries within 48 working hours and tries to resolve them within 7 working days in case of non-technical complaints and 15 working days in case of technical complaints. Further, to enable end-to-end customer requirement mapping we have a structured approach by which we cultivate relationships and generate leads.

RAW MATERIALS

Raw materials which are used to manufacture solar panels are the inputs in the production process to create various sizes of solar panel that are ready to sell in the market. Additionally, the quality of the raw material is also verified before making the order of the material to make sure that the superior quality of material should be used in manufacturing of our product. Below mentioned is the list of suppliers’ information and Raw Material which are used in manufacturing of solar panel:

Material Description	Technical Specifications	Origin of Supplier	Imported Material Country
Solar Cell	Mono and Multi Crystalline Solar Cell	Domestic and Foreign both	PRC

Material Description	Technical Specifications	Origin of Supplier	Imported Material Country
Front Cover - Solar Glass	Low Iron Solar Anti reflective Coated (ARC) Textured Glass(Tempered)	Domestic and Foreign both	PRC, Malaysia
Encapsulate	100% PID Resistant	Domestic and Foreign both	PRC
Back Cover - Backsheet	Rated voltage:1500VDC, Fluoro Material	Domestic and Foreign both	PRC
Cell Interconnects	Sn/Pb 60/40 , 20-25 microns coating	Domestic and Foreign both	PRC
Bus Bars	Sn/Pb 60/40 , 15-25 microns coating	Domestic and Foreign both	PRC

Junction Box	Rated Voltage: 1500V, IP67 Protection	Domestic and Foreign both	PRC

PLANT & MACHINERY

We have installed sufficient plant and machinery in the manufacturing unit. Details of some major machines are shown as follows:

Sr. No.	Name of PV Equipment	Description and usage of the machinery	Source (Imported / Indigenous)
1	Tabber & Stringer Machine	In this machine, process of solar cell tabbing and stringing will be completed. Number of solar cells are to be connected to form a string with the help of solar interconnect ribbon and soldering	Imported
2	Auto Layup Machine	Automatic Layup Machine designed to simplify the lay-up of the strings on the glass. The string layup will be completed through complete automated layup machine with the pick-up and positions of the strings coming out from the stringers on the solar tempered glass.	Imported
3	EL Machine	EL Tester full form is Electroluminescence Tester machine. An essential tool for detecting and identifying different types of defects in photovoltaic modules.	Imported
4	Laminator Machine	Lamination process of PV module is being processed in the Laminator Machine. Encapsulation of the module by applying the right pressure and temperature to laminate the various components.	Imported
5	Trimming Table	Trimming Table is useful in performing the process of trimming back sheet: This step involves cutting off the excess material of the back sheet to make perfectly shaped modules.	Imported
6	Framming	At the final assembly stage, the frames are created on the basis of requirements as per the size of the solar panel	Imported

Sr. No.	Name of PV Equipment	Description and usage of the machinery	Source (Imported / Indigenous)
		than installs the junction box at the back of the panel with the help of sealant.	
7	RTV Dispensing Machine	RTV dispensing machine helps to perform the RTV filling process uniformly in aluminium frame to complete the framing part.	Imported
8	Sun Simulator Machine	In final testing process, Sun Simulator is a device that provides illumination approximating to natural sunlight to read the power and efficiency of the solar module at Standard Test Condition , it is also essential to verify eventual power losses in the finished modules. With the help of this testing method, we can have the final technical parameters of modules at STC level	Imported
9	Hi Pot Testing	HiPot test is one of the safety test, the main purpose of hipot test is for testing insulating capability of DUT (Device under Test). When the equipment is operating, apply a high voltage to test point for testing whether insulation breakdown or electrical flashover/ARC are occurred	Imported
10	Aluminium Profile cutting machine	Aluminium Profile cutting machine is useful to perform the cutting process of aluminium profile as per the requirement of dimension and holes for solar PV modules.	Indigenous
11	Vertical Drill Machine	Vertical drilling machines are the most widely used in metalworking. The tool, such as a drill, countersink, or reamer, is fastened on a vertical spindle, and the work-piece is secured on the table of the machine. The axes of the tool and the hole to be drilled are aligned by moving the work piece. With help of vertical drill machine, different types of small holes can be done on the aluminium frame is required.	Indigenous
12	Punching Machine	Punching machine is useful to perform the punching process of required size of and types of holes in aluminium profile. To process holes into flat materials. Punching equipment consists of two tool parts – one support for the punches and one for the dies. While the punches enter the dies, the material is being shear cut.	Imported
13	EOT Crane	Full form of EOT is Electric overhead travelling crane. EOT crane is useful for loading and unloading material for handling & moving a maximum specified weight of the components called capacity of the crane within a specified area. The crane can be operated manually or by electric power.	Indigenous
14	Ribbon cutting Machine	Ribbon cutting machine can able to cut the busbar as per the required dimension to perform the bussing process of PV module.	Imported
15	Solar Cell Cutting/Scribing Machine	Solar cell high-speed fiber laser cutting machine of solar production machinery is used to cut the Solar Cells as per customized length and width, including the mono-si	Imported

Sr. No.	Name of PV Equipment	Description and usage of the machinery	Source (Imported / Indigenous)
		(monocrystalline silicon) and poly-si (polycrystalline silicon) solar cells.	
16	Solar Cell Tester	Solar Cell Tester machine can check the technical parameter of solar cell which includes voltage, wattage and current.	Imported
17	Gel Content Tester	Gel Content Tester helps to identify the Gel test of EVA and helps to confirm the raw quality of material with the adhesion testing. EVA Gel Content test (known as a measure of Cross linking ratio) is a quality test of solar modules. Gel content of EVA is a measure of the degree of cross linking in the polymer.	Imported
18	Peel Test -Solar Cell	Peel Tester machine is useful to perform the peel test of solar cell to check the quality of tabbing done by the tabber stringer machine. Peel testing is used to qualify the adhesion of interconnection ribbons onto solar cell metallization.	Indigenous

UTILITIES AND INFRASTRUCTURE FACILITIES

Power

For the Solar Panel manufacturing unit, we have continuous power with contract load demand of 500 KWh at present. Maximum usage of power has been upto 280 KWh as of now, hence we have balance load which can be useful in expansion. In continuation of this, we have uninterrupted power solution as well for our manufacturing process.

Water

For water utility, we have our own bore well for use and consumption activities. There is no such requirement of water use in solar panel manufacturing process. Water is required only for drinking and sanitary purposes.

Quality Control and Consumer Health and Safety

Quality function is an integral function of Sahaj Solar, responsible for establishing a robust Quality Assurance System & Engineering control with a process-based approach in the organization ensuring quality right at every stage of the manufacturing process.

For selecting solar equipments, such as modules and inverters, for our operations, we follow a defined quality management procedure. We are a BIS certified and ALMM approved company. We also engaged in product validation procedures which involve inspecting raw materials, evaluating supplier's manufacturing process, and conducting equipment safety checks.

Our Solar panels are checked for all safety parameters as per IEC standards in order to provide safe electrical and mechanical operation during their expected lifetime.

CUSTOMERS AND SUPPLIERS

Customers

Our company acquires new customers and work orders from existing customers through direct marketing activities and by maintaining customer relationships which are done by our management and

marketing team for private customers. For government customers, we acquire new customers through the tendering process and retain them through our deliverables.

Our customers benefit from our supply chain and our relationships with suppliers help us execute projects for our customers efficiently and economically.

The following is the revenue breakup of top 10 customers of our Company as a percentage of our total revenue as on September 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 are as below:

(₹ in lakhs)

Particulars	September 30, 2023		March 31, 2023		March 31, 2022		March 31, 2021

Suppliers

We have relationships with a group of suppliers that helps us source raw materials such as solar cells, glass, EVA sheets, back-cover, aluminium frame, Junction box, batteries and other solar equipment at competitive costs from regional players. Our raw material acquisition is supported by the specified requisitions from the manufacturing department.

The following is the revenue breakup of top 10 supplier of our Company as a percentage of our total expense as on September 30, 2023, March 31, 2023, March 31, 2022 and March 31, 2021 are as below:

(₹ in lakhs)

EXPORT AND EXPORT OBLIGATIONS

Currently, our Company avails benefits under certain export promotion schemes, namely, Export Promotion Capital Goods (“EPCG”) licenses. As per the licensing requirements under the said scheme, we are bound by certain export obligations which require us to export goods of a defined amount, failing which, we may have to pay the Government, a sum equivalent to the duty benefit enjoyed by us under the said schemes, amounting to Rs. 110.00 Lakhs. As on the date of filing this Draft Red Herring Prospectus, our pending obligations against EPCG License is Rs. 108.39 lakhs, which will be adjusted at the time of the consequent exports as per the required timelines.

For details of the EPCG licenses, amount of duty saved, details of block-wise export obligation, validity of EO period, etc., please refer **‘Risk Factor - Our company is engaged in assembling of solar water pumping system and customers receives subsidy from State/Central Government. Any reduction or discontinuation of such subsidy will results in reduction in number of potential consumers.’** and **‘Government and Other Statutory Approvals’** on page 37 and 233 of this Draft Red Herring Prospectus.

COMPETITION

Renewable energy is a global industry and consequently we face intense competition from various manufacturers. Competition emerges not only from organized sectors but also from both small and big regional and national players. In adverse and competitive market scenario also, we are able to maintain our growth steadily due to our planned structure of operational policies. The company has accumulated extensive experience of executing private and government contracts and our experience in this business has enabled us to procure orders from various private customers and government agencies.

We believe the principal elements of competition in our industry are quality, customization and constant innovation, technical ability, performance record, sustainable relationship with existing clients and vendors, use of technically upgraded plant and machinery, timely delivery and reliability.

HUMAN RESOURCES

As on September 30, 2023, we had 64 employees which include Administration, Accounts & Finance, HR, Projects, Procurement, Plant head, Sales & Marketing, Production & Operations and also Top-Level Management, We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our company looks for specific skill sets, interests and back ground that would be an asset for our business.

Function	Number of Permanent Employees
Administration	8
Accounts & Finance	2
HR	2
Project	8
Procurement	1
Plant head	1
Sales & Marketing	4
Production & Operations	36
Management & KMP	2
Total	64

Further, we do not have a designated team or personnel appointed in the R&D facility as of now and hence a team from our existing staff has been created to carry on the work of research and development of our new products.

Our Company does employ contract labour for manufacturing purposes as and when it is required. However, for our EPC projects, majority of the work is carried out by our in-house team.

Also, we have not experienced any strikes, work stoppages, labour disputes or actions by or with our employees, and we have cordial relationship with our employees.

Environment Social and Corporate Governances Initiatives

At present the CSR guidelines is not applicable to the company. The company will review the application of policy at regular intervals and same will be carried about strictly as per guidelines whenever the mandatory CSR will be applicable.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of certain key statutes, rules, regulations, notifications, memorandums, circulars and policies currently in force in India, which are applicable to our Company. The information detailed in this chapter has been obtained from various legislations including rules and regulations promulgated by regulatory bodies and the bye laws of the respective local authorities and publications available in the public domain. The description below may not be exhaustive, and is only intended to provide general information to investors, and is neither designed as, nor intended to substitute, professional legal advice. Judicial and administrative interpretations are subject to modification or clarification by subsequent legislative, judicial or administrative decisions.

The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For information on regulatory approvals obtained by us, see '**Government and Other Statutory Approvals**' on page 233 of this Draft Red Herring Prospectus. We are required to obtain and regularly renew certain licenses / registrations/ sanctions / permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye laws, acts and policies.

Following is an overview of some of the important laws and regulations, which are relevant to our business.

INDUSTRY SPECIFIC LAWS

The Electricity Act, 2003 ("Electricity Act")

The Electricity Act is a central legislation and provides for, *inter alia*, generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution, and trade of electricity are regulated activities which require licenses from the Central Electricity Regulatory Commission ("CERC"), the State Electricity Regulatory Commissions ("SERCs") or a joint commission (constituted by an agreement entered into between two or more state governments or the central government in relation to one or more state governments, as the case may be).

Under the Electricity Act, the appropriate commission, guided by, *inter alia*, the methodologies specified by the CERC with the aim of promotion of co-generation and generation of electricity from renewable sources of energy, shall specify the terms and conditions for the determination of tariff.

The Electricity Act requires the GOI to prepare the national electricity policy and tariff policy, from time to time, in consultation with the State Governments and Central Electricity Authority. The Draft Electricity (Amendment) Bill, 2022 ("**Draft EAA**") was proposed by the Ministry of Power which seeks to amend certain provisions of the Electricity Act. Among others, the amendment proposes that on the issuance of license to more than one distribution licensee in an area of supply, the power and associated costs from the existing power purchase agreements with the existing distribution licensee, as on the date of issuing license to another distribution licensee, shall be shared among all the distribution licensees in the area of supply as specified by the State Commission. Further, it also proposes that in case of distribution of electricity in the same area of supply by two or more distribution licensees, the appropriate Commission, for promoting competition among such distribution licensees, will fix the maximum ceiling of tariff and the minimum tariff for retail sale of electricity. The Draft EAA also provides that a distribution licensee may use distribution systems of other licensees in the area of supply for supplying power through the system of non-discriminatory open access on payment of wheeling charges.

Draft National Renewable Energy Act, 2015

The Draft NRE Act has been formulated by the Ministry of New and Renewable Energy (“MNRE”) with the aim to promote the production of energy through use of renewable energy sources. The Draft NRE Act seeks to provide a framework to facilitate and promote the use of renewable energy. It aims to address issues with respect to renewable energy such as the principles of grid planning and operation and the concept of national targets and its compliance by utilities. It proposes the creation of a framework for governances of renewable energy at the national and state level by creating a national renewable energy committee and a national renewable energy advisory group. It also requires states to establish a state-level implementing agency responsible for implementing renewable projects. The Draft NRE Act would require the MNRE to prepare and publish a national renewable energy policy in consultation with the state governments, from time to time, to formulate and implement a state level renewable energy policy, and renewable energy plan taking into consideration the applicable national renewable energy policy and national renewable energy plan.

Among other things, the Draft NRE Act proposes to empower the GoI and State Governments to establish national renewable energy funds and state green funds, respectively, to meet the expenses incurred for implementing the national renewable energy policy and national renewable energy plan. Further, unlike the Electricity Act, no license is required for supply of electricity, if generated from renewable energy sources under the provisions of the Draft NRE Act.

Electricity (Promoting Renewable Energy through Green Energy Open Access) Rules, 2022

The Ministry of Power (“MoP”) has notified the Electricity Rules 2022. The Electricity Rules 2022 provide for generation, purchase and consumption of green energy, including the energy from waste-to-energy plants. It provides in detail for renewable purchase obligation (RPO), green energy open access, nodal agencies, procedure for the grant of green energy open access, green certificate, banking, charges to be levied on open access and cross-subsidy surcharge. It also provides for tariff for green energy which shall be determined by the appropriate commission. It shall comprise of the average pooled power purchase cost of the renewable energy, cross-subsidy charges, if any, and service charges covering the prudent cost of distribution licensee for providing the green energy.

Central Electricity Regulatory Commission (Terms and Conditions for Tariff Determination from Renewable Energy Sources) Regulations, 2017 (“Tariff Regulations”)

The Central Electricity Regulatory Commission has announced the Tariff Regulations, which prescribes the criteria that may be taken into consideration by the relevant electricity regulatory commissions while determining the tariff for the sale of electricity generated from renewable energy sources which include, *inter alia*, return on equity, interest on loan and working capital, operations and maintenance expenses, cost of capital and depreciation. Pursuant to the National Tariff Policy, the CERC is required to determine the rate of return on equity which may be adopted by the relevant electricity regulatory commissions to determine the generic tariff, keeping in view the overall risk and prevalent cost of capital, which factors are also to be taken into consideration by relevant electricity regulatory commissions while determining the tariff rate. The Tariff Regulations prescribe that the normative return on equity will be 14%, to be grossed up by the prevailing Minimum Alternate Tax (“MAT”) as on April 1st of the previous year for the entire useful life of the project. The Tariff Regulations also provide the mechanism for sharing of carbon credits from approved clean development mechanism projects between renewable energy generating companies and the concerned beneficiaries. Under the Tariff Regulations, the project developer is entitled to retain 100% of the gross proceeds on account of clean development mechanism project benefit in the first year after the date of commercial operation of the generating station. Subsequently, in the second year, the share of the beneficiaries will then be progressively increased by 10% every year until it reaches 50% after which the clean development

mechanism project proceeds are to be shared equally between the generating company and the beneficiaries.

Approved Models and Manufacturers of Solar Photovoltaic Modules (Requirement for Compulsory Registration) Order, 2019 (“ALMM Order”)

To ensure the quality of solar cells, solar modules, used in solar PV power plants, the Ministry of New and renewable Energy (“MNRE”) issued the ALMM Order on January 2, 2019. The ALMM Order provides that the government will enlist eligible models and manufacturers of solar PV power plants complying with the applicable BIS standard, and publish a list titled the “Approved List of models and manufacturers” (“ALMM”). Only the models and manufacturers included in the ALMM would be eligible for use in government / government assisted projects under government schemes and programmes installed in the country, including the projects set-up for sale of electricity to the government under the “Guidelines for Tariff Based Competitive Bidding Process for Procurement of Power from Grid Connected Solar PV Power Projects” dated August 3, 2017 and the amendments thereof (collectively, the “Applicable Projects”). The ALMM will consist of List I, specifying models and manufacturers of solar PV modules and List II specifying models and manufacturers of solar PV cells. Further with respect to the Applicable Projects, solar PV module manufacturers from List I would have to mandatorily source PV solar cells only from manufacturers in List II. For being eligible to be included in List- I, the manufacturers are required to obtain a BIS certification in accordance with the Compulsory Registration Order. Manufacturers are required to make an application to the MNRE for registration, and if enlisted, such enlistment shall be valid for a two-year period and can be renewed by submitting necessary documents and satisfactory performance of products. Prior to inclusion in the ALMM, a team of MNRE will inspect the manufacturing facility of the applicant. Enlisted models and manufacturers will be subjected to random quality tests and failure or non-compliance will lead to removal from ALMM. The ALMM Order will not apply to projects for which bids have been finalized before the issuance of the ALMM Order. Thereafter, the MNRE has also issued the Guidelines for enlistment under the ALMM Order on March 28, 2019 which provides a procedural framework for the implementation of the ALMM Order.

Bureau of Indian Standards Act, 2016 (the “BIS Act”) and the Solar Photovoltaics, Systems, Devices and Components Goods (Requirements for Compulsory Registration) Order, 2017 (“Compulsory Registration Order”)

The Bureau of Indian Standards Act, 2016 provides for the establishment of bureau for the standardisation, marking and quality certification of goods. Functions of the bureau include, inter alia, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian Standard or whether the standard mark has been improperly used in relation to any article or process with or without a license. A person may apply to the bureau for grant of license or certificate of conformity, if the articles, goods, process, system or service confirms to an Indian Standard.

The Compulsory Registration Order issued by MNRE was published on August 30, 2017 and was scheduled to come into effect on the expiry of one year from the date of such publication. In terms of the Compulsory Registration Order, any manufacturer who, inter alia, manufactures, stores for sale, sells or distributes; (a) utility interconnected photovoltaic inverters, (b) power converters for use in PV power system, (c) PV modules (wafer and thin film) (d) thin film terrestrial PV modules; and (e) crystalline silicon terrestrial PV modules (collectively the “Goods”) would require registration from the Bureau of Indian Standards for use of the Standard Mark as specified in the Schedule of the Compulsory

Registration Order. The Compulsory Registration Order seeks to prohibit the manufacture or storage for sale, import, or distribution of the Goods which do not conform to the standard specified under the Compulsory Registration Order. However, pursuant to the notifications of MNRE dated April 16, 2018 and October 12, 2018, considering the time taken for tests and the framing of the guidelines for such tests, manufacturers of SPV modules and inverters were permitted in the interim to continue operations by submitting a self-certification that their products conform to the relevant Indian standards or their IEC counterparts along with proof of submission of samples to laboratories with the expected date of completion of testing. With respect to SPV modules ((c), (d) and (e) above), the timeline for submission of such self-certification together with samples for a test lab recognised by BIS pending results was January 1, 2019. However, pursuant to a subsequent notification dated January 4, 2019 of the MNRE, manufacturers of inverters ((a) and (b) above) have been permitted to continue operations by only submitting self-certification by June 30, 2019 without submission of samples to test labs till the series guidelines for submission of samples was under preparation, provided that the manufacturers have valid IEC corresponding to the Indian Standard.

The Jawaharlal Nehru National Solar Mission

The National Solar Mission (the “NSM”) was approved by the Government of India on November 19, 2009 and launched on January 11, 2010. The immediate aim of the NSM was to focus on setting up an enabling environment for solar technology penetration in the country both at a centralized and decentralized level. The NSM has set a target of 100 GW of solar power in India by 2022 and seeks to implement and achieve the target in three phases (Phase I from 2012 to 2013, Phase II from 2013 to 2017 and Phase III from 2017 to 2022). The target will principally comprise 40 GW rooftop solar power projects and 60 GW large and medium scale grid connected solar power projects. In addition, the Government of India on March 22, 2017 sanctioned the implementation of a scheme to enhance the capacity of solar parks from 20,000 MW to 40,000 MW for setting up at least 50 solar parks each with a capacity of 500 MW and above by 2019 or 2020.

Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan Scheme 2019 (“PM-KUSUM”)

The PM-KUSUM scheme was implemented by the MNRE in 2019 with three components: (i) For setting up of 10,000 MW of decentralised grid connected renewable energy power plants on barren land. Under this component, renewable energy-based power plants (“REPP”) of capacity 500 KW to 2 MW will be set up by individual farmers / group of farmers / cooperatives / panchayats / farmer producer organisations (“FPO”) / water user associations (“WUA”) on barren land. The power generated will be purchased by state electricity distribution companies (“DISCOMs”) at pre-fixed tariff; (ii) For installation of 1.75 million standalone solar agriculture pumps. Individual farmers will be supported to install standalone solar agriculture pumps of capacity up to 7.5 HP for replacement of existing diesel agriculture pumps / irrigation systems in off- grid area, where grid supply is not available; and (iii) For solarisation of 10 lakh grid connected agriculture pumps. Under this component, individual farmers having grid connected agriculture pumps will be supported to solarise pumps. The farmers will be able to use the generated solar power to meet their irrigation needs and excess power will be sold to DISCOMs at pre-fixed tariff. The scope of this scheme was expanded in 2021, with 20 lakh farmers to now be provided with assistance to install standalone solar pumps, and another 15 lakh farmers to be assisted with solarizing their grid-connected pump sets. The scheme aims to add solar and other renewable energy capacity of 25,750 MW by 2022.

Grid Connected Solar Rooftop Programme

The aim of this initiative is to achieve a cumulative capacity of 40,000 MW from the rooftop solar projects by 2022. Phase-II of the Grid Connected Solar Rooftop Programme was approved by the Cabinet Committee on Economic Affairs (“CCEA”) and provides for central financial assistance for

residential rooftop solar installations upto 40% for rooftop systems up to a capacity of 3 kW and 20% for those with a capacity of 3-10 kW. The Phase- II also focuses on increasing the incentives for DISCOMs based on achievement of certain installed capacity.

Production linked incentive scheme (“PLI Scheme”)

The aim of the PLI scheme is to boost domestic manufacturing and cut down on import bills. The PLI scheme provides companies incentives on incremental sales from products manufactured in domestic units. Along with inviting foreign companies to set up shops in India, the PLI scheme also aims to encourage local companies to set up or expand existing manufacturing units. The PLI scheme was initially rolled out for mobile and allied equipment, pharmaceutical ingredients, and medical devices manufacturing. The government aims to expand the ambit of the PLI scheme to include as many as ten more sectors, such as food processing and textiles. In the union budget 2021-22, the government has introduced provisions for renewable energy sector. The government has committed nearly 1.97 lakh crores, over a period of five years starting financial year 2021-22 for, inter alia, high efficiency solar PV modules. The PLI scheme will also incentivise new gigawatt (GW) scale solar PV manufacturing facilities in India.

Public Procurement (Preference to Make in India) Order for Renewable Energy Sector, 2017 (“Make in India Renewable Energy Order”)

Pursuant to the Public Procurement (Preference to Make in India) Order, 2017 dated June 15, 2017 issued by the DIPP (“Make in India Order”) to promote the manufacture and production of goods and services in India, the MNRE has issued the Make in India Renewable Energy Order, directing all departments / attached offices / subordinate offices of the MNRE or autonomous bodies controlled by the GoI or government companies (as defined under the Companies Act) to adhere to the Make in India Order with respect to all of their procurements. For grid connected solar power projects, apart from civil construction, central ministries, departments, and central public sector undertakings, are required to give preference to domestically manufactured components, with solar modules required to be 100% locally manufactured and other components such as invertors required to be at least 40% locally manufactured. With respect to off grid / decentralised solar power, the requirement of local content in solar streetlights, solar home lighting systems, solar power packs / micro grid, solar water pumps, inverters, batteries, and any other solar PV balance of system is at least 70%.

National Tariff Policy

The GoI notified the revised National Tariff Policy effective from January 28, 2016. Among others, the National Tariff Policy seeks to ensure availability of electricity to consumers at reasonable and competitive rates, financial viability of the sector and attract investments and promote generation of electricity from renewable sources. The National Tariff Policy mandates that SERCs must reserve a minimum percentage for purchase of solar energy equivalent to 8% of total consumption of energy by March 2022.

State solar policies

Our Company’s operations are also subject to the solar policies framed in the states in which the solar power projects are implemented, and we supply our products to such projects. Such policies typically provide a framework for the governances of the solar power industry and projects, procedures for undertaking of bids, terms of the renewable purchase obligations, connectivity to grid lines and the measures to be taken to promote the development of solar power in the state, including incentives to manufacturer such as grants of concessions on certain taxes, research and development initiatives.

CORPORATE AND COMMERCIAL LAWS

The Factories Act, 1948 (“Factories Act”)

The Factories Act, 1948 aims at regulating labour employed in factories. A “factory” is defined as “any premises...whereon ten or more workers are working or were working on any day of the preceding twelve months, and in any part of which a manufacturing process is being carried on with the aid of power, or is ordinarily so carried on, or whereon twenty or more workers are working, or were 81 working on any day of the preceding 119 twelve months, and in any part of which a manufacturing process is carried on without the aid of power, or is ordinarily so carried on...”. The main aim of the said Act is to ensure adequate safety measures and to promote the health and welfare of the workers employed in factories initiating various measures from time to time to ensure that adequate standards of safety, health and welfare are achieved at all the places.

Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories. The Factories Act makes detailed provision for ensuring sanitary conditions in the factory and safety of the workers and also lays down permissible working hours, leave etc. In addition, it makes provision for the adoption of worker welfare measures. The prime responsibility for compliance with the Factories Act and the rules thereunder rests on the “occupier”, being the person who has ultimate control over the affairs of the factory. The Factories Act states that save as otherwise provided in the Factories Act and subject to provisions of the Factories Act which impose certain liability on the owner of the factory, in the event there is any contravention of any of the provisions of the Factories Act or the rules made thereunder or of any order in writing given thereunder, the occupier and the manager of the factory shall each be guilty of the offence and punishable with imprisonment or with fine. The occupier is required to submit a written notice to the chief inspector of factories containing all the details of the factory, the owner, manager and himself, nature of activities and such other prescribed information prior to occupying or using any premises as a factory.

The Companies Act, 2013

The Act deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Act prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies. Regulation of the financial and management aspects constitutes the main focus of the Act. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act plays the balancing role between the set of competing factors, namely, management autonomy and investor protection.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“Contract Act”) codifies the way in which a contract is entered, executed and implemented and implications of breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced, as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them. Each contract creates some right and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment and agency. Provisions relating to sale of goods and partnership which were originally in the Act are now subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932.

The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honoured and that legal remedies are made available to those who are affected.

Competition Act, 2002

The Competition Act, 2002 prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates ‘combinations’ in India. The Competition Act also established the Competition Commission of India (the ‘CCI’) as the authority mandated to implement the Competition Act. Combinations which are Likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

Negotiable Instruments Act, 1881

In India, the laws governing monetary instruments such as cheques are contained in the Negotiable Instruments Act, 1881. The Act provides effective legal provision to restrain people from issuing cheque without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act creates statutory offence in the matter of dishonour of cheque on the ground of insufficiency of funds in the account maintained by a person with the banker.

The Indian Stamp Act, 1899

Under the Indian Stamp Act, 1899, stamp duty is payable on instruments evidencing a transfer or creation or extinguishment of any right, title or interest in immovable property. Stamp duty must be paid on all instruments specified under the Stamp Act at the rates specified in the schedules to the Stamp Act. The applicable rates for stamp duty on instruments chargeable with duty vary from state to state.

The Arbitration and Conciliation Act, 1996

This Act was enacted by Parliament in the Forty-seventh Year of the Republic of India to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The main objectives of the Act is to comprehensively cover international and commercial arbitration and conciliation as also domestic arbitration and conciliation, to make provision for an arbitral procedure which is fair, efficient and capable of meeting the needs of the specific arbitration, to provide that the arbitral tribunal gives reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction, to minimize the supervisory role of courts in the arbitral process, to permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

The Insolvency and Bankruptcy Code, 2016

The Insolvency and Bankruptcy Code, 2016 (the “code”) cover Insolvency of individuals, unlimited liability partnerships, Limited Liability partnerships (LLPs) and companies. The Code proposes to

establish an Insolvency Regulator (The Insolvency and Bankruptcy Board of India) to exercise regulatory oversight over (a) Insolvency Professionals, (b) Insolvency Professional Agencies and (c) Information Utilities; these agencies will develop professional standards, codes of ethics and exercise a disciplinary role over errant members leading to the development of a competitive industry for insolvency professionals. The Code proposes for a fast track insolvency resolution process for companies with smaller operations. The process will have to be completed within 90 days, which may be extended upto 45 more days if 75% of financial creditors agree. Extension shall not be given more than once.

LAWS RELATED TO EMPLOYMENT OF MANPOWER

Employees State Insurance Act, 1948

Employees State Insurance Act, 1948 (“ESI Act”) as amended, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 and the schemes formulated there under

This Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“EPF Act”) provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

(a) The Employees Provident Fund Scheme, 1952

As per this scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.

(b) The Employees’ Pension Scheme, 1995

Employees’ Pension Scheme is a pension scheme for survivors, old aged and disabled persons. This scheme derives its financial resource by partial diversion from the provident fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employees’ pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

(c) The Employees Deposit Linked Insurance Scheme, 1976

As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

The Payment of Wages Act, 1936

The Payment of Wages Act applies to the persons employed in the factories and to persons employed in industrial or other establishments, either directly or indirectly through a sub-contractor, where the

monthly wages payable to such persons is less than Rs. 24,000/-. The Act confers on the person(s) responsible for payment of wages certain obligations with respect to the maintenance of registers and the display in such factory/establishment, of the abstracts of this Act and Rules made there under.

In order to rationalize and reform all labour laws in India, the Indian Government has notified four labour codes which are yet to come into force as on the date of this Draft Red Herring Prospectus, which are as follows:

(a) The Code on Wages, 2019*

The Ministry of Law and Justice, Government of India has enacted the Code on Wages, 2019 (“Wage Code”) on August 8, 2019, which seeks to amend and consolidate the laws relating to wages and bonus and matters connected therewith or incidental thereto. The Wage Code will be in force from such date the Central Government by notification may appoint and is yet to be notified. The Wage Code subsumes the provisions of the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976.

(b) The Code on Social Security, 2020*

The Code on Social Security, 2020 has been passed by both the houses of parliament and has received the assent of the President on September 28, 2020. However, the Code on Social Security will be in force from such date the Central Government by notification may appoint and is yet to be notified. The said Code will subsume various social security, retirement and employee benefit laws like ESI Act, EPF Act, Maternity Benefit Act, Payment of Gratuity Act, etc.

(c) Industrial Relations Code, 2020

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the appropriate government.

(d) Occupational Safety, Health and Working Conditions Code, 2020*

The Ministry of Law and Justice, Government of India has published the Occupational Safety, Health and Working Conditions Code, 2020 (“OSH Code”) on 29th September, 2020 and the same will be in force from such date the Central Government by notification may appoint. However, the same has not been notified yet, The OSH Code aims to consolidate and amend the laws regulating the occupational safety, health and working conditions of the persons employed in an establishment and for matters connected therewith or incidental thereto. The OSH Code has subsumed several key pieces of legislation on the working conditions of labour and consolidated it into one comprehensive act, including, inter alia, the Contract Labour (Regulation and Abolition) Act, 1970, the Factories Act, 1948, etc.

**These codes shall become effective on the day that the Government shall notify for this purpose.*

ENVIRONMENTAL LAWS

The Environment Protection Act, 1986 and Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for co-ordination of the activities of various Central and State authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exists among water, air and land, and human beings and other living creatures such as plants, micro-organisms and property. Further, the Ministry of Environment and

Forests looks into Environment Impact Assessment. The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment which is assessed by the Ministry in detail before granting clearances for such proposed projects.

Water (Prevention & Control of Pollution) Act, 1974

The Water (Prevention & Control of Pollution) Act, 1974 (“Water Act”) provides for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water, for the establishment, with a view to carrying out the purposes aforesaid, of Boards for the prevention and control of water pollution, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Water Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into any water resources or on land/air and polluting thereby the environmental water/air is required to obtain consent.

Air (Prevention & Control of Pollution) Act, 1981

The Air (Prevention & Control of Pollution) Act, 1981 (“Air Act”) provide for the prevention, control and abatement of air pollution, for the establishment, with a view to carrying out the aforesaid purposes, of Boards, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Air Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into air and polluting thereby the environmental air is required to obtain consent.

TAX RELATED LAWS

The Income Tax Act, 1961

The IT Act is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of the IT Act or rules made thereunder depending upon its “Residential Status” and “Type of Income” involved. The IT Act provides for the taxation of persons resident in India on global income and persons not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every company assessable to income tax under the IT Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Advance Tax, and Minimum Alternative Tax and like. Every such company is also required to file its returns by September 30 of each assessment year.

Central Goods and Services Tax Act, 2017

The GST Act levies indirect tax throughout India to replace many taxes levied by the Central and State Governments. The GST Act was applicable from July 1, 2017 and combined the Central Excise Duty, Commercial Tax, Value Added Tax (VAT), Food Tax, Central Sales Tax (CST), Introit, Octroi, Entertainment Tax, Entry Tax, Purchase Tax, Luxury Tax, Advertisement Tax, Service Tax, Customs Duty, Surcharges. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India has adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state is levied with Central GST (CGST) by the Central Government and State GST (SGST) by the government of that state. For inter-state transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST is a consumption-based tax; therefore, taxes are paid to the state where the goods or services are consumed and not the state in which they were produced.

INTELLECTUAL PROPERTY LAWS

The Trade Marks Act, 1999

The Trade Marks Act, 1999 (“TM Act”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

FOREIGN INVESTMENT REGULATIONS

Foreign Exchange Management Act, 1999

Foreign investment in India is primarily governed by the provisions of the Foreign Exchange Management Act, 1999 (FEMA) and the rules, regulations and notifications thereunder, as issued by the Reserve Bank of India from time to time. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 by Notification No. FEMA. 395/2019-RB dated October 17, 2019 (FEMA Rules) to prohibit, restrict, or regulate transfer by or issue security to a person resident outside India. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the RBI. At present, the FDI Policy does not prescribe any cap on the foreign investments in the sector in which the Company operates. Therefore, foreign investment up to 100% is permitted in the Company under the automatic route.

FEMA Regulations

As laid down by the FEMA Regulations, no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2000 (‘FEMA Regulations’) to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India.

OTHER REGULATIONS

In addition to the above, the Company is required to comply with the provisions of the Companies Act, and other applicable statutes imposed by the Centre or the State for its day-to-day operations.

Municipality Laws

State governments are empowered to endow municipalities with such powers and authority as may be necessary to enable them to perform functions in relation to permitting the carrying on of trade and operations. Accordingly, State governments have enacted laws authorizing municipalities to regulate

use of premises, including regulations for issuance of a trade license to operate, along with prescribing penalties for non-compliance.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”) provides for the protection of women at work place and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs.50,000/- (Rupees Fifty Thousand Only).

Shops and Establishments Legislations

Under the provisions of local shops and establishments legislations applicable in different states, commercial establishments are required to be registered. Such legislations regulate the working and employment conditions of workers employed in shops and commercial establishments and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of shops and establishments and other rights and obligations of the employers and employees.

Fire Prevention Laws

State governments have enacted laws that provide for fire prevention and life safety. Such laws may be applicable to our offices and Training Centers and include provisions in relation to providing fire safety and life saving measures by occupiers of buildings, obtaining certification in relation to compliance with fire prevention and life safety measures and impose penalties for non-compliance.

Professional Tax

Professional tax is a state level tax which is imposed on income earned by way of profession, trade, calling or employment. At present, professional tax is imposed in Karnataka, Bihar, West Bengal, Andhra Pradesh, Telangana, Maharashtra, Tamil Nadu, Gujarat, Assam, Kerala, Meghalaya, Odisha, Tripura, Madhya Pradesh, and Sikkim.

The respective Board of Directors are also responsible for identifying and ensuring that the Group complies with the Act, the ICDR Regulations and the Guidance Note.

Auditor's Responsibilities

3. We have examined these Restated Consolidated Financial Statements taking into consideration:
 - a) Terms of reference and terms of our engagement agreed upon with the Company in accordance with our engagement letter dated **23rd June, 2023** in connection with the proposed IPO of equity shares by the Company.
 - b) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by ICAI as amended from time to time.
 - c) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Statements; and
 - d) The requirements of Section 26 of the Companies Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the proposed IPO of equity shares of the company.

4. These Restated Consolidated Financial Statements have been compiled by the management from:

Condensed Consolidated Interim Financial Statements of the Group for the period ended 30th September, 2023 and the Audited Consolidated Financial Statements for each of the years ended 31st March 2023, and 31 March 2021, and Audited Standalone Financial Statements for the year ended 31st March, 2022, prepared in accordance with the Accounting Standards as prescribed under Section 133 of the Companies Act read with Rule 7 of the Companies (Accounts) Rules, 2014, as amended, and other accounting principles generally accepted in India and which have been approved by the Board of Directors of the Company.

5. For the purpose of our examination, we have relied on:

Auditors' report issued by the then Statutory Auditors M/s. Rohan Thakkar & Co., Chartered Accountants (F. R. No. 130843W) dated 30th November, 2021 and 31st May, 2023 on the Consolidated Financial statements, respectively for the years ended 31st March, 2021 and 31st March, 2023, and dated 9th August, 2022 on the Standalone Financial Statements for the year ended 31st March, 2022.

Auditors' report issued by the present Statutory Auditors M/s. Mistry & Shah, Chartered Accountants (F. R. No. W100683) dated 14th December, 2023 on the Consolidated Financial statements for the period ended 30th September, 2023.

6. The audit reports on the Consolidated Financial Statements as mentioned in paragraph 5 above issued by the respective statutory auditors are unmodified (in opinion).
7. Based on our examination and according to information and explanations given to us, we are of the opinion that the Restated Consolidated Financial Statements:
 - a. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping / reclassifications to reflect same accounting treatment as per the

accounting policies and grouping/classification as at and for the six months period ended September 30, 2023.

- b. do not require any adjustment for modification as there is no modification in the underlying audit reports;
- c. have no extra-ordinary items that need to be disclosed separately in the accounts and requiring adjustments.
- d. have been prepared in accordance with the Act, ICDR Regulations and Guidance Note.

Except for the fact that the statutory audited consolidated financial statements for the year ended 31st March, 2021 were prepared by adding line by line item of the Statement of Profit & Loss of the Subsidiary Company for the entire financial year and thereby deriving pre-acquisition profits, instead of adding line by line item of the Statement of Profit & Loss for the relevant post-acquisition period only.

However, the restated consolidated financial statements for the year ended 31st March, 2021 have been prepared by adding line by line item of the Statement of Profit & Loss of the Subsidiary Company for the relevant post-acquisition period. However, due care is taken and appropriate required adjustments are made for preparation of balance sheet of the Subsidiary Company, on the date of acquisition for the purpose of consolidation.

- 8. Based on our examination and according to the information and explanations given to us, we report that:

- a) The “**Restated Summary Statement of Assets and Liabilities**” as set out in **Annexure I** to this report, of the Company as at 30th September, 2023, 31st March, 2023, 31st March, 2022 and 31st March, 2021 are prepared by the Company and approved by the Board of Directors. These Restated Summary Statement of Assets and Liabilities, have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more. These fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV** to this Report.
- b) The “**Restated Summary Statement of Profit and Loss**” as set out in **Annexure II** to this report, of the Company for the period ended 30th September, 2023 and for the years ended 31st March, 2023, 31st March, 2022 and 31st March, 2021 respectively are prepared by the Company and approved by the Board of Directors. These Restated Summary Statement of Profit and Loss have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV** to this Report.
- c) The “**Restated Summary Statement of Cash Flow**” as set out in **Annexure III** to this report, of the Company for the period ended 30th September, 2023 and for the years ended 31st March, 2023, 31st March, 2022 and 31st March, 2021 respectively are prepared by the Company and approved by the Board of Directors. These Restated Summary Statement of Cash Flow have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in **Annexure IV** to this Report.
- d) These Restated Consolidated Financial Statements have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note.
- e) These Restated Consolidated Financial Statements have been prepared after incorporating material re-groupings / re-classifications retrospectively in respective financial period/years to reflect the same accounting treatment as per the changed accounting policy for all reporting periods, if any.
- f) The Restated Summary Statements have been made after incorporating adjustments for prior period and other material amounts in the respective financial years/period to which they relate, if any and there are no qualifications which require adjustments.

I SIGNIFICANT ACCOUNTING POLICIES:

Basis of preparation of Consolidated Financial Statements

These Consolidated financial statements as restated are prepared under the historical cost basis of accounting and evaluated on a going concern basis, with revenues and expenses accounted for on their accrual to comply in all material aspects with the applicable accounting principles and applicable Accounting Standards notified under section 133 of the Companies Act 2013, read with Companies (Accounting Standards) Rules, as amended from time to time and the relevant provisions of the Companies Act, 2013, as applicable. The accounting policies have been consistently applied by the Company; and the accounting policies not referred to otherwise, are in conformity with Indian Generally Accepted Accounting Principles (Indian GAAP). The accounting policies adopted in the preparation of consolidated financial statements are consistent with those of previous year.

The Consolidated Financial Statements for the period ended 30th September, 2023 and for the years ended 31st March, 2023 and 2021 have been prepared in accordance with Schedule III of the Companies Act, 2013. For the purpose of inclusion in the offer document, audited consolidated financial statements are prepared in accordance with Schedule III of the Companies Act, 2013. The adoption of Schedule III of the Companies Act, 2013 do not impact recognition and measurement principles followed for preparation of financial statements. However, adoption of Schedule III of the Companies Act, 2013 has significant impact on presentation and disclosures made in the financial statements for these years.

Principles of Consolidation

a. The Consolidated Financial Statements are prepared in accordance with principles and procedures required for preparation and presentation of Consolidated Financial Statements as laid down under Accounting Standard 21 "Consolidated Financial Statements". The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

b. The Financial Statements of the Subsidiary Companies are being consolidated based on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances / transactions and resulting unrealized profits or losses, if any. Both the financial statements have been drawn upto the same reporting date as that of the company.

c. As per the shareholding of Subsidiary Company, the company has differential ownership rights in the assets and liabilities of the Subsidiary Company. Adjustment to the interest arising due to change in assets and liabilities are adjusted to capital reserve and minority interest of the Group.

d. The excess / shortfall of cost to the Parent Company of its investment over its share of equity in the consolidated subsidiary companies at the respective dates on which the investment in such companies were made is recognized as goodwill / capital reserve in the consolidated financial statements.

SAHAJ SOLAR LIMITED

e. Minority interest in the net assets of consolidated subsidiary companies consists of the amount of equity attributable to the minority shareholders at the date on which investments in the subsidiary companies were made and further movement in their share in the equity, subsequent to the dates of investments. Net profit for the period of subsidiary companies attributable to the minority interest is identified and adjusted against the profit after tax of the group in order to arrive at the income attributable to shareholders of the Company.

f. Following Subsidiary Companies have been considered as part of the Group in the preparation of Consolidated Financial Statements.

Use of estimates

The preparation of consolidated financial statements require estimates and assumptions to be made that affect the reported balances of assets as on the date of the consolidated financial statements and the reported amount of revenues and expenses during the reporting period. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as and when the Management becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates, if any, are reflected in the financial statements in the period in which the changes are made and if material, their effects are disclosed in the notes to the consolidated financial statements.

These financial statements are presented in Indian Rupees (INR) which is the Company's functional and presentation currency. All amounts disclosed in the Restated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

The following significant accounting policies are adopted in the preparation and presentation of these consolidated financial statements:

1 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Sales of Goods (including ancillary services):

Sales are recognized when significant risks and rewards of ownership of goods have been passed to the buyer. Purchases & Sales are recorded net of duties & taxes. Sale of Goods includes provision of ancillary services also. In case of supply of goods along with 'warranty provision' for a period which is beyond the balance sheet date, the company defers recognition of revenue for which service portion is covered over the period which is beyond the balance sheet date and recognizes the same evenly over the time period to which it relates. The 'deferred income' disclosed in Annexure Q represents the recognition of revenue for which supply of goods has taken place in earlier periods.

SAHAJ SOLAR LIMITED**Sale of Services:**

Revenue in case of sale of services is recognized on completion of provision of services and when right to receive the same is also established.

Other Operating Revenue:

Other Operating Revenue comprises of Project Accrued Revenue (i.e. Unbilled Revenue) recognized on accrual basis as all the work related to the said revenue has been executed as on the respective year end, only the issuance of invoice is being done in next financial year, on achievement of project milestone. In the opinion of the management of the company, there does not exist any uncertainty as to the realizability of the same.

Interest:

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Gain on Disposal of Investments / Property, Plant & Equipments:

Gain (Net of losses) on Disposal of Investments / PPE is recognized as the difference between the sale price (net of selling costs) and carrying value of said investments / PPE, in the year in which the same is disposed off.

Other Income:

Other Income comprising of Bad Debts recovered, sundry credit balances written back and other miscellaneous income, recognized on accrual basis and when right to receive the same is established.

2 a) Property, Plant & Equipments (PPE)

An item of Property, Plant & Equipments is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the company and its cost can be measured reliably. Gross PPE are stated at cost of acquisition including incidental expenses relating to acquisition and installation and net of input tax credits, less accumulated depreciation and impairment loss, if any. Cost includes all expenses incurred to bring the asset to its working condition and current location for its intended use. Borrowing cost incurred, if any, during the period of construction is capitalized as part of cost of qualifying asset.

b) Intangible Assets

Intangible assets comprises of Software Costs and the same are recognized an asset if it is probable that future economic benefits associated with the item will flow to the company and its cost can be measured reliably. Intangible Assets are measured initially at purchase cost of acquisition including incidental expenses, if any, net of input tax credits. Intangible Assets are amortized as per written down value method over their estimated useful lives.

3 Depreciation

Depreciation on fixed assets is provided on Written Down Value Method (WDV) at the rates arrived at on the basis of useful life / remaining useful life and in the manner as prescribed in, Part C, Schedule II of the Companies Act, 2013.

The details of useful life of an asset and its residual value are as follows:-

 Holding and Subsidiary Companies

Type of Asset	Useful Life as per Schedule II	Rates as per Schedule II
Factory Building	30 Years	9.50%
Plant & Machineries	15 Years	18.10%
Electrical Fittings	10 Years	25.89%
Vehicles	8 Years	31.23%
Furniture & Fixtures	10 Years	25.89%
Air Conditioner	10 Years	25.89%
Office Equipments	5 Years	45.07%
Mobile	5 Years	45.07%
Computers, Desktops, Laptops	3 Years	63.16%
Software (Intangible Assets)	10 Years	25.89%

Useful life of Intangible Assets is being taken at 10 Years based on technical evaluation done by the management.

In none of the case the residual value of an asset is more than five per cent of the original cost of the asset

4 Inventories

Inventories of Raw Materials are stated at cost, Semi-Finished Goods and Finished Goods are stated at cost or net realizable value, whichever is lower. Cost comprises all cost of purchase, cost of conversion and other costs which are being incurred in bringing the inventories to their present location and condition. Cost formula used is 'FIFO basis'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Company.

SAHAJ SOLAR LIMITED

5 Retirement Benefits & Other Employee benefits

Defined-contribution plans:

Defined contribution to provident fund (PF) & employee state insurance (ESI) is charged to the profit and loss account on accrual basis.

Defined-benefit plans:

Provision for gratuity liability is provided based on actuarial valuation made covering all the period.

The company is not required to provide for leave encashment as generally, the employees have utilized their respective leave entitlements. Any unutilized leave balance gets lapsed after the year end, as per policy of the company.

Bonus expenditure is charged to profit and loss account on accrual basis.

6 Foreign exchange transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

All monetary items denominated in foreign currency outstanding at the balance sheet date are translated at the exchange rate prevailing on that date and the net gain or loss is recognized in the profit and loss account.

7 Lease accounting

Operating Leases: Assets acquired on lease where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating lease. Lease rentals on assets taken on operating lease are recognized as an expense in the statement of profit and loss. Initial direct cost in respect of the lease acquired are expensed out in the year in which such costs are incurred.

8 Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

9 Taxes on income

Tax expenses comprise Current Tax and deferred tax charge or credit.

Current tax -Provision for current tax is made based on tax liability computed after considering tax allowances and exemptions, in accordance with the provisions of The Income Tax Act, 1961.

Deferred tax -Deferred tax assets and liability is recognized, on timing differences, being the differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets arising mainly on account of brought forward losses, unabsorbed depreciation and minimum alternate tax under tax laws, are recognized, only if there is a virtual certainty of its realization, supported by convincing evidence. At each Balance Sheet date, the carrying amount of deferred tax assets are reviewed to reassure realization. The deferred tax asset and deferred tax liability is calculated by applying tax rate and tax laws that have been enacted or substantively enacted by the Balance Sheet date.

10 Earnings per share:

Basic earnings/(loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year.

SAHAJ SOLAR LIMITED**11 Provisions and contingent liabilities**

A provision is recognized when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the consolidated financial statements.

Contingent liabilities are disclosed by way of notes to the accounts.

Contingent assets are not recognized.

12 Cash & Cash Equivalents and Cash Flow Statement

Cash and cash equivalents in the cash flow statement comprise cash at bank & cash on hand.

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

13 Segment Reporting

In accordance with Accounting Standard-17 – “Segment Reporting” issued by the Institute of Chartered Accountants of India, the Company has identified its business segment as "Manufacturing & Supply of Solar Panels and allied products". There are no other primary reportable segments. The major and material activities of the company are restricted to only one geographical segment i.e. India, hence the secondary segment disclosures are also not applicable.

16 Material Adjustments

Appropriate adjustments have been made in the restated consolidated financial statements, whenever required, by reclassification of the corresponding items of assets, liabilities and cash flow statement, in order to ensure consistency and compliance with requirement of Schedule III and Accounting Standards.

17A Reconciliation of Opening Reserves & Surplus as on 1st April, 2020**a. Adjustment of Interest on FD of earlier years**

In FY 22-23, interest income related to the period prior to FY 20-21 was booked as prior period interest income. The same is adjusted in opening reserves and surplus.

b. Adjustment of Depreciation on Electric Fittings

On 19.07.2017 (i.e., in the FY 2017-18), an amount of Rs 24.41 Lacs was paid to the Electricity Company towards Electrification, however, inadvertently, the same has been shown as Electricity Deposit. The same has been corrected during the year FY 2022-23 by making addition of the said amount in the Electrical Fittings. Consequently, depreciation related to the period prior to FY 20-21 being Rs 13.43 Lacs being prior period expense i.e., for the years 2017-18 to 2019-20 is adjusted in opening reserves as on 1st April 2020.

c. Adjustment of Deferred Tax Provision

In FY 19-20, provision for deferred tax was made with the amount of closing balance of deferred tax, correct effect of which is given in opening balance of surplus in statement of profit and loss. Change in Deferred Tax Provision also on account of adjustment of depreciation related to prior year restated in opening reserves.

d. Adjustment of Income Tax Provision

Adjustment in Income Tax Provision is on account of adjustment of depreciation related to prior years restated in opening reserves and also on account of provision for income tax is made with rounded off amount In FY 18-19 and FY 19-20 in audited financial statements, while in restated financial statements, the provision for income tax is made at actual amount, cumulative effect of which is given in opening balance of surplus in statement of profit and loss.

NOTE ON RESTATEMENTS :-**1. Adjustment of Interest Income on Fixed Deposits**

In FY 22-23, interest income related to the period prior to FY 20-21 was booked as prior period interest income. The same is adjusted in opening reserves and surplus.

2. Adjustment of Depreciation

On 19.07.2017 (i.e., in the FY 2017-18), an amount of Rs 24.41 Lacs was paid to the Electricity Company towards Electrification, however, inadvertently, the same has been shown as Electricity Deposit. The same has been corrected during the year FY 2022-23 by making addition of the said amount in the Electrical Fittings. Consequently, depreciation related to the period prior to FY 20-21 being Rs 13.43 Lacs being prior period expense i.e., for the years 2017-18 to 2019-20 is adjusted in opening reserves as on 1st April 2020, Rs. 2.11 Lacs and Rs. 2.84 Lacs respectively booked in FY 21-22 & FY 20-21, thereby totaling to Rs. 18.38 lacs being depreciation related to prior years added back in restated financial statements in FY 22-23.

3. Restatement of Prior Period Expenses

Refreshment expenses incurred by an employee and also reimbursed in 2021-22 but accounted for in 2022-23. The same has been recorded in FY 21-22 in restated financial statements under Employee Benefit Expenses.

4. Adjustment of Deferred Tax Provision

In FY 19-20, provision for deferred tax was made with the amount of closing balance of deferred tax, correct effect of which is given in opening balance of surplus in statement of profit and loss. Change in Deferred Tax Provision also on account of adjustment of depreciation related to prior year restated in opening reserves as well as in respective FY 20-21 & FY 21-22

5. Adjustment of Income Tax Provision

Adjustment of IT Provision is on account of restated taxable income arrived at after giving effect of above mentioned material adjustments and as per normal rules of income tax provision. Also, provision for income tax is made with rounded off amount in audited financial statements, while in restated financial statements, the provision for income tax is made at actual amount.

SAHAJ SOLAR LIMITED**6. Post acquisition share in profit of subsidiary for FY 20-21 and FY 22-23**

Shares in Subsidiary Company 1 were acquired on 25th July, 2020 and the consolidated financial statements for the year ended 31st March, 2021 were prepared by adding line by line item of the Statement of Profit & Loss for the entire financial year and thereby deriving pre-acquisition profits, instead of adding line by line item of the Statement of Profit & Loss for the relevant post-acquisition period only. Further no any gratuity provision were made in the books of Subsidiary Company in FY 20-21, whereas the same is provided for in Restated Financial Statements. Combined net effect of the same is mentioned herein above statement of material adjustments. Further, Net Assets Value as on date of acquisition is being derived at after incorporating all the applicable effects like depreciation, income tax provision, deferred tax provision, gratuity provision, interest income receivable, provision for expenses, etc. in restated financial statements. This results in difference in share in post acquisition profits of subsidiaries and also in capital reserve on the date of acquisition, between audited financial statements and restated financial statements.

For FY 21-22, share in profit of subsidiary company 1 till the date of transfer of shares is being considered herein above table of material adjustments so as to arrive at restated consolidated profits for FY 21-22

7. Difference in Share in Profit to Minority Interest

This is mainly on account of difference in Deferred Tax Assets created in Restated and Audited Financial Statements. DTA in restated financial statements is created on total losses carried forward as per income tax, whereas DTA in audited financial statements is created only on net preliminary expenses as per income tax.

17B Material Regrouping in Restated Consolidated Financial Statements

Additional disclosure of material regrouping is not prepared in consolidated financial statements looking to the fact that;

- Variations between Consolidated Profits as per Statutory Audited Consolidated Financial Statements and Restated Consolidated Financial Statements are non-material.
- Variations between Consolidated Reserves as per Statutory Audited Consolidated Financial Statements and Restated Consolidated Financial Statements are non-material.
- Standalone Restated Financial Statements presented herein before contains entire material regrouping alongwith reconciliation of profits and reserves.
- Composition of Group is different in every year (i.e. number of companies being consolidated and period of holding are different in each year for the period under review), thereby making it non-comparable.
- Consolidated Financial Statements for FY 21-22 were not prepared by the company, looking to the fact that as on 31st March, 2022, the Statement of Assets & Liabilities represents as a Standalone basis only.

I SIGNIFICANT ACCOUNTING POLICIES:

Basis of preparation of Standalone Financial Statements

These Standalone financial statements as restated are prepared under the historical cost basis of accounting and evaluated on a going concern basis, with revenues and expenses accounted for on their accrual to comply in all material aspects with the applicable accounting principles and applicable Accounting Standards notified under section 133 of the Companies Act 2013, read with Companies (Accounting Standards) Rules, as amended from time to time and the relevant provisions of the Companies Act, 2013, as applicable. The accounting policies have been consistently applied by the Company; and the accounting policies not referred to otherwise, are in conformity with Indian Generally Accepted Accounting Principles ('Indian GAAP'). The accounting policies adopted in the preparation of standalone financial statements are consistent with those of previous year.

The Standalone Financial Statements for the year ended 31st March, 2023, 2022 and 2021 have been prepared in accordance with Schedule III of the Companies Act, 2013. For the purpose of inclusion in the offer document, audited standalone financial statements are prepared in accordance with Schedule III of the Companies Act, 2013. The adoption of Schedule III of the Companies Act, 2013 do not impact recognition and measurement principles followed for preparation of financial statements. However, adoption of Schedule III of the Companies Act, 2013 has significant impact on presentation and disclosures made in the financial statements for these years.

Use of estimates

The preparation of standalone financial statements require estimates and assumptions to be made that affect the reported balances of assets as on the date of the standalone financial statements and the reported amount of revenues and expenses during the reporting period. Accounting estimates could change from period to period. Actual results could differ from these estimates. Appropriate changes in estimates are made as and when the Management becomes aware of the changes in the circumstances surrounding the estimates. Changes in estimates, if any, are reflected in the financial statements in the period in which the changes are made and if material, their effects are disclosed in the notes to the standalone financial statements.

These financial statements are presented in Indian Rupees (INR) which is the Company's functional and presentation currency. All amounts disclosed in the Restated financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

The following significant accounting policies are adopted in the preparation and presentation of these standalone financial statements:

1 Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

SAHAJ SOLAR LIMITED**Sales of Goods (including ancillary services):**

Sales are recognized when significant risks and rewards of ownership of goods have been passed to the buyer. Purchases & Sales are recorded net of duties & taxes. Sale of Goods includes provision of ancillary services also. In case of supply of goods along with 'warranty provision' for a period which is beyond the balance sheet date, the company defers recognition of revenue for which service portion is covered over the period which is beyond the balance sheet date and recognizes the same evenly over the time period to which it relates. The 'deferred income' disclosed in Annexure R represents the recognition of revenue for which supply of goods has taken place in earlier periods.

Other Operating Revenue:

Other Operating Revenue comprises of Project Accrued Revenue (i.e. Unbilled Revenue) recognized on accrual basis as all the work related to the said revenue has been executed as on the respective year end, only the issuance of invoice is being done in next financial year, on achievement of project milestone. In the opinion of the management of the company, there does not exist any uncertainty as to the realizability of the same.

Interest:

Revenue is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.

Gain on Disposal of Investments / Property, Plant & Equipments:

Gain (Net of losses) on Disposal of Investments / PPE is recognized as the difference between the sale price (net of selling costs) and carrying value of said investments / PPE, in the year in which the same is disposed off.

Other Income:

Other Income comprising of Bad Debts recovered, sundry credit balances written back and other miscellaneous income, recognized on accrual basis and when right to receive the same is established.

2 a) Property, Plant & Equipments (PPE)

An item of Property, Plant & Equipments is recognized as an asset if it is probable that future economic benefits associated with the item will flow to the company and its cost can be measured reliably. Gross PPE are stated at cost of acquisition including incidental expenses relating to acquisition and installation and net of input tax credits, less accumulated depreciation and impairment loss, if any. Cost includes all expenses incurred to bring the asset to its working condition and current location for its intended use. Borrowing cost incurred, if any, during the period of construction is capitalized as part of cost of qualifying asset.

b) Intangible Assets

Intangible assets comprises of Software Costs and the same are recognized an asset if it is probable that future economic benefits associated with the item will flow to the company and its cost can be measured reliably. Intangible Assets are measured initially at purchase cost of acquisition including incidental expenses, if any, net of input tax credits. Intangible Assets are amortized as per written down value method over their estimated useful lives.

3 Depreciation

Depreciation on fixed assets is provided on Written Down Value Method (WDV) at the rates arrived at on the basis of useful life / remaining useful life and in the manner as prescribed in, Part C, Schedule II of the Companies Act, 2013.

The details of useful life of an asset and its residual value are as follows:-

Type of Asset	Useful Life as per Schedule II	Rates as per Schedule II
Factory Building	30 Years	9.50%
Plant & Machineries	15 Years	18.10%
Electrical Fittings	10 Years	25.89%
Vehicles	8 Years	31.23%
Furniture & Fixtures	10 Years	25.89%
Air Conditioner	10 Years	25.89%
Office Equipments	5 Years	45.07%
Mobile	5 Years	45.07%
Computers, Desktops, Laptops	3 Years	63.16%
Software (Intangible Assets)	10 Years	25.89%

Useful life of Intangible Assets is being taken at 10 Years based on technical evaluation done by the management.

In none of the case the residual value of an asset is more than five per cent of the original cost of the asset

4 Investments

Non-Current Investments comprises of Investment Equity Shares of Subsidiary Companies and are stated at cost. A provision for diminution in the value of Investments is made for each investment individually if such decline is other than temporary. On disposal of investments, the difference between its net disposal proceeds and its carrying amount is recognised in the statement of profit and loss.

SAHAJ SOLAR LIMITED**5 Inventories**

Inventories of Raw Materials are stated at cost, Semi-Finished Goods and Finished Goods are stated at cost or net realizable value, whichever is lower. Cost comprises all cost of purchase, cost of conversion and other costs which are being incurred in bringing the inventories to their present location and condition. Cost formula used is 'FIFO basis'. Due allowance is estimated and made for defective and obsolete items, wherever necessary, based on the past experience of the Company.

6 Retirement Benefits & Other Employee benefits**Defined-contribution plans:**

Defined contribution to provident fund (PF) & employee state insurance (ESI) is charged to the profit and loss account on accrual basis.

Defined-benefit plans:

Provision for gratuity liability is provided based on actuarial valuation made covering all the period.

The company is not required to provide for leave encashment as generally, the employees have utilized their respective leave entitlements. Any unutilized leave balance gets lapsed after the year end, as per policy of the company.

Bonus expenditure is charged to profit and loss account on accrual basis.

7 Foreign exchange transactions

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.

All monetary items denominated in foreign currency outstanding at the balance sheet date are translated at the exchange rate prevailing on that date and the net gain or loss is recognized in the profit and loss account.

8 Lease accounting

Operating Leases: Assets acquired on lease where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating lease. Lease rentals on assets taken on operating lease are recognized as an expense in the statement of profit and loss. Initial direct cost in respect of the lease acquired are expensed out in the year in which such costs are incurred.

9 Borrowing costs

Borrowing costs that are directly attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset till such time the asset is ready for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use. Costs incurred in raising funds are amortized equally over the period for which the funds are acquired. All other borrowing costs are charged to profit and loss account.

10 Taxes on income

Tax expenses comprise Current Tax and deferred tax charge or credit.

Current tax -Provision for current tax is made based on tax liability computed after considering tax allowances and exemptions, in accordance with the provisions of The Income Tax Act, 1961.

Deferred tax -Deferred tax assets and liability is recognized, on timing differences, being the differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets arising mainly on account of brought forward losses, unabsorbed depreciation and minimum alternate tax under tax laws, are recognized, only if there is a virtual certainty of its realization, supported by convincing evidence. At each Balance Sheet date, the carrying amount of deferred tax assets are reviewed to reassure realization. The deferred tax asset and deferred tax liability is calculated by applying tax rate and tax laws that have been enacted or substantively enacted by the Balance Sheet date.

11 Earnings per share:

Basic earnings/(loss) per share are calculated by dividing the net profit / (loss) for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for any bonus shares issued during the year.

SAHAJ SOLAR LIMITED**12 Provisions and contingent liabilities**

A provision is recognized when the company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on best estimates required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the standalone financial statements.

Contingent liabilities are disclosed by way of notes to the accounts.

Contingent assets are not recognized.

14 Cash & Cash Equivalents and Cash Flow Statement

Cash and cash equivalents in the cash flow statement comprise cash at bank & cash on hand.

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

15 Segment Reporting

In accordance with Accounting Standard-17 – “Segment Reporting” issued by the Institute of Chartered Accountants of India, the Company has identified its business segment as “Manufacturing & Supply of Solar Panels and allied products”. There are no other primary reportable segments. The major and material activities of the company are restricted to only one geographical segment i.e. India, hence the secondary segment disclosures are also not applicable.

II NOTES TO RESTATED SUMMARY STATEMENTS:

The Standalone financial statements as restated for the year ended 31st March, 2023, 2022 and 2021, including financial information have been prepared after making such regroupings and adjustments, considered appropriate to comply with the same. As result of these regroupings and adjustments, the amount reported in the financial statements/information may not necessarily be same as those appearing in the respective audited financial statements for the relevant years.

1 Contingent liabilities and commitments (to the extent not provided for)

A disclosure for a contingent liability is also made when there is a possible obligation that may, require an outflow of the Company's resources. Refer Annexure X for the details related to contingent liabilities.

16 Material Adjustments

Appropriate adjustments have been made in the restated standalone financial statements, whenever required, by reclassification of the corresponding items of assets, liabilities and cash flow statement, in order to ensure consistency and compliance with requirement of Schedule III and Accounting Standards.

17A Reconciliation of Opening Reserves & Surplus as on 1st April, 2020**a. Adjustment of Interest on FD of earlier years**

In FY 22-23, interest income related to the period prior to FY 20-21 was booked as prior period interest income. The same is adjusted in opening reserves and surplus.

SAHAJ SOLAR LIMITED**b. Adjustment of Depreciation on Electric Fittings**

On 19.07.2017 (i.e., in the FY 2017-18), an amount of Rs 24.41 Lacs was paid to the Electricity Company towards Electrification, however, inadvertently, the same has been shown as Electricity Deposit. The same has been corrected during the year FY 2022-23 by making addition of the said amount in the Electrical Fittings. Consequently, depreciation related to the period prior to FY 20-21 being Rs 13.43 Lacs being prior period expense i.e., for the years 2017-18 to 2019-20 is adjusted in opening reserves as on 1st April 2020.

c. Adjustment of Deferred Tax Provision

In FY 19-20, provision for deferred tax was made with the amount of closing balance of deferred tax, correct effect of which is given in opening balance of surplus in statement of profit and loss. Change in Deferred Tax Provision also on account of adjustment of depreciation related to prior year restated in opening reserves.

d. Adjustment of Income Tax Provision

Adjustment in Income Tax Provision is on account of adjustment of depreciation related to prior years restated in opening reserves and also on account of provision for income tax is made with rounded off amount In FY 18-19 and FY 19-20 in audited financial statements, while in restated financial statements, the provision for income tax is made at actual amount, cumulative effect of which is given in opening balance of surplus in statement of profit and loss.

Earnings before interest, tax, depreciation and amortization (EBITDA) (<i>₹ in lakhs</i>)	459.21	1,181.73	442.08	327.43

[^]Not Annualised

Notes

The ratios on the basis of Restated Financial Statements have been computed as below:

Basic and Diluted Earnings per share (₹)	Net profit/(loss) as restated, attributable to Shareholders divided by Weighted average number of Equity Shares outstanding during the year
Return on Net Worth (%)	Restated net profit after tax for the year attributable to the owners of the Company divided by Restated Net worth of the Company
Net Asset Value per Equity Share	Restated Net worth of the Company divided Number of Equity shares outstanding at the end of period/year
EBITDA	Restated profit/(loss) after tax for the respective Fiscal plus tax expenses plus finance costs plus depreciation and amortization

Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year. Further, number of shares are after considering impact of the bonus shares

Net worth as per the SEBI ICDR Regulations means the aggregate value of the paid-up share capital and all reserves created out of the profits and securities premium account and debit or credit balance of profit and loss account, after deducting the aggregate value of the accumulated losses, deferred expenditure and miscellaneous expenditure not written off, as per the audited balance sheet, but does not include reserves created out of revaluation of assets, write-back of depreciation and amalgamation.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

You should read the following discussion of our financial condition and results of operations together with our restated financial information as of for the six months period ended Sept 30, 2023 and for the financial year ended March 31, 2023, 2022 and 2021, all prepared in accordance with the Companies Act and Indian GAAP and restated in accordance with the SEBI ICDR Regulations, including the schedules, annexures and notes thereto and the reports thereon, included in the section titled '**Financial Information**' beginning on page 206 of this Draft Red Herring Prospectus. Unless otherwise stated, the financial information used in this section is derived from the restated financial statements of our Company.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those set forth in the sections titled '**Forward Looking Statements**' and '**Risk Factors**' beginning on page 23 and 34 respectively, of this Draft Red Herring Prospectus.

These financial statements have been prepared in accordance with Indian GAAP and the Companies Act. Indian GAAP differs in certain significant respects from U.S. GAAP, IFRS and Ind AS. We have neither attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Draft Red Herring Prospectus nor do we provide a reconciliation of our financial statements to those under U.S. GAAP or IFRS or Ind AS. Accordingly, the degree to which the Indian GAAP financial statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with the Companies Act, Indian GAAP and the SEBI ICDR Regulations. Any reliance on the financial disclosure in this Draft Red Herring Prospectus, by persons not familiar with Indian Accounting Practices, should accordingly be limited.

OVERVIEW OF OUR BUSINESS

Our company is a Solar Solutions providing company having experience of almost one decade in majority of the verticals of renewable power generation. We are a manufacturing as well as a service provider company which gives us an edge in the solar power market. We are engaged in three businesses of PV Module manufacturing, providing solar pumping systems and providing EPC Services.

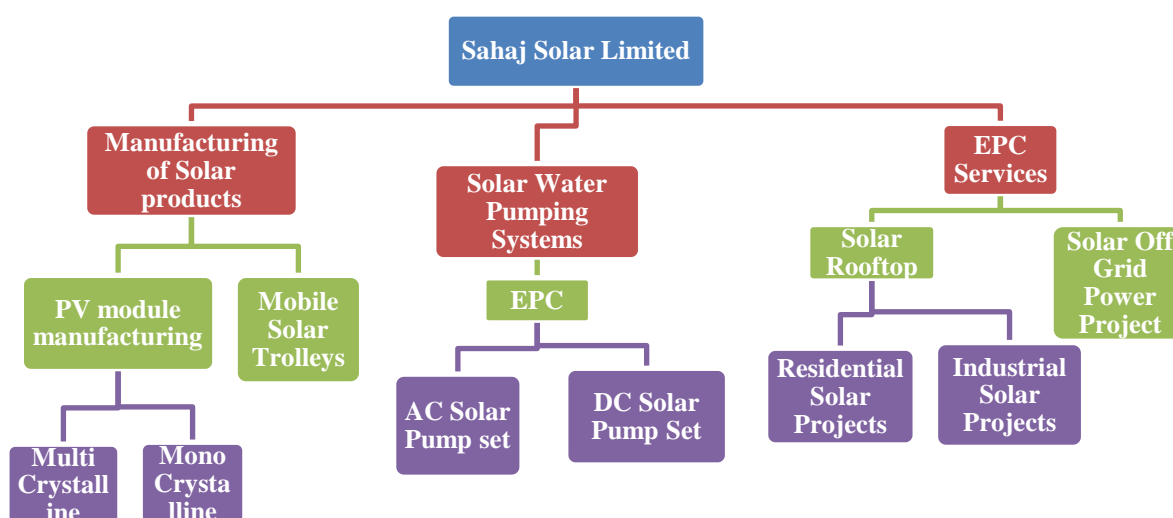

First being PV Module manufacturing, for which our company has a PV module manufacturing plant having a capacity of 100 MWs at our plant in Bavla, Ahmedabad, Gujarat, India on a land admeasuring approximately 2,883.77 square metres; having a construction of 2445.5 square metres comprising of factory as well as office premises enabling the company to deliver quality and affordable solar panels to its customers. Our Company's automated production facility offers mono & poly crystalline PV Modules for various solar projects across India and abroad. The plant is an integrated manufacturing facility for PV modules. Apart from polycrystalline module, the facility manufactures Mono PERC (Passivated Emitter and Rear Contact) module, with not less than 21% and higher efficiency also. To enhance efficiency and brand positioning, we use Crystalline Photovoltaic Technology for manufacturing Solar PV Modules. Our plant has the capacity to manufacture customized size PV modules. Our Company has built a reputation for solar PV modules and is sold under the brand name of '**SAHAJ**'. We strive to deliver reliable solar solutions through our products and we achieve this majorly through our streamlined PV module manufacturing line and comprehensive EPC solutions.

Secondly, our company is engaged in providing solar water pumping systems. A solar water pump is an application of Solar PV System which converts solar energy into electricity to run motor and pump. The motor energized by solar power delivers water out of bore well, river, lake or pond. The key components of solar water pumping system is solar panel which is manufactured by our company. The second important component of the solar water pumping system is the module mounting structure (MMS) is manufactured by Veracity Energy and Infrastructure Private Limited (one of our subsidiary company). The controller for solar water pumping system is designed by Veracity Powertronics Private Limited (one of our subsidiary company). These components comprise of more than 70% of the total system cost. The balance components of the solar water pumping system are being outsourced. As a part of the Central Government’s initiative to increase farmers’ income, the Ministry of New and Renewable Energy (MNRE) has launched the Pradhan Mantri Kisan Urja Suraksha evam Utthan Mahabhiyan (PM KUSUM) Scheme for farmers for installation of solar pumps and grid connected solar and other renewable power plants in the country. Through this scheme, more than 20 lakh farmers (MNRE PM KUSUM scheme) will benefit with standalone solar water pumping system which will enable them to produce crops in multiple seasons and thereby increase their incomes. The standalone solar water pump has provided the farmers with the opportunity to work independent of grid power.

Our company also designs and customizes solar mobile trolleys for the usage in rural and remote areas as and when required to produce electricity for solar water pumping, for off grid power and to run other utilities by producing electricity on the move.

Thirdly, our Company being an integrated solar energy solutions provider, also offers engineering, procurement, and construction (“EPC”) services to our customers. Our EPC services include design, supply, installation, testing, commissioning and maintaining of all sizes of projects ranging from simple domestic solar installation to setting up a large scale Solar Power Plant.

Our Company adheres to accepted industry product accreditations. Our Company has obtained certifications such as MNRE registered company, ISO 9001:2015, ISO 14001:2015, ISO 45000:2018, CE – 2010, IS 14286/ IEC 61215; 2005, IS/IEC 61730 – 1;2004, IS/IEC 61730-2;2004, IEC TS 62804-1, and IEC 61701 : 2011.

Under our company, we have three subsidiaries as follow;

- 1. Veracity Energy and Infrastructure Private Limited (“VEIPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated on December 20, 2012. The registered office of the company is situated at Office No. 301,

Ashirvad Paras, Opp. Prahladnagar Garden, Satellite, Ahmedabad – 380051. The Corporate Identification Number of the company U40106GJ2012PTC073056. VEIPL is engaged in the business of assembling and manufacturing of Solar Modules' mounting structure and other structure related manufacturing activities. As on date our Company holds 80% equity stake in VEIPL.

- 2. Veracity Powertronics Private Limited (“VPPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 1956 vide Certificate of Incorporation dated on January 01, 2013. The registered office of the company is situated at Office No. 301, Ashirvad Paras, Opp. Prahladnagar Garden, Satellite, Ahmedabad – 380051. The Corporate Identification Number of the company U74140GJ2013PTC073203. VPPL is engaged in the business of assembling and trading of Solar water pump, motor and controller. As on date our Company holds 80% equity stake in VPPL.
- 3. Sustainable Plant Green Energies Private Limited (“SPGEPL”)** was incorporated as a Private limited company under the provisions of the Companies Act, 2013 vide Certificate of Incorporation dated on April 29, 2023. The registered office of the company is situated at 301- Plot No- 9, Sur No- 913 TP No 25, Aashirwad, Opp. Krashna Bunglows, Prahalad Nagar, Nr. AUDA Gardan, And Nagar Road, Vejalpur, Ahmedabad – 380051. The Corporate Identification Number of the company U27104GJ2023PTC140657. SPGEPL is exploring the opportunities for hydro power projects and utilities in power plant projects. As on date our Company holds 51% equity stake in SPGEPL.

We have established a geographically diversified presence in India. Our local presence backed with our track record makes us capable of coping up the pace of this growing market. In India, we have developed a decent client base purchasing our solar PV modules, solar water pumping systems and EPC services. Also the remote monitoring system provided by us helps the clients to monitor performance and take pre-emptive measures. Our customer base includes government projects as well as private projects.

Our key domestic customers are divided as below: -

a) Government Customers

MGVCL, DGVCL, PGVCL, GEDA, HAREDA, MEDA, Maharashtra State Electricity Distribution co. Ltd.

b) Private Customers

Mahindra Susten Private Limited, Mahindra Solarize Private Limited, Secured Meters, Eglo, Shekhani Industries, Nuvoco Cements (Lafarge Cements), Tenneco, Valeo, Rotomag, Premier Solar and Iron Mountain.

Our products and services have enabled us secure a healthy order book in coming years which shall further strengthen our market presence and growth. Our team undertakes project implementation with two aspects:

- Prolonged life of the equipment; and
- Optimum return on investment.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our financial condition and results of operations are affected by numerous factors and uncertainties, including those discussed in the section titled ‘*Risk Factors*’ beginning on page 34 of this Draft Red Herring Prospectus. The following are certain factors that have had, and we expect will continue to have, a significant effect on our financial condition and results of operations:

- Outlook and performance of Solar industry as a whole;

- Strength of our Order Book;
- Company's ability to successfully implement its growth expansion plan;
- Our dependence on limited number of customers/suppliers/brands for a significant portion of our revenues;
- Pricing pressures from the competitive business environment, including the price of raw materials like solar cells, glass, EVA sheets, back-cover, aluminum frame, Junction box, batteries and other solar equipment used in the manufacturing process;
- Failure to adapt to the changing technology in our industry of operation may adversely affect our business and financial condition;
- Reliance on the government schemes / initiatives including but not limited to PM-KUSUM, Roof Top Solar (RTS) Programme Phase-II, PLI Scheme, etc. and alteration in such schemes, government policies and regulations;
- Restrictions on the export - import imposed by the Government of India or of any other country;
- Failure to obtain any applicable approvals, licenses, registrations and permits in a timely manner;
- Company's ability to successfully implement its growth expansion plan;
- Access to capital, restrictive covenants under our financing arrangements and cost of financing;
- Occurrence of Environmental Problems & Uninsured Losses

SIGNIFICANT ACCOUNTING POLICIES

The accounting policies have been applied consistently to the periods presented in the Restated Financial Statements. For details of our significant accounting policies, please refer section titled '*Financial Information*' beginning on page 206 of this Draft Red Herring Prospectus.

RESULTS OF OUR OPERATIONS

Sahaj Solar Limited is a Solar Solutions providing company having experience in majority of the verticals of renewable power generation. The Company is a manufacturer as well as a service provider company having well established position in medium sized solar panel manufacturers. We are engaged in the businesses of PV Module manufacturing, solar pumping systems and EPC Services. The Company is an empaneled partner of various Government schemes and tenders and follows the best International Industry Standards and Practices.

On a macro economic outlook, the Indian solar energy market has witnessed remarkable growth in recent years. Key drivers of such growth are significant reduction in the cost of solar power technology over the past decade and solar systems becoming more flexible allowing for diverse applications beyond just electricity production. The market is also propelled by the supportive government policies, particularly the Ministry of New and Renewable Energy (MNRE) encouraging the renewable-based power generation.

The following discussion on the results of operations should be read in conjunction with the Restated Financial Statements of the Company for the six months period ended Sept 30, 2023 and for the financial years ended March 31, 2023, March 31, 2022 and March 31, 2021:

In FY 2020-21, with an average capacity utilization of 26.59 MW, the Company achieved revenue from operations of INR 6,193.36 Lakhs, with the PV Module Segment contributing ~91% of the total revenue. This was primarily with the expertise of our key management personnel, project management and operations team, we earned a Profit After Tax of INR 70.58 Lakhs.

In FY 2021-22, despite the decline in average capacity utilization to 17.21 MW, the Company achieved revenue from operations of INR 6,676.99 Lakhs, marking a nominal growth of ~8% on a y-o-y basis, with the PV Module Segment being the predominant contributor. However, during this period, we secured substantial orders for Solar Pumping Systems, which yield better profit margins compared to other products. The Solar Pumping System contributed to approximately 30% of the total revenue from operations, resulting in a nominal increase of 0.40% in the PAT Margin in FY 2021-22 compared to FY 2020-21.

In FY 2022-23, the Company leveraged its quality, experience, and brand in the market to obtain Government Contracts. Additionally, a substantial project worth approximately INR ~120 crores, which was bid in Feb'21, got delayed due to the impact of the Covid-19 Pandemic, commenced in Jan'22. Government initiatives, including the Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan (PM KUSUM) scheme, have played a pivotal role in incentivizing the adoption of solar-powered water pumps. As a result, Solar Pumping Systems contributed to ~70% of the total revenue from operations, leading to a substantial growth in revenue from operations to INR 18,536.16 Lakhs, with average capacity utilization increasing to 25.04 MW. Despite an increase in the net cost of goods sold, we

maintained an EBITDA margin of ~6.3%. Moreover, due to finance costs and statutory depreciation, the PAT margin improved to ~3.5% compared to historical periods.

For the six month period ending on September 30, 2023, the Company achieved revenue of INR 6,093.11 Lakhs with an order book of INR ~5,400 Lakhs and PAT of INR 207.48 Lakhs i.e. PAT margin of 3.40%.

PRINCIPAL COMPONENTS OF OUR STATEMENT OF PROFIT AND LOSS ACCOUNT

Income

Our total revenue for the six months ended on September 30, 2023, financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 were amounted to ₹ 6,110.30 lakhs, ₹ 18,580.48 lakhs, ₹ 6,728.95 lakhs & ₹ 6,218.78 lakhs respectively. Our revenue comprises of:

Revenue from operations

Our revenue from operations primarily comprises revenue from domestic and export (including deemed export) sales of the PV Module Segment, Solar Pumping Systems, Solar Rooftop/ground mount, Solar street light/home light / off-grid systems, AMC, Consultancy & Customer Support Services. Our revenue from operations accounted for 99.72%, 99.76%, 99.23% and 99.59% of our total income for the six months ended on September 30, 2023, financial years ended March 31, 2023, March 31, 2022 and March 31, 2021 respectively. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss related to adverse changes in market prices, including interest rates. In the normal course of business, we are exposed to certain market risks including interest rate risk, Liquidity risk and credit risk. We focus to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on our financial performance.

Interest rate risk

Interest rate risk results from changes in prevailing market interest rates, which can cause a change in the fair value of fixed-rate instruments and changes in the interest payments of the variable-rate instruments. Our operations are funded to a certain extent by borrowings. Our current loan facilities carry interest at variable rates as well as fixed rates. We mitigate risk by structuring our borrowings to achieve a reasonable, competitive cost of funding. There can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us adequately against interest rate risks.

Liquidity risk

Liquidity risk is the risk that our Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk is managed by us through effective fund management of the group's short, medium and long-term funding and liquidity management requirements. Our Company employee prudent liquidity risk management practices by maintaining adequate reserves, banking facilities and other committed borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Credit Risk

Credit risk is the risk of financial loss to our Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from our Company's trade and other receivables, cash and cash equivalents and other bank balances. To manage this, we periodically assesses financial creditworthiness of customers, taking into account the financial

condition, current economic trends and analysis of historical bad debts and ageing of accounts receivable. The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount. However, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition.

Trade and other receivables from customers

Credit risk in respect of trade and other receivables is managed through credit approvals, establishing credit limits and monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. Our Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates.

Cash and cash equivalents

The cash and cash equivalents are held with bank with good credit ratings and financial institution counterparties with good market standing.

Material Frauds

There are no material frauds committed against our Company in the last three financials year.

OUTSTANDING DUES TO CREDITORS

The Board of Directors of our Company considers dues exceeding 5% of our Company's total Trade payables as per Restated Financial statements, to small scale undertakings and other creditors as material dues for our Company.

As per Restated Financial Statements, the trade payables for the stub period ended on September 30, 2023 were Rs. 4307.27 Lakhs. Accordingly, a creditor has been considered 'material' if the amount due to such creditor exceeds Rs. 215.36 Lakhs. This materiality threshold has been approved by our Board of Directors pursuant to the resolution passed on July 13, 2023.

As per the above materiality policy, the outstanding amount owned to small scale undertakings and material creditors as on September 30, 2023, by our Company is as follows:

<i>(₹ in lakhs)</i>						
Material Creditor	No. of Creditors	Total Amount Outstanding	No. of Material Creditors	Amount of Material Creditors	No. of Other Creditors	Amount of Other Creditors
Micro, Small and Medium Enterprises	5	14.40	0	0	5	14.40

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialized form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form. In this context, two agreements have been signed amongst our Company, the respective Depositories, and the Registrar to the Offer:

- Tripartite agreement dated January 24, 2024 between our Company, NSDL and the Registrar to the Offer.
- Tripartite agreement dated January 24, 2024 between our Company, CDSL and the Registrar to the Offer.
- The Company's shares bear an ISIN INE0P4701011.

Market Lot and Trading Lot

Trading of the Equity Shares will happen in dematerialised form, the minimum contract size of [•] Equity Shares in terms of the *SEBI circular no. CIR/MRD/DSA/06/2012 dated February 21, 2012* and the same may be modified by NSE from time to time by giving prior notice to investors at large. Allocation and allotment of Equity Shares through this Offer will be done in multiples of [•] Equity Share subject to a minimum allotment of [•] Equity Shares to the successful Applicants. Further, in accordance with SEBI (ICDR) Regulations the minimum application size in terms of number of specified securities shall not be less than Rupees One Lakh per application.

Minimum Number of Allottees

In accordance with Regulation 268(1) of SEBI (ICDR) Regulations, the minimum number of allottees in this Offer shall be 50(fifty) shareholders. In case the minimum number of prospective allottees is less than 50 (fifty), no allotment will be made pursuant to this Offer and the monies blocked by the SCSBs shall be unblocked within 4 (four) working days of closure of Offer.

Jurisdiction

Exclusive jurisdiction for the purpose of this Offer is with the competent courts/authorities in Ahmedabad, Gujarat.

The Equity Shares have not been and will not be, registered under the U.S. Securities Act 1933, as amended (the "Securities Act") or any state securities laws in the United States and may not be offered or sold within the United States or to, or for the account or benefit of, "U.S. persons" (as defined in Regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Accordingly, the Equity Shares will be offered and sold outside the United States in compliance with Regulations of the Securities Act and the applicable laws of the jurisdiction where those offers and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Joint Holders

Where two or more persons are registered as the holders of the Equity Shares, they shall be deemed to hold the same as joint with benefits of survivorship.

Nomination facility to Bidders

In accordance with Section 72(1) & 72(2) of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72(3) of the Companies Act, 2013, be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in accordance to Section 72(4) of the Companies Act, 2013, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agents of our Company.

In accordance with Articles of Association of the Company, any Person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- to register himself or herself as the holder of the Equity Shares; or
- to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board of Directors may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board of Directors may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the offer will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Applicant would prevail. If the Applicant wants to change the nomination, they are requested to inform their respective Depository Participant.

Withdrawal of the Offer

Our Company in consultation with the BRLM, reserve the right to not to proceed with the Offer at any time before the Offer Opening Date without assigning any reason thereof.

If our Company withdraws the Offer any time after the Offer Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Offer Closing Date, providing reasons for not proceeding with the Offer shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Offer advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Offer, will instruct

the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction. If our Company withdraws the Offer after the Offer Closing Date and subsequently decides to proceed with an Offer of the Equity Shares, our Company will have to file a fresh offer document with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Offer is subject to obtaining (i) the final listing and trading approvals of the Stock Exchange with respect to the Equity Shares issued through the Prospectus, which our Company will apply for only after Allotment; and (ii) the final Registrar of Companies approval of the Prospectus.

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, which for the avoidance of doubt, shall be deemed to be incorporated in the deemed agreement of the Company with the SCSBs, to the extent applicable.

The processing fees for applications made by the UPI Bidders using the UPI Mechanism may be released to the remitter bank (SCSBs) only after such banks provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022.

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager.

Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on NSE is taken within six Working Days from the Offer Closing Date, the time table may change due to various factors, such as extension of the Offer Period by our Company or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

The SEBI is in the process of streamlining and reducing the post offer timeline for initial public Offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the offer procedure is subject to change to any revised circulars issued by the SEBI to this effect. The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Applications and any revision to the same shall be accepted only between **10.00 a.m. and 5.00 p.m.** (IST) during the Offer Period. On the Offer Closing Date, the Applications, and any revision to the same shall be accepted between **10.00 a.m. and 5.00 p.m.** (IST) or such extended time as permitted by the Stock Exchanges, in case of Applications by Retail Individual Applicants after taking into account the total number of applications received up to the closure of timings and reported by the Book Running Lead Manager to the Stock Exchange. It is clarified that Applications not uploaded on the electronic system would be rejected. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holiday).

Due to limitation of time available for uploading the Applications on the Offer Closing Date, the Applicants are advised to submit their applications one day prior to the Offer Closing Date and, in any case, no later than 5.00 p.m. (IST) on the Offer Closing Date. All times mentioned in this Draft Red Herring Prospectus are Indian Standard Times. Applicants are cautioned that in the event a large number of Applications are received on the Offer Closing Date, as is typically experienced in public offers, some Applications may not get uploaded due to lack of sufficient time. Such Applications that cannot be uploaded will not be considered for allocation under the Offer. Applications will be accepted only on Business Days. Neither our Company nor the Book Running Lead Manager is liable for any failure in uploading the Applications due to faults in any software/hardware system or otherwise.

The Registrar to the offer shall submit the details of cancelled/withdrawn/deleted applications to the SCSB's on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSB's shall unblock such applications by the closing hours of the Working Day.

In terms of the UPI Circulars, in relation to the Offer, the BRLM will be required to submit reports of compliance with timelines and activities prescribed by SEBI in connection with the allotment and listing procedure within six Working Days from the Bid/ Offer Closing Date, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In case of force majeure, banking strike or similar circumstances, the issuer may, for reasons to be recorded in writing, extend the bidding (Offer) period disclosed in the Draft Red herring prospectus (in case of a book built offer) or the Offer period disclosed in the prospectus (in case of a fixed price issue), for a minimum period of three working days, subject to the Bid/ Offer Period not exceeding 10 working days.

In case of any delay in unblocking of amounts in the ASBA Accounts exceeding four Working Days from the Bid / Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹ 100 per day for the entire duration of delay exceeding four Working Days from the Bid / Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The Book Running Lead Manager shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Separately, the following compensation mechanism shall be applicable for investor grievances in relation to Bids made through the UPI Mechanism, for which the relevant SCSBs shall be liable to compensate the investor:

Scenario	Compensation amount	Compensated on period
Delayed unblock for cancelled / withdrawn / deleted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the date on which the request for cancellation / withdrawal / deletion is placed on the bidding platform of the Stock Exchanges till the date of actual unblock
Blocking of multiple amounts for the same Bid made through the UPI Mechanism	Instantly revoke the blocked funds other than the original application amount and ₹ 100 per day or 15% per annum of the total cumulative blocked amount except the original Bid Amount, whichever is higher	From the date on which multiple amounts were blocked till the date of actual unblock
Blocking more amount than the Bid Amount	Instantly revoke the difference amount, i.e., the blocked amount less the Bid Amount and ₹ 100 per day or 15% per annum of the difference amount, whichever is higher	From the date on which the funds to the excess of the Bid Amount were blocked till the date of actual unblock
Delayed unblock for non-Allotted / partially Allotted applications	₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher	From the Working Day subsequent to the finalization of the Basis of Allotment till the date of actual Unblock

Further, in the event there are any delays in resolving the investor grievance beyond the date of receipt of the complaint from the investor, for each day delayed, the BRLM shall be liable to compensate the investor ₹ 100 per day or 15% per annum of the Bid Amount, whichever is higher. The compensation shall be payable for the period ranging from the day on which the investor grievance is received till the date of actual unblock.

Bids and any revision in Bids shall be accepted only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”)) during the Bid / Offer Period (except on the Bid / Offer Closing Date) at the Bidding Centers as mentioned on the Application Form except that:

On the Bid / Offer Closing Date:

- 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Retail Individual Bidders and Eligible Employees Bidding under the Employee Reservation Portion.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their applications (in terms of the quantity of the Equity Shares or the Applications Amount) at any stage. Retail Individual Applicants can revise or withdraw their Applications prior to the Offer Closing Date. Except Allocation to Retail Individual Investors, Allocation in the Offer will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or the electronic Application Form, for a particular Applicant, the details as per the file received from the Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Application Form, for a particular ASBA Applicant, the Registrar to the Offer shall ask the relevant SCSB or the member of the Syndicate for rectified data.

Minimum Subscription

OFFER PROCEDURE

All Applicants should review the General Information Document for Investing in Public Issues prepared and issued in accordance with the circular (*SEBI/HO/CFD/DIL1/CIR/P/2020/37*) dated *March 17, 2020* notified by SEBI and the UPI Circulars, notified by SEBI (the “General Information Document”), which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957 and the SEBI (ICDR) Regulations. The General Information Document shall be made available on the websites of the Stock Exchange, the Company and the Book Running Lead Manager before opening of the Offer. Please refer to the relevant provisions of the General Information Document which are applicable to this Offer.

Additionally, all Applicants may refer to the General Information Document for information, in addition to what is stated herein, in relation to (i) category of Applicants eligible to participate in the Offer; (ii) maximum and minimum Application size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Applicants and Retail Individual Investors applying through the United Payments Interface channel; (v) issuance of Confirmation of Allocation Note (“CAN”) and Allotment in the Offer; (vi) price discovery and allocation; (vii) general instructions (limited to instructions for completing the Application Form); (viii) Designated Date; (ix) disposal of Applications; (x) submission of Application Form; (xi) other instructions (limited to joint Applications in cases of individual, multiple Applications and instances when an application would be rejected on technical grounds); (xii) applicable provisions of Companies Act, 2013 relating to punishment for fictitious Applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI vide its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2018/138* dated *November 1, 2018* read with its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2019/50* dated *April 3, 2019*, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for Retail Individual Investors applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 01, 2019, SEBI vide its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2019/76* dated *June 28, 2019*, read with circular bearing number *SEBI/HO/CFD/DIL2/CIR/P/2019/85* dated *July 26, 2019* with respect to Bids by RIIs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2020/50* dated *March 30, 2020* extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI. The Offer will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. *SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M* dated *March 16, 2021*, as amended pursuant to SEBI circular no. *SEBI/HO/CFD/DIL2/P/CIR/2021/570* dated *June 02, 2021*, has introduced certain additional measures for streamlining the process of initial public Issues and redressing investor grievances. This circular is effective for initial public Issues opening on/or after *May 01, 2021*, except as amended pursuant to SEBI circular no. *SEBI/HO/CFD/DIL2/P/CIR/2021/570* dated *June 02, 2021*, and the provisions of this circular, as amended, are deemed to form part of this Draft Red Herring Prospectus.

Thereafter, the final reduced timeline may be made effective using the UPI Mechanism for applications by Retail Individual Investors (“UPI Phase III”), as may be prescribed by SEBI. Accordingly, the offer will be made under UPI Phase II, unless UPI Phase III becomes effective and applicable on or prior to the Bid / offer Opening Date. If the Offer is made under UPI Phase III, the same will be advertised in one widely circulated English language national daily newspaper; one widely circulated Hindi language national daily newspaper and one regional newspaper with wide circulation where the Registered Office of our Company is situated, on or prior to the Bid / Offer Opening Date and such advertisement shall also be made available to the Stock Exchange for the purpose of uploading on their websites. Further SEBI vide circular no. *SEBI/HO/CFD/DIL2/P/CIR/2021/570* dated *June 02, 2021* have brought the implementation of the aforesaid circular dated *March 16, 2021* in accordance with the revised timelines for certain of its provisions based on representations received from the stakeholders due to Covid- 19 pandemic. The revisions of the circular dated *June 02, 2021* are elaborated as under:

- SCSB’s shall continue to send SMS alerts during the actual block/debit/unblock of UPI mandate in the prescribed format, the details of total number of shares applied/allotted/non-allotted etc. shall be included in SMS for Public Issues opening on/after January 01, 2022.
- The automated web portal shall be live and operational after due testing and mock trials with the CUG entities for Public Issues opening on or after October 01, 2021. The requisite information on this automated portal shall be updated periodically in intervals not exceeding two hours.
- In the interim, for the Public Issues opening from the date of this circular and till the automated web portal is live and operational, the Sponsor Banks shall send the details to the e-mail address of CUG entities periodically in intervals not exceeding three hours. In case of exceptional events viz., technical issues with UPI handles/PSPs/TPAPS/SCSB’s etc., the same shall be intimated immediately to the CUG entities so as to facilitate the flow of information in the Public Issue process.
- The Stock Exchanges and Book Running Lead Manager shall facilitate providing the requisite data of CUG entities to Sponsor Bank for the development of automated web portal. Such information shall be provided to the Sponsor Bank before opening of the Public Offer.
- The Registrar to the Offer shall provide the allotment/ revoke files to the Sponsor Bank by 8:00 PM on T+3 i.e, the day when the Basis of Allotment (BOA) has to be finalized.

Maximum and Minimum Application Size

For Retail Individual Applicants

The Application must be for a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter, so as to ensure that the Application Price payable by the Applicant does not exceed ₹ 2,00,000. In case of revision of Applications, the Retail Individual Applicants have to ensure that the Application Price does not exceed ₹ 2,00,000.

For Other than Retail Individual Applicants (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹ 2,00,000 and in multiples of [•] Equity Shares thereafter. An application cannot be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Offer Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Applicants are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Draft Red Herring Prospectus.

The above information is given for the benefit of the Applicants. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

Basis of Allotment

Allotment will be made in consultation with the Stock Exchange. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on proportionate basis i.e., the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
- b) The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio).

For applications where the proportionate allotment works out to less than [•] Equity shares the allotment will be made as follows:

- Each successful applicant shall be allotted [•] Equity shares; and
 - the successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- c) If the proportionate allotment to an applicant works out to a number that is not a multiple of [•] Equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of [•] Equity shares subject to a minimum allotment of [•] Equity shares.
 - d) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [•] Equity shares, results in the actual allotment being higher than the shares Issued, the final allotment may be higher at the sole

discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this Draft Red Herring Prospectus.

- e) The above proportionate allotment of shares in an offer that is oversubscribed shall be subject to the reservation for small individual applicants as described below:
- As the retail individual investor category is entitled to more than fifty percent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - The balance net offer of shares to the public shall be made available for allotment to Individual applicants other than retails individual investors and other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.
 - The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Retail Individual Investor means an investor who applies for shares of value of not more than ₹ 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with Stock Exchange. The Executive Director / Managing Director of Stock Exchange in addition to Book Running Lead Manager and Registrar to the Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Participation by Associates /Affiliates of BRLM and the Market Makers

In the Pre-offer advertisement, we shall state the Bid/offer Opening Date and the Bid/offer Closing Date. The advertisement, subject to the provisions of Section 30 of the Companies Act, 2013, shall be in the format prescribed in Part A of Schedule X of the SEBI ICDR Regulations.

Disposal of Applications and Application Moneys and Interest in Case of Delay

The Company shall ensure the dispatch of Allotment advice, instructions to SCSBs and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the Allotment to the Stock Exchange within one working day of the date of Allotment of Equity Shares. The Company shall use best efforts that all steps for completion of the necessary formalities for listing and commencement of trading at SME Platform of NSE where the Equity Shares are proposed to be listed are taken within 6 (six) working days of closure of the Offer.

Impersonation

Attention of the Applicants is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:

“Any person who—

- a) Makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or*
- b) Makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or*
- c) Otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447.”*

Shall be liable for action under section 447 of Companies Act, 2013 and shall be treated as Fraud.

Procedure and time for allotment and demat credit

Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares.

Bidders are advised to instruct their Depository.

Participant to accept the Equity Shares that may be allotted to them pursuant to the Offer.

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Bidders who have been Allotted Equity Shares in the Offer.

- a) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- b) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Bidders Depository Account which will be completed within 4 Working Days of the Offer Closing Date.

The Issuer also ensures the credit of shares to the successful Bidder depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Offer Account on the Designated Date.

Basis of Allotment

Allotment will be made in consultation with NSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

The total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).

For applications where the proportionate allotment works out to less than [•] equity shares the allotment will be made as follows:

- Each successful applicant shall be allotted [•] equity shares;
- and The successful applicants out of the total applicants for that category shall be determined by the draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.

If the proportionate allotment to an applicant works out to a number that is not a multiple of [•] equity shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of [•] equity shares subject to a minimum allotment of [•] equity shares.

If the Shares allocated on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.

Since present offer is a Book Built offer, the allocation in the net offer to the public category in terms of Regulation 253 of the SEBI (ICDR) Regulations, 2018 shall be made as follows:

- a) not less than thirty-five per cent. to retail individual investors;*
- b) not less than fifteen per cent. to non-institutional investors;*
- c) not more than fifty per cent. to qualified institutional buyers, five per cent. of which shall be allocated to mutual funds:*

Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in any other category: Provided further that in addition to five per cent. allocation available in terms of clause (c), mutual funds shall be eligible for allocation under the balance available for qualified institutional buyers.

In case the aggregate demand in this category is greater than [•] Equity Shares at or above the offer Price, Allotment shall be made on a proportionate basis up to a minimum of [•] Equity Shares and in multiples of [•] Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

Names of entities responsible for finalizing the Basis of Allotment in the event of Under Subscription. In the event of under subscription in the offer, the obligations of the Underwriters shall get triggered in terms of the Underwriting Agreement. The Minimum subscription of 100% of the offer size shall be achieved before our company proceeds to get the basis of allotment approved by the Designated Stock Exchange.

The Executive Director/Managing Director of the SME Platform of NSE – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations, 2018. As per the RBI regulations, OCBs are not permitted to participate in the offer.

There is no reservation for Non-Residents, NRIs, FPIs and foreign venture capital funds and all Non Residents, NRI, FPI and Foreign Venture Capital Funds applicants will be treated on the same basis with other categories for the purpose of allocation.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The DIPP, has issued consolidated FDI Policy Circular of 2020 (“FDI Policy 2020”), which with effect from *October 15, 2020*, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy from time to time and therefore, FDI Policy 2020 will be valid until the DIPP issues an updated circular.

The RBI issues Master Directions on Foreign Investment in India and updates the same from time to time. Presently, FDI in India is being governed by Master Directions on Foreign Investment No. *RBI/FED/2017- 18/60 FED Master Direction No. 11/2017-18* dated *January 4, 2018*, as updated from time to time by RBI. In terms of the Master Directions, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Directions.

Under the current applicable FDI Policy of 2020, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present our Company is involved in the business of manufacturing. 100% foreign direct investment through automatic route is permitted in the sector in which our Company operates.

At present, the FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017 has been superseded by FEMA (Non -Debt Instruments) Rules, 2019 dated October 17, 2019 (FEMA Non- Debt Rules). The sectoral cap given in the FEMA Non-Debt Rules shall come into effect from April 01, 2020.

As per the extant policy of the Government of India, OCBs cannot participate in this Offer. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Offer provided it obtains a prior approval from the RBI. On submission of such approval along with the Application Form, the OCB shall be eligible to be considered for share allocation. An erstwhile OCB may transfer equity instruments subject to the directions issued by the Reserve Bank of India from time to time in this regard. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company investors will not issue, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines.

Investment conditions/restrictions for overseas entities

The maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, Foreign Portfolio Investors (FPIs), Non-Resident Indian (NRI)/ Overseas Citizen of India (OCI), Limited Liability Partnerships (LLPs), Foreign Venture Capital Investor (FVCI), Investment Vehicles and Depository Receipts (DRs) under Schedule I, II, III, VI, VII, VIII and IX of the FEMA Non Debt Rules. Any equity holding by a person resident outside India resulting from the conversion of any debt instrument under any arrangement shall be reckoned as a foreign investment under the sectoral cap.

Investment by FPIs under Portfolio Investment Scheme (PIS)

Aggregate FPI up to 49% of the paid up capital on a fully diluted basis or the sectoral or statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions as the case may be, if such investment does not result in the transfer of ownership or control to persons resident outside India and other investments by a person resident outside India shall be subject to the conditions of Government approval and compliance of sectoral conditions as laid down in the FEMA Non Debt Rules.

Other foreign investments will be subject to conditions of Government approval and compliance with sectoral conditions as per FDI Policy 2020 till the time the new sectoral cap as mentioned in the FEMA Non-Debt Rules comes into effect. The total foreign investment, direct and indirect, in the issuing entity, will not exceed the sectoral/statutory cap.

With regards to purchase/sale of equity instruments of an Indian company by an FPI under PIS, the total holding by each FPI or an investor group shall be less than 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 % and 24 % will be called the individual and aggregate limit, respectively.

With effect from the April 01, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the FEMA Non Debt Rules, with respect to its paid- up equity capital on a fully diluted basis or such same sectoral cap percentage of paid up value of each series of debentures or preference shares or share warrants. The aggregate limit as provided in sub-paragraph (b) of paragraph 3 of Schedule I may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively before March 31, 2020. Further, the Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively. Also, once the aggregate limit has been increased to a higher threshold, the Indian company cannot reduce the same to a lower threshold. The aggregate limit with respect to an Indian company in a sector where FDI is prohibited shall be 24%.

Investment by NRI or OCI on repatriation basis

The purchase/sale of equity instruments as defined under the FEMA Non Debt Rules of a listed Indian company on repatriation basis on a recognized stock exchange in India by NRI or OCI is allowed subject

to certain conditions under Schedule III of the FEMA Non Debt Rules that is: The total holding by any individual NRI or OCI shall not exceed 5 % of the total paid-up equity capital on a fully diluted basis or should not exceed 5 % of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 % of the paid-up value of each series of debentures or preference shares or share warrants; provided that the aggregate ceiling of 10 % may be raised to 24 % if a special resolution to that effect is passed by the general body of the Indian company.

Investment by NRI or OCI on non-repatriation basis

The Schedule IV of the FEMA Non-Debt Rules deals with Purchase/ sale of equity Instruments or convertible notes or units or contribution to the capital of a LLP by a NRI or OCI on non-repatriation basis. It shall be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions by RBI.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or Offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being Offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those Offers and sale occur.

Further, no offer to the public (as defined under Directive 2003/71/EC, together with any amendments) and implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Offer in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Offer. Any forwarding, distribution or reproduction of this document in whole or in part may be unauthorized. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions and the information contained in this Draft Red Herring Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations.

31.	The money (if any) which the Board shall on the allotment of any shares being made by them, require or direct to be paid by way of deposit, call or otherwise, in respect of any shares allotted by them, shall immediately on the inscription of the name of the allottee in the Register of Members as the name of the holder of such shares, become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him accordingly.
32.	Every Member, or his heirs, executors, administrators, or legal representatives, shall pay to the Company the portion of the Capital represented by his share or shares which may, for the time being, remain unpaid thereon, in such amounts at such time or times, and in such manner as the Board shall, from time to time in accordance with the Company's regulations, require on date fixed for the payment thereof.
33.	Shares may be registered in the name of individual, any limited company or other corporate body but not in the name of a firm, an insolvent person or a person of unsound mind.
34.	The Board shall observe the restrictions as regards allotment of securities to the public, and as regards return on allotments contained in Section 39 of the Act.

DEMATERIALISATION AND CERTIFICATES

35.	Subject to the provisions of the Act and Rules made thereunder the Company shall offer its members facility to hold securities issued by it in dematerialized form and will offer the Securities for subscription in dematerialized form pursuant to the Depositories Act, 1996 and the rules framed thereunder, if any, and the register and index of beneficial owners maintained by the relevant Depository under section 11 of the Depositories Act, 1996, shall be deemed to be the corresponding register and index maintained by the Company. Notwithstanding anything contained herein, the Company shall be entitled to treat the person whose names appear in the register of members as a holder of any share or whose names appear as beneficial owners of shares in the records of the Depository, as the absolute owner thereof and accordingly shall not (except as ordered by a Court of competent jurisdiction or as required by law) be bound to recognise any benami trust or equity or equitable contingent or other claim to or interest in such share on the part of any other person whether or not it shall have express or implied notice thereof.
36.	Unless otherwise permitted under the Act or the Depositories Act, 1996, The Company shall offer and allot, and every person subscribing to securities offered by the Company shall hold, the securities in dematerialised form with a Depository. The Company shall intimate such Depository the details of allotment of the security, and on receipt of the information, the Depository shall enter in the records the name of the allottee as the beneficial owner of the security. Such a person who is a beneficial owner of the securities can at any time opt out of a Depository, if permitted by the law, in respect of any security in the manner provided by the Depositories Act, 1996, and the Company shall, in the manner and within the time prescribed issue to the beneficial owner the required Certificates of Securities.
37.	All securities held by a depository shall be dematerialized and be in fungible form. Nothing contained in Sections 89 and 90 and such other applicable provisions of the Act shall apply to a Depository in respect of the securities held by it on behalf of the beneficial owners.
38.	<p>a) Notwithstanding anything to the contrary contained in the Act or these Articles, a Depository shall be deemed to be the registered owner for the purpose of effecting transfer of ownership of securities on behalf of the beneficial owner.</p> <p>b) Save and otherwise provided above, the Depository as the registered owner of the securities shall not have any voting rights or any other rights in respect of the securities held by it.</p> <p>c) Every person holding securities of the Company and whose name is entered as the beneficial owner in the records of the Depository shall be deemed to be a member of the Company. The beneficial owner of securities shall be entitled to all rights and benefits and be subject to all liabilities in respect of the securities held by a Depository on behalf of the beneficial owner.</p>

Article Number	Content
39.	Notwithstanding anything contained in these Articles, where securities issued by the Company are dealt with by a Depository, the Company shall intimate the details thereof to the Depository immediately on allotment of such securities.
40.	Nothing contained in Section 45 of the Act or these Articles regarding the necessity of having distinctive numbers for securities issued by the Company, shall apply to securities held with a Depository.
41.	<p>a) Every person whose name is entered as a member in the register of members shall be entitled to receive within two months after allotment or within one month from the date of receipt by the Company of the application for the registration of transfer or transmission or within such other period as the conditions of issue shall provide – (i) one certificate for all his shares without payment of any charges; or (ii) several certificates, each for one or more of his shares, upon payment of Rs. 50 for every certificate or such charges as may be fixed by the Board for each certificate after the first. The charges can be waived off by the Company.</p> <p>b) Every certificate of shares shall be either under the seal of the company or will be authenticated by (1) two Directors or persons acting on behalf of the Directors under a duly registered Power of Attorney and (2) the Secretary or some other person appointed by the Board for the purpose; a Director may sign a share certificate by affixing signature thereon by means of any machine, equipment or other mechanical means such as engraving in metal or lithography but not by means of rubber stamp and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid-up thereon.</p> <p>c) Any two or more joint allottees of shares shall, for the purpose of this Article, be treated as a single member, and the certificate of any shares which may be the subject of joint ownership, may be delivered to anyone of such joint owners on behalf of all of them. For any further certificate the Board shall be entitled, but shall not be bound, to prescribe a charge not exceeding Rupees Fifty. The Company shall comply with the provisions of Section 46 of the Act.</p>
42.	Every certificate shall have distinctive number and shall be issued under the Seal, if any, and shall specify the shares to which it relates and the amount paid-up thereon and shall be in such form as may be prescribed and approved by the Board.
43.	<p>a) If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new Certificate may be issued in lieu thereof.</p> <p>b) If any certificate lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deems adequate and on payment of out of pocket expenses incurred by the company in investigating the evidence produced, being given, then only with the prior consent of the Board, a duplicate Certificate in lieu thereof shall be given to the party entitled to such lost or destroyed Certificate.</p> <p>c) Every Certificate shall be issued in such manner as prescribed under the Act or Rules framed thereunder or under other applicable laws applicable from time to time.</p> <p>d) Every Certificate under the Article shall be issued without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rupees Fifty for each certificate) as the Directors shall prescribe.</p> <p>e) The particulars of every renewed or duplicate share certificate issued shall be entered forthwith in a Register of Renewed and Duplicate Share Certificates maintained in prescribed format indicating against the name(s) of the person(s) to whom the certificate is issued, the number and date of issue of the share certificate in lieu of which the new certificate is issued, and the necessary changes indicated in the Register of Members by suitable cross-references in the “Remarks” column.</p> <p>f) Register shall be kept at the registered office of the company or at such other place where the Register of Members is kept or at other offices of the Company or at the office of Share Transfer Agent of the Company and it shall be preserved permanently and shall be kept in the custody of the company secretary of the company or any other person authorized by the Board for the purpose.</p> <p>g) All entries made in the Register of Renewed and Duplicate Share Certificates shall be authenticated</p>

	by the company secretary or such other person as may be authorised by the Board for the purposes of sealing and signing the share certificate
	h) Provided that notwithstanding what is stated above the Directors shall comply with such Rules or Regulation or requirements of any Stock Exchange or the Rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956, or any other Act, or rules applicable in this behalf.
	i) The provisions of this Article shall mutatis mutandis apply to debentures of the Company.
44.	If any share stands in the names of two or more persons, the person first named in the Register shall as regard receipts of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at meetings, and the transfer of the shares, be deemed sole holder thereof but the joint-holders of a share shall be severally as well as jointly liable for the payment of all calls and other payments due in respect of such share and for all incidentals thereof according to these articles and the terms of issue.
45.	The Company shall not be bound to register more than three persons as the joint holders of any share.
46.	Except as ordered by a Court of competent jurisdiction or as by law required, the Company shall not be bound to recognize (even when having notice thereof) any equitable, contingent, future or partial interest in any share or any interest in any fractional part of a share, or (except only as is by these Articles otherwise expressly provided or by law otherwise provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.
47.	Company shall not give whether directly or indirectly, by means of a loan, guarantee, the provision of security or otherwise, any financial assistance for or in connection with the purchase or subscription of any shares in the Company or in its holding Company, save as provided by Section 67 of the Act.
48.	If by the conditions of allotment of any share the whole or part of the amount or issue price thereof shall be payable by installment, every such installment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.
49.	If and whenever as a result of issue of new or further shares or any consolidation or sub-division of shares or otherwise, any shares held by members become fractional shares, all such fractional entitlement shall, unless otherwise determined or approved the Board or shareholders of the Company, be consolidated into whole shares and be allotted to such person, persons or entities as may be nominated by the Board as trustee for sale thereof in open market through SEBI registered share broker at such price as may be approved by such Trustee(s) in this regard and the net proceeds of such sale shall be distributed to the persons entitled thereto in proportion to their respective fractional entitlement.
50.	The Company shall, to the extent applicable, observe the provisions of Sections 89 and 90 of the Act and of other applicable laws dealing with beneficial interest in shares.
UNDERWRITING AND BROKERAGE	
51.	Subject to the provisions of Section 40 (6) of the Act, the Company may at any time pay a commission to any person in consideration of his subscribing or agreeing to subscribe (whether absolutely or conditionally) for any securities in the Company, or procuring, or agreeing to procure subscriptions (whether absolutely or conditionally) for any securities in the Company but so that the commission shall not exceed the maximum rates laid down by the Act and the Rules made in that regard. Such commission may be satisfied by payment of cash or by allotment of fully or partly paid shares or partly in one way and partly in the other.
52.	The Company may pay on any issue of securities such brokerage as may be reasonable and lawful.
CALLS	
53.	a) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys

	<p>unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board.</p> <p>b) A call may be made payable by installments.</p> <p>c) The option or right to call of shares shall not be given to any person except with the sanction of the Issuer in general meetings.</p>
54.	A call may be revoked or postponed at the discretion of the Board
55.	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.
56.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorizing such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors
57.	Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class
58.	The joint-holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
59.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.
60.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding ten percent per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.
61.	<p>a) If by the terms of issue of any share or otherwise any amount is made payable at any fixed time (whether on account of the nominal value of the share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.</p> <p>b) In case of non-payment of such sum, all the relevant provisions of these Articles as to payment of interest and expenses, forfeiture or otherwise, shall apply mutatis mutandis as if such sum had become payable by virtue of a call duly made and notified.</p>
62.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, was on the Register of Members as the holder, on or subsequent to the date at which the money sought to be recovered is alleged to have become due, of the shares in respect of which such money is sought to be recovered; that such money is due pursuant to the terms on which the share was issued; that the resolution making the call was duly recorded in the minute book; and that notice of such call was duly given to the Member or his representatives sued in pursuance of these Articles; and it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board meeting at which any call was made nor that the meeting at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.
63.	Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of

Article Number	Content
	the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.
64.	<p>a) The Board may, if it thinks fit, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the moneys so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing: provided that moneys paid in advance of calls on shares may carry interest but shall not confer a right to dividend or to participate in profits.</p> <p>b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the moneys so paid by him until the same would but for such payment become presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.</p>
LIEN	
65.	<p>a) The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends, onuses or interest from time to time declared in respect of such shares/ debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures.</p> <p>b) The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.</p>
66.	<p>a) For the purpose of enforcing such lien the Board may sell the shares subject thereto in such manner as they think fit but no sale shall be made unless a sum in respect of which the lien exists is presently payable and until notice in writing of the intention to sell shall have been served on such Member, his executors or administrators or his committee or other legal representatives as the case may be and default shall have been made by him or them in the payment of the sum payable as aforesaid for seven days after the date of such notice.</p> <p>b) To give effect to any such sale the Board may authorize some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer.</p> <p>c) Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.</p>
67.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.
FORFEITURE AND SURRENDER OF SHARES	
68.	If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same or any such extension thereof, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all

	reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment.
69.	<p>a) The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid.</p> <p>b) The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited.</p>
70.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.
71.	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or to make any such entry as aforesaid. Provided that option or right to call of forfeited shares shall not be given to any person.
72.	Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.
73.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate not exceeding two per cent per annum more than the bank lending rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.
74.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.
75.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these Articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.
76.	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.
77.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new certificate or certificates in respect of the said shares to the person or persons entitled thereto.
78.	In the meantime, and until any share so forfeited shall be sold, re-allotted or otherwise dealt with as aforesaid, the forfeiture thereof may at the discretion and by a resolution of the Board, be remitted or

	annulled as a matter of grace and favour but not as of right, upon such terms and conditions as they think fit.
79.	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.
80.	The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit.
TRANSFER AND TRANSMISSION OF SHARES	
81.	In the case of transfer and transmission of shares or other marketable securities where the Company has not issued any certificates and where such shares or securities are being held in any electronic and fungible form in a Depository, the provisions of the Depositories Act, 1996 shall apply.
82.	Every holder of securities of the Company who intends to transfer such securities shall get such securities dematerialised before the transfer;
	Provided that, except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed by the Company unless the securities are held in the dematerialized form with a depository.
83.	Nothing contained in Section 56 of the Act or these Articles shall apply to transfer of securities issued by the Company, affected by a transferor and transferee both of whom are entered as beneficial owners in the records of a Depository.
84.	A transfer of a security in the Company of a deceased member thereof made by his legal representative shall, although the legal representative is not himself a member, be as valid as if he had been a member at the time of the execution to the instrument of transfer.
85.	Subject to the provisions of Section 58 of the Act and Section 22A of the Securities Contracts (Regulation) Act, 1956, the Board may, at its own absolute and uncontrolled discretion and after assigning the reason for same, decline to register or acknowledge any transfer of shares, whether fully paid or not (notwithstanding that the proposed transferee be already a member), send to the transferee and the transferor notice of the refusal to register such transfer provided that registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever except a lien on shares.
86.	If the Company refuses to register the transfer of any share or transmission of any right therein, the Company shall within 30 days from the date on which the instrument of transfer or intimation of transmission was lodged with the Company, send notice of refusal to the transferee and transferor or to the person giving intimation of the transmission, as the case may be, and there upon the provisions of Section 56 of the Act or any statutory modification thereof for the time being in force shall apply.
87.	There shall be paid to the Company, in respect of the transfer or transmission of any number of shares to the same party such fee, if any as the Directors may require. Provided that the Board shall have the power to dispense with the payment of this fee either generally or in any particular case.
88.	The Board of Directors shall have power, on giving not less than seven days previous notice in accordance with section 91 and Rules made thereunder, to close the Register of Members and/or the Register of debentures holders and/or other security holders at such time or times and for such period or periods, not exceeding thirty days at a time, and not exceeding in the aggregate forty-five days in each year as it may seem expedient to the Board.

	Nothing contained in this Article shall be deemed to restrict the Board to fix a record date in substitution of, or in addition to, the closure of Register of Members or debenture holder or other security holders as may be permissible under the provisions of the Act and other applicable laws.
89.	<p>a) In the case of the death of any one or more of the persons named in the Register of Members as the joint-holders of any share, the survivor or survivors shall be the only persons recognised by the Company as having any title to or interest in such share</p> <p>b) Nothing in clause (a) above shall release the estate of the deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.</p>
90.	Before recognizing any executor or administrator or legal representative, the Board may require him to obtain a Grant of Probate or Letters Administration or other legal representation as the case may be, from some competent court in India. Provided nevertheless that in any case where the Board in its absolute discretion thinks fit, it shall be lawful for the Board to dispense with the production of Probate or letter of Administration or such other legal representation upon such terms as to indemnity or otherwise, as the Board in its absolute discretion, may consider adequate.
91.	The Executors or Administrators of a deceased Member or holders of a Succession Certificate or the Legal Representatives in respect of the Shares of a deceased Member (not being one of two or more joint holders) shall be the only persons recognized by the Company as having any title to the Shares registered in the name of such Members, and the Company shall not be bound to recognize such Executors or Administrators or holders of Succession Certificate or the Legal Representative unless such Executors or Administrators or Legal Representative shall have first obtained Probate or Letters of Administration or Succession Certificate, as the case may be from a duly constituted Court in the Union of India provided that in any case where the Board of Directors in its absolute discretion thinks fit, the Board upon such terms as to indemnity or otherwise as the Directors may deem proper dispense with production of Probate or Letters of Administration or Succession Certificate and register Shares standing in the name of a deceased Member, as a Member. However, provisions of this Article are subject to Section 72 of the Act.
92.	Subject to the provisions of the Act and these Articles, any person becoming entitled to any share in consequence of the death, lunacy, bankruptcy, insolvency of any member or by any lawful means other than by a transfer in accordance with these Articles, may, with the consent of the Directors (which they shall not be under any obligation to give) upon producing such evidence that he sustains the character in respect of which he proposes to act under this Article or of his title as the Director shall require either be registered as member in respect of such shares or elect to have some person nominated by him and approved by the Directors registered as Member in respect of such shares; provided nevertheless that if such person shall elect to have his nominee registered he shall testify his election by executing in favour of his nominee an instrument of transfer in accordance with the provisions as prescribed under Act and Rules, and, until he does so, he shall not be freed from any liability in respect of such shares. This clause is hereinafter referred to as the 'Transmission Clause'.
93.	Subject to the provisions of the Act and these Articles, the Directors shall have the same right to refuse or suspend register a person entitled by the transmission to any shares or his nominee as if he were the transferee named in an ordinary transfer presented for registration.
94.	Every transmission of a share shall be verified in such manner as the Directors may require and the Company may refuse to register any such transmission until the same be so verified or until or unless an indemnity be given to the Company with regard to such registration which the Directors at their discretion shall consider sufficient, provided nevertheless that there shall not be any obligation on the Company or the Directors to accept any indemnity.
95.	The Company shall incur no liability or responsibility whatsoever in consequence of its registering or giving effect to any transfer of shares made, or purporting to be made by any apparent legal owner thereof (as shown or appearing in the Register or Members) to the prejudice of persons having or claiming any equitable right, title or interest to or in the same shares notwithstanding that the Company may have had notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice or referred thereto in any book of the Company and the Company shall not be

	bound or require to regard or attend or give effect to any notice which may be given to them of any equitable right, title or interest, or be under any liability whatsoever for refusing or neglecting so to do though it may have been entered or referred to in some book of the Company but the Company shall nevertheless be at liberty to regard and attend to any such notice and give effect thereto, if the Directors shall so think fit.
96.	In the case of any share registered in any register maintained outside India the instrument of transfer shall be in a form recognized by the law of the place where the register is maintained but subject thereto shall be as near to the form prescribed in as prescribed under the relevant Rules hereof as circumstances permit.
97.	No transfer shall be made to any minor, insolvent or person of unsound mind unless represented by a guardian.

NOMINATION

98.	<p>a) Notwithstanding anything contained in these Articles, every holder of securities of the Company may, at any time, nominate a person in whom his/her securities shall vest in the event of his/her death and the provisions of Section 72 of the Act, shall apply in respect of such nomination.</p> <p>b) No person shall be recognized by the Company as a nominee unless an intimation of the appointment of the said person as nominee has been given to the Company during the lifetime of the holder(s) of the securities of the Company in the manner specified under Section 72 of the Act, read with Rule 19 of the Companies (Share Capital and Debentures) Rules, 2014.</p> <p>c) The Company shall not be in any way responsible for transferring the securities consequent upon such nomination.</p> <p>d) If the holder(s) of the securities survive(s) nominee, then the nomination made by the holder(s) shall be of no effect and shall automatically stand revoked.</p>
99.	<p>A nominee, upon production of such evidence as may be required by the Board and subject as hereinafter provided, elect, either-</p> <p>a) to be registered himself as holder of the security, as the case may be; or</p> <p>b) to make such transfer of the security, as the case may be, as the deceased security holder, could have made;</p> <p>c) if the nominee elects to be registered as holder of the security, himself, he shall deliver or send to the Company, a notice in writing signed by him stating that he so elects and such notice shall be accompanied with the death certificate of the deceased security holder;</p> <p>d) a nominee shall be entitled to the same dividends and other advantages to which he would be entitled to, if he were the registered holder of the security except that he shall not, before being registered as a member in respect of his security, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company.</p>

Provided further that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share or debenture, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable or rights accruing in respect of the share or debenture, until the requirements of the notice have been complied with.

CONVERSION OF SHARES INTO STOCK

100.	The Company may, by ordinary resolution in General Meeting. (a) convert any fully paid-up shares into stock; and (b) re-convert any stock into fully paid-up shares of any denomination.
101.	The holders of stock may transfer the same or any part thereof in the same manner as and subject to the same regulation under which the shares from which the stock arose might before the conversion have been transferred, or as near thereto as circumstances admit, provided that, the Board may, from time to time, fix the minimum amount of stock transferable so however that such minimum shall not exceed the nominal amount of the shares from which the stock arose.

Article Number	Content
102.	The holders of stock shall, according to the amount of stock held by them, have the same rights, privileges and advantages as regards dividends, participation in profits, voting at meetings of the Company, and other matters, as if they hold the shares for which the stock arose but no such privilege or advantage shall be conferred by an amount of stock which would not, if existing in shares, have conferred that privilege or advantage.
103.	Such of the regulations of the Company (other than those relating to share warrants), as are applicable to paid-up share shall apply to stock and the words “share” and “shareholders” in those regulations shall include “stock” and “stockholders” respectively.

	<p>Meeting.</p> <p>b) If at any time there are not within India sufficient Directors capable of acting to form a quorum, or if the number of Directors be reduced in number to less than the minimum number of Directors prescribed by these Articles and the continuing Directors fail or neglect to increase the number of Directors to that number or to convene a General Meeting, any Director or any two or more Members of the Company holding not less than one-tenth of the total paid up share capital of the Company may call for an Extra-Ordinary General Meeting in the same manner as nearly as possible as that in which meeting may be called by the Directors.</p>
118.	Any valid requisition so made by Members must state the object or objects of the meeting proposed to be called, and must be signed by the requisitionists and be deposited at the Registered Office; provided that such requisition may consist of several documents in like form, each signed by one or more requisitionists.
119.	Upon the receipt of any such requisition, the Board shall forthwith call an Extraordinary General Meeting, and if they do not proceed within twenty-one days from the date of the requisition being deposited at the Registered Office, to cause a meeting to be called for a day not later than forty-five days from the date of deposit of the requisition, meeting may be called and held by the requisitionists themselves within a period of three months from the date of the requisition.
120.	Giving not less than clear twenty-one days' notice (either in writing or electronic mode) of every General Meeting, Annual or Extraordinary, specifying the place, date, day, hour, and the general nature of the business to be transacted thereat, shall be given in the manner hereinafter provided, to such persons, as given under Act, entitled to receive notice from the Company. A General Meeting may be called after giving shorter notice if consent is given in writing or by electronic mode a) in case of Annual General Meeting, by not less than ninety five percent of the members entitled to vote at such meeting and b) in case of any other General Meeting, by majority in number of members entitled to vote and who represent not less than ninety-five per cent. of such part of the paid-up share capital of the company as gives a right to vote at the meeting. In the case of an Annual General Meeting, if any business other than (i) the consideration of financial statements and the reports of the Board of Directors and auditors, (ii) the declaration of dividend, (iii) the appointment of Directors in place of those retiring, (iv) the appointment of, and fixing of the remuneration of, the Auditors is to be transacted, there shall be annexed to the notice of the Meeting a statement setting out all material facts concerning each such item of business, including in particular the nature or concern (financial or otherwise) and extent of the interest, if any, therein of every Director, Manager, Key Managerial Personnel, and their relatives (if any). Where any item of business consists of the approval of any document the time and place where the document can be inspected shall be specified in the statement aforesaid.
121.	The accidental omission to give any such notice as aforesaid to any member, or other person to whom it should be given or the non-receipt thereof, shall not invalidate any resolution passed at any such Meeting.
122.	No General Meeting, Annual or Extraordinary shall be competent to enter upon, discuss or transfer any business which has not been mentioned in the notice or notices upon which it was convened.
123.	No business shall be transacted at any General Meeting, unless the requisite quorum is present at the time when the meeting proceeds to business. The quorum for a general meeting shall be the presence in person of such number of members as specified in Section 103 of the Act. A body corporate being a Member shall be deemed to be personally present if represented in accordance with Section 113 of the Act.
124.	If, at the expiration of half an hour from the time appointed for the Meeting a quorum of Members is not be present, the Meeting, if convened by or upon the requisition of Members, shall be dissolved, but in any other case it shall stand adjourned to the same day in the next week or if that day is a public holiday until the next succeeding day which is not a public holiday, at the same time and place or to such other day and at such other time and place as the Board may determine; and if at such adjourned Meeting a quorum of Members is not present at the expiration of half an hour from the time appointed for the Meeting, those Members who are present shall be a quorum, and may, transact the business for which the Meeting was called.

125.	The Chairperson of the Board shall be entitled to take the chair at every General Meeting, whether Annual or Extraordinary. If there be no such Chairperson, or if at any Meeting the Chairperson is not present within fifteen minutes of the time appointed for holding such Meeting or is unwilling to act as a Chairperson, then the Directors present shall elect one of them as Chairperson of the meeting, and if no Director be present or if all the Directors present decline to take the chair, then the Members present shall elect one of their number to be Chairperson.
126.	No business, except the election of a Chairperson, shall be discussed at any General Meeting whilst the Chair is vacant.
127.	<p>a) The Chairperson may, with the consent of any meeting at which a quorum is present, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place.</p> <p>b) No business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place.</p> <p>c) When a meeting is adjourned sine die or for thirty days or more, notice of the adjourned meeting shall be given as in the case of an original meeting.</p> <p>d) Save as aforesaid, and as provided in section 103 of the Act, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.</p>
128.	In the case of an equality of votes the Chairperson shall on a poll (if any) and e-voting, have casting vote in addition to the vote or votes to which he may be entitled as a Member.
129.	Unless a Poll is demanded or voting is carried out electronically, a declaration by the Chairperson that a resolution has, on a show of hands, been carried or carried unanimously, or by a particular majority, or lost, and an entry to that effect in the books containing the minutes of the proceedings of the Company shall be conclusive evidence of the said fact, without proof of the number or proportion of the votes recorded in favour of or against such resolution
130.	The Board may in its absolute discretion, on giving not less than 7 (seven) clear days' notice in accordance with these Articles, postpone or cancel any meeting of members except a meeting called pursuant to members requisition.
131.	If a poll is demanded as aforesaid the same shall be taken in such manner as prescribed under the Act.
132.	Any poll duly demanded on the election of Chairperson of the meeting or any question of adjournment shall be taken at the meeting forthwith.
133.	The demand for a poll except on the question of the election of the Chairperson and of an adjournment shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded.
134.	The Board, and the persons authorized by it, shall have the right to take and/or make suitable arrangements for ensuring the safety of any meeting – whether a general meeting or a meeting of any class of Security, or of the persons attending the same, and for the orderly conduct of such meeting, and notwithstanding anything contained in these Articles, any action, taken pursuant to this Article in good faith shall be final and the right to attend and participate in such meeting shall be subject to the decision taken pursuant to this Article.
135.	Pursuant to the applicable provisions of Companies Act, 2013 read with rules made thereunder and other applicable laws, rules & regulations the Company may provide e-Voting facility to Members.

VOTES OF MEMBERS

136.	No Member shall be entitled to vote either personally or by proxy at any General Meeting or Meeting of a class of shareholders either upon a show of hands, upon a poll or electronically, or be reckoned in a quorum in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid or in regard to which the Company has exercised, any right or lien.
137.	Subject to the provision of these Articles and without prejudice to any special privileges, or restrictions as to voting for the time being attached to any class of shares for the time being forming part of the capital of the company, every Member, not disqualified by the last preceding Article shall be entitled to be present, and to speak and to vote at such meeting, and on a show of hands every member present in person

201.	The seal of the Company, if any shall not be affixed to any instrument except by the authority of a resolution of the Board or of a committee of the Board authorized by it in that behalf, and except in the presence of at least one director or the manager, if any, or of the secretary or such other person as the Board may appoint/authorize for the purpose; and such director or manager or the secretary or other person aforesaid shall sign every instrument to which the seal of the Company is so affixed in their presence.
DIVIDEND AND RESERVES	
202.	<p>a) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the Company, dividends may be declared and paid according to the amounts of the shares.</p> <p>b) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this Article as paid on the share.</p>
203.	The Company in General Meeting may declare dividends, to be paid to members according to their respective rights and interests in the profits and may fix the time for payment and the Company shall comply with the provisions of Section 123 of the Act, but no dividends shall exceed the amount recommended by the Board of Directors, but the Company may declare a smaller dividend in general meeting.
204.	<p>a) The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, thinks fit.</p> <p>b) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve</p>
205.	Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.
206.	The Directors may retain any dividends on which the Company has a lien and may apply the same in or towards the satisfaction of the debts, liabilities or engagements in respect of which the lien exists.
207.	All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid but if any share is issued on terms providing that it shall rank for dividends as from a particular date such share shall rank for dividend accordingly.
208.	The Board of Directors may retain the dividend payable upon shares in respect of which any person under Articles has become entitled to be a member, or any person under that Article is entitled to transfer, until such person becomes a member, in respect of such shares or shall duly transfer the same.
209.	No member shall be entitled to receive payment of any interest or dividend or bonus in respect of his share or shares, whilst any money may be due or owing from him to the Company in respect of such share or shares (or otherwise however, either alone or jointly with any other person or persons) and the Board of Directors may deduct from the interest or dividend payable to any member all such sums of money so due from him to the Company.
210.	A transfer of shares does not pass the right to any dividend declared thereon before the registration of the transfer.
